Letter of Offer
Dated December 16, 2024
For Eligible Unitholders Only

IRB INFRASTRUCTURE TRUST

(An irrevocable trust set up under the Indian Trusts Act, 1882 and registered as an infrastructure investment trust with the Securities and Exchange Board of India)
Principal place of business: Off No-11th Floor/1101, Hiranandani Knowledge Park, Technology Street, Hill Side Avenue, Powai, Mumbai 400 076, Maharashtra, India
SEBI Registration Number: IN/InvIT/19-20/0012; **Tel**: +91 22 6733 6400 | **Website:** www.irbinfratrust.co.in |
Compliance Officer: Mr. Kaustubh Shevade; **E-mail**: kaustubh.shevade@irb.co.in

Sponsor	Investment Manager	Trustee
IRB Infrastructure Developers Limited	**MMK Toll Road Private Limited**	**IDBI Trusteeship Services Limited**

FOR PRIVATE CIRCULATION TO THE ELIGIBLE UNITHOLDERS OF THE IRB INFRASTRUCTURE TRUST ONLY

Issue of up to 58,400,000 units (the "**Units**") representing an undivided beneficial interest in IRB Infrastructure Trust (the "**Trust**") at a price of ₹293.65* per Unit (the "**Issue Price**") aggregating up to ₹17,149.23 million on a rights basis to Eligible Unitholders in the ratio of one Unit for every 19.07** Units held by them on the Record Date (the "**Issue**"). The Record Date is December 13, 2024.

**The Issue Price is ₹293.6511986. For presentation purposes only, the Issue Price has been presented as rounded-off to two decimal places.*
***The Rights Entitlement Ratio is one Unit for every 19.0700901541096 Units held by Eligible Unitholders on the Record Date. For presentation purposes only, the Rights Entitlement Ratio has been presented as rounded-off to two decimal places.*

THE ISSUE IS BEING MADE ONLY TO ELIGIBLE UNITHOLDERS IN RELIANCE UPON CHAPTER 9 OF THE MASTER CIRCULAR FOR INFRASTRUCTURE INVESTMENT TRUSTS (INVITS) DATED MAY 15, 2024 ISSUED BY THE SECURITIES AND EXCHANGE BOARD OF INDIA ("SEBI MASTER CIRCULAR") AND THE SECURITIES AND EXCHANGE BOARD OF INDIA (INFRASTRUCTURE INVESTMENT TRUSTS) REGULATIONS, 2014, EACH AS AMENDED.

This Letter of Offer relates to the Issue to existing Eligible Unitholders as on the Record Date under the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 and the SEBI Master Circular.

Each of the Investment Manager and the Lead Manager, having made all reasonable inquiries, accepts responsibility for and confirms that this Letter of Offer contains all information with regard to the Trust, the Units and the Issue, which is material in the context of the Issue, that the information contained in this Letter of Offer is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Letter of Offer as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect.

The existing Units of the Trust are listed on National Stock Exchange of India Limited ("**NSE**" or the "**Stock Exchange**" or the "**Designated Stock Exchange**"). The Trust has received in-principle approval from the NSE for the listing of the Units to be allotted pursuant to the Issue through its letter dated December 13, 2024. The Investment Manager (on behalf of the Trust) will also make an application to the Stock Exchange to obtain trading approval for the Rights Entitlements. A copy of this Letter of Offer has been submitted to the SEBI and the Stock Exchange.

This Letter of Offer has not been, and will not be, registered as a prospectus, will not be circulated or distributed to the public at large in India or any other jurisdiction, and will not constitute a public offer in India or any other jurisdiction.

THIS LETTER OF OFFER IS PERSONAL TO EACH ELIGIBLE UNITHOLDER. THIS LETTER OF OFFER HAS BEEN PREPARED BY THE INVESTMENT MANAGER SOLELY FOR PROVIDING INFORMATION IN CONNECTION WITH THE ISSUE.

YOU MAY NOT, AND ARE NOT AUTHORIZED TO, (1) DELIVER THIS LETTER OF OFFER TO ANY OTHER PERSON; OR (2) REPRODUCE THIS LETTER OF OFFER IN ANY MANNER WHATSOEVER. ANY DISTRIBUTION OR REPRODUCTION OF THIS LETTER OF OFFER, IN WHOLE OR IN PART, IS UNAUTHORIZED. FAILURE TO COMPLY WITH THIS INSTRUCTION MAY RESULT IN A VIOLATION OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (INFRASTRUCTURE INVESTMENT TRUSTS) REGULATIONS, 2014 OR OTHER APPLICABLE LAWS OF INDIA AND OF OTHER JURISDICTIONS.

INVESTMENTS IN UNITS INVOLVE RISKS AND INVESTORS SHOULD NOT INVEST ANY FUNDS IN THE ISSUE UNLESS THEY CAN AFFORD TO TAKE THE RISK OF LOSING THEIR ENTIRE INVESTMENT. FOR MAKING AN INVESTMENT DECISION, INVESTORS MUST RELY ON THEIR OWN EXAMINATION OF THE TRUST, THE UNITS, THE ISSUE, AND THIS LETTER OF OFFER. INVESTORS ARE ADVISED TO CAREFULLY READ THIS LETTER OF OFFER, INCLUDING THE SECTIONS "RISK FACTORS" AND "RIGHTS OF UNITHOLDERS" ON PAGES 16 AND 320, RESPECTIVELY. THE UNITS HAVE NOT BEEN RECOMMENDED OR APPROVED BY THE SECURITIES AND EXCHANGE BOARD OF INDIA (THE "SEBI") OR THE NATIONAL STOCK EXCHANGE OF INDIA ("NSE" OR THE "STOCK EXCHANGE") NOR DOES THE SEBI OR THE NSE GUARANTEE THE ACCURACY OR ADEQUACY OF THE CONTENTS OF THIS LETTER OF OFFER. EACH ELIGIBLE UNITHOLDER IS ADVISED TO CONSULT ITS OWN ADVISORS ABOUT THE CONSEQUENCES OF AN INVESTMENT IN THE UNITS BEING OFFERED PURSUANT TO THIS LETTER OF OFFER.

THE RIGHTS ENTITLEMENTS AND THE UNITS HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT, OR ANY U.S. STATE SECURITIES LAWS AND MAY NOT BE OFFERED, SOLD, RESOLD OR OTHERWISE TRANSFERRED WITHIN THE UNITED STATES, EXCEPT IN A TRANSACTION EXEMPT FROM THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT. THE UNITS AND RIGHTS ENTITLEMENTS REFERRED TO IN THIS LETTER OF OFFER ARE BEING OFFERED AND SOLD IN OFFSHORE TRANSACTIONS OUTSIDE THE UNITED STATES IN COMPLIANCE WITH REGULATION S TO UNITHOLDERS LOCATED IN JURISDICTIONS WHERE SUCH OFFER AND SALE OF THE UNITS ARE PERMITTED UNDER LAWS OF SUCH JURISDICTIONS. THE OFFERING TO WHICH THIS LETTER OF OFFER RELATES IS NOT, AND UNDER NO CIRCUMSTANCES IS TO BE CONSTRUED AS, AN OFFERING OF ANY UNITS OR RIGHTS ENTITLEMENTS FOR SALE IN THE UNITED STATES OR AS A SOLICITATION THEREIN OF AN OFFER TO BUY ANY OF THE SAID SECURITIES.

The distribution of this Letter of Offer or the disclosure of its contents without the Investment Manager's prior consent to any person other than the Eligible Unitholders is unauthorized and prohibited. Each Eligible Unitholder, by accepting delivery of this Letter of Offer, agrees to observe the foregoing restrictions and to make no copies of this Letter of Offer or any documents referred to in this Letter of Offer.

ISSUE SCHEDULE*

ISSUE OPENS ON	**December 18, 2024**

NOTICE TO INVESTORS

The statements contained in this Letter of Offer relating to the Trust, the Units and the Target SPV are material, true, correct and adequate to enable investors to make an informed decision. The opinions and intentions expressed in this Letter of Offer with regard to the Trust, the Units and the Target SPV are honestly held, have been reached after considering all relevant circumstances and are based on reasonable assumptions and information presently available with the Investment Manager or the Sponsor/Project Manager. There are no other facts in relation to the Trust, the Units and the Target SPV, the omission of which would, in the context of the Issue, make any statement in this Letter of Offer misleading in any material respect. Further, each of the Investment Manager and the Sponsor/Project Manager has made all reasonable enquiries to ascertain such facts and to verify the accuracy of all such information and statements.

This Letter of Offer is solely for the use of the person who has received it from the Investment Manager or the Lead Manager. This Letter of Offer is not to be reproduced or distributed to any other person. Further, this Letter of Offer and the Application Form will be sent only to the e-mail addresses of Eligible Unitholders who have provided their e-mail addresses to the Investment Manager.

Each Applicant must rely on its own examination of the Trust and the merits and risks involved in investing in the Units. Applicants should not construe the contents of this Letter of Offer as legal, tax, accounting or investment advice.

The delivery of this Letter of Offer, at any time, does not imply that the information contained in it is correct as of any time subsequent to its date. This Letter of Offer is personal to each Eligible Unitholder. This Letter of Offer shall not be relied upon by, and the Lead Manager, the Investment Manager, the Trustee and/or the Sponsor/Project Manager shall not be liable to any subsequent acquirer, transferee or investor of the Units.

The distribution of this Letter of Offer or the disclosure of its contents to any person, other than the Eligible Unitholders to whom they are addressed and those retained by such Eligible Unitholders to enable them to make a decision with respect to their subscription to the Units, is unauthorized and prohibited. Each Applicant agrees to observe the foregoing restrictions and make no copies of this Letter of Offer or any other material in connection with the Issue or the Units.

Each Applicant will be deemed to have made the representations, agreements and acknowledgments as described in this section "*Notice to Investors*". Nothing contained herein will relieve any party of its rights or obligations under the Framework Agreement.

Notice to Investors in certain other jurisdictions

The distribution of this Letter of Offer, the Application Form and the issue of the Units in certain jurisdictions may be restricted by law. As such, this Letter of Offer does not constitute, and may not be used for, or in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it is unlawful to make such offer or solicitation. In particular, no action has been taken by the Investment Manager or the Lead Manager which would permit an issue of the Units in any jurisdiction other than India. Accordingly, the Units may not be offered or sold, directly or indirectly, and neither this Letter of Offer nor any Issue materials in connection with the Units be distributed or published in or from any country or jurisdiction that would require registration of the Units in such country or jurisdiction.

THE RIGHTS ENTITLEMENTS AND THE UNITS HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT, OR ANY U.S. STATE SECURITIES LAWS AND MAY NOT BE OFFERED, SOLD, RESOLD OR OTHERWISE TRANSFERRED WITHIN THE UNITED STATES, EXCEPT IN A TRANSACTION EXEMPT FROM THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT. THE UNITS AND RIGHTS ENTITLEMENTS REFERRED TO IN THIS LETTER OF OFFER ARE BEING OFFERED AND SOLD IN OFFSHORE TRANSACTIONS OUTSIDE THE UNITED STATES IN COMPLIANCE WITH REGULATION S TO UNITHOLDERS LOCATED IN JURISDICTIONS WHERE SUCH OFFER AND SALE OF THE UNITS ARE PERMITTED UNDER LAWS OF SUCH JURISDICTIONS. THE OFFERING TO WHICH THIS LETTER OF OFFER RELATES IS NOT, AND UNDER NO CIRCUMSTANCES IS TO BE CONSTRUED AS, AN OFFERING OF ANY UNITS OR RIGHTS ENTITLEMENTS FOR SALE IN THE UNITED STATES OR AS A SOLICITATION THEREIN OF AN OFFER TO BUY ANY OF THE SAID SECURITIES.

Representations by Applicants

References herein to "you" or "your" is to each Applicant.

By subscribing to the Units pursuant to the Issue, you are deemed to have represented to the Trustee, the Investment Manager, the Lead Manager and the Sponsor/ Project Manager, and you acknowledge and agree as follows:

1. You are permitted to acquire the Units under the laws of any applicable jurisdiction and that you have necessary capacity and authority, and have obtained all necessary consents and authorizations to enable you to commit to this participation in the Issue and to perform your obligations in relation thereto (including, without limitation, on behalf of any person) and honor such obligations;

2. You will make all necessary filings, in relation to the Issue and your investment in Units, with appropriate governmental, statutory or regulatory authorities, including the RBI, as may be required, in accordance with applicable law;

3. You are aware that the Units have not been, and will not be registered through a prospectus under the InvIT Regulations, or under any other law in force in India. This Letter of Offer will be submitted to the SEBI and the Stock Exchange;

4. None of the Trust, the Sponsor/ Project Manager, the Investment Manager, the Trustee, the Lead Manager, the Project SPVs, the Target SPV or any of their respective shareholders, directors, officers, employees, counsel, representatives, advisers, agents or affiliates is making any recommendations to you or advising you regarding the suitability of any transactions it may enter into in connection with the Issue. None of the Trust, the Sponsor/ Project Manager, the Trustee, the Investment Manager, the Lead Manager, the Project SPVs, the Target SPV or any of their respective shareholders, employees, counsel, officers, directors, representatives, advisers, agents or affiliates have any duties or responsibilities to you for providing the protection afforded to their clients, or for providing advice in relation to the Issue and are in no way acting in a fiduciary capacity towards you;

5. All statements, other than statements of historical fact included in this Letter of Offer, including, without limitation, those regarding the Trust's financial position, business strategy, plans and objectives for future operations and the Investment Objectives, are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause actual results to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Trust's present and future business strategies and the environment in which the Trust will operate in the future. You should not place undue reliance on forward-looking statements, which speak only as of the date of this Letter of Offer. The Trust, the Trustee, the Sponsor, the Lead Manager and the Investment Manager assume no responsibility to update any of the forward-looking statements contained in this Letter of Offer;

6. You have been provided a copy of this Letter of Offer and have read it in its entirety including, in particular, the section "*Risk Factors*" on page 16;

7. You are aware and understand that the Units are being offered only to Eligible Unitholders on the Record Date on a rights basis and are not being offered to the general public;

