### SECTION 3: RISK FACTORS

*An investment in the Debentures involves a certain degree of risk. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with the Issuer's business or any decision to purchase, own or dispose off the Debentures. Prospective investors should carefully consider the risks and uncertainties described below, in addition to the other information contained in this Preliminary Placement Memorandum before making any investment decision relating to the Debentures.*

*The following risks include risk envisaged by the management of the Issuer relating to the Issuer, the Debentures, the projects, the market in general and those risks which are external and beyond the control of the Issuer. Potential investors should carefully consider all the risk factors in this Preliminary Placement Memorandum for evaluating the Issuer, its business and the Debentures before making any investment decision relating to the Debentures. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Debentures but does not represent that the statements below, regarding the risks of holding the Debentures are exhaustive. The risks and uncertainties described in this Section 3 (Risk Factors) are not the only risks that the Issuer currently faces. Additional risks and uncertainties not known to the Issuer may also have an adverse effect on the Issuer's business, results of operations and financial condition. The market prices of the Debentures could decline due to such risks and potential investors may lose all or part of their investment.*

*This Preliminary Placement Memorandum contains statements that involve risk and uncertainties. The Issuer's actual results could differ materially from those anticipated as a result of several factors, including the considerations described below and elsewhere in this Preliminary Placement Memorandum.*

*Unless otherwise indicated, the financial information included herein is based on the Issuer's audited financial statements as included in paragraph 7(l)(a)(Abridged Balance Sheet, Income and Expenditure and Receipts and Payment Accounts for the last three years with major heads) of Section 4 (Regulatory Disclosures) on page 49 of this Preliminary Placement Memorandum.*

*Investors are advised to read the following risk factors carefully before making an investment in the Debentures offered in this Issue. Potential investors must rely on their examination of the Issuer and this Issue, including the risks and uncertainties involved.*

*The order of the risk factors is intended to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another. Potential investors should also read the detailed information set out elsewhere in this Preliminary Placement Memorandum and reach their own views prior to making any investment decision.*

*If any of the following stated risks or other risks that are not currently known or are now deemed immaterial actually occur, the Issuer's business, financial conditions, implementation of projects could suffer and, therefore, the value of the Issuer's Debentures could decline and/ or the Issuer's ability to meet its obligations in respect of the Debentures could be affected. Potential investors should perform their own independent investigation of the financial condition and affairs of the Issuer, and their own appraisal of the creditworthiness of the Issuer. Potential investors should consult their own financial, legal, tax and other professional advisors as to the risks and investment considerations with respect to the Debentures. Potential investors should thereafter reach their own views prior to making any investment decision.*

*Please note that unless specified or quantified in the relevant risk factors, the Issuer is not in a position to quantify the financial or other implications of any risk mentioned hereinbelow:*

#### INTERNAL RISK FACTORS

##### 3.1 Repayment is subject to the credit risk of the Issuer

Potential investors should be aware that receipt of the payments that may be due in respect of the Debentures is subject to the credit risk of the Issuer. Potential investors assume the risk that the Issuer will not be able to satisfy their obligations under the Debentures. The Issuer has income from its own sources comprising of tax revenues, assigned revenues and compensation, fees and user charges (net of provisions and write-off of property tax) aggregating to approximately Rs. 330,40,79,927.54/- (Rupees Three Hundred and Thirty Crores Forty Lakhs Seventy Nine Thousand Nine Hundred and Twenty Seven

decimal point Five Four) in Financial Year 2018-2019 and approximately Rs. 362,79,04,711.05/- (Rupees Three Hundred and Sixty Two Crores Seventy Nine Lakhs Four Thousand Seven Hundred and Eleven decimal point Zero Five) in Financial Year 2017-2018. The Issuer has reported net balances being surplus carried over to municipal fund of Rs. 55,92,27,956.16/- (Rupees Fifty Five Crores Ninety Two Lakhs Twenty Seven Thousand Nine Hundred and Fifty Six decimal point One Six) in Financial Year 2018-2019 and Rs. 26,44,70,740.23/- (Rupees Twenty Six Crores Forty Four Lakhs Seventy Thousand Seven Hundred and Forty decimal point Two Three) in Financial Year 2017-2018. The Issuer believes that income generated is adequate for building up the funds in the Interest Payment Account and the Sinking Fund Account for meeting the obligations of the Issuer in respect of the Debentures.

### 3.2 Rating Downgrade Risk

India Ratings has *vide* its letter dated February 12, 2020 as revalidated *vide* its letter dated March 5, 2020 assigned a rating of 'Provisional IND AA/ Stable' in respect of the Debentures. BWR has *vide* its letter dated January 31, 2020 as revalidated *vide* its letter dated March 4, 2020 assigned a rating of 'Provisional BWR AA (CE)/ Stable' (pronounced 'Provisional BWR Double A (Credit Enhancement)') in respect of the Debentures. The Issuer cannot guarantee that these credit ratings will not be downgraded by the Rating Agencies in future. The ratings provided by the Rating Agencies may be suspended, withdrawn or revised at any time including without limitation on financial deterioration of the Issuer. Any revision or downgrading in the above credit rating may lower the value of the Debentures and may also affect the Issuer's ability to raise further debt. In such cases where the value of the Debentures decreases, potential investors may incur losses on sale of their investment in the secondary market.

Further, in terms of the rating rationale issued by BWR on February 5, 2020 and India Ratings on February 12, 2020, the outlook has been kept as Stable as the Debentures carry a structured payment mechanism with sufficient times provided for funding support from various sources, credit enhancement from the Infrastructure Development Fund and the expectation that the Issuer's performance is likely to remain consistent from cash flows from property taxes and fees and user charges, grants from the government and net surplus being available.

### 3.3 Inconsistent Revenue Collection

The revenue collections of the Issuer vary from month to month. Shortage in collections in any period may result in a mismatch in revenue and expenditure of the Issuer and the funds may be inadequate for transfer to the Escrow Account. Such shortfall will impact the Issuer's financial condition and the Issuer's ability to meet its obligations in respect of the Debentures. The obligations towards Debentures are covered through the structured payment mechanism and any shortfall towards payments to be made in respect of the Debentures will be transferred from the Infrastructure Development Fund by the GoUP, in terms of the Transaction Documents.

### 3.4 Outstanding Litigations

The Issuer is a party to various legal proceedings and has received notices from certain statutory authorities. These legal proceedings are pending at different levels of adjudication before various courts, tribunals, statutory and regulatory authorities, and if determined against the Issuer, could have an adverse impact on the business, implementation of projects, income and the financial condition of the Issuer. No assurances can be given as to whether these legal proceedings will be decided in the Issuer's favour or have no adverse outcome, nor can any assurance be given that no further liability/ loss will arise out of any claims/ final outcome. The details of material litigations involving the Issuer are set out in paragraph 8(i) (*Pending Litigations and Material Developments*) of Section 4 (*Regulatory Disclosures*) on page 62 of this Preliminary Placement Memorandum.

