Unless stated otherwise, all references to page numbers in this Prospectus are to the page numbers of this Prospectus.

All references in this Prospectus to "India" are to the Republic of India and its territories and possessions. All references to the "Government" or "State Government" are to Government of India, Central or State, as applicable.

Presentation of Financial Information

Our Company's financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year, so all references to a particular financial year or fiscal are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year. Unless the context requires otherwise, all references to a year in this Prospectus are to a calendar year and references to a Fiscal/Fiscal Year are to the fiscal year ended on March 31 of that calendar year.

Our Company's audited financial statements for the Fiscal Year ended March 31, 2022 have been prepared in accordance with Ind AS and have been audited by S. R. Batliboi & Co. LLP and for the Fiscal Years ended March 31, 2021 and March 31, 2020 have been prepared in accordance with Ind AS and have been audited by the Erstwhile Auditors i.e., GMJ & Co., Chartered Accountants.

Our Company's audited financial statements for the Fiscal Years ended March 31, 2022, March 31, 2021 and March 31, 2020 form the basis of preparation of the Reformatted Financial Information which is included in this Prospectus and is referred to hereinafter as the "**Reformatted Financial Information**" in the section titled "*Financial Information*" on page 158.

Unless stated otherwise or unless the context requires otherwise, the financial data as at and for the fiscal year ended March 31, 2022, March 31, 2021 and March 31, 2020 used in this Prospectus is derived from our Reformatted Financial Information.

Unless stated otherwise, macroeconomic and industry data used throughout this Prospectus has been obtained from publications prepared by providers of industry information, government sources and multilateral institutions. Such publications generally state that the information contained therein has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed, and their reliability cannot be assured. Although the Issuer believes that industry data used in this Prospectus is reliable, it has not been independently verified. Further, the extent to which the market and industry data presented in this Prospectus is meaningful depends on the readers' familiarity with and understanding of methodologies used in compiling such data.

Currency and Unit of Presentation

In this Prospectus, all references to 'Rupees'/ '₹'/ 'INR'/ 'Rs.' Are to Indian Rupees, the official currency of the Republic of India.

Except where stated otherwise in this Prospectus, all figures have been expressed in 'in millions. All references to 'million/millions/mn.' Refer to one million, which is equivalent to 'ten lakhs' or 'ten lacs', the word 'lakhs/lacs/lac' means 'one hundred thousand' and 'Crore' means 'ten million' and 'billion/bn./billions' means 'one hundred crores.

Certain figures contained in this Prospectus, including financial information, have been subject to rounding adjustments. Unless set out otherwise, all figures in decimals, including percentage figures, have been rounded off to two decimal points. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. Further, any figures sourced from third party industry sources may be rounded off to other than two decimal points to conform to their respective sources.

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance have been included in this Prospectus. We compute and disclose such non-GAAP financial measures and

such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance. These non-GAAP financial measures and other statistical and other information relating to our operations and financial performance are supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP.

Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP.

In addition, such Non-GAAP measures are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. These non-GAAP financial measures may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by Ind AS and may not be comparable to similarly titled measures presented by other companies.

Industry and Market Data

Any industry and market data used in this Prospectus consists of estimates based on data reports compiled by Government bodies, professional organizations and analysts, data from other external sources including CARE, available in the public domain and knowledge of the markets in which we compete. The report prepared by CARE is based on information available in CARE's proprietary database, and other sources considered by CARE as accurate and reliable including the information in public domain. Although we believe that the industry and market data used in this Prospectus is reliable, such third party and industry data compiled by CARE has not been independently verified by us. The extent to which the industry and market data presented in this Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies, and assumptions may vary widely among different market and industry sources.

General Risk

Investment in NCDs involve a degree of risk and investors should not invest any funds in NCDs unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of the issue including the risks involved in it.

Specific attention of investors is invited to statement of risk factors contained under section "*Risk Factors*" on page 16. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the NCDs or Investor's decision to purchase such securities.

FORWARD LOOKING STATEMENTS

Certain statements contained in this Prospectus that are not statements of historical fact constitute "forward-looking statements". Investors can generally identify forward-looking statements by terminology such as "aim", "anticipate", "believe", "continue", "could", "estimate", "expect", "intend", "may", "objective", "plan", "potential", "project", "pursue", "shall", "seek", "should", "will", "would", or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All statements regarding our expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, revenue and profitability, new business and other matters discussed in this Prospectus that are not historical facts. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results, including our financial conditions and results of operations to differ from our expectations include, but are not limited to, the following:

- General economic and market conditions in India and globally could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

- We rely on our broking and related services business for a substantial share of our revenue and profitability. Any downturn in the stock markets, may have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

- We are subject to extensive statutory and regulatory requirements, compliances and supervision, which have material influence on, and consequences for, our business operations.

- Change in existing laws and new laws, regulations and government policies affecting the sectors in which we operate.

- Default by our ESOP financing and margin trade financing clients.

- The operation of our businesses is highly dependent on information technology, and we are subject to risks arising from any failure of, or inadequacies in, our IT systems.

- Factor affecting the business and reputation of Edelweiss group may have a concurrent adverse effect on our business and results of operations.

For further discussion of factors that could cause our actual results to differ, see "*Risk Factors*" on page 16.

All forward-looking statements are subject to risks, uncertainties and assumptions about our Company that could cause actual results and valuations to differ materially from those contemplated by the relevant statement. Additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to, those discussed under the sections titled "*Industry Overview*", "*Our Business*" and "*Legal and Other Information*" on pages 77, 116 and 168, respectively. The forward-looking statements contained in this Prospectus are based on the beliefs of management, as well as the assumptions made by and information currently available to management. Although our Company believes that the expectations reflected in such forward-looking statements are reasonable at this time, it cannot assure investors that such expectations will prove to be correct or will hold good at all times. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements. If any of these risks and uncertainties materialise, or if any of our Company's underlying assumptions prove to be incorrect, our Company's actual results of operations or financial condition could differ materially from that described herein as anticipated, believed, estimated or expected. All subsequent forward-looking statements attributable to our Company are expressly qualified in their entirety by reference to these cautionary statements.

Neither our Company, its Directors, its KMPs and officers, nor any of their respective affiliates or associates or the Lead Managers have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI NCS Regulations, our Company and Lead Managers will ensure that investors in India are informed of material developments between the date of the Prospectus until the time of the grant of listing and trading permission by the Stock Exchange.

SECTION II: RISK FACTORS

An investment in this type of security involves a certain degree of risk. The investor should carefully consider all the information contained in this Prospectus, including the risks and uncertainties described below, before making an investment decision. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risks that may arise in connection with our business or any decision to purchase, own or dispose of the Debentures. Additional risks, which are currently unknown, if materialises, may in the future have a material adverse effect on our business, financial condition, cash flows and results of operations. The market prices of the NCDs could decline due to such risks and you may lose all or part of your investment.

The financial and other related implications of the risks described in this section, have been disclosed to the extent quantifiable as on the date of this Prospectus. This Prospectus also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including events described below and elsewhere in this Prospectus.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section. This Prospectus also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including events described below and elsewhere in this Prospectus. Unless otherwise stated, or unless context requires otherwise, the financial information used in this section is derived from and should be read in conjunction with Reformatted Financial Information as included in this Prospectus.

INTERNAL RISKS

Risks Relating to our Business

1. General economic and market conditions in India and globally could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

Our business is highly dependent on economic and political conditions in India and other countries. In the past, global economic and political conditions have resulted in volatility in, and negative investor sentiment about, the Indian securities markets. In particular, our income from broking accounted for 39.67% of our total income in Fiscal 2020, 46.93% of our total income in Fiscal 2021 and 27.52% of our total income in Fiscal 2022 and is highly dependent upon the levels of activity in the securities markets in India. Any adverse change in global economic and political conditions may impact, amongst others, the volume of financial assets traded, the number of listed securities and liquidity of the listed securities.

General economic and political conditions in India and globally that affect the Indian securities markets may have a material adverse effect on our business. Global economic and political conditions that may affect the Indian securities markets include macroeconomic and monetary policies, industry-specific trends, mergers and acquisitions activity, legislation and regulations relating to the financial and securities industries, household savings rate, investment in alternative financial instruments, upward and downward trends in the market, business and financial sectors, volatility in security prices, perceived lack of attractiveness of the Indian capital markets, inflation, foreign direct investment, consumer confidence, currency and interest rate fluctuations, and availability of short-term and long-term market funding sources and cost of funding. Moreover, market conditions may change rapidly due to any adverse economic and political conditions, and we may not be able to respond to such changes in a timely manner, or at all. Any adverse impact of general economic or political conditions could materially adversely affect our business, financial condition, cash flows, results of operations and prospects.

Further, if inflation or real interest rates were to rise significantly, the trends towards increased financial savings might slow down or reverse, our employee costs may increase and the sales of many of our products and services may decline.

In addition, we are highly susceptible to downturns in general economic conditions and adverse market conditions as they could materially and adversely affect most aspects of our business. Such downturns and adverse market conditions affect our business, results of operations, financial condition, cash flows and prospects in various ways, including but not limited to the following:

- the volume of trading in securities that we offer in our broking business may be adversely affected by market movements and volatility, thereby reducing our income from broking;

- the demand for third-party products that we distribute may be adversely affected by market movements and volatility, thereby reducing our commission income;

- we may face higher risk of defaults by clients or counterparties on their contractual obligations;

- we may face increased competition in all our businesses, leading to lower fee and commissions and lower income;

- our treasury operations may be affected by volatility in interest rates;

- our financing costs may increase due to the limited access to liquidity and the capital markets or volatility in interest rates, thereby restricting our ability to raise funding to develop our business; and

- we may not be able to effectively execute our business plans and strategies.

We provide ESOP financing and margin trade financing facilities to our customers. These facilities are to be used for the purchase of securities. Accordingly, the demand for such products is dependent on the demand for and/or viability of purchasing the securities by our customers. Any adverse development in the capital markets may affect the demand for our product offerings, thereby affecting our results of operations.

We have grown significantly in the recent past, with our total income increasing from ₹ 3,985.09 million in Fiscal 2021 to ₹ 7,301.48 million in Fiscal 2022.

2. We operate in a highly regulated environment, which is subject to change, and existing and new laws, regulations and government policies affecting the sectors in which we operate could adversely affect our business, financial condition, cash flows and results of operations.

Our business activities are subject to extensive supervision and regulation by the Government and various regulatory authorities, such as SEBI, IRDAI, PFRDA, RBI, CCRL, NERL, AMFI, CDSL, NSDL and the exchanges. For details of our business activities and registrations with various regulatory authorities, please see "*Our Business - Overview*" on page 116. Further, to undertake some of our business activities, including for the launch of new products, we may need to obtain registrations and approvals under, and comply with, regulations issued by various regulatory authorities, including, SEBI, IRDAI, PFRDA, RBI, CCRL, AMFI, CDSL and exchanges, including, NSE, BSE, MCX, MSEI and NCDEX, from time to time. Such regulations include the SEBI Portfolio Managers Regulations, the SEBI Research Analysts Regulations, the SEBI Investment Advisers Regulations, the SEBI Depository Participant Regulations and the SEBI Stock Brokers Regulations, SEBI Mutual Funds Regulations, AMFI Guidelines, IRDAI Registrations of Corporate Agents Regulations and PFRDA (POP) Regulations. In addition, our business operations are subject to regulatory limits on brokerage fee rates and net worth requirements imposed by the exchanges. For instance, SEBI *via* various circulars requires broking firms to collect margin upfront from clients for any sales in the equity segment by the clients and seeks to impose a penalty for non-collection or short collection of upfront margin in the cash segment.

Further, we are subject to various laws relating to the prevention of insider trading, front running and other conflicts of interest. Conflicts of interest may exist between, (i) our departments; (ii) us and our clients; (iii) different clients serviced by us; (iv) our employees and us; (v) our clients and our employees; (vi) our intermediaries and us; (vii) our intermediaries and our clients or (viii) the Company. Although we have internal controls and measures in place, we cannot assure you that we or our agents, intermediaries or employees will always manage such conflicts of interest, including compliance with various applicable laws and regulations. For instance, our Company has adopted a conflict-of-interest policy in relation to conflicts that may arise between the Company and group companies.

We are subject to a variety of financial services regulation in the jurisdictions where we operate,including, the SEBI Act, the SEBI (Intermediaries) Regulations, 2008, the SEBI (Investment Advisers) Regulations, 2013 or directions issued by AMFI. The laws and regulations governing advisory and distribution services relating to financial products have become increasingly complex and cover a wide variety of issues, including registration, disclosures, conflicts and insider trading. We believe that significant regulatory changes in our industry are likely to continue on a scale that exceeds the historical pace of regulatory change, which is likely to subject industry participants to additional and generallymore stringent regulations. The requirements imposed by our regulators are designed to ensure the integrity of the financial markets and to protect investors and other third parties who deal with us and arenot typically designed to protect our shareholders. Consequently, these regulations often serve to limit ouractivities and/or increase our costs, including through investor protection and market conduct requirements. We may also be adversely affected by changes in the interpretation or enforcement of existing laws and rules by various governmental authorities and self-regulatory organisations.

Such controls and measures may be incorrectly implemented and fail to perform as expected. Any such failure to manage such conflicts could harm our reputation and erode client confidence in us. In addition, potential or perceived conflicts of interest may also give rise to litigation or regulatory actions. Any of the foregoing could materially and adversely affect our business, financial condition, cash flows and results of operations.

While we ensure compliance with applicable laws including various acts, rules, regulations and circulars issued SEBI and other applicable regulatory authorities relating to our activities including margin trading, we cannot assure you that the Government or the regulatory authorities will not take different interpretations regarding applicability of, or compliance with, the laws and regulatory framework governing our business. Moreover, there is no assurance that the Government or regulatory authorities will not take a different interpretation regarding any of our current business activities being restricted or prohibited under applicable laws or the terms of the regulatory registrations and approvals obtained by us. We may be unable to obtain, maintain or renew, or comply with the terms of, the regulatory approvals and registrations applicable to our business activities, and this may have adverse consequences for our business operations. In such an event, we may also be subject to regulatory action, including fines, suspension or termination of approvals or registrations, or restrictions on undertaking all or some of our business activities. For further details, please see "*Regulations and Policies*" on page 151.

Our business activities are also subject to periodic inspection by various regulatory authorities, such as SEBI, RBI, IRDAI, PFRDA, CDSL, NSDL and the exchanges. Any negative findings against us during such inspections may materially and adversely affect our business and results of operations. In the past, the regulatory authorities and exchanges have issued administrative warnings and adverse observations, including in relation to (i) not settling accounts as per the preferences of the clients; (ii) incomplete KYC of clients; (iii) unutilised amount of the client lying with our Company; and (iv) upload of incorrect e-mail IDs of clients on the unique client code databases, amongst others. For further details, please see "*Outstanding Litigation*" on page 168.

Additionally, the laws applicable to our business continue to evolve and may be amended, revised, or replaced in the future by the Government or regulatory authorities, or due to judicial decisions. For example, SEBI, from time to time, may take additional risk management measures for derivative markets by increasing margin requirements for derivative trading. Such measures may affect our trading volumes and increase trading costs, which may affect our business, financial condition, and cash flows. Further, the Government and regulatory authorities also issue instructions or directions regarding conduct of our business activities. We cannot assure you that any of the foregoing will not impose onerous conditions on our business activities, or require us to change the systems, policies and procedures established by us for the purposes of compliance with the applicable laws. Any onerous conditions imposed by, or material changes required to our systems, policies and procedures may increase our compliance cost or adversely affect our business operations.

Due to the nature of business activities undertaken by us, our employees are also required to comply with various regulations, such as SEBI Insider Trading Regulations, SEBI Stockbrokers Regulations, SEBI Portfolio Managers Regulations, SEBI Research Analysts Regulations and SEBI Investment Advisers Regulations. Even though we have established an internal framework to monitor the conduct of our employees, we cannot assure you that none of our employees will violate the provisions of applicable law in the course of their employment with us or that all such violations would be detected by us in a timely manner, or at all. Any violation of applicable laws by our employees related to their employment with us may affect our business operations or reputation or result in imposition of vicarious liability on us by the Government or regulatory authorities. For further details, please see "*Regulations and Policies*" on page 151.

Further, data collection and storage are increasingly subject to legislation and regulations in various jurisdictions and governments are increasingly acting to protect the privacy and security of personal information. Our attempts to comply with applicable legal requirements may not be successful, and may also lead to increased costs for compliance, which may materially and adversely affect our business, financial condition, cash flows, results of operations and prospects. We could be adversely affected if legislations or regulations are expanded or amended to require changes in our business practices, or if such legislations or regulations are interpreted or implemented in ways that negatively affect our business, financial condition, cash flows, results of operations and prospects.

3. Our Company extends loans against securities to our customers as part of our ESOP financing and margin trade financing facilities business. Any default by a client coupled with a downturn in the stock markets could result in substantial losses for our Company.

The loans granted to our customers as part of our ESOP financing and margin trade financing facilities business are secured against securities held by our customers. The securities, which secure the loan, are subject to change in market

valuation. In the event of a volatile stock market or adverse movements in stock prices, the collateral which secures the loans may decrease significantly in value, which might result in losses which our Company may be unable to support. Where debt securities are taken as collateral, in the event of a volatile debt market or adverse movements in interest rates the value of collateral may decrease significantly. Customers could default on their obligations to our Company as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. Customers could default on their obligations to our Company as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. As a result, it may be difficult to carry out a precise credit risk analysis on such clients. Although our Company uses a technology-based risk management system and follows strict internal risk management guidelines on portfolio monitoring, which include limits on the amount of margin, assessing the quality of collateral provided by the client and pre-determined margin call thresholds, there can be no assurance that in the event the financial markets witness a significant adverse event or a general downturn, our Company's financial condition, cash flows and results of operations would not be adversely affected.

4. Our revenues from distribution and sale of financial products are dependent on our sustained ability to increase assets under advice of our clients as well as on the performance of the funds that we distribute. Any changes in the total expense ratio due to regulatory changes may reduce our distribution commission income which may have a material adverse effect on our business, financial condition, cash flows or results of operation.

We earn distribution commission income from asset management companies for our mutual fund distribution business. We also generate a part of our operating income through purchase and sale of financial products to our clients. The mutual fund products distributed, and financial products sold, to our clients constitute a significant part of our assets under advice and revenue. Our asset under advice comprises of mutual fund schemes and other financial products such as bonds, market linked debentures other securities held by clients in their own demat accounts. If the asset management companies reduce the total expense ratio due to regulatory changes, then they may reduce our distribution commission income which would impact our revenues and results of operations.

The willingness of investors to make investments in asset classes is contingent on its ability to generate returns, in line with or in excess of client expectations. Market conditions, economic volatility or changing financial environment may render the asset classes or products we offer less attractive to investors. Any inability on our part to distribute or offer appropriate financial products to clients or if such products underperform either according to their relevant benchmarks, or similar investment products provided by our competitors, for various reasons including general market conditions, investment decisions taken by the fund manager, inability to identify appropriate investment opportunities and the performance of the companies in which the funds are invested in, may lead to a failure to meet the clients return expectations on their investments. Underperformance by the financial products distributed or sold by us may result in a withdrawal of clients and restrict our ability to attract new clientele, further leading to potential reduction in assets under advice. While the performance of the funds distributed by us is outside our control,it is an important factor for us to sustain the growth of our assets under advice. The performance of these funds depends,primarily, on the general market conditions, investment performance made by the respective fund managers and existing competition in the market. If we are unable to sustain the increase in our assets under advice or the funds that we distribute underperform, clients may seek distributors or directly invest in financial products themselves, which in turn could result in reduced revenue from distribution and sale of financial products and, thus, could adversely impact our revenues and results of operations.

5. Non-compliance with regulatory guidelines and directions/ observations during inspection by regulatory organisations may have a material adverse effect on our business, financial condition, cash flows or results of operation.

We are subject to regular scrutiny and supervision by various regulators, statutory bodies and self-regulatory organisations such as SEBI, Stock Exchanges, Depositories and AMFI. The requirements imposed by these regulators are designed to ensure the integrity of the financial markets and to protect investors' interests. Any non- compliance with regulatory guidelines and directions in future may result in regulatory actions, which includes issuance of administrative/warnings/deficiency letters, fines or sanctions imposed by theseregulators and, in certain circumstances, could lead to revocation of certain of our licenses. While we attempt to comply with all regulatory provisions applicable to us, in the event we are not able to comply with the observations made by these regulators, we could be subject to supervisory actions, which may have a material adverse effect on our reputation, financial condition, cash flows and results of operations. For details relating to litigations, please see *"Outstanding Litigation"* on page 168.

6. Our distribution arrangement with AMCs can be terminated without notice, or due to failure on our part to comply/ perform.

Our Company earned ₹ 167.05 million, ₹ 107.86 million and ₹ 142.46 million, equivalent to 2.30%, 2.74% and 3.30%

of the total revenue from operations for the Fiscal 2022, Fiscal 2021 and the Fiscal 2020 as mutual fund distribution fees. We are empaneled with several asset management companies for whom we act as a mutual fund distributor for their mutual fund schemes. In the Fiscals 2022, 2021 and 2020 and as on the date of this Prospectus, there have been no instances where the distribution arrangement with the asset management companies have been terminated without notice or otherwise. However, we cannot assure you that our empanelment with these companies will continue, or that we will be able to renew the same upon expiry at favourable terms or at all, which may result in reduced trail income and an adverse effect on our revenues and results of operations.

Furthermore, the increase in depth of the Indian financial markets and increasing investor preference for equity investment or equity-linked products may prompt more asset management companies to commence business operations and offer mutual fund products. We cannot assure you that we will beable to obtain empanelment with these asset management companies, which may affect our business prospects and our results of operations.

7. Direct investment in mutual funds by our existing as well as potential clients will have an adverse impact on our revenue from mutual fund distribution.

While we initially commenced our mutual fund distribution business with a business model based on upfront commission, given the larger proportion of equity mutual funds historically distributed by us, we moved to a trail commission model, which has provided us with a recurring commission based on the performance of such funds in the market. Currently, we derive our revenue from operations, from the commission and trail income i.e., in the nature of a recurring periodic payment that we earn by distribution of mutual funds through our business verticals and from fees received from funds that we distribute to our clients. With growing technology and increase in the ease of investments in such funds, our existing, as well as potential clients may not see significance in choosing to make their investments through us, and may choose to invest in such funds directly, thereby reducing or eliminating our involvement in the process of investments. Our asset under advice comprises mutual fund schemes and other financial products such as bonds, market linked debentures other securities held by clients in their own demat accounts. As on March 31, 2022, our assets under advice for mutual fund distribution increased by 21.70% to ₹ 36,616.99 million as compared to ₹ 30,085.64 million as on March 31, 2021.

In the event that such existing or potential clients choose to invest in such funds directly, our assets under advice or growth in assets under advice may reduce which would have an adverse impact on our business and results ofoperations.

8. Our Company is dependent on Edelweiss Finance & Investments Limited, Edelweiss Financial Services Limited, Edel Land Limited, Edelweiss Asset Reconstruction Company Limited, Edel Finance Company Limited and ECL Finance Limited, for the business relating to the structured products. Any change in the regulatory environment of non-banking financial services may have an adverse impact on the business and operations of the Company.

Edelweiss Finance & Investments Limited, Edelweiss Financial Services Limited, Edel Land Limited, Edelweiss Asset Reconstruction Company Limited, Edel Finance Company Limited and ECL Finance Limited as a part of their business activities to raise money, they issue financial products. The percentage of revenue contributed by sale of structured products (market linked debentures) to the overall revenue of the Company for the Fiscal 2022, 2021 and 2020 are 7.14%, 4.86%, and 7.13%, respectively. As a result, any adverse impact on the business of Edelweiss Finance & Investments Limited, Edelweiss Financial Services Limited, Edel Land Limited Edelweiss Asset Reconstruction Company Limited, Edel Finance Company Limited and ECL Finance Limited due to any regulatory restrictions, may constrain our revenue stream from this business line. While we believe that such transactions are executed on an arm's length basis, we cannot assure you that the respective regulatory authorities will concur with our views or will not seek adjustments to our income from taxation purposes.

9. We are highly dependent on our management team, key managerial personnel and Relationship Managers. Any loss of such team members or the inability to attract or retain management personnel may have material adverse effect on our business performance.

Our business and the implementation of our strategy are dependent upon our management team and key managerial personnel, who oversee our day-to-day operations, strategy and growth of our business and also on our Relationship Managers, who are integral for our Company to manage existing client relationships as well as establish new client relationships both on the broking and distribution business. If one or more members of our management team and key managerial personnel are unable or unwilling to continue in their present positions, such persons would be difficult to replace and our business, prospects and results of operations could have a material adverse effect.

Competition in our industry for skilled management and efficient employees is high, and we cannot assure that members

of our management team, key managerial personnel or high performing Relationship Managers will not leave our Company and join our competitors, and that we will be able to find suitable replacements for them, in a timely manner or at all. This could result in an increase in our expenses, a decline in performance of our business, or damage to our reputation. In addition, we may need to increase employee compensation levels in order to retain our existing team and attract any additional personnel we may require.

Our success in expanding our business will also depend, in part, on our ability to attract, retain and motivate mid-to-senior management personnel and trained and skilled employees, to maintain a high standard of client service. We may be unable to successfully manage our personnel needs which could adversely affect our business prospects and results of operations. These risks could be heightened to the extent we invest in businesses or geographical regions in which we have limited experience. If we are not able to address these risks, our business, results of operations and financial condition, cash flows could be materially adversely affected.

10. Any factor affecting the business and reputation of Edelweiss group may have a concurrent adverse effect on our business and results of operations.

In the event Edelweiss group's goodwill is impacted the same may have an indirect impact on our business and results of operations. We operate in a competitive environment, and we believe that our brand recognition is a significant competitive advantage to us. Any failure to retain our Company name may deprive us of the associated brand equity that we have developed which may have a material adverse effect on our business and operations.

Any disassociation of our Company from the Edelweiss group and/or our inability to have access to the infrastructure provided by other companies in the Edelweiss group could adversely affect our ability to attract customers and to expand our business, which in turn could adversely affect our goodwill, operations and profitability.

11. We have in this document included certain non-GAAP financial measures and certain other selected statistical information related to our operations, cashflows and financial condition. These non-GAAP measures and statistical information may vary from any standard methodology that is applicable across the financial services industry and therefore may not be comparable with financial or statistical information of similar nomenclature computed and presented by other financial services companies.

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance have been included in this section and elsewhere in this document. We compute and disclose such non-GAAP financial measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of financial services businesses. Many financial services businesses provide such non-GAAP financial measures and other statistical and operational information when reporting their financial results. Such non-GAAP measures are not measures of operating performance or liquidity defined by generally accepted accounting principles. These non-GAAP financial measures and other statistical and other information relating to our operations and financial performance are supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP.

Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP.

In addition, such Non-GAAP measures are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. These non-GAAP financial measures may not be computed on the basis of any standard methodology that is applicable across the industry. Therefore, such non-GAAP measures may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies in India or elsewhere.

12. Some of our Directors may have interests in entities, which are in businesses similar to ours and this may result in conflicts of interest with us.

As on the date of this Prospectus, some of our Directors are also directors on the board of our related parties. Commercial transactions in the future between us and related parties may result in conflicting interests which could have an adverse effect on our operations. Such factors may have an adverse effect on the results of our operations, cashflows and financial condition.

13. Security breaches of clients' confidential information that we store may harm our reputation and expose us to liability.

We store clients' bank information, credit information and other sensitive data. While we have measures and systems in place to protect clients' confidential data, any accidental or willful security breach or otherunauthorised access could cause the theft and criminal use of this data. Security breach or unauthorised access to confidential information could also expose us to liability related to the loss of the information, time-consuming and expensive litigation and negative publicity. In the past three Fiscals and as on the date of this Prospectus, we have not had any instances of security breaches. If security measures are breached because of third party action, employee error, malfeasance or otherwise, or if design flaws inour software are exposed and exploited, and, as a result, a third party obtains unauthorised access to client data, our relationships with clients will be severely damaged, and we could incur significant liability and reputational damage. Further, we engage with certain third-party service providers, and although our contracts with them restrict the usage of client data and impose protective precautions, there can be no assurance that they will abide by such contractual terms or that the contracts will be found to be in compliance with data protection laws.

Because techniques used to obtain unauthorised access or to sabotage systems change frequently and generally are not recognised until they are launched against a target, we and our third-party hosting facilities may be unable to anticipate these techniques or to implement adequate preventative measures.In addition, we may be required under applicable regulations to notify individuals of data security breaches involving their personal data. These mandatory disclosures regarding a security breach are costly to implement and often lead to widespread negative publicity, which may cause clients to lose confidence in the effectiveness of our data security measures.

Any security breach, whether actual or perceived, would harm our reputation, and result in loss of clients,which could in turn have a material adverse effect on our business, prospects, results of operations, financial condition or cash flows.

14. Some of our group companies are involved in similar line of business that may lead to real or potential conflicts of interest with our business.

Some of our group companies are involved in a similar line of business which may have a potential conflict of interest with our business. The interests of some of our group companies may conflict with the interests of our other shareholders and for business considerations or otherwise, cause our Company to take actions, or refrain from taking actions, in order to benefit themselves instead of our Company's interests or the interests of its other shareholders and which may be harmful to our Company's interests or the interests of our other shareholders, which may impact our business, financial condition, cash flows and results of operations.

15. Any change in control of our Promoters on our Company may correspondingly adversely affect our goodwill, operations and profitability.

As on March 31, 2022, ESL through its nominee shareholders hold 100% of our paid-up capital of our Company and PAG along with its affiliates holds 56.24% of paid-up capital of ESL. We leverage on the goodwill of both Edelweiss group and PAG group. In the event, our Promoters are unable to maintain the quality of its services, or its goodwill deteriorates for any reason whatsoever, our business and results of operations may be adversely affected. Any failure to retain our Company name may deprive us of the associated brand equity that we have developed which may have a material adverse effect on our business and results of operations.

Further, our Promoters have the ability to control our business including matters relating to any sale of all or substantially all of our assets and the election or termination of appointment of our officers and directors. This control could delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of our Company even if it is in our Company's best interest. In addition, for so long as our Promoters continue to exercise significant control over our Company, it may influence the material policies of our Company in a manner that could conflict with the interests of our other shareholders.

16. The operation of our businesses is highly dependent on information technology, and we are subject to risks arising from any failure of, or inadequacies in, our IT systems.

Our operations rely heavily on the effectiveness of our IT systems and their ability to record and process accurately a large number of transactions on a daily basis and in a timely manner to provide a seamless digital experience to our clients. While we are compliant with the SEBI Circular on Cyber Security & Cyber Resilience framework for Stockbrokers/ Depository Participants, we have recognised and continue to address the need to have sophisticated technology systems in place to meet our clients' requirements. A prolonged disruption of, or failure of, our information processing or communications systems would limit our ability to process transactions. For example, there have been instances in the past of failure of software, hardware, internet and intranet links. Any failure of, or inadequacies in our IT systems would impair our ability to service our clients and execute trades on behalf of clients, which could materially and adversely affect our competitiveness, financial condition, cash flows and results of operations.

Our system for processing securities transactions is automated and we rely heavily on the ability of our trading system to handle a large number of transactions. While we regularly monitor and upgrade the capacity of our trading system, in anticipation of high volumes of transactions, we cannot assure you that we will be able to process all trading orders at a time of increased demand, including due to increased market volatility. Further, on account of COVID-19, the majority of our workforce is working from their respective homes and accordingly, we may face difficulty in ensuring real-time connectivity and data integrity, experience difficulty in addressing significant volatility in indices with real time PMS reviews, maintaining uptime of all information technology infrastructure across all our locations and ensure adequate availability of financial resources to manage our business. While we believe that our risk management strategy and operations protocol have been successful for dealing with these issues until now, there can be no assurance we will be able to continue to do so. If we are unable to efficiently process all trading orders received, we may lose clients, become subject to client complaints, litigation or regulatory action, face financial losses and may adversely affect our reputation.

Although we back up our business data regularly and have a contingency disaster recovery center for our retail broking and distribution businesses, we cannot assure you that there will not be an unforeseen circumstance or that our disaster recovery planning is adequate for all eventualities.

The securities industry is characterized by rapidly changing technology and the future success of our business will depend in part on our ability to effectively adapt to technological advances and to emerging industry standards and practices on a cost-effective basis. Online trading platforms and mobile applications are popular among clients due to their convenience and user-friendliness. We rely heavily on technology and rely on our electronic broking platform and mobile apps to provide a wide range of broking and distribution services. Due to the rapid evolution in technology and AI, trades take place through machine-based algorithms within a few microseconds. This AI-based buying and selling system has changed the mechanism of supply and demand and it is now to estimate individualised pricing, based on individualised demand and supply. If we are unable to keep up with technological changes, especially adapting to the AI based trade system while our competitors invest in improved or better technologies or entry of new players who may be able to offer clients better products and user experience. If we are unable to effectively compete on IT-enabled offerings, it could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

Our technology operations are also vulnerable to disruptions from human error, catastrophic events including natural disasters, lack of capacity during peak trading times or times of unusual market volatility, power failure, computer viruses, spam attacks, ransom ware, distributed denial of services attacks, unauthorized access, data leakage and other similar events, and we may not be able to adapt to the evolving technology in the industry. An external information security breach, such as hacker attacks, frauds, virus or worm infestation of our IT systems, or an internal problem with information protection, such as failure to control access to sensitive systems, could materially interrupt our business operations or cause disclosure or modification of sensitive or confidential information. Disruptions to, or instability of, our technology or external technology, or failure to timely upgrade our online or mobile broking platforms could harm our business, reputation and prospects.

The proper functioning of our internet-based trading system, order routing system, back-office systems, settlement system, risk management system, financial controls, accounting, client database, client service and other data processing systems, together with the communications networks linking our IT systems with relevant exchanges, banks, depositories, registrar and transfer agents and client interfaces, is critical to our business and our ability to compete effectively. Our business activities would be materially disrupted in the event of a partial or complete failure of any of these IT systems, communication networks or their backup systems and procedures.

Please see the risk factor "- *We face various risks due to our reliance on third-party intermediaries, authorised persons,*

vendors and service providers" on page 29.

17. We rely on our broking and related services business for a substantial share of our revenue and profitability. Any reduction in our brokerage fee could have material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

We rely on our broking business for a substantial share of our revenue and profitability. In Fiscal 2022, Fiscal 2021 and the Fiscal 2020, our income from broking business amounts to ₹ 2,009.63 million, ₹ 1,870.13 million and ₹ 1,720.26 million, representing 27.52%, 46.93% and 39.67%, of our total income, respectively.

Our broking business depends on number of orders executed and trading volume, which is significantly affected by external factors, such as general economic conditions, macroeconomic and monetary policies, market conditions and fluctuations in interest rates, all of which are beyond our control. Our operating revenue is also affected by the size of our client base, and the frequency at which they do business through us. We earn brokerage fee based on, among other things, the number of orders executed, the volume of trades our clients undertake through us. If we fail to maintain and increase our client base or fail to provide better services and products to retain and attract client activity, our income from broking may be adversely affected.

Our brokerage fee levels are primarily driven by the competitive landscape our Company operates in. There is constant pressure on brokerage yields in the securities industry, especially as we have no exclusivity arrangements with our clients, our clients may use multiple brokerages simultaneously and the products are standardised and offered online. If we face increased competition on our broking fee levels, we may have to provide additional products and services in addition to lowering our broking fee, to attract clients. Additionally, on account of change in our business model, any reduction in the number of orders may adversely affect our business since the fee we charge is based on the number of orders executed by us. Further, there is no assurance that we will be able to attract such clients without having to reduce our fee, which could have a material adverse effect on our business, financial condition, cash flows and results of operations.

We also offer call and trade services to our retail clients. Transactions not authorized by the clients resulting in losses to client may result in compensation claims from clients. For further details, please see "*Outstanding Litigation*" on page 168.

In addition, our broking business faces various additional risks, including, among others, significant changes in the technological environment, changes in client preference, restrictions or limitations on offering internet-based trading services, operational risks and regulatory changes, any of which could have a material adverse effect on our business, financial condition, cash flows and results of operations. For further details, please see the risk factors "*The operation of our businesses is highly dependent on information technology, and we are subject to risks arising from any failure of, or inadequacies in, our IT systems*" and "*There are operational risks associated with the financial services industry which, if realised, may have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects*" on pages 23 and 34, respectively.

18. Our Company doesn't have a dividend policy

Our Company currently doesn't have a dividend policy. The declaration and payment of dividends, if any is recommended by the Board of Directors and approved by the Shareholders, at their discretion, subject to the provisions of the Articles of Association and other applicable law, including the Companies Act. There can be no assurance that the Company shall pay any dividend in the future or dividend payout, if any shall reflect the dividend payout in the past.

The amount of future dividend payments by our Company, if any, will depend upon a number of factors, including but not limited to our future earnings, financial condition, cash flows, working capital requirements, contractual obligations, applicable Indian legal restrictions and capital expenditures. In addition, our ability to pay dividends may be impacted by a number of factors, including restrictive covenants under the loan or financing agreements our Company may enter into to finance our fund requirements for our business activities. There can be no assurance that we will be able to pay dividends in the future. We may decide to retain all of our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. Additionally, in the future, we may be restricted by the terms of our financing agreements in making dividend payments unless otherwise agreed with our lenders.

19. We rely on the Indian exchanges for a significant portion of our business.

Our broking business relies on the Indian exchanges, such as NSE, BSE, MCX, MSEI and NCDEX, and the clearing corporations to execute and settle all our clients' transactions. Our electronic broking platform and our systems for retail

broking clients are connected to the exchanges and all orders placed by our clients are fulfilled through the exchanges. Any disruption in the functioning of the exchanges or a disruption to our connection with the exchanges could have a material adverse effect on our business and results of operations.

To use the services of the exchanges, we are required to be registered as their members. This registration subjects us to various stock exchange regulations and periodic inspections by such exchanges. We cannot assure you that we will be able to strictly comply with such regulations or that such inspections would not find any violations by us. Failure to comply with such regulations could lead to fines, penalties, suspension of our registrations, and in extreme circumstances, termination of our registration. If our registration with the exchanges is terminated, we will be unable to provide broking services, which will have a material adverse effect on our business, financial condition, cash flows and results of operations. In addition, our business operations are subject to regulatory limits on brokerage fee rates and net worth requirements imposed by exchanges.

20. Our Statutory Auditors have highlighted a statement on certain matters specified in Companies (Auditors Report) Order, 2020 ("the Order") in respect of Audited Financial Statements for March 31, 2022, which was modified, which may affect our future financial results.

Our Statutory Auditors have included as an annexure, a statement on certain matters specified in the Companies (Auditors Report) Order, 2020 ("the **Order**") which was modified (a) in respect of renewal of certain ESOP loans that was executed as per original loan agreements and; (b) in respect of Margin Trading Facility ("**MTF**") loans, as per product design repayment of principal and interest are not stipulated and hence regularity of the same has not been commented upon (c) slight delay in payment of undisputed statutory dues; (d) disclosure of statutory dues outstanding on account of a dispute, in the Audit report for the Audited Financial Statements for March 31, 2022. For further details, please see "*Financial Information*" on page 158.

There can be no assurance that our statutory auditors will not include similar comments in the audit reports to our audited financial statements in the future, or that such remarks will not affect our financial results in future fiscal periods. Investors should consider the statements in the Order in evaluating our financial condition, results of operations and cash flows.

21. We may not be able to fully comply with anti-money-laundering, insider trading and anti-terrorism rules and regulations, which could result in criminal and regulatory fines and severe reputational damage. Further, we may fail to detect illegal or improper activities in our business operations on a timely basis, which may have an adverse effect on our reputation, business operations, financial condition, cash flows and results of operation.

We are required to comply with applicable anti-money laundering laws and regulations. These laws and regulations require financial institutions to establish sound internal control policies and procedures with respect to anti-money laundering monitoring and reporting activities. Such policies and procedures require us to, among other things, establish or designate an anti-money laundering framework, conduct client identification in accordance with relevant rules, duly preserve client identity information and transaction records and report suspicious transactions to relevant authorities. Since we handle large volumes of monetary transactions for a significant number of clients, the policies and procedures implemented by us for detecting and preventing the use of our broking platforms to facilitate money laundering activities may not comprehensively detect or eliminate instances of money laundering.

We are required to implement effective surveillance controls and measures for ensuring that our electronic broking platform is not misused by our clients, authorised persons, personnel at our dealer helpdesks or market participants to carry out manipulative trading activities. Failure of the surveillance control and measures implemented by us to detect illegal or improper activities undertaken through our platforms in a timely manner, or at all, could lead to regulatory actions against us and adversely affect our reputation.

If the controls and measures implemented for detecting or eliminating money laundering or other improper or illegal trading activities are considered inadequate under applicable laws and regulations by any regulatory, governmental or judicial authority, we may be subject to penal action, freezing or attachment of our assets, imposition of fines, or both. We cannot assure you that the controls and measures implemented by us are adequate to detect or eliminate every instance of money laundering or illegal trading activities in a timely manner or at all. Any such lapse may adversely affect our reputation, business operations, financial condition, cash flows and results of operations.

22. We face significant competition in our broking businesses, which may limit our growth and prospects.

The Indian securities industry is fragmented and typified by low barriers to entry. Accordingly, we face significant

competition from companies seeking to attract our clients' financial assets. We compete with, amongst others, Indian and foreign broking houses. We compete on the basis of a number of factors, including execution, depth of product and service offerings, innovation, reputation, price and convenience.

Our competitors may have, amongst others, the following advantages over us:

- substantially greater financial resources;
- well-established branch network;
- access to wider client base due to offline trading facilities and 'feet on street' model;
- longer operating history than us in certain of our businesses;
- greater brand recognition among consumers;
- larger retail client base in India;
- ability to charge lower commissions;
- partnerships with various service providers and distribution platforms;
- lower cost of capital; and
- more diversified operations which allow utilisation of funds from profitable business activities to support business activities with lower, or no profitability.

Further, many of our product and service offerings in the broking and distribution businesses are easy to replicate. This increases the risk of competition from commercial banks, service providers and distribution platforms to enter the market. Further, any consolidation in the Indian securities industry would also expose us to competitive pressures. These competitive pressures may affect our business, and our growth will largely depend on our ability to respond in an effective and timely manner to these competitive pressures. Our business, financial condition, cash flows, results of operations and prospects may be materially and adversely affected if we are not able to maintain our market position, sustain our growth, develop new products or target new markets. In addition, competitive pressures and regulatory changes may also lead to downward pressures on our broking commission rates, which could also affect our financial condition, cash flows and results or operations.

Further, we use technology in almost every aspect of our business, including sales, risk management, fraud detection, client service and settlement. The Indian financial services industry (including securities industry) is undergoing rapid and significant technological and other changes. Our competitors could utilise technology, big data and innovation to simplify and improve the client experience, increase efficiencies, redesign products, improve client targeting, alter business models more effectively than or to effect disruptive changes in the Indian financial services industry. If we do not anticipate, innovate, keep pace with, and adapt to, technological and other changes impacting the Indian financial services industry, it could harm our ability to compete in the market, decrease the attractiveness of our products to clients and materially and adversely affect our business, financial condition, cash flows and results of operations.

23. We may not be able to sustain our growth or expand our client and authorised persons' base.

We have experienced significant growth over the last few years, with the total number of operational accounts increasing from 1,59,156 in Fiscal 2020 to 2,01,145 in Fiscal 2021 and to 3,45,216 for the Fiscal 2022. Our ability to sustain our growth depends on various factors, including our ability to manage our growth and expand our client and authorised person base. For instance, while our client base has expanded for Fiscal 2022, there can be no assurance that we will be able to sustain this growth in the future.

We may not be able to sustain our growth in light of competitive pressure or other factors, such as not being able to implement business strategies and development plans effectively and efficiently. Sustained growth may place significant demands on our administrative, operational and financial resources, which we may be unable to handle. Any slowdown in our growth, whether in absolute terms or relative to industry trends could adversely affect our market position and a loss of our market position could adversely affect our ability to sustain our growth.

Our business is highly competitive, and we need to maintain and attract new clients and authorised persons in order to maintain or grow our market share. We cannot assure you that we will succeed in expanding our network due to changes in regulatory policies, difficulties in managing a large number of staff and other unforeseeable reasons. In addition, as a result of competition, we may face increased pressures on declining fee and commission rates and will need to provide better and customized services and products to differentiate ourselves and to retain and attract clients and authorised persons.

If we are unable to address the needs of our clients and authorised persons by offering competitive rates, maintaining high quality client service, continuing product innovation and providing value added services, or if we otherwise fail to meet our clients' and authorised persons demands or expectations, we may not be able to sustain our historic growth or lose our existing base to our competitors, which may in turn have a material and adverse effect on our business, financial condition, cash flows, results of operations and prospects.

24. Our financial performance is subject to interest rate risk, and an inability to manage our interest rate risk may have a material adverse effect on our business prospects, financial condition, cash flows and results of operation.

Interest rates in India have been volatile in the past. They are highly sensitive, and fluctuations thereof are dependent upon many factors which are beyond our control, including the monetary policies of the RBI, de-regulation of the financial services sector in India, domestic as well as international economic and political conditions, inflation and other factors.

Our results of operations, including our interest income from margin funding are dependent on our ability to manage our interest rate risk. Our funding arrangements also include both fixed and floating rate borrowings. Our finance costs were ₹ 593.49 million, ₹ 268.34 million and ₹ 669.56 million in Fiscals 2022, 2021 and 2020, respectively. However, we charge interest at a fixed rate on our financing products, such as margin trade funding. Any volatility in interest rates may adversely affect our business due to, amongst others, reducing profitability margin on our financing products, or our financing products becoming commercially unattractive. Our net interest income from financing activities and net interest margin would be adversely impacted in case of any increase in interest rates, if the yield on our interest-earning assets does not increase simultaneously with or to the same extent as our cost of funds. In the event of a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, it could adversely impact our interest income from financing activities and net interest margin. Additional risks arising from increasing interest rates, among others, include:

- increase in the rates of interest charged on certain financing products in our product portfolio, which may require us to extend repayment period for our clients or result in higher rates of default by our clients;

- increase in defaults resulting from extension of loan maturities and higher instalments due from borrowers;

- reduction in the volume of loan disbursements as a result of a client's inability to service high interest rate payments; and

- inability to raise low-cost funds as compared to some of our competitors.

Further, interest rates may also affect our clients' investment profile and high interest rates may reduce the attractiveness of equity or equity-linked investments of our clients.

There can be no assurance that we will be able to adequately manage our interest rate risk. If we are unable to effectively manage our interest rate risks, it could have an adverse effect on our business prospects, financial condition, cash flows and results of operations.

25. We may have conflicts of interest with our Promoter and related entities.

ESL, one of our Promoters competes with us in connection with various businesses, including the distribution of third-party financial products and private wealth management. It directly or indirectly competes against us for our customers' wallet share. Further, we publish research reports on a regular basis for our clients, to enable them to make informed investment decisions across equity, commodity, debt and currency segments which may conflict with the research reports published by ESL to its clients.

While we believe that all transactions with our Promoter have been conducted on an arms' length basis and all such transactions are adequately disclosed in the section entitled "*Related Party Transactions*" on page 150. Any divergent

views in research findings may expose us to client complaints, have a materially adverse effect on our broking and distribution businesses, and may subject us to regulatory action which may harm our reputation, which could subsequently have a material adverse effect on our business, financial condition, cash flows or results of operations.

26. The continuing impact of the COVID-19 pandemic on our business and operations is uncertain and it may be significant and continue to have an adverse effect on our business, operations and our future financial performance.

The ongoing COVID-19 pandemic and efforts to mitigate its impact have significantly curtailed the movement of people, goods and services worldwide, including in the geographic areas in which we conduct our business operations and from which we generate our revenue. It has also caused societal and economic disruption and financial market volatility, resulting in business shutdowns, and reduced business activity.

The spread of COVID-19 and subsequent lockdowns add restrictions on movement of people and goods has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences), and we may take further actions as may be required by government authorities or that we determine are in the best interests of our employees and customers in case of further outbreaks. There is no certainty that such measures will be sufficient to mitigate the risks posed by any subsequent outbreak.

The COVID-19 pandemic may cause us to continue to experience various challenges in our business in the future and could have other effects on our business, including disrupting our ability to develop new offerings and enhance existing offerings, market, and sell our products and conduct business activities generally. Company's management has view that there is no material impact of the pandemic on its operations and its assets. The extent to which the COVID-19 pandemic continues to impact our business and results of operations will also depend on future developments that are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the disease, the duration and spread of the outbreak, the scope of travel restrictions imposed in geographic areas in which we operate, mandatory or voluntary business closures, the impact on businesses and financial and capital markets and the extent and effectiveness of the development and distribution of vaccines and other actions taken throughout the world to contain the virus or treat its impact. An extended period of global supply chain and economic disruption as a result of the COVID-19 pandemic could have a material negative impact on our business, financial condition, cash flows and results of operations.

27. Instability of economic policies and the political situation in India could adversely affect the fortunes of the industry.

There is no assurance that the liberalization policies of the Government will continue in the future. Protests against privatization could slow down the pace of liberalization and deregulation. The Government of India plays an important role by regulating the policies and regulations that govern the private sector. The current economic policies of the Government may change at a later date. The pace of economic liberalization could change and specific laws and policies affecting the industry and other policies affecting investments in our Company's business could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our Company's business.

Unstable domestic as well as international political environment could impact the economic performance in the short term as well as the long term. The Government of India has pursued the economic liberalization policies including relaxing restrictions on the private sector over the past several years. The present Government has also announced polices and taken initiatives that support continued economic liberalization.

The Government has traditionally exercised and continues to exercise a significant influence over many aspects of the Indian economy. Our Company's business may be affected not only by changes in interest rates, changes in Government policy, taxation, social and civil unrest but also by other political, economic or other developments in or affecting India.

28. If research disseminated or advice provided by us contains errors, this could have a material adverse effect on our business, financial condition, cash flows or results of operations.

Our retail research team provides our retail clients with research covering recommendations on various quantitative and qualitative research requirements relating to the stock market such as equity fundamentals, technical, derivatives, commodities currencies and mutual funds, in addition to macroeconomic or industry-related research. Although due care and caution is taken in issuing research recommendations, the accuracy, adequacy or completeness of such information, which is based on information obtained from sources that we consider reliable, is not guaranteed. Errors or omissions in

the information or for the results obtained from the use of such information may cause our research findings to be incorrect. Further, certain industry and market data may be subject to assumptions, and methodologies for assumptions vary widely among different data sources. Additionally, such assumptions may change due to various factors which are beyond our control. Accordingly, there is no assurance that our assumptions, or those relied upon by us, will be accurate or not change, which may affect our accuracy of our research findings. Incorrect research findings may expose us to client complaints, have a materially adverse effect on our broking and distribution businesses, and may subject us to regulatory action which may harm our reputation, which could subsequently have a material adverse effect on our business, financial condition, cash flows or results of operations.

29. We could be subject to claims by clients or actions by regulators or both for alleged mis-selling.

We sell our third-party distribution products through employees as well as intermediaries including authorised persons, personnel at our dealer helpdesks and DRAs, as the case may be. Our employees and intermediaries aid our clients in choosing the correct product, explaining the benefits of such product, disclosing product features and advising clients on whether to continue with a particular product or change products.

Under certain circumstances, the above processes may be considered inadequate or there may be misconduct on part of our employees or intermediaries or both. Such misconduct could include activities such as making non-compliant or fraudulent promises of high returns on investments and recommending inappropriate products or fund management strategies. Any case of mis-selling, or recurring cases of mis-selling, could result in claims and fines against us and could have a material adverse effect on our business, financial condition, cash flows, results of operations and reputation.

It is also possible that a third party aggregates a number of individual complaints against us with the intention of obtaining increased negotiating power. Further, persons have misrepresented, and in the future may misrepresent, themselves as our authorised intermediaries to defraud clients. Such aggrieved clients have filed and, in the future, may file complaints against us. This could result in significant financial losses as well as loss of our reputation.

30. We face various risks due to our reliance on third-party intermediaries, authorised persons, vendors and service providers.

We rely on third parties, such as stock exchanges, clearing houses and other financial intermediaries to facilitate our financial transactions. In addition, we rely on authorised persons, vendors, personnel at dealer helpdesks and DRAs, as may be applicable, to help distribute our products. We are exposed to various risks related to the business of such third parties, including the following:

- fraud or misconduct, including mis-selling, by such third parties, including authorised persons;
- operational failure of such third parties' systems;
- adverse change or termination in our relationship with such third parties;
- failures in legal or regulatory compliance, inadequate due diligence in sales process, or inadequate controls, including KYC checks, by such third parties;
- regulatory changes relating to the operations of such third parties;
- violation of laws and regulations, including those relating to licensing or registration of sales intermediaries, by such third parties; and
- regulatory actions due to improper business practices of such third parties.

Any of the above risks may result in litigation or regulatory action against us, which could have a material adverse effect on our business, reputation, financial condition, cash flows and results of operations. Further, certain persons have in the past filed complaints against our authorised persons. For further details, please see "*Outstanding Litigation*" on page 168.

In addition, we compete with other financial institutions to attract and retain authorised persons and personnel at our dealer helpdesks and our DRAs, to help distribute our products and our success depends upon factors such as the amount of sales commissions and fee we pay (including due to regulatory restrictions), the range of our product offerings, our reputation, our perceived stability, our financial strength, the marketing and services we provide to such intermediaries and the strength of our relationships with them. If we are unable to attract or retain authorised persons and personnel at

our dealer helpdesks and our DRAs, it could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

We also outsource certain of our operations to third-party service providers, including certain tasks relating to printing and storage, and rely on certain third-party service providers for some of our operational needs. We cannot assure you that our third-party service providers or service providers will comply with regulatory requirements or meet their contractual obligations to us in a timely manner, or at all. Third-party service providers or service providers may breach agreements they have with us because of factors beyond our control. They may also terminate or refuse to renew their agreements because of their own financial difficulties or business priorities, potentially at a time that is costly or otherwise inconvenient for us. In addition, if our third-party service providers or providers fail to operate in compliance with regulations or corporate and societal standards, we could suffer reputational harm by association, which would likely cause a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

We also rely on third parties to provide certain critical trading infrastructure and software. If the third parties upon which we rely cannot expand system capacity to handle increased demand, or if any of their systems otherwise fail to perform or experience interruptions, malfunctions, disruptions in service, slower response times or delays, then we could incur reputational damage, regulatory sanctions, litigation and loss of trading, any of which could materially adversely affect our business, financial condition, cash flows and results of operations.

In addition, we license certain software and technology from third parties. Any premature termination of our license agreements or the loss of the ability to use such software or technology for any reason would have an adverse impact on our business and operations. Rapid changes in our industry or technology may also result in our licensed technologies being recalled or discontinuation of support for outdated products or services. Any deficiencies in the infrastructure used, or processes adopted, by such third parties could have a material adverse effect on our business, results of operations and prospects.

31. We depend on the accuracy and completeness of information about clients and counterparties for our business. Any misrepresentation, errors in or incompleteness of such information could adversely affect our business and financial performance.

We significantly rely on information furnished to us by, or on behalf of, clients (including in relation to their financial transactions and past credit history) for various aspects of our business operations, such as new client enrolment, appointing new authorised persons and servicing our clients. We may also rely on certain representations from our clients as to the accuracy and completeness of the information provided by them. We may receive inaccurate or incomplete information as a result of negligence or fraudulent misrepresentation. Our risk management measures may not be adequate to prevent such activities or detect inaccuracies in such information in a timely manner, or at all, which may expose us to regulatory action or other risks, and may adversely affect our reputation, business prospects, financial condition, cash flows and results of operations.

Difficulties in assessing credit risks associated with our day-to-day lending operations may lead to an increase in the level of our non-performing and restructured assets, which could materially and adversely affect our business prospects, financial condition, cash flows and results of operations. For further details, please see the risk factor "- *Credit risks in our day-to-day operations may expose us to significant losses*" on page 36.

32. We face substantial legal and operational risks in safeguarding personal information.

Our businesses are subject to complex and evolving laws and regulations, governing the privacy and protection of personal information of individuals. The protected parties include:

- our authorised persons;
- our clients;
- our employees; and
- employees of our intermediaries, counterparties, vendors and other third parties.

Ensuring that our collection, use, transfer and storage of personal information complies with all applicable laws and regulations in India may result in:

- increasing our operating costs;
- affecting the development of new products or services;
- demanding significant oversight by our management; and
- requiring us to structure our businesses, operations and systems in less efficient ways.

Furthermore, we cannot ensure that all of our clients, intermediaries, vendors, counterparties and other third parties have appropriate controls in place to protect the confidentiality of the information exchanged between them and us, particularly where information is transmitted by electronic means. We could be exposed to litigation or regulatory fines, penalties or other sanctions if personal, confidential or proprietary information of clients, intermediaries, employees or other third parties were to be mishandled or misused, such as situations where such information is:

- erroneously provided to parties who are not permitted to have the information; or
- intercepted or otherwise compromised by third parties.

The acquisition and secure processing, transmission and storage of sensitive, personal, confidential and proprietary information are critical elements of our operations, including our trading, clearing and settlement, and research businesses. We are exposed to significant risks related to data protection and data security due to, among others, our electronic broking platform involving extensive data transmission and processing, our reliance on licensed technologies and outsourced employees for some of the key components of our IT systems and their maintenance, and our registration and integration with KYC-databases like Unique Identification Authority of India ("**UIDAI**") and KYC Registration Agencies like Central Registry of Securitisation Asset Reconstruction and Security Interest.

Our information security, including the security of our IT systems, is managed by us. We rely on our in-house security systems and employees, and those of certain third-party vendors and service providers in conducting our operations. Those technologies, systems and networks may become the target of cyber-attacks or information security breaches that could result in the unauthorized release, gathering, monitoring, misuse, loss or destruction of our or our clients' confidential, proprietary and other information, identity theft or disruptions of and errors within our systems. Data security breaches may also result from fraud, other misconduct or lack of adequate safeguards by our employees, third-party vendors, business associates, and clients, clerical and recordkeeping errors or other unintentional accidents caused by any of these parties, all of which could harm our reputation and subject us to regulatory action or claims for damage.

We cannot assure you that our existing security measures will prevent all security breaches, intrusions or attacks. A party, whether internal or external, that is able to circumvent our security systems could have access to confidential information or cause significant disruptions to our systems. Security breaches or attacks could result in our competitors obtaining strategically important information about us and give them a competitive advantage over us, cause reputational harm or lead to regulatory sanctions, litigation or loss of business. We may need to expend significant resources to protect against security breaches, intrusions, attacks or other threats or to address problems including reputational harm and litigation, caused by breaches.