8. In making your investment decision, you have (i) relied on your own examination of the Trust, the Units and the terms of the Issue, including the merits and risks involved, (ii) consulted your own independent advisors or otherwise have satisfied yourself concerning, without limitation, the effects of local laws and (iii) received all information in this Letter of Offer that you believe is necessary or appropriate in order to make an investment decision in respect of Trust and the Units;

9. You acknowledge that an investment in the Units involves a high degree of risk and that the Units are, therefore, a speculative investment. You are seeking to subscribe to the Units in the Issue for your own investment and not with a view to resell or distribute in any manner that could characterize you as an underwriter or similar party in any jurisdiction;

10. You will obtain your own independent legal, financial or tax advice and will not rely on the Investment Manager, the Sponsor/ Project Manager, the Trustee, the Lead Manager or any of their respective shareholders, employees, counsel, officers, directors, representatives, advisers, agents or affiliates when

evaluating the tax consequences in relation to the Units (including but not limited to the Issue and the use of the proceeds of the Issue);

11. You are not the Trustee, the Valuer of the Trust or an employee of the Valuer of the Trust or the valuer involved in the valuation of the Project SPVs or the Target SPV;

12. You understand that the Units to be Allotted in the Issue will, when issued, be credited as fully paid and will rank *pari passu* in all respect with all other Units, including in respect of the right to receive all distributions declared, made or paid in respect of the Units after the Allotment. For details, see "*Distributions*" on page 316;

13. The Trustee, the Investment Manager, the Sponsor/ Project Manager, the Lead Manager, their respective shareholders, employees, counsel, offices, directors, representatives, advisers, agents or affiliates, will rely on the truth and accuracy of the foregoing representations, warranties, acknowledgements and undertakings which are given to the Trust, the Sponsor/ Project Manager, the Lead Manager, the Investment Manager and the Trustee;

14. You are eligible to invest in India, in the Issue and in the Units under applicable law, including the InvIT Regulations, the SEBI Master Circular and the FEMA Rules, and have not been prohibited by the SEBI or any regulatory authority from buying, selling or dealing in units or securities;

15. You understand that none of the Investment Manager, the Sponsor/ Project Manager, the Lead Manager or the Trustee has any obligation to purchase or subscribe to all, or any part, of the Units subscribed by you in the Issue;

16. Any dispute arising in connection with the Issue will be governed by, and construed in accordance with, the laws of the Republic of India and shall be subject to the jurisdiction of the court in Mumbai, Maharashtra; and

17. You have made the representations, warranties, acknowledgements and agreements provided in this section and each of the representations, warranties, acknowledgements and agreements set out above shall continue to be true and accurate at all times, until and including the Allotment of Units in the Issue.

SECTION I – GENERAL

DEFINITIONS AND ABBREVIATIONS

This Letter of Offer uses certain definitions and abbreviations which, unless otherwise specified or the context otherwise indicates, requires or implies, shall have the meanings as provided below. Issue Related Terms

Term	Description
Allotment Advice	The note or advice or intimation of Allotment sent to each successful Applicant who has been or is to be Allotted Units pursuant to the Issue after approval of the Basis of Allotment by the Designated Stock Exchange
Allot/ Allotment/ Allotted	Unless the context otherwise requires, the issue and allotment of Units pursuant to the Issue
Allottees	Persons to whom Units will be issued and Allotted pursuant to the Issue
Applicant	Eligible Unitholders and Renouncees who are entitled to apply or make an application for Units pursuant to the Issue in terms of this Letter of Offer
Application Amount	The amount payable by an Applicant simultaneously with the submission of the Application Form during the Issue Period, for the number of Units applied for at the Issue Price specified in this Letter of Offer
Application Form	The Application Form used to make an application for Allotment of Units in the Issue
Basis of Allotment	The basis on which the Units will be Allotted to successful Applicants in consultation with the Designated Stock Exchange in the Issue, as described in "*Issue Procedure*" on page 837
Cash Escrow Agreement	Agreement dated December 12, 2024 entered into among the Trustee (acting on behalf of, and in its capacity as trustee to, the Trust), the Investment Manager, the Lead Manager and the Escrow Collection Bank for, *inter-alia*, for collection and refund of the Application Amounts
Client ID	Client identification number maintained with one of the Depositories in relation to a demat account
Demographic Details	Details of the Applicants including the Applicant's address, name of the Applicant's father/husband, investor status, occupation and bank account details
Designated Account	The designated account specified in the Application Form, in whose favor Applicants are required to transfer money through direct credit/NEFT/NACH/RTGS in respect of the Application Amount when submitting an Application Form
Eligible Unitholders	Unitholders of the Trust as on the Record Date
Escrow Collection Bank	Canara Bank
Issue	Issue of up to 58,400,000 Units at a price of ₹293.65 per Unit** aggregating up to ₹17,149.23 million on a rights basis to Eligible Unitholders in the ratio of one Unit for every 19.07 Units* held by them on the Record Date **The Rights Entitlement Ratio is one Unit for every 19.0700901541096 Units held by Eligible Unitholders on the Record Date. For presentation purposes only, the Rights Entitlement Ratio has been presented as rounded-off to two decimal places.* ***The Issue Price is ₹293.6511986. For presentation purposes only, the Issue Price has been presented as rounded-off to two decimal places.*
Issue Closing Date	December 20, 2024[@], which is the last date until which the Application Forms shall be accepted. *@ On the Issue Closing Date, Application Forms and Application Amount shall be accepted until 3 p.m. IST.*

Term	Description
	The Investment Manager will have the right to modify the Issue Period as it may determine from time to time, provided that the Issue will remain open for at least three Working Days and will not remain open for a period longer than 15 Working Days.
Issue Opening Date	December 18, 2024, prior to which the Application Forms shall be dispatched to Eligible Unitholders by the Investment Manager and the date from which the Investment Manager shall accept Application Forms
Issue Period	Period between the Issue Opening Date and the Issue Closing Date, inclusive of both days, during which Applicants can submit their Application Forms
Issue Price	₹293.65 per Unit* **The Issue Price is ₹293.6511986. For presentation purposes only, the Issue Price has been presented as rounded-off to two decimal places.*
Issue Proceeds	The gross proceeds of this Issue, being ₹17,149.23 million* **Assuming full subscription* For further details in relation to the use of Issue Proceeds, see the section "*Objects of the Issue*" on page 79
Lead Manager	Vivro Financial Services Private Limited
Letter of Offer	This Letter of Offer dated December 16, 2024 filed with the SEBI and the Stock Exchange in connection with the Issue
Off Market Renunciation	The renouncement of Rights Entitlements undertaken by an Eligible Unitholder by transferring them through off market transfer through a depository participant in accordance with applicable law
On Market Renunciation	The renouncement of Rights Entitlements undertaken by an Eligible Unitholder by trading them over the secondary market platform of the Stock Exchange through a registered stock broker in accordance with applicable law
Record Date	December 13, 2024
Registrar and Unit Transfer Agent or Registrar	KFin Technologies Limited
Renouncee	Any person(s) who, not being the original recipient, has/have acquired the Rights Entitlement
Renunciation Period	The period during which Eligible Unitholders can renounce or transfer their Rights Entitlements, which will commence from the Issue Opening Date. Eligible Unitholders are requested to ensure that renunciation is completed in such a manner that Rights Entitlements are credited to the demat account of the Renouncees on or prior to the Issue Closing Date
Rights Entitlements	The right to apply for Units being offered pursuant to this Issue in accordance with the InvIT Regulations, in this case being one Unit for every 19.07 Units* held by an Eligible Unitholder on the Record Date. The Rights Entitlement for each Eligible Unitholder will be specified in the Application Form **The Rights Entitlement Ratio is one Unit for every 19.0700901541096 Units held by Eligible Unitholders on the Record Date. For presentation purposes only, the Rights Entitlement Ratio has been presented as rounded-off to two decimal places.*
Rights Entitlements Letter	Letter including details of Rights Entitlements of the Eligible Unitholders
Working Day	Any day which is not (a) a Saturday or Sunday; or (b) a day on which commercial banks in Mumbai, Delhi or Singapore are closed for ordinary banking business. In respect of the Issue Period, "Working Day" shall mean all days, excluding Saturdays, Sundays and public holidays, on which commercial banks in Mumbai are open for business

Notwithstanding the foregoing, terms in "*Statement of Tax Benefits*", "*Regulations and Policies*", "*Summary of the Concession Agreements*", "*Financial Statements*", and "*Material Litigation and Regulatory Action*" on pages 85, 286, 168, 347 and 806, respectively, shall have the meanings given to such terms in these respective sections.

PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

Certain Conventions

All references to "India" contained in this Letter of Offer are to the Republic of India and all references to the "U.S.", "USA" or the "United States" are to the United States of America.

Unless stated otherwise, all references to page numbers in this Letter of Offer are to the page numbers of this Letter of Offer.

Financial Data

Unless stated otherwise, the financial data included in this Letter of Offer in relation to the Trust and the Project SPVs is derived from the Consolidated Financial Information which has been prepared in accordance with the requirements of the InvIT Regulations and Ind AS. This Letter of Offer also includes the Standalone Financial Information in relation to the Trust. For further information, see "*Financial Statements*" on page 347.

This Letter of Offer includes summary financial information of MBEL, the Target SPV proposed to be acquired by the Trust, extracted from the special purpose audited financial statements of MBEL, as of and for the six-month period ended September 30, 2024 and the Financial Years 2024, 2023 and 2022. MBEL was incorporated on January 5, 2022. For further information, see "*Summary Financial Information*" on page 44.

This Letter of Offer also contains Pro Forma Financial Information of the Trust and the Target SPV as of and for the Financial Year 2024 and the six-month period ended September 30, 2024, prepared in accordance with the requirements of Chapter 9 of the SEBI Master Circular and the InvIT Regulations. For further information, see "*Financial Statements*" on page 347.

This Letter of Offer also includes summary financial statements of (i) the Sponsor as of and for the Financial Years 2024, 2023 and 2022 from the audited consolidated financial statements of the Sponsor which have been prepared in accordance with the Companies Act and Ind AS; and (ii) the Investment Manager for the Financial Years 2024, 2023 and 2022 from the audited financial statements of the Investment Manager which have been prepared in accordance with the Companies Act and Ind AS. For further information, see "*Summary Financial Statements*" on page 44.

The financial year for the Trust, the Sponsor, the Investment Manager, the Project SPVs and the Target SPV commences on April 1 and ends on March 31 of the next year. Accordingly, all references to a particular Financial Year or fiscal, unless stated otherwise, are to the 12-month period ended on March 31 of that year.

The degree to which the financial information included in this Letter of Offer will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS and the InvIT Regulations. The Investment Manager has not attempted to explain these differences or quantify their impact on the financial data included in this Letter of Offer, and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Any reliance by persons not familiar with the accounting policies and practices on the financial disclosures presented in this Letter of Offer should accordingly be limited.

In this Letter of Offer, all figures and percentage figures in decimals have been rounded off to two decimals. However, where any figures may have been sourced from third-party industry sources, such figures may be rounded-off to such number of decimal points as provided in such respective sources. In this Letter of Offer, (i) the sum or percentage change of certain numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. Any such discrepancies are due to rounding off.

Unless stated or the context requires otherwise, any percentage amounts, as disclosed in "*Risk Factors*", "*Business*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on pages 16, 127 and 777, respectively, and elsewhere in this Letter of Offer have been calculated on the basis of the Consolidated Financial Statements.

Currency and Units of Presentation

All references to:

i) "Rupees" or "Rs." or "INR" or "₹" are to Indian Rupees, the official currency of the Republic of India; and

ii) "US$" or "USD" are to United States Dollars, the official currency of the United States of America.

Certain numerical information in this Letter of Offer has been presented in "million" and "billion" units. One million represents 1,000,000 and one billion represents 1,000,000,000.

Exchange Rates

This Letter of Offer contains conversions of certain other currency amounts into Indian Rupees. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Rupee and the U.S. Dollar (in Rupees per U.S. Dollar):

As at	Reference rate (₹ per US$)
September 30, 2024	83.79
March 31, 2024	83.37
March 31, 2023	82.22
March 31, 2022	75.81
March 31, 2021	73.50

Source: Financial Benchmarks India Private Limited reference rate.

Note: Where the exchange rate was not available on account of the particular day being a holiday, the exchange rate as of the immediately preceding Working Day has been provided.

Industry and Market Data

Unless stated otherwise, industry and market data used in this Letter of Offer has been obtained or derived from the Traffic Reports prepared by the Traffic Consultant and the Target Traffic Consultant with respect to the toll revenues for the underlying road projects operated by the Project SPVs and the Target SPV, which are commissioned reports, and publicly available information as well as other Government and industry publications and sources. The Investment Manager has commissioned the Traffic Reports, included in this Letter of Offer as "*Annexure A: Traffic Reports*", to provide an independent estimation of the projected traffic volumes with respect to the underlying road projects operated by the Project SPVs and the Target SPV, which is based on historical data and certain assumptions.

Industry as well as Government publications generally state that information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section "*Risk Factors*" on page 16. Accordingly, investment decisions should not be based solely on such information.

The extent to which market and industry data used in this Letter of Offer is meaningful depends on the reader's familiarity with and understanding of methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which business of the Project SPVs/Trust is conducted, and methodologies and assumptions may vary widely among different industry sources.

Valuation

The Target Valuation Report and the Current Portfolio Valuation Report have been prepared by the Valuer commissioned by the Investment Manager and are subject to the following disclaimer:

"This document includes selected provisions of or a summary of the valuation report dated October 18, 2024 in relation to Portfolio of the Trust and valuation report dated December 10, 2024 (together referred as "Reports") related to valuation of Meerut Budaun Expressway Limited, prepared by KPMG Valuation Services LLP ("KPMG"), solely in its capacity as the registered Valuer on behalf of IRB Infrastructure Trust (the "Client") only and is not a full statement of the terms of the Reports.

Any reader of the Reports must view the summaries in the context of the full Reports, which is subject to the limitations and disclaimers in such Reports. Without limiting the generality of the foregoing, the Reports are expressly subject to the qualifications, assumptions made, procedures followed, matters considered and any limitations on the scope of work contained therein. It will be for the reader to determine the extent to which the work undertaken and the Reports provided by KPMG may be suitable for the reader.