A majority of the documents in respect of the aforementioned proceedings are in vernacular language and accurate translations are not available for all of them and hence, may not cover the full description of such proceedings. Further, the Issuer does not have the records of the cases involving the Issuer which were filed prior to the year 2012 and any liability arising from any such proceedings against the Issuer cannot be ascertained. It may be noted that the number of proceedings in which the Issuer is involved is not unusual for a municipal corporation of a major city like Lucknow.

FOR PRIVATE CIRCULATION ONLY AND CONFIDENTIAL (For the Addressee only)

The Issuer has high outstanding receivables which are mainly property tax due from various property owners. The amount of receivables has increased from Rs. 607,00,52,527.99/- (Rupees Six Hundred and Seven Crores Fifty Two Thousand Five Hundred and Twenty Seven decimal point Nine Nine) in Financial Year 2017-2018 to Rs. 625,82,78,512.16/- (Rupees Six Hundred and Twenty Five Crores Eighty Two Lakhs Seventy Eight Thousand Five Hundred and Twelve decimal point One Six) in Financial Year 2018-2019. Such a trend of increasing receivables and write-offs will have an impact on the financial condition of the Issuer.

### 3.6 Low collection ratios

The current collection ratios of property tax which is one of the main source of own revenue for the Issuer are low at 58.86%\* (Fifty Eight decimal point Eight Six percent) in Financial Year 2018-2019. However, the Issuer has seen an improvement in the current collection ratios due to various reforms adopted by the Issuer in the past. The current collection ratios have improved from 42.60% (Forty Two decimal point Six Zero percent) and 46.77%\* (Forty Six decimal point Seven Seven percent) in Financial Year 2016-2017 and Financial Year 2017-2018 respectively.

\*For further details please refer to the details of property tax collection in paragraph 7(III) (Details of Property Tax Collection) of Section 4 (Regulatory Disclosures) on page 55 of this Preliminary Placement Memorandum

### 3.7 Dependency on Information Technology

The Issuer's operations are dependent on information technology. The Issuer has undertaken various reforms towards digitisation of payment of property tax and other services. A failure, inadequacy or security breach in the information technology and telecommunication systems or an inability to adapt to rapid technological changes may adversely affect the Issuer's business, timely collection of taxes and the Issuer's financial condition.

The Issuer's ability to maintain and upgrade its information technology systems and infrastructure on a timely and cost-effective basis, including the ability to process a large number of transactions on a daily basis may have an impact on the Issuer's business. The Issuer's operations also rely on the secure processing, storage and transmission of confidential and other information in its computer systems and networks. The Issuer's financial, accounting or other data processing systems, real-time property tax collection data and its website are hosted on the cloud or at data centres. These services may fail to operate adequately or become disabled as a result of events that may be beyond the Issuer's control, including a disruption of electrical or communications services. Further, the computer systems, software and networks may be vulnerable to unauthorised access, computer viruses or other attacks that may compromise data integrity and security and result in information or identity theft.

### 3.8 Reliance on third-party intermediaries

The Issuer while undertaking various projects relies on third-party intermediaries, contractors and service providers who may not perform their obligations satisfactorily or in compliance with Applicable Law.

The Issuer enters into outsourcing arrangements/ contracts with civil contractors for undertaking various civil contracts and with third party vendors for providing various services. Any failure by the contractors or service providers to provide a specified service or a breach in security/ confidentiality or non-compliance with legal and regulatory requirements may result in financial loss, loss of reputation, delay in the projects and have an adverse impact on the financial condition of the Issuer.

### 3.9 Leakage of tax collection may affect volume of collections and inflows which may in turn affect the ploughed back capital and grants the Issuer receives from Gol/ GoUP, and the Issuer's future execution capabilities and revenue collections

FOR PRIVATE CIRCULATION ONLY AND CONFIDENTIAL (For the Addressee only)

The tax collections are primarily dependent on the integrity of tax/ charges collection systems and any leakage in the same due to fraud or technical faults affects the Issuer's collections and inflows and may affect the ploughed back capital and grants which the Issuer receives from the Gol/ GoUP, resulting in reduction of the Issuer's future execution capabilities.

If the tax collection is not properly monitored, such tax leakages may reduce the Issuer's revenue. Although the Issuer has systems in place to minimise leakages due to fraud and pilfering, yet any significant failure by the Issuer to control leakage in the collection systems, though not quantifiable monetarily, could have a material adverse effect on the Issuer's operations and prospects. Further, any leakage in the collections resulting in avoidance of payment of taxes/ charges, may also adversely affect the Issuer's operations. Further, there may be situations where the tax/ charges collection is disrupted or halted due to public agitation which may result in lesser revenue collection by the Issuer. Any such disruption or stoppage of tax/ charges collection will adversely affect the Issuer's revenue collections.

### 3.10 Auditor Observations

The other observations of the Auditor reported on the audit of accounts were as follows:

*"(1) The Nigam has incorporated land in this year of Rs. 12,88,01,38,435.00 as per the valuation done by Tehsildar. Accordingly to take the effect of the same Municipal General Reserve Fund has been created. (2) It was also observed that still few of the accounts are showing negative balances. The list of those accounts are:*

FOR PRIVATE CIRCULATION ONLY AND CONFIDENTIAL (For the Addressee only)

### 3.11 Financial Risk

The Issuer's ability to pay Coupon accrued on the Debentures and/or the principal amounts outstanding from time to time in connection therewith would be subject to various factors, including *inter alia* the Issuer's financial condition, profitability, revenue generation and general economic conditions prevailing in India and in the global financial markets. The Issuer is creating a structured payment mechanism through which the property tax and user charges are being routed to ensure 100% (One Hundred percent) cover for the Debentures and interest accrued thereon and the Issuer has created sufficient security to cover the repayments of the Debentures.

### 3.12 Labour Related Risks

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for discharge of employees and dispute resolution and imposes financial obligations on employers upon employee layoffs. As a result of such stringent labour regulations, it is difficult for the Issuer to maintain flexible human resource policies, discharge employees or downsize, which may adversely affect our business, financial condition and results of operations. Additionally, some of the Issuer's employees are part of certain industry labour unions and such unions could result in labour unrest. Strikes or work stoppages or any mishaps/ accidents impacting the labour in future could have an adverse impact on the Issuer's operations.