Hackers are increasingly using powerful new tactics including evasive applications, proxies, tunnelling, encryption techniques, vulnerability exploits, buffer overflows, denial of service attacks, or distributed denial of service attacks, botnets and port scans. If we are unable to avert an attack for any significant period, we could sustain substantial revenue loss from lost sales due to the downtime of critical systems. We may not have the resources or technical sophistication to anticipate or prevent rapidly evolving types of cyber-attacks. Moreover, we may not be able to immediately detect that such an attack has been launched, if, for example, unauthorized access to our systems was obtained without our knowledge in preparation for an attack contemplated to commence in the future. Cyber-attacks may target us, our clients, our distribution partners, banks, depositories, exchanges, clearing houses, delivery services, e-commerce in general or the communication infrastructure on which we depend.

33. We face certain risks related to our distribution business.

We distribute financial products issued by third-party institutions, through our electronic broking platform, physical distribution network, authorised persons and personnel at our dealer helpdesks and our DRAs. The structure of some third-party products that we distribute and services that we refer clients to may be complex and involve various risks, including credit risks, interest risks, liquidity risks and other risks.

Although as a third-party distributor, we are not directly liable for any investment loss from, or default of, the products we distribute to our clients, we may be subject to client complaints, litigation and regulatory investigation, which could have an adverse effect on our reputation and business. For example, we may not be able to identify and quantify the risks of these products, fail to identify fraudulent, inaccurate or misleading information from the third-party provider, and our sales employees may fail to disclose such risks to our clients, in which case, our clients may invest in financial products that are too risky for their risk tolerance and investment preference, and may suffer a significant loss. This may also subject us to client complaints and litigation and negatively affect our reputation, client relationships, results of operations and business prospects. For further details, please see "*Outstanding Litigation*" on page 168.

We face certain other risks in relation to our distribution business, including:

- decrease in distribution commissions which are generally set by the third-party providers whose products and services we distribute;
- regulatory changes affecting distribution arrangements, including commission levels;
- the clawback of payments from the third-party providers, which is permitted in a majority of our distribution agreements under certain situations, including returns or redemption of certain products by the clients;
- credit risk related to the third-party providers;
- changing client preferences with respect to products that we distribute;
- any adverse change in the relationship with a third-party provider; and
- transition of clients to purchase products directly from such third-party providers.

Any of the above risks could have a material adverse effect on our business, financial condition, cash flows and results of operations.

34. If we fail to identify, monitor and manage risks and effectively implement our risk management policies, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.

The comprehensive understanding of risk management throughout the various levels of an organization aids in driving key decisions related to risk-return balance, capital allocation and product pricing. The Company operates under the guidance of the Board approved risk appetite statement that covers business composition, guidance around gross non-performing assets and net non-performing assets, leverage, funding and liquidity, etc. Additionally, it is also ensured that appropriate focus is on managing risk proactively by ensuring business operations are in accordance with laid-down risk.

The effectiveness of our risk management is affected by the quality and timeliness of available data. We have devoted resources to develop our risk management policies and procedures and aim to continue to do so in the future. For details, see "*Our Business – Risk Management and Compliance*" on page 130. Despite this, our policies and procedures to identify, monitor and manage risks of fraud, money laundering, any other credit, operational or other risks may not be fully effective. Our Board of Directors and the Risk Management Committee review our risk management policies from time to time. We also depend on our information technology systems to assist us with our risk management functions. Further, some of our methods of managing risks are based upon the use of observed historical market behavior. As a result, these methods may not accurately predict future risk exposures, which could be significantly greater than those indicated by the historical measures. To the extent that any of the instruments and strategies we use to hedge or otherwise manage our exposure to market or credit risks are not effective, we may face risk exposure in certain market environments or particular types of risk as a result of not being able to effectively mitigate those market or credit risks. In addition, as we seek to expand the scope of our operations, we also face the risk of being unable to develop commensurate risk management policies and procedures.

Our investment and interest rate risk are dependent upon our ability to properly identify, and mark-to-market changes in the value of financial instruments caused by changes in market prices or rates. Our earnings are dependent upon the effectiveness of our management of changes in credit quality and risk concentrations, the accuracy of our valuation models and our critical accounting estimates and the adequacy of our allowances for loan losses. To the extent our assessments, assumptions or estimates prove inaccurate or not predictive of actual results, we could suffer higher than anticipated losses.

If we fail to effectively implement our risk management policies, we could materially and adversely affect our business, financial condition, results of operations and cash flows.

35. We have contingent liabilities as at the Fiscal Year ended March 31, 2022, and our financial condition may be adversely affected if these contingent liabilities materialize.

We have contingent liabilities, which could adversely affect our business and results of operations. Our contingent liabilities includes claims against the Company not acknowledged as debt amounting to ₹ 231.67 million as at March 31, 2022, in accordance with Ind AS 37. In the event that any of these contingent liabilities materialize, our results of operations, cash flows and financial condition may be adversely affected.

The contingent liability amounts disclosed in our audited financial statements represent estimates and assumptions of our management based on advice received. The contingent liabilities have arisen in the normal course of our business. If, for any reason, these contingent liabilities materialize, it may adversely affect our cash flows and financial condition. For further details on contingent liabilities as of March 31, 2022, in accordance with Ind AS 37, please see "*Financial Information*" on page 158.

36. Our Company is involved in legal and other proceedings. Any final judgment awarding material damages against us could have a material adverse impact on our future financial performance.

We are currently involved in litigations (including civil or criminal, consumer and tax related proceedings). These proceedings are pending at different levels of adjudication before various forums including courts and tribunals. The majority of these cases arise in the normal course of business, and we believe, based on the facts of the cases and consultation with counsel, that these cases generally do not involve the risk of a material adverse impact on our financial performance or stockholders' equity. We estimate the probability of losses that may be incurred in connection with legal and regulatory proceedings as of the date on which our standalone financial statements are prepared. We recognize a provision when we have a present obligation as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made.

We determine the amount of provision based on our estimate of the amount required to settle the obligation at the balance sheet date, supplemented by our experience in similar situations. We review provisions at each balance sheet date and adjust them to reflect current estimates. In cases where the available information indicates that a loss is reasonably possible, but the amount of such loss cannot be reasonably estimated, we make a disclosure to this effect in the standalone financial statements. In certain instances, present and former employees have instituted legal and other proceedings against us alleging irregularities. When there is only a remote risk of loss, we do not recognize a provision, nor do we include a disclosure in the standalone financial statements.

Such complaints, lawsuits and regulatory actions are costly to defend and can materially affect our financial condition, cash flows, even if we are successful in defending them or effectively redress such complaints. If we are unsuccessful in defending these suits or regulatory actions or settling these complaints or disputes, we may have to pay significant damages or penalties. We are also exposed to the risk of adverse publicity as a result of such complaints. Accordingly, even if we are successful in defending or settling them, our reputation could be materially harmed. If any of the above scenarios were to occur, they could materially and adversely affect our business, results of operations, financial condition, cash flows, prospects and our reputation. Further, we may not be able to effectively redress clients' complaints resulting from acts, omissions, or fraud by our employees, authorised persons or personnel at our dealer helpdesks and Digital Referral Associates ("**DRAs**") in a timely manner or at all, which could adversely affect our results of operations, financial condition, cash flows, prospects and reputation.

For further details in relation to legal proceedings, see the section titled "*Outstanding Litigations*" on page 168.

37. Negative publicity could damage our reputation and adversely impact our business and financial results.

Reputational risk, or the risk to our business, earnings and capital from negative publicity, is inherent in our business. The reputation of the banking and financial services industry in general has been closely monitored as a result of the global financial crisis and other matters affecting the financial services industry. Negative public opinion about the banking and financial services industry generally or us specifically could materially adversely affect our ability to attract and retain customers and may expose us to litigation and regulatory action. While we have developed our brand and reputation over our history, any negative incidents or adverse publicity could rapidly erode customer trust and confidence in us, particularly if such incidents receive widespread adverse mainstream and social media publicity or attract regulatory investigations. Negative publicity can result from our own or our third- party service providers' actual or alleged conduct

in any number of activities, including lending practices, mortgage servicing and foreclosure practices, technological practices, corporate governance, regulatory compliance, mergers and acquisitions, and related disclosure, sharing or inadequate protection of customer information, and actions taken by government regulators and community organizations in response to that conduct. Although we take steps to minimize reputational risk in dealing with customers and other constituencies, we, as a large financial services organization with a high industry profile, are inherently exposed to this risk.

38. There are operational risks associated with the financial services industry which, if realised, may have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

We face various operational risks related to our business operations in the financial services industry, such as:

- human and systems errors, including in the confirmation, entry or settlement of transactions, due to the complexity and high volume of transactions;
- inadvertent deviations from defined processes and inadvertent errors due to the manual nature of processes;
- delay or failure to timely transfer, pledge or un-pledge securities to and from depository participants;
- failure to establish and maintain an effective controls and compliance oversight by our authorised persons' network;
- failure of technology in our processes, including risk management and settlement processes, causing errors or disrupting our operations;
- inadequate technology infrastructure or inappropriate systems architecture;
- failure to adequately monitor and control authorised persons and personnel at our dealer helpdesks and DRAs;
- failure to implement sufficient information security, including cyber-security and controls;
- failure to maintain appropriate deposits with exchanges;
- fraud by employees, associates, authorised persons or through our digital and online platforms;
- fraud by authorised persons or personnel at our dealer helpdesks and DRAs or our employees;
- delay or disruption in timely completion of obligations by market and other intermediaries including banks, exchanges, depositories and other participants;
- an interruption in services by our critical service providers;
- failure to timely report transactions to concerned intermediaries;
- damage to physical assets;
- failure of our complex automated risk management systems due to incorrect or inadequate algorithms;
- authorisation of direct market access system for non-institutional investors by SEBI;
- inadequate due diligence, including client verification, non-adherence to anti-money laundering guidelines, KYC processes and client needs analysis, in the sales process; and
- If any of the foregoing were to occur, it could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

We have established a system of risk management and internal controls consisting of an organizational risk management framework, policies, risk management system tools and procedures that we consider to be appropriate for our business operations. Our risk assessment methods depend upon the extant regulatory requirements, historical market behavior and statistics, the evaluation of information regarding financial markets, clients or other relevant matters that are publicly

available or otherwise accessible to us. Such information may not be accurate, complete or properly evaluated. Moreover, the information and experience data that we rely on may quickly become obsolete as a result of market and regulatory developments, and our historical data may not be able to adequately reflect risks that may emerge from time to time. Inaccuracy in estimates of the level of margin to be maintained by our clients with us for the transactions undertaken by them could result in a shortfall in margins deposited by our clients with us. However, due to the inherent limitations in the design and implementation of risk management systems, including internal controls, risk identification and evaluation, effectiveness of risk control and information communication, our risk management systems and mitigation strategies may not be adequate or effective in identifying or mitigating our risk exposure in all market environments or against all types of risks in a timely manner, or at all. Further, we may not be able to completely avoid the occurrence of or timely detect any operational failure.

We also face the risk of regulatory penalties in our broking business from the exchanges or regulators for failures of routine operational processes. In the past, we have been, and in the future may be, penalised by the regulators and exchanges for non-compliance with regulatory rules and byelaws relating to operational failure, including in connection with cases of operation failure beyond our control.

We may also offer a broader and more diversified range of products, services or solutions. We may not be able to fully appreciate or identify operational risks related to the new products, services or solutions introduced by us from time to time. Accordingly, any risk management measures, or controls implemented by us for such new products, services or solutions may not be adequate and we may be subject to liabilities arising therefrom. Further, any failure to change our risk management measures and controls to our developing business in a timely manner could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

39. We are exposed to operational risks, including employee negligence, petty theft, burglary and embezzlement and fraud by employees, agents, customers or third parties, which could harm our results of operations and financial position.

We are exposed to many types of operational risks, including the risk of fraud or other misconduct by employees or outsiders, unauthorized transactions by employees, inadequate training and operational errors, improperly documented transactions, failure of operational and information security procedures, computer systems, software or equipment. We attempt to mitigate operational risk by maintaining a comprehensive system of internal controls, establishing systems and procedures to monitor transactions, maintaining key back-up procedures, undertaking regular contingency planning and providing employees with continuous training. Although we carefully recruit all our employees, we have in the past been subject to the fraudulent acts committed by our employees or third parties. For details relating to frauds see the section titled "*Outstanding Litigations*" on page 168.

40. There are outstanding legal proceedings against our Promoters, Directors, group companies, which if determined adversely, could have a material adverse impact on our business, results of operations, cash flows and financial conditions.

There are certain outstanding legal proceedings against our Promoters, Directors, group companies pending at various levels of adjudication before courts, tribunals, authorities and appellate bodies. There can be no assurance that these legal proceeding will be decided in favour of our group companies. Decisions in any of such proceedings adverse to our interests may have a material adverse effect on our business, future financial performance and results of operations. If the courts or tribunals rule against our Promoters, Directors, group companies, we may face monetary and/ or reputational losses.

Furthermore, we may also not be able to quantify all the claims in which our Promoters, Directors, group companies group companies are involved. For further details in relation to legal proceedings against our Promoters, Directors, group companies, group companies, see the section titled "*Outstanding Litigations*" on page 168.

41. A significant decrease in our liquidity could negatively affect our business and reduce client confidence in us.

Our liquidity and profitability are dependent upon our timely access to, and costs associated with, raising capital. Our funding requirements historically have been met from a combination of term loans, commercial papers and working capital facilities as well as equity contributions. As a financial services company, we face certain additional regulatory restrictions on our ability to obtain financing from banks. For further information, please see "*Regulations and Policies*" on page 151.

Maintaining adequate liquidity is crucial to our broking operations, including key functions such as transaction settlement

and margin funding and other business activities with substantial cash requirements. We place margins with clearing houses of respective exchanges, which may fluctuate significantly from time to time based on the nature and volume of our clients' trading activity. Although we meet our liquidity needs primarily through cash generated from operating activities, internal accruals and debt financing, we are not permitted to raise debt beyond a specific limit, specifically to fund our margin funding requirements. A reduction in our liquidity could affect our ability to trade on the exchanges, stunt the growth of our business and reduce the confidence of our clients in us, which may result in the loss of client accounts.

We provide broking services across the equity, commodity, derivatives and currency segments, for which we offer margin-based products on our broking platform, wherein clients are required to deposit the prescribed initial margin for the transaction executed by us on their behalf and thereafter pay the balance amount. Accordingly, if a client fails to pay the balance amount on or before the due date, then it may affect our liquidity. In case of high market volatility or adverse movements in share prices, it is possible that clients may not honour their commitment, and consequently, any inability on our part to pay the margins or honour the pay-in obligation to the exchanges, or both, may be detrimental to our business, reputation and profitability.

Factors that may adversely affect our liquidity position include a significant abrupt increase in our broking services, volatile markets, settlement of large transactions on behalf of our broking clients. We use cash generated from our operating activities and external financing to meet our liquidity or regulatory capital requirements. During periods of disruption in the credit and capital markets or changes in the regulatory environment, potential sources of external financing could be limited, and our borrowing costs could increase. External financing may not be available to us on commercially acceptable terms, or at all, due to disruptions in the credit and capital markets, changes in regulations relating to capital raising activities, general market conditions for capital raising activities, and other economic and political conditions outside our control.

Any of the risks highlighted above in relation to a decrease in our liquidity, could have a material adverse effect on our business, results of operation and prospects.

42. Credit risks in our day-to-day operations may expose us to significant losses.

We may suffer significant losses from credit exposures from our clients and counterparties. Our broking business is subject to the risk that a client or counterparty may fail to perform its obligations or that the value of any collateral held by us to secure the obligations might become inadequate.

We are exposed to credit risk arising out of receivables from clearing houses of exchanges which comprise initial margins placed with clearing houses and receivables relating to sales of securities which the clients have traded but are not yet settled. We square off and settle positions in client accounts through a trading system as per our risk management policies. We are also exposed to credit risk with regard to our fixed deposits placed with banks. We are dependent on a number of parties like brokers, exchanges, banks, registrars and share transfer agents, clearing houses and other intermediaries for our transaction's execution or for our day-to-day operations, or both.

If any of these counterparties do not perform their obligations due to bankruptcy, lack of liquidity, downturns in the economy, operational failure, fraud or other reasons, and any collateral or security they provide proves inadequate to cover their obligations at the time of the default, we could suffer significant losses and it would have an adverse effect on our financial condition, cash flows, results of operations and cash flows. We are also subject to the risk that our rights against these counterparties may not be enforceable in all circumstances.

We are responsible for contracts entered into by us on behalf of our clients. Although we attempt to minimize our exposure to specific clients, these measures may not be sufficient. For example, we provide a margin lending product to our retail clients, allowing them to trade on the basis of margins that they deposit with us. If our clients suffer significant losses and the margin that they deposited with us proves to be inadequate, due to unseasonal volatility or otherwise, we may suffer significant financial losses. We also extend short term credit to our clients through certain products and face credit risks relating to such receivables if there is an adverse market movement.

We may incur losses on our treasury and trading business from market volatility or our investment strategies.

In Fiscals 2022, 2021 and 2020, the revenue we derived from our treasury and trading business amounted to ₹ 383.16 million, ₹ 295.00 million and ₹ 95.56 million, respectively, which represented 5.25 %, 7.40 % and 2.20 % of our total revenue, respectively.

The performance of our proprietary trading business depends on market conditions and our investment decisions and judgments. We closely monitor the market value and financial performance of our portfolio, and actively adjust such portfolio to allocate assets based on market conditions, liquidity requirements and internal risk management guidelines. However, our investment decisions are based on human judgments, which involve discretion and assumptions. If our decision-making process fails to effectively control losses, or our forecasts do not conform to sudden changes in market conditions, or if we do not effectively manage our exposure to concentration risks from particular assets, our proprietary trading business may result in substantial losses. In addition, we may suffer losses in an adverse market environment despite our active management of our investment portfolio. If any of the above happens, we could suffer material losses, which would materially and adversely affect our business, financial condition, cash flows and results of operations.

43. We are permitted to use the Edelweiss trademark, pursuant to the trademark license agreement between our Company and EFSL. Such right to use the above trademarks is subject to the termination based on the terms and conditions of the trademark license agreement and any such termination may result in us being unable to use the above trademarks, which could have a material adverse effect on our reputation and business.

We have been given the right to use the Edelweiss trademark, owned by EFSL pursuant to the trademark license agreement dated February 29, 2016 entered between our Company and EFSL and subsequent Addendums. We have been provided a non-exclusive, non-transferable, as set out therein, to use the trademark. Any termination of the agreement by EFSL may result in us being unable to use this trademark which could have a material adverse effect on our reputation and business.

44. We are required to maintain various licenses and permits for our business from time to time. Any failure or delay in obtaining or renewing licenses or permits may adversely affect our operations.

Our business is subject to compliance with the rules, regulations, byelaws and circulars prescribed by SEBI, IRDAI, PFRDA, RBI, CCRL, NERL, AMFI, CDSL and exchanges, and other regulatory authorities, and the terms and conditions of the approvals, licenses, registrations and permissions obtained for operating our business. Some of the approvals, licenses and registrations may elapse in the ordinary course of business and we make applications for renewal as and when practicable and in accordance with applicable law, while certain other registrations are valid until they are suspended or cancelled by the regulator but are subject to payment of registration fee at a periodic interval. Further, in accordance with the regulations formulated by SEBI and other regulatory authorities, we are required to intimate or obtain approvals, as the case may be, amongst others, for changes in our Board, changes in our shareholding pattern, and undertaking certain corporate actions.

Government and regulatory licenses and approvals may also be tied to conditions, some of which may be onerous to us and require substantial expenditures. There is no assurance in the future that the licenses, approvals and permits applied for or held by us will be issued, approved or renewed in a prompt manner, or at all, under applicable law. Our failure to renew or obtain such licenses and approvals in a timely manner, or at all, and comply with the provisions of the applicable laws and regulations could lead to suspension or cancellation of our registration or imposition of sanctions by the relevant authorities, including penalties.

If we are unable to make applications and renew or obtain necessary permits, licenses and approvals on acceptable terms, in a timely manner, at a reasonable cost, or at all, it could materially and adversely affect our financial condition, cash flows and results of operations.

***45.* We have had negative operating cash flows in the past.**

We had negative cash flows for operating activities in the past on account of high growth in loans and advances i.e., disbursals as compared with collections for the year and may have negative cash flows in the future.

The following table sets forth our cash flow for the years indicated below on a standalone basis:

(₹ in million, unless otherwise stated)

Particulars	Fiscal 2022	Fiscal 2021	Fiscal 2020
Net cash (used in)/generated from operating activities (A)	(7,294.56)	(1,325.79)	1,403.43

Cash and cash equivalents as at the end of the year	2,334.89	697.83	1,370.72

We cannot assure you that our net cash flows will be positive in the future.

For disclosure of cash flows of our Company, for the years ended March 31, 2022, March 31, 2021 and March 31, 2020, as per Ind AS 107, please refer to the section titled *"Financial Information"* on page 158 of this Prospectus.

46. We face asset-liability mismatches which could affect our liquidity and consequently may adversely affect our operations and profitability.

Our Company's funding requirements is met through long-term and medium-term funding sources such as bank loans and non-convertible debentures and our short-term funding requirements are met through working capital demand loans, cash credit, commercial paper and other short-term loans. Our Company may face potential liquidity risks due to varying periods over which our Company's assets and liabilities mature. Our Company's inability to obtain additional credit facilities or renew its existing credit facilities in a timely and cost-effective manner to meet its maturing liabilities, or at all, may lead to gaps and mismatches between its assets and liabilities, which in turn may adversely affect our Company's liquidity position, and in turn, its operations and financial performance.

Our liquidity position may be adversely affected, and we may be required to pay higher interest rates in order to meet our liquidity requirements in the future, which could have a material adverse effect on our business and financial results.

47. We extend margin funding loans, or loans against shares, to our clients, and any default by a client coupled with a downturn in the stock markets could result in substantial losses for us.

We extend, margin funding loans or loans against shares which are secured by liquid, marketable securities at an

appropriate or predetermined margin levels. In the event of a volatile stock market or adverse movements in stock prices, the collateral which secures the loans may decrease significantly in value, which might result in losses which our Company may be unable to support. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. There is little financial information available about the creditworthiness of our customers. It is therefore difficult to carry out precise credit risk analysis on our clients. Although we use a technology-based risk management system and follow strict internal risk management guidelines on portfolio monitoring, which include limits on the amount of margin, the quality of collateral provided by the client and pre-determined margin call thresholds, no assurance can be given that if the financial markets witnessed a significant single-day or general downturn, our financial condition, cash flows and results of operations would not be adversely affected.

48. We face additional risks as we expand our product and service offerings and grow our business.

We will continue to expand our product offerings and business as permitted by relevant regulatory authorities and market opportunities. New product offerings in our business are required to be compliant with the complex regulatory requirements and trading validation requirements of the exchanges. Failure to consider, identify and provide for all additional risks may result in adverse financial impact on our Company. For further details, please see "*Our Business*" on page 116.

These activities may expose us to new and increasingly challenging risks, including, but not limited to:

- we may not be successful in enhancing our risk management capabilities and IT systems to identify and mitigate the risks associated with these new products, services and businesses;
- we may be subject to stricter regulatory scrutiny, and increased credit, market, compliance and operational risks;
- we may be unable to obtain regulatory approvals for certain new products in a timely manner, or at all;
- we may have insufficient experience or expertise in offering new products and services and dealing with new counterparties and client;
- we may be unable to hire additional qualified personnel to support the offering of a broader range of products and services;
- our new products and services may not be accepted by clients or meet our profitability expectations; or
- we may be unable to obtain sufficient financing from internal and external sources to support our business expansion.

If we are unable to achieve the intended results with respect to our offering of new products and services, or manage the growth of our business, our business, financial condition, cash flows, results of operations and prospects could be materially adversely affected.

49. Our insurance coverage could prove inadequate to cover our losses. If we were to incur a serious uninsured loss or a loss that significantly exceed the limits of our insurance policies, it could have a material adverse effect on our business, results of operations, cash flows and financial condition.

We have insurance policies providing coverage for our assets against losses from fire, burglary and certain other risks. We also maintain insurance policies against third-party liabilities, including a dealing errors policy, a group term insurance policy, a group personal accident policy and a group health insurance policy to cover the medical expenses incurred by our employees during hospitalisation. We maintain insurance coverage within a range consistent with industry practice to cover certain risks associated with our business and us. We cannot assure you that our current insurance policies will insure us fully against all risks and losses that may arise in the future. In addition, even if such losses are insured, we may be required to pay a significant deductible on any claim for recovery of such a loss, or the amount of the loss may exceed our coverage for the loss. In addition, our insurance policies are subject to annual review, and we cannot assure you that we will be able to renew these policies on similar or otherwise acceptable terms, if at all. If we were to incur a serious uninsured loss or a loss that significantly exceeds the limits of our insurance policies, it could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

50. A significant portion of our revenue and income from our broking business is derived from relatively few clients.

We had 3,45,217 operational broking accounts as of March 31, 2022, of whom 199,644 clients had traded on the exchanges in the preceding 12 months. The top 20% of our active clients, being, 39,929 of such active clients accounted for over 96% of our income from our income from broking as of March 31, 2022. The loss or financial difficulties of such clients, or significant decreases in the overall volumes of trading from such clients, could materially and adversely affect our business, results of operation, financial condition and cash flows.

If we lose such clients due to price competition or otherwise, or we have to offer them significant discounts to retain them, there could be a material and adverse effect on our business, results of operations, financial condition and cash flows. For further details, please see "*Risk Factors - We rely on our broking and related services business for a substantial share of our revenue and profitability. Any reduction in our brokerage fee could have material adverse effect on our business, financial condition, cash flows, results of operations and prospects*" on page 24.

51. We have high working capital requirements. Any failure in arranging adequate working capital for our operations may adversely affect our business, results of operations, cash flows and financial condition.

Our business requires a high amount of working capital. For further details of our working capital borrowings, please see "*Financial Indebtedness*" on page 160.

To finance such capital requirements, we have availed certain loan facilities including overdraft facilities, working capital demand loans and bank guarantees. We cannot assure you that we will be able to raise debt to meet our working capital requirements on commercially acceptable terms in a timely manner or at all. If we have to fund our working capital requirements from infusion of equity, it may result in dilution of shareholding of our existing Shareholders.

52. We have incurred indebtedness and may incur substantial additional indebtedness and any default in compliance with the material covenants, which could adversely affect our cash flows, financial condition, and/or our ability to obtain financing in the future, react to changes in our business and/or satisfy our obligations.

As of March 31, 2022, we had outstanding total borrowings of ₹ 11,194.70 million. Our indebtedness and other liabilities could have material consequences for the following reasons:

- we may not be able to repay the loans in a timely manner;
- we may be unable to obtain additional financing, should such a need arise, which may limit our ability to maintain adequate capital with the exchanges or satisfy obligations with respect to our debt;
- a portion of our financial resources must be dedicated to the payment of principal and interest on our debt, thereby reducing the funds available to use for other purposes;
- it may be more difficult for us to satisfy our obligations to the exchanges and creditors, resulting in possible defaults on, and acceleration of, such debt;
- we may be more vulnerable to general adverse economic and industry conditions;
- our ability to refinance debt may be limited or the associated costs may increase; and
- our flexibility to adjust to changing market conditions could be limited, or we may be prevented from carrying out capital spending that is necessary or important to our growth strategy and efforts to improve operating margins of our businesses.

Some of the financing arrangements entered into by us include conditions and covenants that require us to obtain lender's consents prior to carrying out certain activities and entering into certain transactions including certain actions and matters in relation to the Issue. Some of these covenants include, altering our capital structure, changing our current ownership or control, formulating a scheme of amalgamation, material change in management, undertaking guarantee obligations, declaration of dividend, and amending constitutional documents. We are also required to maintain certain financial ratios and ensure compliance with regulatory requirements. We have received consents from all relevant lenders to undertake the Issue.

A failure to observe the covenants under our financing arrangements or failure to obtain necessary waivers may lead to

the suspension of any further lending commitments, termination of our credit facilities, acceleration of amounts due under such facilities, trigger cross-default provisions and the enforcement of security provided. There can be no assurance that we will be able to persuade our lenders to grant extensions or refrain from exercising such rights which may adversely affect our operations and cash flows. As a result, we may have to dedicate a substantial portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. Additionally, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing or generate sufficient cash to fund our liquidity requirements.

In addition, we may need to refinance all or a portion of our debt on or before maturity. We cannot assure you that we will be able to refinance any of our debt on commercially reasonable terms or at all. For further information, see "*Financial Indebtedness*" on page 160. Occurrence of any of the above contingencies with respect to our indebtedness could materially and adversely affect our business prospects, cash flows, financial condition and results of operations.

53. Companies operating in India are subject to a variety of central and state government taxes and surcharges.

Tax and other levies including stamp duty imposed by the central and state governments in India that affect our tax liability include central and state taxes and other levies, income tax, goods and service tax, stamp duty and other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time. The statutory corporate income tax in India (as applicable to us), which includes a surcharge on the tax and a health and education cess on the tax and the surcharge.

The central or state government may in the future increase the corporate income tax or surcharge/cess it imposes. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Additional tax exposure could adversely affect our business and results of operations and profitability.

54. Our Company is subject to certain restrictive covenants in our loan documents, which may restrict our operations and ability to grow and may adversely affect our business.

As of March 31,2022, our total borrowings were ₹ 11,194.70 million. Our ability to meet our debt service obligations and repay our outstanding borrowings will depend primarily on the cash generated by our business, which depends on the timely repayment by our customers. There are restrictive covenants in the Facility Agreement and other lending agreements/ sanction letters we have entered into with our lenders that limit our ability to undertake certain types of transactions, any of which could adversely affect our business, results of operations, cash flows and financial condition. These restrictive covenants require us to maintain certain financial ratios and seek the prior permission of these banks/financial institutions for various activities, including, amongst others, selling, leasing, transferring or otherwise disposing of any part of our business or revenues, effecting any scheme of amalgamation or reconstitution, implementing a new scheme of expansion, taking up an allied line of business or making any amendments to Memorandum and Articles of Association etc. Such restrictive covenants in our loan documents may restrict our operations or ability to expand and may adversely affect our business. For further information, see "*Financial Indebtedness*" on page 160.

We have applied to our lenders/ trustees and have received consents from our lenders/ trustees (as applicable) in relation to this Issue.

A failure to observe the covenants under our financing arrangements or to obtain necessary consents required thereunder may lead to the termination of our credit facilities, acceleration of all amounts due under such facilities and the enforcement of any security provided. Any acceleration of amounts due under such facilities may also trigger cross default provisions under our other financing agreements. If the obligations under any of our financing documents are accelerated, we may have to dedicate a substantial portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. Further, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing. Any of these circumstances could adversely affect our business, credit rating and financial condition, cash flows and results of operations.

If we fail to meet our debt service obligations or covenants provided under the financing agreements, the relevant lenders could declare us to be in default under the terms of our agreements or accelerate the maturity of our obligations. We cannot assure you that, in the event of any such acceleration, we will have sufficient resources to repay the borrowings.

55. We rely in part on our dealer helpdesks, authorised persons and DRAs, and if our dealer helpdesks authorised persons and DRAs cannot function successfully, our growth and success may be affected.

In Fiscals 2022, 2021 and 2020, revenue from our income from broking represented 27.52%, 46.93%, and 39.67% of our total income, respectively. Our business strategy depends in part on the success of our relationship with our authorised persons, personnel at our dealer helpdesks and DRAs. We may not be able to identify suitable dealer helpdesks authorised persons or DRAs or we may not correctly manage our existing relationships. Although we have developed criteria to evaluate and screen prospective dealer helpdesks, authorised persons and DRAs, we cannot be certain that the dealer helpdesks, authorised persons and DRAs we select will have the business acumen or financial resources necessary to contribute to our broking business.

We have a revenue-sharing system in place with our authorised persons that has been established pursuant to agreements required by the relevant regulations. Under the terms of these agreements, which are separately negotiated with each authorised person, we generally receive between a certain percentage of the brokerage or net revenue earned through clients introduced and serviced by our authorised persons using our technology platforms. Any inability on our part to effectively negotiate brokerage share with the authorised persons would result in loss in profitability, adverse financial condition, cash flows and results of operations.

We compete with other financial institutions to attract and retain authorised persons and our success is largely dependent upon factors such as the amount of sales commissions and fees we pay (including due to regulatory restrictions), the range of our product offerings, our reputation, our perceived stability, our financial strength, the marketing and services we provide to such intermediaries and the strength of our relationships with them. If we are unable to attract or retain authorised persons, it could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

Authorised persons operate independently and, although we have control of the operations, we do not exercise absolute control over their day-to-day operations. We provide training and support to dealer helpdesks, authorised persons and DRAs and set and monitor operational standards, but there can be no assurance that our training and standards will be effective, and the quality of operations may be diminished by various factors beyond our control. The failure of dealer helpdesks, authorised persons and DRAs to maintain our standards could adversely affect our reputation, our brand and our business, financial condition, cash flows, results of operations and prospects. Further, dealer helpdesks, authorised persons and DRAs may also be subject to local laws of the states in which they are located and any non-compliances by such dealer helpdesks, authorised persons and DRAs with local laws may affect our business operations and reputation.

56. We have entered into certain related-party transactions, and we may continue to do so in the future.

We have entered into certain transactions with related parties, including with our Promoters and group companies, for the distribution of products as well as for office expenses, data center charges and other expenses incurred in the ordinary course of our business. For details of the related-party transactions during the last three Fiscals, as per the requirements under Ind AS 24 - Related Party Disclosures, as applicable, please see "*Related Party Transactions*" on page 150. We have also paid remuneration to certain of our Directors and officers. For further details, please see "*Our Management*" on page 136.

Certain related-party transactions also require the approval of our Shareholders in accordance with applicable laws. There can be no assurance that such transactions will be approved. There can also be no assurance that we will be able to maintain existing terms, or in case of any future transactions with related parties, that such transactions will be on terms favourable to us. While we believe that all of our related-party transactions have been conducted on an arms' length basis and all such transactions are adequately disclosed in "*Related Party Transactions*" on page 150 and are also approved by the Audit Committee of our Board (including whether such transactions are on an arms' length basis), we cannot assure you that in all such transactions, we could not have achieved more favourable terms than the existing ones.

It is also likely that we will enter into related-party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. Accordingly, there can be no assurance that such transactions, individually or in the aggregate, will not have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

57. Statistical and industry data in this document is derived from the CARE Report commissioned by us for such purpose. The CARE Report is not exhaustive and is based on certain assumptions, parameters and conditions. The data and statistics in the CARE Report may be inaccurate, incomplete or unreliable.

This document includes information that is derived from the report on titled "*Industry Report on Wealth Management and Stock Broking*" dated June 15, 2022 prepared by CARE Advisory Research and Training Limited (CareEdge Research) ("**CARE Report**"). CARE Report is not in any manner related to us, our Directors or our Promoters or our Lead Managers. The CARE Report is subject to various limitations and is based on certain subjective assumptions. While we have taken reasonable care in the reproduction of the information from the CARE Report, neither our Company nor the Lead Managers nor any of our or their respective affiliates or advisors or any other person connected with the Issue has independently verified data and statistics obtained from the CARE Report. While we have no reason to believe the data and statistics in the CARE Report are incorrect, we cannot assure you that they are accurate, complete or reliable and, therefore, we make no representation or warranty, express or implied, as to the accuracy, completeness or reliability of such data or statistics. Therefore, discussions of matters relating to India, its economy and the industry in which we currently operate are subject to the caveat that the data and statistics upon which such discussions are based may be inaccurate, incomplete or unreliable. Further, there can be no assurance that such data and statistics are stated or compiled on the same basis or with the same degree of accuracy as may be the case in other reports. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this document.

58. We may breach third-party intellectual property rights.

We may be subject to claims by third parties, both inside and outside India, if we breach their intellectual property rights by using slogans, names, designs, software or other such rights that are of a similar nature to the intellectual property these third parties may have registered or are using. We might also be in breach of such third-party intellectual property rights due to accidental or purposeful actions by our employees where we may also be subjected to claims by such third parties.

Any legal proceedings that result in a finding that we have breached third parties' intellectual property rights, or any settlements concerning such claims, may require us to provide financial compensation to such third parties or stop using the relevant intellectual property (including by way of temporary or permanent injunction) or make changes to our marketing strategies or to the brand names of our products, any of which may have a material adverse effect on our business, prospects, reputation, results of operations, cash flows and financial condition.

59. All our offices are held by us on lease or leave and license or tenancy agreements which subject us to certain risks.

All our offices are on premises that have been leased by us from third parties through lease or leave and license or tenancy arrangements for fixed terms. Upon expiration of the term of the relevant agreement for each such premise, we will be required to negotiate the terms and conditions on which the lease agreement may be renewed. We cannot assure you that we will be able to renew these agreements on commercially reasonable terms in a timely manner, or at all. In the event that these existing leases are terminated, or they are not renewed on commercially acceptable terms or at all, it may have a limited impact on our operational activities for the time being. For further details of all the lease and license agreements entered by the Company along with relevant details, please see "*Our Business*" on page 116.

60. We are a "foreign owned and controlled" company in accordance with the Consolidated FDI Policy and FEMA Rules and accordingly, we shall be subject to Indian foreign investment laws.

In accordance with the provisions of the Consolidated FDI Policy and FEMA Rules, our Company is a foreign owned and controlled company. As a foreign owned and controlled company, our Company is subject to various requirements under the Consolidated FDI Policy and other Indian foreign investment laws. Such requirements include restriction on undertaking certain business activities without prior Government approval or at all, and pricing guidelines applicable to issue or transfer of our Equity Shares.

While we believe that our business activities have been, and continue to remain, compliant with the requirements under the Consolidated FDI Policy and other Indian foreign investment laws, we cannot assure you that the Government, or a regulatory or judicial authority, will not take a different interpretation. A determination by the Government, or a regulatory or judicial authority, that any of our business activities are being, or have been, conducted in violation of the Consolidated FDI Policy and other applicable Indian foreign investment laws, would attract regulatory sanctions, including monetary penalties. In such an event, we may also have to cease undertaking the relevant business activities.

Furthermore, till the time we continue to be a foreign owned and controlled company, we may not be able to undertake certain commercially attractive business activities or investments without prior approval of the Government or at all.

61. There have been instances of discrepancies in relation to certain of our corporate records and statutory filings with the RoC under applicable laws. Any proceedings that may be initiated in this regard, or any adverse outcome of such proceedings, could adversely impact our reputation, business and our results of operations.

Certain of our corporate and secretarial records could not be traced as the relevant information was not available in the records maintained by our Company, at the MCA Portal maintained by the Ministry of Corporate Affairs and the RoC, despite conducting internal searches.

While no legal proceedings or regulatory action has been initiated against our Company in relation to untraceable secretarial and other corporate records and documents as of the date of this Prospectus, we cannot assure you that such legal proceedings or regulatory actions will not be initiated against our Company in future.

EXTERNAL RISKS

62. Financial difficulty and other problems relating to financial institutions in India could have a material adverse effect on our business, results of operations, cash flows and financial condition.

We are exposed to the risks of the Indian financial system which may be affected by the financial difficulties faced by certain Indian financial institutions whose commercial soundness may be closely related as a result of credit, trading, clearing or other relationships. This risk, which is sometimes referred to as "systemic risk", may adversely affect financial intermediaries, such as clearing houses, banks, securities firms and exchanges with which we interact on a daily basis. Any such difficulties or instability of the Indian financial system in general could create an adverse market perception about Indian financial institutions and banks and adversely affect our business. In Fiscal 2011, Indian government agencies-initiated proceedings against certain financial institutions, alleging bribery in the loans and investment approval process, which impacted market sentiment. Similar developments in the future could negatively impact confidence in the financial sector and could have a material adverse effect on our business, results of operations, cash flows and financial condition.

In addition, we deal with various financial institutions in our business. Any one of them could be negatively affected by financial difficulty as a result of occurrences over which we have no control. If one or more of our financial institutional counterparties or intermediaries suffers economic difficulty, this could have a material adverse effect on our business, results of operations, cash flows and financial condition.

63. Our results of operations have been, and may continue to be, adversely affected by Indian and international financial market and economic conditions.

Our business is highly dependent on Indian and international markets and economic conditions. Such conditions in India include fluctuations in interest rates; changes in consumer spending; the level of consumer confidence; housing prices; corporate or other scandals that reduce confidence in the financial markets, among others. International markets and economic conditions include the liquidity of global financial markets, the level and volatility of debt and equity prices and interest rates, investor sentiment, inflation, the availability and cost of capital and credit, and the degree to which international economies are expanding or experiencing recessionary pressures. The independent and/or collective fluctuation of these conditions can directly and indirectly affect demand for our stock broking business, lending business and other financial products or increase the cost to provide such products.

Global financial markets were and continue to be extremely volatile and were materially and adversely affected by a significant lack of liquidity, decreased confidence in the financial sector, disruptions in the credit markets, reduced business activity, rising unemployment, declining home prices and erosion of consumer confidence. These factors have contributed to and may continue to adversely affect our business, results of operations, cash flows and financial condition.

64. The fund requirement and deployment mentioned in the Objects of the Issue have not been appraised by any bank or financial institution

We intend to use the proceeds of the Issue, after meeting the expenditures of and related to the Issue, for the purpose of working capital requirement of our Company and general corporate purposes. For further details, see the section "*Objects of the Issue*" on page 63. The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. The management will have significant flexibility in applying the proceeds received by us from the Issue. The utilization details of the proceeds of the Issue shall be adequately disclosed

as per applicable law. Further, as per the provisions of the SEBI NCS Regulations, we are not required to appoint a monitoring agency and therefore no monitoring agency has been appointed for the Issue.

65. Our business may be affected by certain factors beyond our control.

Our business may be affected by various factors that are beyond our control. Such factors may affect our business as they may have an effect on the Indian economy and consequently, may affect the investment pattern of investors in the Indian securities market. Such factors include changes in investment patterns, budget announcements, policy announcements, political changes, changes in interest rates, inadequate monsoons, health pandemics, terrorist attacks, natural calamities and other acts of violence or war, which may adversely affect worldwide financial and Indian markets. These could potentially lead to an economic recession, which could adversely affect our business, results of operations, financial condition and cash flows, and more generally, any of these events could lower confidence in India's economy.

Further, India has, from time to time, experienced instances of civil unrest and terrorist attacks, regional or international hostilities and other acts of violence as well as other adverse social, political and economic events. India has also experienced natural calamities such as earthquakes, tsunamis, floods and droughts in the past. If such events occur and lead to overall political and economic instability, it could have a materially adverse effect on our business, financial condition, cash flows and results of operations. Further, any such events that affect the functioning of our operations and IT systems could lead to a shutdown of our electronic broking platform, which could result in a material adverse effect on our business, financial condition, cash flows and results of operations.

66. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

67. Financial instability in other countries may cause increased volatility in Indian financial markets.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and our future financial performance.

68. Any adverse change in India's sovereign credit rating by an international rating agency could adversely affect our business and results of operations.

India's sovereign rating is Baa3 with a "stable" outlook (Moody's), BBB-with a "stable" outlook (S&P) and BBB- with a "stable" outlook (Fitch). India's sovereign rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside our Company's control. Any adverse change in India's credit ratings by international rating agencies may adversely impact the Indian economy and consequently our ability to raise additional financing in a timely manner or at all, as well as the interest rates and other commercial terms at which such additional financing is available. Any such adverse development could adversely affect our business, financial condition, cash flows and results of operations.

69. If inflation were to rise in India, we might not be able to increase the prices of our services at a proportional rate in order to pass costs on to our customers and our profits might decline.

Inflation rates could be volatile, and we may face high inflation in the future as India had witnessed in the past. Increased

inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of transportation, salaries, and other expenses relevant to our business. Further, high inflation leading to higher interest rates may also lead to a slowdown in the economy and adversely impact credit growth. Consequently, we may also be affected and fall short of business growth and profitability.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our operating expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business, cash flows and financial condition. In particular, we might not be able to reduce our costs or pass and financial condition, cash flows may be adversely affected.

While the Government of India through the RBI has previously initiated economic measures to combat high inflation rates, it is unclear whether these measures will remain in effect, and there can be no assurance that Indian inflation levels will not rise in the future.

70. We are subject to regulatory, economic and social and political uncertainties and other factors beyond our control.

We are incorporated in India, and we conduct our corporate affairs and our business in India. Consequently, our business, operations, financial performance will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence our results of operations may include:

- Any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- The impact of international trade wars or uncertain or unfavorable policies on international trade or (whether or not directly involving the Government of India);
- Any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- Prevailing income conditions among Indian customers and Indian corporations;
- Epidemic or any other public health in India or in countries in the region or globally, including in India's various neighboring countries; This includes as yet uncertain impact the new Omicron variant of the COVID-19 virus may have worldwide.
- Macroeconomic factors and central bank regulation, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- Volatility in, and actual or perceived trends in trading activity on, India's principal stock exchange;
- Decline in India's foreign exchange reserves which may affect liquidity in the Indian economy;
- Political instability, including terrorism or military conflict in India or in countries in the region or globally, including in India's various neighboring countries;
- Civil unrest, acts of violence, regional conflicts or situations or war may adversely affect the financial markets;
- International business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;
- Logistical and communication challenges;
- Downgrading of India's sovereign debt rating by rating agencies;
- Changes in government policies, including taxation policies, social and civil unrest and other political, social and economic developments in or affecting India;
- Occurrence of natural calamities and force majeure events;
- Difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms and/or a timely basis; and
- Being subject to the jurisdiction of foreign courts, including uncertainty of judicial processes and difficulty enforcing contractual agreements or judgments in foreign legal systems or incurring additional costs to do so.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could materially adversely affect our business, financial condition, results of operations, cash flows and prospects.

Risks Relating to the Issue and Debt Securities

71. Any downgrade in our credit ratings may increase interest rates for raising new debt, refinancing our outstanding debt, which would increase our financing costs, and adversely affect our future issuances of debt and our ability to borrow on a competitive basis.

Credit ratings reflect the opinions of ratings agencies on our financial strength, operating performance, strategic position and ability to meet our obligations. For details of our current credit ratings, see "*General Information – Credit Rating and Rationale*" on page 53. Any downgrade in our credit ratings may increase interest rates for refinancing our outstanding debt, which would increase our financing costs, and adversely affect our future issuances of debt and our ability to borrow on a competitive basis, which may adversely affect our business, financial condition, results of operations and cash flows.

Further, any downgrade in our credit ratings may lead to acceleration of some of our borrowings and also lead to lenders imposing additional terms and conditions to any financing or refinancing arrangements we enter into in the future and adversely affect our business, results of operations, cash flows and financial condition.

72. The NCD Holders may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the NCDs. Failure or delay in recovering the expected value from a sale or disposition of the assets charged as security in connection with the NCDs could expose the holders to a potential loss.

Our ability to pay interest accrued on the NCDs and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors, *inter alia*, including our financial condition, cash flows, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the NCDs and/or the interest accrued thereon in a timely manner or at all. Although our Company will create appropriate security in favour of the Debenture Trustee for the NCD Holders on the assets adequate to ensure 100% security cover for the NCDs, and it will be the duty of the Debenture Trustee to monitor that the security is maintained, however, the realisable value of the assets charged as security, when liquidated, may be lower than the outstanding principal and/or interest accrued thereon in connection with the NCDs and shall depend on the market scenario prevalent at the time of the enforcement of the security. A failure or delay in recovering the expected value from a sale or disposition of the assets charged as security in connection with the NCDs could expose you to a potential loss.

73. You may be subject to taxes arising on the sale of the NCDs.

Sale of NCDs by any holder may give rise to tax liability, as discussed in section entitled "*Statement of Possible Tax Benefits*" on page 66.

74. The Issuer, being a listed company is not required to maintain a debenture redemption reserve ("DRR").

Our debt securities are listed on BSE Limited. Pursuant to a Ministry of Corporate Affairs notification dated August 16, 2019 amending Section 71 of the Companies Act, 2013 and Rule 18 (7) of the Companies (Share Capital and Debentures) Rules, 2014, a listed company is not required to maintain DRR for debentures issued through a public issue. Hence, investors shall not have the benefit of reserve funds to cover the re-payment of the principal and interest on the NCDs.

75. There may be no active market for the NCDs on the platform of the Stock Exchanges. As a result, the liquidity and market prices of the NCDs may fail to develop and may accordingly be adversely affected.

There can be no assurance that an active market for the NCDs will develop. If an active market for the NCDs fails to develop or be sustained, the liquidity and market prices of the NCDs may be adversely affected. The market price of the NCDs would depend on various factors, *inter alia*, including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country, (ii) the market price of our Equity Shares, (iii) the market for listed debt securities, (iv) general economic conditions, and (v) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs and/or be relatively illiquid.

76. There may be a delay in making refund/ unblocking/ lien removal of funds to Applicants.

We cannot assure you that the monies refundable to you/ to be unblocked, on account of (i) withdrawal of your

Applications, (ii) our failure to receive minimum subscription in connection with the Base Issue, (iii) withdrawal of the Issue, or (iv) failure to obtain the final approval from the Stock Exchange for listing of the NCDs, will be refunded to you / unblocked in a timely manner. We, however, shall refund / remove lien / unblock such monies, with the interest due and payable thereon as prescribed under applicable statutory and/or regulatory provisions.

77. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining to pay amounts due on the NCDs.

The NCDs will be subordinated to certain liabilities preferred by law such as the claims of the Government on account of taxes, and certain liabilities incurred in the ordinary course of our business. In the event of bankruptcy, liquidation or winding-up, our Company's assets will be available to pay obligations on the NCDs only after all of those liabilities that rank senior to these NCDs have been paid as per Section 327 of the Companies Act, 2013. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining to pay amounts due on the NCDs.

78. There is no assurance that the NCDs issued pursuant to the Issue will be listed on Stock Exchange in a timely manner, or at all.

In accordance with Indian law and practice, permissions for listing and trading of the NCDs issued pursuant to the Issue will not be granted until after the NCDs have been issued and allotted. Approval for listing and trading will require all relevant documents to be submitted and carrying out of necessary procedures with the stock exchange. There could be a failure or delay in listing the NCDs on the Stock Exchange for reasons unforeseen. If permission to deal in and for an official quotation of the NCDs is not granted by the stock exchange, our Company will forthwith repay, with interest, all monies received from the Applicants in accordance with prevailing law in this context, and pursuant to this Prospectus. There is no assurance that the NCDs issued pursuant to the Issue will be listed on stock exchange in a timely manner, or at all.

79. There are other lenders and debenture trustees who have pari passu charge over the Security provided.

There are other lenders and debenture trustees of the Company who have *pari passu* charge over the Security provided for the Issue. While the Company is required to maintain 100% security cover for the outstanding amount of the NCDs and interest thereon, upon the Company's bankruptcy, winding-up or liquidation, the other lenders and debenture trustees will rank *pari passu* with the NCD holders and to that extent, may reduce the amounts recoverable by the NCD holders.

Impersonation

As a matter of abundant precaution, attention of the investors is specifically drawn to the provisions of sub-Section (1) of Section 38 of the Companies Act, 2013, relating to punishment for fictitious applications. Section 38(1) of the Companies Act, 2013 provides that:

"Any person who —

(a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or

(b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or

(c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name,

shall be liable for action under Section 447."

The liability prescribed under Section 447 of the Companies Act 2013 for fraud involving an amount of at least ₹ 1.00 million or 1.00% of the turnover of our Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount. In case the fraud involves (i) an amount which is less than ₹ 1.00 million or 1.00% of the turnover of our Company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹ ₹5.00 million or with both.

STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS DEBENTURES HOLDERS UNDER THE APPLICABLE LAWS IN INDIA

The Board of Directors
Edelweiss Broking Limited
Edelweiss House,
Off CST Road, Kalina,
Mumbai – 400 098

Dear Sirs,

Statement of Possible Tax Benefits available to the debenture holders of Edelweiss Broking Limited in connection with the proposed public issue of secured redeemable non-convertible debentures of face value of ₹ 1,000 each (the "Debentures" or the "NCDs") (hereinafter referred to as the "Issue")

1. We hereby confirm that the enclosed Annexure, prepared by Edelweiss Broking Limited ('the Company'), provides the possible tax benefits available to the Company and to the debentures holders of the Company under the Income-tax Act, 1961 ('the Act') as amended by the Finance Bill, 2022, i.e. applicable for the Financial Year 2022-23 relevant to the assessment year 2023-24 respectively, presently in force in India. Several of these benefits are dependent on the Company or its debenture holders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company and / or its debenture holders to derive the tax benefits is dependent upon their fulfilling such conditions which, based on business imperatives the Company faces in the future, the Company or its debenture holders may or may not choose to fulfil.

2. The benefits discussed in the enclosed statement are not exhaustive and the preparation of the contents stated is the responsibility of the Company's management. We are informed that this statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the issue.

3. We do not express any opinion or provide any assurance as to whether:

   i) the Company or its debenture holders will continue to obtain these benefits in future;

   ii) the conditions prescribed for availing the benefits have been / would be met with; and

   iii) the revenue authorities/courts will concur with the views expressed herein.

4. The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of their understanding of the business activities and operations of the Company.

5. This report has been issued at the request of the Company for the purpose of inclusion in the offer document in connection with its proposed Issue and should not be used by anyone else or for any other purpose.

Annexure

STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE DEBENTURE HOLDER(S)

The Annexure is based on the provisions of the Income-tax Act, 1961 ('IT Act') in force as on the current date after considering the amendments made by the Finance Act, 2022.

This Annexure intends to provide general information on the applicable provisions of the IT Act. However, in view of the nature of the implications, the investors are best advised to consult their respective tax advisors/consultants for appropriate counsel with respect to the specific tax and other implications arising out of their participation in the Portfolio as indicated herein.

Taxability under the IT Act

A. Common provisions applicable to both Resident and Non-Resident debenture holders:

1. Taxability under various heads of Income:

The returns received by the investors from Non-Convertible Debentures ('NCD') in the form of interest and the gains on the sale/ transfer of the NCD, may be characterized under the following broad heads of income for the purposes of taxation under the IT Act:

- Profits and gains of business or profession ('PGBP');
- Capital gains ('CG'); and
- Income from other sources ('IFOS').

For determining appropriate head of income (as mentioned above) *vis-à-vis* income or gain or loss from debentures, it will be pertinent to understand whether the debentures are held as 'Investments' i.e., capital asset or as 'Stock-in-trade'.

If the debentures are held as 'Stock-in-trade', interest income as well as gain or loss on its transfer will be subjected to tax under the head PGBP, whereas if the debentures are held as 'Investments' then the interest income will be subjected to tax under IFOS and gain or loss on its transfer will be under the head CG (explained in ensuing paragraphs), based on facts of each case.

However, as per section 2(14) of the IT Act, the term 'capital asset' also includes amongst other things, any securities held by a Foreign Institutional Investor ('FII') now known as Foreign Portfolio Investor ('FPI') which has invested in such securities in accordance with the exchange control regulations as well as regulations made under Securities and Exchange Board of India Act, 1992. Accordingly, all the securities held by an FII will get classified as capital assets (*viz.*, 'Investments') and classification as 'Stock-in-trade' would not apply.

The investors may obtain specific advice from their tax advisors regarding the above classification and tax treatment of their investments.

2. Taxation of Interest and Gain / loss on transfer of debentures:

- ***Taxation of Interest***

Income by way of interest received on debentures, bonds, and other debt instruments held as 'investments' will be charged to tax under the head IFOS at the rates applicable to the investor after deduction of expenses, if any, allowable under section 57 of the IT Act. These are essentially expenses (not being in the nature of capital expenditure) laid out or expended wholly and exclusively for the purpose of earning the interest income. In case of debentures, bonds or other debt instruments held as 'stock in trade' interest received thereon will be charged to tax under the head PGBP.

The investors may obtain specific advice from their tax advisors regarding the tax treatment of their investments.

- ***Gain or loss on transfer***

(a) Taxable under the head Profits and gains of business or profession

As discussed above, depending on the particular facts of each case, the investments may, in certain cases, be regarded to be in the nature of stock-in-trade and, hence, the gains from the transfer/ sale of such investments would be considered to be in the nature of business income and hence chargeable to tax under the head PGBP.

In such a scenario, the gains from the business of investing in the NCD may be chargeable to tax on a 'net' basis (i.e., net of allowable deductions for expenses/allowances under Chapter IV – Part D of the IT Act). The business income so computed, as reduced on account of set-off of brought forward or current year losses in accordance with Chapter VI of the IT Act and unabsorbed allowances, if any, would go to form part of the gross total income of the investor.

The gross total income would be reduced by deductions, if any, available under Chapter VI-A of the IT Act and the resultant total income would be subject to tax at the tax rates as applicable to the investor (Refer Note 1 and Note 2).

Based on section 145 of the IT Act, the timing of charging any income to tax would depend on the method of accounting followed by the taxpayer consistently (i.e., cash or mercantile).

Investors should obtain specific advice from their tax advisors regarding the manner of computing business income, the deductions available therefrom and the tax to be paid thereon.

(b) Taxable under the head Capital Gains

As discussed above, based on the particular facts of each case, the debentures may, in certain cases, be regarded to be held as 'Investments' in which case the gains or loss from the transfer/ sale of such investments would be chargeable to tax under the head CG.

Investors should, however, seek specific advice from their tax advisors / consultants in respect of characterization of capital gains, the manner of computing thereof and the tax to be paid thereon on such capital gains.

3. Period of holding and Capital gain – long term & short term:

As per section 2(29AA) read with section 2(42A) of the IT Act, a listed debenture is treated as a long-term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer and the gain/loss on transfer of such debentures will be treated as long term capital gain/loss.

Accordingly, if a listed debenture is held for upto 12 months immediately preceding the date of its transfer, then the same will be treated as a short-term capital asset and the gain / loss on transfer of such debentures will be treated as short term capital gain / loss.

4. Computation of capital gains and tax thereon

Capital gains are computed after reducing from the consideration received from the transfer of the capital asset, the cost of acquisition of such asset and the expenses incurred wholly and exclusively in connection with the transfer. The capital gains so computed will be chargeable to tax at the rates as detailed out in the ensuing paragraphs.

5. Set off of capital losses

Long-term capital loss of a year can be set off only against long-term capital gains arising in that year or in subsequent years and cannot be set off against short-term capital gains arising in that year or in subsequent years. Balance loss remaining after set-off, if any, can be carried forward for eight assessment years immediately succeeding the assessment year in which the loss was first computed, for claiming set-off against subsequent years' long-term capital gains.

On the other hand, short-term capital loss in a year can be set off against both, short-term and long-term capital gains of the same year or of subsequent years. Balance loss remaining after set-off, if any, can be carried forward for eight assessment years immediately succeeding the assessment year in which the loss was first computed, for claiming set-off against subsequent years' short-term as well as long-term capital gains.

B. Tax benefits available to Resident debenture holders:

- Interest on debentures received by resident debenture holders would form part of their total income and be subject to tax at the applicable rates of tax (as mentioned in Note 1 and 2 below) in accordance with and subject to the provisions of the IT Act.