These summaries, and the Reports, are provided only as of the date set forth therein and does not contemplate any event, circumstances or changes with respect to Issue or otherwise after such date. The foregoing summaries of

the Reports may include projected information and data (financial and otherwise), and other forward-looking information, that may or may not occur or prove to be accurate. Such projected and forward-looking information is based on current expectations and projections about future events which are beyond the control of KPMG, the Client or any other participant in the Issue, and such projections and information can be affected by inaccurate assumptions. While these projections and information were prepared in good faith, no assurance can be given as to the accuracy or adequacy of such projections and information, or the assumptions underlying such projections and information. These summaries and Reports are confidential and are not to be copied, disclosed, circulated or referred to in whole or part to any other person and or entity other than to whom it has been permitted by KPMG without KPMG's prior written permission. KPMG does not assume any responsibility and disclaims any liability, however occasioned to Client or any other party, as a result of the circulation, publication or reproduction of the summaries and Reports.

These summaries and the Reports are prepared in accordance with the terms agreed with the Client under the engagement letter dated 17th September 2024, for the Client only. The total aggregate liability of KPMG and its officers, employees and affiliates for any loss, damage, cost or expense suffered or incurred by all persons or entities (including but not limited to the Client or any other party) and for all claims in respect of work performed in connection with the Issue and/or the Reports, is hereby limited to the amount of fees actually paid by the Client to KPMG in connection with the Reports (the "Aggregate Liability Cap"). KPMG is released from all liability in excess of the Aggregate Liability Cap.

This is not an expert opinion but is a view basis work done in accordance with the InvIT Regulations requiring an independent valuation. The decision whether to proceed with and consummate any transaction with the Client or its assets or MBEL, solely rests with the respective investor and our findings should not in any way constitute a recommendation as to whether any party should or should not consummate the transaction."

Websites

The information contained on the websites of the Trustee, the Sponsor or the other websites referenced in this Letter of Offer or that can be accessed through such websites, neither constitutes part of this Letter of Offer, nor is it incorporated by reference therein and should not form the basis of any investment decision. For details of the websites of the Trust, the Trustee and the Sponsor, see "*General Information*" on page 75.

FORWARD-LOOKING STATEMENTS

This Letter of Offer contains certain "forward-looking statements". These forward-looking statements generally can be identified by words or phrases such as "aim", "anticipate", "believe", "expect", "estimate", "intend", "objective", "plan", "goal", "project", "propose", "seek to", "likely", "will", "will continue", "will pursue", or other words or phrases of similar import. Similarly, statements that describe strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about the Trust, the Project SPVs and the Target SPV that could cause actual results to differ materially from those contemplated by the forward-looking statements.

The Target Valuation Reports is based on certain projections and accordingly, should be read together with the assumptions and notes thereto. The Traffic Reports include projections/estimates in relation to traffic growth, and accordingly, should be read in conjunction with the notes and assumptions thereto. See "*Annexure A: Traffic Reports*" and "*Annexure B: Target Valuation Report*" on pages A-1 and B-1, respectively.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated without expectations with respect to, but not limited to, regulatory changes pertaining to the infrastructure sector in India and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion plans, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in the infrastructure sector. Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- The debt financing provided by the Trust to each of the Project SPVs and the non-convertible debentures issued by the Target SPV which are proposed to be acquired by the Trust are comprised of unsecured, interest-free loans. Such non-convertible debentures issued by the Target SPV will become interest-bearing from the completion date of the project under the MBEL Concession Agreement. The payment obligations of the respective Project SPVs and the Target SPV in relation to such debt financing will be subordinated to all existing and future obligations of the Project SPVs and the Target SPV towards any senior lenders;

- Any payment by the Project SPVs or the Target SPV, including in an event of termination of the relevant concession agreement, is subject to a mandatory escrow arrangement which restricts their flexibility to utilize the available funds;

- The regulatory framework governing infrastructure investment trusts in India is still evolving and the interpretation and enforcement thereof involve uncertainties, which may have a material, adverse effect on the ability of certain categories of investors to invest in the Units, our business, financial condition and results of operations and our ability to make distributions to Unitholders;

- We may not be able to make distributions to Unitholders or the level of distributions may fall;

- Any default under the existing or future financing arrangements by any of the Project SPVs or the Target SPV could adversely impact the Trust's ability to continue to own a majority of each of the Project SPVs and the Target SPV, its cash flows and its ability to make distributions to Unitholders;

- The Consolidated Financial Information may not be indicative of the Trust's future financial condition and results of operations. We may not be able to operate our business successfully or generate sufficient cash flows to make or sustain distributions;

- The Target Valuation Report, and any underlying reports, are not opinions on the commercial merits or financial condition of the Target SPV and the valuation contained in such Target Valuation Report may not be indicative of the true value of the Target SPV's asset;

- We have referred to the data derived from Traffic Reports commissioned from the Traffic Consultant and the Target Traffic Consultant, which are based on certain bases, estimates and assumptions that are subjective in nature and may not be accurate;

- We are in the process of acquiring the Target SPV (pursuant to definitive acquisition agreements), which if not completed in a timely manner or at all, or any failure to realize the anticipated benefits of the MBEL Acquisition, may adversely affect us; and

- If we are not successful in integrating the Target SPV, our business, financial condition and results of operations may be adversely impacted.

For further discussion on factors that could cause actual results to differ from expectations, see the sections "*Risk Factors*", "*Industry Overview*", "*Business*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on pages 16, 122, 127 and 777, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

Forward-looking statements reflect current views as of the date of this Letter of Offer and are not a guarantee of future performance or returns to investors. These statements are based on certain beliefs and assumptions, which in turn are based on currently available information.

Although the Investment Manager believes the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. The Investment Manager, the Trustee, the Sponsor, the Lead Manager or any of their affiliates/advisors do not have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

There can be no assurance that the expectations reflected in the forward-looking statements and financial information will prove to be correct. Given these uncertainties, Applicants are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee or assurance of our future performance or returns to investors.

SECTION II – RISK FACTORS

An investment in the Units involves risks. Prospective investors should carefully consider all the information in this Letter of Offer, including the risks and uncertainties described below. To obtain a complete understanding, prospective investors should read this section together with the sections "Business", "Financial Statements", "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Rights of Unitholders" on pages 127, 347, 777 *and* 320, *respectively, as well as the other information contained in this Letter of Offer. The risks and uncertainties described in this section may not be the only risks and uncertainties the Trust and the Project SPVs and the Target SPV currently face. Additional risks and uncertainties not presently known to the Trustee or the Investment Manager, or that the Trustee or the Investment Manager do not currently consider material, may arise or may adversely affect our business, financial condition, cash flows and results of operations. If any of the following risks, or other risks that are not currently known or are currently considered immaterial, actually occur, our business prospects, results of operations, cash flows and financial condition could suffer, the price of the Units could decline and prospective investors may lose all or part of their investment. Unless otherwise specified in the relevant risk factors, the Trustee and the Investment Manager are not in a position to specify or quantify the financial or other risks mentioned herein.*

This Letter of Offer also contains forward-looking statements that involve risks, uncertainties and assumptions. The actual results of the Trust and the Project SPVs and the Target SPV could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Letter of Offer.

This Letter of Offer includes (i) unaudited interim consolidated financial information of the Trust and the Project SPVs as of and for the six-month period ended September 30, 2024; (ii) audited consolidated financial statements of the Trust and the Project SPVs as of and for the Financial Years 2024, 2023 and 2022; (iii) unaudited interim standalone financial statements of the Trust as of and for the six-month period ended September 30, 2024; and (iv) audited standalone financial statements of the Trust as of and for the Financial Years 2024, 2023 and 2022.

This Letter of Offer includes summary financial information of MBEL as of and for the six-month period ended September 30, 2024 and the Financial Years 2024, 2023 and 2022. This Letter of Offer also contains Pro Forma Financial Information of the Trust and MBEL as of and for the Financial Year 2024 and the six-month period ended September 30, 2024 prepared in accordance with the requirements of Chapter 9 of the SEBI Master Circular and the InvIT Regulations.

Investors should be aware that the price of the Units, and the income from them, may be subject to volatility. If any of the risks described below occurs, our business and prospects could be materially and adversely affected and investors could lose all or part of their original investment.

In making an investment decision, prospective investors must rely upon their own examinations and the terms of the Issue, including the merits and the risks involved. Prospective investors should consult their tax, financial and legal advisors about the particular consequences of investing in the Issue.

In this section, unless the context otherwise requires, a reference to "we", "us" and "our" refers collectively to the Trust and the Project SPVs. References herein to the "Current Portfolio" are to the pre-MBEL Acquisition portfolio of the Trust and to the "Expanded Portfolio" are to the post-MBEL Acquisition portfolio of the Trust.

Risks Related to the Structure of the Trust

1. ***The debt financing provided by the Trust to each of the Project SPVs and the non-convertible debentures issued by the Target SPV which are proposed to be acquired by the Trust are comprised of unsecured, interest-free loans. Such non-convertible debentures issued by the Target SPV will become interest-bearing from the completion date of the project under the MBEL Concession Agreement. The payment obligations of the respective Project SPVs and the Target SPV in relation to such debt financing will be subordinated to all existing and future obligations of the Project SPVs and the Target SPV towards any senior lenders.***

The debt financing provided by the Trust to each of the Project SPVs (except IRB LTPL, IRB GTPL and IRB KTPL) comprises certain term loans (certain of which are unsecured and interest-free) (the "**Shareholder Loans**"), which is subordinated to the debt owed to the senior lenders of the respective Project SPVs at all times. The Shareholder Loans for the Project SPVs (except PDTPL, UTL, CGTL, IRB GEPL, STPL, IRB LTPL, IRB GTPL and IRB KTPL) became interest-bearing upon the listing of the Units on the NSE, with effect from April 3, 2023. The Shareholder Loans for PDTPL and STPL will become interest-bearing from the date of completion of construction of the projects and the Shareholder Loans for UTL and CGTL will become interest-bearing upon the receipt of consent from the relevant lenders for the projects. The Shareholder Loan for IRB GEPL, IRB LTPL, IRB GTPL

and IRB KTPL became interest-bearing from the appointed date of the projects. Further, the Trust proposes to purchase certain existing non-convertible debentures issued by MBEL to the Sponsor and Anahera under the MBEL Securities Purchase Agreement, which will become interest-bearing after the completion of construction of the project. Also see "*Background and Structure of the Trust – Certain Agreements in relation to the Trust — Shareholder Loan Agreements*" and "*Objects of the Issue – Details of Utilization of Issue Proceeds*" on pages 107 and 79, respectively.

All payment obligations of the Project SPVs and the Target SPV to the Trust are proposed to be serviced from the balance amounts remaining in the escrow accounts maintained by each Project SPV/Target SPV as mandated under the relevant concession agreements, after the payment of, among other things, all taxes due, all expenses in connection with the construction of the project, operations and maintenance expenses, including expenses for repair works, payment of concession fees, debt service payments to senior lenders (as defined under the relevant concession agreements), negative grants payable to the concessioning authority, reimbursement of expenditure incurred by the concessioning authority, any payments and damages due and payable and any reserve requirements set forth in the financing agreements, as defined in the relevant concession agreements (the "**Surplus Cash Flows**"). Accordingly, any reduction in the cash flows of the Project SPVs or the Target SPV or any unanticipated increase in any of the payments to be made by the Project SPVs from the escrow accounts may result in a decrease in the Surplus Cash Flows, which may materially and adversely impact the ability of the Project SPVs and Target SPV to meet their payment obligations to the Trust in relation to the Shareholder Loans. Further, the receivables of each Project SPV and the Target SPV (including the Surplus Cash Flows) are secured in favor of the existing senior lenders to the extent of the amounts payable to such senior lender pursuant to the terms of their respective financing arrangements and restrictive covenants under the financing arrangements with such senior lenders and the concession agreements prevent the Project SPVs and the Target SPV from opening new bank accounts, and accordingly, the Project SPVs and the Target SPV are not permitted to transfer the Surplus Cash Flows (as they arise) to a separate bank account in the name of the Project SPV/Target SPV that can be charged in favor of the Trust. We expect such receivables to remain secured in favor of the senior lenders until all amounts outstanding under such financing arrangements are paid in their entirety to the senior lenders. If an event were to occur under such financing arrangements such that all amounts outstanding under such financing arrangements were to become immediately due and payable, all, or substantially all, of the Surplus Cash Flows may be utilized in satisfying such payment obligations, thereby materially and adversely affecting the ability of such Project SPVs or Target SPV to meet their payment obligations to the Trust. Any adverse impact on any receivables payable to the Trust under such debt financing will materially and adversely affect the Trust's ability to make distributions to the Unitholders. Further, if the relevant concession agreement is terminated, the Surplus Cash Flows together with the termination payments deposited in the relevant escrow account will be applied towards the payment of the amounts outstanding to the senior lenders prior to the payment of the amounts outstanding under the Shareholder Loans. Accordingly, such amounts may be insufficient to repay all amounts outstanding under the Shareholder Loans.

2. ***Any payment by the Project SPVs or the Target SPV, including in an event of termination of the relevant concession agreement, is subject to a mandatory escrow arrangement which restricts their flexibility to utilize the available funds.***

The escrow arrangements mandated under the concession agreements require all monies that are received by each Project SPV and the Target SPV, including funds constituting the financing package, the fees collected from the operation of the Expanded Portfolio and any termination payments received from the concessioning authority, to be deposited in an escrow account and utilized only in accordance with the order prescribed under the escrow agreement. The consent of the concessioning authority is required to amend the order of outflow of payments from such escrow account. The escrow arrangements typically prioritize the payment of all taxes due, followed by payment of expenses in connection with the construction of the project, operation and maintenance expenses including expenses for repair works, payment of concession fees, debt service payments, negative grant/premium payable to the concessioning authority, reimbursement of expenditure incurred by the concessioning authority, any payments and damages due and payable and any reserve requirements set forth in any financing agreements. For details of the escrow arrangements, see "*Summary of the Concession Agreements*" on page 168.