The Issuer, from time to time, for certain activities, appoints independent contractors who in turn may engage on-site contract labour for performance of certain activities. The Issuer may be held responsible for any payment of wages/ compensate for any accidents or losses relating to such contracted labourers in certain cases even though such labourers are not directly engaged by the Issuer. Such an event may have an adverse impact on the Issuer's financial position and operations.

### 3.13 The Issuer has not procured any insurance coverage for labourers for any contingency, which may adversely affect the Issuer's business, results of operations and financial condition

The Issuer has not taken any insurance policy to safeguard or protect the Issuer's labourers from any illness or injuries that may occur in the course of their employment. If any such incidents or accidents happen and the labourers are affected, the Issuer may have to pay compensations for the same and it may result into interruption or increase in our labour costs. If the Issuer is held liable for large uninsured losses or amounts in this respect, the Issuer's business, results of operations and financial condition may be materially and adversely affected.

### 3.14 The Issuer has certain contingent liabilities, the materialisation of which may adversely affect the Issuer's financial condition

The Issuer, in the ordinary course of its business, is involved in various claims, suits, investigations, and legal proceedings that arise from time to time. Although the Issuer does not expect that the outcome in any of these legal proceedings, individually or collectively, will have a material adverse effect on the Issuer's financial position or results of operations, yet litigation is inherently unpredictable. Therefore, the Issuer could incur judgements or enter into settlements of claims that could adversely affect the Issuer's operating results or cash flows in a particular period. As on the date of this Preliminary Placement Memorandum, there are a number of ongoing civil and consumer claims against the Issuer and for which no provision for contingent liabilities has been recognized in the Issuer's financial statements. The outcomes of these cases are remote and the financial implications are not ascertainable. In the event that any of these contingent liabilities materialise, the Issuer's financial condition may be adversely affected. For details of non payment of statutory dues of the Issuer, please refer to Paragraph 8(vii) (*Legal and Other Information*) on page 67 of this Preliminary Placement Memorandum.

### 3.15 Dependence on Grants

The projects undertaken by the Issuer are very capital intensive and any reduction in budgetary allocation of capital, funding or grants by the GoI and GoUP may materially affect the Issuer's performance and asset generation capacity. Further, the growth plans of the Issuer are mainly determined by the amount of grants and support in the form of budgetary allocations and any adverse developments in the policy of

FOR PRIVATE CIRCULATION ONLY AND CONFIDENTIAL (For the Addressee only)

the government in the manner in which it seeks to address the development of the infrastructure needs of India will have a material and adverse effect on the Issuer's operations. Moreover, if the funding from grants decreases or if there is any adverse change in the pattern of allocation of the tax collected by Gol or if there is a downturn in the macroeconomic environment in India or in the sectors which are directly dependent on the infrastructure projects that the Issuer undertakes/ proposes to undertake, the result of the Issuer's operations and future performance could be materially and adversely affected.

## **EXTERNAL RISK FACTORS**

### **3.16 The secondary market for the Debentures may be less liquid**

The Debentures may be less liquid, and no secondary market may develop in respect thereof. Even if there is a secondary market for the Debentures, it is not likely to provide significant liquidity. Potential investors may have to hold the Debenture until redemption to realise any value.

### **3.17 There is no guarantee that the Debentures issued pursuant to this Issue will be listed on the stock exchanges in a timely manner, or at all**

In accordance with Applicable Law, permissions for listing and trading of the Debentures issued pursuant to this Issue will not be granted until the Debentures have been issued and allotted. Approval for listing and trading will require all relevant documents authorising the issuance of the Debentures to be submitted. There could be a failure or delay in listing the Debentures on the BSE. However, the Issuer shall do all necessary actions for listing of the Debentures in timely manner.

### **3.18 Tax considerations and Legal considerations**

Special tax considerations and legal considerations may apply to certain types of investors. Potential investors are urged to consult with their own financial, legal, tax and other professional advisors to determine any financial, legal, tax and other implications of this investment.

### **3.19 Accounting considerations**

Special accounting considerations may apply to certain types of taxpayers. Potential investors are urged to consult with their own accounting advisors to determine implications of this investment.

### **3.20 Material changes in regulations to which the Issuer is subject could impair the Issuer's ability to meet payment or other obligations**

The Issuer is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Issuer or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

### **3.21 Legality of purchase**

Potential investors of the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates or for compliance by that potential investor with any law, regulation or regulatory policy applicable to it.

### **3.22 Government Policies**

The Issuer's operations are dependent on the policies of the government, central as well as state initiatives. Any changes in government policies detrimental to the Issuer may affect the collection of revenue of the Issuer and may also affect the management of the expenditure of the Issuer. Any lack of support in terms of regulatory initiatives will adversely affect the Issuer's operations, as will any delayed response in policy alteration or other regulatory impediments, which will adversely affect the Issuer's operations. Additionally, policies of central and state government which mandate urban local bodies to focus on development in certain specific sectors or areas will affect the Issuer's projects and operations.

FOR PRIVATE CIRCULATION ONLY AND CONFIDENTIAL (For the Addressee only)

### **3.23 Political Scenario**

Periodic elections and/ or rotation of the officers might pose a risk to the business of the Issuer since a change in the government might shift the policy focus for the municipal corporation which will impact the ongoing activities of the Issuer. Such changes in policy focus might affect the relative priority of capital expenditures for the Projects and other projects undertaken by the Issuer. However, this will not impact the repayment of the Debentures, as the structured payment mechanism would ensure timely repayment of interest and principal of the Debentures.

### **3.24 Decentralisation**

The Issuer has legislative and operational control over its operating revenues, expenditures and capital plans. However, the Issuer also receives grants from the state and the central government and changes in the grants from state and central government, their revenue sources and regulatory frameworks could have an effect on the credit profile of the Issuer.

## **PROJECT RISK FACTORS**

### **3.25 The Projects are not revenue generating projects and the Issuer may not be able to adhere to the timelines.**

The Jankipuram Water Supply Project in Abhishekpuram at Lucknow is meant to provide better water management facilities to the citizens by providing piped water supply facilities to these areas and the Aurangabad-Khalsa Residential Project is meant for providing the residents with housing along with internal development, water supply, sanitation and park.

The projects are supposed to be financed through the proceeds of the Issue and grants from GoUP and Gol. A funding gap may develop due to cost overrun, in which case it could pose a contingent budgetary risk for Issuer or result in a request to the standing committee for additional borrowings for these projects. There is also a possibility that the projects may be delayed due to issues in relation to the work force or the contractors.