- The capital gains shall be computed by deducting from the sale consideration expenditure incurred wholly and exclusively in connection with the transfer and cost of acquisition of the debentures.

  As per section 112 of the IT Act, capital gains arising on the transfer of long-term capital assets being listed debentures are subject to tax at the rate of 10% (plus applicable surcharge and health & education cess – Note 2 below) on the capital gains calculated without indexation of the cost of acquisition (Proviso to Section 48 restricts indexation benefit in case of long-term capital gains arising from transfer of debentures).

  In case of an individual or HUF, being a resident, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, then, such long-term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.

  Short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months would be taxed at the applicable rates of tax (as mentioned in Note 1 and 2 below) in accordance with the provisions of the IT Act.

C. Tax benefits available to Non-Resident debenture holders:

- A non-resident Indian has an option to be governed by Chapter XII-A of the IT Act, subject to the provisions contained therein which are given in brief as under:

  As per section 115C(e) of the IT Act, the term "non-resident Indian" means an individual, being a citizen of India or a person of Indian origin who is not a "resident". A person shall be deemed to be of Indian origin if he, or either of his parents or any of his grandparents, was born in undivided India.

  As per section 115E of the IT Act, interest income from debentures acquired or purchased with or subscribed to in convertible foreign exchange will be taxable at 20% (plus applicable surcharge and cess), whereas long term capital gains on transfer of such debentures will be taxable at 10% (plus applicable surcharge and cess – Note 2 below) of such capital gains without indexation of cost of acquisition. Short-term capital gains will be taxable at the applicable rates of tax (as mentioned in Note 1 and 2 below) in accordance with and subject to the provisions contained therein.

- In accordance with and subject to the provisions of section 115-I of the IT Act, a non-resident Indian may opt not to be governed by the provisions of Chapter XII-A of the IT Act. In that case, Long-term capital gains on transfer of listed debentures would be subject to tax at the rate of 10% (plus applicable surcharge and cess – Note 2 below) computed without indexation.

  Investment income and Short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months preceding the date of transfer, would be taxed at the applicable rates of tax (as mentioned in Note 1 and 2 below) in accordance with and subject to the provisions of the IT Act.

  Where debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the IT Act.

- As per section 90(2) of the IT Act read with the Circular no. 728 dated October 30, 1995 issued by the Central Board of Direct Taxes, in the case of a remittance to a country with which a Double Tax Avoidance Agreement ('DTAA') is in force, the tax should be deducted at the rate provided in the Finance Act of the relevant year or at

the rate provided in the DTAA, whichever is more beneficial to the assessee. However, submission of a valid and subsisting tax residency certificate ('TRC'), is a mandatory condition for availing benefits under any DTAA. If the TRC does not contain the prescribed particulars, a self-declaration in Form 10F would need to be provided by the assessee along with the TRC which is valid and subsisting.

D. Tax benefits available to Foreign Institutional Investors ('FII's) or Foreign Portfolio Investors ('FPI's):

- In accordance with and subject to the provisions of section 115AD of the IT Act, long term capital gains on transfer of debentures by FIIs are taxable at 10% (plus applicable surcharge and cess – Note 2 below) and short-term capital gains are taxable at 30% (plus applicable surcharge and cess - Note 2 below). The benefit of cost indexation will not be available.

- Income other than capital gains arising out of debentures is taxable at 20% (plus applicable surcharge and cess - Note 2 below) in accordance with and subject to the provisions of Section 115AD of the IT Act.

- However, the above is subject to any relief available under DTAA entered into by the Government of India (as mentioned in Point C above).

- The CBDT has issued a Notification No.9 dated 22 January 2014 which provides that Foreign Portfolio Investors (FPI) registered under SEBI (Foreign Portfolio Investors) Regulations, 2014 shall be treated as FII for the purpose of Section 115AD of the IT Act.

E. Withholding provisions

The withholding provisions provided under the Act are machinery provisions meant for tentative deduction of income-tax subject to regular assessment. The withholding tax is not the final liability to income-tax of an assessee. For rate of tax applicable to an assessee, please refer Notes 1 and 2 below:

Sr. No	Scenarios	Provisions
1	Withholding tax rate on interest on NCD issued to Indian residents	– Interest paid to residents other than insurance companies will be subject to withholding tax as per section 193 of the IT Act at the rate of 10 per cent. – No tax is required to be deducted on interest paid to an individual or a HUF, in respect of debentures issued by a company in which the public is substantially interested if; • the amount of interest paid to such person in a financial year does not exceed INR 5,000; and • such interest is paid by an account payee cheque – Further, no tax is required to be deducted on any interest payable on any security issued by a company, where such security is in dematerialized form and is listed on a recognized stock exchange in India in accordance with the Securities Contracts (Regulation) Act, 1956 (42 of 1956) and the rules made thereunder.
2	Withholding tax rate on interest on NCD issued to Foreign Portfolio Investor (FII)	– Interest on NCD issued to FII may be eligible for concessional withholding tax rate of 5 per cent under section 194LD of the IT Act, provided the interest coupon on such NCDs does not exceed the rates as notified by the Central Government. Conditions to avail lower withholding tax rate of 5 percent are as under: a. Interest should be payable after 01 June 2013 but before 01 July 2023 in respect of investments made in (i) rupee denominated bond of an Indian Company; or (ii) a government security. b. Interest coupon on such NCDs should not exceed the rates as notified by the Central Government. – Interest on non-resident, not being a company or to a foreign company by a specified company or a business trust, may alternatively be eligible for concessional tax rate of 5 per cent under section 194LC (2) (ia) of the IT Act

Sr. No	Scenarios	Provisions
		in respect of monies borrowed by it from a source outside India by way of issue of rupee denominated bond before the 1st day of July 2023. – If both sections i.e., 194LC and 194LD of the IT Act are not applicable, then tax deduction should be made as per sections 196D read with section 115AD of the IT Act i.e., at 20 per cent subject to relief under the relevant DTAA, if any. – Withholding rate will be increased by surcharge as applicable (Refer Note 2) and a health and education cess of 4 per cent on the amount of tax plus surcharge as applicable. However, where the withholding is done as per the rate of tax provided under the relevant DTAA, the said rate shall not be required to be increased by a surcharge and health and education cess.
3	Withholding tax rate on interest on NCD issued to non-residents other than FIIs	– Interest payable to non-resident (other than FII) would be subject to withholding tax at the rate of 30 per cent/40 per cent as per the provisions of section 195 of the IT Act subject to relief under the relevant DTAA depending upon the status of the non-resident. Alternatively, benefits of concessional rates of 5 per cent under section 194LC of the IT Act provided the said interest falls within the ambit of the provisions of section 194LC of the Act and meets the conditions mentioned therein which *inter-alia* include obtaining approval is obtained from the Central Government with respect to the rate of interest. – Withholding rate will be increased by surcharge as applicable (Refer Note 2) and a health and education cess of 4 per cent on the amount of tax plus surcharge, as applicable.
4	Withholding tax rate on purchase of 'goods'	– As per section 194Q of the IT Act, any sum payable by a 'buyer' to a resident for purchase of 'goods' of the value exceeding INR 50 Lakhs shall be liable to withholding at the rate of 0.1 percent. – Buyer means a person whose total sales, turnover or gross receipts from the business carried on by him exceeds INR 10 crores in the financial year immediately preceding the financial year in which the purchase is carried out. – TDS shall not be applicable where: a. Tax is deductible under any of the provisions of the IT Act; or b. Tax is collectible under the provisions of section 206C of the IT Act other than a transaction to which section 206C(1H) of the IT Act applies – The CBDT has issued Circular No 13 of 2021 dated 30 June 2021 laying down guidelines under section 194Q of the Act. It *inter alia* provides that TDS under section 194Q of the Act shall not apply to transaction in securities and commodities which are traded through recognised stock exchanges or cleared and settled by the recognised clearing corporation (including exchanges or corporation located in IFSC). – Given that the Circular does not provide clarity in respect of shares/ securities traded off-market, it is advisable that the investors obtain specific advice from their tax advisors regarding applicability of these provisions.

F. *Amendments* in the withholding tax provisions

Section 139A(5A) requires every person from whose income tax has been deducted under the provisions of chapter XVIIB of the IT Act, to furnish his PAN to the person responsible for deduction of tax at source.

As per provisions of section 206AA of the IT Act, the payer would be obliged to withhold tax at penal rates of TDS in case of payments to investors who have not furnished their PAN to the payer. The penal rate of TDS is 20 per cent or any higher rate of TDS, as may be applicable, plus applicable surcharge and health and education cess.

Section 206AA of the IT Act to provides that the provisions shall not apply to non-residents in respect of payment of interest on long-term bonds as referred to in section 194LC and any other payment subject to such conditions as may be prescribed.

Further, the CBDT, vide its notification dated 24 June 2016, has clarified that the provisions of section 206AA shall not apply to non-residents in respect of payments in the nature of interest, royalty, fees for technical services and payment on transfer of capital assets provided the non-residents provide the following information to the payer of such income:

- Name, email-id, contact number;
- Address in the country or specified territory outside India of which the deductee is a resident;
- A certificate of his being resident in any country or specified territory outside India from the government of the other country or specified territory if the law of that country or specified territory provides for issuance of such certificate;
- Tax Identification Number of the deductee in the country or specified territory of his residence and in a case, no such number is available, then a unique number on the basis of which the deductee is identified by the Government of that country or the specified territory of which he claims to be a resident.

Further, as per section 206AB of the IT Act, with effect from 1 July 2021, payments made to specified persons will be subject to TDS at rate which is higher of the following:

- twice the rate specified in the relevant provision of the Act; or
- twice the rate or rates in force; or
- the rate of 5%

In cases, where both section 206AA and section 206AB of the IT Act are applicable, taxes shall be deducted at higher of the rate prescribed under both the sections.

For the purpose of this section, specified person means any person-

- Who has not filed an income-tax return for the AY relevant to the previous year immediately preceding the previous year in which tax is required to be deducted, and the prescribed time limit to file the income-tax return has expired;
- The aggregate amount of TDS is INR 50,000 or more in each of these previous years

Other than a non-resident who does not have a permanent establishment in India.

G. General Anti Avoidance Rules ("GAAR")

The General Anti Avoidance Rule (''GAAR'') was introduced in the IT Act by the Finance Act, 2012. The Finance Act, 2015 made the provisions of GAAR applicable prospectively from 1 April 2017. Further, income accruing, arising, deemed to accrue or arise or received or deemed to be received by any person from transfer of investments made up to 31 March 2017 would be protected from the applicability of GAAR.

Global Macro - economic Outlook

As per the latest International Monetary Fund's (IMF) World Economic Outlook growth projections released in April 2022, the world economy grew by 6.1% in CY211. For CY22, projection for global economic growth slashed to 3.6% citing disruptions due to the Russia-Ukraine conflict and inflationary concerns. It further added that emerging economies are expected to underperform than the advanced economies in CY22 and CY23 as they were hit harder by higher energy and food prices.

The growth of emerging market and developing economies group is evaluated as 6.8% in CY21. While, in CY22 the estimated growth is 3.8% which is 1% lower than the previous estimation made in January, 2022. In emerging market and developing economies, increases in food and fuel prices could significantly increase the risk of social unrest.

The war and the impending increase in global interest rates will further reduce fiscal space in many countries, especially oil- and food-importing emerging market and developing economies. Moreover, with continued tight policies toward the real estate sector and the possibility of more widespread lockdowns as part of the strict zero-COVID strategy, China's economy could slow more than currently projected—with consequences for Asia and beyond. It has induced a downgrade to 4.4% growth for China in CY22. This could further set back the recovery, particularly in emerging market and

developing economies.

The estimates for India has been lowered to 8.2% in CY22 by 0.8% point, while for CY23 the projection has been released at 6.9%. The downgrade is reflecting in part weaker domestic demand - as higher oil prices are expected to weigh on private consumption and investment and a drag from lower net exports. Despite, these estimates project India as the fastest growing major economy in the world.

Impact of Covid-19 on Global Economy

During the Pandemic in CY20, the global economy faced disruption in supply chain due to temporary trade restrictions and shortages of pharmaceuticals, critical medical supplies, and other products. As a consequence of all this, manufacturers worldwide felt greater political and competitive pressures to increase their domestic production, grow employment in their home countries, reduce or even eliminate their dependence on sources.

Worker shortages and mobility restrictions compounded supply disruptions and bottlenecks early in 2022, constraining activity and adding to inflation. Restrictions have begun to ease as the peak of the Omicron wave passes and global weekly Covid-19 deaths decline.

To address many of the difficulties faced by the world economy, it is vital to break the hold of the pandemic. This will require a global effort to ensure widespread vaccination, testing, and access to therapeutics, including the newly developed anti-viral medications.

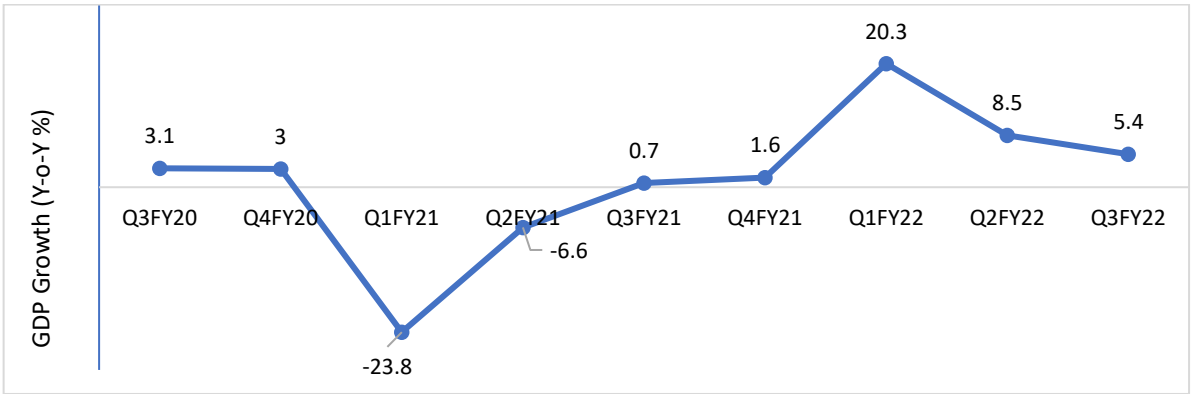

Indian Economy

GDP growth and Outlook

Financial Year 22 started with the country being hit by the second wave of the pandemic which saw lockdowns and restrictions being re-imposed across states for 2-3 months. This impeded economic output in Q1FY21 and led to a year-on-year (Y-o-Y) decline of 23.8% in GDP. The Indian economy bounced back strongly in Q1FY22 with 20.3% Y-o-Y growth due to low base. The easing of lockdowns and restrictions across states since June coupled with the decline in Covid-19 cases and higher vaccination rate facilitated higher economic activity at a faster than expected and this was reflected in the GDP for the Q2FY22 which grew annually by 8.5%. The dip in Q3FY22 of 5.4% can be attributed to fading base effect.

When compared with the pre-pandemic period i.e., Q3FY20, the GDP in Q3FY22 is higher by 6.2%.

Since February 2022, the geo-political tension triggered by the conflict between Russia and Ukraine is gradually unfolding its economic impact. India is may already be witnessing its impact in energy and food market. Oil and other commodity prices are blazing to multi-year highs, and financial markets are on edge, driven by massive selloffs. Amidst these testing times, the Indian economy is experiencing spillovers as it recovers from the third wave of Pandemic.
As per Reserve Bank of India's (RBI) monetary policy statement for 2022-23, the RBI highlighted that the ratcheting up of geopolitical tensions, generalized hardening of global commodity prices, the likelihood of prolonged supply chain disruptions, dislocations in trade and capital flows, divergent monetary policy responses and volatility in global financial

markets are imparting sizeable upside risks to the inflation trajectory and downside risks to domestic growth.

RBI also brought out, that the announcements in the Union Budget 2022-23 on boosting public infrastructure through enhanced capital expenditure are expected to augment growth and crowd in private investment through large multiplier effects.

With the ebbing of the third wave and expanding vaccination coverage, the pick-up in contact-intensive services and urban demand is expected to be sustained. The escalation of the geopolitical situation and the accompanying surge in international crude oil and other commodity prices, tightening of global financial conditions, persistence of supply-side disruptions and significantly weaker external demand pose downside risks to the outlook. Taking all these factors into consideration, the real GDP growth for 2022- 23 is pared down at 7.2% by RBI in April'22 Outlook from 7.8% estimated in Feb'22 Outlook.

Per Capita GDP, Income and Final Consumption

India has a population of about 1.3 billion with a young demographic profile. The advantages associated with this demographic dividend are better economic growth, rapid industrialization and urbanization.

Gross Domestic Product (GDP) per capita is a measure of country's economic output per person. FY21 witnessed a significant de-growth due to the pandemic. However, in FY22 the economy is on path of recovery and the per capita GDP is estimated to grow by 7.9%. The growth is projected at 3.8% of CAGR between FY15 to FY22. The Gross national income (GNI) is also estimated to increase by 6.8 % in FY22. The per capita private final consumption expenditure (PFCE), that represents consumer spending, is likely to increase by 6.6% in FY22. Majorly, the FY22 reflects per capita growth due to a lower base.

Industrial Growth

The pace of IIP growth improved marginally to 1.9% in March 2022 from 1.7% growth recorded in the previous month. The tepid growth is also because of the high base of the corresponding period of the previous year.

Y-o-Y growth in IIP (in %)

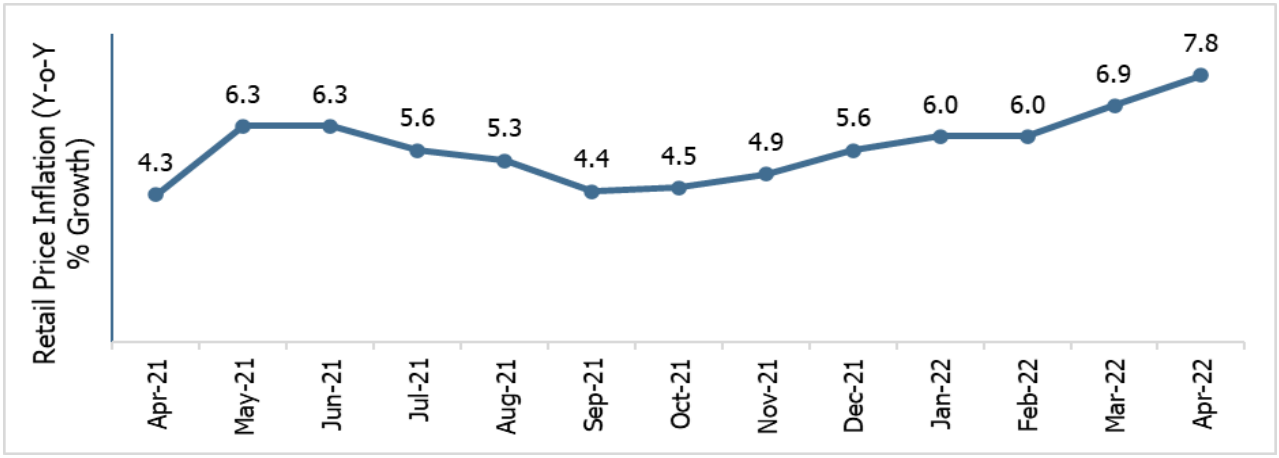

Source: MOSPI

On a cumulative basis, IIP grew by 11.3% in FY22. However, this high growth is mainly backed by a low base of FY21. The index of industrial production is higher by 1.9% when compared with the pre-pandemic level of FY20, suggesting that while economic recovery is underway, it is still very nascent. The IIP growth has remained lackluster at below 2% in the last five months. Manufacturing, with the biggest share in industrial growth, is facing headwinds from global supply bottlenecks and rising input prices, even while demand remains weak.

Consumer Price Index

Retail inflation surged to 7.79% in April 2022, its highest since April 2014. The global supply chain disruptions, coupled with China's zero Covid policy, are driving inflation numbers up globally. With a persistent rise in prices across almost all categories, inflation has become broad-based in India.

Concluding Remarks

The Reserve Bank of India (RBI) at its monetary policy meeting for FY23 concluded on 04th May 2022, increased the repo rate from 4% to 4.4% and continued with its accommodative policy stance. These decisions are made by the RBI in consonance with the objective of achieving the medium-term target for consumer price index (CPI) inflation, while supporting growth. in RBI reiterated its emphasis on growth and economic revival.
The major headwinds to economic growth are escalating geopolitical tensions, elevated global commodity prices and shortages of key inputs. However, the bright spots for the economy are improving demand conditions, support from government capital expenditure and improving business confidence.

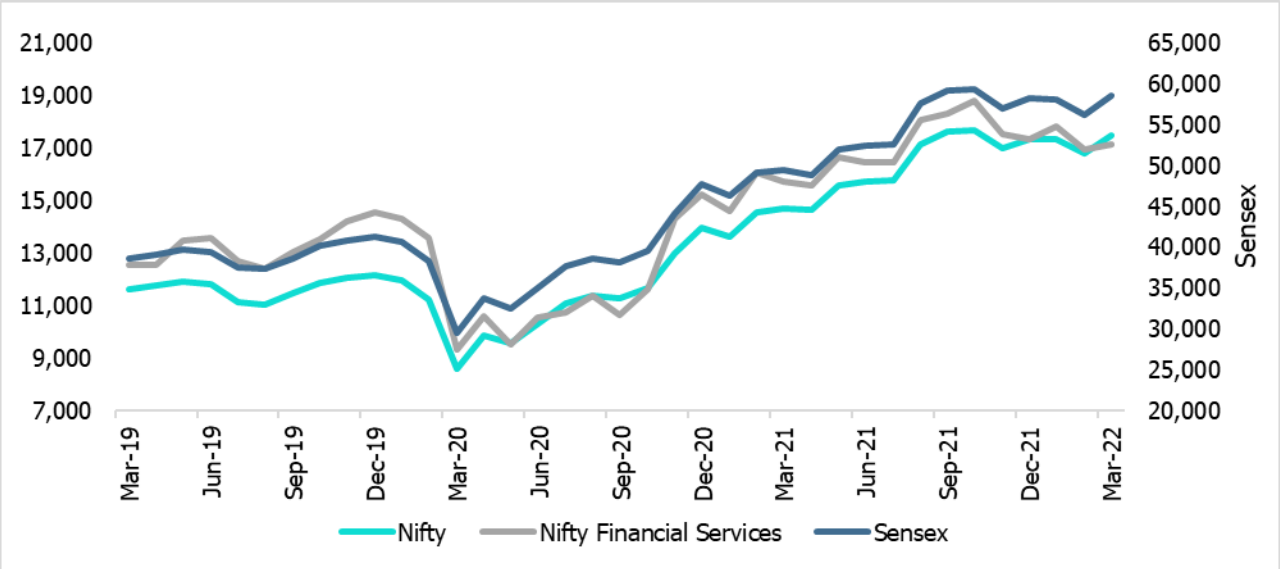

The recent geopolitical tensions between Russia and Ukraine has contributed to spike in crude oil and other commodity prices. India depends majorly on imports to meet up its crude oil needs. The surge in international oil prices and commodity prices is likely to result into broader price pressure. The impact on India's economy is likely to be felt through

higher cost-push inflation and widening current account deficit apart from weakening private consumption. However, the overall economic outlook for fiscal 2023 will be supported by the continued infrastructure led spending by the central government. Continued high commodity prices and any disruption in economic activity due to increased infection rates will be key monitorable.

Overview of Capital Markets in India

The role of capital markets is to act as a platform between buyers and suppliers engaging in trading of financial securities such as stocks, bonds and various other securities. Capital markets helps in mobilization of resources and allocation of funds. The capital markets aid in providing long term funds to the corporate sector by channelizing savings and investments between individuals who have capital and entities in need of funds.

Index Movement

The Indian capital markets have been on a steady growth trajectory since May 2020. The Government's decision of imposing a nationwide lockdown triggered cold feet in the markets and subsequently, both Nifty and Sensex crashed to multi-year lows. However, investors tried to use the temporary weakness in the market to build their portfolios and this, coupled with a sharp cut in bank deposits, drew more investor participation in equities. This resulted in the indices witnessing a return to growth as early as May 2020. Gradually, with a resumption of activities, rebound of trade and presence of only localized lockdowns, the optimism in India's growth continued to strengthen. In the near term, the indices are likely to grow at the slower pace amid the fluctuations in the market caused by increase interest rates by RBI, rise in inflation and uncertainty surrounding the ongoing geo-political tensions.

The Government's initiative of introducing Goods & Service Tax and the Insolvency & Bankruptcy Code (IBC) and increasing participation of the domestic mutual fund industry as a strong counterbalance to foreign funds has been an important factor for the shift in the country's financial space.

An increase in global and domestic liquidity conditions, record low bank deposit rates the Government's reforms and relief measures during the pandemic, and signs of a turnaround in corporate earnings boosted the attractiveness of capital markets for investors during the calendar year 2021. Total amount mobilized through public issues and private placement of both debt and equity was Rs. 150,484 crores with total 192 issue between April 1st,2021 to March 31st, 2022 as compared to Rs. 120,706 crores with total issue of 96 from April 1st 2020 till March 31st 2021 indicating an increase of 25 per cent in the amount mobilized and 100 per cent increase in number of issues.

Notes- From April, 2020 onwards the data of equity is being prepared based on the listing date of the issues as against earlier practice of preparing it based on the closing date.

In 2021-22, majority of the deals were in technology sector– mainly towards marketplace and consumer goods platform, EdTech and FinTech companies. The surge in public and rights issue activity enabled business to attain significantly high valuations and entry to the unicorn club (companies that have reached valuation of USD 1 billion without being listed on the stock market). Despite the slowdown in economy and muted demand across sectors, Indian companies in various sectors such as telecom, e-commerce, technology sector, consumer goods and more sectors, managed to raise nearly 1.4 lakh crores in total in 2021-22.

Trends in Depository Accounts

During March 2022, NSDL added 6.1 lakh demat accounts while CDSL added 22.4 lakh demat accounts. Cumulatively, both the depositories have added 345.8 lakh new accounts in this fiscal year, with CDSL itself accounting for 296 lakhs new demat accounts.

Emerging trends in the global wealth management industry

Regulation and compliance

Increasing regulatory complexity-The global financial crisis paved the way for increased regulatory scrutiny and tighter oversight of the wealth management industry. It is not just the sheer volume of new regulations, but also uncertainties regarding the interpretation of regulations, delayed timelines and inconsistencies between regulators that are materially increasing the risk of non-compliance as well as challenging existing business models. One of the biggest challenges that wealth managers will continue to face is keeping up with the dynamic regulatory environment in their home jurisdictions and in international markets.

Focus on international tax transparency-The overall stance on tax transparency is becoming more intense, with supranational organizations driving regulatory initiatives. Going forward, international efforts to reduce tax arbitrage and improve transparency will accelerate and it will become harder to avoid taxation. Going forward, there will be more regulatory requirements that wealth managers will need to meet. The stream of new and revised regulations will continue, triggered by efforts to harmonize national regulations globally to ensure a level playing field.

Changing client needs

New generation of client- The wealth management industry is witnessing a phase of change as its largest investor segment, the baby boomers (born between 1946 and 1965), is in the retirement phase and assets are being transferred to the next generation of investors: Gen-X (born between 1966 and 1980) and Gen-Y/millennials (born after 1980). Currently, millennials are the largest and fastest-growing adult segment across the globe and represent the greatest opportunity for the wealth management industry. Millennials are not only growing in number, but also accumulating assets at an impressive rate. In fact, millennials are entering their prime earnings years and also have the prospect of large inheritances. They have the potential to become the wealthiest generation in history. Notably, this group of investors is different from their predecessors in terms of attitudes toward managing their finances and expectations in relation to client experience. While baby boomers were keener on investing in stocks and particularly interested in diversifying their assets, millennials tend to hold more cash (40% of assets are in cash) and are distrustful of the stock market (90% of millennials are intimidated by the stock market) mainly on account of their experience with the global financial crisis. Moreover, millennials' investment objectives are diverse and vary across asset classes as well as regions.

Empowered clients- Client needs and expectations are changing dramatically with regards to client experience, quality of service and delivery channels. The industry is witnessing a change in demand for products and services as well as preferred channels for customer engagement. Digital capabilities are at the top of the list of wealth management clients' must-haves. Clients are increasingly demanding that wealth management firms offer more interactions — from account opening to the provision of advice — through digital channels. The new wave of empowered clients is challenging the status quo in wealth management.

Customer loyalty is declining - Customer loyalty is declining as clients have become wary of their financial service providers following the financial crisis and barriers in switching between financial firms have reduced. According to industry data, 73% of wealth management clients have relationships with multiple wealth managers and 4 out of 10 clients are open to switching wealth managers. This represents incremental revenue opportunity of US$ 175b–US$ 200b (based on the fact that global wealth managers manage client assets worth ~US$ 120t) for firms willing to make strategic investments to improve their client experience. Moreover, trust and price sensitivity issues have led some new generation

investors to explore do-it-yourself investing. This trend is supported by the rise of automated invested platforms (robo-advisors).

Clients are eager for a new level of public transparency- Investors have overwhelmingly identified transparency of portfolio performance and fees as one of the key requisites in the rapidly transforming wealth management space. However, the traditional views of transparency are no longer enough, and investors are demanding a new level of public transparency. Clients are eager to rate their advisors and connect with like-minded clients in public forums to exchange ideas and share positive and negative experiences. For instance, social media can be used as a platform to review or rate advisors.

Changing fee-structure preferences- Currently, the global wealth management industry follows a transaction-based (i.e., commissions) or an asset-based compensation model. However, client preference for fixed fees is rising, while preference toward both asset-based fees and commissions is on the decline. Furthermore, clients are becoming less sure about how they want to be charged in every single region.

Competitive environment

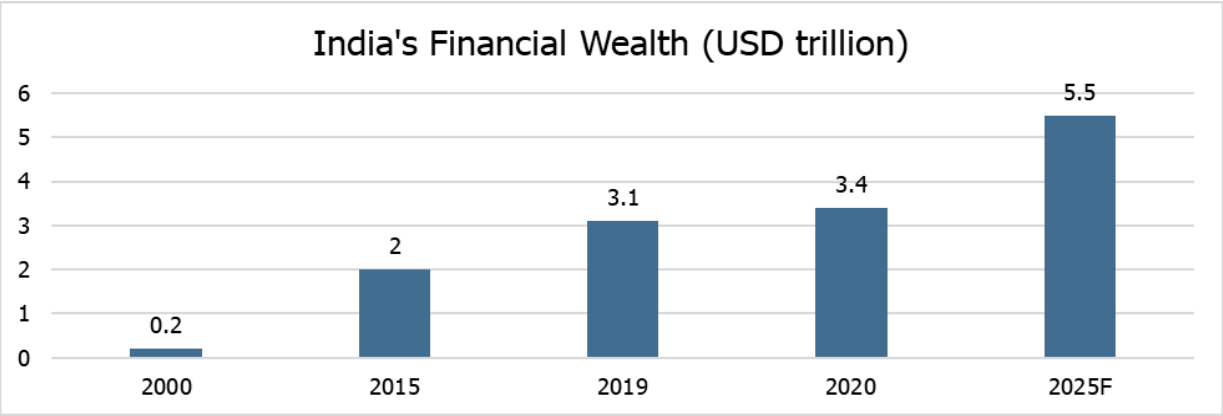

The competitive landscape for wealth managers is multidimensional, involving traditional and non-traditional players. A majority of respondent wealth managers agree that the industry is facing significant competitive pressures.

Traditional players rebalancing structures- Several players are rebalancing their international wealth management operations. While some wealth management players are focusing on high-growth markets, such as Asia-Pacific, others are exiting the international wealth management industry entirely.

Introduction to Wealth Management Industry in India

Wealth management plays a vital role in Corporate Advisory. It’s important to have a broad understanding of different businesses to advice any corporate operating within a specific industry. While advisory services include strategic financial planning, short- and long-term investments through different assets, hedge funds, due diligence, mergers and acquisitions (M&A), private equity and more, risk management is also offered as advisory service.
Wealth management is also extended to the corporate employees through corporate employee benefit programmes. Depository and Trustee Services are tailor made and designed for corporate promoters, to provide insightful information on ensuring compliance on fund documentation, regulatory requirements and scheme particulars. In addition to this, Promoter funding assistance plays a vital role while raising funds for business.

Wealth Management space in India is highly competitive with large number of domestic players in each segment except UHNI segment which is dominated by global players. Change in investor attitude has leading to financialization of savings with both MF AUM and folios growing at around 19% CAGR Indian Banks, NBFCs have higher top-of-mind recall among investors, with 1 in 3 investors using them as a primary or secondary platform by 2023E.

Given India's long-term economic prospects, positive demographics, rising income levels, and current low penetration, Indian Wealth Management market is on a steady upward trajectory. While India's wealthy individuals are less in comparison with established markets, the country's wealth is expected to expand rapidly in the future. The key factors for growth wealth management business in India are large and young mass affluent segment; an increase in wealth

of global Indians'; the Indian government's push to regulate illegal channels of funds and tighten capital market regulations.

The demographic difference presents an opportunity to create new products to address the needs of a young population and leverage new technologies, such as social and software-based investing applications as a key differentiator. Indian wealth management industry is largely focused mainly on the urban segment, leaving untapped majority of Indian population. One of the key factors for Advisors is to develop trust with the potential investors where advisors constantly need to build its brand, focus on overcoming trust barriers, invest in technology and focus on transparency and compliance.

In 2018, top 8% of the total population in India represents 45% of the total wealth and of the above only 20% take advice from wealth managers. With increase in start-ups, rising income levels and friendly macro factors with ease of doing business will drive growth of young HNI population in India; there is a big opportunity for a wealth management firm to tap into an underpenetrated market with huge upside growth potential for wealth managers.

There is steady growth in number of client's interest towards:

Key trends of the wealth management industry

Need for Advisory

Financial markets have become complex due to a wide variety of investments options available in the market today.

Investors are often confused as to which products to invest in and how to determine the suitability of the investment based on their risk-return profile. As a result, the demand for an unbiased wealth manager who guide them appropriately has increased significantly. Investors value holistic advice on how to achieve multiple, often conflicting, goals using a range of investment techniques and funding strategies.

While this means new opportunities for the wealth managers, excessive competition has also posed new challenges to sustain, grow, and strive in the market. This is a challenging macro environment for investors and their advisors to find the right return-risk combination. Increasing regulatory burdens and rising costs of risk pose new challenges to wealth management firms and their parent companies.

Goal Based Planning over Wealth maximization

Investors are becoming increasingly aware of milestone-based planning and want to plan ahead for them. These goals can be short-term, such as purchasing the latest phone or taking a vacation, or long-term, such as a child's education, retirement, and so on. In order to keep up with the changing investor behavior, wealth managers are rethinking their wealth management strategies beyond wealth maximisation and offer financial planning solutions that cater investor's goals.

Digitization of Wealth Management

Investors have been exposed to the world of technology thanks to the rise of smartphones and internet access. Investors are increasingly gravitating toward platforms with simple user interfaces that allow them to make investments with the swipe of a finger. The need for wealth management infrastructure to be digitalized has never been greater. Digital wealth management is more than just providing digital channels for transacting; it also includes employing technology to provide higher value, professional service, and an improved investment experience for customers, all while remaining objective.

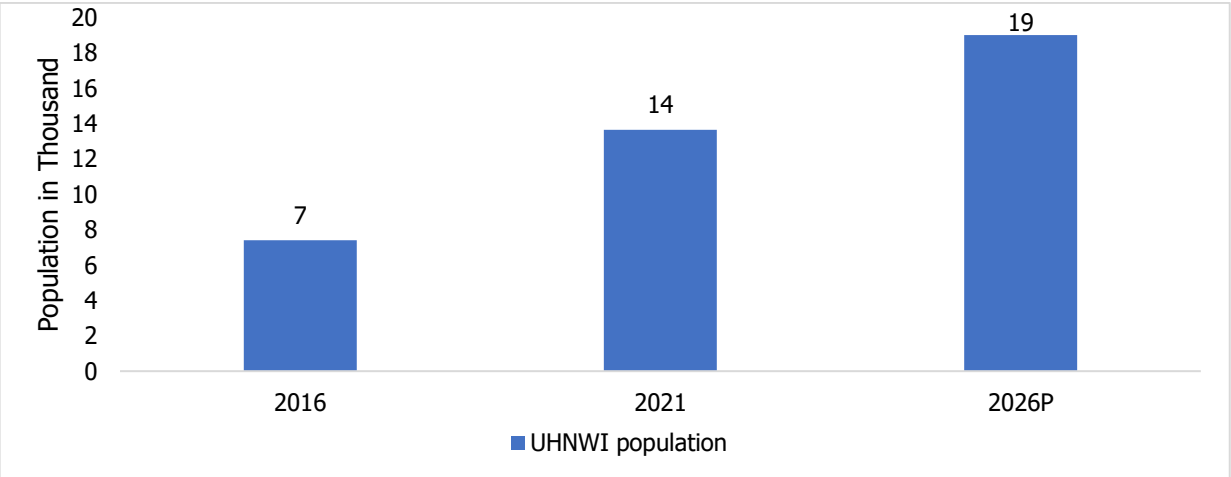

The rise of digitalisation has also given rise to robo-advisors, who are automated, algo-based systems that provide wealth management advice. These user-friendly platforms have made the whole investment process accessible and affordable to a large section of people, thus bringing science and human combination in advisory models.

Big data and advanced analytics are transforming the industry with new ways to engage with new clients, manage client relationships and manage risks. Collaborating with wealth tech providers can help the traditional wealth advisory firms expand their capabilities and enhance digitalisation faster and, in a cost, effective manner.

Size and growth of HNIs in India

High-net-worth individual (HNI) is someone with a net worth of USD 1 million or more, including their primary residence, while Ultra HNI (High Net Worth Individual) is someone who has a net worth of $ 30 million or more across financial and physical assets. India has one of the world's fastest growing high-net-worth individual (HNI) population both in terms of the number of individuals and the wealth levels.

Ultra HNIs Population in India

Source: The Wealth Report, CareEdge Research, Data are provisional
Note: P means projected

In 2021, HNI population grew exponentially by 64% over 2016 and reached around 797 thousand while the UHNI population grew by around 84% the number of UHNIs in India increased exponentially and reached around 14 thousand. By calendar year 2026, HNI population is projected to grow by more than 70% over 2021

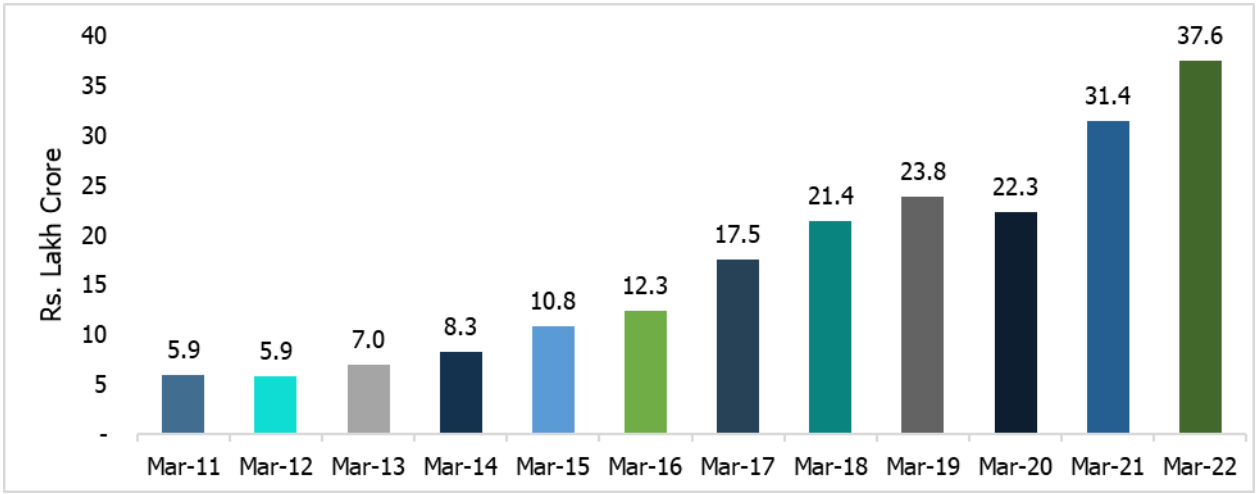

Mutual fund products overview

A mutual fund is a professionally - managed investment scheme that raises capital or investment from a group of people and uses that pooled capital to invest in different types of securities like equities, bonds, money market instruments and/or other securities.

Penetration of mutual funds in India

Mutual Fund Industry's Asset Under Management

Indian Mutual Fund industry AUM

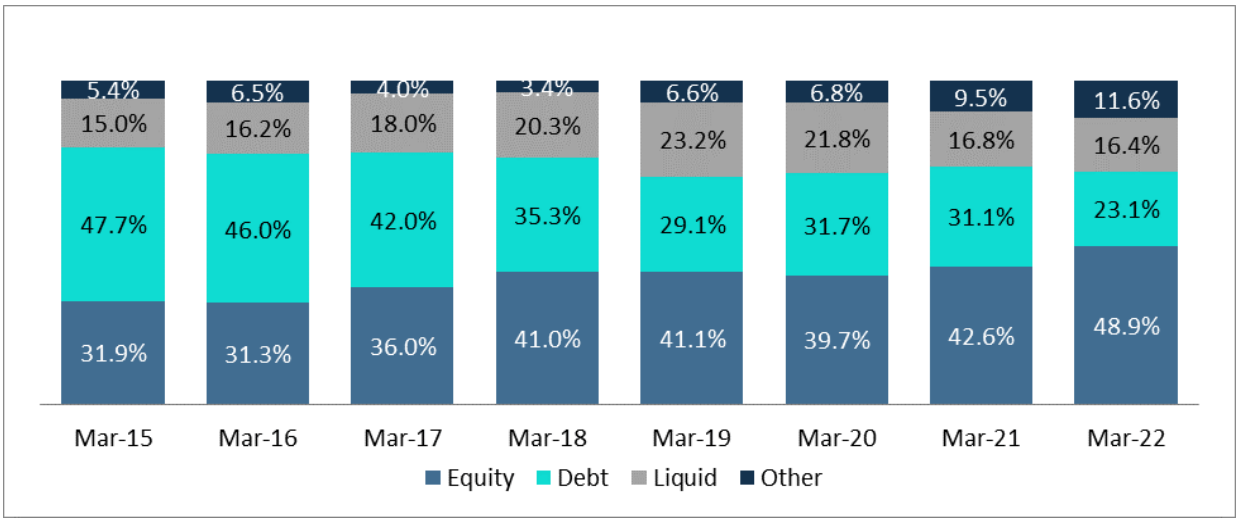

Source: AMFI, CareEdge Research

Growth in the mutual funds industry's AUM has been on a steady rise. The increase in AUM is likely to be driven by a higher growth in AUM of equity-linked mutual funds. We expect inflows towards equities to have ramped up on account of increased buoyancy in indices towards the end of the first wave of the pandemic. As the markets refused to show any signs of corrections in the months that progressed, fresh investments continued to make way into equity-linked mutual funds and drove up the industry's AUM as a whole.

Classification of AUM

Equity markets have witnessed a large influx of retail investors as of March-22 over March-20. The contribution of Equity schemes has increased significantly over the period, followed by Debt schemes which continue to contribute more than 20% of total AUM, although their share has reduced over the period.

Contribution of SIP

Retail investor folios, which were on a decline post the financial crisis of 2008, reversed course in the past few fiscals. Due to political stability, low inflation, central bank rate cuts, higher than expected monsoons, and tax cut by Government for corporates led retail investors to increase their allocation to equity mutual funds. Mutual Fund outstanding SIPs accounts stood at around 5.27 crore accounts and the total contribution through SIPs during 2021-22 was Rs.1,24,566 crores.

SIP Contribution (Rs. Crore)

Source: AMFI, CareEdge Research

As of March 2022, Mutual fund industry's monthly SIP contribution peaked to Rs 12,328 crore. This is the highest-ever amount of SIP contribution received in a month. The growth in number of SIP accounts and high contribution is driven by regular financial literacy, increased awareness among the retail investors about the nuances of managing market volatility and risk adjustment through SIP.

Trends in Mutual Fund Distributors Commission

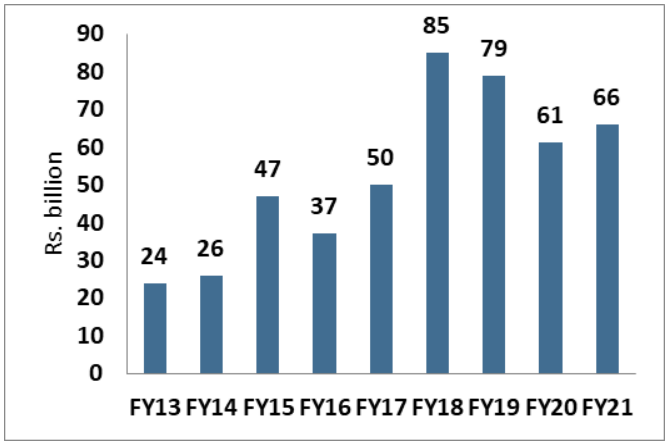

The commissions paid by mutual funds to distributors grew from around Rs.24 billion in FY13 to around Rs. 66 million in FY21, indicating a CAGR of around 13%. Increased financial savings, superior returns from mutual funds, greater reliance on distributors and government policies acted as key catalysts in driving the distribution revenue growth.

Linking of expense ratios with asset size: In September 2018, SEBI linked expense ratios with asset slabs, with the aim to cut the cost of investing. This enforced schemes with higher asset size to charge lower expense ratios. By doing so, SEBI updated accommodated schemes that had become larger over the years. The total expense ratio (TER) includes expenses such as fund management fee and distribution commissions. Due to this the total MF distributor commission has reduced in FY2019 by 7.06% y-o-y and 22.41% y-o-y in FY2020.

Mutual Fund Distributor Commission

Data is based on AMFI disclosures on commissions of distributors that comprises distributors meeting any of the below four criteria:

1. Present in at least 20 locations.
2. AUM of ₹1 billion.
3. Total commission greater than ₹10 million.
4. Commission received from at least one fund house should be greater than ₹5 million.

Key growth drivers of wealth management industry

Increasing Penetration of Mutual Fund Market in India

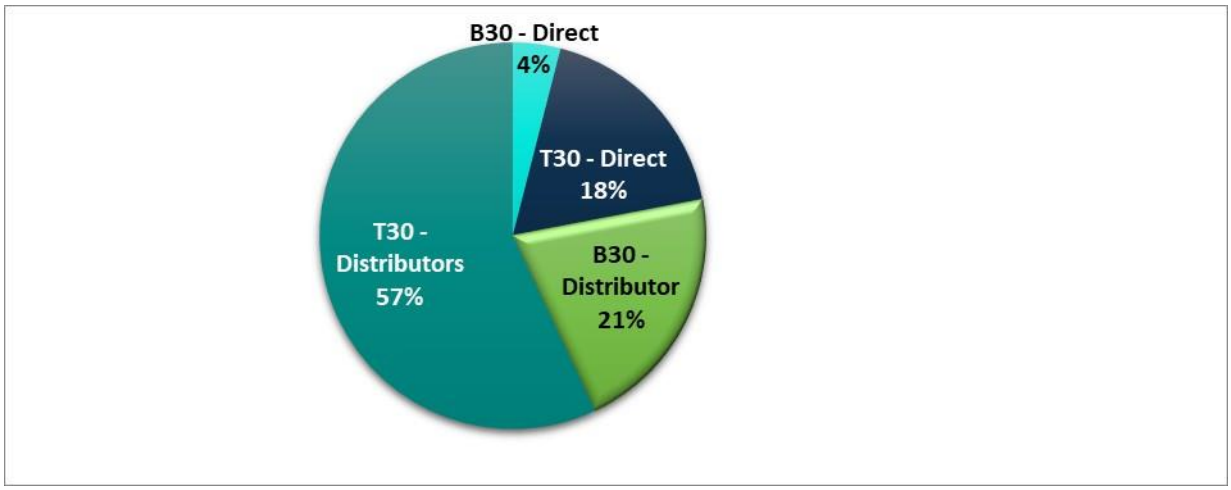

Despite the size and growth profile, India continues to be underpenetrated with a mutual fund penetration rate (the ratio of period ending mutual fund AUM to GDP) of more than 10% as of March 2022, as compared to global average of 70-80%. India accounts for less than 2% of the global mutual fund industry, representing a significant growth opportunity.

Average Assets managed by the Indian mutual fund industry have grown from Rs. 22.7 lakh crores in March 2018 to Rs. 37.7 lakh crores as of March 2022 showing nearly 11% CAGR over assets in March 2018. The size of average assets under management indicates that there continues to be a huge untapped potential of the mutual funds in India.

There is lack of healthy participation from investors in B30 (beyond top 30) locations. Recently, the mutual fund sector is witnessing rising activity from B30 locations, especially in the equity segment due to improved distribution and regulatory changes in fee structure. Due to increasing mobile phone penetration and increasing wealth managers integration towards technology to service transparent and systematic products in an efficient manner helps to develop informed customers and enables distributors to penetrate deeper to serve clients across the wealth management space.

The wealth managed by portfolio managers (including assets under advisory) in India is about Rs.24.19 lakh crores as of March 2022. The increased penetration of wealth management companies into Tier II and III cities will also help to drive the growth given more than 40% of the UHNIs live in non-Metro cities, where currently wealth is majorly managed by IFAs and Chartered Accountants.

The top five states, Maharashtra, Delhi, Karnataka, Gujrat, West Bengal contributed to around 70% of the AUM of mutual fund as of March 2022. Of which, Maharashtra and New Delhi attributed to around 50% of the AUM. However, with rising income levels and a growing affluent middle class, Retail investors are becoming more inclined towards equities as an investment option over traditional preference of savings towards physical assets, especially from B30 cities.

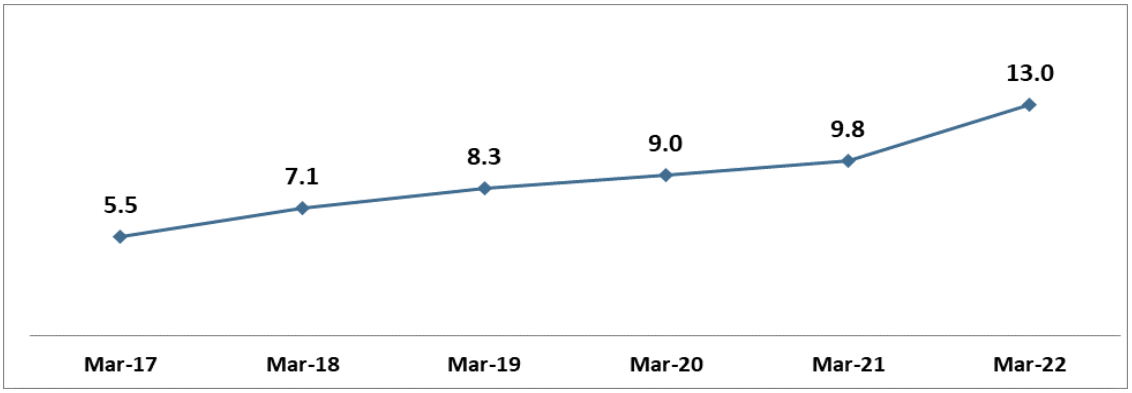

Around 17% of the assets of the mutual fund industry came from B30 locations in December 2021. Assets from B30 locations increased from Rs.5.23 lakh crores in March 2021 to Rs.6.24 lakh crores in March 2022 representing an increase of nearly 20%

Investors from B30 locations are attracted towards equity as compared to T30 (T30 refers to the top 30 geographical

locations in India and B30 refers to the locations beyond the top 30) where debt portion is higher due to large participation from institutional investors. As of March 2022, 76% of the assets from B30 locations are in equity schemes as compared to 62% from B30 locations in March 2018.

Increase in folios

Increase in Investors Accounts (Rs. Crore)

Retail investors' preference is becoming more mature as they get more informed regarding equities potential and risk associated in investing in it. Since March 2014, there is an increase in investor accounts, as of March 2022 investor accounts reached nearly 13 crores from 5.5 crores as of March 2017. Increase in penetration of mutual funds products driven by increase in number of folios and participation from mass affluent segment. Total number of accounts (or folios as per mutual fund parlance) as on March 31, 2022 reached to nearly 13 crores, while the number of folios under Equity, ELSS and Balanced schemes, wherein the maximum investment is from retail segment. Individual investor's component of total number of folios in the industry has been steadily increasing over period of years where mass affluent retail investors are spearheading the growth rate.

Overview of various Wealth Management Products

Structured Products / market-Linked debentures (MLD)

Structured products are a blend of fixed-income and derivative instruments. Its layer of derivatives gives it the flexibility needed to blend with a portfolio and enhance its risk-to-return performance while matching an investor's objectives.

Market-Linked Debentures (MLD) is a debt instrument that differs from a standard fixed-income security in the sense that the coupon on the instrument is linked to a variable market indicator such as an equity index, commodity price such as gold, etc. Structured Products / MLDs are generally close ended hybrid instruments which could be either with principle protection or without principle protection. The underlying security is generally a non-convertible debenture of the issuer linked to an equity index (nifty 50, bank nifty etc.), 10-year G-Sec, gold index etc. The tenure of MLDs ranges between 13 to 60 months depending upon issuers funding requirement. Unlike a bond that pays a fixed interest either monthly, quarterly, half yearly or annually, MLDs do not pay any regular income, it comes only at maturity. Theoretically these MLDs can be considered to be a zero-coupon bond and an embedded customized payoff that could be an equity option.

MLDs are primarily of two types i.e., principal protected (PP) and non-principal protected (NPP).

2019-20	34	14,984
2020-21	18	10,588
2021-22	28	11,589

Source: SEBI, CareEdge Research

Information on capital raised from the primary market through public debt issue shows a downward trend in funds raised for three consecutive years ending FY21. The amount raised in FY21, which was less than a third of that in 2018-19, and the number of issuances during year can be attributed to the pandemic. The investment climate showed signs of a revival, albeit gradual, as the latest data indicates that both, the number of issues, as well as the amount ultimately raised, witnessed a pick-up. The number of issues in 2021-22 surpassed the total issues in the previous year. Similarly, the amount raised during the same period (FY22) was also higher than the total capital raised for FY21 as a whole. However, we estimate cautious optimism to prevail in the near term and total capital raised during FY23 is unlikely to surpass the levels witnessed in 2018-19 during the ongoing year.

Alternative Investment Fund (AIF)

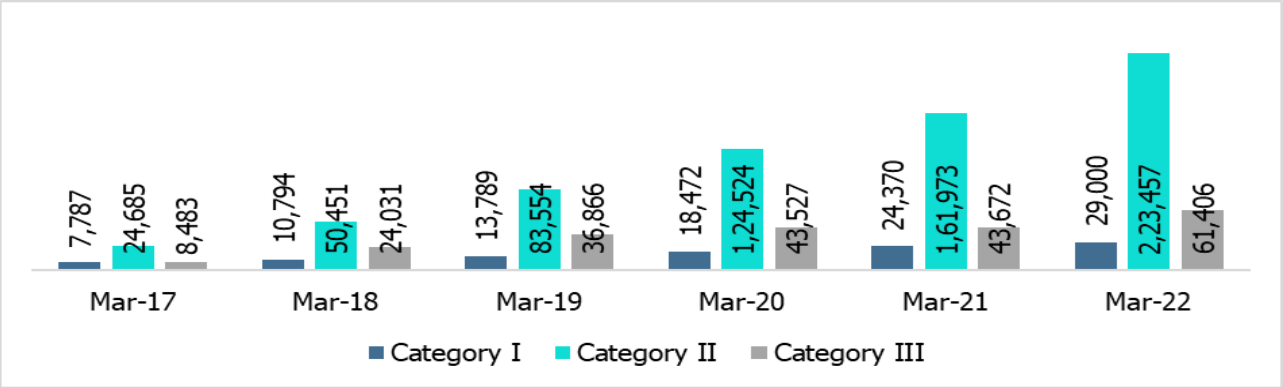

Alternative Investment Fund (AIF) is a fund established or incorporated in India which is a privately pooled investment vehicle collecting funds from sophisticated investors, whether Indian or foreign, for investing in accordance with a defined investment policy for the benefit of its investors. These investments do not belong to any of the traditional or conventional investment categories.

The different categories of funds included under the Alternative Investment Fund are as follows:

CATEGORY I	CATEGORY II	CATEGORY III
• Venture Capital Funds • SME Funds • Social Venture funds • Infrastructure Funds • And other such other funds which may be prescribed under the regulation. • "Angel Investment Funds" introduced by SEBI in 2013, under the head of Venture Capital.	• Funds which is not included under "Category 1" and "Category 3" • And other funds which are not used for borrowing and only for carrying day to day operation • Private Equity Funds and Debt Funds.	• Hedge Funds • Funds which trade for the intention of making short term returns. • Other open funds which are specified by the Regulation. • Other funds provided that no incentives or concessions were given by the Government and Regulations as mentioned.

The AIF market in India is at a very nascent stage. Since SEBI regulations came into effect in 2012, the number of AIFs registered in India has grown to 931 as of 23rd May 2022. Funds raised have increased significantly from Rs 40,956 crores as of March 2017 to around Rs 230,015 as of March 2021 to around Rs 313,863 crores as of March 2022 which is around 36.4% of growth over March 2021, indicating the rapid growth in demand for alternative investments in India.

Passive funds:

Indian passive funds have shown exponential growth over the last two years. The net assets under management of passive funds has grown from Rs. 162,500 crores as of March 2020 to Rs. 499,319 crores as of March 2022 indicating massive growth of over 207% over March 2020. The key growth trigger in recent times has been investment by the Employee Provident Fund (EPFO). Currently this is dominated by SBI and UTI AMC's ETFs which are the designated managers for EPFO. SBI AMC has the largest share of AUM in passive funds space mainly due to EPFO mandates, followed by other AMCs.

Passive funds have high growth potential, which makes it an attractive segment for AMCs while the large proportion of institutional mandates make managing the funds more profitable. As of March 2022, passive funds AUM for nearly 14% of the mutual fund industry's AUM.

Insurance Business

The insurance industry in India has 58 insurance companies, including 34 non-life insurers (25 general insurers, 7 standalone health, 2 specialized insurers). The insurance industry in India has witnessed significant growth rate over the last two decades, majorly driven by high private sector participation and an improvement in distribution capabilities, along with substantial improvements in operational efficiencies.

The insurance industry directs pooled funds towards those who need them the most and acts as a massive investor in infrastructure and government bonds, thereby indirectly funding large-scale government and private projects. The industry also generates large-scale employment by employing people as agents, distributors and service providers, and thus plays a fundamental role in strengthening the country's economy.