With respect to withdrawals on termination, the escrow arrangements for the BOT projects typically prioritize the payment of all taxes due, followed by the payment of 90% of debt due to senior lenders (excluding subordinated debt), the payment of any outstanding concession fee, the payment of damages in relation to the concession, retentions and payments arising out of liability for any defects, the remainder of debt due, subordinated debt, operation and maintenance expenses and any other payments under the concession agreement, after which the balance may be withdrawn by the Project SPVs for their own purposes. For IRB GEPL, IRB LTPL, IRB GTPL and IRB KTPL, which are TOT projects, the withdrawals on termination under the escrow arrangement prioritize the payment of all taxes due, followed by all payments due to senior lenders, the payment of damages certified by

the concessioning authority as being payable by the concessionaire, retentions and payments arising out of liability for any defects and deficiencies, operation and maintenance expenses and any other payments under the concession agreement, after which the balance may be withdrawn by the Project SPV for its own purposes.

The Shareholder Loans will be classified as subordinated debt and equity under the concession agreements (other than to the extent of refinancing of the debt availed from existing senior lenders). Accordingly, the ability of the Trust to access such termination payments in relation to the Shareholder Loans will be subordinated to the discharge of all obligations towards the senior lenders and the payment of, among other things, any outstanding concession fees and damages. Any shortfall in the termination payments received from the concessioning authority may prevent us from recovering our investments or returns in the relevant Project SPVs and Target SPV adequately or at all.

3. *The regulatory framework governing infrastructure investment trusts in India is still evolving and the interpretation and enforcement thereof involve uncertainties, which may have a material, adverse effect on the ability of certain categories of investors to invest in the Units, our business, financial condition and results of operations and our ability to make distributions to Unitholders.*

The SEBI issued the InvIT Regulations with effect from September 26, 2014. The regulations have been amended and supplemented with additional guidelines, circulars and notifications from time to time. While the InvIT Regulations historically provided a framework for unlisted infrastructure investment trusts and the Trust was initially operating under such framework, the SEBI subsequently decided to discontinue to the framework for unlisted infrastructure investment trusts, and the Trust was listed on the NSE on April 3, 2023.

Because the regulatory framework governing infrastructure investment trusts is still evolving, interpretation and enforcement by regulators and courts involves uncertainties. Further, regulations and processes with respect to certain aspects of infrastructure investment trusts, including, but not limited to, the dissolution and delisting of infrastructure investment trusts and the liabilities of Unitholders, have not yet been issued or adopted. For example, infrastructure investment trusts are not "companies" or "bodies corporate" within the meaning of various SEBI regulations. Accordingly, the applicability of several regulations to the Trust is unclear.

Infrastructure investment trusts operate in a relatively untested regulatory environment. Changes to the Issue structure, changes to agreements entered into or proposed to be entered into in connection with the Issue, cost increases, fines, legal fees or business interruptions may result from changes to regulations, from new regulations, from new interpretations by courts or regulators of existing regulations or from stricter enforcement practices by regulatory authorities of existing regulations. In addition, new costs may arise from audit, certification and/or self-assessment standards required to maintain compliance with new and existing InvIT Regulations. Such changes in regulation, interpretation and enforcement may render it economically infeasible to continue conducting business as an infrastructure investment trust or otherwise have a material, adverse effect on our business, financial condition and results of operations.

Because we operate in an evolving and relatively untested regulatory environment, it is difficult to forecast how any new laws, regulations or standards or future amendments to the InvIT Regulations will affect infrastructure investment trusts and the infrastructure sector in India, and no assurance can be given that the regulatory system will not change in a way that will impair our ability to comply with the regulations, conduct our business, compete effectively or make distributions. Failure to comply with changes in laws, regulations and standards may have a material, adverse effect on our business, financial condition, results of operations and prospects.

4. *We may not be able to make distributions to Unitholders or the level of distributions may fall.*

The Trust's distributions will be based on the NDCF available for distribution and not on whether the Trust makes an accounting profit or loss. The InvIT Regulations provide that not less than 90% of NDCF of each Project SPV (and upon completion of the MBEL Acquisition, MBEL) are required to be distributed to the Trust in proportion of its holding in each of the Project SPVs (and upon completion of MBEL Acquisition, MBEL) subject to applicable provisions of the Companies Act. Under the InvIT Regulations, not less than 90% of the NDCF of the Trust is required be distributed to the Unitholders not less than once every financial year. Such distributions are required to be made within five working days from the record date for such distribution. The Investment Manager has adopted a distribution policy pursuant to which distributions are required to be made to the Unitholders on a quarterly basis. For further details, see "*Distributions*" on page 316.

The utilization of the Issue Proceeds by the Trust is not subject to monitoring by any independent agency.

The Trust primarily relies on interest payments and principal repayments in relation to the Shareholder Loans, the subordinated debt and the unsecured loans for generating its NDCF. NDCF at the Trust level may also be

generated through payment of dividends by the Project SPVs or Target SPV, as applicable, or buy-back of shares of the Project SPVs or the Target SPV. Similar to the Shareholder Loans, a portion of the subordinated debt and unsecured loans of the Project SPVs (except PDTPL, UTL, CGTL, IRB GEPL, STPL, IRB LTPL, IRB GTPL and IRB KTPL) have become interest-bearing upon the listing of the Units. In relation to IRB GEPL, IRB LTPL, IRB GTPL and IRB KTPL Shareholder Loans became interest-bearing upon the receipt of the appointed date for the projects. Further, the Shareholder Loans for PDTPL and STPL will become interest-bearing from the date of completion of construction of these projects and the Shareholder Loans for UTL and CGTL will become interest-bearing upon the receipt of certain consents.

Further, the Trust proposes to acquire certain non-convertible debentures from the Sponsor and Anahera under the MBEL Securities Purchase Agreement. Interest shall be chargeable on such debentures after completion of construction of the project. See also *"–The Project SPVs are subject to restrictive covenants under their financing agreements that could limit our flexibility in managing our business or to use cash or other assets."* on page 34.

There can be no assurance or guarantee that the Trust will have sufficient distributable or realized profits or surplus in any future period to make distributions quarterly in any amount or at all. The ability of the Project SPVs or the Target SPV to service the Shareholder Loans, unsecured loans, subordinated debt and non-convertible debentures and pay dividends may be affected by a number of factors including, among other things:

- their respective businesses and financial positions;
- insufficient cash flows received from the assets;
- applicable law which may restrict the payment of dividends by the Project SPVs and the Target SPV;
- operating losses incurred by the Project SPVs or the Target SPV in any financial year;
- changes in accounting standards, taxation laws and regulations, laws and regulations in respect of foreign exchange repatriation of funds, corporation laws and regulations relating thereto; and
- the terms of agreements, including any concession agreements or financing agreements, to which they are, or may become, a party.

Further, the method of calculation of NDCF is subject to change. Any change in the applicable law in India or elsewhere (including, for example, tax laws and foreign exchange controls) may limit the Trust's ability to pay or maintain distributions to Unitholders. No assurance can be given that the Trust will be able to pay or maintain the levels of distributions or that the level of distributions will increase over time, or that future acquisitions will increase the Trust's distributable free cash flow to Unitholders. Any reduction in, or elimination or taxation of, payments of distributions could materially and adversely affect the distributions made by the Trust.

5. *Any default under the existing or future financing arrangements by any of the Project SPVs or the Target SPV could adversely impact the Trust's ability to continue to own a majority of each of the Project SPVs and the Target SPV, its cash flows and its ability to make distributions to Unitholders.*

Any default under the existing or future financing arrangements by any of the Project SPVs or the Target SPV could adversely impact the Trust's ability to own the Project SPVs and the Target SPV, its cash flows and its ability to make distributions to Unitholders.

In addition, the lenders of the Project SPVs and the Target SPV had issued consents in relation to the Formation Transactions and the MBEL Acquisition, respectively. Such consents impose certain obligations on the Trust, including:

- the existing escrow agreement for the projects and all the toll collection arrangements to be continued;
- no dilution in security and rights of existing lenders;
- IRB group shall continue to hold 51% shareholding in the Trust during the currency of the loan;
- Prior to release of the pledged shares, the Sponsor, the Trust, the Project SPV, the Target SPV, as applicable, and the security trustee (acting on behalf of the lenders) shall execute an agreement setting out, *inter-alia*, the mechanism of and obligations of the parties in relation to the release of the pledge by the security trustee and recreation of the pledge by the Trust to the satisfaction of the lenders;
- unsecured loans availed by the Project SPV and the Target SPV from the Trust will be subordinated to the debt from senior lenders through the currency of loan. Any payment towards unsecured loans extended by

the Trust shall be governed by the clause relating to 'restricted payment' as per the existing financing documents; and

- any new appointment/removal of the Investment Manager/Project Manager by the Trust shall be with prior approval from lenders.

6. *The Consolidated Financial Information and Standalone Financial Information includes unaudited interim financial information as of and for the six-month period ended September 30, 2024. Such information is not audited. Further, the Consolidated Financial Information may not be indicative of the Trust's future financial condition and results of operations. We may not be able to operate our business successfully or generate sufficient cash flows to make or sustain distributions.*

This Letter of Offer includes (i) unaudited interim financial information of the Trust and the Project SPVs as of and for the six-month period ended September 30, 2024; (ii) audited consolidated financial statements of the Trust and the Project SPVs as of and for the Financial Years 2024, 2023 and 2022; (iii) unaudited interim financial information of the Trust as of and for the six-month period ended September 30, 2024; and (iv) audited standalone financial statements of the Trust as of and for the Financial Years 2024, 2023 and 2022.

This Letter of Offer includes summary financial information of MBEL, the Target SPV proposed to be acquired by the Trust as of and for the six-month period ended September 30, 2024 and the Financial Years 2024, 2023 and 2022. MBEL was incorporated on January 5, 2022 and accordingly, the financial information for MBEL included in this Letter of Offer are from the date of incorporation of MBEL. This Letter of Offer also contains Pro Forma Financial Information of the Trust and MBEL as of and for the Financial Year 2024 and the six-month period ended September 30, 2024 prepared in accordance with the requirements of Chapter 9 of the SEBI Master Circular and the InvIT Regulations.

Also see "*Summary Financial Information*" on page 44.

While the unaudited interim financial information has been prepared in accordance with applicable law and accounting standards, such information is not audited and should not be considered as a substitute for audited results for the relevant periods.

Further, the Project SPVs (except PDTPL, IRB GEPL, STPL, IRB LTPL, IRB KTPL and IRB GTPL) were transferred to the Trust on February 25, 2020 by the Sponsor pursuant to the Formation Transactions undertaken as part of the initial offer through private placement of Units. PDTPL, IRB GEPL and STPL were consolidated with effect from such projects' appointed dates, i.e., April 2, 2022, August 12, 2023 and December 28, 2023, respectively. IRB LTPL was incorporated on November 10, 2023 and IRB KTPL and IRB GTPL were each incorporated on January 1, 2024, as SPVs held by the Trust. Accordingly, the Consolidated Financial Information included in this Letter of Offer may not be indicative of our financial results, cash flows and financial position in the future, including pursuant to the acquisition of the Target SPV and any future acquisitions.

7. *The Pro Forma Financial Information included in this Letter of Offer is prepared for illustrative purposes only. Our actual results may be materially different from the outcome of the event or transaction as presented in the Pro Forma Financial Information if the assumptions underlying the preparation of such information do not occur.*

This Letter of Offer contains Pro Forma Financial Information of the Trust and MBEL as at and for the Financial Year 2024 and the six-month period ended September 30, 2024 prepared in accordance with the requirements of Chapter 9 of the SEBI Master Circular and the InvIT Regulations. The Pro Forma Financial Information has been prepared based on certain assumptions for illustrative purposes only, including that the MBEL Acquisition had taken place as of April 1, 2023, and may not necessarily represent our financial position, results of operations and cash flows had MBEL been acquired by the Trust during the periods presented, nor do they give an indication of our financial results, cash flows and financial position in the future.

Further, in relation to the pro forma adjustments, with respect to the equity attributable to Unitholders, the Trust has been assumed to control approximately 80.40% of the equity share capital and 80.40% of non-convertible debenture of MBEL pursuant to the MBEL Securities Purchase Agreement. There are no intra-group elimination adjustments and accordingly, the equity share capital of MBEL is not eliminated in the pro forma consolidated balance sheet as at September 30, 2024 and no other additional material adjustments have been made to the pro forma balance sheet or the pro forma statement of profit and loss. The Pro Forma Financial Information is based upon available information and assumptions that the Investment Manager believes to be reasonable. If the assumptions underlying the preparation of such information do not occur, our actual results could be materially different from those indicated in the information. The rules and regulations related to the preparation of pro forma

financial information in other jurisdictions may vary significantly from the basis of preparation for the Pro Forma Financial Information. Accordingly, the Pro Forma Financial Information should not be relied upon as if it has been prepared in accordance with those standards and practices.

8. *The Target Valuation Report, and any underlying reports, are not opinions on the commercial merits or financial condition of the Target SPV and the valuation contained in such Target Valuation Report may not be indicative of the true value of the Target SPV's asset.*

KPMG Valuation Services LLP has been appointed to undertake valuation of the Target SPV. The Valuer has issued the Target Valuation Report, included in *Annexure B* to this Letter of Offer, which set out its opinion as to the fair enterprise value of the Target SPV as on September 30, 2024.

In order to issue the Target Valuation Report, the Valuer has based its assumptions regarding the traffic volume, toll rates, operation and maintenance costs, amortization, debt repayments and non-cash net working capital projections on information provided by and discussions with or on behalf of us, the Sponsor/Project Manager, the Lead Manager and the Investment Manager, and which reflects current expectations and views regarding future events and, therefore, necessarily involves known and unknown risks and uncertainties. Please see the Target Valuation Report included as *Annexure B* to this Letter of Offer for a detailed description of the assumptions and methodology. The Target Valuation Report contains forecasts, projections and other "forward-looking" statements that relate to future events, which are, by their nature, subject to significant risks and uncertainties. The future events referred to in these forward-looking statements involve risks, uncertainties and other factors which may cause the actual results or performance to be materially different from any future results or performance expressed or implied by the forward-looking statements.