The Issuer has applied for the required approvals for the projects, however, certain approvals that have been applied for by the Issuer are yet to be received (including the approval from the State Environment Impact Assessment Authority (SEIAA), Directorate of Environment, UP, Lucknow with respect to the Aurangabad-Khalsa Residential Project). Delay in obtaining such approvals/ non receipt may defer the project timelines. The projects are also susceptible to the policies of the state and cost overruns, however, these will not affect the debt servicing of the Debentures, which are backed by the appropriate revenues of the Issuer, to be collected and remitted to the Escrow Account for payment during tenure of Debentures.

With respect to the Aurangabad-Khalsa Residential Project, the Lucknow Omaxe City Residents Allottees Association and others have filed a writ petition in the High Court of Allahabad, Lucknow Bench against the action of the Issuer in connection with demolition of a part of the boundary wall built around the Omaxe City (a township). For further details with respect to this proceeding, please refer to paragraph 8 (*Legal and Other Information*) of Section 4 (*Regulatory Disclosures*) on page 62 of this Preliminary Placement Memorandum.

### **3.26 Fund requirement mentioned in the Objects of the Issue have not been appraised by any governmental or regulatory body, bank or financial institution**

The proceeds of the Issue are intended to be used towards the Projects identified under paragraph 4(a) (*The proceeds of the proposed issue shall be clearly earmarked for a defined project or a set of projects along with the location of the project and plant and machinery, technology, process, etc.*) of Section 4 (*Regulatory Disclosures*) on page 36 of this Preliminary Placement Memorandum. The fund requirement and deployment is based on internal estimates and the detailed project reports prepared by the architects (in respect of the Aurangabad-Khalsa Residential Project) and approved by the Issuer's internal project teams. The costs of the Projects are indicative and has not been appraised by any governmental or regulatory body, bank or financial institution.

**3.27 Delay in Implementation Schedule**

The schedule of implementation of the Projects may not be achieved due to several external reasons including non-availability of timely grants, non-availability of approvals, delays because of third party contractors etc. Though the cash inflows from the Projects are not earmarked for servicing the obligations of the Issuer in respect of the Debentures, non-implementation of the Projects as per the schedule of implementation may affect the cash flow of the Issuer.

**3.28 Funding of the project**

The construction of the housing project under the Aurangabad-Khalsa Residential Project has to be funded from the revolving fund, inflow from the allotment and sales proceeds from the apartment as well as the fund raised by the issue of the Debentures. The delay in realisation from allottees may delay the completion of the project. However, this will not impact the debt servicing of the Debentures as the Issuer has created an escrow mechanism over property taxes and other user charges.

**3.29 Regulatory Approvals**

Regulatory approvals, sanctions, licenses, registrations and permissions may be required to be obtained by the Issuer for undertaking projects. The Issuer may not receive such approvals (including the approval from the State Environment Impact Assessment Authority (SEIAA), Directorate of Environment, UP, Lucknow with respect to the Aurangabad-Khalsa Residential Project) or be able to renew such approvals within the time frames anticipated by the Issuer or at all, which could adversely affect the Issuer. If the Issuer does not receive, renew or maintain such regulatory approvals required to operate the Issuer's business, the same may impede the effective operations of the Issuer in the future. Additionally, any historical or future failure to comply with the terms and conditions of the existing regulatory or statutory approvals may cause the Issuer to lose or become unable to renew such approvals.

**3.30 Exploring new ventures**

The Issuer is basically providing services for civic amenities to the residents of Lucknow and real estate is a new venture for the Issuer. The customer/ allottee's response to the housing project under the Aurangabad-Khalsa Residential Project is a challenge in the present scenario of real estate sector. Though the Issuer has the required expertise for the execution of the projects, the selling and marketing of the projects might pose a challenge to the Issuer given the current economic scenario and real estate scenario in India.

**3.31 Real Estate Market Scenario**

With the proposed housing project under the Aurangabad-Khalsa Residential Project, the Issuer will have exposure to the real estate sector and any negative events affecting this sector could adversely affect the Issuer's business and financial condition. In the event the real estate sector is adversely affected due to a decline of demand for real estate properties, changes in regulations or other trends or events, which negatively impact the real estate sector, the value of Issuer's collaterals may diminish which may affect the Issuer's business. Among the various regulatory developments that have impacted the real estate sector recently, the implementation of the Real Estate (Regulation and Development) Act, 2016, as amended ("**RERA Act**") is expected to have the biggest impact over the long term. After notification of certain sections of the RERA Act with effect from May 2016, the full provisions of the RERA Act became effective from May 2017 onwards. Subsequent to this, the obligations of real estate project developers under the provisions of the RERA Act, including mandatory project registration, enhanced disclosure norms and penal provisions for violation of rules have become effective across India. While most of the state governments have notified rules in relation to the RERA Act, other states are in the process of doing so. These developments could adversely affect the Issuer's business and financial condition.

To ensure adequacy of funds for redemption of the bonds, a Sinking Fund Account shall be opened where amounts shall be deposited for redemption of the principal amounts of the Debentures. There is sufficient revenue generation/collection from property tax and fees and user charges for timely servicing and redemption. The total collection from property tax and fees and user charges during the last 3 (Three) Financial Years is approximately Rs. 280.63 Crores (Financial Year 2018-2019), Rs. 230.44 Crores (Financial Years 2017-2018) and Rs. 242.17 Crores (Financial Years 2016-2017).

VII. Estimated Scenarios of Asset Liability Mis-matches, efforts intended to resolve the same:

As there is sufficient tax collection, there does not seem to be any scenario of asset liability mismatch. With respect to the repayment of debt and revenue generation, the Debentures are to be paid from own revenues (property tax and fees and user charges) of the Issuer. The current collections are sufficient to ensure the redemption of the Debentures. The structured payment mechanism as provided in this Preliminary Placement Memorandum shall ensure that the funds deposited over period will be sufficient to service the Debentures. Further tax collections are estimated to remain sufficient; therefore we do not foresee any scenario of Asset Liability mismatch in future as well. Further, any shortfall towards payments to be made in respect of the Debentures will be transferred from the Infrastructure Development Fund by the GoUP, in terms of the Transaction Documents.

- (v) Other pending litigation - As per the policy of materiality defined by the Board of Directors of the Issuer and disclosed in the offer document/placement memorandum.