Insurance can be broadly segregated into two categories life insurance and non-life insurance (general insurance). Life Insurance is a contract between an insurance company (insurer) and an insurance policy holder (insured), wherein the insurer promises to pay a pre-determined sum of money in exchange for certain premium, at the end of the determined period or upon death of an insured person.

Non-life insurance is to assure the insured against financial losses arising out of occurrence of events like accident, heath issues including hospitalisation, fire, natural or man-made mishaps, and more. Motor insurance, fire insurance, property insurance, health insurance, marine insurance are some forms of non-life insurance. Unlike life insurance, general insurance policy is short term and can be termed as an indemnity (to make the loss good) contract.

Over the past two years, the health insurance industry has changed drastically with changes in perception of customers towards having health insurance policy and need for a health insurance policy amid increased awareness post-Covid-19. In FY22, the non-life insurance industry has been majorly driven by health insurance premiums.

In FY22, General insurance industry has shown 11% growth in total premium over FY21. This growth is majorly driven by the health portfolio, with motor (albeit at a slow pace of growth) and fire insurance also accounts for some growth. In addition to this, others such as personal accident, liability, engineering and marine albeit small in terms of their share in total premium, have managed to show significant growth in FY22. For the month of May 2022, the total premium of general insurance companies is Rs.21,326.6 crores

Key Growth Drivers

Demographic Shift

Change in perception amid the Covid-19 pandemic has led people to realise that life is uncertain and there is a need for preparedness in case of any health-related emergencies. The underlying reason behind this change in perception towards health insurance is the high cost of hospitalizations that has made people realise the need for getting health insurance.

Emerging Technology

With the emergence of new technology such as mobile devices, Internet of Things (IoT), Artificial Intelligence (AI), chatbots, and Blockchain, there is a change in preferred modes of purchasing an insurance policy. Today's customer is well-versed with purchasing a policy through digital mode and is comfortable with interacting with insurance advisors virtually. This trend is likely to growth further with millennials accounting for a major share of the workforce by 2025. And insurers will be prompted to relook their offerings and offer customer services through various distribution channels.

New propositions

Usage and need based models with premium payments based on usage or when coverage is required are likely to be the preferred products as customers are prefer insurance products that are personalized and fitting to their requirements. The expectation from insurers will be set by experiences in other industries and cross industry integration will lead to novel business models and value creation.

Flexible Payment Options

A large sum of premiums collected by insurers is lost due to distribution costs. However, with digital models the reliance on intermediaries in the insurance value chain marked by their excessive dependence on human effort will reduce. The flexibility in payment options enables customers to pay, discontinue or purchase policy as per there need will help insurers reduce the need for intermediaries.

Challenges

Need for product innovation

Climate change and lack of cybersecurity pose both a threat and a growth opportunity to insurers. Traditional policies that provide protection against natural disasters such as floods, wildfire and others need to be enhanced and replaced with offerings that are sophisticated in nature such as risk prevention services, products that include carbon offsets and attractive incentives that drive behavioral change. Insurers need to innovate and develop more affordable and accessible products to be able to build relations with the new generation of customers.

Rise in inflation

The increase in inflations coupled with flat interest rates will lead to rise in claim cost of insurers. In addition to this, there has been significant the rise in claims for personal and commercial loss on account of rise in demand for goods, raw materials and human resources combined with supply-chain disruptions. And with corresponding price hike of rental vehicles, construction materials, and other such expenses have led to rise in insurers loss costs.

Talent acquisition

An insurance professional is not someone who just has some knowledge of monetary studies, insurance professionals have specialized training and the can affect the dependability and operations of an insurance company. So, it is required that insurers should go beyond geography, professional background and consider offering flexible roles and timings to access people with experiences and specialized expertise.

Outlook

The growth of Life insurance industry is expected to be driven by increase in the size of the global middle-class population, higher incomes, medical and healthcare inflation, and the heightened need for mortality protection have become the tailwinds for the life insurance industry. In addition to this the demand for pure term plans, low premium rates, increased awareness are going to drivers of this growth.

In FY22, the non-life insurance industry has shown positive growth overall and with the changing perspective of customers towards insurance, the industry performance is expected to improve over time. In FY22 growth has continued to be driven by the health segment and by the private sector which grew at a significantly faster pace compared to the public sector.

The non-life premiums are expected to be driven by continued growth in the health segment even at the higher base, rising travel leading to a boost in personal accident / travel insurance, and enhanced digital solutions complemented by the offline offerings, increased demand in the commercial segment with the uptick in economic activity. However, the growth could be limited by the any rise in reinsurance rates, slow growth in motor third party premium.

Industry Outlook of Wealth Management Industry

The Indian wealth management industry witnessed a structural shift over the past few years on account of changing demographics, increase in the number of millennials focusing on investing, and increased penetration of digitization. The pandemic-led 2021 accelerated the shift from traditional investing avenues such as bank deposits to equities on account of lower interest rates for term deposits.

Cumulatively, both the depositories (NSDL and CDSL) have added 345.8 lakh new accounts in 2021-22 fiscal year, with CDSL itself accounting for 296 lakh new demat accounts, indicating that renewed optimism surrounding growth and the resultant exuberance in stock markets drew many first-time investors.

The increase in focus on wealth management comes as investors are more aware and attuned to current events and are actively planning their finances to meet their goals or in times of distress. Additionally, there is a growing trend towards achieving financial self-reliance for meeting discretionary spends and maintaining lifestyle. Indian household savings have also been witnessing some considerable structural shifts of late.

Households in India have historically been quite risk-averse and wary of investing their savings into volatile or uncertain return-based assets. A pursuit of safe bets has always driven India towards making investments in unproductive assets like gold. This pattern is slowly changing over time, especially since demonetization in November 2016. Also, the country has seen a major shift in attitude from capital preservation to wealth creation from FY17.

In FY2023, the growth is likely to be moderate on account of increased inflation, weaker economic outlook for the year impacted by the ongoing geo-political tensions. XXXX expects the following trend to drive the growth of the wealth management industry.

Need for reliable advice – The complexity of the financial markets can be a deterrent due to the many investment options at hand. A lay investor is likely to face headwinds due to the inability to understand the suitability of options with his/her own risk appetite and goals. This gives rise to a knowledgeable and reliable wealth manager who can guide the investor through many goals using different investment and funding strategies.

Increase in wealth advisory platforms – The advent of the internet and rise in smartphone penetration has opened up newer wealth advisory platforms for investors. This has resulted in investors accessing platforms having easy-to-use interfaces where investments are made at the click of the finger.

Digital wealth management also includes using technology to offer more value, better services and enhance the customer's investor experience. Wealth advisory platforms also make the investment process accessible and affordable to a large section of people, thus increasing the reach of the wealth management industry.

Financial planning to achieve goals – Investors today are focusing on milestone-based planning and want to invest for them adequately. These investment goals can be short-term and related to purchases or longer-term goals such as education or retirement. Wealth managers need to rethink their strategies to not only focus on wealth maximization but also on financial planning solutions covering the different timelines.

Shift from traditional asset classes – Retail investors are moving beyond traditional asset classes like fixed deposits due to their sub-optimal real returns. They are looking for access to asset classes and investment strategies deployed by HNIs and want to explore alternative assets. Wealth managers are therefore offering products beyond those that are conventional in nature to attract greater participation from this strata of clientele. Additionally, wealth management is moving from being a one-product-fits-all to more customized advisory based on the risk appetite, goals and time horizons of the customers.

In sum, a change in the perception of investing of customers, increased participation of millennials in investing and newer developments in technology will aid the growth of the wealth management industry, going forward.

Overview of Stock Broking Industry

Introduction

Indian stock broking industry is the oldest trading industry that has been around even before the establishment of Bombay Stock Exchange (BSE) in 1875. Despite passing through several changes in the post-liberalization period, the industry has found its way towards sustainable growth. It has undergone developments over several years in terms of yields, products and customer services. In the initial phase, Indian brokerages were to be divided into two categories – bank-led brokers and nonbank led brokers. The majority of these brokerages were full-service brokers with services spanning from providing a platform for trading, settlement services, investment advisory (research), investment banking and wealth management.

With progress made in the broking sector, the trading process, which used to be cumbersome and expensive, has transformed for the better. Anyone with a mobile device and internet connection can now open a broking account and trade without any human interface. Technology has also significantly brought down the cost to conduct the business as players need not open branches or recruit sales personnel. This has helped brokerage firms to remain extremely profitable despite a sharp reduction in fees charged. In the current market scenario, pricing has ceased to be a differentiator with

consumers increasingly choosing brokerages based on the quality of their service and conveniences they offer.

The Indian broking industry is very fragmented with a large number of participants. There are over 300 stockbrokers registered with National Stock Exchange (NSE) as of 30th April 2022 and here are 1311 trading members in equity segment registered with BSE as of 25th May 2022.

Many of them may be propriety desk, still a large number of brokers offer trading services to customers. The stock brokerage industry in India is likely to have earned an income of more than Rs. 27,000 crores in FY22 showing around 30% y-o-y growth.

Capital markets-related entities have benefitted in the last two to three Financial Years as equity markets have given investors healthy returns. Corporates too have tapped on the growth of capital markets by raising capital through equity and debt issuances.

With the importance of technology increasing, customers are provided more and more means to access information and take active decisions based on the fast-paced information availability. The systems are ever evolving and have become quick and robust. In order to stay relevant and increase the market share, many brokers have heavily invested in infrastructure. Their IT systems have transformed from legacy systems to modern-day agile, adaptive and lean architectures.

Services provided by Stock Broking Companies

Broking Services

A broker is an individual or firm that acts as an intermediary between an investor and a securities exchange. Because securities exchanges only accept orders from individuals or firms who are members of that exchange, individual traders and investors need the services of exchange members. Brokers provide that service and are compensated in various ways, either through commissions, fees or through being paid by the exchange itself. Investors trade in equities in the cash-delivery, cash-intraday, futures and options, indices – derivatives segment through various order types, including market orders, stop-loss orders and valid till cancelled orders.

1) **Products**: The broking business primarily comprises broking services that offer retail clients trading in equities, equity derivatives, commodities and currency derivatives. The products for broking services for clients to trade in are as follows:

    - Equities: Stocks listed on BSE and NSE.
    - Equity Derivatives: Futures and options related to indices and stocks listed on the Stock Exchanges.
    - Currency: Derivatives and future and options in U.S. Dollar, Euros, British Pound and the Japanese Yen.
    - Commodities: Commodities futures and options listed on MCX and NCDEX

2) **Client Acquisition:** Broking business is anchored by a retail client. Acquisition of clients is done either directly by the broking firm itself or through its exclusive sub-broker network. This may be done through organic leads, paid leads or dedicated sales teams through both online and offline channels.

3) **Platforms:** Broking services are provided through various web, digital and exe. platforms. Almost all broking companies have their websites on which clients do trading on the stock market. Nowadays, mobile applications have also become a necessary platform for all brokers as people prefer trading in stock through their smartphones.

Research Services

Broking companies have a dedicated research team that publishes research reports on a daily, weekly and monthly basis for their clients, to enable them to make informed investment decisions across equity, commodity and currency segments.

Investment Advisory

Brokers provide investment advisory services to their retail clients with customized investment recommendations which assist their clients in achieving their investment goals across various investment avenues such as equities, debt, currency, commodities, derivatives, mutual funds and insurance products.

Investor Education

The website of various broking companies is a knowledge centre that aims to empower investors, including their clients, with an understanding in respect of trading and investments products.

Other Financial Services: In addition to broking and advisory services, various brokers also provide the following financial services that enable their clients to achieve their financial goals:

- **Margin Trading Facility:** They provide a margin trading facility to the clients for leveraging their eligible collaterals by funding their requirements on the cash delivery segment of equities. Such funding is subject to exposure against margins that are mandated by the stock exchanges, with the securities forming a part of the collateral for such funding.

- **Distribution:** They undertake the distribution of third-party financial products such as mutual funds, and health and life insurance products, according to their clients' requirements. Such distribution is undertaken through both offline channels and digital platforms.

- **Loans against shares:** Few broking companies, which are registered as an NBFC, provide loans against shares to their retail clients.

Digital trading platforms provide brokerages with enhanced scalability

With the domestic brokerage industry evolving, various brokers distinguish themselves from others in terms of their service offering to the customers including lower fees, lower maintenance charges, faster turnaround times for account opening, better security features, faster access to systems, etc.

In addition, the evolution of technology has helped them further penetrate their target customer segment faster. It offers the ease of scalability, which reduces their operating cost per customer and improves their profitability. Facilities supplementing mobile-based trading, such as live TV, advanced research reports, push notifications, enhanced price discovery settings, etc., help enhance the user experience for their customers helping them with better retention.

With the advent of modern platforms, brokers have put in place infrastructure which lowers the variable operating cost per customer considerably due to its scalable nature. The same platforms that cater to existing clientele can scale up to accommodate multiple new users. This helps them price their offerings lower and, in many cases, charge fixed transaction-based fees or even charge no fee for delivery-based transactions.
Various services offered to a diverse set of customers

These brokerages further offer services to either individuals or even institutions, which usually perform high-value transactions, requiring higher technical support such as high-frequency data, algorithm implementation and testing capabilities, co-locations, trade automation etc., which, with the better infrastructural setup, becomes easier to implement and offer.

Key points of difference between institutional and retail broking

Parameter	Institutional broking	Retail broking
Number of investors	Low	High
Average ticket size	High	Low to moderate
Brokerage fee	About 20-30 bps lower than retail	Rates depend on volumes and customer's relationship with the broker
Type of trades	Mostly block trades	Small to moderate quantities
Technical support	Requires high technical support, systems like algorithmic trading, co-locations, automation of trades, etc.	Requires low to moderate technical support; some retail investors also engage in facilities such as algorithmic trading, etc.
Industry analysis	Requires high level of industry and company analysis	May or may not require company analysis
Frequency of trades	Low	High to low
Bargaining power with brokerage house	High	Low

Internet and mobile trading gaining share on account of the convenience

The Penetration of internet trading in the country is growing steadily with a rise in number of active registered subscribers. Internet trading volumes are on the rise with their share increasing from in the F&O segment to around 50% over fiscals 2015-2022. As of April 2022, the share of internet-based trading (IBT) in cash segment was nearly 10% of trading volumes in the cash segment and the share of mobile trading reached nearly 21% of trading volumes in the cash segment.

Key factors aiding this growth are:

Growing mobile usage and penetration: India's broadband subscribers have increased significantly over the past decade. As of 31st March 2022, the total broadband subscribers reached at nearly 79 crores. Of this, more than 76 crore subscribers were wireless/mobile subscribers.

Growing usage of smartphones: With an ever-growing user base of smartphones, India has close to more than 70 crore 4G data subscribers in 2022. With cheaper availability of data, increasing penetration of the smartphone devices, easy information dissemination, growing investor education initiatives from market participants, access to social media and informative websites, investors are increasingly becoming better equipped to trade and invest in the equity markets.

Lower brokerage fees: Retail traders trading online get discounts in brokerage; full-service brokerages have also adopted internet trading models to become leaner

Flexibility and convenience: Internet trading allows for greater control on transactions and faster turnaround (within seconds) and reduces latency with the time required for calling a broker and placing the order coming down
Handy tools: Multiple tools, such as stock screener, yield calculator, technical indicators, charting tools, etc., are offered to investors.

Real-time data and news feed: Mostly all key brokerages provide subscribers with real-time data and live news feeds. They also provide facilities such as advisors and recommendation reports

NSE had launched internet-based trading for investors in 2000 and mobile-based trading in 2010.

The majority of brokers are now using digital platforms, in addition to their existent physical footprint. It helps them better attract savvy customers who are willing to pay a premium for additional services of higher quality using technology and automation, value-added services and that have higher product safety. This helps them garner higher assets from clients and obtain additional revenue through alternative means such as additional fees-based, distribution and interest income.

Service diversification into distribution has added to the revenue streams of brokerages

Most large players have diversified into related fee-based activities such as mutual fund distribution and capital markets lending to diversify their income source. However, some have amplified their focus on growing their non-capital market credit books. In the long term, their success in the lending business would be dependent on their ability to effectively manage the liability side of their book and risk. There is also a set of non-bank and non-NBFC brokers that exclusively focus on broking and distribution business.

Smaller entities in the equity broking business remain niche players with limited diversification and hence are more vulnerable to market volatility. These entities typically benefit from strong customer relationships. Nevertheless, given the shift in market share towards larger brokerages, they will need to continuously evolve and control their cost structure to be able to manage profitability in the current market environment.

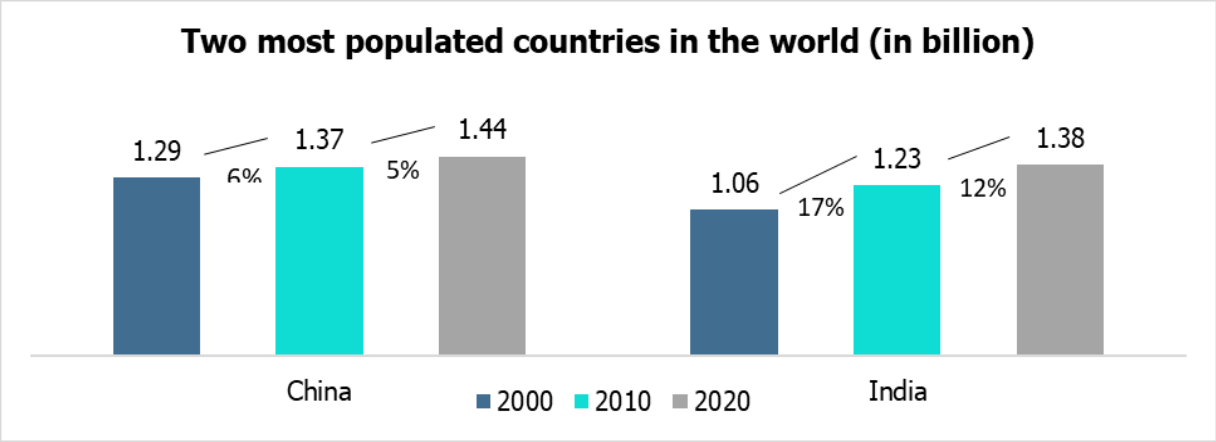

Many large brokers offer several plans to their retail clients (for example, flat brokerage plan vs variable brokerage plan where traded turnover and brokerage rates are inversely related). Institutional brokerage rates are far lower than the retail rates and mainly depend on the quality of research reports and trade execution capability provided. Given in the below table is the indicative structure of charges for a variety of trading options.

Key Demand Drivers for the Stock Broking Industry

Rising population:

India added almost 1/3rd of its population in the past 2 decades from 1998-2018, while China (the most populated nation

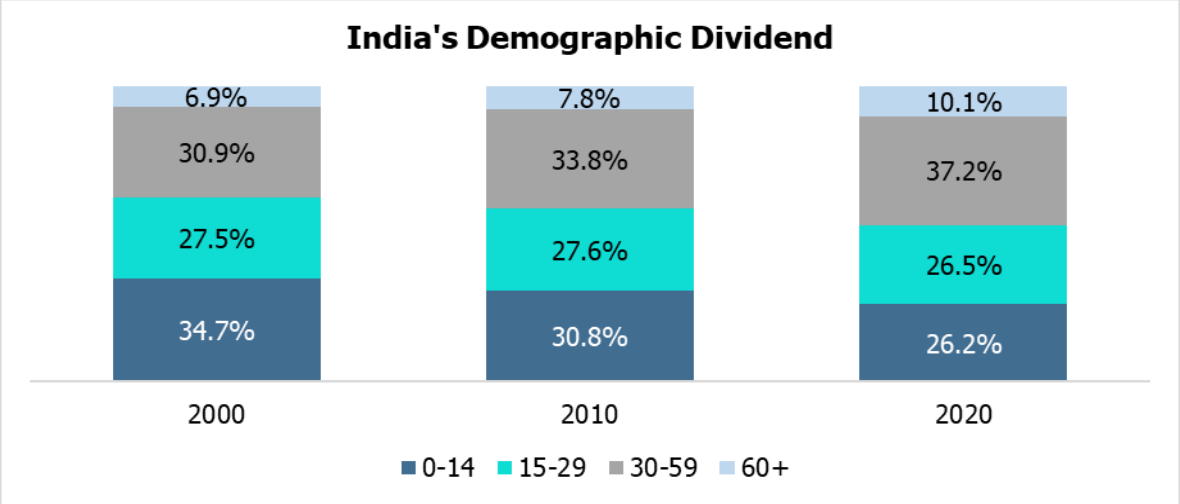

globally) grew by 12% in the same period. With this sharp surge, India is now the 2nd most populated nation globally with 1.38 billion individuals or constitutes nearly 18% of the world's population. This rising population has given way to newer and increasing consumption trends in the country for food, healthcare, home and personal care products. A rapidly growing working population, coupled with increasing awareness for retirement savings, is expected to lead to higher investment allocations in capital markets.

Favourable demographics with growing per capita income:

India has a young population with 26% individuals below 15 years of age and around 64% individuals aged between 15 and 59 years, which make the country one among the world's largest workforces. In addition to this, India nearly tripled its per capita net national income (at current prices) from Rs. 0.048 million in FY10 to Rs. 0.134 million in FY20.

Rise in Urbanisation

Urbanisation is one of India's most important economic growth drivers as it will drive substantial investments in infrastructure development, which, in turn, is expected to lead to job creation, development of modern consumer services and increased ability to mobilise savings. Development in metro cities and emerging towns continue to drive economic growth for our country. Scope for a better job, lifestyle, healthcare and education opportunities led to a rise in immigration from villages to larger cities. With this, the population in the urban segment grew around 65% in the past 2 decades and as of 2020, around 1/3rd of the country's total population resides in the urban space. Such a growing population residing in larger cities brings prospects for higher disposable income and spending power, inclining long term savings.

Demand for financial products from semi-urban and rural areas too is growing at a fast pace

With increasing financial literacy, mobile penetration, awareness and opening up of Jan Dhan bank accounts, the demand for financial products from smaller cities has increased quite exponentially. Financial services including lending and broking services are available in most of the 19,252 pin codes across India. The SEBI has allowed fund houses to charge an additional 30 bps in expense ratios on retail AUM to compensate fund houses on the additional cost required to capture and service clients in these locations. The intention behind the move seems to be to increase penetration beyond the Top 30 cities in India. The SEBI's decision to change from Top 15 to Top 30 locations is primarily to increase mutual fund penetration in these locations in a targeted manner.

The Average Assets Under Management (AAUM) of the Indian Mutual Fund Industry as of December 2021 stood at Rs. 37,918 billion. More than 16% of the monthly average assets under management in the mutual fund industry came from Tier B locations, marginally up from around 16% in March 2020. Going ahead, this number is expected to increase further due to the focus on these locations and their untapped potential

Saving Scenario

India's savings rate, or the share of gross domestic savings in the gross domestic product (GDP), has come down to 28% in 2020, the latest available official data show, compared to 30.5% in 2018.

The Government has recently implemented multiple structural reforms, such as demonetisation, GST and the Benami

Transaction Act, to enable a low-cash and transparent economy. These reforms resulted in a structural change in the household saving pattern with a higher inclination on investment in financial assets. These reforms, coupled with softening interest rates and low returns from traditional investment instruments, resulted in higher inflows into mutual funds and direct investments in shares and debentures. Sustained macroeconomic growth, benign inflation and a low-interest-rate environment are expected to aid capital market investments. In addition, improving financial literacy has fostered higher confidence amongst small investors and improved retail participation.

Increasing Trade volume

Rapid advances in technology have reduced both transaction time and costs. At the same time, brokers have been able to improve their reach and increase penetration by investing in online trading platforms. Technological advancements along with a rapid increase in smartphone penetration have resulted in an increase in the trade volume for the stockbroking business.

Commodity Derivatives

Commodity Derivatives markets are a good source of critical information and indicator of market sentiments. Since commodities are frequently used as input in the production of goods or services, uncertainty and volatility in commodity prices and raw materials make the business environment erratic, unpredictable and subject to unforeseeable risks.

The interest rate derivatives segment has seen significant degrowth over the past two financial years on account of uncertainty surrounding the pandemic and fluctuations in interest rates led to decline in volume of trades within the

segment which eventually led to decline in turnover.

Major Challenges for the Stock Broking Industry

Lower Margins in Broking

There is tremendous competition to Indian Full-service Brokers from Discount Brokers and Foreign Banks. Discount brokers are giving a maximum of 20rupee trade for execution, which puts significant price pressure on full-service brokers. The broking margins are so thin; companies struggle to meet their fixed costs with any variable volume revenue models in the industry. This puts a lot of pressure on brokers to encourage "churning" or over trading, which makes retail investors lose money in the long run. The easiest way for a retail investor to make money is to stay invested in a well-diversified basket of good quality stocks over a long period; however, Foreign banks spoil the party further by bringing a large volume of overseas clients, who trade a large number of Indian shares and move the price up or down at their own whims and fancies.

Lower Retail Investor Participation

The traditional investment preference of Indians in real assets like gold or real estate has not helped the industry as a whole. After several investor awareness sessions are held by brokers/NSE, people are gradually warming up to the idea of equity investing. However, the pace of people adopting financial assets is still low. The past scams, lack of understanding of volatility, and the cultural obsession with gold-land have not helped fellow Indians in taking a meaningful pie of shares. Finally, the unfortunate reality is that due to the lack of Indian retail participants, foreign investors are eating the cake of India's growth story (and rising stock market).

Increasing costs and additional investments

Stock markets are always evolving. They add newer products, technologies, and provide newer opportunities to trade. Brokerages need to invest in newer technologies trading platforms and algorithms continuously or risk-losing trading clients. For example, the addition of commodity or currency segments involves additional expenses for brokers to enable the trading and settlement infrastructure for the new products. Likewise, the adoption of mobile technologies involves investment in applications and portfolio management systems which further increase costs. Besides, brokers need to pay their staff exchange memberships and other infrastructure in order to make a profit.

New Regulations

Securities and Exchange Board of India's (SEBI) new margin rules come into effect from 1st September 2020, through which the market regulator attempts to increase transparency and safeguard investors. Apart from the various challenges that the new margin rules bring, it is also expected to cause a reduction in trading volume on the stock exchanges. In the new system of pledging, the pledged shares remain with the traders in their Demat accounts. This would make them eligible for all corporate benefits aligned with the securities. The new rules will see inventors give their consent for the creation of margin pledge through entering an OTP on the depository's website, which will then be marked in favour of the broker. The stockbroker will now be asked to open a separate Demat account where the securities will be transferred and then the broker will re-pledge the said securities to the Clearing Corporation to obtain margin. This will require stockbrokers to revamp their system to facilitate the new trading norms. Additionally, market participants believe that it will cause heavy selling as traders shift to the new system.

As per ANMI, various issues remain to be dealt with ahead of the implementation of the new rules. ANMI said that most of its 900 members have confirmed that re-pledge could not be initiated at all in both the depositories. The trader's body highlighted that issues could emerge at CDSL and NSDL levels, including delayed OTP response.

Back-office software vendors have been struggling with revamping their software's to pave the way for a smooth transition onto the new system. "The implementation of the new system if not postponed is likely to result in market disruption, as operations at the depositories have not stabilized besides there is mismatch noticed in UCC database which is required to be corrected before the process is started and if it is not attended on priority, it is likely to hamper the process of smooth pledging/re-pledging of shares.

Government Initiative for the Stock Broking Industry

The government plays a major part in financial services by formulating policies, changing tax structures and deciding how much is to be invested in the financial markets. They also play an important role in framing policies for FIIs and

FDIs, which have a huge impact on equity markets. If the government policies are very stringent, there will be lower inflows of FIIs and FDIs and the markets will have low investment. SEBI is the regulator for equity markets, the markets have to be within the legal framework set by SEBI. Brokers and companies have to comply with the policies framed by them. As changes in the policies by SEBI has an impact on the companies, brokers and slightly to the investors.

Government initiatives:

- To make the stock markets efficient, several initiatives have been undertaken. For instance, Bharat Bond ETFs have been introduced and EPFO proceeds are being invested in index funds. In due course, more structured products may be launched to promote participation. Possibly, some measures may be taken to tackle taxation on fronts such as FPI flows and share buybacks, among others.
- In December 2018, the Securities and Exchange Board of India (SEBI) proposed direct overseas listing of Indian companies and other regulatory changes.
- Bombay Stock Exchange (BSE) introduced weekly futures and options contracts on the Sensex 50 index from October 26, 2018.
- In September 2018, SEBI asked for recommendations to strengthen rules which will enhance the overall governance standards for issuers, intermediaries or infrastructure providers in the financial market.

Industry Outlook of Stock Broking Industry

Brokerage firms in India have seen the opportunity for hassle-free trading using design and technology to reduce costs for their customers. Low-cost trading, deeper penetration of smartphones, faster internet, and simplification of trading applications will make it possible for an increasing percentage of people across age groups to trade with ease. Technology-based firms in the financial services space have empowered customers with tools and insights for savvier investment decisions.

India is expected to be the fourth largest private wealth market globally by 2028. Indian stock broking industry is expected to clock a healthy growth on an aggregate basis, small-and-mid-sized brokerage companies are expected to face greater operational and funding challenges, which could have a bearing on their performance in terms of growth and profitability.

This growth is likely to be impacted on account of the ongoing geo-political tensions between Russia- Ukraine which have impacted various sectors such as oil sector, automobiles, edible oil and agriculture sector as has affected the financial market. Further, the rise in interest rates by central banks of various countries to combat inflation are likely to affect investor sentiments their by further impacting growth of the stock market industry.

New client additions in the industry are expected to remain healthy supported by the largely untapped market in the retail segment, coupled with favourable demographics, rising financial literacy and increasing smartphone/internet penetration. The trend of consolidation is expected to continue with smaller broking players ceding market share to more established broking entities.

With increased awareness about investing, a shift in attitude towards growing wealth over preserving wealth and advancement in technologies and a large trading volumes, the domestic brokerage industry's aggregate revenues are expected to grow at a moderate pace over FY22.

Overview of ESOP Funding Market and Margin Funding book in India

Introduction to ESOP Funding

The Employee Stock Option Plan (ESOP) is an offering that benefits employees and the company. Under the Companies Act, 2013, Employee Stock Option Plans (ESOPs) are plans primarily designed to have the employees invest in the stock of the employer sponsoring the same. The shares of the companies are given to the employees at discounted rates and form part of the employees' remuneration structure and are usually unaccompanied by any upfront costs. ESOPs incentivizes the employees to align their performance with the interests of the shareholders.

Employees are offered ESOPs when a company is seeking to increase their subscribed capital by issuing shares. In addition to this, in the case of listed companies, ESOPs should be issued in compliance with Securities and Exchange Board of India Employee Stock Option Scheme Guidelines and for all companies other than listed companies, ESOPs should be issued it in accordance with the provisions of the Companies Act, 2013 and Companies (Share Capital and Debentures) Rules, 2014.

Introduction to Margin Funding

Normally investors trade in securities on the strength of owned funds and securities. However, sometimes, based on their outlook about the market and some specific securities in particular, they intend to trade beyond owned resources. This trading in the securities is supported by the borrowing facility for funds and securities, in the system. While trading with the borrowed resources, investors are required to put in a margin (good faith deposits) with the intermediaries and this phenomenon is called margin trading. This margin is usually a percent of the value of the proposed transaction.

In other words, margin trading is a trading in the securities market with the borrowed resources – funds or securities. As margin trading is providing a facility to investors to trade in the market with the margin money, it essentially is a leverage mechanism. Globally, in all the major markets the facility of the margin trading and securities lending is available to the investors. However, it would be pertinent to mention here that the business models for the margin trading and securities lending are different in different markets.

Value drivers of the margin trading

The interaction between demand and supply forces determines the prices of the securities in the market. The availability of the buyer and seller in the system at any time constitutes the essential ingredient of the Capital Market; this ensures the liquidity in the system, which is the hall mark of success of any market across the globe.

Margin trading, which can be done on both buy and sell sides, adds to increased demand for and supply of securities and funds in the market, resulting in improved liquidity and smooth price formation of securities. Further, with contracting settlement cycles, it becomes important to provide for this facility of supporting buy and sell sides of trades for smooth settlement i.e., to reduce the fail trades.

In addition to this, margin trading also facilitates the price alignment across the markets through facilitating the arbitrage. For example, in case there is mispricing between derivatives and cash market, margin trading supports the transaction in the cash market in order to facilitate the arbitrage between the derivatives and cash, which leads to better price alignment across markets. Margin trading also facilitates the hedging. For instance, if an investor holds call options (right to buy the stocks) to be exercised only after a specific period of time, the investor might sell the securities in the cash market on margin trading and hedge risk. Similarly, the shares under an ESOP to be offered to the employees after a period of time can be hedged using margin trading.

Furthermore, margin trading and derivatives trading generally complement rolling settlement, which limits the period for roundabout transactions to one day due to which the markets having the rolling settlements generally provide for the facility of margin trading. In a rolling settlement environment, this is critical for market efficiency and smooth settlement.

Physical settlement in derivatives, particularly American Options also requires the availability of the funds and the securities to ensure smooth settlement of trades. In case, when the derivatives are settled through the physical delivery, funds and securities lending and borrowing become priorities.

Growth Drivers for ESOP funding and Margin Funding

Increase in number of 'unicorn' start-ups

The Indian start-up industry has witnessed a steady increase in funding for high-valued start-ups and now has 100 'unicorns', or start-ups having a valuation of more than USD 1 billion. This bodes well for the ESOP funding ecosystem as ESOPs are usually doled out by start-ups to their key personnel. An increase in the number of high-value start-ups presents a larger customer base for ESOP funding services.

Favourable regulatory environment

The Government is working on eliminating structural issues in the economy to restrict start-ups and upcoming businesses from moving out of India. It is also focusing on improving the ease of doing business in India by lowering the turnaround time taken to receive clearances. The Government has announced incubation programs, tax benefit schemes, among others, and launched the 'Startup India' initiative to aid the growth of start-ups in India. Together, these are likely to support the progress of start-ups and create a favourable environment for ESOP funding as well.

Good customer base

Companies offer ESOPs to their key personnel, who tend to belong to the high-income group and maintain a good credit profile. This implies that individuals opting for ESOP funding are customers with above average creditworthiness and therefore the risks related to repayments are minimal. This also poses as a favourable demand driver for companies involved in ESOP funding.

Increase in retail participation in capital markets

Margin funding is helpful for investors aiming to earn profits in the short-term through fluctuations in the market. The renewed interest in equities during the pandemic is likely to have resulted from a requirement for profits in the short term. The increase in participation of retail investors in capital markets is expected to present an increase in potential for margin funding requirements.

Major Challenges

Maintenance of minimum balance The requirement of maintenance of minimum balance in the margin trade facility account can be a deterrent. This is because a portion of the capital is locked in, and investors may not want a chunk of their capital to be inaccessible.

Regulatory framework and guidelines for ESOP Funding:

The Securities and Exchange Board of India (SEBI) has notified the SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021. These new regulations have merged the erstwhile SEBI (Issue of Sweat Equity) Regulations, 2002, and SEBI (Share Based Employee Benefits) Regulations, 2014.

Change in definition of Employee

A major change in the new regulations is the change in the definition of "employee" who is covered under the ESOP (employee stock option plan) framework. Wherein Employee now includes non-permanent employee of a company, so long as he/she works "exclusively" for such a company. This means companies can now issue ESOPs to employees on fixed-term contracts, or those on probation, prior to confirmation of their employment. In addition to this, there is greater clarity on the coverage of "non-executive directors" in the definition of employee, which means such officials can also be granted ESOPS. However, Independent directors continue to be excluded, given the uniqueness of their role. And in case of listed companies, employees who are promoters or part of their promoter groups are still not permitted to be granted ESOPS.

Earlier regulations allowed only employees of holding and subsidiary companies to be issued ESOPs. However, the new regulations have also expanded the coverage of "employees" to include employees of associate companies (those in which the issuing company has significant influence or is engaged with in a joint venture).

The new regulations have taken into account the health issues and hardship that employees and their families face, specifically during the pandemic, and include certain relief measures. The new rules have exempted the requirement of having a minimum vesting period of one year for ESOPs, in case of death or permanent disability of an employee. This ensures that the employees (or their family in the event of death) receive the intended benefit, even if the statutory minimum vesting period of one year has not elapsed, thus helping them cope financially, in times of difficulty or grief, as the circumstances may be.

Furthermore, the new regulations provide for vesting of the stock options granted to employees in accordance with the respective vesting schedule, even after retirement or superannuation of the employee, in compliance with the company's policies and applicable law. This means that an employee's ESOP benefit earned throughout his employment does not end with his retirement. Employees in the private sector who are not covered by a formal pension system may benefit from such ESOPs to help meet post-retirement living costs.

Other relief measures

Apart from several pro-employee amendments, the new regulations also provide several relief measures for companies. Earlier, companies had to decide on the ESOPs manner of administration through an ESOP trust upfront, at the time of implementation of the ESOP. The new regulations provide flexibility to companies to be able to switch the manner of administration (direct route to trust route, or vice versa) at any point in time as circumstances warrant.

Further, the period for appropriating the trust's unappropriated inventory is extended by one more year, subject to the compensation or nomination and remuneration committee's approval for such an extension to the second subsequent financial year; so, the trust has one additional year to appropriate the shares acquired through secondary market acquisition.

Regulatory framework and guidelines for Margin Funding:

In 2020, SEBI in order to establish new rules regarding the margins kept by traders dealing in futures and options and intraday trading, started ratcheting up the margin thresholds in a phased manner. At first SEBI mandated traders to keep 25% of the margin money between December 2020 and February 2021. This was upped to 50% between March and May this year, and then to 75% from June to August. Eventually this limit has been raised to 100%. So, these rules have not hit the market out of the blue and were expected to be enforced.

The new rules essentially apply to the futures and options (F&O) segment of the stock market and to intraday traders. They stipulate that the traders punting on the F&O segment or doing intraday trades will need to have 100% of the margin money in the linked bank accounts, to be able to trade—buy or sell shares—as against a minimum 75% requirement till the end of August.

The margin rules apply both to buying and selling of shares investor may hold as a trader. This will require both buyers and sellers to keep extra cash aside or pledge shares of equivalent amounts, for their trades to go through.
The actual value of the 100% margin requirement though is not the same for every script. It is based on what is called the 'value at risk' (VaR) margin. The VaR is different for shares of bigger companies, as compared to those for smaller ones or penny stocks, for which it is significantly higher.

In addition to this, the 'Buy Today-Sell Tomorrow' (BTST) facility has been closed. Earlier, the shares investor bought today, he had an option to sell them tomorrow or even immediately. With this new rule, an investor can only sell a share after he has received its delivery, i.e., two days after closing the trade, not the next day, even before investor have received it in investor's demat account. Moreover, for the cash segment, funds from a sale cannot be used the same day, but only on the next day.

With the new rule, the leverage the traders used to get has been reduced. The traders now have to shell out more money to bet during futures markets and intraday. If the margin is not maintained by traders during the trading session, they will have to pay penalties.

The reason behind the new rules is that SEBI wants to control the leverage being taken by the traders and thereby reducing risks. The margin requirements will be calculated four times during every trading session and will include intraday trading positions.

Major regulatory changes and the impact on the growth of private wealth management services

Regulatory pressure is forcing wealth management players to rework operating models

After the announcement of the Investor Advisors Guidelines, there has been increased focus on client centricity, fiduciary responsibility and compliance. Regulatory requirements regarding advisor qualifications, infrastructure, risk profiling and suitability criteria have become more stringent. For the past few years, there has been a push from regulators and industry bodies to move toward a trail commission– based model and reduce up-front commissions to reduce misselling and the chances of churn.

One of the biggest impediments to the current wealth management model is the stipulation that investment advisors must maintain an arm's length from distribution activities. The income of investment advisors must be in the form of fees from clients and not through commissions earned on the distribution of mutual fund products. Players are skeptical about separating advisory and distribution businesses as this may prove to be an inconvenience. Moreover, the cost of running two separate firms is high.

Additional regulatory layer proposed by SEBI may keep foreign players away from Indian wealth management business

With the aim to root out undeclared wealth and ensure tax compliance, SEBI wants to gain oversight of foreign banks managing Indian wealth. The capital market regulator has reached out to large international banks and wealth managers

to register their offshore units with SEBI if they are soliciting business in India. By registering with SEBI, private banks would have to admit to managing funds of wealthy Indian clients and may also prompt further requests from SEBI to share information. Many foreign banks and wealth managers have already exited the Indian wealth management business because of the high cost of operations and regulatory burden. This might deter foreign players from having any presence in the Indian wealth management segment and offering services to wealthy Indians. The Royal Bank of Scotland NV India and Morgan Stanley Private Wealth Management are Foreign Players who have recently exited the

We also have a Point of Presence registration certificate under Pension Fund Regulatory and Development Authority (PFRDA) for distributing NPS policies**.**

We provide a wide range of financial services to our clients including and in relation to:

- **Securities Broking Services**: We primarily offer our broking services, spread across equity (cash-delivery, futures, intra-day and options), derivatives, currency, debt and commodity segments, to retail clients including HNIs/UHNIs, top executives, salaried individuals, etc. through various digital platforms (website, mobile app, trading terminal), which are integrated with each other enabling our clients to have a seamless trading and investment experience. Our experience of over 14 years has helped us to maintain prominent presence in the broking industry with a robust digital trading platform and a large branch network.

  Over the years, we have enhanced client engagement and experience through digitization of our processes and augmentation of our technological platforms. We launched our mobile application for broking services in the year 2013 and over years have achieved complete client on-boarding through the electronic and digital medium. We also have a dedicated team of relationship managers and dealers to service specific clients. Customer may choose to operate through a relationship manager or *via* digital means. Each client account is managed through a unique

customer relationship number. We also publish research reports on a regular basis for our clients, to enable them to make informed investment decisions. Our income from broking was ₹ 2,009.63 million, ₹ 1,870.13 million and ₹ 1,720.26 million for the Fiscals 2022, 2021 and 2020, respectively.

- **Distribution of financial products:** We offer distribution services for wide range of financial products including mutual funds, insurance products, fixed income products, mortgages and loans, portfolio management schemes, alternative investment funds, structured products and IPOs to our clients. We earn commissions from third parties for the distribution of their products, which may be in the form of recurring commissions for longer-term products. As of March 31, 2022, we cater to 0.1 million clients who are serviced by a team of over 950 relationship managers, who are present across 57 cities in India including Mumbai, Delhi, Bengaluru, Chennai, Kolkata among others. We also have a have a vast network of over 23,000 partners who help us in client acquisition given their large pan India geographical presence and through the partners we cater to 0.1 million clients as of March 31, 2022. Further, our digital customers are serviced by the digital customer relationship team.

  We have achieved complete digitization including onboarding of clients, opening of an account, client approvals and investment transactions. This has led to cost efficiencies and making execution less cumbersome, more transparent and contributed to the growth of our Company. Our client engagement and marketing efforts have also significantly converted to digital with a move to a virtual process of meeting clients during the pandemic and conducting official meetings and training with multiple stakeholders. Moving to paperless documentation and operational process has fundamentally reduced our operating cost.

- **ESOP funding and Margin trade financing facility:** We have partnered with some of India's largest companies to fund acquisition of shares, on exercise of options granted to their employees. These funds are provided from mid to senior level executives of the identified corporates. We offer ESOP funding with a maximum tenure of 12 months (which can be extended as per the respective agreements) which are secured by pledge of the shares to such employees on the exercise of the options granted to them.

  We also provide margin trade financing facility to our brokerage clients for leveraging their eligible collaterals by funding their requirements on the cash delivery segment of equities. Such funding is subject to exposure against margins that are mandated by the stock exchanges, with the securities forming a part of the collateral for such funding.

We, as on March 31, 2022, had a network of 71 branches spread across 57 cities. Given the wide network, there are a large number of trading terminals that provide retail stock-broking facilities. Our offices aim at providing quick and seamless customer experience. Our operations are supported by approximately 2,000 employees as on March 31, 2022 including over 950 relationship managers on our payroll.

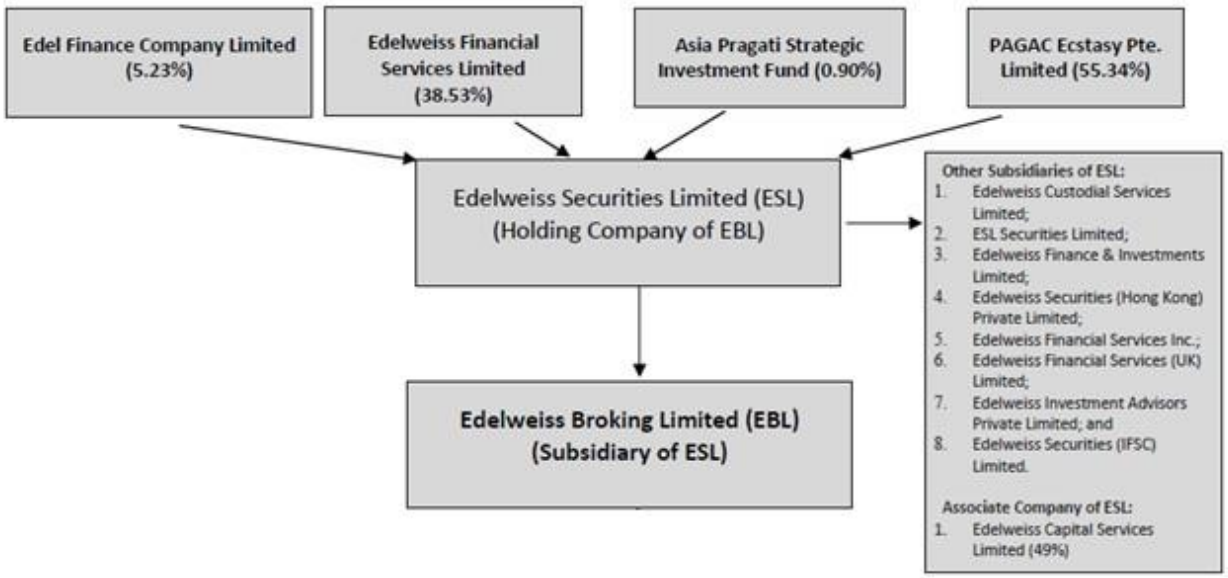

Our Company is a wholly owned subsidiary of Edelweiss Securities Limited, our Promoter. PAGAC Ecstasy Pte. We provide a wide array of products to our clients including broking, margin trade funding and distribution of third-party products. Within third party products, we distribute products like insurance, mutual funds, mortgages and loans, alternate investment funds and depository services through our online and digital platforms We strive to provide a holistic experience to our customers by catering to all financial needs under one roof.

Our Strategies

The key elements of our strategy are as follows:

Diversify and expand our client base and geographic reach

We provide our broking, distribution of financial products, ESOP and margin trade financing facility services to retail clients. We intend to diversify and increase our retail client base by catering to various clients across different age groups with digital applications such as "Edelweiss.in", *"Edelweiss Mobile Trader"*, "*Terminal X3*", *"API Connect"* which has been designed to specifically suit the needs of the millennial generation. We also believe that we will be able to increase our retail client base by providing an open-source platform, integrate better third-party applications and offer multilingual services on our online platforms to ensure reach to a larger investor base and capitalise on the underserved client base. We also intend to strengthen our client support systems to ensure that we are able to provide anytime, anywhere access through various modes of communication. We are also constantly improving our trading platforms by upgrading them with advanced tools and features that will empower our customers take informed trading decisions. We are also adding newer asset classes on the platforms regularly which will cater to various investing needs of different customer groups.

We are committed to growing our geographic reach by both expanding our distribution network and deepening our existing presence. We, as on March 31, 2022, are present across 57 cities in India with 71 branches. We intend to continue to increase our footprint across India by focusing on growing our presence in Tier 2 and Tier 3 cities. We believe that entering these markets at an early stage will enable us to maximize both consumer mindshare and market share in such areas. We also continue to promote the use of our digital assets, as a strategy to augment our physical growth.

Continue investing in Technology and Innovation

We have invested in technology and innovation to addresses variety needs of our stakeholders which includes customers,

employees and partners. Our platform like Edelweiss.in (website), Edelweiss Mobile Trader (trading app), Terminal X3 (new age desktop terminal), API connect, website and app for our partners are some examples of platforms we manage. Our desktop trading software '*Terminal X3*' and mobile application '*Edelweiss Mobile Trader*' enables us to serve our clients better and increase our engagement with them through implementation of technology, across various devices and means of communication. We believe that these platforms have reduced our operational costs and overheads. Going forward, we aim to invest more in innovative technologies to reach our customers and increase our market share. We believe that innovation is the key to realizing our strategy of diversifying our client base.

Our website and mobile application for partners play a very important role in generating business and servicing a large base of partners in an efficient and cost-effective manner. API Connect, a new age and tech driven platform, enables traders and fintech players to build and integrate new products with very less development efforts. This will help our organization to create an eco-system which will provide the latest and innovative products to our customers.

We believe that our emphasis on investing in advanced technology will enable us to rationalise the cost that we incur to service our clients' needs, leading to cost efficiencies. This will enable us to not only to offer a simplified and most competitive pricing to our clients but also serve them with value added services, customer support services and free trading strategy ideas.

We intend to augment our investment in our mobile platform, artificial intelligence, machine learning capabilities and newer technologies. We intend to continue investing in and augmenting our analytical capabilities to ensure that we are able to gain personalised and actionable insights from such data while ensuring compliance with the privacy requirements of our clients. We have, and will continue to, use analytics to help us understand client preferences, design new products, identify targets for cross-selling and increase transactions with our clients. We intend to continue to ensure that we implement the best practices in respect of cybersecurity and increase our ability to operate with third parties to optimise our operations and provide our clients with a digital experience which is efficient and cost-effective. Our risk management framework is automated, and we remain committed to enhance our systems to meet the growing needs and requirements of regulators, market participants and clients.

Expand our financial product distribution business through cross-selling

We intend to strengthen our offerings by distributing wide range of financial products including mutual funds, insurance products, mortgages and loans, portfolio management services, alternate investment funds, structured products, fixed income products and IPOs. We intend to cater to all financing needs of our customers under one roof thereby providing them a holistic wealth management experience.

We supply our products through a vast network of partners. We believe that our retail broking customer base presents us with significant potential to cross-sell third-party financial products. In particular, we believe that certain asset classes are underpenetrated among our customer base, and we will leverage our analytics capabilities to selectively target customers based on their likelihood to purchase such products. We also intend to continue working with third-party providers to increase the number of products available to our customers.

Diversify our revenue streams and continue reducing revenue volatility

Our revenue streams are diversified, and we intend to further broaden our horizon to reduce the instability in the revenue. Our fee income model is spread across different segments. We expect that further diversifying our revenue stream will reduce our dependence on any particular product, which will enable us to spread and mitigate our risk exposure to any particular industry, business, geography or customer segment as also to reduce volatility in our performance. Offering a wide range of products also helps us to attract more customers and to increase our scale of operations. We expect that our complementary businesses will allow us to offer new products to existing customers while also attracting new customers. We also expect that our knowledge of local markets will allow us to diversify into products desired by our customers, differentiating us from our competitors.

We believe further diversifying our product mix will provide us with even greater flexibility to operate successfully across various market cycles and remain relevant to our customers by providing them with need-based product solutions across asset classes as well as continued customer support and engagement through various distribution channels.

A. Securities Broking Business

The financial savings environment in India has undergone a fundamental transformation in recent years. Strong macroeconomic factors such as growing gross domestic product, rising affluence, increasing formalization of economy, have contributed to the growing shift of household savings towards financial assets. Consequently, India is witnessing increasing retail and domestic institutional participation in Indian equity markets. The recent wave of digitization steered by the support and reforms by the Indian government and augmented by increasing smartphone penetration and faster data speeds in India has resulted in positive changes in customer out-reach and consumer behaviour. We believe that along with our strong brand name, a large customer base and wide range of products across asset classes, position us to be the natural beneficiary of the growth in digitisation and resultant transformational changes in the Indian savings markets.

Our clients trade in equity (cash-delivery, futures, intra-day and options), derivatives, currency, debt and commodity segments. We also facilitate participation in initial public offerings. We also offer services such as complementary research and, seamless margin trading facility, futures and options trading upon delivery of securities as collateral. Our services coupled with better product offering at competitive prices to our clients has resulted in strong growth in our ADTO (Average daily Turnover).

In addition to allowing our customers to carry out a variety of transactions, our electronic broking platform provides an integrated interface that allows our customers to track various portfolio parameters, including the performance of their investments. Our broking and distribution businesses are supported by our nationwide network consisting of over 71 of our own branches, as of March 31, 2022.

(ii) Client Acquisition

Our key clientele in broking business consists of retail clients, to whom we offer products and services through (i) our online and digital platforms (ii) our network of over 23,000 partners, as of March 31, 2022 and (iii) our wide branch presence over 71 branches in 57 cities. Acquisition of clients is done either directly by us or through our wide partner network. This may be done through organic leads, paid leads or dedicated relationship manager team through both online and offline channels. We have acquired about 0.15 million clients in Fiscal 2022 which has increased from 0.07 million clients acquired in Fiscal 2021.

- **Relationship Manager Team**: Our team of relationship managers plays a critical role in identifying and onboarding potential customers especially in the sourcing of new customers. We have 955 personnel on the payroll of our Company. The number of clients acquired through our relationship manager team is about 0.05 million clients for the Fiscal Year ended March 31, 2022.

- **Partner channel**: We have a vast network of over 23,000 partners who help us in client acquisition given their large pan India geographical presence. The geographical presence of our partner network has helped us to meet with the specific needs and preferences of individuals which vary from region to region and state to state and has also enabled us to tailor our offering to the evolving needs of our clients. We onboard partners after careful shortlisting as per various criteria including their educational qualification, PMLA compliance among others. We have a revenue-sharing system in place that has been established pursuant to agreements required by the relevant regulations. Under the terms of these agreements, which are separately negotiated with each partner, we generally retain a certain percentage of the brokerage or gross revenue earned through clients introduced and serviced by our partners using our technology platforms. The number of clients acquired through our partner channel is about 0.05 million clients for the Fiscal Year ended March 31, 2022.

- **Direct Acquisition:** Our direct client acquisition is majorly through marketing activities. We acquire clients through direct marketing, social media marketing and by converting leads generated organically on our website

and mobile application. We promote our platforms and account opening propositions through various social media platforms and search engines. We facilitate our clients to complete the account opening journey digitally and seamlessly activate their trading and demat account. The number of clients acquired directly is about 0.03 million clients for the Fiscal Year ended March 31, 2022.

- **Referrals**: We have alliances with various digital partners for referring clients to our Company. We also have client and employee referral programs in place which help us in client acquisition. Referrals currently forms a smaller acquisition channel compared to other channels. The number of clients acquired through referrals is about 0.01 million clients for the Fiscal Year ended March 31, 2022.

In order to avail broking services, our clients are required to open a trading and demat account. The entire process for opening the accounts is seamless with a paperless KYC process. We facilitate our clients to open a demat account and start trading shortly thereafter.

We have arrangements with various banks, financial institutions and payment aggregators to enable us to provide our clients with greater flexibility in the use of their existing bank accounts with our online systems. We are currently integrated with over 25 banks to enable our clients to seamlessly transfer funds on a real-time basis. Through the UPI payment gateway, our clients can seamlessly transfer funds from any bank.

(f) Mobile Application and Website for Partners

We have created a strong technology setup for our partners and sub-brokers to fulfill their business needs efficiently. These platforms help our partners get access to various tools, reports and data to run their business. These platforms also help our partners to transact across different asset classes, onboard and service their clients. This is a single interface for all our partners to address any kind of need in relation with our business.

(iv) Research services

Our research setup consists of a team of 32 members with a combined experience of over 300 years, spread across 4 verticals – fundamental, technical, market strategy and economy, and trading (long/short). Between them, these

verticals are constantly churning out investment ideas through a variety of reports. These include initiating coverage reports, quarterly result updates, thematic reports, market strategy reports, sector reports, and chart-watchers, among others. The fundamental team has an expansive coverage of about 70 stocks with a focus on small and midcaps, which serve as the ideal breeding ground for potential multibaggers.

The fundamental research is complemented by our dedicated economy team that identifies and reports the broader economic trends as they emerge and formulates market strategies that assist investors in capitalizing on our fundamental calls. To cap it all off as a one-stop research shop, our technical and trading teams provide the ideal solutions for investors who are more short term oriented. The research desk also has a strong relationship with over 120 corporates, which allows clients to gain extensive corporate access.

Over and above the continuous interactions that we have with these corporates throughout the year, we also leverage these relationships to host annual conferences such as our flagship emerging ideas conference as well as sectoral conferences, wherein we invite management teams from across our coverage universe for interaction with our clients.

(v) Investor Education

Our approach is to educate our clients on the benefits of investing in various instruments and asset classes as well as keep them informed about various market trends and key economic developments. We use different channels to reach out to our customers like email, sms, whatsapp, edelweiss mobile trader app notifications, inapp notificationas, web push notifications, voice blast and rich messaging services as well. We also educate our existing and prospective clients through articles and videos published on our website.

Webinars are organized wherein industry experts and our internal research team seniors are invited to provide their perspective on how to invest in order to maintain a well balanced portfolio and achieve financial goals.We keep our customers informed about various regulatory developments and guidelines relating to their account. Apart from that, we also send regular communications related to various enhanced processes and best operating practices. Through our investor edcuation efforts, we not only intend to educate our existing and prosepctive new clients on the various financial and economic concepts but also on benefits of investing at large.

B. Distribution of financial products

Our distribution business primarily consists of the distribution of financial products and services offered by third parties to our customers. These products include mutual funds, insurance products, portfolio management schemes, alternative investment funds, structured products, IPOs, fixed deposits, non-convertible debentures among others. We earn commissions from third parties for the distribution of their products, which may be in the form of recurring commissions for longer-term products.

(i) Products

Some of the key third-party products that we distribute are:

a) Mutual Funds

We follow an “open-source” distribution model, pursuant to which we distribute mutual funds of third parties irrespective of their affiliation or size. In Fiscal 2022, we distributed about 1,500 schemes from 40 asset management companies, providing our customers with a large selection to choose from. We also provide our customers with a range of tools and information, including ratings and historical performance, to identify the right funds to invest in. The commissions that we receive from such third-party funds are linked to the contribution to their AUM from our distribution. The assets under advice of the mutual funds distributed by us were ₹ 36,617 million, ₹ 30,086 million and ₹ 28,312 million at the end of Fiscals 2022, 2021, and 2020 respectively.

b) Life Insurance

We are registered as a corporate life insurance distribution agent (composite) with the IRDAI, and we distribute various types of life insurance policies such as term insurance, traditional plans and, unit-linked insurance plans. We currently distribute life insurance products of Edelweiss Tokio Life Insurance and HDFC Life Insurance on a non-exclusive basis. The commissions that we receive on the distribution of

these products are linked to, among other things, their premiums.