The Target Valuation Report is not an opinion on the commercial merits and structure of the Target SPV, nor is it an opinion, expressed or implied, as to the financial condition of the Trust upon Allotment or listing of the Units in the Issue. The Target SPV Valuation Report does not purport to contain all the information that may be necessary or desirable to fully evaluate the Target SPV or an investment in the Trust or the Units. The Target Valuation Report is not based on a comprehensive review of the business, operational or financial condition of the Target SPV and, accordingly, make no representation or warranty, expressed or implied, in this regard.

The Target Valuation Reports do not constitute and should not be construed as any form of assurance as to the financial condition or future performance of the Trust or as to any other forward-looking statements included therein, including those relating to certain macro-economic factors, by or on behalf of the Sponsor/Project Manager, the Investment Manager, the Trustee, the Lead Manager or their respective affiliates. Further, we cannot assure you that the valuations prepared by the Valuer reflect the true value of the net future revenue of the Target SPV or that other valuers would arrive at the same valuation. Accordingly, the valuation contained therein may not be indicative of the true value of Target SPV's assets. The Target Valuation Report does not take into account any subsequent developments and should not be considered as a recommendation by the Sponsor, the Investment Manager, the Project Manager, the Trustee, the Lead Manager, their respective affiliates or any other party that any person should take any action based on the Target Valuation Report. Accordingly, Applicants should not rely on the Target Valuation Report in making an investment decision to subscribe to Units in the Issue.

9. *We have referred to the data derived from Traffic Reports commissioned from the Traffic Consultant and the Target Traffic Consultant, which are based on certain bases, estimates and assumptions that are subjective in nature and may not be accurate.*

We have relied on Traffic Reports issued by the Traffic Consultant and the Target Traffic Consultant, and commissioned by the Investment Manager, to forecast the traffic volumes for the Project SPVs' projects and the Target SPV's project and to prepare traffic reports on the Expanded Portfolio, which are set out in *Annexure A* to this Letter of Offer. The Traffic Reports are subject to various limitations and are based upon certain bases, estimates and assumptions that are subjective in nature and that are based, in part, on information provided by and discussions with or on behalf of us, the Sponsor/Project Manager and the Investment Manager. The Traffic Reports reflect current expectations and views regarding future events, and therefore, necessarily involve known and unknown risks and uncertainties. The Traffic Reports contain forecasts, projections and other "forward-looking" statements that relate to future events, which are, by their nature, subject to significant risks and uncertainties, including population growth, gross domestic product growth, vehicle ownership rates, per capita income, agricultural output and fuel consumption. The future events referred to in the Traffic Reports involve risks, uncertainties and other factors which may cause the actual traffic volumes to be materially different from any future traffic volumes expressed or implied by the Traffic Reports. There can be no assurance that the bases, estimates and assumptions adopted by the Traffic Consultant and the Target Traffic Consultant for the purposes of preparing the Traffic Reports will prove to be accurate. If any of these bases or assumptions is incorrect, future

traffic volumes for the Current Portfolio and the Target SPV's assets could be materially different from those that are set out in the Traffic Reports and this Letter of Offer. Also see "*Presentation of Financial, Industry and Market Data – Industry and Market Data*" on page 11.

Risks Related to our Business and Industry

10. *We are in the process of acquiring the Target SPV (pursuant to definitive acquisition agreements), which if not completed in a timely manner or at all, or any failure to realise anticipated benefits of the MBEL acquisition, may adversely affect us.*

The proceeds of the Issue are proposed to be utilized for funding the acquisition of the securities of MBEL, the Target SPV, by the Trust pursuant to MBEL Securities Purchase Agreement. The Trust (acting through the Trustee) and the Investment Manager have entered into the MBEL Securities Purchase Agreement dated December 16, 2024 with MBEL, the Sponsor and Anahera for the MBEL Acquisition. Pursuant to the MBEL Securities Purchase Agreement, the Trust proposes to utilize the Issue proceeds to acquire an aggregate of 428,733,000 equity shares of MBEL from the Sponsor and Anahera, aggregating to 80.40% of the equity share capital of MBEL, for a total consideration of ₹4,287.33 million and an aggregate of 128,619 outstanding non-convertible debentures of MBEL from the Sponsor and Anahera, aggregating to 80.40% of the total outstanding non-convertible debentures of MBEL, for a total consideration of ₹12,861.90 million. For details, see "*Objects of the Issue – Details of Utilization of Issue Proceeds*" on page 79.

Certain ancillary agreements have also been entered into in connection with the MBEL Acquisition, including amendments to the Framework Agreement and the Name Licensing Agreement, and the MBEL Project Implementation Agreement.

Our ability to complete the MBEL Acquisition is subject to certain conditions precedent and closing conditions. There can be no assurance that the conditions under the MBEL Securities Purchase Agreement can be completed in a timely manner or at all. Any inability or delay in satisfying any conditions may result in a delay in or failure to complete the proposed investment. Accordingly, there can be no assurance that we will be able to successfully complete the MBEL Acquisition in the manner set out in the agreements or at all.

Further, pursuant to the MBEL Acquisition, we will assume the existing liabilities of MBEL and its asset. The terms of the agreements for the MBEL Acquisition contain indemnities, which are limited on account of monetary and time limits among other limitations, which will limit our recourse under these agreements. Any losses or liabilities suffered by us in relation to MBEL for which we are unable to recover under these agreements may materially and adversely impact our results of operations, profitability, cash flows and our ability to make distributions to Unitholders.

Also, after the completion of the MBEL Acquisition, the Sponsor and Anahera will continue to be shareholders in MBEL, holding 10.00% and 9.60%, respectively, of the post-acquisition equity share capital of MBEL, as mandatory holding under the MBEL Concession Agreement, for a period of two years from the commercial operations date for the project, in accordance with the terms of the MBEL Securities Purchase Agreement. See " *– The Sponsor, whose interests may be different from the other Unitholders, will be able to exercise significant influence over the Trust.*" on page 36 for risks in relation to our relationship with the Sponsor.

11. *If we are not successful in integrating respective assets of the Target SPV, our business, financial condition and results of operations may be adversely impacted.*

While we believe that synergies would result from the MBEL Acquisition, there is a risk that such synergies may not actually occur or the extent of synergies actually recognized post-acquisition may not be as expected. Other risks associated with the proposed acquisition include:

- the difficulty of maintaining uniform standards, controls, procedures and policies throughout our business;
- accurately judging micro-market dynamics, growth potential and competitive environment applicable to the Target SPV, given that this is the Trust's first greenfield project;
- incurring unknown or unexpected potential liabilities;
- obtaining, maintaining and complying with the conditions prescribed under necessary permits certificates, licenses and approvals from governmental and regulatory authorities and agencies; and
- higher than planned expenditure to preserve and grow the value of the Target SPV.

This could materially and adversely affect our business, results of operations and financial condition.

12. *Our failure to extend applicable concession agreements or our inability to identify and acquire new road assets that generate comparable or higher revenue, profits or cash flows than the Project SPVs and the*

Target SPV may have a material adverse impact on our business, financial condition and results of operations and our ability to make distributions.

The concession agreements of the Project SPVs and the Target SPV stipulate a limited concession period. Certain concession agreements provide that if the actual traffic volume or revenue falls short of or exceeds the target traffic volume or revenue on a defined date, the concession period may be extended or reduced, respectively, by the concessioning authority, according to a formula specified in the agreement. The table below sets out the details of the Project SPVs' and the Target SPV's concession periods.

Project SPV/Target SPV	Project	Concession period	Commencement of concession period	End of concession period with no reduction or extension	Residual concession period as of September 30, 2024 with no extension (approx.)
AETL	Agra - Etawah NH-2 Project	24 years	August 1, 2016	July 31, 2040	15 years and 9 months 31 days
CGTL	Gulabpura - Chittorgarh NH-79 Project	20 years	November 4, 2017	November 3, 2037	13 years, 1 month 2 days
IRB HMTL	Hapur - Moradabad NH-9 Project	22 years	May 28, 2019	May 26, 2041	16 years, 7 months 25 days
IRB WTL	Goa - Kundapur NH-17 Project	28 years	March 3, 2014	March 2, 2042	17 years, 5 months 1 day
KGTL	Kishangarh - Gulabpura NH-79/79A Project	20 years	February 21, 2018	February 20, 2038	13 years, 4 months and 22 days
KTL	Kaithal - Rajasthan Board NH-152/65 Project	27 years	July 15, 2015	July 14, 2042	17 years, 9 months and 13 days
SYTL	Solapur - Yedeshi NH-211 Project	29 years	January 21, 2015	January 20, 2044	19 years 3 months 21 days
UTL	Udaipur - Rajasthan NH-8 Project	21 years	September 3, 2017	September 2, 2038	13 years, 11 months 2 days
YATL	Yedeshi - Aurangabad NH-211 Project	26 years	July 1, 2015	June 30, 2041	16 years 8 months 29 days
PDTPL	Palsit-Dankuni NH-19 Project	17 years	April 2, 2022	April 1, 2039	14 years, 6 months and 1 day
IRB GEPL	Hyderabad Outer Ring Road Project	30 years	August 12, 2023	August 11, 2053	28 years, 10 months 10 days
STPL	Samakhiyali – Santalpur NH 27 Project	20 years	December 28, 2023	December 27, 2043	19 years, 2 months and 28 days
IRB LTPL	Lalitpur – Laknadon NH-44 Project	20 years	April 1, 2024	March 31, 2044	19 years, 6 months and 1 day
IRB KTPL	Kota Bypass and Cable Stay Bridge (NH-76) (new NH-27)	20 years	April 1, 2024	March 31, 2044	19 years, 6 months and 1 day
IRB GTPL	Gwalior-Jhansi (NH-44) Project	20 years	April 1, 2024	March 31, 2044	19 years, 6 months and 1 day
MBEL (Target SPV)	Meerut – Budaun	30 years	October 12, 2022	October 11, 2052	28 years and 11 days

As at September 30, 2024, the residual periods for the concessions of the Project SPVs whose concession period have commenced ranged from approximately 28 years, 10 months and 10 days to 13 years, 1 month and 2 days. For

further details on the residual concession period of each of the Current Portfolio assets, see "*Business*" on page 127.

There can also be no assurance that we will be able to acquire new road assets upon the expiry of the Project SPVs' existing concession agreements or at any time thereafter. Accordingly, the number of assets forming part of our portfolio and the revenue generated by them may vary from time to time. Further, even if new road assets are added to our portfolio, there can be no assurance that such road assets will be able to generate comparable or higher cash flows, revenues and profits than the Project SPVs and the Target SPV whose concession periods have expired. If the Project SPVs or the Target SPV are unable to extend their concession agreements, or if we are unable to acquire new road assets that generate comparable or higher cash flows, revenue or profits than the Project SPVs and the Target SPV, our business, financial condition and results of operations and our ability to make distributions to Unitholders may be materially and adversely affected. For further details on the terms of each of the concession agreements, see "*Summary of the Concession Agreements*" on page 168.

13. *The Project SPVs' and the Target SPV's toll-road concessions may be terminated prematurely under certain circumstances.*

The Current Portfolio comprises our principal assets. Upon completion of the MBEL Acquisition, we will also hold MBEL and its road asset. We will be unable to continue the operation of a particular road concession without a continuing concession right from the concessioning authority. A concession may be revoked by the concessioning authority for certain reasons set forth in the relevant concession agreement, including, but not limited to, one or more of the following:

- any failure by the relevant Project SPV or the Target SPV to comply with prescribed minimum shareholding requirements;
- any failure by the relevant Project SPV or the Target SPV to participate in, or match the bid of, the successful bidder in the event of any proposed augmentation of capacity of the relevant road asset;
- any failure by the relevant Project SPV or the Target SPV to augment the capacity of the project if the average daily traffic exceeds the traffic capacity for which the project;
- any failure by the relevant Project SPV or the Target SPV to make any payments, including negative grants, to the concession authority in a timely manner;
- any failure by the relevant Project SPV or the Target SPV to comply with operational or maintenance standards;
- any temporary or permanent halt of operations at the relevant Project SPV or the Target SPV;
- any occurrence of an event of default under any financing document where the lender has recalled any part of the loan;
- any continuation of a force majeure event, such as an act of God, act of war, expropriation or compulsory acquisition of any project assets by the government, industrial strikes, and civil commotions, boycotts and political agitations, beyond a specified time; and
- any failure by the relevant Project SPV or the Target SPV to comply with any other material terms of the relevant concession agreement.

The BOT concession agreements also provide that, if the actual traffic volume exceeds the target traffic volume on a defined date, the NHAI may reduce the concession period according to a formula specified in the concession agreement or require the concessionaire to undertake additional capacity augmentation in lieu of a reduction in the concession period. For IRB GEPL, IRB LTPL, IRB GTPL and IRB KTPL, which are TOT projects, if the actual toll collections exceed the target fee collections on certain dates, as set out in the concession agreement, the concessioning authority may reduce the concession period according to a formula specified in the concession agreement.

For each of the Project SPVs and the Target SPV, we have assumed that we will continue to operate the relevant project until the last date of the concession period as per the relevant concession agreement and have not made provisions for any reduction in the concession periods.

As at the date of this Letter of Offer, completion certificates have not been issued in relation to certain of our four-laning-to-six-laning projects, i.e., IRB WTL, PDTPL and STPL. If we are unable to complete the six-laning/construction of these projects within the timelines under the concession agreements or to the satisfaction

of the NHAI, our concession agreements may be terminated by the NHAI.

AETL, KTL, SYTL, UTL and YATL have received their final completion certificates. CGTL has received a completion certificate dated August 14, 2021. IRB HMTL has received completion certificates dated July 1, 2022 and April 7, 2023. KGTL has received a completion certificate dated July 20, 2022. IRB WTL has received three provisional completion certificates. The receipt of the final completion certificate is subject to the completion of all conditions specified in the provisional completion certificates, such as quadrant pitching, avenue plantation and completion of rest areas. Certain of these activities are subject to the receipt of certain approvals and/or resources from the NHAI. If IRB WTL is unable to complete the pending items listed in the provisional certificates, its concession agreement may be terminated. For more information, see "*Government and Other Approvals –*" on page 831.