Issuer:

Based on the materiality threshold defined by the Bond Issue Committee, set out below are the other material litigation pending with respect to the Issuer:

- A. The Issuer has filed a writ petition before the Hon'ble High Court of Allahabad, Lucknow Bench to quash proceedings of the sale of land leased out by the Issuer to Uptron Digital Systems Limited ("**Respondent**"). The said land was leased out to the Respondent for a period of 30 (Thirty) years towards payment of certain amounts by the Respondent to the Issuer as premium. Further, the Respondent was also required to make payment of a certain amount as rent per year to the Issuer in respect of the said land. The Respondent had availed of loans from various financial institutes including IFCI Limited and in this regard created an equitable mortgage over the said land to secure such loans. The Issuer issued a non-objection certificate in this regard. The Respondent

FOR PRIVATE CIRCULATION ONLY AND CONFIDENTIAL (For the Addressee only)

defaulted in making payments due in respect of such loans and as a result of the same, IFCI Limited took possession of the said land and initiated the process for sale of the said land under the provisions of the Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 without providing any notice to the Issuer. The Issuer has filed the said writ petition for: (i) issuance of a writ of certiorari for quashing the proceedings of the sale of the leased land; and (ii) a writ of mandamus to stop confirmation of the sale of the said leased land on the grounds, *inter alia*, that the Issuer was not informed by IFCI Limited of such enforcement action and that the claim of IFCI Limited is barred by the period of limitation. The Hon'ble High Court has completed hearing the matter and has reserved its order.

- B. The Lucknow Omaxe City Residents Allottees Association and others ("**Resident Association**") have filed a writ petition in the Hon'ble High Court of Allahabad, Lucknow Bench against the action of the Issuer in connection with demolition of a part of the boundary wall built around the Omaxe City (a township). The Issuer is building the Aurangabad-Khalsa township and demolished part of the boundary wall of Omaxe City for provision of an alternate approach from Omaxe City to the new township being developed by the Issuer. The Hon'ble High Court has passed an order to maintain the status quo and the proceeding is pending hearing and final disposal.
- C. Ansal Housing and Corporation Limited ("**Claimant**") has filed an arbitration case against the Issuer to enforce an agreement dated November 16, 1993 between the Claimant and the Issuer ("**Ansal Agreement**") for the development of 70 (Seventy) acres of land for the construction and development of residential premises. The Ansal Agreement was entered into pursuant to the approval of a committee formed by the Issuer. The constitution of such committee and delegation of powers thereto was held to be illegal and in violation of the Act by the Hon'ble Supreme Court in the case of M.I. Builders Private Limited v. State of Uttar Pradesh and Others. As a result thereof, the Issuer cancelled the Ansal Agreement on the grounds that all such agreements which were entered into pursuant to the approval of the said committee were illegal. A writ petition bearing No.1133 (M/B) of 2002 filed by the Claimant against the Issuer before the Hon'ble High Court of Allahabad was dismissed and the consequential special leave petition filed by the Claimant before the Hon'ble Supreme Court was also dismissed. The Claimant had thereafter initiated arbitration proceedings against the Issuer under the Ansal Agreement. The Issuer has filed a detailed reply before the arbitrator challenging the initiation of the arbitration proceedings as there was no arbitration agreement between the Claimant and the Issuer because of the cancellation of the Ansal Agreement. The Issuer has prayed before the arbitrator to pass an appropriate order dismissing the entire arbitration proceeding as illegal and void. The proceeding is pending hearing and final disposal.
- D. One, Mr. Bharat Singh filed a civil suit against the Issuer in the year 2004 for declaration of his rights over a disputed land which is shown as a pond in the revenue records on the basis of an unregistered sale deed dated June 28, 1940. The learned Additional Civil Judge (Senior Division) Lucknow passed a judgment and decree dated February 20, 2013 declaring the right over disputed land in favour of the plaintiff and issuing permanent injunction restraining the Issuer from interfering with the disputed property. Thereafter, the Issuer had filed an appeal before the Hon'ble High Court of Allahabad, Lucknow Bench against the order of the learned Additional Civil Judge (Senior Division) Lucknow, which was also decided against the Issuer. The Issuer has now filed a special leave petition before the Supreme Court of India against the order of the Lucknow Bench of the Hon'ble High Court of Allahabad. The proceeding is pending hearing and final disposal.
- E. The Issuer and Sahara India Commercial Corporation Limited ("**Licensee**") entered into a license agreement dated October 22, 1994 ("**License Agreement**") for the development of 170 (One Hundred and Seventy) acres of land including *inter alia* residential buildings and commercial buildings. One of the conditions of the License Agreement was that the Licensee can directly allot the plots/ houses after development

FOR PRIVATE CIRCULATION ONLY AND CONFIDENTIAL (For the Addressee only)

of the said land and give possession to the allottees only after the lease deeds were executed by the Issuer with the allottees of the Licensee. The Issuer did not execute lease deeds in favour of 15 (Fifteen) allottees of the Licensee and therefore the Licensee initiated an arbitration proceeding under the License Agreement against the Issuer. The Issuer has filed an appeal against the impugned order of the arbitrator that has *inter alia* held that the Issuer shall execute the lease deed in favour of the said 15 (Fifteen) allottees of the Licensee.

- F. Jyoti Envirotech Private Limited ("**Petitioner**") had entered into a tripartite agreement dated October 23, 2010 with the Issuer and Construction and Design Services, Lucknow ("**Agreement**"). The Issuer terminated the Agreement and the Nagar Ayukt, Nagar Nigam, Lucknow *vide* its order dated February 1, 2020 held that no termination payment was required to be made under the Agreement as the termination of the contract was done on occurrence of an event of default and within one year of the commercial operation. The Petitioner filed a writ petition before the Hon'ble High Court of Allahabad, Lucknow Bench, *inter alia*, seeking for the (a) quashing of the order dated February 1, 2020 passed by the Nagar Ayukt, Nagar Nigam, Lucknow and (b) payment by the Issuer of the termination payment of an amount equal to 120% of the book value of the project (being 104.20 Crore as per the Petitioner) to the Petitioner for termination of the Agreement for designing, building and operating the waste management system where municipal solid waste is to be collected and processed. The case is pending before the Hon'ble High Court.

Credit Enhancement (CE) is in the form of funds available from the Infrastructure Development Fund - GoUP with T-Structure for meeting the shortfall of the Sinking Fund and replenishment of DSRA

**RATING ACTION / OUTLOOK**

The ratings derives its strengths from the Lucknow being the capital city of Uttar Pradesh economically and strategically important for the State, comfortable municipal fund position of LMC, DSRA of 4 half yearly coupon payments, structured payment mechanism, improvement in the collection efficiency for property tax and fees and user charges, improvement in the average monthly collection for property taxes and fees and user charges over the last three years and Corporation continuously reporting net surplus and credit enhancement available for the proposed NCD loan of ₹200.00 Crores from the undertaking for support from the Infrastructure Development Fund. However, the ratings are constrained by moderate service levels for water and sewerage, low surplus availability and the increasing receivables position of LMC.