The following table shows the total policies sold and total premiums received from the distribution of life insurance policies for the period indicated:

Particulars	As of Fiscal Year, ended March 31,		
	2022	2021	2020
No. of Life Insurance Policies sold	4,352	5,863	7,331

c) General Insurance

We offer a range of general insurance products ranging from health, home, motor and travel insurance to financial protection. We currently distribute general insurance products of Edelweiss General Insurance and Star Health and Allied Insurance.

d) Others

We allow our customers to participate in IPOs, offers for sale and public bond offerings, and offer them third party corporate fixed deposits, portfolio management services, alternative investment funds, structured products among other third-party products and services. Furthermore, we have integrated our internal platforms with the third-party providers thereby ensuring smooth purchase of these products for the clients.

(ii) Distribution Network

a) Physical Distribution Network

We also have a physical distribution network to drive sales and provide support, and generally supplement our electronic platform. As of March 31, 2022, we had over 71 branches in over 57 cities in India. We intend to expand our physical distribution network in Tier-II and Tier-III cities to expand our pan India footprint and increase the mind share and wallet share of our prospective clients.

b) Relationship Managers

We believe that our entrepreneurial and collaborative work culture is one of the critical factors for the success of our business. Our relationship managers cater to our affluent customers who require the help of relationship managers for portfolio management. As of March 31, 2022, we had over 950 relationship managers spread across our branches who meet clients, understand their requirements and assist them with managing their investments in our products and services. The career development of the relationship managers is elaborated below:

- An employee joins as a Preferred Relationship Manager
- As the Relationship Manager gains experience in our business, they get promoted to Privileged and Senior Privileged Relationship Managers who also mentor and guide newer Relationship Managers in building their businesses.
- As they grow in their roles, they enter into supervisory roles wherein they head a location/unit/branch and become responsible for reporting and administrative work related to that location.

c) Partner Channel

We have a vast network of over 23,000 partners with a large pan India geographical presence. The wide geographical presence of our partner network has helped us to acquire clients and well as to meet with the specific needs and preferences of individuals which vary from region to region and state to state. Our wide geographical network has also enabled us to tailor our offering to the evolving needs of our clients. We have a revenue-sharing system in place that has been established pursuant to agreements required by the relevant regulations.

C. ESOP funding

ESOPs are Employee Stock Option Plans under which employees receive the right to purchase a certain number of shares in the company at a predetermined price, as a reward for their performance and also as motivation for employees to keep increasing their performance. Employees typically have to wait for a certain duration known as vesting period before they can exercise the right to purchase the shares. The main aim of giving such a plan to its employees is to give shares of the company to its employees at a discounted price to the market price at the time of exercise. ESOP funding is a mechanism of providing financing assistance to employees of partnered corporates to exercise their ESOPs.

As at March 31, 2022, total loans outstanding under our ESOP funding business amounts to ₹ 4,455.90 million. Loans granted under ESOP Funding policy are up to a maximum repayment tenure of 12 months (which can be extended as per the respective agreements). The yield in our ESOP funding business, was 6.60% for the fiscal year March 31, 2022.

(a) ESOP Funding Policy and Process:

To avail such funding, corporate employees are required to have a demat account with any existing depository participant or open a trading and demat account with our Company. ESOP funding is provided only to corporate employees for exercising ESOPs.

The funds raised by our company by issuing market linked debentures and commercial papers are utilized towards the ESOP funding.

Funding through EBL is done basis SEBI (informal Guidance) Scheme 2003, as amended: - Interpretation of Regulation 9 (1) (2) of SEBI (Share Based Employee Benefit) Regulations, 2014.

- **Corporate Onboarding**

Corporate entities for ESOP funding are onboarded after obtaining necessary internal approvals. Our Company has relationships with some of India's largest companies to provide loans to their employees to assist them in exercising their Employee Stock Options (ESOPs). Our key corporates are Reliance, HDFC Bank, HDFC Ltd, HDFC Life, Axis Bank, ICICI Bank, Lupin, IndusInd Bank, PolicyBazaar, Medplus and Devyani International**.** As of March 31, 2022, we have such relationships over 160 corporates.

- **Initial Disbursement**

Post the onboarding of a corporate entity, its employees are eligible for obtaining loans to exercise their ESOPs. Our relationship manger obtains client wise details from corporate for their funding requirement which includes employee's documents', eligible ESOPs, quantity to be exercised with Grant price and perquisite tax. Basis the employee's document a sanction limit and loan amount are ascertained, and funding is initiated based on the request of corporate employee.

- **Finsmart System**

Finsmart is our loan management system which inter alia facilitates client onboarding, risk assessment, risk management, collateral management, loan disbursement, loan repayment and interest calculation. Our Financing team prepares a funding memo which is then uploaded on Finsmart. End to end process is subsequently managed on Finsmart system.

- **Security**

Majority of the collateral for ESOP funding will be corporate security. Clients can pledge other approved security as margin. In case client has free drawing power / margin, corporate shares can be unpledged only if there is sufficient margin against corporate shares post release of same.

- **Evaluation and Approval Process, Credit Appraisal**

We evaluate detailed KYC requirements while onboarding the client for loan along with AML, world check, SEBI, RBI board list etc. For credit appraisal, we fetch credit score from 4 bureaus based on our credit policy. We then decide the sanction limit and list of the financial documents will be required.

- **Disbursement monitoring, Collection and Recovery**

Disbursement is carried out basis disbursement memo. We have workflow-based disbursement process which includes raising request, risk approval, fund transfer and accounting. As part of loan monitoring, we have system driven algorithms supported by Risk team which helps keeping an eye on the market scenarios. In case customer is not able to repay the loan amount, they sell their securities to cover the loan.

D. Margin Trade Financing Facility

We provide margin trading facility to our clients to enable them to leverage their eligible collaterals, by funding their requirements in the cash delivery segment of equities. Such funding is subject to exposure against margins, which are mandated by the Stock Exchanges, with the margin money and underlying securities forming part of the collateral, for such funding. We provide margin funding for up to 75% of the purchase value by the client on approved stocks as per extant guidelines. Securities purchased by clients, against the margin funding facility availed from us, are retained in the client margin funding account of our Company, maintained specifically for the purpose of margin trading. Margin calls are made if there is a shortfall of margin as per the exchange rules defined for Margin Trading Facility, in the margin funded portfolio, for which margins are required to be replenished immediately by transferring funds or collateralizing additional eligible securities. In order to avail margin trading facility services, our clients are required to provide their consent along with a power of attorney in our favour to operate their demat accounts.

All KYC checks are conducted at the time on on-boarding clients and periodically after clients being on-boarded. This ensures that no suspicious client is on-boarded on our platform. Margin funding facility is offered only in select stocks which meets risk criteria to ensure that our Company has timely exit in case of client not providing margin top-up. A dedicated risk team monitors client position on real-time basis and takes risk action (liquidation of position and collateral) in-line with risk policy and framework so as to ensure that our Company does not go out of pocket for any client. In a rare event where our Company is not able to recover entire client outstanding through sale of collateral, we may initiate legal proceedings against the client for recovery.

Margin trading facility (net of ECL) has increased from ₹ 2,462.69 million as of Fiscal ended March 31, 2021 to ₹ 5,424.35 million as of Fiscal ended March 31, 2022. This funding is exclusive to our broking clients only, who intend to leverage their collaterals to participate further in the markets. As of March 31, 2022, our margin trading facility book was spread over 6,730 clients.

Risk Management and Compliance

Risk management forms an integral part of our business, and we recognize the importance of risk management towards our long-term success. We have established strong and effective system for risk management and internal controls which promotes stability in our organization. The objective of our risk management framework is to ensure that various risks are identified, measured and mitigated and also that policies, procedures and standards are established to address these risks and to ensure a systematic response in the case of crystallization of such risks.

We have classified the key risks associated with our business into market risk, liquidity risk, compliance risk, default by client and other risk including credit risk, operational risk and information technology risk. We have established a comprehensive risk policy for all our business segments. Our various policies framed for each business segment set forth the limits, mitigation strategies and internal controls to be implemented. Our risk policy for Securities Broking business covers: (a) Margin Policy; (b) Trading products and its risk parameters; (c) Pre trade checks; (d) Risk monitoring and liquidation thresholds. Other risk policies include a policy on SEBI margin trading facility, expected credit loss policy/ provisioning policy, client securities liquidation policy, ESOP risk policy, corporate risk and investment policy, an operational risk management policy, an outsourcing policy, a fraud risk management policy, an information technology risk management policy, an information security management policy and a surveillance policy. Please see also "*Risk Factors — If we fail to identify, monitor and manage risks and effectively implement our risk management policies, it could have a material adverse effect on our business, financial condition, results of operations and cash flows" on page 32.*

We have also constituted a Risk Management Committee comprising of (i) Mr. Rahul Jain – Managing Director & CEO, (ii) Mr. Ashish Kehair – Non-executive Director and Mr. Birendra Kumar – Independent Director, which frames and reviews risk management processes and controls.

Compliance

The Company, through the internal Compliance Committee, oversees the compliance framework. We have formulated various policies and procedures related to internal compliance, including a code of business conduct and ethics, a code of conduct for the prevention of insider trading, an anti-bribery and anti-corruption policy, an anti-money laundering policy and a whistleblower policy. These policies help ensure compliance with relevant laws and applicable regulatory guidelines issued by the relevant regulatory, statutory and enforcement authorities from time to time, including our branches. We have a standard process of identifying and addressing compliance risks and regularly review our policies and procedures related to internal compliance.

Customer Support

We support our retail customers in various ways, including through call centers, e-mail, branches and comprehensive self-support tools on our website. We are in the process of launching a chatbot on our online broking platform to assist our customers with frequently asked questions. We have also introduced a "Request-a-Call" feature where we assist our customers over the phone by proactively calling them at their preferred time. Our two-step identity verification process ensures a swift and secure customer experience.

We have set up an independent team to monitor the quality of our customer support and review their findings. We also solicit feedback from our customers through calls and satisfaction surveys. We have put in place an internal complaint management system and have had complaint rates (number of complaints received by the BSE and NSE per customer that has traded during the period) of 0.10%, 0.16%, 0.09%, for fiscal 2022, fiscal 2021 and fiscal 2020 respectively.

Competition

We compete, directly or indirectly, with various companies in the financial services industry, including Indian and foreign brokers, discount brokers, public and private sector commercial banks, insurance companies, non-banking financial institutions and asset managers.

Legal and Regulatory Matters

We are subject to various legal and regulatory proceedings. We are also subject, from time to time, to inquiries and investigations, some of which may in the future result in financial penalties being imposed or proceedings being instituted against us. Please see section titled "*Risk Factors*" and "*Outstanding Litigations*" on page 16 and 168 respectively.

Employees

As of March 31, 2022, we employed 1,971 employees. Each of our businesses are led by senior executives who are generally, also responsible for certain organisational functions at the group level. Our senior managers have diverse experience in various financial services and functions related to our business. We have instituted training and mentorship programs for our junior and mid-management employees, and we intend to continue investing in recruiting, training and maintaining a rewarding work environment. In addition to ongoing on-the- job training, we provide employees with courses in specific areas as required. We will continue to attract talented employees through our recruitment and retention initiatives.

To create a sense of ownership among and as a long-term incentive to our employees, ESL has adopted ESOP Schemes to issue options convertible into Equity Shares to select employees linked to their performance.

ESL, the holding company of our Company has instituted the Edelweiss Securities Limited - Employee Stock Option Plan, 2021 ("ESOP 2021") pursuant to a special resolution dated October 23, 2021 in an Extraordinary General Meeting of its members. Under ESOP 2021, ESL can grant employee stock options to the employees of the company, its subsidiary companies and its Holding Company within or outside India, and any successor company thereof which are exercisable into not more than 26,10,636 Equity Shares of ₹ 10 each of ESL. The eligibility and number of options to be granted to an employee is determined on the basis of criteria laid down in the ESOP 2021 and is approved by the Compensation Committee of ESL.

The options granted shall vest on the eligible employees of our Company as determined in accordance with ESOP 2021, in accordance with the vesting schedule determined by the Compensation Committee from time to time and can be exercised within a period not less than 1 year and not later than 8 years from the date of grant. The ESOP 2021 shall continue to be in force until its termination by the Board or the Compensation Committee of ESL.

Please refer below for the details of ESOP 2021 granted to the employees of the Company as on March 31, 2022:

REGULATIONS AND POLICIES

Given below is a summary of certain sector specific laws and regulations in India, which are applicable to us. The information detailed in this chapter has been obtained from various statutes, regulations and/or local legislations and the bye laws of relevant authorities that are available in the public domain. This description may not be exhaustive and is only intended to provide general information to investors, and is neither designed, nor intended as a substitute for professional legal advice.

The statements below are based on the current provisions of Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

SEBI Act

The main legislation governing the activities in relation to the securities markets in India is the SEBI Act and the rules, regulations and notifications framed thereunder. The SEBI Act was enacted to provide for the establishment of SEBI whose function is to protect the interests of investors and to promote the development of, and to regulate, the securities market. The SEBI Act also provides for the registration and regulation of the function of various market intermediaries including stockbrokers, depository participants, merchant bankers, portfolio managers, investment advisers, and research analysts. Pursuant to the SEBI Act, SEBI has formulated various rules and regulations to govern the functions and working of these intermediaries. SEBI also issues various circulars, notifications and guidelines from time to time in accordance with the powers vested with it under the SEBI Act. SEBI has the power to impose (i) monetary penalty under the SEBI Act and the regulations made thereunder, and (ii) penalties prescribed under various regulations, including suspending or cancelling the certificate of registration of an intermediary and initiating prosecution under the SEBI Act. Further, SEBI has the power to conduct inspection of all intermediaries in the securities market, including, stockbrokers, investment advisers, merchant bankers, underwriters, research analysts, to ensure, amongst others, that the books of account are maintained in the manner required in accordance with applicable law.

In addition to the SEBI Act, the key activities of our Company are also governed by the following acts, rules, regulations, notifications and circulars:

SEBI (Listing Obligations and Disclosure Requirements), 2015, as amended from time to time, list out the continuous disclosure obligations of a listed entity for securing transparency in process and ethical capital market dealings.

Securities Contracts (Regulation) Act, 1956

The SCRA was enacted to prevent undesirable transactions in securities by regulating the business of dealing in securities, by providing for certain matters connected therewith. The SCRA provides, amongst other things, the definition of 'securities', the manner and procedure for recognition of stock exchanges, and provides recognised stock exchanges the powers to make bye laws for regulation and control of contracts for, or relating to, the purchase or sale of securities.

Securities Contracts (Regulation) Rules, 1957

The SCRR provides, among other things, the requirements with respect to listing of securities on a recognised stock exchange, the manner of submitting applications for recognition of stock exchanges, and the qualifications for membership of a recognised stock exchange. It also empowers SEBI to appoint persons to inspect the books of accounts and other documents to be maintained and preserved by every member of a recognised stock exchange, in terms of these rules.

SEBI (Stockbrokers and Sub-Brokers) Regulations, 1992

The SEBI (Stockbrokers and Sub-Brokers) Regulations, 1992 ("**SEBI Stock Brokers Regulations**") provide that no person shall act as stock broker or clearing member unless he holds a certificate granted by SEBI under these regulations. The SEBI Stockbrokers Regulations, lay down, amongst other things, the eligibility criteria, the conditions for grant of certificate to a stock broker or clearing member and their general obligations and responsibilities. Further, every stockbroker or clearing member is required to abide by the code of conduct as specified under the SEBI Stock Brokers Regulations.

Pursuant to the SEBI circular dated August 3, 2018, SEBI decided to discontinue with sub-brokers as intermediaries to be registered with SEBI. Accordingly, no fresh registration has been granted to any person to act as a sub-broker and all

registered sub-brokers were given time until March 31, 2019, to migrate to act as an 'Authorised Person' and/or a trading member. A sub-broker who failed to migrate to act as an 'Authorised Person' and/or a trading member was deemed to have surrendered their registration with SEBI as a sub-broker with effect from March 31, 2019. Upon the successful migration from a sub-broker to an 'Authorised Person', the certificate of registration as a sub-broker granted by SEBI stands withdrawn.

Stock Exchange Rules, Regulation, Bye laws and Notices issued from time to time

Being a trading and clearing member of BSE, NSE, Multi Commodity Exchange, National Commodity and Derivative Exchange, and Metropolitan Stock Exchange, we are governed by the rules and regulations, bye laws and notices of such exchanges, as amended from time to time. The relevant exchange is empowered under the SCRA to make its own bye laws and rules to deal with its members and regulations to govern/ regulate the relations between the members and the constituents. Further, the SEBI Master Circular dated July 5, 2021 ("**July Circular**") regarding stock exchanges and clearing corporations, is a compilation of all the existing/applicable circulars issued by the Market Regulation Department of SEBI to stock exchanges and clearing corporations. The July Circular comprises of regulations on trading, settlement mechanism, and administration of stock exchanges and clearing corporations, among others. The July Circular supersedes the SEBI Master Circular dated October 25, 2019.

SEBI (Investment Advisers) Regulations, 2013

The Securities and Exchange Board of India (Investment Advisers) Regulations, 2013, as amended ("**Investment Advisers Regulations**") govern the law pertaining to registration and regulation of the working of investment advisers. An investment adviser is a person, who for consideration, is engaged in the business of providing investment advice to clients and includes any person who holds out himself as an investment adviser. In terms of the Investment Advisers Regulations, an investment advice means an advice relating to investing in, purchasing, selling or otherwise dealing in securities or investment products, and advice on investment portfolio containing securities or investment products, whether written, oral or through any other means of communication for the benefit of the client and shall include financial planning. Investment advice given through newspaper, magazines, any electronic or broadcasting or telecommunications medium, which is widely available to the public is not considered as investment advice. "Financial planning" includes analysis of clients' current financial situation, identification of their financial goals, and developing and recommending financial strategies to realize such goals. The Investment Advisers Regulations lay down, amongst other things, the obligations and responsibilities of investment advisers including (a) not receiving any consideration by way of remuneration or compensation or in any other form from any person other than the client being advised, in respect of the underlying products or securities for which advice is provided, (b) acting in a fiduciary capacity towards its clients and disclosing conflicts of interests as and when they arise (c) maintaining an arms-length relationship between its activities as an investment adviser and other activities, (d) ensuring that its investment advisory services are clearly segregated from all its other activities, I ensuring that in case of any conflict of interest of the investment advisory activities with other activities, such conflict of interest is disclosed to the client, (f) not divulging any confidential information about its client, which has come to its knowledge, without taking prior permission of its clients except where such disclosures are required to be made in compliance with any law for the time being in force, and (g) maintaining the records prescribed under the Investment Advisers Regulations. An investment adviser shall not act on its own account, knowingly to sell securities or investment products to or purchase securities or investment product from a client. In case of change in control of the investment adviser prior approval from SEBI is required to be taken.

The Investment Advisers Regulations stipulate liability for action in case of default by an investment adviser, which include (a) failure to furnish any information relating to its activity as an investment adviser as required by SEBI; (b) furnishment of false or misleading information to SEBI in any material particular; (c) failure to submit periodic returns or reports as required by SEBI; (d) non co-operation in any enquiry, inspection or investigation conducted by SEBI; I failure to resolve the complaints of investors or failure to give a satisfactory reply to SEBI in this behalf; or (f) contravention of any provisions of the SEBI Act or any regulations or circulars issued thereunder.

As per the current provisions of the Investment Advisers Regulations, a distributor of mutual funds who is a member of the Association of Mutual Funds in India ("**AMFI**") and is providing any investment advice to its clients which is incidental to its primary activity is exempted from being registered as an investment adviser under the Investment Advisers Regulations. SEBI has in their frequently asked questions also clarified that mutual fund distributors registered with AMFI can only provide basic advice to its mutual funds' clients incidental to its distribution activity. Incidental activities with respect to distribution of mutual funds means providing basic advice pertaining to investment in mutual fund schemes limited to such schemes / products being distributed by the distributor to its clients/ investors or any other mutual fund product. SEBI has also clarified that if a distributor of mutual fund is engaged in providing investment advice to general investors other than or in addition to its mutual fund clients, and in securities (such as shares, debentures,

bonds, derivatives, securitized instruments, structured products, units of AIF, real estate investment trusts, infrastructure investment trusts, etc.) other than or in addition to mutual fund schemes distributed by him, then such distributor is required to get registration as an investment adviser.

SEBI has however, from time to time, issued Consultation Papers setting out proposals to amend the Investment Advisers Regulations. To effectuate certain proposals suggested by SEBI in its Consultation Paper on Review of Regulatory Framework for Investment Advisers, dated January 15, 2020, SEBI enacted certain amendments to the Investment Advisers Regulations which have come into force from September 30, 2020, which include, amongst other things, client level segregation at group level for investment advisory and distribution services, fees to be charged to clients, increase in minimum net-worth requirements of investment advisers and a prohibition on charging implementation fee by investment advisers. The current Investment Advisers Regulations requires client level segregation at group level for investment advisory and distribution services wherein the same client cannot be offered both advisory and distribution services within the group of the non- individual investment adviser. A client can either be an advisory client where no distributor consideration is received at the group level or distribution services client where no advisory fee is collected from the client at the group level. A non-individual investment adviser is required to maintain an arm's length relationship between its activities as investment adviser and distributor by providing advisory services through a separately identifiable department or division. While an investment adviser is permitted to provide implementation services to the advisory clients only through direct schemes/ products in securities market, an investment adviser is not permitted to charge any implementation fees from the client. Further the investment adviser is required to ensure that no consideration including any commission or referral fees, whether embedded or indirect or otherwise, by whatever name called is received, directly or indirectly, at investment adviser's group or family level for the said implementation service.

Our Company will be required to comply with any directions issued by SEBI in the future and/or any amendments that may be made to the Investment Advisers Regulations.

SEBI Mutual Funds Regulations and AMFI Guidelines

The SEBI (Mutual Funds) Regulations, 1996, as amended ("**SEBI Mutual Funds Regulations**") govern the law pertaining to the business of mutual funds in India. SEBI has made it mandatory for all mutual funds to appoint agents/distributors who are registered with Association of Mutual Funds in India ("**AMFI**"). In case of firms/companies, the requirement of certification from National Institute of Securities Markets is made applicable to the persons engaged in sales or distribution of mutual fund products.

AMFI has issued guidelines for intermediaries ("**AMFI Guidelines**") in consonance with the SEBI Master Circular for Mutual Funds dated August 24, 2020. The primary objective of the AMFI Guidelines is to ensure that mutual fund intermediaries do not use unethical means to sell, market or induce any investor to buy units of their scheme(s) and mobilize funds on the strength of professional fund management and good practices. The AMFI Guidelines are mandatory, and all such intermediaries are required to strictly comply with the code of conduct prescribed by AMFI.

SEBI by way of its circulars no. CIR No.10 / 310 /01 dated September 25, 2001, MFD/CIR/20/23230/2002 dated November 28, 2002, SEBI/MFD/CIR No.01/6693/03 dated April 3, 2003, SEBI/IMD/CIR No.2/254/04 dated February 4, 2004 and Cir / IMD / DF / 5 / 2010 dated June 24, 2010, has amongst others directed that (a) agents/ distributors of mutual fund units are required to obtain certification from the National Institute of Securities Markets ("NISM") and registration from AMFI, (b) AMFI shall create a unique identity number of the employee/ relationship manager/ sales person of the distributor interacting with the investor for the sale of mutual fund products, in addition to the AMFI Registration Number ("ARN") of the distributor.

SEBI by way of its circular no MFD/CIR/ 06/210/2002 dated June 26, 2002, provided that all distributors and agents of mutual funds units are required to follow the code of conduct for intermediaries of mutual funds provided therein.

SEBI by way of circular no. SEBI/IMD/DF/13/2011 dated August 22, 2011, has provided guidance on due diligence process to be conducted by AMCs on certain categories of distributors

SEBI by way of its circular on "Facilitating transaction in mutual fund schemes through the stock exchange infrastructure" bearing reference number CIR/IMD/DSA/32/2013 dated October 4, 2013, has permitted a mutual fund distributor registered with the Association of Mutual Funds in India ("AMFI") and who has been permitted by BSE to be eligible to use the stock exchanges' infrastructure, to purchase and redeem mutual fund units directly from mutual fund and asset management companies (AMC), in addition to the existing channels of mutual funds distribution. The recognized stock exchange shall grant permission to a mutual fund distributor on a request made by a AMFI registered

mutual fund distributor on the basis of criteria including fee, code of conduct as laid down by AMFI. Additionally, it clarified that a mutual fund distributor shall not handle payout and pay in of funds as well as units on behalf of investors. The recognized stock exchange shall put necessary system in place to ensure that pay in will be directly received by recognized clearing corporation and payout will be directly made to investor account. In the same manner, units shall be credited and debited directly from the demit account of investors. SEBI has also by way of its circulars bearing reference no. SEBI/HO/MRD/DSA/CIR/P/2016/113 dated October 19, 2016 and SEBI/HO/MRD1/DSAP/CIR/P/2020/29 dated February 26, 2020, permitted (a) investment advisers registered with SEBI to use infrastructure of the recognized stock exchanges to purchase and redeem mutual fund units directly from mutual fund and AMCs, on behalf of their clients, including direct plans; and (b) investors to directly access infrastructure of the recognized stock exchanges to purchase and redeem mutual fund units directly from mutual fund and AMCs.

SEBI by its circular on "Categorization and Rationalization of Mutual Fund Schemes", bearing reference number SEBI/HO/IMD/DF3/CIR/P/2017/114 dated October 6, 2017 ("SEBI Circular") has specified the framework for categorization and rationalization of mutual fund schemes. This circular is applicable to the open-ended schemes of the mutual funds, which are either existing, or are in the process of being launched, or draft of the scheme document has been filed/ will be filed with SEBI. Pursuant to the SEBI Circular the mutual fund schemes are classified under five groups, namely, equity schemes, debt schemes, hybrid schemes, solution-oriented schemes and other schemes. These five groups collectively have 36 different categories of each of these schemes under them, details of which are provided in the SEBI Circular. Further, the investment objective, investment strategy and benchmark of each existing scheme, is required to be suitably modified to be aligned with these classifications.

In relation to investment universe for the equity schemes, the SEBI Circular has defined large cap, mid cap and small cap companies in terms of full market capitalization, as: (a) large cap to be in the range of 1st-100th; (b) mid cap falling under 101st-250th; and (c) small cap to be a company which is 251st onwards. In this regard, mutual funds will be required to adopt the list of stocks prepared by AMFI and in the event of any updation thereto, mutual funds will have to rebalance their portfolios as per the updated list, within a period of one month thereof. Further, SEBI by its circular on "Asset Allocation of Multi Cap Funds", bearing reference number SEBI/HO/IMD/DF3/CIR/P/2020/172, dated September 11, 2020, has partially modified the scheme characteristics of multi cap funds, such that requirement for minimum investment in equity and equity related instruments has been increased from 65 per cent. To 75 per cent. Of the total assets, with minimum investment of 25 per cent. Of the respective total assets in equity and equity related instruments of large cap, mid cap and small cap companies, each. Further, SEBI by its circular on "Introduction of "Flexi Cap Fund" as a new category under Equity Schemes", bearing reference number SEBI/HO/IMD/DF3/CIR/P/2020/228, dated November 6, 2020, has introduced a new category of scheme named "Flexi Cap Fund" under equity schemes which requires to make a minimum investment in equity and equity related instruments of 65% of total assets of the scheme and will be an open-ended dynamic equity scheme investing across large cap, mid cap, small cap stocks.

SEBI by its circular on "Total Expense Ratio (TER) and Performance Disclosure for Mutual Funds" bearing reference number SEBI/HO/IMD/DF2/CIR/P/2018/137, dated October 22, 2018 provided that all scheme related expenses including commission paid to distributors is required to necessarily be paid from the scheme only within the regulatory limits and not from the books of the AMC, its associate, sponsor, trustee or any other entity through any route and that the AMCs should adopt full trail model of commission in all schemes without payment of any upfront commission to mutual fund distributors. Further, SEBI by its circular on "Review of Commission, Expenses, Disclosure norms etc. – Mutual Fund" bearing reference number SEBI/HO/IMD/DF2/CIR/P/2019/42 dated March 25, 2019, carved out for upfronting of trail commission for inflows through systematic investment plans from new investors to the mutual fund industry.

AMFI Directions

AMFI issues circulars from time to time to its members on various aspects relating to distribution of mutual fund schemes by distributors.

SEBI (Prohibition of Insider Trading) Regulations, 2015

The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015, as amended, ("Insider Trading Regulations") prohibits subscribing, buying, selling, dealing, or agreeing to subscribe, buy, sell, or deal in any securities by an insider on the basis of having possession or access to the unpublished price sensitive information ("UPSI") of a listed entity. An insider is a person who is connected with the company and is reasonably expected to have certain price sensitive information in respect of the securities of the company or has received or has access to certain UPSI. In accordance with the Insider Trading Regulations, no insider shall communicate, provide, or allow access to any UPSI, relating to a company or securities listed or proposed to be listed, to any person. Any information is referred to as

price sensitive information if it is likely to materially affect the price of the securities of the company to which it relates. The Insider Trading Regulations essentially prescribes a model code of conduct to be followed by all companies and organizations associated with the securities markets. Under the Insider Trading Regulations, all listed companies and organizations associated with the securities market including, amongst other, intermediaries as defined under the SEBI Act, AMCs, trustees of mutual funds are under an obligation to formulate certain internal procedures and conduct following the model code of conduct as provided under the Insider Trading Regulations, by adopting the minimum standards set out in the relevant schedules and will further abide with the code of corporate disclosure practices.

Through amendments issued on December 31, 2018, and July 17, 2020 (the "Amendments") SEBI has provided for stricter norms pursuant to the report of the Committee on Fair Market Conduct. In terms of the Amendments, every listed or proposed to be listed company is required to maintain a digital database containing the names of all persons with whom UPSI is shared, names of all persons who have shared UPSI and the nature of UPSI. A "proposed to be listed company" includes securities of an unlisted company, (i) if such unlisted company has filed offer documents or other documents, as the case may be, with SEBI, stock exchange(s) or registrar of companies in connection with the listing; or (ii) if such unlisted company is getting listed pursuant to any merger or amalgamation and has filed a copy of such scheme of merger or amalgamation under the Companies Act, 2013. The board of directors of a listed company is required to make a policy for determination of 'legitimate purposes' as a part of the Code of Fair Disclosures and Conduct. The Amendments have permitted the sharing of UPSI in the ordinary course of business with an indicative list of persons, provided that such information has not been shared to evade or circumvent the provisions of the Insider Trading Regulations.

SEBI (Research Analysts) Regulations, 2014

The SEBI (Research Analysts) Regulations, 2014 provide that no person shall act or hold itself out as a research analyst or a research entity unless such person holds a certificate granted by SEBI under these regulations. The SEBI Research Analysts Regulations, lay down, amongst other things, the eligibility criteria, conditions for grant of certificate to research analyst and its general obligations and responsibilities. Further, every research analyst is required to abide by the code of conduct as specified under these regulations.

SEBI (Intermediaries) Regulations, 2008

The Securities and Exchange Board of India (Intermediaries) Regulations, 2008, as amended ("Intermediaries Regulations") regulates intermediaries which include stockbroker, sub-broker, share transfer agent, merchant banker, portfolio manager, a trading member of a derivative segment or currency derivatives segment of a stock exchange. The Intermediaries Regulations prescribe the criteria for determining whether an applicant or the intermediary is a 'fit and proper person' for the purposes of registrations granted by SEBI under various regulations issued by SEBI.

The Intermediaries Regulations empower SEBI to take actions against persons who have been granted a certificate of registration and have failed to comply with any conditions subject to which a certificate of registration has been granted to him or contravenes any of the provisions of the securities laws or directions, instructions or circulars issued thereunder. The actions include (a) disposing of the proceedings without any adverse action, (b) suspension of certificate of registration for a specified period, (c) cancellation of certificate of registration, (d) prohibition of taking up new assignment or contract or launch a new scheme for a specified period, I debarment of a branch or an office from carrying out activities or an officer from being employed or associated with any registered intermediary or other registered person for the period specified in the order, or (f) issuance of a regulatory censure to the notice. Further the Intermediaries Regulations provide for special procedure for action on expulsion from membership of the stock exchange(s) or clearing corporation(s) or termination of all the depository participant agreements with depository(ies).

Pursuant to the SEBI (Regulatory Sandbox) (Amendment) Regulations, 2020, SEBI may exempt any person or class of persons from the operation of all or any of the provisions of these regulations for a period as may be specified but not exceeding 12 months, for furthering innovation relating to testing new products, processes, services, business models, etc. in live environment of regulatory sandbox in the securities markets. Under this regulatory sandbox framework, entities regulated by SEBI shall be granted certain facilities and flexibilities to experiment with fintech solutions in a live environment and on limited set of customers for a limited time frame. These features shall be fortified with necessary safeguards for investor protection and risk mitigation.

SEBI (Certification of Associated Persons in the Securities Markets) Regulations, 2007

The SEBI (Certification of Associated Persons in the Securities Markets) Regulations, 2007, as amended ("**SEBI Certification of Associated Persons Regulations**") provide that any category of associated persons (as defined in terms of these regulations) may be required to obtain the requisite certifications for engagement or employment with

intermediaries by SEBI. Through several notifications, SEBI has required approved users and sales personnel of trading members in currency derivative and equity derivative segments, distributors of mutual fund products, key managerial personnel of merchant bankers, compliance officers of intermediaries, research analysts and certain persons associated with stockbrokers, trading members or clearing members to obtain the prescribed certification from National Institute of Securities Markets.

SEBI (Depositories and Participants) Regulations, 2018

The SEBI (Depositories and Participants) Regulations, 2018 ("**Depositories Regulations**") provide, amongst other things, the manner of application for registration as a depository and a participant with SEBI. It provides the criteria for determining "fit and proper person" for the purposes of being considered as a depository. Further, the Depositories Regulations provide for the prescribed equity shareholding of a sponsor, a person or a participant in the capital of the depository. All depositories that have been granted a certificate of registration, are required to make an application to SEBI for commencement of business. The SEBI Depositories and Participants Regulations provide for rights and obligations of depositories, participants, issuers, manner of surrender of certificate and creation of pledge. It further prescribes the mechanism for investor protection, evaluation of internal systems, manner for handling share registry work and liability of a participant or a depository in case of default.

RBI Act, 1934

The RBI Act, 1934, as amended ("**RBI Act**") provides for registration criteria for a non-banking financial company. Further, it provides for a specific maintenance of percentage of assets by every non-banking financial company and creation of a reserve fund. The Reserve Bank of India Act regulates the issue of a prospectus or advertisement soliciting deposits of money from the public by any non-banking financial corporation. It lays down the powers and duties of an auditor to ensure non-banking financial company furnishes all statements, information and particulars as required by law. RBI has the power to file winding up petition against a non-banking financial company and impose appropriate penalties in cases of failure of registration of a non-banking financial company.

SEBI Intermediaries Circular on Conflicts

The SEBI Intermediaries Circular on Conflicts prescribes comprehensive guidelines to intermediaries and their associated persons for elimination of conflicts of interest. It prescribes guidelines for avoiding, dealing with, or managing, conflict of interest, including, developing internal procedures, maintaining high standards of integrity in conduct of business and developing an internal code of conduct to govern operations, appropriately disclosing potential sources or areas of conflict to clients and formulating standards of appropriate conduct in performance of their activities, which are in addition to the codes of conduct prescribed under relevant regulations governing intermediaries.

Prevention of Money Laundering Act, 2002

The Prevention of Money Laundering Act, 2002 ("**PMLA**") was enacted to prevent money laundering and to provide for confiscation of property derived from, or involved in money laundering, and for incidental matters connected therewith. Section 12 of PMLA casts certain obligations on, inter alia, banking companies in relation to preservation and reporting of customer account information. The RBI has advised all banks to go through the provisions of PMLA and the rules notified thereunder and to take all steps considered necessary to ensure compliance with the requirements of section 12 of PMLA.

PFRDA (Point of Presence) Regulations, 2015

PFRDA, in order to regulate and encourage an independent, strong and effective distribution channel for National Pension System, has framed PFRDA (Point of Presence) Regulations ("**POP Regulations**"). The POP Regulations, *inter alia* provide, the eligibility and procedure for obtaining the certificate of registration to carry on business as point of presence. Further, every point of presence is required to adhere to a code of conduct prescribed under the POP Regulations. PFRDA has powers to conduct inspection of point of presence to, ensure, amongst others, that the books of accounts are being maintained in the manner required under applicable law.

IRDAI (Registration of Corporate Agents) Regulations, 2015

Corporate agents are granted a certificate of registration by IRDAI in accordance with the IRDAI (Registration of Corporate Agents) Regulations. A corporate agent is permitted to act as a corporate agent for a maximum of three life, three general and three health insurers and is required to adopt a board policy on the same. The corporate agents are

required to adhere to a code of conduct on soliciting and servicing of insurance policies as prescribed by these regulations. IRDAI has the power to inspect records of corporate agents, and review performance of their activities and initiate disciplinary action, in case of deficiencies.

SEBI (Issue and Listing of Non-Convertible Securities) Regulations, 2021

The Securities and Exchange Board of India, on August 9, 2021, notified the SEBI (Issue and Listing of Non-Convertible Securities) Regulations, 2021 ("**SEBI NCS Regulations**"), thereby merging the SEBI (Issue and Listing of Debt Securities) Regulations ("**SEBI Debt Regulations**") and the SEBI (Non-Convertible Redeemable Preference Shares) Regulations, 2013 ("**NCRPS Regulations**") into a single regulation. The proposal to merge the two regulations was first introduced by way of a consultation paper released on May 19, 2021, which sought to align the extant regulations with the provisions of the Companies Act 2013, and incorporate the enhanced obligations of debenture trustees, informal guidance and provisions of circulars issued by SEBI. The SEBI NCS Regulations came in to force from the seventh day of their notification in the gazette, i.e., from August 16, 2021. The SEBI Debt Regulations and the NCRPS Regulations stand repealed from this date.

The SEBI NCS Regulations have aligned the extant regulations with the provisions of the Companies Act 2013, and incorporate the enhanced obligations of debenture trustees, informal guidance and provisions of circulars issued by SEBI. The SEBI NCS Regulations apply to: (i) the issuance and listing of debt securities and non- convertible redeemable preference shares (NCRPS) by an issuer by way of public issuance; (ii) issuance and listing of non-convertible securities by an issuer issued on private placement basis which are proposed to be listed; and (iii) listing of commercial paper issued by an issuer in compliance with the guidelines framed by the RBI.

In addition to collating the existing provisions of the erstwhile regulations, the SEBI NCS Regulations, also provide for, change in disclosure requirements for financial and other information from past five years to three years; parameters for identification of risk factors; removal of restriction of four issuances in a year through a single shelf prospectus; and filing of shelf prospectus post curing of defaults.

Other applicable laws:

In addition to the above, we are required to comply with the Companies Act, regulations notified by the SEBI, IRDAI, labour laws, various tax-related legislations, intellectual property related legislations and other applicable laws, in the ordinary course of our day-to-day operations.

Shops and establishments regulations in various states

The provisions of various Shops and Establishments legislations, as applicable, regulate the conditions of work and employment in shops and commercial establishments and generally prescribe obligations in respect of inter alia registration, opening and closing hours, daily and weekly working hours, holidays, leave, health, termination of services and safety measures and wages for overtime work.

Labour laws

India has stringent labour related legislations. Our Company is required to comply with certain labour laws, which include the Employees' Provident Funds and Miscellaneous Provisions Act 1952, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965, Workmen Compensation Act, 1923, the Payment of Gratuity Act, 1972 and the Payment of Wages Act, 1936, amongst others.

Intellectual property regulations

Intellectual Property in India enjoys protection under both common law and statute. Under statute, India provides for patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957 and trademark protection under the Trademarks Act, 1999. The above enactments provide for protection of intellectual property by imposing civil and criminal liability for infringement.

Estimation of uncertainties relating to the global health pandemic from COVID-19

FY 2021-22; FY 2020-21
The outbreak of COVID - 19 pandemic has affected several countries across the world, including India. The Government is undertaking several measures to restrict the spread of virus and provide financial support to some stressed sectors. Further, while the COVID-19 vaccination efforts have gained momentum, uncertainty due to the resurgence of COVID cases across many parts of India is rising. The extent to which COVID-19 pandemic will impact the Company, if any, depends on future spread of the virus and related developments, which are uncertain at this point of time. There has been no material change in the controls or processes followed in the closing of the reformatted financial information of the Company.

In preparing the reformatted financial information, the Company's management has view that there is no material impact of the pandemic on its operations and its assets as at March 31, 2022 and March 31, 2021.

FY 2019-20
The outbreak of COVID–19 virus continues to spread across the globe including India, resulting in significant volatility in financial markets and a significant decrease in global and India's economic activities. On March 11, 2020, this outbreak was declared a global pandemic by the World Health Organization. On March 24, 2020, the Indian Government announced a 21 days lockdown which was further extended till May 31, 2020 across the nation to contain the spread of the virus and still continues to be across many parts of the country in India. The pandemic and its consequent adverse effect on the economy also adversely impacted the financial markets.

In preparing these reformatted financial information, the Company's management had assessed the impact of the pandemic on its operations and its assets including the value of its investments as at March 31, 2020 based on estimate of the future results and various internal and external information available up to the date of approval of these reformatted financial information. The estimates as at the date of approval of these financial results may differ based on the ongoing impact of the pandemic and the timing of the improvement in the economy and the financial markets..

1.3 Presentation of Reformatted Financial information

The Company presents its reformatted statement of assets and liabilities in order of liquidity in compliance with the Division III of the Schedule III to the Companies Act, 2013. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non–current) is presented in note 36.

Financial assets and financial liabilities are generally reported gross in the reformatted statement of assets and liabilities. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Company and or its counterparties

Significant accounting policies

1.4 Recognition of interest

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost and debt instrument measured at FVOCI. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset.

The EIR is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the financial asset. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle including prepayments penalty interest and charges.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the reformatted statement of assets and liabilities with an increase or reduction in interest income.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company calculates interest income by applying the EIR to the amortised cost (net of expected credit loss) of the financial asset. If the financial assets cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

1.5 Financial Instruments

a) Date of recognition

Financial assets and financial liabilities, with the exception of borrowings are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. The Company recognises borrowings when funds are available for utilisation to the Company.

b) Initial measurement of financial instruments

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

c) Day 1 profit or loss

1.5 Financial Instruments *(Continued)*

When the transaction price of the financial instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Company recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

1.6 Classification of financial instruments

a) Financial assets:

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- Amortised cost
- Fair value through other comprehensive income [FVOCI]
- Fair value through profit or loss [FVTPL]

The Company measures financial assets that meet the following conditions at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are subsequently measured at FVTPL.

i. Amortised cost and Effective interest method:

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

1.6 Classification of financial instruments *(Continued)*

For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

ii. Investment in equity instruments

The Company subsequently measures all equity investments at fair value through profit or loss.

b) Financial liabilities:

All financial liabilities are measured at amortised cost except loan commitments, financial guarantees, and derivative financial liabilities.

c) Derivative financial instruments

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate, market risk.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss.

Debt securities and other borrowed funds

After initial measurement, debt issued and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

d) Financial assets and Financial liabilities at fair value through profit or loss

Financial assets and financial liabilities in this category are those that are not held for trading and mandatorily required to be measured at fair value under Ind AS 109.

Financial assets and financial liabilities at FVTPL are recorded in the reformatted statement of assets and liabilities at fair value. Changes in fair value are recorded in profit and loss. Interest earned or incurred on instruments designated at FVTPL is accrued in interest income or finance cost, respectively, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument. Interest earned on assets mandatorily required to be measured at FVTPL is recorded using contractual interest rate.

e) Financial liabilities and equity instruments

1.6 Classification of financial instruments *(Continued)*

Financial instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company entity are recognized at the proceeds received.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

f) Financial assets held for trading

The Company classifies financial assets as held for trading when they have been purchased primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised in net gain on fair value changes.

1.7 Derecognition of financial assets and financial liabilities

a) Derecognition of financial assets due to substantial modification of terms and conditions:

The Company derecognises a financial asset, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new financial asset, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

b) Derecognition of financial assets (other than due to substantial modification):

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition. The difference between the carrying value of the original financial asset and the consideration received would be recognised in profit or loss.

The Company has transferred the financial asset if, and only if, either:

- The Company has transferred its contractual rights to receive cash flows from the financial asset; or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass–through’ arrangement.

c) Derecognition of financial liabilities:

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires.

1.7 Derecognition of financial assets and financial liabilities *(Continued)*

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing financial liability are substantially modified, such an exchange or modification is treated as a derecognition of the original financial liability and the recognition of a new financial liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognised as new financial liability, would be recognised in profit or loss.

1.8 Reclassification of financial assets and financial liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

1.9 Impairment of financial assets

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime (Expected Credit Loss (ECL) at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables. However if receivables contain a significant financing component, the Company chooses as its accounting policy to measure the loss allowance by applying general approach to measure expected credit losses.

For ESOP funding and Receivables towards Margin Trading Funding, the Company recognises lifetime ECL when there has been a significant increase in credit risk (SICR) since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses (12m ECL). The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of an evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The measurement of ECL is a function of the probability of default (PD), loss given default (LGD) (i.e. the magnitude of the loss if there is a default) and the exposure at default (EAD). The assessment of the PD and LGD is based on historical data adjusted by forward-looking information. As for the EAD, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for loan commitments and financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

1.9 Impairment of financial assets *(Continued)*

Company categories its ESOP funding and Receivables towards Margin Trading Funding as follows:

Stage 1 assets:

Stage 1 assets includes financial instruments that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. For these assets, 12-month ECL (resulting from default events possible within 12 months from reporting date) are recognised.

Stage 2 assets:

Stage 2 Assets includes financial instruments that have had a significant increase in credit risk since initial recognition. For these assets lifetime ECL are recognised.

Stage 3 assets:

Stage 3 for Assets considered credit-impaired the Company recognises the lifetime ECL for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

For all other financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate. The Company recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

1.10 Collateral valuation

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, and letters of guarantees. Collateral, unless repossessed, is not recorded on the reformatted statement of assets and liabilities. However, the fair value of collateral affects the calculation of ECLs. It is generally assessed, at a minimum, at inception and re-assessed on a periodical basis. However, some collateral, for example, cash or securities relating to margining requirements, is valued daily.

To the extent possible, the Company uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market values are valued using models.

1.11 Collateral repossessed

The Company's policy is to determine whether a repossessed asset can be best used for its internal operations or should be sold. Assets determined to be useful for the internal operations are transferred to their relevant asset category at the lower of their repossessed value or the carrying value of the original secured asset. Assets for which selling is determined to be a better option are transferred to assets held for sale at their fair value (if financial assets) and fair value less cost to sell for non-financial assets at the repossession date in, line with the Company's policy.

1.12 Write off

Financial assets are written off either partially or in their entirety only when the Company has no reasonable expectation of recovery.

1.13 Determination of fair value

The Company measures financial instruments, such as, derivatives at fair value at each reformatted statement of assets and liabilities date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

- Level 1 financial instruments −Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the reformatted statement of assets and liabilities date.

- Level 2 financial instruments−Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

- Level 3 financial instruments −Those that include one or more unobservable input that is significant to the measurement as whole.

For assets and liabilities that are recognised in the reformatted financial information on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company periodically reviews its valuation techniques including the adopted methodologies and model calibrations. However, the base models may not fully capture all factors relevant to the valuation of the Company's financial instruments such as credit risk (CVA), own credit (DVA) and/or funding costs (FVA).

Therefore, the Company applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit

1.13 Determination of fair value (*Continued*)

risk of the individual counterparties for non-collateralised financial instruments.

The Company evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

1.14 Revenue from contract with customer

Revenue is measured at fair value of the consideration received or receivable. Revenue is recognized when (or as) the Company satisfies a performance obligation by transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset. When (or as) a performance obligation is satisfied, the Company recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation. The Company applies the five-step approach for recognition of revenue:

i) Identification of contract(s) with customers;

ii) Identification of the separate performance obligations in the contract;

iii) Determination of transaction price;

iv) Allocation of transaction price to the separate performance obligations; and

v) Recognition of revenue when (or as) each performance obligation is satisfied

The Company recognises revenue from the following sources:

a. Brokerage income on securities broking business is recognised as per contracted rates at the execution of transactions on behalf of the customers on the trade date and is reflected net of related sub-brokerage expenses, goods and service tax ("GST"), transaction charges and stock exchange expenses.

b. Fee income including advisory fees, referral fees, commission income, and transaction fees is accounted at a point in time as the customer receives and consumes the benefits.

c. Interest on delayed payments are recognised as revenue on certainty of realisation.

d. Research services fee income is accounted when there is reasonable certainty as to its receipts.

1.15 Leases

Company as a lessee:

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right of use assets representing the right to use the underlying assets.

Right of Use Asset

The Company recognizes right of use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right of use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right of use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease

1.15 Leases *(Continued)*

Right of Use Asset *(Continued)*

payments made at or before the commencement date less any lease incentives received. Right of use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if

there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate ('IBR') to measure lease liabilities. Incremental borrowing rate is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right of use asset in a similar economic environment.

Short term lease

The Company has elected not to recognise right of use asset and lease liabilities for short term leases of property that has lease term of 12 months or less (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). The Company recognises lease payment associated with these leases as an expense on a straight line basis over lease term *(refer note 31)*.

1.16 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all potential equity shares.

1.17 Foreign currency transactions

The reformatted financial information are presented in Indian Rupees which is also its functional currency. Transactions in currencies other than Indian Rupees (i.e. foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

1.18 Retirement and other employee benefit

Provident fund and national pension scheme

The Company contributes to a recognised provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognised in the reformatted statement of profit and loss.

Gratuity

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted.

The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method which recognises each period of services as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the financial obligation.

The obligation is measured at present values of estimated future cash flows. The discounted rates used for determining the present value are based on the market yields on Government securities as at the reformatted statement of assets and liabilities date.

Benefits in respect of gratuity are funded with an Insurance Company approved by Insurance Regulatory and Development Authority (IRDA).

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the reformatted statement of assets and liabilities with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Remeasurements are not reclassified to profit or loss in subsequent periods.

Compensated Absences

The eligible employees of the Company are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Company recognises the charge in the reformatted statement of profit and loss and corresponding liability on such non-vesting accumulated leave

1.18 Retirement and other employee benefit *(Continued)*

entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the projected unit credit method.

1.19 Share-based payment arrangements

Equity-settled share-based payments to employees and others providing similar services that are granted by the erstwhile Holding Company Edelweiss Financial Service Limited (EFSL) and current Holding Company Edelweiss Securities Limited (ESL) are measured by reference to the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments of ESL and EFSL is expensed in employee benefit expenses over the vesting period, based on the Company's estimate of equity instruments that will eventually vest. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate. In cases where the share options granted vest in instalments over the vesting period, the Company treats each instalment as a separate grant, because each instalment has a different vesting period, and hence the fair value of each instalment differs.

1.20 Property, plant and equipment and Right of Use Asset

Property plant and equipment is stated at cost excluding the costs of day–to–day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the depreciation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent costs incurred on an item of property, plant and equipment is recognized in the carrying amount thereof when those costs meet the recognition criteria as mentioned above. Repairs and maintenance are recognized in profit or loss as incurred.

Depreciation is recognized so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided upto the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Company has evaluated the useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation. The estimated useful lives of the property, plant and equipment are as follows:

1.20 Property, plant and equipment and Right of Use Asset *(Continued)*

Estimated useful lives of the assets are as follows:

Nature of assets	Estimated useful life
Furniture and fixtures	10 years
Vehicles	8 years
Office Equipment	5 years
Computers - Servers and networks	6 years
Computers - End user devices, such as desktops, laptops, etc.	3 years

Leasehold improvements are amortised on a straight-line basis over the estimated useful lives of the assets or the period of lease whichever is earlier.

Right of use assets are presented together with property and equipment in the statement of financial position – *refer to the accounting policy 1.15*. Right of use assets are depreciated on a straight-line basis at the lower of lease term or useful life.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The carrying amount of those components which have been separately recognized as assets is derecognized at the time of replacement thereof. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

1.21 Intangible assets

The Company's intangible assets mainly include the value of computer software. An intangible asset is recognized only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Intangibles such as software is amortised over a period of upto 5 years based on its estimated useful life.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the reformatted statement of profit and loss.

1.21 Intangible assets *(Continued)*

Intangible assets under development
Intangible assets under Development includes Software under development.

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Company can demonstrate:

i. The technical feasibility of completing the intangible asset so that the asset will be available for use or sale.
ii. Its intention to complete and its ability and intention to use or sell the asset
iii. How the asset will generate future economic benefits
iv. The availability of resources to complete the asset
v. The ability to measure reliably the expenditure during development.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit.

The residual values, useful lives and methods of amortisation of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

1.22 Impairment of non-financial assets

The Company assesses at each reformatted statement of assets and liabilities date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU's) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. The reduction is treated as an impairment loss and is recognized in the reformatted statement of profit and loss. If at the reformatted statement of assets and liabilities date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciable historical cost. Similarly, as at each reformatted statement of assets and liabilities date, the Company tests all intangible assets under development for impairment.

1.23 Cash and cash equivalents

Cash and cash equivalent in the reformatted statement of assets and liabilities comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less.

1.24 Provisions and other contingent liabilities

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

1.24 Provisions and other contingent liabilities *(Continued)*

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognized in the reformatted financial information since this may result in the recognition of income that may never be realized. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognized.

1.25 Income tax expenses

Income tax expense represents the sum of the tax currently payable and deferred tax.

a) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the reformatted statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

b) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the reformatted financial information and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax assets are also recognised with respect to carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

It is probable that taxable profit will be available against which a deductible temporary difference, unused tax loss or unused tax credit can be utilised when there are sufficient taxable temporary differences which are expected to reverse in the period of reversal of deductible temporary difference or in periods in which a tax loss can be carried forward or back. When this is not the case, deferred tax asset is recognised to the extent it is probable that:

- the entity will have sufficient taxable profit in the same period as reversal of deductible temporary difference or periods in which a tax loss can be carried forward or back; or
- tax planning opportunities are available that will create taxable profit in appropriate periods.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

1.25 Income tax expenses *(Continued)*

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

c) Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

d) Minimum alternate tax (MAT)

MAT paid in a year is charged to the reformatted statement of profit and loss as current tax. The Company recognises unused MAT credit as a deferred tax asset only to the extent that it is probable that the Company will be able to utilise during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognises deferred tax asset (MAT credit) as an asset, the said asset is created by way of credit to the reformatted statement of profit and loss. The Company reviews the MAT asset at each reporting date and writes down the asset to the extent that it is not probable that the Company will be able to utilise it during the specified period.

1.26 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

a) Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Company based its assumptions and estimates on parameters available when the reformatted financial information were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

b) Effective interest rate method

The Company’s EIR methodology recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given/ taken and recognises the effect of characteristics of the product life cycle.

1.26 Critical accounting judgements and key sources of estimation uncertainty *(Continued)*

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes fee income/expense that are integral parts of the instrument.

c) Accounting for deferred taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

The Company has recognised deferred tax assets on carried forward tax losses where the Company believes that the said deferred tax assets shall be recoverable based on the estimated future taxable income which in turn is based on approved business plans and budgets. The losses are allowed to be carried forward to the years in which the Company expects that there will be sufficient taxable profits to offset these losses.

* The notional column represents quantity in case of Equity and Index linked derivatives. The notional / units held indicate the value of transactions outstanding at the year end and are not indicative of either the market risk of credit risk.

**An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. Refer Note 1.6 (c) for further details.

Note:

Pursuant to The Taxation Laws (Amendment) Ordinance 2019, promulgated on September 20, 2019, Company has elected to apply the concessional tax rate permitted u/s 115BAA of The Income tax Act, 1961 from the financial year ended March 31, 2021 onwards. Accordingly, the Company has re-measured the closing net deferred tax asset at concessional rate as on the year ended March 31, 2021 in the financial year ended March 31, 2022.

Consequently, Minimum alternate tax amounting to Rs. 112.30 million as on financial year ended March 31, 2021 has been expensed out in reformatted statement of profit and loss in the financial year ended March 31, 2022.

34 Segment reporting

The Company's business is organised and management reviews the performance based on the business segments as mentioned below:

Segment	Activities covered
Agency business	Broking, Advisory, financial product distribution and related activities
Financing business	ESOP funding and Margin trading facility to retail clients

The Company's management monitors the operating results of its business units separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on operating profit or losses. The operating segments are the segments for which separate financial information is available and for which operating profit / loss amounts are evaluated regularly by the Chief Operating Decision Maker.

Since the business operations of the Company are primarily concentrated in India, the Company is considered to operate only in the domestic segment and therefore there is no reportable geographic segment.

Notes :-

1 Edelweiss Securities Limited has purchased 100% equity shares (Stake) of Edelweiss Broking Limited from Edelweiss Financial Services Limited on May 4, 2020.

2 During the previous year, the controlling stake in the Edelweiss Securities Limited, the Parent Company, was transferred by its erstwhile Ultimate Parent, Edelweiss Financial Services Limited ("EFSL"), to Edelweiss Global Wealth Management Limited ('EGWML'), the new parent entity, as a part of the overall transaction consummated with PAGAC Ecstasy Pte. Ltd ('PAG'). PAG has infused CCDs in EGWML whereby it acquired controlling interest in relation to the Wealth Management business only.

3 The Wealth Management Business undertaking was demerged from Edelweiss Global Wealth Management Limited (EGWML) into Edelweiss Securities Limited (ESL) vide NCLT order dated March 31, 2022. Accordingly, all related party balances outstanding as at March 31, 2022 relating to Wealth Management Business undertaking of EGWML are considered to be transacted with ESL and disclosed accordingly.

4 Pursuant to merger of EC Commodity Limited and demerger of ECap Equities Limited into Edel Land Limited, all the Related Party Transactions transacted with EC Commodity Limited and ECap Equities Limited for March 31, 2021 and March 31, 2022 and the outstanding balances thereof, as at the end of the year relating to EC Commodity Limited and ECap Equities Limited are considered to be transacted with have been reported under Edel Land Limited.

5 Edelweiss Finvest Limited (formerly Edelweiss Finvest Private Limited) was merged into Edel Finance Company Limited with effect from April 9, 2021. Hence all related party transactions transacted during the year and the outstanding balances thereof, as at the end of the year relating to the Merged entity are considered to be transacted with Edel Finance Company Limited and disclosed accordingly.

40 Capital management

The primary objectives of the Company's capital management policy are to ensure that the Company maintains healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue new shares or raise/repay debt. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

In addition to above, the Company is required to maintain minimum net worth as prescribed by regulatory authorities. The management ensures that this is complied.