In addition, AETL, CGTL, IRB HMTL, KGTL, UTL, PDTPL and STPL are required to pay annual premiums in consideration for being granted the right to build and operate their respective projects. Failure to make such payments could result in the termination of the relevant concession agreement by the NHAI.

In accordance with the terms and conditions of the concession agreements, should threshold levels of traffic set out in the concession agreements be exceeded, the Project SPVs may be required to undertake certain development of their respective assets during an extended concession period by way of augmenting the capacity of the relevant assets. While the Project SPVs are currently in various stages of development, construction and completion, none of the Project SPVs have exceeded the levels of traffic set out in the respective concession agreements and as such, have not been required to undertake certain development of their respective assets, any future requirement to undertake such development may present additional risks to us. Certain concession agreements may impose penalties or provide for termination of such agreement for late or non-completion of certain development of the assets.

Our business, financial condition, reputation and results of operations may be materially and adversely affected if the completion of the construction of the Current Portfolio and/or the conditions specified in the relevant provisional completion certificate is delayed or not achieved in the specified manner. There can be no assurance that these will be completed in the time expected, or at all. Further, there is no assurance that all potential liabilities that may arise from delays or shortfall in performance of contractors will be accurately estimated as part of the planned costs of the construction of the Current Portfolio or conditions specified in the relevant provisional completion certificate, or that the damages that may be claimed from such contractors will be adequate to compensate any loss of revenues or profits resulting from such delays, shortfalls or disruptions. Such risks may increase if completion is delayed for an extended period. If we fail to manage any of the aforesaid risks or any unforeseen risks effectively, our revenues, profitability and results of operations could be materially and adversely affected. For further details on the events that may require the Project SPVs to undertake certain development of their respective assets as contemplated under the relevant concession agreements, see "*Business*" and "*Summary of the Concession Agreements*" on pages 127 and 168, respectively.

If a concession agreement is terminated by the concessioning authority due to a default by a Project SPV or the Target SPV, or by a Project SPV or the Target SPV due to a default by the concessioning authority, such Project SPV or the Target SPV is entitled to termination payments or otherwise from the concessioning authority in accordance with the terms of the relevant concession agreement. The Shareholder Loans may be for a maturity term that exceeds the maturity term of the original facilities obtained from the senior lenders. There can be no assurance that the concessioning authority will recognize such amounts as outstanding after the term of the original facilities obtained by the Project SPVs or the Target SPV from their respective senior lenders. There can also be no assurance that the concessioning authority will pay the termination payments promptly or at all or that any termination payments will be adequate to enable us to recover our investments or returns in the relevant Project SPVs or the Target SPV.

If any of the concession agreements are reduced or terminated prematurely, our business, financial condition and results of operations may be materially and adversely affected. For further details on the termination of the concession agreements, the termination payments, and the definition of "default" as contemplated under the relevant concession agreements, see "*Business*" and "*Summary of the Concession Agreements*" on pages 127 and 168, respectively.

14. *A decline in traffic volumes would materially and adversely affect our business prospects, financial condition and results of operations and our ability to make distributions to Unitholders.*

The Project SPVs currently operate the Current Portfolio assets and the Target SPV will operate its road asset. Toll revenues depend on toll receipts, which in turn depend on toll fees and traffic volumes on the toll roads. Traffic volumes are directly or indirectly affected by many external factors, including:

- toll fees;
- fuel prices in India;
- the frequency of traveller use;
- the number and affordability of automobiles;
- the quality, convenience and travel efficiency of alternative routes outside of our network of toll roads;
- the convenience and extent of a toll road's connections with other parts of the local, state and national highway networks;
- the availability and cost of alternative means of transportation, including rail networks and air transport;
- the level of commercial, industrial and residential development in areas served by the Project SPVs' projects;
- adverse weather conditions; and
- seasonal holidays.

In addition, under the terms of the concession agreements entered into by each of the Project SPVs and the relevant concessioning authority, the Government and State Governments have the right to construct and open additional roads which may serve as alternate routes to the relevant Current Portfolio assets after the expiry of between eight and 15 years, depending on terms of the concession. The construction of such alternative roads and highways may result in a diversion of vehicular traffic from the relevant Current Portfolio assets and a reduction of revenue from toll receipts. Further, local roads and state highways may be improved so as to serve as alternate routes to the relevant Current Portfolio assets, and tolls may or may not be charged on such local roads and state highways. The existence or improvement of such alternative roads and highways may also result in a diversion of vehicular traffic from the relevant Portfolio assets and a reduction of revenue from toll receipts. For instance, the concession agreement for IRB GEPL, a TOT project, also provided for construction of additional roads by the concessioning authority, subject to certain conditions. For additional information on alternate routes, please see the Traffic Reports set out in *Annexure A* to this Letter of Offer. Also see "*Summary of the Concession Agreements*" on page 168.

While most of the Project SPVs' concession agreements provide for an extension in the concession period if the actual traffic volumes/ are significantly lower than the target traffic volumes set forth in the respective concession agreements, there can be no assurances that the concession period will be actually extended by the relevant concessioning authority. In the event that the actual traffic volumes are significantly less than the projected traffic volumes, the revenue generated from toll receipts may be lower than anticipated and our business prospects, financial condition and results of operations and our ability to make distributions to Unitholders may be materially and adversely affected. Similarly, while the Target SPV's concession agreement provides for an extension in the concession period if the actual traffic volumes/ are significantly lower than the target traffic volumes set forth in the concession agreement, based on a formula specified in the concession agreement, there can be no assurance that the concession period will be actually extended by the concessioning authority. This may materially and adversely affect our results of operations and financial condition.

15. *We may face limitations and risks associated with debt financing, refinancing and restrictions on investment.*

We are subject to regulatory restrictions in relation to our debt financing and refinancing. We may from time to time require debt financing and refinancing to carry out the Investment Manager's investment strategy. In the event that we undertake debt financing or refinancing, we may be limited by Indian law as to the form of financing or refinancing that we may undertake. For instance, while the RBI has permitted scheduled commercial banks and certain financial institutions to lend to InvITs, such lending is subject to the conditions specified in the circular which include, *inter-alia*, banks putting in place a board-approved policy for exposure to InvITs and the determination of SPVs not being in "financial difficulty" and lending subject to such policies.

As a listed infrastructure investment trust, we are subject to the leverage limits specified under the InvIT Regulations, i.e., up to 70% of the value of the Trust Assets. Pursuant to a letter dated February 28, 2023, the SEBI has exempted us from the requirement to have a mandatory 'AAA' credit rating and a track record of six distributions to raise debt above 49% of the value of the Trust Assets and up to 70% of the value of the Trust Assets, subject to obtaining a credit rating, disclosure of such credit rating and obtaining unitholder approval. We have obtained and disclosed a credit rating for certain long-term loan facilities from CRISIL Ratings ('AAA/Watch Developing'). Pursuant to a resolution dated August 1, 2023, we have obtained Unitholder

approval for increasing the threshold for borrowings up to 55% of the value of the Trust Assets.

In the event that we undertake debt financing or refinancing, we may also be subject to risks associated with debt financing and refinancing, including the risk that our cash flow may be insufficient to meet required payments of principal and interest under such financing and to make distributions to Unitholders. Our ability to generate sufficient cash to satisfy our debt obligations will depend on our future operating performance, which may be affected by prevailing economic conditions and financial, business and other factors beyond our control. There is no assurance that we will be able to generate sufficient cash flow to meet all of our debt obligations. If we are unable to make payments due under our debt facilities, the lenders may be able to declare an event of default and initiate enforcement proceedings relating to any security provided in respect of the loan facilities, and/or call upon any guarantees, and this may materially and adversely affect our ability to make distributions to Unitholders. In case of default, lenders could initiate proceedings against the Trust Assets and the Trust Assets which remain after recovery of the defaulted amount would be remitted to the Unitholders on a proportionate basis. Such default may also result in the termination of certain concession agreements by the concessioning authority.

We may also be subject to certain covenants in connection with any future borrowings that may limit or otherwise materially and adversely affect our operations and our ability to make distributions to Unitholders, such as covenants restricting our ability to acquire assets or undertake other capital expenditure, requirements to set aside funds for maintenance or repayment of security deposits or requirements to maintain certain financial ratios. For further details, see "*Financial Indebtedness*" on page 800.

Further, if prevailing interest rates or other factors at the time of financing or refinancing (including changes in market conditions and maturity term imposed by any lenders) result in higher interest rates, the interest expense may be significant and may have a material and adverse effect on our cash flow and the amount of distributions available to Unitholders.

Additionally, as privately placed listed infrastructure investment trust, the Trust is permitted to invest only in "eligible infrastructure projects" as defined under the InvIT Regulations, which excludes infrastructure projects that do not meet certain thresholds. This may restrict the scope of potential acquisitions of assets in the future.

16. ***A Project SPV has experienced negative cash flows during the last three financial years.***

The Project SPV set out below has experienced negative cash flows during the periods specified below.

Project SPV	Net cash flow used in operating activities (₹ in million)		
	Financial Year 2024	Financial Year 2023	Financial Year 2022
IRB WTL	(799.85)	(585.47)	2,784.35
KTL	(667.16)	1,841.39	197.3
PDTPL	(236.37)	4,558.50	168.78
STPL	1,402.48	(0.09)	-
UTL	(2,302.07)	594.47	2,541.64
KGTL	(2,633.12)	590.21	3,464.15
CGTL	(1,447.86)	873.33	3,188.04
HMTL	(1,752.52)	1,104.89	4,618.98

Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our construction and growth plans. As a result, our cash flows, business, financial condition and results of operations could be adversely affected.

17. ***Leakage of the toll fees on the Project SPVs' and the Target SPV's roads may materially and adversely affect our revenues and financial condition.***

The Project SPVs' and the Target SPV's toll receipts are primarily dependent on the integrity of toll-collection systems and the willingness of road users to pay toll fees. While each of the Project SPVs has, and the Target SPV proposes to have, an integrated toll-collection system in place, the level of revenues derived from collection of tolls may be reduced by leakage through toll evasion, theft, fraud or technical defaults in the Project SPVs' or the Target SPV's toll systems or forced violations by users of the relevant Expanded Portfolio assets. Further, Project SPVs and the Target SPV may also, at times, need to allow users of the relevant Expanded Portfolio assets to pass through without paying applicable tolls due to heavy traffic build-up, or may be unable to collect tolls due to political protests or other agitations relating to tolling. For instance, due to a protest against certain agricultural laws in India, tolling for the Kaithal – Rajasthan project operated by KTL was halted from December 25, 2020. The protest was called off on December 15, 2021 and toll collection resumed from December 16, 2021. Pursuant to a circular dated July 2, 2021 issued by the NHAI, the impact of such protest has been considered an indirect political

force majeure event for purposes of the concession agreement and concessionaires would accordingly be entitled to appropriate relief with respect to the period of concession, cost of force majeure, interest payment on debt and O&M expenses. For details, see "*Management's Discussion and Analysis of our Financial Condition and Results of Operations – Factors affecting Results of Operations*" and "*Regulations and Policies*" on pages 780 and 286, respectively.

In addition, in certain circumstances, the governmental authorities or Indian courts could seek to suspend toll-collection for or during certain periods, in full or in part, on the Expanded Portfolio assets, which suspension would result in a reduction in our revenues. Further, toll-collection errors may amount to a loss of revenue as there is an inherent risk of under-collection of toll fees given that most users of toll roads pay in cash. Any significant failure by us to monitor and control leakage in toll-collection systems could have a material, adverse effect on our business, prospects, financial condition and results of operations and our ability to make distributions. See "*Summary of the Concession Agreements*" on page 168.

18. *Our business will be subject to seasonal fluctuations that may affect our cash flows.*

Our cash flows will be affected by seasonal factors, which may materially and adversely affect traffic volumes. Traffic volumes tend to decrease during the monsoon season and conversely tend to increase during holiday seasons. The monsoon season may also restrict our ability to carry on activities related to our operation and maintenance of the Expanded Portfolio. This may result in delays in periodic maintenance and reduce productivity, thereby materially and adversely affecting our business, financial condition and results of operations.

19. *Changes in the policies adopted by governmental entities or in the relationships of any of the Trust, the Project SPVs and the Target SPV with the Government of India or state governments could materially and adversely affect our business, financial performance and results of operations.*

The Project SPVs and the Target SPV derive almost all of their revenue from their respective concession agreements with the relevant concessioning authority and must maintain good relationships with the concessioning authorities, the Government of India and the various state governments. We expect that we will continue to depend on, and benefit from, policies relating to the terms of the concessions and other incentives that we will receive from governmental entities in respect of the Project SPVs' and the Target SPV's existing projects and any future projects. In addition, we benefit from, and depend on, the NHAI, the relevant state concessioning authority and various Government of India and state government entities in terms of policies, incentives, budgetary allocations and other resources provided by these entities for the roads industry in general. Any adverse change in any existing governmental policies, incentives, allocations or resources, or any change in our relationships with governmental entities, could materially and adversely affect our business, financial condition and results of operations. Also see "*Regulations and Policies*" on page 286. There can be no assurance that the Government of India will continue to focus on and promote toll-road projects on a build-operate-transfer basis or a toll-operate-transfer basis.

Additionally, toll roads which involve public-private partnerships may be subject to delays, extensive internal processes, policy changes, changes due to local, national and internal political pressures and changes in governmental or external budgetary allocation and insufficiency of funds. Since governmental entities are responsible for awarding concessions and are a party to the development and operation of the awarded projects, our business will be directly and significantly dependent on their support. Any withdrawal of support or adverse changes in their policies, even if not quantifiable monetarily, may lead to the Project SPVs' and the Target SPV's concession agreements being restructured or renegotiated or the concession period being decreased, which could materially and adversely affect the Project SPVs' and the Target SPV's financing, capital expenditure, revenues, development or operations.