The outlook has been kept as Stable as the Bonds carry a structured payment mechanism with sufficient times provided for funding support from various sources, credit enhancement from Infrastructure Development Fund, LMC's performance likely to remain consistent from cash flows from property taxes and fees and user charges, grants from the government and net surplus being available

## ANALYTICAL APPROACH AND APPLICABLE RATING CRITERIA

For arriving at the unsupported ratings, BWR has considered the standalone financial performance of the LMC, structured payment mechanism including Interest servicing account, upfront DSRA comprising 4 half yearly coupon dues and build up of the sinking fund account in the months preceding the due dates. Credit enhancement for CE rating has been derived from

the utilisation of the Infrastructure Development Fund for meeting the short falls in DSRA/sinking fund. BWR has applied its rating methodology as detailed in the Rating Criteria (hyperlinks provided at the end of this rationale)

#### **RATING SENSITIVITIES**

The ability of the Corporation to improve the tax revenues, collection efficiency, ensuring adequate timely availability of cash flows, continued support from the State Government and ensuring timely transfer of funds from the Infrastructure Development Fund in case of any shortfalls in sinking fund/DSRA replenishment will remain the key rating sensitivities.

**Positive:** Substantial improvement in the structured payment mechanism, tax collection efficiency, monthly collection of property taxes & fees and user charges and substantial reduction in the receivables position

**Negative:** Reduction in the monthly collection of property tax and fees and user charges or any sharp reduction in the available surplus in the Municipal Corporation and delay in meeting the shortfall in the DSRA/sinking fund obligations as per the tripartite agreement from Infrastructure Development Fund.

#### **LIQUIDITY INDICATORS**

LMC reports adequate liquidity position. As on 31 March 2019, LMC has not availed any external debt apart from unsecured loans from the Government of Uttar Pradesh. LMC has informed that the unsecured loan will be an interest free loan and does not have any fixed repayment obligation on LMC. The same may only be adjusted/deducted by the State Government from the grants/transfers to LMC.

The LMC proposes to raise ₹200.00 Crores as Bonds with tenor of 10 years for which the property taxes and fees and user charges have been escrowed. LMC has reported average monthly cash flows of ₹19.21 Crs in FY18 and ₹23.41Crs in FY19 from property taxes and fees and user charges. The average cash flows generated from property taxes and fees and user charges are adequate for building up the funds in the Interest Payment account and for the Sinking Fund account for meeting the debt obligations. In case of shortfall of the funds from LMC, as per the tripartite agreement, GoUP will transfer the shortfall of funds available from Infrastructure Development Fund for replenishment of DSRA and shortfall of funds in sinking fund account.

#### **Draft terms of the proposed NCD:**

The tenor of the proposed NCD/bonds will be 10 years and the redemption starts from the expiry of 4<sup>th</sup> year from the Deemed Date of Allotment, in 7 (Seven) STRPPs. LMC has to create Debt Service Reserve Account (DSRA) account, Interest Payment account and the sinking fund. Also, an escrow account will be created and the cash flows received from the property tax and fees and user charges will be transferred to this escrow account.

- **Infrastructure Development Fund:** DSRA replenishment as well as funding of shortfall in the sinking fund account (created for principal repayment) in terms of the tripartite agreement between the State Government, the Debenture Trustee and the Issuer. The Government of Uttar Pradesh ("the GoUP"/"State Government") has issued an order dated July 30, 2019 ("Governmental Order") wherein they have created a policy for utilisation of the funds in the Infrastructure Development Fund for credit enhancement and other needs of local bodies to promote/ incentivise issuance of municipal bonds. Pursuant to the Governmental Order, the Issuer has approached the GoUP for entering into a tripartite agreement with the Debenture Trustee and the Issuer ("Tripartite Agreement") in respect of the Debentures, for agreeing and covenanting to make payment of funds from the Infrastructure Development Fund in terms of such agreement:
  - into the debt service reserve account for creation of the upfront DSRA Amount;
  - into the debt service reserve account on the occurrence of a DSRA Amount Shortfall; and
  - into the Sinking Fund Account on the occurrence of a Sinking Fund Mismatch.
- **DSRA Account:** Upfront DSRA equivalent to four succeeding half yearly coupon payments has to be created.
- **Interest Payment Account:** On each of the first 5 (Five) Transfer Dates occurring in each 12 Month Block, an amount equivalent to 20% (Twenty percent) of the Coupon payment to be made on the 1st Coupon Payment Date in such 12 Month Block and any further interest payable as per the terms of the issuance and any shortfall in earlier contribution shall be transferred to the Interest Payment Account. On each of the 6th to 10th Transfer Dates occurring in each 12 Month Block, an amount equivalent to 20% (Twenty percent) of the Coupon payment to be made on the 2nd Coupon Payment Date in such 12 Month Block and any further interest payable as per the terms of the issuance and any shortfall in earlier contribution shall be transferred to the Interest Payment Account.
- **Sinking Fund Account:** On each of the first 10 (Ten) Transfer Dates occurring in each 12 Month Block, an amount equivalent to 1/10th of 10% (Ten percent) of the Issue Size and any shortfall in earlier contribution shall be transferred to the Sinking Fund Account. Any shortfall in the funds available in the Escrow Account to complete the aforesaid transfers to the above account(s) shall be made good by LMC by transfer from other account(s) of LMC.
- **Government of India (GoI) Incentive:** Ministry of Housing and Urban Affairs, Government of India, intends to incentivize upto 12 ULBs during the financial year 2019-20 for issuing Municipal Bonds on "first come, first serve" basis, based on the date of issue of bonds. The incentive amount has been limited to ₹13 Crs for every ₹100 crs of bonds issued and upto a maximum of ₹200 Crs worth of bonds per ULB will be

incentivized under the scheme. LMC is expected to get this incentive for the proposed bond issue from the Government of India which amount shall be deposited in the Escrow Account as and when received from GoI. Within 5 (Five) days of receipt of the Incentive in the Escrow Account, the Issuer (LMC) shall utilise such incentive amounts to create fixed deposits with any scheduled commercial bank with a dual rating of AA+ or above. However, the conditions of the fixed deposits shall not restrict premature withdrawal from the fixed deposit. A lien shall be created in favor of Debenture Trustee over such fixed deposits throughout the tenor of the Debentures. Interest amounts earned on such fixed deposits shall be utilisable by the Issuer, in accordance with the terms set out in the Transaction Documents.