(Refer note no. 50 (1))

41 Risk Management

The Company has operations in India. Whilst risk is inherent in the Company's activities, it is managed through an integrated risk management framework, including ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability. The Company is exposed to credit risk, liquidity risk and market risk. It is also subject to various operating and business risks.

Risk management structure

The Board of Directors are responsible for the overall risk management approach and for approving the risk management strategies and principles. The Board has appointed the Risk Committee, which is responsible for monitoring the overall risk process within the Company and reports to the Audit Committee.

The Risk Committee has the overall responsibility for the development of the risk strategy and implementing principles, frameworks, policies and limits.

The Global Risk Group is responsible for implementing and maintaining risk related procedures to ensure an independent control process is maintained. The risk team works closely with and reports to the Risk Committee, to ensure that procedures are compliant with the overall framework.

Credit risk

Credit risk is the risk of financial loss the Company may face due to current/potential inability or unwillingness of a customer or counterparty to meet financial /contractual obligations. Credit risk also covers the possibility of losses associated with diminution in the credit quality of receivables and loans. The Company has adopted a policy of dealing with creditworthy counterparties and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Company applies the expected credit loss model for recognising impairment loss. The expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

Trade receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime (Expected Credit Loss (ECL) at each reporting date, right from its initial recognition.

Credit risk *(Continued)*

The ageing wise trade receivable use to assess credit risk is as follows:

Bucketing (Ageing)	March 31, 2022 Carrying value	March 31, 2021 Carrying value	March 31, 2020 Carrying value
0 – 30 Days	2,724.78	873.61	1,075.02
31 – 60 Days	265.79	26.05	46.82
61 – 90 Days	3.03	3.71	14.88
More than 90 Days	147.19	141.39	175.39
Less: Impairment allowance	(144.48)	(98.34)	(106.98)
Total	**2,996.31**	**946.42**	**1,205.13**

Loans

The expected credit loss is a product of exposure at default, probability of default and loss given default. The Company has devised an internal model to evaluate the probability of default and loss given default based on the parameters set out in Ind AS. Accordingly, the loans are classified into various stages as follows:

Internal rating grade	Internal grading description	Stages
Performing		
High grade	0 dpd and 1 to 30 dpd	Stage I
Standard grade	31 to 90 dpd	Stage II
Non-performing		
Individually impaired	90+ dpd	Stage III

Credit loss is the difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Expected Credit Loss (ECL) computation is not driven by any single methodology, however methodology and approach used must reflect the following:

1) An unbiased and probability weighted amount that evaluates a range of possible outcomes

2) Reasonable and supportable information that is available without undue cost and effort at the reporting date about past events, current conditions and forecasts of future economic conditions;

3) Time value of money

While the time value of money element is currently being factored into ECL measurement while discounting cash flows by the Effective Interest Rate (EIR), the objective of developing a

macroeconomic model using exogenous macroeconomic variables (MEVs) is to address the first two requirements. This has been achieved by using the model output to adjust the PD risk component in order to make it forward looking and probability-weighted.

Significant increase in Credit Risk (SICR)

The Company considers a financial instrument defaulted, classified as Stage 3 (credit-impaired) for ECL calculations, in all cases when the borrower becomes 90 days past due. Classification of assets form stage 1 to stage 2 has been carried out based on SICR criterion. Accounts which are more than 30 days past due have been identified as accounts where significant increase in credit risk has been observed. These accounts have been classified as Stage 2 assets. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate.

Probability of Default (PD)

Probability of default (PD) is an estimate of the likelihood of default over a given time horizon. Company calculates the 12 month PD by taking into account the historical trends of the Loans/portfolio and its credit performance. In case of assets where there is a significant increase in credit risk / credit impaired assets, lifetime PD has been applied.

Loss Given Default (LGD)

The LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money. Since the Company is into the business of lending against securities, haircut of 25% is applied on the value of the collateral, based on basel haircut values for corporate securities. The exposure amount that is over and above the collateral (with haircut) is considered as the effective exposure. The LGD of 65% is used for the unsecured exposure the portfolio carries.

Exposure at Default (EAD)

The amount which the borrower will owe to the portfolio at the time of default is defined as Exposure at Default (EAD). While the drawn credit line reflects the explicit exposure for the Company, there might be variable exposure that may increase the EAD. These exposures are of the nature where the Company provides future commitments, in addition to the current credit. Therefore, the exposure will contain both on and off reformatted statement of assets and liabilities values.

Credit risk *(Continued)*

Following table provides information about exposure to credit risk and ECL on Loans:

Bucketing	March 31, 2022		March 31, 2021		March 31, 2021	
(Stage)	Carrying value	ECL	Carrying value	ECL	Carrying value	ECL

Total	**9,881.87**	**1.65**	**2,919.71**	**1.63**	**965.47**	**1.47**

Liquidity risk

Liquidity risk emanates from the possible mismatches due to differences in maturity and repayment profile of assets and liabilities. To avoid such a scenario, the Company has maintained cash reserves in the form of fixed deposits, cash and cash equivalents, etc. These assets carry minimal credit risk and can be liquidated in a very short period of time. These would be to take care of immediate obligations while continuing to honour commitments as a going concern.

b. Undrawn borrowing commitments

The Company has undrawn borrowing commitments from banks amounting to ₹ 1,010.00 millions as on March 31, 2022 (as on March 31, 2021: ₹ 17.90 millions; as on March 31, 2020: ₹ Nil).

43 Fair Value measurement:

a. Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques:

Level 1 – valuation technique using quoted market price: financial instruments with quoted prices for identical instruments in active markets that Company can access at the measurement date.

Level 2 – valuation technique using observable inputs: Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

Level 3 – valuation technique with significant unobservable inputs: Those that include one or more unobservable input that is significant to the measurement as

b. Valuation governance framework

The Company's fair value methodology and the governance over its models includes a number of controls and other procedures to ensure appropriate safeguards are in place to ensure its quality and adequacy. All new product initiatives (including their valuation methodologies) are subject to approvals by various functions of the Company including the risk and finance functions.

Where fair values are determined by reference to externally quoted prices or observable pricing inputs to models, independent price determination or validation is used. For inactive markets, Company sources alternative market information, with greater weight given to information that is considered to be more relevant and

The responsibility of ongoing measurement resides with the business and product line divisions. However finance department is also responsible for establishing procedures governing valuation and ensuring fair values are in compliance with accounting standards.

43 Fair Value measurement:

d. Valuation techniques:

Debt securities:

Whilst most of these instruments are standard fixed rate securities. Fair value of these instruments is derived based on the indicative quotes of price and yields prevailing in the market as at the reporting date. The Company has used quoted price of stock exchange wherever bonds are traded actively.

Equity Shares:

The majority of equity shares are actively traded on stock exchanges with readily available active prices on a regular basis. Such instruments are classified as Level 1. Equity shares in non listed entities are initially recognized at transaction price and remeasured at each reporting date with realizable values basis agreements entered with prospective buyer. Such equity shares are classified at level 2.

e. There have been no transfers between levels during the year ended March 31, 2022, March 31, 2021 and March 31, 2020.

f. The following table shows a reconciliation of the opening balances and the closing balances for fair value measurements in Level 3 of the fair value hierarchy.

	Embedded derivatives		
Assets measured at fair value on a recurring basis	**Assets**	**Liabilities**	**Net Balance**

As at March 31, 2021 and as at March 31, 2020, there were no financial instruments which were classified under level 3 hierarchy. Hence, reconciliation table is not disclosed.

43 Fair Value measurement:

g. Impact on fair value of level 3 financial instrument of changes to key unobservable inputs

The below table summarises the valuation techniques together with the significant unobservable inputs used to calculate the fair value of the Company's Level 3 Instruments i.e. Derivative instruments. The range of values indicates the highest and lowest level input used in the valuation technique and, as such, only reflects the characteristics of the instruments as opposed to the level of uncertainty to their valuation. Relationships between unobservable inputs have not been incorporated in this summary.

Type of Financial Instruments	Fair value of asset as on 31 March 2022	Valuation techniques	Significant unobservable input	Range of estimates for unobservable input	Increase in the unobservable input	Change in fair value	Decrease in the unobservable input	Change in fair value
Embedded derivatives (net)	200.70	Fair value using Black Scholes model or Monte Carlo approach	Nifty level	17,465	5% increase in Nifty Index curve	44.60	5% Decrease in Nifty Index curve	(53.50)
			Underlying discount rate	4.50% to 6%	1% increase in Risk-adjusted discount rate	31.60	1% Decrease in Risk-adjusted discount rate	(35.40)

As at March 31, 2021 and March 31, 2020, there were no financial instruments which were classified under level 3 hierarchy.

h. With respect to financial instruments not measured at fair value, their carrying amounts approximates fair value.

SECTION VI – LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATIONS

Our Company, Directors, Promoter and our group companies are subjected to various legal proceedings from time to time, mostly arising in the ordinary course of its business. The legal proceedings are initiated by us and also by customers and other parties. These legal proceedings are primarily in the nature of (a) arbitration petitions (b) civil suits (c) criminal complaints, (d) consumer complaints, (e) tax matters and (f) petitions pending before appellate authorities. We believe that the number of proceedings in which we are involved in is not unusual for a company of our size in the context of doing business in India. Except as disclosed below, there is no outstanding litigation involving our Company, Promoters, Directors and group companies or any other person that would have a material adverse effect on our operations and/or financial position which may affect the issue or the investor's decision to invest in the Issue.

The Debenture Committee has set a materiality threshold for disclosure of events or information in relation to the Issue encompassing all pending litigation involving our Company, other than criminal proceedings regulatory proceedings and taxation matters (which would be disclosed in a consolidated manner), as 'material' for the purposes of disclosure in this Prospectus if: (i) the monetary amount of claim by or against the entity or person in any such pending litigation is in excess of 1% of the networth of the Company as on Fiscal 2022, i.e. ₹ 53.39 million, rounded off to ₹50 million, or (ii) any such litigation or regulatory action the outcome of which has a bearing on the business, operations, prospects or reputation of our Company, irrespective of the amount involved in such litigation. The materiality threshold for disclosure of events or information in relation to the Issue encompassing all pending litigation involving our Promoter, Directors, and group companies , other than criminal proceedings and taxation matters (which would be disclosed in a consolidated manner), as 'material' for the purposes of disclosure in this Prospectus if: (i) the monetary amount of claim by or against the entity or person in any such pending litigation is in excess of an amount of ₹1,000 million, or (ii) any such litigation or regulatory action the outcome of which has a bearing on the business, operations, prospects or reputation of our Company, irrespective of the amount involved in such litigation.

It is clarified that for the purposes of the above, pre-litigation notices received by our Company, Directors, our Promoter or our group companies shall, unless otherwise decided by our Board of Directors/Debenture Committee, not be considered as litigation until such time that our Company, Directors, Promoter and/or group companies, as the case maybe, is impleaded as a defendant in litigation proceedings before any judicial forum.

Except as disclosed below, there are no pending proceedings pertaining to:

a. *matters likely to affect operations and finances of our Company, Promoter, Directors, group companies, or any other person, whose outcome could have a material adverse effect on our Company, including disputed tax liabilities and contingent liabilities of any nature;*

b. *any default or non-payment of statutory dues by the Company;*

c. *litigation or legal action pending or taken against the Promoters of the Company by a Government Department or a statutory body during the last three years immediately preceding the year of the issue of prospectus;*

SEBI vide its confirmatory order dated February 18, 2022 had lifted the restrictions imposed on the entities vide interim order dated August 12, 2021 subject to the outcome of the appeal proceedings filed by SEBI against the order of SAT before the Hon'ble Supreme Court of India. The matter is currently pending.

4. On January 19, 2022 NSE issued a show cause notice to EBL ("**SCN**"), pursuant to an off-site inspection. The crux of the observation in the SCN was that on 23 dates during the period October 1, 2021 to December

17, 2021 the funds available in the client bank accounts of EBL together with balances available with clearing member and funds with clearing corporation were less than the funds payable (credit balances) to clients. NSE also observed certain instances wherein EBL had reported incorrect amounts under the head collaterals deposited with the clearing member.

EBL has submitted a detailed response to NSE on January 31, 2022 wherein it has demonstrated that, it was well capitalised and has maintained a networth of over ₹3000 million and further, EBL demonstrated that it had sufficient balances in its own bank accounts, Exchange Dues accounts and borrowed credit lines from banks which were sufficient to meet any obligations due to client and such amounts were far in excess of the shortage as pointed out by NSE. EBL also mentioned that it had ensured from January 2022 that the balances available in the client bank accounts along with the cash collateral with clearing member and clearing corporation were sufficiently in excess of the credit balances due to clients. EBL also mentioned that it had not reported any incorrect amounts under the head collaterals deposited with clearing member and such discrepancy was on account of liquid mutual funds being included in the working.

Applicants alleged that the classification of NCD account of Defendant Smaaash as non-performing asset for non-payment of interest is contrary to RBI guidelines. Furthermore, alleged assignment agreement dated June 28, 2019, executed by ECL Finance in favour of EARC assigning the benefits of NCDs is contrary to regulatory framework of SARFAESI Act, 2002, the SARFAESI Guidelines, 2003 and various guidelines/circulars/directions issued by the RBI. An appeal was filed against the DRT order allowing the securitisation application before the Debt Recovery Appellate Tribunal ("**DRAT**"). The DRAT, vide order dated June 3, 2022 stayed the DRT order. Further, DRAT has order to maintain status quo of the property being adjudicated vide its order dated June 27, 2022. The matter is pending.

   Additionally, Smaaash Entertainment Private Limited and AHA Holdings Private Limited ("**Applicants**") have filed a commercial suit being suit nos. 1292 of 2022 and 987 of 2022 respectively along with an application for interim stay on the assignment agreement entered between ECL Finance and EARC before the High Court of Bombay on January 13, 2022. ECL Finance Limited, EARC, Catalyst Trusteeship Limited and Reserve Bank of India have been listed as defendants in the suit ("**Defendants**"). The suit inter alia challenges the invoking of pledge of shares by EARC that were pledged by Smaaash with EARC. The single judge bench appreciated that dues are acknowledged but since DRT has stayed all SARFAESI actions and NPA declaration by ECL Finance, the Single Judge Bench stayed defendants to act upon the assignment agreement till the next date of hearing.

   Against which ECL Finance, EARC , Catalyst Trusteeship Limited ("**Appellants**") filed an appeal before Division Bench of Bombay High Court being commercial appeal nos. 13541 of 2022 and 13542 of 2022 respectively against Smaaash Entertainment Private Limited and AHA Holdings Private Limited ("**Respondents**") challenging the order of the Single Judge Bench citing all the debt, dues and default admitting emails and balance sheet, where the Division Bench appreciated the facts placed and reversed the

order of the single judge bench in appellants' favour. The matter is currently pending.

2. A Rani ("**Plaintiff**") has filed a suit against ECL Finance and others before for the Court of District Munsiff at Poonamalee for declaration and injunction that the deed of mortgage dated February 23, 2018 which was executed in favour of ECL Finance Limited is invalid and *inter alia* claiming ownership with respect to the mortgaged property. The suit property is one of the properties forming part of the security for the loan of ₹1,450 million sanctioned by ECL Finance to Neptune Developers Private Limited. The Plaintiff has challenged the ownership right of Neptune Developers Private Limited with respect to the said property. Subsequently, ECL Finance has assigned the debt along with underlying securities (which includes mortgage of said property) to Assets Care and Reconstruction Enterprise Limited ("**ACRE ARC**") under deed of assignment dated March 27, 2020. The matter is currently pending.

3. Bhumiraj Builders Private Limited ("**Plaintiff**") have filed a suit against ECL Finance, Edelweiss Asset Reconstruction Company Limited and Edelweiss Rural & Corporate Services Limited in the Bombay High Court. The Plaintiff has alleged that ECL Finance has malafidely and prematurely declared the loan as NPA, has illegally assigned the loan to Edelweiss Asset Reconstruction Company Limited, unilateral and incorrect imposition of interest rates, and mismanagement in the diversion of funds. Further, it has also been alleged that Edelweiss Asset Reconstruction Company Limited malafidely initiated a corporate insolvency resolution plan against the Plaintiff. The Plaintiff has prayed for an amount of ₹ 45,458.77 million along with interest, and a permanent injunction in order to restrain Edelweiss Asset Reconstruction Company Limited from acting up on the assignment of the loan. The matter is currently pending.

4. ECL Finance granted secured credit facilities to Fortis Healthcare Holdings Private Limited **("Fortis Holdings")** and RHC Holdings Private Limited **("RHC Holdings")** during 2016 to 2018 amounting to about ₹7,200 million against, *inter alia*, the pledge of certain equity shares of Fortis Healthcare Ltd. **("Fortis')** by Fortis Holdings as a security towards repayment of loan amount (Fortis and RHC Holdings collectively referred to as the **("Borrowers").**

   Daiichi Sankyo Company Limited **("Daiichi"),** a creditor has obtained an arbitration award dated April 29 & 30, 2016 against Mr. Malvinder Singh & Mr. Shivendra Singh, promoters of Fortis and RHC Holdings and others **("Respondents")** in Singapore whereby Daiichi was held entitled to receive ₹ 35000 million approximately from Respondents. Daiichi thereafter filed proceeding in Delhi High Court for enforcement of said award by way execution Petition being OMP (EFA) (COMM.) No. 6 of 2016. During the proceedings before Delhi High Court, the promoters of Fortis Holdings and some of their companies had given certain undertakings and subsequently Delhi High court restrained them from pledging their respective shareholding in Fortis and other Companies. These proceedings happened during the period ECL Finance lent and advanced the loans to the Borrowers. Daiichi filed SLP No. 20417/2017 before Hon'ble Supreme Court against the Respondents. Hon'ble Supreme Courts vide its Order dated August 11, 2017 directed the Respondents to maintain status qua with respect to shareholding of Fortis. Hon'ble Supreme Court vide its order dated August 31, 2017 clarified that the interim order dated August 11, 2017 also apply to the encumbered shares of Fortis. ECL Finance being one of the secured creditors, as aggrieved from aforesaid orders filed Application for Intervention No. 98913 of 2017 and Application for Directions being IA No. 98915 of 2017 before Hon'ble Supreme Court. Other secured creditors also filed similar applications. While disposing off the said applications of the secured creditors including that of ECL Finance, the Hon'ble Supreme Court of India on February 15, 2018 allowed the applications of the secured creditors and passed an order *inter alia* clarifying] interim orders dated August 11, 2017 and August 31, 2017 to mean that the status quo granted shall not apply to shares of Fortis Healthcare Limited held by Fortis Healthcare Holdings Private Limited as may have been encumbered on or before the interim orders of this Court dated August 11, 2017 and August 31, 2017.

   ECL Finance therefore, during the period from February 16, 2018 and February 26, 2018 sold the 3,27,75,000 shares of Fortis pledged by Fortis Holdings as security for the loans to recover its dues.

   Subsequently Daiichi filed a Contempt Petition (CC. 2120/2018 in the SLP (C) No. 20417/2017 before the Hon'ble Supreme Court of India ("**Court**"), against Indiabulls Housing Finance Limited ("**Indiabulls**") for violation of order dated August 11, 2017 and August 31, 2017 wherein Indiabulls was found guilty and directed to deposit the amount. ECL Finance was not a party to the contempt proceedings. *Suo motu* contempt proceedings were initiated by the Court in 2019 under © Motu Contempt Petition (C) No. 4 of 2019 and the Court vide order dated February 18, 2021 directed all the banks / financial institutions to file an affidavit

bringing on record the entire transactions and to inspect whether there any violation of undertakings / status quo orders had taken place. ECL Finance filed the affidavit in compliance of this order. The matter is reserved for judgement.

In the interim, Daiichi has moved Execution Application No. 819 of 2020 before Delhi High Court against the Promoters, various Banks and Financial Institutions including ECL Finance, in whose favour the shares of Fortis were pledged by the promoters of Fortis Holdings and their companies. Daiichi has claimed that the Promoters and their Companies had created pledge in violation of the undertakings given and order passed by DHC. Daiichi has prayed for declaring the pledge as void and alternatively if the pledge shares are already sold then direction to banks and NBFCs to deposit/refund the shares price of sold shares. Daiichi *inter alia* prayed against ECL Finance to set aside the creation of 3,09,55,000 Fortis Healthcare Limited shares held by Fortis Healthcare Holdings Private Limited and pass a consequential order of attachment and sale of 3,09,55,000 Fortis Healthcare Limited shares held by Fortis Healthcare Holdings Private Limited Or in the alternative direct ECL Finance to deposit a sum equivalent to the value of 3,09,55,000 Fortis Healthcare Limited shares held by Fortis Healthcare Holdings Private Limited as on June 21, 2017 before this Hon'ble Court. On December 18, 2020 ECL Finance filed its counter reply before the Delhi High Court. The matter is pending.

5. GVK Energy and others ("**Plaintiffs**") have filed a suit for declaration and permanent injunction on the sale of Alaknanda Hydro Power Company Limited ("**Alaknanda**") against ECL Finance, Ecap Equities Limited, Edelweiss Finvest Limited, Edelweiss Asset Reconstruction Company Limited and others ("**Defendants**"). The Plaintiffs had taken various loans which they had secured by way of shares. The Plaintiffs committed default in repayment of loans and a settlement agreement was entered into, after the default of which, one of the Defendants invoked the shares.The Plaintiffs have prayed for reliefs including stay on the operation of the invocation notice dated May 27, 2022 pertaining to the pledge agreement and maintenance of status quo of the shares of the plaintiff and the security interest under the settlement agreement. It was agreed that the shares of the Alaknanda were to be sold at the best price. ECL Finance submitted that they are in process of selling the shares. The Delhi High Court, vide order dated May 31, 2022 has asked for it to be intimated of any good offers for selling shares. Fruther, if in the interim, another offer is received by the plaintiffs, they shall intimate the same to the Court and the Defendants. In the event the Plaintiffs are unable to match the offer of the Defendants, the Defendants would be eligible to sell the said shares at the best offer received by them. Further, it was ordered that the defendants shall not sell any other shares that have been pledged by the Plaintiffs with the Defendants until the impugned shares are sold. However, it was clarified that the defendants shall be free to invoke the pledged shares. The Plaintiffs have filed another interim application no. 9762/2022, seeking restraining order against defendants for taking any action on the demand notices issued by them. The matter is currently pending.

(ii) Criminal proceedings against ECL Finance

Except as disclosed below and under "*Material litigations and regulatory actions involving our Company – Civil Litigation – Against our Company",* there are no other civil proceedings filed against ECL Finance.

1. The Directorate of Enforcement ("**Complainant**") filed an original complaint dated September 3, 2016 with the Adjudicating Authority under the Section 5(5) of PMLA against Kingfisher Airlines Limited, Vijay Mallya, and others for acquisition of property using proceeds of crime in terms of Section 2(1)(u) of PMLA. Certain shares of Vijay Mallya and his associates were pledged with ECL Finance as security ("**Pledged Securities**") for various loans availed by them. The Complainant has sought for attachment of the Pledged Securities. The Adjudicating Authority, (Prevention of Money Laundering Act), New Delhi has confirmed the provisional attachment vide an order dated February 22, 2017 and ECL Finance has challenged the same vide an appeal before the Appellate Authority. The matter is currently pending.

2. ECL Finance filed a criminal writ petition on June 12, 2018 against State of Maharashtra and others inter alia challenging order dated April 18, 2017 passed by the 47th Magistrate Court, Esplanade Court at Mumbai directing ECL Finance to satisfy the claim of 18 Flat purchasers in project Godrej Central and Kamla Aquina, as and when said purchasers approach to the Magistrate's Court. This case pertains to project Godrej Central and Kamla Aquina, which is one of security provided by Rajiv Construction Company ("**Kamla Group**") for NCD of about ₹870 million subscribed by ECL Finance. Since the Promoters of the Developer Company were taken in police custody by Economic Offence Wing, Mumbai for various complaints filed by the flat purchasers alleging fraud in various projects, the Project Acquina which is offered as a security has remain incomplete. In order to complete the project through Project Management Contract ("**PMC**") to recover ECL Finance's dues from the flat purchasers, ECL Finance had moved an application to the Magistrate Court for allowing accused promoters of Rajiv Construction Company to execute the PMC agreement etc. However, while deciding the application, Economic Offence Wing had submitted that beside the flat purchasers, which are known to ECL Finance, there were 18 more flat purchasers. ECL Finance had refused to entertain claim of those 18 flat purchasers as the promoters were not taken no objection certificate from ECL Finance to sell those 18 flats and had not deposited the advance with ECL Finance though the property was mortgaged with ECL Finance. The Magistrate while allowing the application of ECL Finance had directed ECL Finance to consider the claim of those 18 flat purchasers. Thus, ECL Finance filed the present Petition. Subsequently, this account has been assigned by ECL Finance to Omkara Assets Reconstruction Private Limited vide Assignment Agreement dated June 15, 2020. The matter is currently pending.

EHFL has filed five separate criminal complaints against its borrowers, Amit Sesmal Jain and nine others before Economic Offences Wing, Pune under various sections of CrPC for fraudulently siphoning off EHFL's money amounting to ₹14 million while availing home loan facility from the Pune branch. These cases and matter are pending for inquiry.

10. EHFL had provided home loan of ₹1.6 million to Ajaykumar Ashokkumar Raut ("**Borrower**"). The Borrower turned delinquent and on carrying out further checks from the Maharashtra IGR portal, Department of Registration & Stamps it was found that the Borrower in connivance with seller submitted fraudulent registered property agreements to EHFL towards the home loan. The Borrower had also fraudulently obtained multiple financing from other financial institutions on the same property. Currently, charge of other financial institutions including EHFL is registered on subject property. EHFL has filed an application under Section 14 of SARFAESI Act before District Magistrate Court, Nagpur on December 8, 2020 and the said matter is pending for orders from District Magistrate.

11. EHFL had provided a home loan of ₹ 3.06 million to Amol Jalinder Phuge ("**Borrower**"). The Borrower turned delinquent and on carrying out further checks, it was found that the Borrower had created multiple property documents and had availed loans from other financial institutions on the same property. Charge of other financial institutions is registered by virtue of Notice of Intimation ("**NOI**") however charge of EHFL is first as our disbursement is prior to other financial institutions. We have filed an application under Section 14 of SARFAESI before District Magistrate Court, Pune. The matter is currently pending before Tahsildar, Pune for fixation of appointment to take physical possession of property as per order passed by District Magistrate.

12. EHFL had provided a home loan of ₹ 2 million to Bhausaheb Balasaheb Jahdav ("**Borrower**"). The Borrower turned delinquent and on carrying out further checks, it was found that the Borrower fraudulently opened account in builder's name, siphoned off the loan amount and registered cancellation sale deed. Builder sold the subject property to another buyer without intimating to EHFL. Though EHFL is yet to initiate the SARFAESI proceedings, we have reported this case as fraud to National Housing Board.

13. EHFL had provided a home loan of ₹ 2 million to Divya Flora Sundaram Gollapalli ("**Borrower**"). The Borrower turned delinquent and on carrying out further checks, it was found that the Borrower had submitted fraudulent property papers/registered agreements with absence of layout plan, mismatched dimensions of property stated in the sale deed, technical report vis-à-vis property taken as collateral. The Borrower is not

traceable, and property is in the possession of some third party who is claiming the owner of property. EHFL has filed Criminal complaint with SR Nagar Police Station, Hyderabad City against Borrower on September 8, 2020. The matter is pending for investigation.

14. EHFL had provided a home loan of ₹ 7.4 million to M Hanumantha Rao ("**Borrower"**). The Borrower turned delinquent and on carrying out further checks, it was found that the builder had done multiple transactions on the subject property and sold the property to multiple buyers. The builder has provided fraudulent registered property agreement to the Borrower which was submitted to EHFL towards the home loan. The builder has absconded and is not traceable. Currently, the subject property is occupied by third parties, and they are claiming to be the owner of the property. EHFL has filed criminal complaint on September 24, 2020 against the Borrower at Koramangala Police station, Bangalore. The matter pending for investigation.

15. EHFL had provided a home loan of ₹ 2 million to Menta Bhanuprakash ("**Borrower"**). The Borrower turned delinquent and on carrying out further checks, it was found that the Borrower defrauded EHFL by submitting colour xerox/fake property documents. The subject property falls under prohibited property list. EHFL has filed application under section 14 of SARFAESI before the District Magistrate Court, Nellore on December 22, 2019. The said application is pending for order.

16. EHFL had provided a home loan of ₹ 4.99 million to Rajkumar Silarpur ("**Borrower**"). The Borrower turned delinquent and on carrying out further checks, it was found that the Borrower had misrepresented the facts about seller and submitted an invalid sale deed. The general power of attorney basis which the sale deed was executed was not valid as the seller was not alive at the time of execution and consequently the sale deed also becomes invalid. The subject property is in the possession of some third party, B. Karunakar, who is claiming to be the original owner of the property. The third party has filed an application before the Debt Recovery Tribunal on October 6, 2020 against EHFL, which is pending for hearing. EHFL has filed application under section 14 of SARFAESI before District Magistrate Court, Secunderabad on January 8, 2021 and is pending for orders.

17. EHFL had provided a home loan of ₹ 2.82 million to Sham Suryawanshi ("**Borrower"**). The Borrower turned delinquent and on carrying out further checks, it was found that the Borrower in connivance with the builder and landowner submitted fraudulent registered property agreements to EHFL. The builder sold the property initially to Magal Jagtap, and parallelly allotted the same flat to one of the landowner, who in turn sold the same flat to Rahul Khadve. Subsequently, Rahul Khandve sold the property to the Borrower. EHFL has filed an application under section 14 of SARFAESI before District Magistrate Court, Pune on December 22, 2019. The Upper District Magistrate, Pune vide its order July 31, 2021 directed Tahsildar, Haveli, Pune to handover possession of mortgaged property to EHFL. The matter is pending for possession.

18. EHFL had provided a home loan of ₹ 1.5 million to Yernamma Kommineni ("**Borrower**"). The Borrower turned delinquent and on carrying out further checks, it was found that the Borrower in connivance with the seller defrauded EHFL by misrepresenting the facts and creating a false profile and submitting fake business and income documents. The Borrower is not traceable. The subject property was overvalued by more than ₹1.9 million (It was valued at ₹3 million at acquisition. The latest valuation is at ₹1.08 million). The valued property lies near the highway/main road and is different from the subject property mentioned in the sale deed, that lies in the interiors. EHFL has sold the property in auction to third party. EHFL is in process of filing an original application for loss on sale before the Debt Recovery Tribunal. Though EHFL is yet to initiate SARFAESI proceedings, we have reported this case as fraud to the National Housing Board.

19. EHFL had provided a home loan of ₹ 10.5 million to Jitendra Dalchand Jain and Kavita Jain **(**"**Borrowers**"). The Borrowers turned delinquent, and on carrying out further checks, it was found that the Borrowers in connivance with the developer have defrauded EHFL by misrepresenting the unit numbers being mortgaged with us, submitting forged approved plan, and issuing no-objection certificate, receipts and entering into a registered sale deed for non-existent properties by the developer. The developer fraudulently submitted a plan where the Permanent Transit Cam ("**PTC**") were shown as free sale units, and the Slum Redevelopment Authority ("**SRA**") stamp and correct approval number were put on the fabricated plan. On February 25, 2021, EHFL filed a criminal complaint against the Borrowers, and Neeraj M Ved, Proprietor of Shreenath Corporation, Builders and Developers alleging forgery, criminal breach of trust and cheating with BKC Police Station, Bandra, Mumbai. The complaint is pending for investigation.

20. EHFL had provided a home loan of ₹ 14.2 million to Nikesh Mohan Gajara and Gitaben Mohanlal Gajara ("**Borrowers**"). The Borrowers turned delinquent, and on carrying out further checks, it was found that the Borrowers in connivance with the developer have defrauded EHFL by misrepresenting the unit numbers being

mortgaged with us, submitting forged approved plan, and issuing no-objection certificate, receipts and entering into a registered sale deed for non-existent properties by the developer. The developer fraudulently submitted a plan where the Permanent Transit Cam ("**PTC**") were shown as free sale units, and the Slum Redevelopment Authority ("**SRA**") stamp and correct approval number was put on the fabricated plan. On February 25, 2021, EHFL filed a criminal complaint against the Borrowers, and Neeraj M Ved, Proprietor of Shreenath Corporation, Builders and Developers alleging forgery, criminal breach of trust and cheating with BKC Police Station, Bandra, Mumbai. (o) Edelweiss Custodial Services Limited ("ECSL")

(i) Civil proceedings against ECSL

1. On October 4, 2020, ECSL were served with three arbitration petitions ("**Arbitration Petitions**") filed by Lalit Shah, Lalit Shah HUF and Prafulla Shah ("**Petitioners**"), all of whom claim to be clients of Anugrah Stock and Broking Private Limited ("**Anugrah**"). The principal grievance raised in these Arbitration Petitions is that stocks / securities / units entrusted by the Petitioners with Anugrah have been wrongly sold by Anugrah and ECSL. The Petitioners have also sought a direction that Anugrah and ECSL remit back the securities / stocks / units belonging to the Petitioner or deposit in Court an equivalent aggregate sum. The petition has been filed under

Section 9 of the Arbitration and Conciliation Act, 1996, seeking interim relief pending arbitration. The matter is currently pending.

2. Writ Petition has been filed before the Bombay High Court by Jaidev Krishnan Iyer, Ashwin Kantilal Mehta and Vimal Kishor Sikchi, Mahendra Kumar Mohta respectively, who claim to be end investors who have invested their monies and given shares as collateral to Anugrah Stock & Broking Private Limited ("**Anugrah**"). The Petitioners have alleged that the securities placed by them were wrongfully liquidated by Anugrah and ECSL. The main prayers of these Petitions is to seek a Special Investigation Team to conduct investigation into the affairs of NSE, NCL, BSE, ECSL, ICICI Bank, Anugrah and Teji Mandi Analytics Private Limited and their auditors to ascertain the role played by each of the entities and submit a report. As Economic Offences Wing ("**EOW**") is already seized of the matter on account of the complaints filed with the it by certain end-investors of Anugrah, EOW has been directed to submit a report on the progress of the investigation. The matter is currently pending.

3. Writ Petition has been filed before the Bombay High Court by Nimish Shah and others including Karim Maredia, Alpita Apurva Mayekar and others, end clients of Anugrah Stock & Broking Private Limited ("**Anugrah**") *inter alia* seeking a direction against SEBI to take action against all respondents including NSE, NCL, CDSL, Edelweiss Custodial Services Limited, Anugrah and Teji Mandi, and pass appropriate orders to protect the interest of the petitioners and other investors As the petition involves a common cause of action and similar/overlapping reliefs, the parties were given the liberty to make an application to tag the above petition with other writ petitions filed before the Bombay High Court. All the writ petitions have been tagged together and common orders have been passed in all the writ petitions. The matter is currently pending for hearing.

(ii) Criminal proceedings involving ECSL

1. On a complaint made by certain end-clients of Anugrah Stock and Broking Private Limited ("**Anugrah**"), the Economic Offence Wing ("**EOW**") registered a first information report dated September 9, 2020 against Anugrah and its affiliates/promoters for defrauding customers under Ponzi scheme and lured investors with assured returns of 15% to 20%. Although ECSL is not an accused in that matter, the Economic Offence Wing passed a direction marking a debit lien on ECSL's Clearing Account held with Citibank to the tune of ₹ 4,603.2 million. ECSL challenged this direction before the 47th Additional Chief Metropolitan Magistrate's Court at Esplanade, Mumbai. The Additional Chief Metropolitan Magistrate's 47th Court at Esplanade, Mumbai has temporarily lifted the lien on ECSL's clearing account by passing a stay order, on ECSL submitting an Undertaking that ECSL will maintain unencumbered assets which were worth Rs.4603.2 million till the miscellaneous application filed by ECSL is finally decided. The matter is currently pending.

(iii) Regulatory proceedings involving ECSL

1. NSE Clearing Limited ("**NCL**") had issued a Show Cause Notice ("**SCN**") dated January 8, 2020, after completing the limited purpose inspection to understand the issue raised by the trading member Vrise Securities Private Limited ("**Vrise**"). Terms and Conditions of Debenture Trustee Agreement

Fees charged by Debenture Trustee

The Debenture Trustee has agreed for one time acceptance as disclosed in Debenture Trustee Agreement dated June 17, 2022.

Terms of carrying out due diligence

As per the SEBI Circular "SEBI/HO/MIRSD/CRADT/CIR/P/2020/218 dated November 3, 2020 titled "*Creation of Security in issuance of listed debt securities and due diligence by debenture trustee(s)*", the Debenture Trustee is required to exercise independent due diligence to ensure that the assets of the Issuer company are sufficient to discharge the interest and principal amount with respect to the debt securities of the Issuer at all times. Accordingly, the Debenture Trustee shall exercise due diligence as per the following process, for which our company has consented to.

(a) The Debenture Trustee, either through itself or its agents /advisors/consultants, shall carry out requisite diligence to verify the status of encumbrance and valuation of the assets and whether all permissions or consents (if any) as may be required to create the security as stipulated in the offer document /disclosure document / information memorandum / private placement memorandum, has been obtained. For the purpose of carrying out the due diligence as required in terms of the Relevant Laws, the Debenture Trustee, either through itself or its agents /advisors/consultants, shall have the power to examine the books of account of the Company and to have the Company's assets inspected by its officers and/or external auditors/valuers/consultants/lawyers/technical experts/management consultants appointed by the Debenture Trustee.

(b) The Company shall provide all assistance to the Debenture Trustee to enable verification from the Registrar of Companies, Sub-registrar of Assurances (as applicable), CERSAI, depositories, information utility or any other authority, as may be relevant, where the assets and/or encumbrances in relation to the assets of the Company or any third-party security provider are registered / disclosed.

(c) Further, in the event that existing charge holders have provided conditional consent / permissions to the Company to create further charge on the assets, the Debenture Trustee shall also have the power to verify such conditions by reviewing the relevant transaction documents or any other documents executed between existing charge holders and the Company. The Debenture Trustee shall also have the power to intimate the existing charge holders about proposal of creation of further encumbrance and seeking their comments/ objections, if any.

(d) Without prejudice to the aforesaid, the Company shall ensure that it provides and procures all information, representations, confirmations and disclosures as may be required in the sole discretion of the Debenture Trustee to carry out the requisite diligence in connection with the issuance and allotment of the Debentures, in accordance with the relevant laws/ Applicable Law.

The Debenture Trustee shall have the power to either independently appoint or direct the Company to (after consultation with the Debenture Trustee) appoint intermediaries, valuers, chartered accountant firms, practicing company secretaries, consultants, lawyers and other entities in order to assist in the diligence by the Debenture Trustee. All costs, charges, fees and expenses that are associated with and incurred in relation to the diligence as well as preparation of the reports/certificates/documentation, including all out-of-pocket expenses towards legal or inspection costs, travelling and other costs, shall be solely borne by the Company.

Process of Due Diligence to be carried out by the Debenture Trustee

Due Diligence will be carried out as per DT regulations and circulars issued by SEBI from time to time. This would broadly include the following:

- An Independent Chartered Accountant ("**CA**") appointed by Debenture Trustee will conduct independent due diligence as per scope provided, regarding security offered by the Issuer.
- CA will ascertain, verify, and ensure that the assets offered as security by the Issuer is free from any encumbrances or necessary permission / consent / NOC has been obtained from all existing charge holders.

- CA will conduct independent due diligence on the basis of data / information provided by the Issuer.
- CA will, periodically undertake due diligence as envisaged in SEBI circulars depending on the nature of security.
- On basis of the CA's report / finding Due Diligence certificate will be issued by Debenture Trustee and will be filed with relevant Stock Exchanges.
- Due Diligence conducted is premised on data / information made available to the Debenture Trustee appointed agency and there is no onus of responsibility on Debenture Trustee or its appointed agency for any acts of omission / commission on the part of the Issuer.

While the Debt Security is secured as per terms of the Offer Document and charge is held in favour of the Debenture Trustee, the extent of recovery would depend upon realization of asset value and the Debenture Trustee in no way guarantees / assures full recovery / partial of either principal or interest.

Other Confirmations

The Debenture Trustee confirms that they have undertaken the necessary due diligence in accordance with Applicable Law, including the SEBI (Debenture Trustees) Regulations, 1993, read with the SEBI circulars titled (i) "Creation of Security in issuance of listed debt securities and 'due diligence' by debenture trustee(s)" dated November 3, 2020; and (ii) "Monitoring and Disclosures by Debenture Trustee(s)" dated November 12, 2020.

The Debenture Trustee undertakes that the NCDs shall be considered as secured only if the charged asset is registered with sub-registrar and Registrar of Companies or CERSAI or depository, etc., as applicable, or is independently verifiable by the Debenture Trustee.

Ranking of NCDs

The NCDs would constitute secured obligations of ours and shall rank *pari passu* inter se, and subject to any obligations under applicable statutory and/or regulatory requirements, shall also, with regard to the amount invested, thereof shall be secured by way of exclusive and/or pari-passu charge on the assets of the company including loans and advances, receivables, investments, stock in trade, current & other assets and/or immovable property / fixed assets held by the Company, created in favour of the Debenture Trustee, and/or over the Pledged Securities in favour of the Debenture Trustee for the benefit of the Debenture holders, except those specifically and exclusively charged in favour of certain existing charge holders as specifically set out in and fully described in the Debenture Trust Deed and/or Share Pledge Agreement such that a security cover of at least 1.1 times of the outstanding principal amounts of the NCDs and interest thereon is maintained at all time until the Maturity Date. We have received necessary consents from the relevant debenture trustees and security trustees in favour of the Debenture Trustee in relation to the NCDs. The NCDs proposed to be issued under the Issue and all earlier issues of debentures outstanding in the books of our Company having corresponding assets as security, shall rank *pari passu* without preference of one over the other except that priority for payment shall be as per applicable date of redemption. For exclusive charge on the assets and/or Pledged Securities, such assets and/or Pledged Securities shall be free from any encumbrances.

Our Company is required to obtain permissions or consents from the prior creditors for proceeding with this Issue. Pursuant to SEBI Circular no. SEBI/HO/MIRSD/CRADT/CIR/P/2020/218 dated November 3, 2020, our Company undertakes, *inter alia*, that the assets on which charge, or security is created are free from any encumbrances and if the assets are encumbered or already charged, the permissions or consent to create any further charge on the Pledged Securities have been obtained from the existing creditors.

Our Company has applied to the existing creditors for such permissions or consents and has received such permissions or consents from all such creditors.

Security

The principal amount of the NCDs to be issued in terms of this Prospectus together with all interest due and payable on the NCDs, thereof shall be secured by way of exclusive and/or pari-passu charge on the assets of the company including loans and advances, receivables, investments, stock in trade, current & other assets and/or immovable property / fixed assets held by the Company, created in favour of the Debenture Trustee, and/or over the Pledged Securities in favour of the Debenture Trustee for the benefit of the Debenture holders, except those specifically and exclusively charged in favour of certain existing charge holders as specifically set out in and fully described in the Debenture Trust Deed and/or Share Pledge Agreement such that a security cover of at least 1.1 times of the outstanding principal amounts of the NCDs and interest thereon is maintained at all time until the Maturity Date. For exclusive charge on the assets and/or Pledged Securities, such assets and/or Pledged Securities shall be free from any encumbrances. We have received necessary consents from the relevant debenture trustees and security trustees for ceding pari- passu charge in favour of the Debenture Trustee in relation to the NCDs.

Our Company intends to enter into an indenture/deed with the Debenture Trustee, (**"Debenture Trust Deed"**) terms of

which will govern the powers, authorities and obligations of the Debenture Trustee. Our Company proposes to complete the execution and registration of the Debenture Trust Deed within the stipulated timeframe and shall utilize the funds only after the stipulated security has been created. Under the terms of the Debenture Trust Deed, our Company will covenant with the Debenture Trustee that it will pay the NCD Holders the principal amount on the NCDs on the relevant redemption date and also that it will pay the interest due on NCDs on the rate specified in the Prospectus and in the Debenture Trust Deed. The Debenture Trust Deed will also provide that our Company may withdraw any portion of the security and replace with another asset of the same or a higher value and shall ensure that the minimum-security cover shall be maintained until the redemption of the NCDs.

Debenture Redemption Reserve

In accordance with recent amendments to the Companies Act, 2013, and the Companies (Share Capital & Debentures) Rules 2014, read with Rule 16 of the SEBI NCS Regulations, a listed company that intends to issue debentures to the public are no longer required to create a DRR for the purpose of redemption of debentures. Further, the meeting of the NCD Holders shall be held within the period stipulated under applicable law. In case(s) where majority of investors express their consent to enter into the ICA, the debenture trustee shall enter into the ICA on behalf of the investors upon compliance with the conditions as stipulated in the abovementioned circular. In case consents are not received for signing the ICA, the debenture trustee shall take further action, if any, as per the decision taken in the meeting of the investors. The consent of the majority of investors shall mean the approval of not less than 75% of the investors by value of the outstanding debt and 60% of the investors by number at the ISIN level.

Regulation 51 read with the Explanation to Clause A (11) in Part B of Schedule III of the SEBI Listing Regulations, defines 'default' as non-payment of interest or principal amount in full on the pre-agreed date which shall be recognized at the first instance of delay in the servicing of any interest or principal on debt.

It is hereby confirmed, in case of an occurrence of a "default", the Debenture Trustee shall abide and comply with the procedures mentioned in the abovementioned circular (SEBI/HO/MIRSD/CRADT/CIR/P/2020/203) dated October 13, 2020 issued by SEBI.

NCD Holder not a Shareholder

The NCD Holders will not be entitled to any of the rights and privileges available to the equity and/or preference shareholders of our Company, except to the extent of the right to receive the annual reports of our Company and such other rights as may be prescribed under the Companies Act, 2013 and the rules prescribed thereunder and the SEBI Listing Regulations.

Rights of NCD Holders

Some of the significant rights available to the NCD Holders are as follows:

1. The NCDs shall not, except as provided in the Companies Act, 2013, our Memorandum and Articles of Association and/or the Debenture Trust Deed, confer upon the holders thereof any rights or privileges available to our Company's members/shareholders including, without limitation, the right to attend and/or vote at any general meeting of our Company's members/shareholders. However, if any resolution affecting the rights attached to the NCDs is to be placed before the members/shareholders of our Company, the said resolution will first be placed before the concerned registered NCD Holders for their consideration.

2. In terms of Section 136 (1) of the Companies Act, 2013, holders of NCDs shall be entitled to a copy of the balance sheet and copy of trust deed at the Registered Office of our Company during business hours.

3. Subject to the above and the applicable statutory/regulatory requirements and terms of the Debenture Trust Deed, including requirements of other applicable statutory and/or regulatory requirements, the rights, privileges and conditions attached to the NCDs may be varied, modified and/or abrogated with the consent in writing of the holders of at least three-fourths of the outstanding amount of the NCDs or with the sanction of a special resolution passed at a meeting of the concerned NCD Holders, provided that nothing in such consent or resolution shall be operative against us, where such consent or resolution modifies or varies the terms and conditions governing the NCDs, if the same are not acceptable to us.

4. Subject to applicable statutory/regulatory requirements and terms of the Debenture Trust Deed, the registered NCD Holder or in case of joint-holders, the one whose name stands first in the register of debenture holders shall be entitled to vote in respect of such NCDs, either in person or by proxy, at any meeting of the concerned NCD Holders and every such holder shall be entitled to one vote on a show of hands and on a poll, his/her voting rights on every resolution placed before such meeting of the NCD Holders shall be in proportion to the outstanding nominal value of NCDs held by him/her.

5. The NCDs are subject to the provisions of the SEBI NCS Regulations, the Companies Act, 2013, the Memorandum and Articles of Association of our Company, the terms of the Draft Prospectus, this Prospectus, the Application Forms, the terms and conditions of the Debenture Trust Deed, requirements of other applicable statutory and/or regulatory requirements relating to the issue and listing, of securities and any other documents that may be executed in connection with the NCDs.

6. For the NCDs issued in dematerialized form, the Depositories shall also maintain the up-to-date record of holders of the NCDs in dematerialized Form. For NCDs in dematerialized form, all interest and principal sums becoming due and payable in respect of the NCDs will be paid to the person for the time being appearing in the register of beneficial owners of the Depository. In terms of Section 88(3) of the Companies Act, 2013, the register and index of beneficial of NCDs maintained by a Depository for any NCDs in dematerialized form under Section 11 of the Depositories Act shall be deemed to be a Register of NCD Holders for this purpose. The same shall be maintained at the registered office of our Company under Section 94 of the Companies Act, 2013 unless the same has been moved to another location after obtaining the consent of the NCD holders.

7. Subject to compliance with RBI requirements, the NCDs can be rolled over only with the consent of the holders of at least 75% of the outstanding amount of the NCDs after providing 15 days prior notice for such roll over and in accordance with the SEBI NCS Regulations. Our Company shall redeem the debt securities of all the debt securities holders, who have not given their positive consent to the roll-over. The roll-over of NCDs shall be as per regulation 39 of the SEBI NCS Regulations.

The aforementioned rights of the NCD holders are merely indicative. The final rights of the NCD holders will be as per the terms of this Prospectus and the Debenture Trust Deed.

Nomination facility to NCD Holder

In accordance with Rule 19 of the Companies (Share Capital and Debentures) Rules, 2014 ("**Rule 19**") read with the applicable provisions of the Companies Act, 2013, the sole NCD holder, or first NCD holder, along with other joint NCD Holders' (being individual(s)), may nominate, in the **Form No. SH.13,** any one person with whom, in the event of the death of Applicant the NCDs were Allotted, if any, will vest. Where the nomination is made in respect of the NCDs held by more than one person jointly, all joint holders shall together nominate in **Form No.SH.13** any person as nominee. A nominee entitled to the NCDs by reason of the death of the original holder(s), will, in accordance with Rule 19 and Section 56 of the Companies Act, 2013, be entitled to the same benefits to which he or she will be entitled if he or she were the registered holder of the NCDs. Where the nominee is a minor, the NCD holder(s) may make a nomination to appoint, in **Form No. SH.14**, any person to become entitled to NCDs in the event of the holder 's death during minority. A nomination will stand rescinded on a sale/transfer/alienation of NCDs by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or with the Registrar to the Issue.

NCD Holder(s) are advised to provide the specimen signature of the nominee to us to expedite the transmission of the NCD(s) to the nominee in the event of demise of the NCD Holder(s). The signature can be provided in the Application Form or subsequently at the time of making fresh nominations. This facility of providing the specimen signature of the nominee is purely optional.

In accordance with Rule 19 read with the applicable provisions of the Companies Act 2013, any person who becomes a nominee by virtue of the Rule 19 read with the applicable provisions of the Companies Act 2013, will on the production of such evidence as may be required by the Board, elect either:

- to register himself or herself as holder of NCDs; or

- to make such transfer of the NCDs, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the NCDs, and if the notice is not complied with, within a period of 90 days, our Board may thereafter withhold payment of all interests or other monies payable in respect of the NCDs, until the requirements of the notice have been complied with.

Since the allotment of NCDs will be made only in dematerialized mode, there is no need to make a separate nomination with our Company. Nominations registered with the respective Depository Participant of the

Applicant would prevail. If the investors require changing their nomination, they are requested to inform their respective Depository Participant.

Jurisdiction

Exclusive jurisdiction for the purpose of the Issue is with the competent courts of jurisdiction in Mumbai, India.

Application in this Issue

Applicants shall apply in this Issue in dematerialised form only, through a valid Application Form filled in by the Applicant along with attachment, as applicable. Further, Applications in the Issue shall be made through the ASBA facility only (including Applications made by UPI Investors under the UPI Mechanism).

In terms of Regulation 7 of the SEBI NCS Regulations, our Company will make public issue of the NCDs in the dematerialised form only.

Form of Allotment and Denomination of NCDs

As per the SEBI NCS Regulations, the trading of the NCDs on the Stock Exchange shall be in dematerialized form only in multiples of 1 (one) NCD ("**Market Lot**"). Allotment in the Issue to all Allottees, will be in electronic form i.e., in dematerialised form and in multiples of one NCD.

For details of allotment refer to chapter titled "*Issue Procedure*" beginning on page 239.

Transfer/Transmission of NCD(s)

The NCDs shall be transferred subject to and in accordance with the rules/procedures as prescribed by NSDL/CDSL and the relevant DPs of the transfer or transferee and any other applicable laws and rules notified in respect thereof. The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. In the absence of the same, interest will be paid/redemption will be made to the person, whose name appears in the register of debenture holders maintained by the Depositories. In such cases, claims, if any, by the transferees would need to be settled with the transferor(s) and not with the Issuer or Registrar.

In the absence of the same, interest will be paid/redemption will be made to the person, whose name appears in the register of debenture holders maintained by the Depositories. In such cases, claims, if any, by the transferees would need to be settled with the transferor(s) and not with the Issuer or Registrar. The seller should give delivery instructions containing details of the buyer's DP account to his depository participant.

Please see "*Terms of the Issue – Interest*" on page 229 for the implications on the interest applicable to NCDs held by Individual Investors on the Record Date and NCDs held by Non-Individual Investors on the Record Date.

Pursuant to the SEBI (Listing Obligations and Disclosure Requirements) (Fourth Amendment) Regulations, 2018 ("**SEBI LODR IV Amendment**"), NCDs held in physical form, pursuant to any rematerialisation, as above, cannot be transferred except by way of transmission or transposition, from December 4, 2018. However, any trading of the NCDs issued pursuant to the Issue shall be compulsorily in dematerialized form only.

Title

The NCD Holder(s) for the time being appearing in the record of beneficial owners maintained by the Depository shall be treated for all purposes by our Company, the Debenture Trustee, the Depositories and all other persons dealing with such person as the holder thereof and its absolute owner for all purposes.

Procedure for rematerialisation of NCDs

NCD Holders who wish to hold the NCDs in physical form may do so by submitting a request to their DP at any time after Allotment in accordance with the applicable procedure stipulated by the DP, in accordance with the Depositories Act and/or rules as notified by the Depositories from time to time. Holders of the NCDs who propose to rematerialize their NCDs, would have to mandatorily submit details of their bank mandate along with a copy of any document

evidencing that the bank account is in the name of the holder of such NCDs and their Permanent Account Number to our Company and the Depository Participant. No proposal for rematerialisation of NCDs would be considered if the aforementioned documents and details are not submitted along with the request for such rematerialisation.

Pursuant to the SEBI (Listing Obligations and Disclosure Requirements) (Fourth Amendment) Regulations, 2018 ("**SEBI LODR IV Amendment**"), NCDs held in physical form, pursuant to any rematerialisation, as above, cannot be transferred except by way of transmission or transposition, from December 4, 2018. However, any trading of the NCDs issued pursuant to the Issue shall be compulsorily in dematerialized form only.

Register of NCD Holders

No transfer of title of a NCD will be valid unless and until entered on the Register of NCD Holders (for re materialized NCDs) or the register and index of NCD Holders maintained by the Depository prior to the Record Date. In the absence of transfer being registered, interest and/or Redemption Amount, as the case may be, will be paid to the person, whose name appears first in the Register of NCD Holders maintained by the Depositories and/or our Company and/or the Registrar, as the case may be. In such cases, claims, if any, by the purchasers of the NCDs will need to be settled with the seller of the NCDs and not with our Company or the Registrar.The provisions relating to transfer and transmission and other related matters in respect of our Company's shares contained in the Articles of Association of our Company and the Companies Act shall apply, mutatis mutandis (to the extent applicable) to the NCDs as well.

Restriction on transfer of NCDs

There are no restrictions on transfers and transmission of NCDs allotted pursuant to the Issue. NCDs held in physical form, pursuant to any re-materialisation, as above, cannot be transferred except by way of transmission or transposition. However, any trading of the NCDs issued pursuant to the Issue shall be compulsorily in dematerialized form only.

Succession

Where NCDs are held in joint names and one of the joint holders dies, the survivor(s) will be recognized as the NCD Holder(s). It will be sufficient for our Company to delete the name of the deceased NCD Holder after obtaining satisfactory evidence of his death. Provided, a third person may call on our Company to register his name as successor of the deceased NCD Holder after obtaining evidence such as probate of a will for the purpose of proving his title to the debentures. In the event of demise of the sole or first holder of the Debentures, our Company will recognise the executors or administrator of the deceased NCD Holders, or the holder of the succession certificate or other legal representative as having title to the Debentures only if such executor or administrator obtains and produces probate or letter of administration or is the holder of the succession certificate or other legal representation, as the case may be, from an appropriate court in India. The directors of our Company in their absolute discretion may, in any case, dispense with production of probate or letter of administration or succession certificate or other legal representation.

Where a non-resident Indian becomes entitled to the NCDs by way of succession, the following steps have to be complied with:

1. Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the NCDs were acquired by the non-resident Indian as part of the legacy left by the deceased NCD Holder.
2. Proof that the non-resident Indian is an Indian national or is of Indian origin.
3. Such holding by a non-resident Indian will be on a non-repatriation basis.

Joint holders

Where two or more persons are holders of any NCD(s), they shall be deemed to hold the same as joint holders with benefits of survivorship subject to other provisions contained in the Articles.

On any relevant Record Date, the Registrar and/or our Company shall determine the list of the Primary holder(s) of this Issue and identify such Investor/ NCD Holders, (based on their DP identification and /or PAN and/or entries in the Register of NCD Holders) and make the requisite payment of additional incentive.

The additional incentive will be given only on the NCDs allotted in this Issue i.e. to the Primary holder(s). In case if any NCD is bought/acquired from secondary market or from open market, additional incentive will not be paid on such bought/acquired NCD.

In case the Primary holder(s) sells/gifts/transfer any NCDs allotted in this Issue, additional incentive will not be paid on such sold/gifted/transferred NCD except in case where NCDs are transferred to the Joint holder/Nominee in case of death of the primary holder.

For the Series where interest is to be paid on an annual basis, relevant interest will be paid on each anniversary of the Deemed Date of Allotment on the face value of the NCDs. The last interest payment under annual Series will be made at the time of redemption of the NCDs. For the Series where interest is to be paid on monthly basis, relevant interest will be calculated from the first day till the last date of every month during the tenor of such NCDs and paid on the first day of every subsequent month. For the first interest payment for NCDs under the monthly options, interest from the Deemed Date of Allotment till the last day of the subsequent month will be clubbed and paid on the first day of the month next to that subsequent month.

Basis of payment of Interest

The Tenor, Coupon Rate / Yield and Redemption Amount applicable for each Series of NCDs shall be determined at the time of Allotment of NCDs pursuant to the Prospectus. NCDs once allotted under any particular Series of NCDs shall continue to bear the applicable Tenor, Coupon/Yield and Redemption Amount as at the time of original Allotment irrespective of the category of NCD Holder on any Record Date, and such tenor, coupon/ yield and redemption amount as at the time of original allotment will not be impacted by trading of any series of NCDs between the categories of persons or entities in the secondary market.