20. *Certain provisions of the standard form of concession agreement may be non-negotiable or untested, and the concession agreements may contain certain restrictive terms and conditions which may be subject to varying interpretations.*

Our concession agreements were entered into with the concessioning authorities and we have limited ability to negotiate the terms of these contracts. The concession agreements that we have entered into are based on a model concession agreement prescribed by the NHAI. For example, the toll fees under the BOT project concession agreements is fixed, subject to annual adjustments to account for inflation as specified in the concession agreements and the applicable rules issued by the NHAI. In addition, the operation and maintenance standards and specifications require the Project SPVs and the Target SPV to incur operation and maintenance costs on a regular and periodic basis. The model concession agreement prescribed by the NHAI also provides for a fixed term concession and, although all concession agreements provide for an extension or reduction of the concession period based on certain factors, including actual traffic volumes on the target date, the concession agreements do not provide for renewal of the concession agreement after the expiry of the term.

The form of the concession agreement has evolved within the last decade and there is limited guidance available on the interpretation of a number of provisions and conditions of such concession agreements. In addition, certain terms of the concession agreements, such as those related to an augmentation in the capacity of the toll roads, substitution of the concessioning authorities in any or all of the project agreements, termination payments by the concessioning authorities, construction of additional competing roads by the concessioning authorities, the Government of India or state governments and payment of compensation by the concessioning authorities for changes in law are untested. Accordingly, courts or regulators may consider a different interpretation of certain provisions and conditions in the concession agreements of the Project SPVs and the Target SPV, which may be adverse to us.

The concession agreements of the Project SPVs and the Target SPV's also contain certain restrictive covenants. For instance, the concession agreements contain provisions that mandate substitution clauses in the project agreements. Such substitution clauses allow the concessioning authorities to step into project agreements in place of a Project SPV or the Target SPV in the event of suspension or termination of the concession agreements due to a breach or default by such Project SPV or the Target SPV. The concession agreements also provide that the lenders to a Project SPV or the Target SPV may substitute the Project SPV or the Target SPV with new concessionaires approved by the concessioning authority in the event of a default by the Project SPV or the Target SPV under the relevant concession agreement, financing agreements or other project agreements. Additionally, pursuant to a circular dated January 29, 2014 issued by the NHAI, the NHAI or lenders may substitute the Project SPV in the event of a "financial default" by such Project SPV, which includes situations in which the NHAI or lenders have reason to believe that the Project SPV is likely to face financial distress and is likely to default in its compliance with the terms of the relevant concession agreement.

The terms of the Project SPVs' and the Target SPV concession agreements require the Project SPVs and the Target SPV to indemnify the concessioning authority for losses arising out of the design, engineering, construction, procurement, operation and maintenance of the toll road, defect or deficiency in the provision of services, or arising out of breach of the obligations of the Project SPVs and the Target SPV under the relevant concession agreements, as applicable.

In the event the concessioning authority or a lender invokes any restrictive provision in the concession agreements or interprets any term or condition in an adverse manner, such invocation or interpretation may materially and adversely affect our business, financial condition and results of operations. For further details on the terms of the concession agreements, see "*Summary of the Concession Agreements*" on page 168.

21. *Certain actions of the Project SPVs and the Target SPV require the prior approval of the relevant concessioning authority, and no assurance can be given that the concessioning authority will approve such actions in a timely manner or at all.*

Certain terms and conditions in the Project SPVs' and the Target SPV's concession agreements, financing agreements, and our other approvals require the concessioning authority's prior written approval to be obtained for one or more of the following actions, among others:

- amendment, modification or replacement by the Project SPV or the Target SPV of any project agreements (including financing agreements) relating to the operation of the Expanded Portfolio assets to which the Project SPV or the Target SPV is a party if the amendment, modification or replacement of such agreement increases or imposes any financial liability or obligation on the concessioning authority;

- the creation of any encumbrance or security interest over, or transfer of rights and benefits of the Project SPVs or the Target SPV under, the concession agreements or any project agreements; and

- the selection or replacement of any engineering, procurement and construction contract, operation and maintenance contractor and execution of the engineering, procurement and construction agreements and the operation and maintenance agreements (to the extent applicable).

Pursuant to a letter dated January 3, 2020, the NHAI has approved the establishment of the Trust and the transfer of the Project SPVs to the Trust subject to certain conditions, including, (i) submission of no-objection certificates from the lenders of all the Project SPVs; (ii) the concessionaire/developer complying with all the provisions of the concession agreements including holding 51% in the Trust until two years after the completion / provisional COD of the projects; (iii) the incoming investor complying with all relevant contractual obligations of the concession agreements; (iv) the proposal not having the effect of increasing any financial liability or obligation on the NHAI and not jeopardizing the interests of NHAI in any manner; and (v) an undertaking that all statutory compliances as required by SEBI guidelines will be adhered to.

Pursuant to the letter dated October 12, 2022, the UPEIDA, concessioning authority for the Target SPV, has approved the transfer of the project to the Trust subject to certain conditions, including, that the Sponsor and GIC Financial Investors shall continue to hold 10% and 9.60% of the Target SPV's equity, respectively until two years from the commercial operation date for the project (or such other earlier timeline as prescribed under the concession agreement or applicable regulations).

The concession agreements of the Project SPVs and the Target SPV also require the submission to the concessioning authority, for its review and comments, all project agreements to which a Project SPV or the Target SPV is a party prior to entry, amendment or replacement of such agreements, even if such agreements do not affect the financial liability or obligations of the concessioning authority.

The restrictions described above may impose constraints on our flexibility to conduct our business. Further, if as a result of these restrictions, we are unable to pursue a favorable course of action or to respond to an unfavorable event, condition or circumstance, then our business, financial condition and results of operations may be materially and adversely affected. For details on the terms of the concession agreements, see "*Summary of the Concession Agreements*" on page 168.

22. *We depend on certain directors, executive officers and key employees of the Investment Manager and the Project Manager, and such entities may be unable to retain such personnel or to replace them with similarly qualified personnel, which could have a material, adverse effect on the business, financial condition, results of operations and prospects of the Trust, the Project SPVs and the Target SPV.*

Our performance depends, in part, upon the continued service and performance of certain directors, executive officers and key employees of the Investment Manager and the Project Manager. The continued operations and growth of our business will be dependent upon the Investment Manager and the Project Manager being able to attract and retain personnel who have the necessary and required experience and expertise. Competition for qualified personnel with relevant industry expertise in India is intense due to the scarcity of qualified individuals in the toll roads business, and the aforesaid entities may not be able to retain their executive officers and key employees or attract and retain fresh talent in the future. Any inability by the Investment Manager or the Project Manager to retain their respective directors, executive officers and key employees, or the inability to replace such individuals with similarly qualified personnel, could have a material, adverse effect on the business, financial condition, results of operations and prospects of the Trust, the Project SPVs and the Target SPV.

23. *There can be no assurance that we will be able to successfully undertake future acquisitions of road assets or efficiently manage the infrastructure road assets we have acquired or may acquire in the future.*

Our growth strategy in the future may involve strategic acquisitions of toll roads and other road assets, including pursuant to the Framework Agreement. Pursuant to the Framework Agreement, the Sponsor has agreed to certain arrangements in relation to submission of bids for (i) any new concession by the Sponsor and/or its affiliates involving the development or operation of roads and highways; or (ii) over any extensions of the concession period of road projects held by the Sponsor and/or its affiliates (other than the Project SPVs) with the Financial Investors. For details, see "*Related Party Transactions – Details of Related Party Transactions proposed to be undertaken*" and " *– The Sponsor, whose interests may be different from the other Unitholders, will be able to exercise significant influence over the Trust."* on pages 308 and 36, respectively. We may not be able to conclude appropriate or viable acquisitions in a timely manner. The success of our past acquisitions and any future acquisitions will depend upon several factors, including:

- our ability to finance and acquire operational toll roads and other road assets on a cost-effective basis;
- our ability to integrate acquired personnel, operations, products and technologies into our organization effectively;
- unanticipated problems or legal liabilities of the acquired businesses; and
- tax or accounting issues relating to the acquired businesses.

There can be no assurance that we will be able to achieve the strategic purpose of such acquisitions or operational integration or an acceptable return on such investments, which may materially and adversely affect our profits, financial condition and distributions.

Further, concession agreements for future road projects may also contain terms and conditions that are more restrictive than those under the current Project SPVs' concession agreements for the Current Portfolio or the Target SPV's concession agreement. These restrictions may restrict our flexibility in managing our business or projects and could in turn materially and adversely affect our business prospects, financial condition and results

of operations.

24. *The Project SPVs' and the Target SPV concessions are illiquid in nature, which may make it difficult for us to realize, sell or dispose of our shareholding in the Project SPVs or the Target SPV.*

The Project SPVs' and the Target SPV concessions are illiquid in nature, among other reasons, on account of market conditions, the residual periods of the concession agreements, various approvals, consents and confirmations required by the concessioning authorities as per the concession agreements, and a scarcity of disposal options and/or potential acquirers. As a result, it may be difficult for us to realize, sell or dispose of our shareholding in the Project SPVs or the Target SPV at an attractive price, or at the appropriate time, or at all, and such illiquidity may have a material, adverse effect on our market value, business, prospects, financial condition and results of operations. Further, in addition to the restrictions on minimum holding period and divestment under the InvIT Regulations, we are required to comply with the provisions of the concession agreement including holding at least 51% of each of the Project SPVs and the Target SPV until two years after the completion of construction / provisional COD / appointed date with respect to each of the Expanded Portfolio assets.

25. *Our insurance policies may not provide adequate protection against all possible risks associated with our operations.*

The Project SPVs' and the Target SPV's principal types of insurance coverage include standard fire and special perils insurance, contractor all-risk insurance and money insurance. However, there can be no assurance that all possible risks are adequately insured against or that we will be able to procure adequate insurance coverage at commercially reasonable rates in the future.

Further, the Expanded Portfolio is subject to various risks that we may not be insured against, adequately or at all, including:

- changes in governmental and regulatory policies;
- shortages of, or adverse price movement for, construction materials;
- design and engineering defects;
- breakdown, failure or substandard performance of the road assets and other equipment;
- improper installation or operation of the road assets and other equipment;
- labor disturbances;
- terrorism and acts of war;
- inclement weather and natural disasters;
- environmental hazards, including earthquakes, flooding, tsunamis and landslides; and
- adverse developments in the overall economic environment in India.

Further, we are subject to various risks in the operation of the Portfolio, including on account of accidents on the Expanded Portfolio assets. For further details, see "*Material Litigation and Regulatory Action*" on page 806. Our insurance may not provide adequate coverage in certain circumstances and is subject to certain deductibles, exclusions and limits on coverage. To the extent we suffer damage or loss which is not covered by insurance, or exceed our insurance coverage, such damage or loss would have to be borne by us. We can make no assurance that material losses in excess of insurance proceeds (if any at all) will not occur in the future, which could materially and adversely affect our financial condition, business and results of operations.

26. *The Project SPVs, the Sponsor/Project Manager, the Investment Manager and the Trustee are involved in certain legal and other proceedings, which may not be decided in their favor.*

The Project SPVs, the Sponsor/Project Manager, the Investment Manager and the Trustee are involved in legal proceedings or claims which are pending at different levels of adjudication before various courts, tribunals and regulatory authorities. For details of certain material outstanding legal proceedings, see "*Material Litigation and Regulatory Action*" on page 806. There is no assurance that these legal proceedings and regulatory matters will be decided in favor of the respective entities. Decisions in any of the aforesaid proceedings adverse to our interests may have a material, adverse effect on our or their business, future financial performance and results of operations. If the courts, tribunals or regulatory authorities decide against the Project SPVs, the Sponsor/Project Manager, the

Investment Manager or the Trustee, we or such entities may face monetary and/or reputational losses and may have to make provisions in our financial statements, which could increase expenses and liabilities. While the Sponsor will provide certain indemnities under the relevant share purchase agreement in relation to the Project SPVs, there can be no assurance that the relevant Project SPV or the Trust will be able to successfully bring a claim against the Sponsor under the relevant share purchase agreements or that such indemnities will be adequate to satisfy all the losses, damages, costs and expenses suffered by the Trust and the Project SPVs arising from such proceedings (whether now or in the future) or the consequences thereof.

27. *We do not own the "IRB" trademark and logo. Our license to use the "IRB" trademark and logo may be terminated under certain circumstances and our ability to use the trademark and logo may be impaired.*

We do not own the "IRB" trademark and "IRB" logo, which are registered in the name of, and owned by, the Sponsor. However, pursuant to a separate name licensing agreement, as amended, the Sponsor has granted to the Trust, each of the Project SPVs, the Target SPV and the Investment Manager, the non-transferable and non-assignable right to use the IRB trademark as part of their respective corporate names, if applicable, as well as the IRB logo in connection with their respective businesses, on a non-exclusive basis. The license may be terminated under certain circumstances, including (i) if the Sponsor or any of its subsidiaries ceases to be the sponsor of the Trust for any reason whatsoever; or (ii) if the Sponsor or any of its subsidiaries ceases to hold at least 51% of the equity share capital of the Investment Manager, or an entity which is not a subsidiary of the Sponsor is appointed as the investment manager of the Trust. Upon the termination of any license, the Trust and the Project SPVs and the Target SPV will be required to cease the use of the IRB trademark and change their names to remove IRB from their names within three months from the date of termination, which may have a material, adverse effect on the operations of the Trust, the Project SPVs and the Target SPV and require management's time and attention.

28. *The Expanded Portfolio is concentrated in the infrastructure sector and toll-road industry in India, and our business could be adversely affected by an economic downturn in that sector or industry. The Project SPVs' and projects are geographically concentrated in Rajasthan and Maharashtra.*

The Portfolio comprises 15 toll roads in India. Upon completion of the MBEL Acquisition, the portfolio of the Trust will also include MBEL and its road asset. This concentration may expose us to the risk of economic downturns in the infrastructure sector and the toll-road industry to a greater extent than if our assets were more diversified across other industries in the infrastructure sector or other sectors of the economy.

As at the date of this Letter of Offer, four Current Portfolio assets are located in or pass through Rajasthan. Additionally, two Current Portfolio assets each are located in or pass through Maharashtra and Uttar Pradesh. Also, the BOT project of Target SPV is located in and passes through Uttar Pradesh. Our business therefore will be significantly dependent on the general economic conditions, market conditions and natural disasters in the states in which we operate, in particular Rajasthan, Uttar Pradesh and Maharashtra. Any regional slowdown in economic activity in these areas resulting in a reduction in traffic on the Current Portfolio assets could materially and adversely affect our business, financial condition and results of operations.