**Structured Payment Mechanism:**

**Interest Payment Mechanism:**

- The Debenture Trustee shall check the amount lying to the credit of Interest Payment Account at 25 (Twenty Five) days prior to the Coupon Payment Date (T-25 days). In case of any shortfall in amount, the Debenture Trustee shall intimate LMC of the shortfall and LMC shall make good the shortfall in the Interest Payment Account prior to the date falling 10 (Ten) Days prior to the Coupon Payment Date (T-10 days).
- In case of shortfall in any amount in the Interest Payment Account at 9 (Nine) Days prior to the Coupon Payment Date (T-9 days), the Debenture Trustee shall trigger the payment mechanism and shall instruct the Bank to transfer the shortfall amount from the Debt Service Reserve Account to the Interest Payment Account on or prior to the date falling 8 (Eight) Days prior to the Coupon Payment Date (T-8 days). The Coupon shall be paid by LMC on the Coupon Payment Date (T).
- In case DSRA is utilized to fund the shortfall in the Interest Payment Account in respect of any Coupon Payment Date, immediately after the transfer of the DSRA or part thereof to the Interest Payment Account and in any event prior to 7 (Seven) Days prior to the relevant Coupon Payment Date (T-7 days), the Debenture Trustee would issue a notice in writing to the Issuer (and the GoUP shall be informed by marking a copy to the GoUP). On the issuance of such notice, LMC shall make good the shortfall in the Debt Service Reserve Account prior to the date falling on the relevant Coupon Payment Date (T).
- In the event that the shortfall is not made good by LMC on the relevant Coupon Payment Date (T), the Debenture Trustee shall issue a notice to GoUP (and the Issuer shall be informed by marking a copy to the Issuer) on the date immediately succeeding the relevant Coupon Payment Date (T+1). On issuance of such notice, the State Government shall remit funds (utilized from DSRA to fund the shortfall in interest payment account) to replenish DSRA within 15 (Fifteen) days from the relevant Coupon Payment Date (T+15) by depositing such amounts into the DSRA.

**Principal repayment (Sinking Fund) Mechanism:**

- The Debenture Trustee shall check the balance in the Sinking Fund Account prior to the end of each 12 Month Block and in case of any shortfall in the Sinking Fund Account i.e. Sinking Fund Mismatch, it shall be replenished as per the following mechanism
- The Debenture Trustee shall check the amount lying to the credit of the Sinking Fund Account at 25 (Twenty Five) days prior to the end of each 12 Month Block (T-25 days). In case of any shortfall in the amount, the Debenture Trustee shall intimate LMC of the shortfall (and the GoUP shall be informed by marking a copy to the GoUP) and LMC shall make good the shortfall in the Sinking Fund Account prior to the date falling 15 (Fifteen) days prior to end of each 12 Month Block (T-15 days).
- In case of shortfall in any amount still persists in the Sinking Fund Account at 14 (Fourteen) days prior to the end of each 12 Month Block (T-14 days), the Debenture Trustee shall trigger the payment mechanism and issue a notice to GoUP (and the Issuer shall be informed by marking a copy to the Issuer). On the issuance of such notice, the State Government shall remit funds to fund the shortfall in to the Sinking Fund Account prior to the end of each 12 Month Block (T).
- The redemption shall be made by LMC on the relevant Redemption Dates.

## India Ratings Assigns Lucknow Municipal Corporation's Provisional NCDs 'IND AA'/Stable

# 12

FEB 2020

By Rhushan Joshi

India Ratings and Research (Ind-Ra) has assigned a provisional rating to Lucknow Municipal Corporation's (LMC) non-convertible debentures (NCDs) as follows:

| Instrument Type | Date of Issuance | Coupon Rate | Maturity Date | Size of Issue (million) | Rating/Outlook            | Rating Action |
|-----------------|------------------|-------------|---------------|-------------------------|---------------------------|---------------|
| *Proposed NCDs  | -                | -           | -             | INR2,000                | Provisional IND AA/Stable | Assigned      |

\*The final rating will be assigned following the final issuance and the receipt of the final documentation, conforming to the information already received by Ind-Ra.

**Bond's Purpose:** LMC plans to raise the proposed bonds for part financing of several projects such as water supply scheme, construction of sewer stations under the Atal Mission for Rejuvenation and Urban Transformation (AMRUT) scheme and construction of a parking lot and a commercial-residential scheme. The sanctioned amount for these projects is INR4,254 million, of which LMC would fund INR2,000 million from the proceeds of the proposed bonds as part of its own equity contribution, with the balance being funded by the corporation with its own funds or by government of India (GoI) and government of Uttar Pradesh (GoUP) through grants.

**Analytical Approach:** The rating of the proposed NCDs is a reflection of the operational and financial performance of LMC, the nature of the escrowed assets, strength of the structured payment mechanism and expected healthy debt service coverage.

The rating is based on stability in the performance of assets which are proposed to be escrowed (property tax, fees and user charges) and the enforceable nature of these collections by the corporation.

The rating also factors in a sound legal foundation and structured payment mechanism, which is monitored and controlled by the Trustee. The structured payment mechanism is backed by a pre-funded debt service reserve account (DSRA) constituting of four semi-annual interest instalments, interest payment account (IPA) and sinking fund account (SFA). The proposed NCDs will be issued at a fixed rate of interest that mitigates the interest rate risk.

Ind-Ra also takes comfort from the Infrastructure Development Fund (IDF), which is available to meet DSRA replenishment and any mismatch in SFA. IDF is funded out of the additional stamp duty paid on transfer records of

immovable properties in the state of Uttar Pradesh. LMC is entitled to receive its own share during the year from IDF, which resides with the state government, based on the property registrations under its jurisdiction. In addition, the AMRUT incentive of INR260 million (13% of face value of bond, subject to a maximum INR2,000 million face value) to be received from the Govt upon issuance of the NCD will also provide support in the form of additional cash collateral.

The rating benefits from the LMC's coverage of debt servicing obligations (interest payment + proportionate principal deposited in SFA or instalment of principal redemption) which Ind-Ra expects to remain above 2x. The agency expects the coverage of LMC's instrument-level debt servicing obligations, based on the FY19 receivables from property tax, fees, user charges and potential IDF and AMRUT incentive, to remain healthy over the medium term.

## KEY RATING DRIVERS

**Adequacy of Escrowed Revenue Stream:** Under the proposed structure, revenues from property tax, fees and user charges, are proposed to be escrowed for servicing of the debt repayment obligations. The escrowed collections will be first utilised for meeting the minimum balance required to be transferred to the IPA and SFA. The surplus funds, if any, can be transferred to the general fund account(s) of the municipal corporation upon a one-time written instruction of the Debenture Trustee for such monthly period. The revenue from these streams grew at a CAGR of 16.64% over FY14-FY19 to INR2,811.7 million. The escrowed receivables from property tax, fees and user charges, and additional cash flows (yearly share of IDF and incentive under AMRUT) are expected to provide strong cover for LMC's debt service obligations.