We may enter into an arrangement with one or more banks in one or more cities for direct credit of interest to the account of the Investors. In such cases, interest, on the interest payment date, would be directly credited to the account of those Investors who have given their bank mandate.

We may offer the facility of NACH, NEFT, RTGS, Direct Credit and any other method permitted by RBI and SEBI from time to time to help NCD Holders. The terms of this facility (including towns where this facility would be available) would be as prescribed by RBI. Please see "*Terms of the Issue – Manner of Payment of Interest / Unblocking*" at page 233.

Payment of Interest will be made to those NCD Holders whose names appear in the register of NCD Holders (or to first holder in case of joint holders) as on Record Date. With respect to Series I, IV, VII and X where interest is to be paid on an annual basis, relevant interest will be paid on each anniversary of the Deemed Date of Allotment on the face value of the NCDs. The last interest payment under annual Series will be made at the time of redemption of the NCDs.

For NCDs subscribed, in respect to Series III, VI and IX, where the interest is to be paid on a monthly basis, relevant\ interest will be calculated from the first day till the last date of every month during the tenor of such NCDs and paid on the first day of every subsequent month. For the first interest payment for NCDs under the monthly options, interest from the Deemed Date of Allotment till the last day of the subsequent month will be clubbed and paid on the first day of the month next to that subsequent month.

If the Deemed Date of Allotment undergoes a change, the interest payment dates, Redemption Dates and other cash flow workings shall be changed accordingly.

These details of payment of interest are subject to and as stated in "Issue *Structure"* on page 215.

Taxation

Any tax exemption certificate/document must be lodged at the office of the Registrar at least 7 (seven) days prior to the Record Date or as specifically required, failing which tax applicable on interest will be deducted at source on accrual thereof in our Company's books and/or on payment thereof, in accordance with the provisions of the IT Act and/or any other statutory modification, enactment or notification as the case may be. A tax deduction certificate will be issued for the amount of tax so deducted.

As per clause (ix) of Section 193 of the I.T. Act, no tax is required to be withheld on any interest payable on any security issued by a company, where such security is in dematerialized form and is listed on a recognized stock exchange in India in accordance with the Securities Contracts (Regulation) Act, 1956 and the rules made thereunder. Accordingly, no tax will be deducted at source from the interest on listed NCDs held in the dematerialized form.

If the Interest Payment Date falls on a day other than a Working Day, the interest payment shall be made by our Company on the immediately succeeding Working Day and calculation of such interest payment shall be as per original schedule as if such Interest Payment Date were a Working Day, in accordance with the Working Day Convention. Payment of interest would be subject to the deduction as prescribed in the I.T. Act or any statutory modification or re-enactment thereof for the time being in force, as applicable.

Subject to the terms and conditions in connection with computation of applicable interest on the Record Date as stated in the section titled "Issue Procedure" on page 239, please note that in case the NCDs are transferred and/or transmitted in accordance with the provisions of this Prospectus read with the provisions of the Articles of Association of our Company, the transferee of such NCDs or the deceased holder of NCDs, as the case may be, shall be entitled to any interest which may have accrued on the NCDs.

Day Count Convention

Interest shall be computed on an actual/actual basis on the principal outstanding on the NCDs as per the SEBI Operational Circular.

Effect of holidays on payments

If the Interest Payment Date falls on a day other than a Working Day, the interest payment shall be made by our Company on the immediately succeeding Working Day and calculation of such interest payment shall be as per original schedule as if such Interest Payment Date were a Working Day. Further, the future Interest Payment Dates shall remain intact and shall not be changed because of postponement of such interest payment on account of it falling on a non-Working Day. Payment of interest will be subject to the deduction of tax as per Income Tax Act or any statutory modification or re-enactment thereof for the time being in force, as applicable.

If Redemption Date (also being the last Interest Payment Date) falls on a day that is not a Working Day, the Redemption Amount shall be paid by our Company on the immediately preceding Working Day along with interest accrued on the NCDs until but excluding the date of such payment. The interest/redemption payments shall be made only on the days when the money market is functioning in Mumbai.

Illustration for guidance in respect of the day count convention and effect of holidays on payments:

The illustration for guidance in respect of the day count convention and effect of holidays on payments, as required by SEBI Operational Circular is disclosed in Annexure D to this Prospectus.

Maturity and Redemption

The manner of payment of interest / refund / redemption in connection with the NCDs is set out below:

The bank details will be obtained from the Depositories for payment of interest / refund / redemption as the case may be. Applicants who have applied for or are holding the NCDs in electronic form, are advised to immediately update their bank account details as appearing on the records of the depository participant. Please note that failure to do so could result in delays in credit of interest / refund / redemption amounts to the Applicant at the Applicant's sole risk, and neither the Lead Managers our Company nor the Registrar to the Issue shall have any responsibility and undertake any liability for the same.

Application Size

Each Application should be for a minimum of 10 NCDs and multiples of one NCD thereof. Applicants can apply for any or all types of NCDs offered hereunder (any/all series) provided the Applicant has applied for minimum application size using the same Application Form.

Applicants are advised to ensure that applications made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and or regulatory provisions.

Terms of Payment

The entire issue price of ₹ 1,000 per NCD is payable on application itself. In case of allotment of lesser number of NCDs than the number of NCDs applied for, our Company shall instruct the SCSBs to unblock the excess amount blocked on application in accordance with the terms of this Prospectus(es).

Manner of Payment of Interest / Unblocking

The manner of payment of interest / unblocking in connection with the NCDs is set out below:

The bank details will be obtained from the Depositories for payment of Interest / unblocking / redemption as the case may be. Applicants are advised to keep their bank account details as appearing on the records of the depository participant updated at all points of time. Please note that failure to do so could result in delays in credit of Interest/ Redemption Amounts at the Applicant's sole risk, and the Lead Managers, our Company or the Registrar shall have no responsibility and undertake no liability for the same.

In case of NCDs held in physical form, on account of rematerialisation, the bank details will be obtained from the documents submitted to the Company along with the rematerialisation request. For further details, please see "*Terms of the Issue – Procedure for Rematerialisation of NCDs*" on page 227.

Printing of Bank Particulars on Interest/redemption Warrants

As a matter of precaution against possible fraudulent encashment of unblocking intimations and interest/redemption warrants due to loss or misplacement, the particulars of the Applicant's bank account are mandatorily required to be given for printing on the orders/ warrants. NCDs applied and held in dematerialized form, these particulars would be taken directly from the depositories. Bank account particulars will be printed on the orders/ warrants which can then be deposited only in the account specified.

Buy Back of NCDs

Our Company may, at its sole discretion, from time to time, consider, subject to applicable statutory and/or regulatory requirements, buyback of NCDs, upon such terms and conditions as may be decided by our Company.

Our Company may from time to time invite the NCD Holders to offer the NCDs held by them through one or more buy-back schemes and/or letters of offer upon such terms and conditions as our Company may from time to time determine, subject to applicable statutory and/or regulatory requirements. Such NCDs which are bought back may be extinguished, re-issued and/or resold in the open market with a view of strengthening the liquidity of the NCDs in the market, subject to applicable statutory and/or regulatory requirements.

Form and Denomination of NCDs

In case of NCDs held in physical form on account of rematerialisation, a single certificate will be issued to the NCD Holder for the aggregate amount of the NCDs held ("**Consolidated Certificate**"). The Applicant can also request for the issue of NCD certificates in denomination of one NCD ("**Market Lot**"). In case of NCDs held under different Options, by an NCD Holder, separate Consolidated Certificates will be issued to the NCD Holder for the aggregate amount of the NCDs held under each Option.

It is, however, distinctly to be understood that the NCDs pursuant to this issue shall be traded only in dematerialized form.

In respect of Consolidated Certificates, only upon receipt of a request from the NCD Holder, the Consolidated Certificates would be split into smaller denominations, subject to the minimum of Market Lot. No fee would be charged for splitting of NCD certificates in Market Lots, but stamp duty payable, if any, would be borne by the NCD Holder. The request for splitting should be accompanied by the original NCD certificate, which would then be treated as cancelled.

Procedure for redemption by NCD Holders

The procedure for redemption is set out below:

NCDs held in physical form on account of re-materialization

No action would ordinarily be required on the part of the NCD Holder at the time of redemption and the redemption proceeds would be paid to those NCD Holders whose names stand in the register of debenture holders maintained by us on the Record Date fixed for the purpose of Redemption. However, our Company may require that the NCD certificate(s), duly discharged by the sole holder/all the joint holders (signed on the reverse of the NCD certificates) be surrendered for redemption on maturity and should be sent by the NCD Holders by Registered Post with acknowledgment due or by hand delivery to our office or to such persons at such addresses as may be notified by us from time to time. NCD Holders may be requested to surrender the NCD certificates in the manner as stated above, not more than three months and not less than one month prior to the redemption date so as to facilitate timely payment.

We may at our discretion redeem the NCDs without the requirement of surrendering of the NCD certificates by the holder(s) thereof. In case we decide to do so, the holders of NCDs need not submit the NCD certificates to us and the redemption proceeds would be paid to those NCD Holders whose names stand in the register of debenture holders maintained by us on the Record Date fixed for the purpose of redemption of NCDs. In such case, the NCD certificates would be deemed to have been cancelled.

NCDs held in electronic form

No action is required on the part of NCD Holder(s) at the time of redemption of NCDs.

Payment on redemption

The manner of payment of redemption is set out below:

NCDs held in physical form on account of re-materialization

The payment on redemption of the NCDs will be made by way of cheque/pay order/ electronic modes. However, if our Company so requires, the aforementioned payment would only be made on the surrender of NCD certificates, duly discharged by the sole holder/ all the joint holders (signed on the reverse of the NCD certificates). Dispatch of cheques/ pay orders, etc. in respect of such payment will be made on the redemption date or (if so, requested by our Company in this regard) within a period of 30 days from the date of receipt of the duly discharged NCD certificate.

In case we decide to do so, the redemption proceeds in the manner stated above would be paid on the redemption date to those NCD Holders whose names stand in the register of debenture holders maintained by us on the Record Date fixed for the purpose of Redemption.

Our liability to NCD Holders towards their rights including for payment or otherwise shall stand extinguished from the redemption in all events and when we dispatch the redemption amounts to the NCD Holders.

NCDs held in electronic form

On the redemption date, redemption proceeds would be paid by cheque /pay order / electronic mode to those NCD Holders whose names appear on the list of beneficial owners given by the Depositories to us. These names would be as per the Depositories' records on the Record Date fixed for the purpose of redemption. These NCDs will be simultaneously extinguished to the extent of the amount redeemed through appropriate debit corporate action upon redemption of the corresponding value of the NCDs. It may be noted that in the entire process mentioned above, no action is required on the part of NCD Holders.

Our liability to NCD Holder(s) towards his/their rights including for payment or otherwise shall stand extinguished from the date of redemption in all events and when we dispatch the redemption amounts to the NCD Holder(s).

Further, we will not be liable to pay any interest, income or compensation of any kind from the date of redemption of the NCD(s).

Right to Reissue NCD(s)

Subject to the provisions of the Companies Act, 2013, where we have fully redeemed or repurchased any NCD(s), we shall have and shall be deemed always to have had the right to keep such NCDs in effect without extinguishment thereof, for the purpose of resale or reissue and in exercising such right, we shall have and be deemed always to have had the power to resell or reissue such NCDs either by reselling or reissuing the same NCDs or by issuing other NCDs in their place. The aforementioned right includes the right to reissue original NCDs.

Sharing of Information

Our Company may, at its option, use on our own, as well as exchange, share or part with any financial or other information about the NCD Holders available with us, and our affiliates and other banks, financial institutions, credit bureaus, agencies, statutory bodies, as may be required and neither we or our affiliates nor their agents shall be liable for use of the aforesaid information.

Notices

All notices to the NCD Holder(s) required to be given by us or the Debenture Trustee shall be published in one English language newspaper having wide circulation and one regional language daily newspaper in Ahmedabad and/or will be sent by speed post/ courier or through email or other electronic media to the Registered Holders of the NCD(s) from time to time.

Future Borrowings

Our Company will be entitled to borrow/raise loans or avail of financial assistance in whatever form as also to issue debentures/ NCDs/other securities in any manner having such ranking in priority, *pari passu* or otherwise, subject to applicable consents, approvals or permissions that may be required under any statutory/regulatory/contractual requirement or existing financing agreements, and change the capital structure including the issue of shares of any class, on such terms and conditions as we may think appropriate, provided stipulated minimum security cover is maintained on the NCDs and the interest thereon and after obtaining the consent of, the NCD Holders or the Debenture Trustee regarding the creation of a charge over such security, as per the statutory/regulatory requirement.

Impersonation

As a matter of abundant caution, attention of the Investors is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

"Any person who- (a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or (b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or (c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447 of the Companies Act, 2013."

The liability prescribed under Section 447 of the Companies Act 2013 for fraud involving an amount of at least ₹ 10 lakh or 1.00% of the turnover of our Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount. In case the fraud involves (i) an amount which is less than ₹ 10 lakh or 1.00% of the turnover of our Company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹20 lakh or with both.

Pre-closure

Our Company, in consultation with the Lead Managers reserves the right to close the Issue at any time prior to the Issue Closing Date, subject to receipt of minimum subscription or as may be specified in this Prospectus. Our Company shall allot NCDs with respect to the Applications received until the time of such pre-closure in accordance with the Basis of Allotment as described hereinabove and subject to applicable statutory and/or regulatory requirements. In the event of such early closure of the Issue, our Company shall ensure that public notice of such early closure is published on or before such early date of closure is published on or before such early date of closure or the Issue Closing Date, as applicable, through advertisement(s) in all those newspapers in which pre-issue advertisement have been given.

Minimum subscription

In terms of the SEBI NCS Regulations, for an issuer undertaking a public issue of debt securities the minimum subscription for public issue of debt securities shall be 75% of the Base Issue Size. If our Company does not receive the minimum subscription of 75% of Base Issue Size, prior to the Issue Closing Date the entire Application Amount shall be unblocked in the relevant ASBA Account(s) of the Applicants within 6 Working Days from the Issue Closing Date provided wherein, the Application Amount has been transferred to the Public Issue Account from the respective ASBA Accounts, such Application Amount shall be refunded from the Refund Account to the relevant ASBA Accounts(s) of the Applicants within 6 Working Days from the Issue Closing Date, failing which our Company will become liable to refund the Application Amount along with interest at the rate 15 (fifteen) percent per annum for the delayed period.

Under Section 39(3) of the Companies Act, 2013 and Rule 11(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014 if the stated minimum subscription amount is not received within the specified period, the

application money received is to be credited only to the bank account from which the subscription was remitted. To the extent possible, where the required information for making such refunds is available with our Company and/or Registrar, refunds will be made to the account prescribed. However, where our Company and/or Registrar does not have the necessary information for making such refunds, our Company and/or Registrar will follow the guidelines prescribed by SEBI in the SEBI Operational Circular.

Utilisation of Application Amount

The sum received in respect of the Issue will be kept in separate bank account(s) and we will have access to such funds only upon allotment of the NCDs, execution of Debenture Trust Deed and Share Pledge Agreement and on receipt of listing and trading approval from the Stock Exchange as per applicable provisions of law(s), regulations and approvals.

Utilisation of Issue Proceeds

(a) All monies received pursuant to the issue of NCDs to public shall be transferred to a separate bank account other than the bank account referred to in sub-section (3) of Section 40 of the Companies Act, 2013.
(b) Details of all monies utilised out of Issue referred to in sub-item (a) shall be disclosed under an appropriate separate head in our Balance Sheet indicating the purpose for which such monies had been utilised; and

(c) Details of all unutilised monies out of issue of NCDs, if any, referred to in sub-item (a) shall be disclosed under an appropriate separate head in our Balance Sheet indicating the form in which such unutilised monies have been invested.

(d) Our Company shall utilize the Issue proceeds only up on (i) receipt of minimum subscription; (ii) completion of Allotment in compliance with Section 40 of the Companies Act, 2013; (ii) receipt of listing and trading approval from Stock Exchange and (iii) only upon execution of the documents for creation of security.

(e) The Issue proceeds shall not be utilized towards full or part consideration for the purchase or any other acquisition, *inter alia* by way of a lease, of any immovable property.

(f) Details of all utilized and unutilized monies out of the monies collected in the previous issue made by way of public offer shall be disclosed and continued to be disclosed in the balance sheet till the time any part of the proceeds of such previous issue remains unutilized indicating the purpose for which such monies have been utilized and the securities or other forms of financial assets in which such unutilized monies have been invested.

Filing of the Prospectus with the RoC

A copy of this Prospectus will be filed with the RoC, in accordance with Section 26 and Section 31 of Companies Act, 2013.

Pre-Issue Advertisement

Subject to Section 30 of the Companies Act, 2013, our Company will issue a statutory advertisement on or before the Issue Opening Date. This advertisement will be issued in compliance with the Regulation 30(1) of SEBI NCS Regulations and shall contain the information as prescribed in the SEBI NCS Regulations and Section 30 of the Companies Act, 2013.

Material updates, if any, between the date of filing of the Prospectus with ROC and the date of release of the statutory advertisement will be included in the statutory advertisement information as prescribed under SEBI NCS Regulations.

Listing

The NCDs offered through this Prospectus are proposed to be listed on the BSE. Our Company has obtained an 'in-principle' approval for the Issue from the BSE *vide* their letter dated June 24, 2022. For the purposes of the Issue, BSE shall be the Designated Stock Exchange.

Our Company will use best efforts to ensure that all steps for the completion of the necessary formalities for listing and commencement of trading at the Stock Exchange are taken within 6 Working Days of the Issue Closing Date. For the avoidance of doubt, it is hereby clarified that in the event of non-subscription to any one or more of the series, such series(s) of NCDs shall not be listed.

Guarantee/Letter of Comfort

The Security proposed for the Issue is not backed by a guarantee or letter of comfort or any other document and/or letter with similar intent

Monitoring and Reporting of Utilisation of Issue Proceeds

There is no requirement for appointment of a monitoring agency in terms of the SEBI NCS Regulations. The Audit Committee shall monitor the utilization of the proceeds of the Issue. For the relevant Fiscals commencing from the Fiscal 2022- 2023, our Company will disclose in our financial statements, the utilization of the net proceeds of the Issue under a separate head along with details, if any, in relation to all such proceeds of the Issue that have not been utilized thereby also indicating investments, if any, of such unutilized proceeds of the Issue.

Lien

Our Company will have the right of set-off and lien, present as well as future on the moneys due and payable to the NCD Holder or deposits held in the account of the NCD holders, whether in single name or joint name, to the extent of all outstanding dues, if any by the NCD Holder to our Company, subject to applicable law.

Lien on Pledge of NCDs

Subject to applicable law, our Company, at its discretion, may record a lien on pledge of NCDs if such pledge of NCDs is accepted by any bank or institution for any loan provided to the NCD Holder against pledge of such NCDs as part of the funding.

A unique application number ("**UAN**") will be generated for every Application Form downloaded from the websites of the Stock Exchange. Further, Application Forms will also be provided to Designated Intermediaries at their request.

Please note that there is a single Application Form for, persons resident in India.

Method of Application

In terms of the SEBI Operational Circular an eligible investor desirous of applying in this Issue can make Applications through the ASBA mechanism only.

Applicants are requested to note that in terms of the SEBI Operational Circular, SEBI has mandated issuers to provide, through a recognized Stock Exchange which offers such a facility, an online interface enabling direct application by investors to a public issue of debt securities with an online payment facility ("**Direct Online Application Mechanism**").

All Applicants shall mandatorily apply in the Issue through the ASBA process only. Applicants intending to subscribe in the Issue shall submit a duly filled Application form to any of the Designated Intermediaries.

Designated Intermediaries (other than SCSBs) shall submit/deliver the Application Form (except the Application Form from a Retail Individual Investor bidding using the UPI mechanism) to the respective SCSB, where such investor has a bank account and shall not submit it to any non-SCSB bank or any Escrow Bank.

Applicants should submit the Application Form only at the Bidding Centers, i.e., to the respective Consortium Members

at the Specified Locations, the SCSBs at the Designated Branches, the Registered Broker at the Broker Centers, the RTAs at the Designated RTA Locations or CDPs at the Designated CDP Locations. Kindly note that Application Forms submitted by Applicants at the Specified Locations will not be accepted if the SCSB with which the ASBA Account, as specified in the Application Form is maintained has not named at least one branch at that location for the Designated Intermediaries for deposit of the Application Forms. A list of such branches is available at http://www.sebi.gov.in.

The relevant Designated Intermediaries, upon receipt of physical Application Forms from Applicants, shall upload the details of these Application Forms to the online platform of the Stock Exchange and submit these Application Forms with the SCSB (except Application Form from RIBs using the UPI Mechanism) with whom the relevant ASBA Accounts are maintained.

For RIBs using UPI Mechanism, the Stock Exchange shall share the bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to RIBs for blocking of funds.

For Applicants who submit the Application Form, in physical mode, the Application Form shall be stamped at the relevant Designated Branch of the SCSB. Application Forms in physical mode, which shall be stamped, can also be submitted to be the Designated Intermediaries at the Specified Locations. The SCSB shall block an amount in the ASBA Account equal to the Application Amount specified in the Application Form.

Our Company, the Directors, affiliates, associates and their respective directors and officers, Lead Managers and the Registrar to the Issue shall not take any responsibility for acts, mistakes, errors, omissions and commissions etc. in relation to ASBA Applications accepted by the Designated Intermediaries, Applications uploaded by SCSBs, Applications accepted but not uploaded by SCSBs or Applications accepted and uploaded without blocking funds in the ASBA Accounts. It shall be presumed that for Applications uploaded by SCSBs, the Application Amount has been blocked in the relevant ASBA Account. Further, all grievances against Designated Intermediaries in relation to the Issue should be made by Applicants directly to the relevant Stock Exchange.

In terms of the SEBI Operational Circular, an eligible investor desirous of applying in this Issue can make Applications through the following modes:

1. *Self-Certified Syndicate Bank (SCSB) or intermediaries (viz. Consortium members, Registered Stock Brokers, Registrar and Transfer agent and Depository Participants)*

    a. An investor may submit the bid-cum-application form, with ASBA as the sole mechanism for making payment, physically at the branch of a SCSB, i.e., investor's bank. For such applications, the existing process of uploading of bid on the Stock Exchange bidding platform and blocking of funds in investors account by the SCSB would continue.

    b. An investor may submit the completed bid-cum-application form to intermediaries mentioned above along with details of his/her bank account for blocking of funds. The intermediary shall upload the bid on the Stock Exchange bidding platform and forward the application form to a branch of a SCSB for blocking of funds.

    c. An investor may submit the bid-cum-application form with a SCSB, or the intermediaries mentioned above and use his / her bank account linked UPI ID for the purpose of blocking of funds, if the application value is ₹5 Lakh or less. The intermediary shall upload the bid on the Stock Exchange bidding platform. The application amount would be blocked through the UPI mechanism in this case.

2. *Through Stock Exchange*

    a. An investor may submit the bid-cum-application form through the App or web interface developed by Stock Exchange (or any other permitted methods) wherein the bid is automatically uploaded onto the Stock Exchange bidding platform and the amount is blocked using the UPI Mechanism.

    b. The Stock Exchange have extended their web-based platforms i.e., 'BSE Direct' to facilitate investors to apply in public issues of debt securities through the web-based platform and mobile app with a facility to block funds through Unified Payments Interface (UPI) mechanism for application value up to ₹ 5 Lakh. To place bid through 'BSEDirect' platform/ mobile app the eligible investor is required to register himself/ herself with BSE Direct.

    c. To further clarify the submission of bids through the App or web interface, the Stock Exchange has issued operational guidelines and circulars dated December 28, 2020, available at

https://www.bseindia.com/markets/MarketInfo/DispNewNoticesCirculars.aspx?page=20201228-60, and https://www.bseindia.com/markets/MarketInfo/DispNewNoticesCirculars.aspx?page=20201228-61.

Payment instructions

Payment mechanism for Applicants

An Applicant shall specify details of the ASBA Account Number in the Application Form and the relevant SCSB shall block an amount equivalent to the Application Amount in the ASBA Account specified in the Application Form.

An Applicant may submit the completed Application Form to designated intermediaries along with details of his/her bank account for blocking of funds. The intermediary shall upload the bid on the Designated Stock Exchange bidding platform and forward the application form to a branch of a SCSB for blocking of funds.

An Applicant (belonging to Category IV) may also submit the Application Form with a SCSB, or the intermediaries mentioned above and use his / her bank account linked UPI ID for the purpose of blocking of funds, if the application value is ₹5 lakh or less. The intermediary shall upload the bid on the Stock Exchange bidding platform. The application

amount would be blocked through the UPI Mechanism once the mandate request has been successfully accepted by the Applicant in this case.

An Applicant may submit the Application Form through the App or web interface developed by Stock Exchange wherein the bid is automatically uploaded onto the Stock Exchange bidding platform and the amount is blocked using the UPI Mechanism once the mandate request has been successfully accepted by the Applicant.

Upon receipt of an intimation from the Registrar to the Issue, the SCSBs shall, on the Designated Date, transfer such blocked amount from the ASBA Account to the Public Issue Account in terms of the Public Issue Account and Sponsor Bank Agreement. The balance amount remaining after the finalisation of the Basis of Allotment shall be unblocked by the SCSBs on the basis of the instructions issued in this regard by the Registrar to the Issue to the respective SCSB within 6 (six) Working Days of the Issue Closing Date. The Application Amount shall remain blocked in the ASBA Account until transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the Issue or until rejection of the Application, as the case may be.

For ASBA Applications submitted to the Lead Managers or Consortium Member or Trading Members of the Stock Exchange at the Specified Cities, the ASBA Application will be uploaded onto the electronic system of the Stock Exchange and deposited with the relevant branch of the SCSB at the Specified City named by such SCSB to accept such ASBA Applications from the Lead Managers or Trading Members of the Stock Exchange, as the case may be (A list of such branches is available at http://www.sebi.gov.in/sebiweb/home/list/5/33/0/0/Recognised-Intermediaries). The relevant branch of the SCSB shall perform verification procedures and block an amount in the ASBA Account equal to the Application Amount specified in the ASBA Application.

For ASBA Applications submitted directly to the SCSBs, the relevant SCSB shall block an amount in the ASBA Account equal to the Application Amount specified in the ASBA Application, before entering the ASBA Application into the electronic system of the Stock Exchange. SCSBs may provide the electronic mode of application either through an internet enabled application and banking facility or such other secured, electronically enabled mechanism for application and blocking of funds in the ASBA Account.

Applicants should ensure that they have funds equal to the Application Amount in the ASBA Account before submitting the ASBA Application to the Lead Managers or Consortium Member or Trading Members of the Stock Exchange, as the case may be, at the Specified Cities or to the Designated Branches of the SCSBs. An ASBA Application where the corresponding ASBA Account does not have sufficient funds equal to the Application Amount at the time of blocking the ASBA Account is liable to be rejected.

The Application Amount shall remain blocked in the ASBA Account until approval of the Basis of Allotment and consequent transfer of the amount against the Allotted NCDs to the Public Issue Account(s), or until withdrawal/ failure of the Issue or until withdrawal/ rejection of the Application Form, as the case may be. Once the Basis of Allotment is approved, the Registrar to the Issue shall send an appropriate request to the controlling branch of the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount pertaining to NCDs allotted to the successful Applicants to the Public Issue Account(s). The balance amount remaining after the finalisation of the Basis of Allotment shall be unblocked by the SCSBs on the basis of the instructions issued in this regard by the Registrar to the respective SCSB within 5 Working Days of the Issue Closing Date. The Application Amount shall remain blocked in the ASBA Account until transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the Issue or until rejection of the ASBA Application, as the case may be. In case of withdrawal/ failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

Payment mechanism for Direct Online Applicants

Please note that clarifications and/or confirmations regarding the implementation of the requisite infrastructure and facilities in relation to direct online applications and online payment facility have been sought from the Stock Exchange and the Stock Exchange has confirmed that the necessary infrastructure and facilities for the same have not been implemented by the Stock Exchange. Hence, the Direct Online Application facility will not be available for the *Issue.*

Additional information for Applicants

1. Application Forms submitted by Applicants whose beneficiary accounts are inactive shall be rejected.
2. No separate receipts will be issued for the money blocked on the submission of Application Form. However, the collection center of the Designated Intermediaries will acknowledge the receipt of the Application Forms by stamping and returning to the Applicant the acknowledgement slip. This acknowledgement slip will serve as the

duplicate of the Application Form for the records of the Applicant.

3. Applications should be submitted on the Application Form only. In the event that physical Application Form do not bear the stamp of the Designated Intermediaries, or the relevant Designated Branch, as the case may be, they are liable to be rejected.
4. Application Forms submitted by Applicants shall be for allotment of NCDs only in dematerialized form.

Additional Instructions for Retail Individual Investors using the UPI mechanism:

2. The Retail Individual Investor shall fill in the bid details in the application form along with his/ her bank account linked UPI ID and submit the application with any of the intermediaries or through the stock exchange App/ Web interface.
3. The Designated Intermediary, upon receipt of form, shall upload the bid details along with the UPI ID on the Stock Exchange(s) bidding platform using appropriate protocols.
4. Once the bid has been entered in the bidding platform, the Stock Exchange(s) shall undertake validation of the PAN and Demat account combination details of investor with the depository.
5. The Depository shall validate the aforesaid PAN and Demat account details on a near real time basis and send response to Stock Exchange(s) which would be shared by the Stock Exchange(s) with the Designated Intermediaries through its platform, for corrections, if any.
6. Once the bid details are uploaded on the Stock Exchange(s) platform, the Stock Exchange(s) shall send an SMS to the investor regarding submission of his / her application, at the end of day, during the bidding period. For the last day of bidding, the SMS may be sent the next Working Day.
7. Post undertaking validation with the Depository, the Stock Exchange(s) shall, on a continuous basis, electronically share the bid details along with investors UPI ID, with the Sponsor Bank appointed by the Company.
8. The Sponsor Bank shall initiate a mandate request on the investor i.e., request the investor to authorize blocking of funds equivalent to application amount and subsequent debit of funds in case of allotment.
9. The request raised by the Sponsor Bank, would be electronically received by the investor as a SMS / intimation on his / her mobile no. / mobile app, associated with the UPI ID linked bank account.
10. The investor shall be able to view the amount to be blocked as per his / her bid in such intimation. The investor shall be able to view an attachment wherein the bid details submitted by such investor will be visible. After reviewing the details properly, the investor shall be required to proceed to authorize the mandate. Such mandate raised by the Sponsor Bank would be a one-time mandate for each application in the Issue.
11. The investor is required to accept the UPI mandate latest by 5 pm on the third working day from the day of bidding on the stock exchange platform except for the last day of the Issue period or any other modified closure date of the Issue period in which case, he / she is required to accept the UPI mandate latest by 5 pm the next Working Day.
12. The investor shall not be allowed to add or modify the bid(s) of the application except for modification of either DP ID/Client ID, or PAN ID but not both. However, the investor can withdraw the bid(s) and reapply.
13. For mismatch bids, on successful validation of PAN and DP ID/ Client ID combination during T+1 (T being the Issue Closing Date) modification session, such bids will be sent to Sponsor Bank for further processing by the Exchange on T+1 (T being the Issue Closing Date) day till 1 pm
14. The facility of Re-initiation/ Resending the UPI mandate shall be available only till 5 pm on the day of bidding.
15. Upon successful validation of block request by the investor, as above, the said information would be electronically received by the investors' bank, where the funds, equivalent to application amount, would get blocked in investors account. Intimation regarding confirmation of such block of funds in investors account would also be received by the investor.
16. The information containing status of block request (e.g., accepted / decline / pending) would also be shared with the Sponsor Bank, which in turn would be shared with the Stock Exchange(s). The block request status would also be displayed on the Stock Exchange(s) platform for information of the intermediary.
17. The information received from Sponsor Bank, would be shared by Stock Exchange(s) with the Registrar to the Issue in the form of a file for the purpose of reconciliation.
18. Post closure of the Issue, the Stock Exchange(s) shall share the bid details with the Registrar to the Issue. Further, the Stock Exchange(s) shall also provide the Registrar to the Issue, the final file received from the Sponsor Bank, containing status of blocked funds or otherwise, along with the bank account details with respect to applications made using UPI ID.

Applicants are advised not to submit Application Forms to Public Issue Account Banks and the same will be rejected in such cases and the Applicants will not be entitled to any compensation whatsoever.

Filing of the Prospectus with ROC

A copy of the Prospectus shall be filed with the ROC in accordance with Section 26 and Section 31 of the Companies Act, 2013.

Pre-Issue Advertisement

Our Company will issue a statutory advertisement on or before the Issue Opening Date. This advertisement will contain the information as prescribed under the SEBI NCS Regulations and Section 30 of the Companies Act, 2013. Material updates, if any, between the date of filing of the Prospectus and the date of release of the statutory advertisement will be included in the statutory advertisement.

Instructions for completing the Application Form

1. Applications must be made in the prescribed Application Form.

2. Application Forms are to be completed in full, in BLOCK LETTERS in ENGLISH and in accordance with the instructions contained in *th*e Prospectus and the Application Form. Incomplete Application Forms are liable to be rejected. On the basis of the DP ID, Client ID, PAN and UPI ID provided by them in the Application Form, the Registrar to the Issue will obtain from the Depository the Demographic Details of the Applicants including PAN and MICR code. These Demographic Details would be used for giving Allotment Advice and unblocking intimations, if any, to the Applicants. Hence, Applicants are advised to immediately update their Demographic Details (including bank account details) as appearing on the records of the Depository Participant and ensure that they are true and correct. Please note that failure to do so could result in delays in despatch/ unblocking of funds, if any, to Applicants, delivery of Allotment Advice or unblocking of ASBA Accounts at the Applicants' sole risk, and neither the Members of the Consortium nor the Designated Intermediaries, nor the Registrar, nor the Banker(s) to the Issue, nor the SCSBs, nor our Company shall have any responsibility and undertake any liability for the same.

Applicants should note that in case the DP ID, Client ID and PAN mentioned in the Application Form, as the case may be and entered into the electronic Application system of the Stock Exchange by the Members of the Consortium or the Designated Intermediaries, as the case may be, do not match with the DP ID, Client ID and PAN available in the Depository database or in case PAN is not available in the Depository database, the Application Form is liable to be rejected and our Company, the Members of the Consortium and the other Designated Intermediaries shall not be liable for losses, if any.

These Demographic Details would be used for all correspondence with the Applicants including mailing of the Allotment Advice and for unblocking intimations (if any) as applicable. The Demographic Details given by Applicants in the Application Form would not be used for any other purpose by the Registrar to the Issue except in relation to this Issue.

By signing the Application Form, Applicants applying for the NCDs would be deemed to have authorised the Depositories to provide, upon request, to the Registrar, the required Demographic Details as available on its records.

Allotment Advice would be mailed by post or e-mail at the address of the Applicants in accordance with the Demographic Details received from the Depositories. Applicants may note that delivery of Allotment Advice may get delayed if the same once sent to the address obtained from the Depositories are returned undelivered. Further, please note that any such delay shall be at such Applicants' sole risk and neither our Company, Banker(s) to the Issue, Registrar to the Issue nor the Lead Managers shall be liable to compensate the Applicant for any losses caused to the Applicants due to any such delay or liable to pay any interest for such delay. In case of unblocking through electronic modes as detailed in *the* Prospectus, unblocking may be delayed if bank particulars obtained from the Depository Participant are incorrect.

In case of Applications made under powers of attorney, our Company in its absolute discretion, reserves the right to permit the holder of a power of attorney to request the Registrar to the Issue that for the purpose of printing particulars on and mailing of the Allotment Advice through post, the Demographic Details obtained from the Depository of the Applicant shall be used.

With effect from August 16, 2010, the beneficiary accounts of Applicants for whom PAN details have not been verified shall be suspended for credit and no credit of NCDs pursuant to this Issue will be made into the accounts of the Applicants. Application Forms submitted by Applicants whose beneficiary accounts are inactive shall be rejected. Furthermore, in case no corresponding record is available with the Depositories, which matches the four parameters, namely, DP ID, Client ID, PAN and UPI ID then such Applications are liable to be rejected.

Applicants should note that the NCDs will be allotted to all successful Applicants only in dematerialized form. The Application Forms which do not have the details of the Applicant's depository account, including DP ID, Client ID and PAN and UPI ID (for Retail Individual Investor Applicants bidding using the UPI mechanism), shall be treated as incomplete and will be rejected.

APPLICATIONS FOR ALLOTMENT OF NCDs IN THE DEMATERIALIZED FORM

Submission of Applications

Applicants can apply for NCDs only using the ASBA facility pursuant to SEBI Operational Circular. ASBA Applications can be submitted through either of the following modes:

(a) Physically or electronically to the Designated Branches of the SCSB(s) with whom an Applicant's ASBA Account is maintained. In case of ASBA Application in physical mode, the Applicant shall submit the Application Form at the relevant Designated Branch of the SCSB(s). The Designated Branch shall verify if sufficient funds equal to the Application Amount are available in the ASBA Account and shall also verify that the signature on the Application Form matches with the Investor's bank records, as mentioned in the ASBA Application, prior to uploading such ASBA Application into the electronic system of the Stock Exchange. If sufficient funds are not available in the ASBA Account, the respective Designated Branch shall reject such ASBA Application and shall not upload such ASBA Application in the electronic system of the Stock Exchange. If sufficient funds are available in the ASBA Account, the Designated Branch shall block an amount equivalent to the Application Amount and upload details of the ASBA Application in the electronic system of the Stock Exchange. The Designated Branch of the SCSBs shall stamp the Application Form and issue an acknowledgement as proof of having accepted the Application. In case of Application in the electronic mode, the Applicant shall submit the ASBA Application either through the internet banking facility available with the SCSB, or such other electronically enabled mechanism for application and blocking funds in the ASBA Account held with SCSB, and accordingly register such ASBA Applications.

(b) Physically through the Consortium Members, Lead Managers, or Trading Members of the Stock Exchange only at the Specified Cities i.e., Syndicate ASBA. Kindly note that ASBA Applications submitted to the Consortium Members, Lead Managers or Trading Members of the Stock Exchange at the Specified Cities will not be accepted if the SCSB where the ASBA Account is maintained, as specified in the ASBA Application, is maintained has not named at least one branch at that Specified City for the Consortium Members, Lead Managers or Trading Members of the Stock Exchange, as the case may be, to deposit ASBA Applications (A list of such branches is available at http://www.sebi.gov.in/sebiweb/home/list/5/33/0/0/Recognised-Intermediaries).

(c) A UPI Investor making an Application in the Issue under the UPI Mechanism, where the Application Amount is up to ₹5 lakhs, can submit his Application Form physically to a SCSB or a Designated Intermediary. The Designated Intermediary shall upload the application details along with the UPI ID on the Stock Exchange's bidding platform using appropriate protocols. Kindly note that in this case, the Application Amount will be blocked through the UPI Mechanism.

A UPI Investor may also submit the Application Form for the Issue through BSE Direct, wherein the Application will be automatically uploaded onto the Stock Exchange's bidding platform and an amount equivalent to the Application Amount shall be blocked using the UPI Mechanism.

Upon receipt of the Application Form by the Consortium Members, Lead Managers or Trading Members of the Stock Exchange, as the case may be, an acknowledgement shall be issued by giving the counter foil of the Application Form to the Applicant as proof of having accepted the Application. Thereafter, the details of the Application shall be uploaded in the electronic system of the Stock Exchange and the Application Form shall be forwarded to the relevant branch of the SCSB, in the relevant Specified City, named by such SCSB to accept such ASBA Applications from the Consortium Members, Lead Managers or Trading Members of the Stock Exchange, as the case may be (A list of such branches is available at http://www.sebi.gov.in/sebiweb/home/list/5/33/0/0/Recognised-Intermediaries). Upon receipt of the ASBA Application, the relevant branch of the SCSB shall perform verification procedures including verification of the Applicant's signature with his bank records and check if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the ASBA Form. If sufficient funds are not available in the ASBA Account, the relevant ASBA Application is liable to be rejected. If sufficient funds are available in the ASBA Account, the relevant branch of the SCSB shall block an amount equivalent to the Application Amount mentioned in the ASBA Application. The Application Amount shall remain blocked in the ASBA Account until approval of the Basis of Allotment and consequent transfer of the amount against the Allotted NCDs to the Public Issue Account(s), or until withdrawal/ failure of the Issue or until withdrawal/ rejection of the Application Form, as the case may be.

Applicants must note that:

(a) Physical Application Forms will be available with the Designated Branches of the SCSBs and with the Lead Managers and Trading Members of the Stock Exchange at the Specified Cities; and electronic Application Forms will be available on the websites of the SCSBs and the Stock Exchange at least one day prior to the Issue Opening Date. Application Forms will also be provided to the Trading Members of the Stock Exchange at their request. The Application Forms would be serially numbered. Further, the SCSBs will ensure that the Prospectus is made available on their websites.

(b) The Designated Branches of the SCSBs shall accept ASBA Applications directly from Applicants only during the Issue Period. The SCSB shall not accept any ASBA Applications directly from Applicants after the closing time of acceptance of Applications on the Issue Closing Date. However, in case of Syndicate ASBA, the relevant branches of the SCSBs at Specified Cities can accept ASBA Applications from the Lead Managers or Trading Members of the Stock Exchange, as the case may be, after the closing time of acceptance of Applications on the Issue Closing Date. For further information on the Issue programme, please see section titled "*Issue Related Information*" on page 215.

(c) In case of Applications through Syndicate ASBA, the physical Application Form shall bear the stamp of the Lead Managers or Consortium Member or Trading Members of the Stock Exchange, as the case maybe, if not, the same shall be rejected. Application Forms directly submitted to SCSBs should bear the stamp of SCSBs, if not, the same are liable to be rejected.

Please note that Applicants can make an Application for Allotment of NCDs in the dematerialized form only.

INSTRUCTIONS FOR FILLING-UP THE APPLICATION FORM

General Instructions

A. General instructions for completing the Application Form

- Applications must be made in prescribed Application Form only;
- Application Forms must be completed in block letters in English, as per the instructions contained in *the Draft Prospectus*, this Prospectus, the Abridged Prospectus and the Application Form.
- If the Application is submitted in joint names, the Application Form should contain only the name of the first Applicant whose name should also appear as the first holder of the depository account held in joint names.
- Applicants must apply for Allotment in dematerialised form and must provide details of valid and active DP ID, Client ID and PAN clearly and without error. On the basis of such Applicant's active DP ID, Client ID and PAN provided in the Application Form, and as entered into the electronic Application system of Stock Exchange by SCSBs, the Members of the Syndicate at the Syndicate ASBA Application Locations and the Trading Members, as the case may be, the Registrar will obtain from the Depository the Demographic Details. Invalid accounts, suspended accounts or where such account is classified as invalid or suspended may not be considered for Allotment of the NCDs.
- The minimum number of Applications and minimum application size shall be specified in the Prospectus. Applicants may apply for one or more series of NCDs Applied for in a single Application Form.
- If the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form.
- Applications should be made by Karta in case of HUFs. Applicants are required to ensure that the PAN details of the HUF are mentioned and not those of the Karta;
- Thumb impressions and signatures other than in English/Hindi/Gujarati/Marathi or any other languages specified in the 8th Schedule of the Constitution needs to be attested by a Magistrate or Notary Public or a Special Executive Magistrate under his/her seal;
- No separate receipts will be issued for the money payable on the submission of the Application Form. However, the Lead Managers, Consortium Member, Trading Members of the Stock Exchange or the Designated Branches of the SCSBs, as the case may be, will acknowledge the receipt of the Application Forms by stamping and returning to the Applicants the acknowledgement slip. This acknowledgement slip will serve as the duplicate of the Application Form for the records of the Applicant. Applicants must ensure that the requisite documents are attached to the Application Form prior to submission and receipt of acknowledgement from the relevant Lead

Managers, Consortium Member, Trading Member of the Stock Exchange or the Designated Branch of the SCSBs, as the case may be.

- Every Applicant should hold valid Permanent Account Number (PAN) and mention the same in the Application Form.
- All Applicants are required to tick the relevant column of "Category of Investor" in the Application Form.
- ASBA will be the default "Mode of Application" as per the SEBI Operational Circular.
- Applicants should correctly mention the ASBA Account number and ensure that funds equal to the Application Amount are available in the ASBA Account before submitting the Application Form to the Designated Branch and also ensure that the signature in the Application Form matches with the signature in Applicant's bank records, otherwise the Application is liable to be rejected

The series, mode of allotment, PAN, demat account no. etc. should be captured by the relevant Lead Managers, Consortium Member, Trading Member of the Stock Exchange in the data entries as such data entries will be considered for allotment.

Applicants should note that neither the Lead Managers, Consortium Member, Trading Member of the Stock Exchange, Public Issue Account Banks nor Designated Branches, as the case may be, will be liable for error in data entry due to incomplete or illegible Application Forms.

Our Company would allot the series of NCDs, as specified in the Prospectus to all valid Applications, wherein the Applicants have not indicated their choice of the relevant series of NCDs.

B. Applicant's Beneficiary Account and Bank Account Details

Applicants applying for Allotment in dematerialized form must mention their DP ID, Client ID, PAN and UPI ID (in case applying through UPI Mechanism) in the Application Form and ensure that the name provided in the Application Form is exactly the same as the name in which the Beneficiary Account is held. In case the Application Form for Allotment in dematerialized form is submitted in the first Applicant's name, it should be ensured that the Beneficiary Account is held in the same joint names and in the same sequence in which they appear in the Application Form. In case the DP ID, Client ID and PAN mentioned in the Application Form for Allotment in dematerialized form and entered into the electronic system of the Stock Exchange do not match with the DP ID, Client ID and PAN available in the Depository database or in case PAN is not available in the Depository database, the Application Form for Allotment in dematerialized form is liable to be rejected. Further, Application Forms submitted by Applicants applying for Allotment in dematerialized form, whose beneficiary accounts are inactive, will be rejected.

On the basis of the DP ID and Client ID provided by the Applicant in the Application Form for Allotment in dematerialized form and entered into the electronic system of the Stock Exchange, the Registrar to the Issue will obtain from the Depositories the Demographic Details of the Applicant including PAN, address, bank account details for printing on unblocking intimations/unblocking through electronic mode, Magnetic Ink Character Recognition ("**MICR**") Code and occupation. These Demographic Details would be used for giving Allotment Advice and refunds (including through physical refund warrants, direct credit, NACH, NEFT and RTGS), if any, to the Applicants. Hence, Applicants are advised to immediately update their Demographic Details as appearing on the records of the DP and ensure that they are true and correct, and carefully fill in their Beneficiary Account details in the Application Form. Failure to do so could result in delays in dispatch/credit of refunds to Applicants and delivery of Allotment Advice at the Applicants' sole risk, and neither our Company, the Lead Managers, Trading Members of the Stock Exchange, Public Issue Account Bank(s), SCSBs, Registrar to the Issue nor the Stock Exchange will bear any responsibility or liability for the same.

The Demographic Details would be used for correspondence with the Applicants including mailing of the Allotment Advice and printing of bank particulars on the unblocking intimations, or for refunds through electronic transfer of funds, as applicable. Allotment Advice and physical unblocking intimations (as applicable) would be mailed at the address of the Applicant as per the Demographic Details received from the Depositories. Applicants may note that delivery of unblocking intimations/ Allotment Advice may get delayed if the same once sent to the address obtained from the Depositories are returned undelivered. In such an event, the address and other details given by the Applicant in the Application Form would be used only to ensure dispatch of unblocking intimations. Please note that any such delay shall be at such Applicants sole risk and neither our Company, the Lead Managers, Trading Members of the Stock Exchange, Public Issue Account Banks, SCSBs, Registrar to the Issue nor the Stock Exchange shall be liable to compensate the Applicant for any losses caused to the Applicant due to any such delay or liable to pay any interest for such delay. In case of refunds through electronic modes as detailed in the Prospectus, refunds may be delayed if bank particulars obtained from the Depository Participant are incorrect.

In case of Applications made under power of attorney, our Company in its absolute discretion, reserves the right to permit the holder of Power of Attorney to request the Registrar that for the purpose of printing particulars on the unblocking intimation and mailing of unblocking intimations/ Allotment Advice, the demographic details obtained from the Depository of the Applicant shall be used. By signing the Application Form, the Applicant would have deemed to have authorized the Depositories to provide, upon request, to the Registrar to the Issue, the required Demographic Details as available on its records. The Demographic Details given by Applicant in the Application Form would not be used for any other purpose by the Registrar to the Issue except in relation to the Issue.

With effect from August 16, 2010, the beneficiary accounts of Applicants for whom PAN details have not been verified shall be suspended for credit and no credit of NCDs pursuant to the Issue will be made into the accounts of such Applicants. Application Forms submitted by Applicants whose beneficiary accounts are inactive shall be rejected. Furthermore, in case no corresponding record is available with the Depositories, which matches the three parameters, namely, DP ID, Client ID and PAN, then such Application are liable to be rejected.

C. Permanent Account Number (PAN)

The Applicant should mention his or her Permanent Account Number (PAN) allotted under the IT Act. For minor Applicants, applying through the guardian, it is mandatory to mention the PAN of the minor Applicant. However, Applications on behalf of the Central or State Government officials and the officials appointed by the courts in terms of a SEBI circular dated June 30, 2008, and Applicants residing in the state of Sikkim who in terms of a SEBI circular dated July 20, 2006, may be exempt from specifying their PAN for transacting in the securities market. In accordance with Circular No. MRD/DOP/Cir-05/2007 dated April 27, 2007, issued by SEBI, the PAN would be the sole identification number for the participants transacting in the securities market, irrespective of the amount of transaction. Any Application Form, without the PAN is liable to be rejected, irrespective of the amount of transaction. It is to be specifically noted that the Applicants should not submit the GIR number instead of the PAN as the Application is liable to be rejected on this ground.

However, the exemption for the Central or State Government and the officials appointed by the courts and for investors residing in the State of Sikkim is subject to the Depository Participants' verifying the veracity of such claims by collecting sufficient documentary evidence in support of their claims. At the time of ascertaining the validity of these Applications, the Registrar to the Issue will check under the Depository records for the appropriate description under the PAN field i.e., either Sikkim category or exempt category.

D. Joint Applications

If the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form

E. Additional/ Multiple Applications

An Applicant is allowed to make one or more Applications for the NCDs, subject to a minimum application size of ₹10,000 and in multiples of ₹1,000 thereafter as specified in the Prospectus. Any Application for an amount below the aforesaid minimum application size will be deemed as an invalid application and shall be rejected. However, multiple Applications by the same individual Applicant aggregating to a value exceeding ₹1,000,000 shall be deem such individual Applicant to be a HNI Applicant and all such Applications shall be grouped in the HNI Portion, for the purpose of determining the basis of allotment to such Applicant. However, any Application made by any person in his individual capacity and an Application made by such person in his capacity as a karta of a Hindu Undivided family and/or as Applicant (second or third Applicant), shall not be deemed to be a multiple Application. For the purposes of allotment of NCDs under the Issue, Applications shall be grouped based on the PAN, i.e., Applications under the same PAN shall be grouped together and treated as one Application. Two or more Applications will be deemed to be multiple Applications if the sole or first Applicant is one and the same. For the sake of clarity, two or more applications shall be deemed to be a multiple Application for the aforesaid purpose if the PAN of the sole or the first Applicant is one and the same.

Electronic registration of Applications

(a) The Designated Intermediaries will register the Applications using the on-line facilities of Stock Exchange. The Lead

Managers, Consortium Member, our Company, and the Registrar to the Issue are not responsible for any acts, mistakes or errors or omission and commissions in relation to (i) the Applications accepted by the Designated Intermediaries, (ii) the Applications uploaded by the Designated Intermediaries, (iii) the Applications accepted but not uploaded by the Designated Intermediaries, (iv) Applications accepted and uploaded by the SCSBs without blocking funds in the ASBA Accounts or (iv) Applications accepted and uploaded by the Designated Intermediaries for which the Application Amounts are not blocked by the SCSBs.

(b) The Stock Exchange will offer an electronic facility for registering Applications for the Issue. This facility will be available on the terminals of Consortium Members and the other Designated Intermediaries during the Issue Period. On the Issue Closing Date, the Consortium Members and the other Designated Intermediaries shall upload the Applications till such time as may be permitted by the Stock Exchange. This information will be available with the Consortium Members and the other Designated Intermediaries on a regular basis. Applicants are cautioned that a high inflow of high volumes on the last day of the Issue Period may lead to some Applications received on the last day not being uploaded and such Applications will not be considered for allocation.

(c) Based on the aggregate demand for Applications registered on the electronic facilities of the Stock Exchange, a graphical representation of consolidated demand for the NCDs, as available on the websites of the Stock Exchange, would be made available at the Application centers as provided in the Application Form during the Issue Period.

(d) At the time of registering each Application, the Designated Intermediaries, shall enter the details of the Applicant, such as the Application Form number, PAN, Applicant category, DP ID, Client ID, number and Option(s) of NCDs applied, Application Amounts and any other details that may be prescribed by the online uploading platform of the Stock Exchange.

(e) A system generated Acknowledgement Slip will be given to the Applicant as a proof of the registration of his Application. It is the Applicant's responsibility to obtain the Acknowledgement Slip from the Consortium Members or the other Designated Intermediaries, as the case may be. The registration of the Applications by the Designated Intermediaries does not guarantee that the NCDs shall be allocated/ Allotted by our Company. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind.

(f) The permission given by the Stock Exchange to use their network and software of the online system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company, and/or the Lead Managers are cleared or approved by the Stock Exchange; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the compliance with the statutory and other requirements nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Prospectus; nor does it warrant that the NCDs will be listed or will continue to be listed on the Stock Exchange.

(g) In case of apparent data entry error by the Designated Intermediaries, in entering the Application Form numbers in their respective schedules, other things remaining unchanged, the Application Form may be considered as valid, or such exceptions may be recorded in minutes of the meeting submitted to the Designated Stock Exchange.

(h) Only Applications that are uploaded on the online system of the Stock Exchange shall be considered for Allotment. The Designated Intermediaries shall capture all data relevant for the purposes of finalizing the Basis of Allotment while uploading Application data in the electronic systems of the Stock Exchange. In order that the data so captured is accurate, Designated Intermediaries will be given up to one Working Day after the Issue Closing Date to modify/ verify certain selected fields uploaded in the online system during the Issue Period after which the data will be sent to the Registrar to the Issue for reconciliation with the data available with the NSDL and CDSL.

Process for investor application submitted with UPI as mode of payment

(a) Before submission of the application with the intermediary, the investor would be required to have / create a UPI ID, with a maximum length of 45 characters including the handle (Example: InvestorID@bankname).

(b) An investor shall fill in the bid details in the application form along with his/ her bank account linked UPI ID and submit the application with any of the intermediaries or through the stock exchange App/ Web interface, or any other methods as may be permitted.

(c) The intermediary, upon receipt of form, shall upload the bid details along with the UPI ID on the stock exchange

bidding platform using appropriate protocols.

(d) Once the bid has been entered in the bidding platform, the Stock Exchange shall undertake validation of the PAN and Demat account combination details of investor with the depository.

(e) The Depository shall validate the aforesaid PAN and Demat account details on a near real time basis and send response to stock exchange which would be shared by stock exchange with intermediary through its platform, for corrections, if any.

(f) Once the bid details are uploaded on the Stock Exchange platform, the Stock Exchange shall send an SMS to the investor regarding submission of his / her application, at the end of day, during the bidding period. For the last day of bidding, the SMS may be sent the next working day.

(g) Post undertaking validation with the Depository, the Stock Exchange shall, on a continuous basis, electronically share the bid details along with investors UPI ID, with the Sponsor Bank appointed by the issuer.

(h) The Sponsor Bank shall initiate a mandate request on the investor

(i) The request raised by the Sponsor Bank, would be electronically received by the investor as a SMS / intimation on his / her mobile no. / mobile app, associated with the UPI ID linked bank account.

(j) The investor shall be able to view the amount to be blocked as per his / her bid in such intimation. The investor shall be able to view an attachment wherein the public issue bid details submitted by investor will be visible. After reviewing the details properly, the investor shall be required to proceed to authorize the mandate. Such mandate raised by Sponsor Bank would be a one-time mandate for each application in the public issue.

(k) An investor is required to accept the UPI mandate latest by 5 pm on the third working day from the day of bidding on the stock exchange platform except for the last day of the issue period or any other modified closure date of the issue period in which case, he / she is required to accept the UPI mandate latest by 5 pm the next working day.

(l) An investor shall not be allowed to add or modify the bid(s) of the application except for modification of either DP ID/Client ID, or PAN ID but not both. However, the investor can withdraw the bid(s) and reapply.

(m) For mismatch bids, on successful validation of PAN and DP ID/ Client ID combination during T+1 modification session, such bids will be sent to Sponsor Bank for further processing by the Exchange on T+1 day till 1 PM.

(n) The facility of re-initiation/ resending the UPI mandate shall be available only till 5 pm on the day of bidding.

(o) Upon successful validation of block request by the investor, as above, the said information would be electronically received by the investors' bank, where the funds, equivalent to application amount, would get blocked in investors account. Intimation regarding confirmation of such block of funds in investors account would also be received by the investor.

(p) The information containing status of block request (e.g., accepted / decline / pending) would also be shared with the Sponsor Bank, which in turn would be shared with the Stock Exchange. The block request status would also be displayed on the Stock Exchange platform for information of the intermediary.

(q) The information received from Sponsor Bank, would be shared by stock exchange with RTA in the form of a file for the purpose of reconciliation.

(r) Post closure of the offer, the Stock Exchange shall share the bid details with RTA. Further, the Stock Exchange shall also provide the RTA, the final file received from the Sponsor Bank, containing status of blocked funds or otherwise, along with the bank account details with respect to applications made using UPI ID.

(s) The allotment of debt securities shall be done as per SEBI NCS Regulations and SEBI Operational Circular.

(t) The RTA, based on information of bidding and blocking received from the Stock Exchange, shall undertake reconciliation of the bid data and block confirmation corresponding to the bids by all investor category applications (with and without the use of UPI) and prepare the basis of allotment.

(u) Upon approval of the basis of allotment, the RTA shall share the 'debit' file with Sponsor bank (through Stock Exchange) and SCSBs, as applicable, for credit of funds in the public issue account and unblocking of excess funds in the investor's account. The Sponsor Bank, based on the mandate approved by the investor at the time of blocking of funds, shall raise the debit / collect request from the investor's bank account, whereupon funds will be transferred from investor's account to the public issue account and remaining funds, if any, will be unblocked without any manual intervention by investor or their bank.

(v) Upon confirmation of receipt of funds in the public issue account, the securities would be credited to the investor's account. The investor will be notified for full/partial allotment. For partial allotment, the remaining funds would be unblocked. For no allotment, mandate would be revoked, and application amount would be unblocked for the investor.

(w) Thereafter, Stock Exchange will issue the listing and trading approval.