**Structured Debt Servicing Mechanism:** Under the structure, a DSRA funded one day before the pay-in date with an amount equal to four half-yearly interest payments will be put in place. At all times, the DSRA is to be maintained at four succeeding half-yearly interest payments. LMC shall set up the separate no-lien escrow account into which the funds lying in account(s) in which the property tax, fees and user charges are collected by LMC shall be transferred for debt servicing.

On the transfer date (date immediately preceding each monthly anniversary of the deemed date of allotment), funds parked in escrow account shall be used in the following order of priority:

- On each of the first five transfer dates of the 12-month block, an amount equivalent to 20% of the coupon payment to be made on the first coupon payment date, and any further interest payable as per the terms of the Issuance and any shortfall in earlier contribution shall be transferred to the IPA. On each of the sixth to the tenth transfer dates of the year, an amount equivalent to 20% of the coupon payment to be made on the second coupon payment date in such 12-month block and any further interest payable and any shortfall in earlier contribution shall be transferred to the IPA.
- On each of the first 10 transfer dates occurring in each 12-month block, an amount equivalent to 1/10th of 10% of the issue size, and any shortfall in the earlier contribution shall be transferred to the SFA. The account will be duly monitored on an ongoing basis including on each of the first 10 transfer dates occurring in each 12-month block.
- Any shortfall in the funds available in the escrow account to complete the aforesaid transfers to the above accounts shall be made good by LMC by transfer from its other account(s). Refer to the Annexure for the structure's detailed trustee monitoring mechanism.

**Trustee Monitoring:** The debenture trustees, on behalf of the debenture holders, shall have an exclusive first charge on the escrow account, DSRA, IPA, SFA and any permitted investments made from these accounts for the exclusive benefit of the debenture holders. The amount deposited in DSRA, IPA and SFA shall be used solely for meeting the debenture holders' dues. No amount can be withdrawn from these accounts without the approval of debenture trustee.

**Infrastructure Development Fund Support:** The GoUP, via an order issued on 30 July 2019, created a policy for the utilisation of the funds in the IDF for credit enhancement and other needs of local bodies to promote/ incentivise issuance of municipal bonds. Further, the GoUP will be entering a tripartite agreement with the debenture trustee and the issuer for making funds available from the IDF, in case of any shortfall in the DSRA for interest payments or the SFA for principal redemption. The IDF consists of 0.5% of the amount of 2% additional stamp duty paid on transfer records of immovable properties in the state. The local bodies receive their share of these funds as per the number of registrations that have taken place under their jurisdiction. LMC receives these funds from the state government as per its requirements.

**Debt Service Coverage:** At FYE19, the LMC had an interest-free debt of INR5,252.4 million from the GoUP for which repayment started from FY19. The repayments are adjusted from the state finance commission grants before being paid to the corporation on a monthly basis. The absence of any interest servicing obligations resulted in a healthy credit profile for the corporation.

Ind-Ra expects LMC's DSCR to remain comfortable at above 2x over the medium term, taking into consideration the debt service obligations from the issuance of the proposed NCDs of INR2,000 million. The agency also expects the coverage of its instrument-level debt servicing obligations, based on the receivables from property tax, fees and user charges, IDF and AMRUT incentive, to remain healthy over the medium term. Ind-Ra will closely monitor the coverage adequacy during the entire tenure of the NCDs.

**Liquidity Indicator – Adequate:** LMC's liquidity position is supported by capital grants to fund capex, moderate cash and bank balances and unencumbered investments. Debt servicing requirement pertaining to bonds will be backed by way of escrow of receivables from property tax and fees and user charges. The corporation's cash balances and investments stood at INR5,590.1 million, as on 31 March 2019. Ind-Ra expects the liquidity profile to stay adequate over the medium-term.

**Capital Utilisation and Civic Services Delivery:** Capital expenditure constituted 53.33%, on an average, of the total expenditure during FY14-FY18. The capital expenditure/capital income ratio averaged at 1.19x with capex funded by government grants over the same timeframe. The corporation is undertaking several water supply, sewerage works, construction of public spaces under AMRUT, and other schemes which are in various stages of progress.

Given the quality of civic infrastructure and with the new area being merged with the LMC, which will increase LMC's area under jurisdiction from the current 350sq km to 568 sq km, the corporation needs to make further investments. The corporation's service delivery levels for the water, sewerage and solid waste segments remained average, as reflected in coverage network (water supply: 65.38%; sewerage network: 89.81%; solid waste management service: 67.32%) as against the benchmark levels of 100% for each service set by the Ministry of Housing and Urban Affairs. The per capita supply of water stood at 162 litres per capita per day (benchmark: 135 litres per capita per day). However, the performance of LMC was less than adequate in services such as segregation of municipal solid waste; wastewater recycle and reuse; hours of water supply and reduction in unaccounted/unbilled water supply during FY14-FY19.

**Scope for Improvement in Own Revenue:** LMC's own income-to-total revenue income ratio stood at 52.20% in FY18, which was at 36.91% in FY14. Ind-Ra expects the ratio to sustain above 50% over the medium term. The agency believes there is scope for LMC to increase the share of its own revenue in the total revenue income; however, this would depend on the improvement in efficiency in collection of property tax. LMC's property tax, fees and user charges collection efficiency was modest, but volatile during FY16-FY19, at 25%-30%. Property tax, averaged over 95% of tax revenue and around 28% of total operating revenue income.

LMC has taken several measures to improve its collection for its property taxes and other associated taxes. It has started the geographic information system survey of its area, which will help to bring in more properties under its assessment. Additionally, the corporation has started e-payments and also tied up with several banks and enabled unified payments interface for the collection of these taxes. The property tax collection in FY20 witnessed improvement on account of these measures.

**Low Operating Margins:** LMC's operating margins averaged at just below 1% over FY14-FY18. However, LMC had negative revenue balance in FY16 and FY18 due to faster growth in the revenue expenditure (average 8% yoy) than the revenue receipts (average 3% yoy). The higher growth in the revenue expenditure was largely triggered by 23% yoy average growth in administrative expenditure and 9% average growth in establishment expenditure over FY14-FY18. LMC has projected the revenue surplus for FY19 (Revised Estimate) at INR 393.8 million and budgeted INR 355.5 million for FY20 (Budgeted Estimate).

## RATING SENSITIVITIES