(x) Further, in accordance with the Operational Instructions and Guidelines for Making Application for Public Issue of Debt Securities through BSEDirect issued by BSE on December 28, 2020, the investor shall also be responsible for the following:

i. Investor shall check the Issue details before placing desired bids;
ii. Investor shall check and understand the UPI mandate acceptance and block of funds process before placing the bid;
iii. The receipt of the SMS for mandate acceptance is dependent upon the system response/ integration of UPI on Debt Public Issue System;
iv. Investor shall accept the UPI Mandate Requests within the stipulated timeline;
v. Investor shall note that the transaction will be treated as completed only after the acceptance of mandates by the investor by way of authorising the transaction by entering their UPI pin and successfully blocking funds through the ASBA process by the investor's bank;
vi. Investor shall check the status of their bid with respect to the mandate acceptance and blocking of funds for the completion of the transaction; and
vii. In case the investor does not accept the mandate within stipulated timelines, in such case their bid will not be considered for allocation.

General Instructions

Do's

1. Check if you are eligible to apply as per the terms of the Prospectus and applicable law;
2. Read all the instructions carefully and complete the Application Form in the prescribed form;
3. Ensure that you have obtained all necessary approvals from the relevant statutory and/or regulatory authorities to apply for, subscribe to and/or seek Allotment of NCDs pursuant to the Issue.
4. Ensure that the DP ID and Client ID are correct and beneficiary account is activated for Allotment of NCDs in dematerialized form. The requirement for providing Depository Participant details shall be mandatory for all Applicants.
5. Ensure that you have mentioned the correct ASBA Account number in the Application Form;
6. Ensure that you have funds equal to the Application Amount in the ASBA Account before submitting the Application Form to the respective Designated Branch of the SCSB, or to the Intermediaries, as the case may be.
7. Ensure that you have been given an acknowledgement as proof of having accepted the Application Form;
8. In case of any revision of Application in connection with any of the fields which are not allowed to be modified on the electronic application platform of the Stock Exchange as per the procedures and requirements prescribed by each relevant Stock Exchange, ensure that you have first withdrawn your original Application and submit a fresh Application. For instance, as per the notice No: 20120831-22 dated August 31, 2012, issued by the BSE, fields namely, quantity, series, application no., sub-category codes will not be allowed for modification during the Issue. In such a case the date of the fresh Application will be considered for date priority for allotment purposes.
9. Ensure that signatures other than in the languages specified in the Eighth Schedule to the Constitution of India is attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal.

For information on certain procedures to be carried out by the Registrar to the Issue for finalization of the basis of allotment, please see below "*Issue Procedure-Information for Applicants*".

Information for Applicants

In case of ASBA Applications submitted to the SCSBs, in terms of the SEBI circular CIR/CFD/DIL/3/2010 dated April 22, 2010, the Registrar to the Issue will reconcile the compiled data received from the Stock Exchange and all SCSBs and match the same with the Depository database for correctness of DP ID, Client ID and PAN. The Registrar to the Issue will undertake technical rejections based on the electronic details and the Depository database. In case of any discrepancy between the electronic data and the Depository records, our Company, in consultation with the Designated Stock Exchange, the Lead Managers and the Registrar to the Issue, reserves the right to proceed as per the Depository records for such ASBA Applications or treat such ASBA Applications as rejected.

In case of Applicants submitted to the Lead Managers, Consortium Member and Trading Members of the Stock Exchange at the Specified Cities, the basis of allotment will be based on the Registrar 's validation of the electronic details with the Depository records, and the complete reconciliation of the final certificates received from the SCSBs with the electronic details in terms of the SEBI circular CIR/CFD/DIL/1/2011 dated April 29, 2011. The Registrar to the Issue will undertake technical rejections based on the electronic details and the Depository database. In case of any discrepancy between the electronic data and the Depository records, our Company, in consultation with the Designated Stock Exchange, the Lead Managers and the Registrar to the Issue, reserves the right to proceed as per the Depository records or treat such ASBA Application as rejected.

Based on the information provided by the Depositories, our Company shall have the right to accept Applications belonging to an account for the benefit of a minor (under guardianship).

In case of Applications for a higher number of NCDs than specified for that category of Applicant, only the maximum amount permissible for such category of Applicant will be considered for Allotment.

Mode of making refunds

The Registrar to the Issue shall instruct the relevant SCSB to unblock the funds in the relevant ASBA Account to the extent of the Application Amount specified in the Application Forms for withdrawn, rejected or unsuccessful or partially successful Applications within 5 Working Days of the Issue Closing Date.

Retention of oversubscription

Our Company shall have an option to retain over-subscription up to the Issue limit.

Basis of Allotment

The Registrar will aggregate the Applications, based on the applications received through an electronic book from the Stock Exchange and determine the valid Application for the purpose of drawing the valid Applications for the purpose of drawing the basis of allocation.

Grouping of Applications and allocation ratio

For the purposes of the basis of allotment:

A. *Applications received from Category I Applicants:* Applications received from Applicants belonging to Category I shall be grouped together, ("**Institutional Portion**");

B. *Applications received from Category II Applicants:* Applications received from Applicants belonging to Category II, shall be grouped together, ("**Non-Institutional Portion**").

C. *Applications received from Category III Applicants:* Applications received from Applicants belonging to Category III shall be grouped together, ("**High Net-worth Individual Category Portion**").

D. *Applications received from Category IV Applicants:* Applications received from Applicants belonging to Category IV shall be grouped together, ("**Retail Individual Category Portion**").

For removal of doubt, the terms "Institutional Portion", "Non-Institutional Portion", "High Net-worth Individual Category Portion" and "Retail Individual Category Portion" are individually referred to as "Portion" and collectively referred to as "Portions".

Allocation Ratio

Institutional Portion	Non-Institutional Portion	High Net Worth Individual Investors Portion	Retail Individual Investors Portion
10%	10%	40%	40%

(d) Allotments in the first instance:

i. Applicants belonging to the Institutional Portion, in the first instance, will be allocated NCDs up to 10 % of Issue size on first come first serve basis which would be determined on the date of upload of their Applications into the electronic platform of the Stock Exchange;

ii. Applicants belonging to the Non-Institutional Portion, in the first instance, will be allocated NCDs up to 10 % of Issue size on first come first serve basis which would be determined on the date of upload of their Applications into the electronic platform of the Stock Exchange;

iii. Applicants belonging to the High-Net-Worth Individual Investors Portion, in the first instance, will be allocated NCDs up to 40 % of Issue size on first come first serve basis which would be determined on the date of upload of their Applications into the electronic platform of the Stock Exchange; and

iv. Applicants belonging to the Retail Individual Investors Portion, in the first instance, will be allocated NCDs up to 40 % of Issue size on first come first serve basis which would be determined on the date of upload of their Applications into the electronic platform of the Stock Exchange.

Allotments, in consultation with the Designated Stock Exchange, shall be made on date priority basis i.e., a first come first-serve basis, based on the date of upload of each Application in to the Electronic Book with the Stock Exchange, in each Portion subject to the Allocation Ratio indicated at the section titled "*Issue Procedure – Basis of Allotment*" at page 263.

As per the SEBI Operational Circular, the allotment in this Issue is required to be made on the basis of date of upload of each application into the electronic book of the Stock Exchange. However, on the date of oversubscription and thereafter, the allotments should be made to the applicants on proportionate basis.

(e) Under Subscription: If there is any under subscription in any Category, priority in Allotments will be given to the Retail Individual Investors Portion, High Net Worth Individual Investors Portion, and balance, if any, shall be first made to applicants of the Non-Institutional Portion, followed by the Institutional Portion on a first come first serve basis, on proportionate basis. If there is under subscription in the overall Issue size due to undersubscription in each Portion, all valid Applications received till the end of last day of the Issue Closure day shall be grouped together in each Portion and full and firm Allotments will be made to all valid Applications in each Portion.

(f) For each Category, all Applications uploaded on the same day onto the electronic platform of the Stock Exchange would be treated at par with each other. Allotment would be on proportionate basis, where NCDs uploaded into the platform of the Stock Exchanges on a particular date exceeds NCDs to be Allotted for each portion respectively.

(g) Minimum Allotments of 1 (one) NCD and in multiples of 1 (one) NCD thereafter would be made in case of each valid Application to all Applicants.

(h) Allotments in case of oversubscription: In case of an oversubscription, allotments to the maximum extent, as possible, will be made on a first-come first-serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription and proportionate allotment of NCDs to the Applicants on the date of oversubscription and thereafter (based on the date of upload of each Application on the electronic platform of the Stock Exchange, in each Portion).

For the purpose of clarity, in case of oversubscription please see the below indicative scenarios:

In case of an oversubscription in all Portions resulting in an oversubscription in the Issue size, Allotments to the maximum permissible limit, as possible, will be made on a first-come first serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription to respective Portion and proportionate allotment of NCDs to the Applicants on the date of oversubscription in respective Portion (based on the date of upload of each Application on the electronic platform of the Stock Exchanges in each Portion).

In case there is oversubscription in Issue size, however there is under subscription in one or more Portion(s) Allotments will be made in the following order:

i. All valid Applications in the undersubscribed Portion(s) uploaded on the electronic platform of the Stock Exchanges till the end of the last day of the Issue Period, shall receive full and firm allotment

ii. In case of Portion(s) that are oversubscribed, allotment shall be made to valid Applications received on a first come first serve basis, based on the date of upload of each Application into the electronic platform of the Stock Exchanges. Priority for allocation of the remaining undersubscribed Portion(s) shall be given today wise Applications received in the Retail Individual Investors Portion followed by High-Net-Worth Individual Investors Portion, next Non-Institutional Portion and lastly Institutional Portion each according to the day of upload of Applications to the Electronic Book with Stock Exchange during the Issue period. For the sake of clarity, the allotment in case of oversubscription, shall be done as per the SEBI Operational Circular.

(f) *Proportionate Allotments: For each Portion, on the date of oversubscription:*

i. Allotments to the Applicants shall be made in proportion to their respective Application size, rounded off to the nearest integer.

ii. If the process of rounding off to the nearest integer results in the actual allocation of NCDs being higher than the Issue size, not all Applicants will be allotted the number of NCDs arrived at after such rounding off. Rather, each Applicant whose Allotment size, prior to rounding off, had the highest decimal point would be given preference.

iii. In the event, there are more than one Applicant whose entitlement remain equal after the manner of distribution referred to above, our Company will ensure that the basis of allotment is finalised by draw of lots in a fair and equitable manner.

(g) *Applicant applying for more than one Series of NCDs*: If an Applicant has applied for more than one Series of NCDs and in case such Applicant is entitled to allocation of only a part of the aggregate number of NCDs applied for, the Series-wise allocation of NCDs to such Applicants shall be in proportion to the number of NCDs with respect to each Series, applied for by such Applicant, subject to rounding off to the nearest integer, as appropriate in consultation with the Lead Managers and the Designated Stock Exchange. Further, in the aforesaid scenario, wherein the Applicant has applied for all the 10 (ten) Series and in case such Applicant cannot be allotted all the 10 (ten) Series, then the Applicant would be allotted NCDs, at the discretion of the Company, the Registrar and the Lead Managers as may be decided at the time of Basis of Allotment.

(h) Unblocking of Funds for withdrawn, rejected or unsuccessful or partially successful Applications: The Registrar shall, pursuant to preparation of Basis of Allotment, instruct the relevant SCSB to unblock the funds in the relevant ASBA Account for withdrawn, rejected or unsuccessful or partially successful Applications within 6 (six) Working Days of the Issue Closing Date.

All decisions pertaining to the basis of allotment of NCDs pursuant to the Issue shall be taken by our Company in consultation with the Lead Managers and the Designated Stock Exchange and in compliance with the aforementioned

provisions of this Prospectus. Any other queries / issues in connection with the Applications will be appropriately dealt with and decided upon by our Company in consultation with the Lead Managers.

Our Company would allot Series IV NCDs to all valid applications, wherein the applicants have not indicated their choice of the relevant series of the NCDs.

Applications where the Application Amount received is greater than the minimum Application Amount, and the Application Amount paid does not tally with the number of NCDs applied for may be considered for Allotment, to the extent of the Application Amount paid rounded down to the nearest ₹ 1,000.

Payment of Refunds:

The Registrar shall instruct the relevant SCSB to unblock the funds in the relevant ASBA Account for withdrawn, rejected or unsuccessful or partially successful ASBA Applications within the applicable regulatory timelines.

Issuance of Allotment Advice

Our Company shall ensure dispatch of Allotment Advice as per the Demographic Details received from the Depositories. Instructions for credit of NCDs to the beneficiary account with Depository Participants shall be made within 5 Working Days of the Issue Closing Date

Our Company shall use best efforts to ensure that all steps for completion of the necessary formalities and approvals for the commencement of trading at the Stock Exchange where the NCDs are proposed to be listed are taken within 5 Working Days from the Issue Closing Date.

Allotment Advice shall be issued, or Application Amount shall be unblocked within 15 (fifteen) days from the Issue Closing Date, or such lesser time as may be specified by SEBI or else the application amount shall be unblocked in the ASBA Accounts of the applicants forthwith, failing which interest shall be due to be paid to the applicants at the rate of fifteen per cent. per annum for the delayed period.

Our Company will provide adequate funds required for dispatch of Allotment Advice, as applicable, to the Registrar to the Issue.

Investor Withdrawals and Pre-closure

Investor Withdrawal: Applicants can withdraw their ASBA Applications till the issue closure date by submitting a request for the same to the Consortium Members, Trading Member of the Stock Exchange or the Designated Branch, as the case may be, through whom the ASBA Application had been placed. In case of ASBA Applications submitted to the Lead Managers, Consortium Member, or Trading Members of the Stock Exchange at the Specified Cities, upon receipt of the request for withdrawal from the Applicant, the relevant Lead Managers, or Trading Member of the Stock Exchange, as the case may be, shall do the requisite, including deletion of details of the withdrawn ASBA Application Form from the electronic system of the Stock Exchange. 3. Subject to the provisions of the Act and these Articles, the Board may issue and allot shares in the capital of the Company on payment or part payment for any property or assets of any kind, whatsoever, sold or transferred, goods or machinery supplied or for services rendered to the Company in the conduct of its business and any shares which may be so allotted may be issued either as fully paid-up or party paid-up otherwise than for cash.

4. The Company may issue the following kinds of shares in accordance with these Articles, the Act and other applicable laws:

   (a) Equity Share Capital:

      i. With voting right; and/or

      ii. With differential rights as to dividend, voting or otherwise in accordance with the Act; and

   (b) Preference Share Capital.

5. A Person subscribing to the securities of the Company shall have the option either to receive certificates for such securities or hold such securities in a dematerialised state with a depository. Where a person opts to hold any securities with the depository, the Company shall intimate such depository the details of the securities to enable the depository to enter in its records the name of such person as the beneficial owner of such securities.

6.

(1) The Company may exercise the powers of paying commission conferred by the Act to any person in connection with the subscription to its securities, provided that the rate per cent or the amount of the commission paid or agreed to be paid shall be disclosed in the manner required by the Act.

(2) The rate or amount of the commission shall not exceed the rate or amount prescribed in the Act.

7.

(1) If at any time the share capital of the Company is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may, subject to the provisions of the Act, and whether or not the Company is being wound up, be varied with the consent in writing of the holders of the issued shares of that class, or with the sanction of a resolution passed at a separate meeting of the holders of the shares of that class as prescribed by the Act.

(2) The provisions of this Article shall mutatis mutandis apply to other securities including debentures of the Company.

(3) To every such separate meeting, the provisions of these Articles relating to general meetings shall mutatis mutandis apply.

8. The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking pari passu therewith.

9.

(1) Subject to the provisions of the Act, the Board shall have the power to issue preference shares of one or more classes which are liable to be redeemed, or converted in to equity shares or other securities, on such terms and conditions and in such manner as determined by the Board in accordance with the Act.

(2) A further issue of securities may be made in any manner and on such terms, whatsoever, as the Board may determine including by way of preferential offer or private placement, subject to and in accordance with the Act.

Lien

10.

(1) The Company shall have a first and paramount lien—

(a) on every share (not being a fully paid share), for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share; and

(b) on all shares (not being fully paid shares) standing registered in the name of a person, for all monies presently payable by him or his estate to the Company: Provided that the Board may at any time declare any share to be wholly or in part exempt from the provisions of this clause.

(2) The Company's lien, if any, on a share shall extend to all dividends or interest, as the case may be, payable and bonuses declared from time to time in respect of such shares for any money owing to the Company.

11. The Company may sell, in such manner as the Board thinks fit, any shares on which the Company has a lien:

Provided that no sale shall be made—

(a) unless a sum in respect of which the lien exists is presently payable; or

(b) until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or the person entitled thereto by reason of his death or insolvency or otherwise.

12.

(1) To give effect to any such sale, the Board may authorise some person to transfer the shares sold to the purchaser thereof

(2) The purchaser shall be registered as the holder of the shares comprised in any such transfer.

(3) The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.

13.

(1) The proceeds of the sale shall be received by the company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.

(2) The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the shares before the sale, be paid to the person entitled to the shares at the date of the sale.

(3) In exercising its lien, the Company shall be entitled to treat the registered holder of any share as the absolute owner thereof and accordingly shall not (except as ordered by a court of competent jurisdiction or unless required by any statute) be bound to recognise any equitable or other claim to, or interest in, such share on the part of any other person, whether a creditor of the registered holder or otherwise. The Company's lien shall prevail notwithstanding that it has received notice of any such claim.

(4) The provisions of these Articles relating to lien shall mutatis mutandis apply to any other securities including debentures of the Company.

Alteration of Capital

14. Subject to the provisions of the Act, the Company may, by an ordinary resolution: -

(a) increase the share capital by such sum, to be divided into shares of such amount, as it may think expedient;

(b) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares; provided that any consolidation and division which results in changes in the voting percentage of members shall require applicable approvals under the Act;

(c) convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination;

(d) sub-divide its existing shares or any of them into shares of smaller amount than is fixed by the Memorandum;

(e) Cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person.

15. The Company may, by a resolution, or as may be prescribed by the Act, reduce in any manner and in accordance with the provisions of the Act: -

(a) its share capital; and/or

(b) any capital redemption reserve account; and/or

(c) any security premium account; and/or

(d) any other reserve in the nature of share capital.

Capitalization of Profits

16.

(1) The Company by an ordinary resolution may, upon the recommendation of the Board, resolve—

(a) that it is desirable to capitalise any part of the amount for the time being standing to the credit of any of the Company's Reserve Account(s), or to the credit of the profit and loss account, or otherwise available for distribution; and

(b) that such sum be accordingly set free for distribution in the manner specified in clause (2) below amongst the members who would have been entitled thereto, if distributed by way of dividend and in the same proportions.

(2) The sum aforesaid shall not be paid in cash but shall be applied, subject to the provision contained in clause (3) hereunder, either in or towards

(a) paying up any amounts for the time being unpaid on any shares held by such members respectively;

(b) paying up in full, unissued shares or other securities of the Company to be allotted and distributed, credited as fully paid-up, to and amongst such members in the proportions aforesaid;

(c) partly in the way specified in sub-clause (a) and partly in that specified in sub-clause (b);

(3) The Securities Premium Account and/or the Capital Redemption Reserve Account may, for the purposes of this Article, be applied in the paying up of unissued shares to be issued to the members of the Company as fully paid bonus shares;

(4) The Board shall give effect to the resolution passed by the Company in pursuance of this Article.

68. Board Composition

(a) On and from the First Closing Date, the Board of the Company shall comprise of up to 5 (five) directors, of which 4 (four) directors shall be persons nominated by the Investor (**"Investor Directors"**) and 1 (one) director shall be a person nominated by EFSL (**"EFSL Director"**). In case any independent directors are required to be appointed to the Board of the Company, the Investor shall have the right to recommend persons for such appointment. In the event, the board strength of the Company is increased to more 5 (five) directors, the board composition shall be as set out in Clause 5.1.1 of ESL Shareholders' Agreement in relation to the Company.

(b) Notwithstanding anything contained in these Articles, the Company and the Shareholders shall take all necessary steps and actions (including exercise of voting rights available to such Party in respect of the Company) to appoint and give effect to the appointment (or re-appointment, as applicable) of the Investor Directors, the EFSL Director and the independent directors in accordance with Article 68(a) above. The Investor and EFSL shall ensure that each person nominated by it for appointment as a Director is sufficiently qualified and experienced

to act as a Director.

(c) The right of the Investor and EFSL to appoint the Investor Directors and the EFSL Director, respectively under these Articles shall include the right of such Party to determine the period during which such Person shall hold the office of Director and to remove, at any time, such Investor Directors or the EFSL Directors as the case may be, from office as a Director in accordance with Article 69 If an Investor Director or an EFSL Director is removed under Article 69 or ceases to hold office for any other reason, the Investor or EFSL, as the case may be, shall be entitled to nominate another Person for appointment as Director in his or her place, and the Parties agree to procure that he or she is appointed as a Director as promptly as practicable.

(d) In the event that any appointment or removal of any Director nominated by any Party requires prior approval from any Governmental Authority, such appointment or removal shall be subject to receipt of such approval and the Company shall make an application for seeking the prior approval of the relevant Governmental Authority in respect of such appointment or removal.

(e) Independent Directors

(i) The Parties shall, in good faith, evaluate the performance of the independent directors appointed on the Board (in accordance with Article 68(a)) from time to time and consider if the independent directors recommended by each of them should be recommended for re-appointment from time to time, subject to Applicable Law.

(ii) An independent director recommended in accordance with the terms of this Article 68(e) shall, subject to compliance with Applicable Law, be appointed by the Board (in accordance with Article 68(a)) and approved by the Shareholders, provided however that nothing in this Article 68(e) will require, or be deemed to obligate, an independent director to represent the interests of the Shareholder who has made the recommendation for his or her appointment.

69. Removal of Directors; Vacancy

(a) Each of the Investor and EFSL shall be entitled, by notice in writing to the Company, to require any Director nominated by it to resign or be removed from such position and such Director may only be removed by the Investor or EFSL, as the case may be, and no Shareholder shall otherwise exercise any voting rights or other power to remove a Director appointed by another Shareholder, except:

(i) where EFSL ceases to have the right to appoint the EFSL Directors in accordance with Clause 16.5 of the ESL Shareholders' Agreement (*Fall Away of Rights*), and EFSL, has failed to procure the resignation of the EFSL Director from the Board within 2 (two) days of ceasing to be entitled to have the right to nominate such Director to the Board; or

(ii) where such Director is, or becomes, disqualified or ineligible to act as a Director under Applicable Law.

(b) In case of a removal of a Director in accordance with Article 69(a) above, except where such removal is not with the consent of the Person resigning, the Investor or EFSL, as the case may be, shall ensure that a signed written resignation is delivered to the Company by the Director being so removed along with an unconditional release by such Person from any claims or demands against the Company in respect of fees, remuneration, compensation for loss of office or otherwise.

(c) If any vacancy in the position of an Investor Director or EFSL Director exists and no replacement is nominated by the Investor or EFSL, respectively, then such position on the Board will remain vacant unless otherwise required to be filled under Applicable Law. It is clarified that any vacancy in respect of any position on the Board will not impact or diminish the rights of any Party entitled to appoint a Director under these Articles.

70. Alternate Directors

Subject to Applicable Law, the Board shall, if requested by any Director, appoint another Person to act as an alternate Director in place of such Director during his or her absence from India, or remove such Person who has been appointed as his/her alternate Director. The appointment of the alternate Director shall be in accordance with the provisions of the Act and shall be the first matter to be decided at any Board Meeting.

71. Chairperson of the Board

The chairperson of the Board shall be one of the Investor Directors nominated by the Investor ("**Chairperson**") and the Chairperson shall preside over all meetings of the Board. In the absence of the Chairperson at any such meeting, any of the other Investor Directors shall preside over such meeting and be considered as the Chairperson for such meeting.

72. Qualification

Any Director may at any time request in writing that a Board Meeting be called. Except in the case of urgency (in which case the shorter notice convening the meeting must indicate the nature of, and the reasons for, the urgency), or any adjourned meeting held in accordance with Article 79(c), at least 7 (seven) Business Days' written notice of each meeting of the Board must be given to each Director by the Chairperson, the company secretary of the Company or any Director, in accordance with Applicable Law.

76. Agenda

A notice calling a Board Meeting must be accompanied by an agenda of all the business to be transacted at such meeting, along with necessary background and all other related information and/or supporting documents pertaining to the business proposed to be transacted at such meeting. No matter shall be raised at such Board Meeting that is not on the agenda. However, matters (other than Reserved Matters), that are not on the agenda, may be raised at a Board Meeting, if a written notice of such additional matter is given to each Director at least 24 hours prior to the scheduled Board Meeting.

77. Location

Each Board Meeting must be held in Mumbai at the time set out in the notice of meeting, on a Business Day.

78. Use of Technology

(a) The Board may, subject to Applicable Law, conduct meetings by video-conferencing or other audio-visual means:

(i) which are capable of recording and recognising the participation of the Directors and of recording and storing the proceedings of such meetings along with date and time; and

(ii) which will enable each Director to: (a) hear (or otherwise receive real-time communications made by) each of the other Directors participating in the meeting; and (b) address (or otherwise communicate in real time with) all of the other Directors participating in the meeting simultaneously, even if all the Directors are not physically present in the same place.

(b) In case of a Board Meeting held under Article 78(a) above, the scheduled venue of the meeting as set forth in the notice convening the meeting shall be deemed to be the place of such meeting and all recordings of

the proceedings at the meeting shall be deemed to be made at such place.

(c) Subject to Article 79 (*Quorum*), if a technological link fails, the Board Meeting held under Article 78(a) above will be adjourned until the failure is rectified.

(d) The provisions of this Article 78 will be subject to Applicable Law and physical meetings shall be conducted for any matters that cannot be dealt with through video-conferencing or other audio-visual means technology under Applicable Law.

79. Quorum

(a) Subject to Applicable Law and Article 93 (*Reserved Matters*), the quorum for a meeting of the board of directors of the Company shall be the presence of 3 (three) Directors, who shall include the presence of (i) 2 (two) directors nominated by the Investor; and (ii) 1 (one) director nominated by EFSL. In the event the strength of the board of directors of the Company is increased from 5 (five) directors in accordance with Article 68(a), the quorum for board meetings of the Company shall be the same as the quorum applicable to ESL in accordance with Clause **Error! Reference source not found.** of the ESL Shareholders' Agreement (*Quorum*).

(b) For the purposes of determining whether a quorum is present in accordance with this Article 79, an alternate Director is to be counted as a Director for each Director on whose behalf the alternate Director is attending the meeting.

(c) If a quorum is not present at a duly convened Board Meeting within 30 (thirty) minutes of the time appointed for the start of the meeting ("**Initial Meeting**"), the meeting shall stand adjourned to the same day of the immediately following week (if such day is not a Business Day, then the meeting shall be held on the next Business Day), at the same time and place, and the quorum for any such adjourned meeting shall be any 7 (seven) Directors and all business transacted thereat shall be regarded as having been validly transacted and all resolutions passed thereat shall be regarded as having validly passed, provided that (i) no decision regarding any Reserved Matter shall be taken at any meeting (including any adjourned meeting) unless an EFSL Director, is present or the consent of EFSL, has been obtained in accordance with Article 93 (*Reserved Matters*); and (ii) the Board shall only be authorized to transact business as provided in the notice of the Initial Meeting.

Dear Mr. Shivaraman Iyer,

Re: CRISIL Rating on the Rs.300 Crore Non Convertible Debentures[&] of Edelweiss Broking Limited

We refer to your request for a rating for the captioned Debt instrument.

CRISIL Ratings has, after due consideration, assigned a CRISIL AA-/Negative (pronounced as CRISIL double A minus rating with Negative outlook) rating on the captioned debt instrument. Instruments with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk.

Further, in view of your decision to accept the CRISIL Rating, we request you to apprise us of the instrument details (in the enclosed format) as soon as it has been placed. In the event of your company not making the issue within a period of 180 days from the above date, or in the event of any change in the size or structure of your proposed issue, a fresh letter of revalidation from CRISIL Ratings will be necessary.

As per our Rating Agreement, CRISIL Ratings would disseminate the rating along with outlook through its publications and other media, and keep the rating along with outlook under surveillance for the life of the instrument. CRISIL Ratings reserves the right to withdraw, or revise the rating / outlook assigned to the captioned instrument at any time, on the basis of new information, or unavailability of information, or other circumstances which CRISIL Ratings believes may have an impact on the rating.

As per SEBI circular (reference number: CIR/IMD/DF/17/2013; dated October 22, 2013) on centralized database for corporate bonds/debentures, you are required to provide international securities identification number (ISIN; along with the reference number and the date of the rating letter) of all bond/debenture issuances made against this rating letter to us. The circular also requires you to share this information with us within 2 days after the allotment of the ISIN. We request you to mail us all the necessary and relevant information at debtissue@crisil.com. This will enable CRISIL Ratings to verify and confirm to the depositories, including NSDL and CDSL, the ISIN details of debt rated by us, as required by SEBI. Feel free to contact us at debtissue@crisil.com for any clarification you may need.

Should you require any clarification, please feel free to get in touch with us.

Refer to Annexure for Details of Instruments & Bank Facilities

Detailed Rationale

CRISIL Ratings has assigned its **'CRISIL AA-/Negative'** rating to the Rs 1,000 crore non-convertible debentures (NCDs) of Edelweiss Broking Ltd (EBL; part of the Edelweiss group) and has reaffirmed its 'CRISIL AA-/CRISIL PP-MLD AA-r/Negative/CRISIL PP-MLD A1+r/CRISIL A1+' ratings on other debt instruments of the company.

The ratings continue to reflect the adequate capitalisation level of the group, supported by multiple rounds of capital raising; the diversified business profile with presence across lending, asset management, wealth management, broking, asset reconstruction and insurance segments; and demonstrated ability to build significant presence in multiple lines of business, which should continue to support earnings. The group also maintains adequate liquidity on an ongoing basis.

The continuation of the 'Negative' outlook reflects the challenges in profitability and asset quality that the group has been facing largely on account of stress on its wholesale lending book. The retail lending book was also impacted amid the Covid-19 pandemic. Trends in profitability and asset quality, over the medium term, will be key monitorables.

Despite the challenging macro environment for non-banking companies, the group has been able to raise capital from marquee global investors. During the last quarter of fiscal 2021, the group concluded the sale of its majority stake in Edelweiss Wealth Management (EWM; comprising wealth management and capital markets business) to PAG (Pacific Alliance Group, Asia-focused alternative investment managers) for Rs 2,366 crore. As on December 31, 2021, PAG holds 55.84% of the business, while the Edelweiss group holds 44.16% (increased from 38.5% as on September 30, 2021). Between March and November 2019, the group raised Rs 1,334 crore (in aggregate) from Caisse de depot et placement du Quebec (CDPQ), Kora Management (Kora; a US-based investment firm) and Sanaka Growth SPV I Ltd (part of Sanaka Capital). It had also raised Rs 268 crore in October 2021, by divesting its 61% stake in the insurance broking venture to Arthur Gallagher. The latter now holds 91% in the insurance broking venture of the Edelweiss group and will acquire the balance 9% in the current fiscal.

These stake sales have helped absorb asset-side risk. Despite business losses in fiscals 2020 and 2021, networth has been steady at Rs 8,542 crore as on March 31, 2021 (Rs 8,715 crore as on March 31, 2019). With decline in borrowings, gearing also reduced to around 3 times from around 4 times over the same period. Networth and gearing stood at Rs 8,663 crore and 2.8 times, respectively, as on December 31, 2021.

The group has diversified business interests in financial services domain. Over the years, It has significantly scaled up operations of its non-lending businesses, including the asset reconstruction company (ARC), asset management and wealth management, which now contribute a higher share of revenue and profits and are likely to support the overall earnings profile going forward.

The group also maintains adequate liquidity. The overnight on-balance-sheet liquidity (including cash, liquid investments and treasury assets) stood at around Rs 1,900 crore and unutilised bank lines at Rs 300 crore as on January 31, 2022. The group also has other liquid assets (investments and securities-based lending) that can be accessed, if necessary. This was Rs 3,050 crore as on January 31, 2022. The group raised Rs 7,565 crore in fiscal 2021 and Rs 5,873 crore from April to January 31, 2022 through bank loans, securitisation, structured NCDs and retail bonds.

As for asset quality, overall reported gross stage III assets in the lending business improved to 4.89% as on December 31, 2021, from 7.7% as on March 31, 2021 (5.3% in the previous year). On an absolute basis, stage III assets reduced to Rs 657 crore as on December 31, 2021, from Rs 1,182 crore as on March 31, 2021 (Rs 1,114 crore, a year earlier), supported by write-offs and sale to ARCs worth Rs 382 crore during the first nine months of fiscal 2022, and Rs 2,047 crore in fiscal 2021. The group had also restructured 3.7% of its portfolio in line with the Resolution Framework for Covid-19-related stress (restructuring 2.0), released by the Reserve Bank of India (RBI) August 2020.

The group had aligned stage III assets with gross NPAs and reported stage III assets to factor in impact of RBI's clarification on recognition and calculation of NPAs released on November 12, 2021.

The group continues to move towards an asset-light model through sell-down of wholesale assets and co-lending arrangements in the retail lending business. In wholesale finance, it is shifting the assets to a fund platform, which will provide completion finance to projects. Although, the group has already concluded transactions aggregating over Rs 2,500 crore in the past 18 months, the overall sell-down has been lower than anticipated., nevertheless, the group is in discussions for concluding additional transactions.

The increased stress in the loan book and consequent rise in provisions, including management overlay, had impacted the group's earnings profile during fiscals 2021 and 2020; however, credit cost has normalised during the nine months through fiscal 2022. On a consolidated basis, while the group reported net profit of Rs 254 crore in fiscal 2021 (loss of Rs 2,044 crore in fiscal 2020), it was primarily due to a one-off gain from stake sale in the wealth management business. Excluding this one-off gain, the group would have reported net loss in fiscal 2021 as well. For nine months ended fiscal 2022, the group reported net profit of Rs 146 crore after reducing wealth management shareholder's profit of Rs 21 crore, compared to loss of Rs 382 crore during corresponding period of previous fiscal.

Improvement in asset quality and profitability will be key rating sensitivity factors.

Analytical Approach

For arriving at the ratings, CRISIL Ratings has combined the business and financial risk profiles of Edelweiss Financial Services Ltd (EFSL), its subsidiaries (including EBL) and associates in the wealth management business. This is because all these entities have significant operational, financial and managerial linkages, and operate under a common Edelweiss brand.

Please refer Annexure - List of Entities Consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers & Detailed Description

Strengths:

Adequate capitalisation, supported by multiple capital raises

The Edelweiss group has demonstrated its ability to raise capital from global investors across businesses, despite the tough macro environment. The group has raised Rs 4,008 crore (of which Rs 40 crore is expected in the last quarter of fiscal 2022), over the past 36 months across the lending, wealth management and asset management businesses. This has helped maintain the capital position, despite elevated credit cost and absorb asset-side risk.

With the scale-down of the lending business in the past few quarters, borrowings have also come down. With this, gearing has improved to 2.8 times as on December 31, 2021 (~3 times as on March 31, 2021) from ~4 times as on March 31, 2020.

Diversified financial services player, with demonstrated ability to build significant competitive positions across businesses

The Edelweiss group is a diversified financial services player, present in five verticals i.e., credit (wholesale and retail), insurance (life and general), asset management (AMC and alternate asset management), asset reconstruction and wealth management. The group has attained sizeable scale in many of these businesses over a period, which is likely to lend greater stability to earnings over time.

In the lending business of book size of Rs 13,424 crore as on December 31, 2021 (Rs 13,719 crore as on September 30, 2021 and Rs 15,279 crore as on March 31, 2021), excluding capital deployed in distressed assets credit, the group plans to focus on increasing the granularity of the loan book. As part of this strategy, it will focus on growing the retail book (~52% of total credit book as on December 31, 2021) comprising primarily of mortgage and micro, small and medium enterprises (MSME) loans. Growth in the wholesale credit book is expected to be predominantly through the fund structure.

In the distressed assets segment, Edelweiss ARC is the largest ARC in India, with total securities receipts managed at Rs 41,814 crore as on December 31, 2021 (vis-à-vis Rs 40,800 crore as on March 31, 2021). From being largely corporate focused, the group has, in the recent past, started focusing on retail and MSME segments. The share of retail is expected to grow, over the medium term, from 11% as on December 31, 2021.

Scale and profit of fee-based businesses have also increased in the past few fiscals. The group has an established franchise in institutional broking and investment banking, and growing reach in the retail broking, wealth management and asset management segments.

Assets under advice in the global wealth management business were Rs 1,93,500 crore (Rs 1,55,000 crore as on March 31, 2021) and assets under management (AUM) in the asset management business were Rs 1,12,100 crore (of which Rs 82,000 crore are mutual fund assets and Rs 30,200 crore are alternative assets) as on December 31, 2021. The group is among the larger players in the alternate assets space.

Furthermore, the life and general insurance businesses are gaining scale and are also expected to break even over the medium term.

Weaknesses

Asset quality remains vulnerable

Overall stage III assets ratio rose to 4.9% (Rs 657 crore) as on December 31, 2021, from 4.5% (Rs 617 crore) as on September 30, 2021; yet remained below 7.7% reported as on March 31, 2021 (Rs 1,182 crore). This is largely attributed to the clarification on recognition and calculation) released by the RBI on November 12, 2021, as the group has also aligned the stage III assets with gross NPAs; without considering the impact; on a like-to-like basis, the stage III assets have reduced.

Stage III assets in the retail book increased to Rs 303 crore as on December 31, 2021 (4.30%) from Rs 243 crore (3.4%) as on September 30, 2021; however, remains below March 2021 levels of Rs 316 crore (Rs 3.9% as on March 31, 2021 and 1.2% a year earlier). The reported stage III assets ratio in the wholesale book improved to 5.5% (Rs 354 Crore) as on December 31, 2021 as against 5.7% (Rs 374 crore) and 12% (Rs 866 crore) as on September 30, 2021 and March 31, 2021 respectively.

Despite this, asset quality of the wholesale book remains vulnerable due to its exposure to the real estate segment and stressed mid-tier borrowers in structured credit. While the group is in the process of gradually running down the wholesale book, this still contributed about 48% of the total loan book as on December 31, 2021 (47% as on March 31, 2021). Also, the wholesale loan book remains concentrated with 10 largest loans constituting ~39% of the wholesale portfolio. Nevertheless, the group has reasonable collateral cover for its wholesale loans and has also built strong recovery capabilities.

Any sharp weakening of asset quality, specifically in the wholesale lending book, will impact profitability as well as capitalisation and remains a key rating monitorable.

Lower profitability than peers

Profitability has been lower than those of other large, financial sector groups. It was significantly impacted in fiscals 2021 and 2020, on account of higher credit cost.

The group reported net profit of Rs 254 crore in fiscal 2021, supported by one-off income as compared to loss of Rs 2,044 crore in fiscal 2020. Consequently, return on assets (annualised) and return on equity (annualised) improved to 0.5% and 3.0%, respectively, in fiscal 2021 (negative 3.4% and negative 23.7%, respectively, in fiscal 2020). The group reported net profit in the three consecutive quarters of fiscal 2022, with net profit (excluding minority shareholder’s share in profit) of Rs 146 crore for the first nine months of fiscal 2022 (loss of Rs 363 crore during the corresponding period of the previous fiscal). Furthermore, with continued provisioning, the provision coverage ratio has improved to 52% for the nine months ended December 31, 2021, from 47% as on March 31, 2021.

Around 20% of the capital (equity plus borrowings) is employed in businesses or investments that are either low-yielding or loss-making at this point. The group has a large investment portfolio under its balance sheet management unit (BMU), which is used for managing liquidity. This largely comprises government securities, fixed deposits, liquid mutual fund units and corporate bonds, which have a low return on capital employed. Furthermore, the life and general insurance businesses remain loss-making, given their long gestation periods. Breakeven in the insurance businesses, will benefit overall profitability over the medium term.

As the group is diversified, each business vertical contributes to overall profitability. The non-credit business now contributes significantly to the total profit after tax (PAT) given the group's established position in these businesses. This should also support the overall earnings profile. Also, most of the businesses have been reporting profits from the last quarter of fiscal 2021 and gradual improvement in profitability is expected over the medium term.

Liquidity : Adequate

As a policy, the group maintains a liquidity cushion of 9-10% of the balance sheet. There was a liquidity cushion (including cash, liquid investments and treasury assets) of around Rs 1,900 crore and unutilised bank lines of around Rs 300 crore as on January 31, 2022. The group also has other liquid assets (investments and securities-based lending book), which can be accessed if necessary. These were Rs 3,050 crore. As on January 31, 2022, the overall liquidity was adequate to meet the debt obligation maturing over the next four months till May 31, 2022. The maturity profile of assets and liabilities continue to be well-matched.

Outlook Negative

The ‘Negative’ outlook factors in challenges faced by the Edelweiss group due to stressed assets in its credit business, especially in its wholesale lending book, and their impact on profitability.

Rating Sensitivity factors

Upward factors

- Significant improvement in the group's asset quality with stage III assets ratio less than 3% on sustained basis, coupled with reduction in level of stressed assets
- Demonstration of profitability across businesses

Downward factors

- Continued pressure on profitability, with sustained losses (negative PAT excluding one-off gains)
- Deterioration in asset quality of the Edelweiss group
- Funding access challenges with limited fundraising by the group

- Lack of progress on planned scale-down of wholesale portfolio

About CRISIL Ratings Limited (A subsidiary of CRISIL Limited)

CRISIL Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

CRISIL Ratings Limited ('CRISIL Ratings') is a wholly-owned subsidiary of CRISIL Limited ('CRISIL'). CRISIL Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").

Rating Rationale

Acuité has assigned the long term rating of **'ACUITE AA' (read as ACUITE double A)** on the Rs.300.00 Cr proposed Secured Retail Non-Convertible Debentures of Edelweiss Broking Limited (EBL). The outlook is **'Negative'**.

The rating reaffirmation reflects Edelweiss Group's established track record in financial services with diversified business profile, adequate capitalization levels and comfortable liquidity profile. The rating considers the significant portion of revenue being generated through the fees and advisory services. This stream of income is steadily growing and provides stable cashflows to the overall earnings profile of the Group. The rating takes cognizance of the Group's strategic intent on downsizing its wholesale book and building its retail mortgage and SME book with focus on the co-origination model which will keep it asset light and provide granularity to loan portfolio. The rating also takes into consideration the group's demonstrated resource raising ability as depicted by monetization of their 51% stake in wealth management business for Rs.2,366 Cr., Rs.1,040 Cr. from CDPQ (Canadian Pension Fund) in the ECL Finance Limited via compulsorily convertible debentures, In the past, the Group has also raised Rs.177 Cr. from KORA Management and Rs.117 Cr. from Sanaka Capital in Edelweiss Global Investment Advisors (EGIA) via compulsory convertible preference shares. PAG's stake in wealth management business increased to 61% post acquisition of stake of KORA Management and Sanaka Capital with balance 39% held by Edelweiss Group. Recently, Edelweiss Group raised its stake to 44.16% with PAG's stake now at 55.84%. Acuité takes note of announcement by the Group in July 2021 of stake sale of 70%, subject to regulatory approvals, in its insurance broking business to existing investor, Gallagher Insurance for consideration of ~Rs.308 Cr. Pursuant to this deal, Gallagher Insurance will have complete ownership of this business.

The rating is partially offset by moderate profitability with profit after tax (excluding minority interest) of Rs.254 Cr. during FY2021 driven by one time gain of about Rs.1,400 Cr. on sale of majority stake in wealth management business to PAG (loss of Rs.2,044 Cr. (excluding minority interest) in FY2020) coupled with declining loan book (Rs.12,328 Cr. (excluding Loan Against Securities portfolio forming part of wealth management business) as on September 30,2021 as against Rs.14,059 Cr. (excluding Loan Against Securities portfolio forming part of wealth management business) as on March 31,2021) and subdued asset quality (GNPA of 7.73% as on March 31,2021 as against 5.3% as of March 31,2020). The GNPA stood at 4.5% as on September 30,2021. Furthermore, high concentration in wholesale Credit(Top 20 borrowers accounting for about 29% of overall loan book as on September 30,2021, particularly exposure

to real estate developers may build up further pressure on asset quality in the challenging external environment. Acuité takes note of group's strategic focus on reducing its wholesale book through sale of assets to Asset Reconstruction companies including EARCL and AIFs.

In this regard, in FY2020, the group launched a USD 425mn corpus last mile Real Estate Financing AIF in partnership with South Korean financial conglomerate Meritz Financial Group, of which one tranche of USD 240mn has already been concluded.

Acuité believes that the ability to curtail asset quality risks in credit business whilst demonstrating sustainable improvement in profitability along with sustainable growth in SME portfolio in the evolving operating environment would remain key rating monitorables.

About the company

Incorporated in 2008, EBL, wholly owned subsidiary of Edelweiss Securities Limited (ESL), is a 100% subsidiary of Edelweiss Securities Limited and is registered as a trading member with National Exchange of India Ltd, BSE Ltd, Metropolitan Stock Exchange of India Ltd, Multi-commodity Exchange of India Ltd, National Commodity and Derivatives Exchange Ltd and provides broking services to its clients. Post divestment of significant stake in wealth management business, the number of subsidiaries and assocate companies have changed.Edelweiss group has a pan India presence with a global footprint extending across geographies with offices in New York, Mauritius, Dubai, Singapore, Hong Kong and UK.

Analytical Approach

Acuité notes change in ownership structure of wealth management business post acquisition of controlling stake by PAG (~56%) with balance ~44% held by Edelweiss Financial Services Limited (EFSL) and given that entities under the wealth management business continue to operate under Edelweiss brand and their operational team remain the same, Acuité has adopted a consolidated approach on Edelweiss Financial Services Limited (EFSL) along with its 30 subsidiaries, 10 associate (for list of subsidiaries and associate refer Annexure I) as on December 31,2021 and 76 trusts as on March 31,2021, collectively referred to as 'Edelweiss group'. The approach is driven by shared brand name and significant operational synergies between the companies. Acuité has rated secured NCDs as well as perpetual NCDs issued by Edelweiss group companies.

Extent of consolidation: Full

Key Rating Drivers

Strength

Strong parentage and diversified product offerings

Edelweiss Group is promoted by Mr. Rashesh Shah and Mr. Venkat Ramaswamy, who are seasoned professionals in the financial services industry with over two decades of experience. The promoters are supported by experienced professionals who are into financing, wealth, and asset management businesses. The group has a diverse business profile in financial services with presence in segments such as retail credit (including agri-finance), wholesale

lending, warehousing services, asset reconstruction, asset management, wealth management and capital market including stock broking and insurance business. The various verticals of the group as mentioned above are now under the following broad categories i.e. Credit (retail and corporate), Asset Management, Asset Reconstruction, Insurance (life and general) and Wealth management including Capital Markets. The Group had consolidated loan book of Rs.12,328 Cr. (excluding Loan Against Securities portfolio which used to form part of wealth management business) as on September 30,2021 as against 14,059 Cr. (excluding Loan Against Securities portfolio which used to form part of wealth management business) as on March 31,2021, of which retail credit was Rs.5.768 Cr. (Rs.6,813 as on March 31,2021) and wholesale credit at Rs.6,560 Cr. as on September 30,2021 (Rs.7,246 Cr. as on March 31,2021). The wholesale segment comprised loans to realtors and structured Credit. The Group has been attempting to gradually increase its exposure to retail segment and is in talks with multiple banks for lending under co-origination model. It has taken several steps to reduce its exposure to the wholesale segment and reorient the portfolio toward small and midcorporate lending segments. Besides the fund-based activities, Edelweiss Group also has an established franchise in the capital market related business across corporate finance and advisory domains including broking, investment banking, wealth management, and asset management. The group has completed sale of its majority stake in wealth management business to PAG. As on March 31, 2021, the group had customer assets of about Rs.280,800 Cr. under the advisory vertical (about Rs.207,700 Cr. as on March 31,2020). Most of the businesses of the group present significant synergies amongst themselves and growth potential both on the assets and liabilities side. The access to a pool of HNIs can be leveraged to create fundbased structures which can be utilized to support the AUM growth of the group. Acuité believes Edelweiss group's established position in financial services and diversified range of fee and fund-based product offerings will continue to support its business risk profile.

Diversified funding profile

The group's financial flexibility is supported by its demonstrated ability to mobilise resources from diversified set of investors across domestic banks, Institutional investors and lenders, foreign investors and domestic retail investors amongst others. The Group has attracted investments from reputed international investors such as CDPQ (Caisse de dépôt et placement du Québec), and PAG Asia. In the past, the Group also raised capital from KORA Management and Sanaka Capital. In July 2021, the Group announced stake sale of 70%, subject to regulatory approvals, in its insurance broking business to existing investor, Gallagher Insurance for consideration of ~Rs.308 Cr. Pursuant to this deal, Gallagher Insurance will have complete ownership of this business. Of the total borrowings (excluding asset backed borrowings and equity convertible instruments)of Rs.25,695 Cr. As on March 31,2021, 43% is being funded through banks, 26% through retail investors, 11% by mutual funds, and the balance 20% mainly through FIs, PFs, and Insurance. As on September 30, 2021, borrowings stood at Rs.24,775 Cr. and proportion of funding from retail investors rose to 31%. The Group's NCD issuances targeted at the retail investor have been well accepted in the markets, which has helped the Group in increasing its retail funding to Rs.7,680 Cr. (31%) as on September 30, 2021 as against Rs.5,371 Cr. (11%) as on March 31, 2018. The Group also has large institutional client base in its various its funds such as distressed Credit fund, Real estate Credit Fund, Structured debt fund and Infrastructure Fund. The group has also demonstrated its ability to support chunky real estate projects with a need for completion funding by setting up an AIF with South Korea based Meritz Group with a corpus of USD 425 million. Acuité expects the Group to continue to benefit from diversified funding mix across domestic banks, Institutional investors and lenders, foreign investors and domestic retail investors amongst others.

Adequate gearing levels and liquidity buffer

The Group's networth (including compulsorily convertible debentures and excluding minority interest) stood at Rs.7443 Cr. as on March 31,2021 (Rs.7233 Cr. as on March 31, 2020). The improvement in the networth was mainly on account of profits reported for FY2021 led by one time gain reported on sale of majority stake in wealth management business. Concomitantly,

capital adequacy of the Group improved to 21.50% as on March 31,2021 (20.76 % as on March 31, 2020). The capital adequacy stood at 20.85% as on June 30,2021. The group further reduced its borrowings (excluding asset backed borrowings) to Rs.25695 Cr. as on March 31,2021 as against Rs.33754 Cr. as on March 31,2020 (Rs.45217 Cr. as on March 31,2019) translating into improved gearing ratio (reported borrowings/networth) of 3.5 times as on March 31,2021 from 4.7 times as on March 31,2020 (5.9 times as on March 31,2019). The gearing ratio (reported borrowings/networth) stood at 3.31 times as on September 30,2021. Further, the Group continued to maintain adequate liquidity buffer over this period and reported liquidity of Rs.5,750 Cr. as on October 30,2021 comprising Rs.5,450 Cr. of overnight liquidable and treasury assets and Rs.300 Cr. in bank lines.

Weakness

Moderation in profitability indicators

The Group reported moderate profitability for FY2021 with profit after tax (excluding minority interest) of Rs.254 Cr. (loss (excluding minority interest) of Rs.2,044 Cr. in FY2020) driven by one time gain of ~Rs.1,400 Cr. reported on sale of majority stake in wealth management business to PAG. Credit costs, though elevated, reduced to Rs.2,073 Cr. during FY2021 from Rs.3562 Cr. during FY2020. The future trend in Credit costs will be linked to the fresh slippages in both the segments i.e. retail as well as wholesale segments. The cost to income ratios (exinsurance) for FY2021 remained stable vis-à-vis FY2020 levels at 56%. Furthermore, NIMs declined to 0.77% of average earning assets in FY2020 as against 3.03% of average earning assets in FY2020 due to degrowth in loan book resulting in decline in interest income along with higher cost of funds due to negative carry of higher liquidity. The Group reported profit after tax (excluding minority interest and including share in associate's profit) of Rs.25 Cr. on total income of Rs.1649 Cr. for Q1FY2022. Acuité notes that the loss of revenues from the wealth management business in the light of its majority stake sale is expected to impact future profitability. Acuité also takes notes of several measures taken by the Group to rationalize cost and improve profitability including co-origination model for building retail portfolio which is expected to reflect in coming quarters. Acuité believes that Group's ability to sustain improvement in earnings profile in the current operating environment coupled with the intense competition in the retail segment will be key rating monitorable.

Subdued asset quality

Edelweiss Group's key product offerings are spread across two segments i.e. retail segments and wholesale segments. The retail segment (47% of the loan book as on September 30,2021) comprises housing finance, Loan against Property, Construction finance, SME loans, Loan against Securities while the wholesale segment (53% of the loan book as on September 30,2021) comprises Structured Collateralized Credit and Real Estate financing. The Group had loan book of Rs.12,328 Cr. (excluding Loan Against Securities portfolio forming part of wealth management business) as on September 30,2021 against Rs.14,059 Cr. (excluding Loan Against Securities portfolio forming part of wealth management business) as on March 31,2021 and Rs.21,032 Cr. as on March 31, 2020. The decline in the loan book is primarily driven by the management's strategic decision to consciously scale down the exposure to the wholesale segment with early signs of pick-up in disbursements seen in the retail segment. While there is decline in loan book, the asset quality witnessed positive traction with the Group's Gross NPAs (GNPAs) at Rs.622 Cr. (4.5% of loan assets) as on September 30, 2021 as against Rs.1182 Cr. (7.7% of loan assets) as on March 31, 2021 with retail segment at Rs.247 Cr.(3.5% as on September 30,2021) as against Rs.316 Cr. (3.9% as on March 31,2021) and wholesale at Rs.375 Cr. (5.7% as on September 30,2021) as against Rs.866 Cr. (12.0% as on March 31,2021). As on September 30, 2021, top 20 exposures accounted for ~29% of the overall loan book. The group's wholesale segment mostly comprises exposures to real estate developers for their projects. The cash flows of these realtors and the quality of these exposures is linked to the revival in the real estate cycle. The group has already initiated steps to prune its exposure to the wholesale segment through various initiatives such as slowing down fresh sanctions and sell down of existing assets to dedicated funds and ARCs. In FY2020, the group launched a USD 425mn corpus last mile Real Estate Financing AIF in partnership with South Korean financial

conglomerate Meritz Financial Group. The first tranche of the USD 240 million corpus is completed. Edelweiss holds 30% stake in this fund and the remaining is held by Meritz Financial Group, a Seoul headquartered conglomerate. Since the group has decided to curtail its exposure to wholesale segment, the retail products like retail mortgage, SME lending, LAS along with smaller ticket lending to mid corporates under the coorigination model with banks are expected to be the drivers of future growth. In the retail segment, SME loans and retail mortgage comprise the key products contributing to ~45% of the overall loan book as on September 30, 2021. The retail portfolio is relatively more granular with a median ticket size of ~1 Cr. for secured SME loan, Rs.15 lakhs for housing loan and 19 lakhs for LAP. With the increasing focus on relatively less risky retail segment, the portfolio is expected to be more granular going forward. Acuité believes that the Group's ability to attain any significant improvement in asset quality amidst current economic environment will remain a key rating sensitivity.

ESG Factors Relevant for Rating

Edelweiss Group offers a bouquet of financial services to a diversified client base across domestic and global geographies. The Group has presence in segments such as retail credit (including agri-finance), wholesale lending, warehousing services, asset reconstruction, asset management, wealth management and capital market including stock broking and insurance business.Adoption and upkeep of strong business ethics is a sensitive material issue for the financial services business linked to capital markets to avoid fraud, insider trading and other anti-competitive behaviour. Other important governance issues relevant for the industry include management and board compensation, board independence as well as diversity, shareholder rights and role of audit committee. As regards the social factors, product or service quality has high materiality so as to minimise misinformation about the products to the customers and reduce reputational risks. For the industry, retention, and development of skilled manpower along with equal opportunity for employees is crucial. While data security is highly relevant due to company's access to confidential client information, social initiatives such as enhancing financial literacy and improving financial inclusion are fairly important for the financial services sector. The material of environmental factors is low for this industry.

Edelweiss Group's board comprises of eleven directors with two women directors. Of the total eleven directors, six are independent directors. The Group maintains adequate disclosures for business ethics which can be inferred from its policies relating to code of conduct, whistle blower protection and related party transactions. The Group has formed a Risk Committee with four out of five members being independent directors for among other things, identifying and evaluating risks and development, implementing and tracking risk management efforts. All the members of Audit Committee are independent directors. For redressal of grievances of the security holders, it has constituted a Stakeholders' Relationship Committee. The Group also has a committee for appointment, remuneration and performance evaluation of the Board. On the social aspect, the Group has taken development and training initiatives towards career development of its employees. The Group has put in place data privacy policy to ensure adequate safeguards for collection, storage and processing of personal and sensitive information and data of customers and third parties. Further, the Group has set up EdelGive foundation, a grant-making foundation which is funding and supporting the growth of small to mid-sized grassroots NGOs committed to empowering vulnerable children, women, and communities. Over the last 13 years, EdelGive has supported over 150 organizations across 111 districts in 14 states of India.

Rating Sensitivity

- Lower than expected growth in AUM
- Significant spike in Credit costs translating into material reduction in profitability and capital adequacy
- Higher than expected asset quality pressures
- Changes in Regulatory environment
- Significant capital infusion

Material Covenants

Edelweiss Group is subject to covenants stipulated by its lenders/investors in respect of various parameters like capital structure, asset quality among others. As per confirmation received from the Group vide mail dated December 20,2021, 'the Group is adhering to all terms and conditions stipulated as covenants by all its lenders/investors.

Liquidity Position: Adequate

EFSL's liquidity profile is supported by the group's centralised treasury operations and adequate liquidity position. The group has demonstrated the ability to raise medium to long term funding from banks/capital markets which should support the Group's ability to plug any possible mismatches. The Group's liquidity profile is supported by funding from diversified base i.e. banks and financial institutions along with capital market instruments like CBLO borrowings, Commercial Papers and NCDs. The Group on a consolidated basis had maintained liquidity buffers of Rs.5,750 Cr. (includes bank lines of Rs.300 Cr.) as on October 30, 2021.

Outlook: Negative

Acuité believes that the Edelweiss Group's Credit profile will continue to face pressures over the near to medium term on account of the deterioration of asset quality and profitability. The weakness in the operating environment and a slower than expected economic revival across the country can impinge on the near term performance. Acuité will be closely monitoring the performance of the Group and any further impairment in asset quality or reduction of profitability will impart a strong negative bias to the rating. The outlook may be revised to Stable in case Edelweiss Group is able to demonstrate significant and sustained improvement in asset quality and profitability