29. *Political and other agitations against the collection of tolls may affect our ability to collect tolls over prolonged periods, which could have a material, adverse effect on our business, results of operation and financial condition.*

Over the past few years, there have been agitations by political parties and local community members against the collection of tolls on local road and state highway projects across various states, including Maharashtra. These agitations have often turned violent and resulted in the destruction of toll-collection booths and other related property. If such events spread to the Project SPVs' or the Target SPV, which are located on national highways or other roads, it may limit our ability to collect tolls over a prolonged period and may have a material, adverse effect on our business, financial condition and results of operations. Further, the Project SPVs' and the Target SPV's concession agreements provide that in the event that the Project SPVs' and the Target SPV's ability to collect tolls is disrupted as a result of political and other agitations over a specified period, either party to the concession agreement may terminate the agreement. While the concession agreements provide for a specified payment mechanism in the case of such termination, there can be no assurance that the Project SPVs and the Target SPV will receive such payments from the concessioning authorities in a timely manner or at all, or that such payments will be adequate to recover our investment or return, which may materially and adversely affect our business, financial condition and results of operations.

30. *We may be unable to renew or maintain the statutory and regulatory permits and approvals required to operate the Expanded Portfolio.*

The Project SPVs and the Target SPV are required to obtain and maintain certain permits, approvals, licenses,

registrations and permissions under various regulations, guidelines, circulars and statutes regulated by various regulatory and governmental authorities for operating the Expanded Portfolio assets. Certain approvals may lapse in normal course and the respective Project SPVs and the Target SPV make application to the appropriate authorities for renewal of such licenses and/or approvals. For further details, see "*Government and Other Approvals*" on page 695. Under the Project Implementation Agreements, the Project Manager is responsible for the maintenance of such approvals. In relation to the obligations of the Project Manager under the Project Implementation Agreements, see "*The Sponsor and Project Manager – Functions, Duties and Responsibilities of the Project Manager*" on page 328. If the Project Manager, the Project SPVs and the Target SPV and/or the third-party contractor(s) fail to obtain or maintain them, or if there is any delay in obtaining or renewing them, our business, financial condition and results of operations could be materially and adversely affected. Further, these permits, approvals, licenses, registrations and permissions could be subject to several conditions, and we can make no assurance that we would be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities. This could lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals, which may result in the interruption of our operations and may materially and adversely affect our business, financial condition and results of operations.

31. *Compliance with, and changes in, safety, health and environmental laws and regulations in India may materially and adversely affect our business.*

Our business will be subject to environmental, health and safety laws and regulations and various labor, workplace and related laws and regulations in India and requirements under the concession agreements. For further details, see "*Regulations and Policies*" on page 286. Any changes in, or amendments to, these standards or laws and regulations could further regulate our business and could require us to incur additional, unanticipated expenses in order to comply with these changed standards. Under the Project Implementation Agreements, the Project Manager is responsible for the maintenance of such requirements and standards. In relation to the obligations of the Project Manager under the Project Implementation Agreements, see "*The Sponsor and Project Manager – Functions, Duties and Responsibilities of the Project Manager*" on page 328. If we fail to meet safety, health and environmental requirements, we may also be subject to administrative, civil and criminal proceedings by governmental authorities, as well as civil proceedings by environmental groups and other individuals, which could result in substantial fines and penalties against us. Penalties imposed by regulatory authorities on us or third parties upon whom we depend may also disrupt our business and operations.

There can be no assurance that we will not become involved in future litigation or other proceedings or be held responsible in any such future litigation or proceedings relating to safety, health and environmental matters in the future. Clean-up and remediation costs, as well as damages, payment of fines or other penalties, other liabilities and related litigation, could materially and adversely affect our business, prospects, financial condition and results of operations.

32. *The Project SPVs' financing agreements entail interest at variable rates, and any increases in interest rates may adversely affect our results of operations, financial condition and cash flows.*

The Project SPVs are susceptible to changes in interest rates and the risks arising therefrom. For details, see "*Financial Indebtedness*" on page 800. These financing agreements entail interest at variable rates with a provision for the periodic reset of interest rates. Currently, certain of the Project SPVs' borrowings are at floating rates of interest. Further, under the Project SPVs' financing agreements, the lenders are entitled to change the applicable rate of interest depending upon the policies of the RBI and in the event of an adverse change in the Project SPVs' credit risk rating. Any increase in interest rates may have an adverse effect on our results of operations, financial condition and cash flows.

33. *The Project SPVs are subject to restrictive covenants under their financing agreements that could limit our flexibility in managing our business or to use cash or other assets.*

Various financing agreements that the Project SPVs have entered into with certain banks and financial institutions contain certain restrictive covenants, including, but not limited to, requirements that they obtain consent from the lenders prior to:

- effecting any change in the nature or scope of the project or any change in the financing plan;
- effecting any change in capital structure (including shareholding pattern);
- raising any equity or preference share capital;
- making any capital expenditure other than permitted investments;

- making any dividend payments to the Trust or making any other restricted payments (including redemption of any shares of any class, prepayment in relation to any indebtedness, payment of interest on unsecured loans, investment in any entity) except as permitted under the financing agreements;
- creating of any security interest in any of the secured property;
- incurring any other indebtedness, including the issuance of debentures, other than permitted indebtedness;
- entering into any partnership, profit-sharing or royalty agreement;
- removing any person exercising substantial powers of management over the affairs of the Project SPVs in case of an event of default;
- amending the constitutional documents of the Project SPVs;
- undertaking of any new project or making of any investment or taking any assets on lease;
- providing guarantees, indemnities or similar assurances in respect of indebtedness of any other person, (other than in the ordinary course of business);
- repaying or prepaying any subordinated loan or loans brought in as equity taken by the Project SPVs from the Sponsor;
- creating any subsidiary or permit the Project SPV to become a subsidiary;
- undertaking or permitting any scheme of arrangement or compromise with its creditors or shareholders; and
- changing the management/management control or the composition of the board of directors of any Project SPV.

For details, see "*Financial Indebtedness*" on page 800. In addition, these restrictive covenants may also affect some of the Trust's rights as the shareholder of the Project SPV and the Project SPV's ability to pay dividends if it is in breach of its obligations under the applicable financing agreement.

In case of any shortfall in project receivables, the relevant Project SPV may need to make good the shortfall from its own sources and/or arrange for the loan to be repaid through revenue shortfall loans from the relevant concession authority. Such financing agreements also require us to maintain certain financial ratios. In the event of any breach of any covenant contained in these financing agreements, we may be required to immediately repay our borrowings either in whole or in part, together with any related costs. There can be no assurance that we will be able to secure consents from, and/or negotiate revised terms with, the lenders on terms favorable to the Trust or at all.

Further, the financing agreements also contain cross default provisions which could automatically trigger defaults under other financing agreements. Certain lenders are also entitled to accelerate the repayment of the loans at any time based on the lenders' assessment of the cash flows, subject to any approval required from the concessioning authority.

If the Project SPV or the Target SPV is suspended under the concession in relation to any default by such Project SPV or the Target SPV, at any time during such suspension, the senior lenders of each Project SPV and the Target SPV have the right to request the concessioning authority to substitute the concessionaire in accordance with the substitution agreement.

Any downgrading of the credit rating of the Project SPVs by a credit rating agency or any adverse comment from the statutory auditors of such Project SPV or the Trust may qualify as an event of default under the relevant financing agreements of the Project SPVs. Certain financing agreements also provide the banks and financial institutions with the right to convert amounts due into equity in the event of default, with the approval of the relevant concessioning authority. Certain of these banks and financial institutions also have a right to appoint nominee directors under these financing agreements in the event of default. Pursuant to the provisions of certain loan facilities availed by us, the lenders are entitled to recall the loan at any time on demand or call notice, requiring the borrower to repay (either in full or in part) the amount outstanding on any particular day.

Any or all of the above restrictive covenants may restrict our ability to conduct business and any breach thereof may adversely affect our results of operations and financial condition.

34. ***Shares of the Project SPVs and the Target SPV are required to be pledged in favor of lenders who may***

exercise their rights under the respective share pledge agreements in the event of default under relevant financing agreements.

Shares of the Project SPVs and the Target SPV are required to be pledged in favor of the lenders to such Project SPVs/Target SPV to secure loan facilities obtained by the Project SPVs/Target SPV. 51% of the equity share capital of each of the Project SPVs has been pledged in favor of their respective lenders, in accordance with the relevant financing documents. Further, 51% of the equity share capital of the Target SPV will be pledged in favor of their respective lenders, in accordance with the relevant financing documents.

If there are any defaults in payment or any breach under the relevant financing agreements, the lenders may exercise their right to enforce the security interest under the financing agreements, including by taking ownership of the pledged shares, selling the pledged shares to any third-party purchaser, and exercising voting rights in respect of the pledged shares on any matter at any meeting of the members of the relevant Project SPVs or the Target SPV. If any such event occurs, we may not be able to fully recognize revenue attributable to these Project SPVs or the Target SPV, if at all. In addition, if we lose ownership or control of any of our Project SPVs or the Target SPV, our business, results of operations and financial condition, and our ability to make distributions, would be adversely affected.

35. ***We will enter into related-party transactions. There can be no assurance that we could not have achieved more favorable terms if such transactions had been entered into with third parties.***

The MBEL Acquisition is a related party transaction. We will continue to enter into transactions with related parties, subject to and in accordance with the terms of the Framework Agreement. The procedure with respect to such related party transactions is subject to modification by law, which may have a material, adverse effect on the Trust. Further, there can be no assurance that we could not achieve more favorable terms had such transactions been entered into with unrelated parties. The transactions that we will enter into may involve conflicts of interest which may be detrimental to us. See "*Related Party Transactions*" on page 306. There can be no assurance that such transactions, individually or in the aggregate, will not have a material, adverse effect on our business, financial condition and results of operations, including because of potential conflicts of interest or otherwise.

Risks Related to the Trust's Relationships with the Sponsor and the Investment Manager

36. ***The Sponsor, whose interests may be different from the other Unitholders, will be able to exercise significant influence over the Trust.***

After the completion of the Issue, the Sponsor is expected to own 51.02% of the issued and outstanding Units and will be entitled to vote as a Unitholder on all matters other than matters where it is a related party and not permitted to vote under the InvIT Regulations. Although the Investment Manager has a distinct board of directors, the Sponsor is nonetheless in a position to exercise significant influence in matters which require the approval of Unitholders by virtue of its ownership of Units in the Trust. The interests of the Sponsor may conflict with the interests of our other Unitholders and the Sponsor may, for business considerations or otherwise, seek to benefit itself instead of the Trust or the interests of the other Unitholders. The Sponsor also exercises significant influence over the Investment Manager.

We also rely on the Sponsor to comply with its obligations under the various transaction agreements to which it is a party, including the Framework Agreement. Pursuant to the Framework Agreement, the Sponsor has agreed that prior to the submission of a Bid (as defined under the Framework Agreement) for any Potential Project (as defined under the Framework Agreement), being eligible in accordance with the Investment and Procurement Policy, it will consult the Financial Investors in good faith and make best efforts to bid for the Potential Project on behalf of the Trust on such terms as agreed between Sponsor and the Financial Investors. If the Sponsor and any one or more Agreeable Investors (as defined in the Framework Agreement) agree to bid for Potential Project in a manner not in accordance with the Investment and Procurement Policy or none of the Financial Investors agreed to the terms of the Bid within a reasonable period or do not agree to bid for the Potential Projects on behalf of the Trust, in each case, the Sponsor or the Sponsor and the relevant Agreeable Investor, as the case may be, will be free to submit a Bid (independent and outside the Trust), as it deems fit for the Potential Project subject to the conditions set out in the Framework Agreement.

The Sponsor currently holds 51.00% of the total equity share capital of MBEL. Upon completion of the MBEL Acquisition, the shareholding of the Sponsor in MBEL will reduce to 10% equity share capital of MBEL. Also, please see *"Objects of the Issue - Acquisition of MBEL through purchase of equity shares of MBEL pursuant to the MBEL Securities Purchase Agreement"*.

In addition, as our Project Manager, we rely on the Sponsor to provide construction works for the Project SPVs and the Target SPV which are not yet completed and operation and maintenance services for the completed Project SPVs and the Target SPV. Pursuant to the Project Implementation Agreements and MBEL Project Implementation Agreement, PDTPL, STPL and MBEL will continue to make payments to the Project Manager for the remaining engineering, procurement and construction works in relation to the relevant project on a monthly basis, or as otherwise agreed among the parties to the Project Implementation Agreements based on invoices raised by the Project Manager. Any such payment of fees will be in the nature of a related party transaction and the relevant approvals would be required under the InvIT Regulations. For further information about the fees payable to the Project Manager, please see "*Background and Structure of the Trust – Fees and Expenses*" on page 120.

We also rely on the Sponsor's expertise in executing build-operate-transfer projects in case of any additional work which we may be required to carry out for any of the Project SPVs, the Target SPV or other assets. In the event that the Sponsor does not continue to focus on the infrastructure development sector or the toll-road industry, our business strategy, financial condition and results of operations may be materially and adversely impacted.

37. *The Sponsor is a listed company, operates other road assets and has sponsored another infrastructure investment trust ("Public InvIT"), and anything that impacts the business, results of operations and trading price of the Sponsor's equity shares or the units of the Public InvIT may have a material adverse effect on the Trust.*

The Sponsor has been listed on the Stock Exchanges since 2008. The Sponsor has also previously sponsored the Public InvIT, which has been listed on the Stock Exchanges since 2017 and is also engaged in the toll-roads sector. As at September 30, 2024, the Sponsor had six road projects of which two were operational and four were under-construction. The Public InvIT currently has a portfolio of six toll-road projects, comprising five BOT projects and one HAM asset. Because of our relationship with the Sponsor and its future toll-road assets, anything that impacts the business, results of operations and trading price of the Sponsor's equity shares or the Public InvIT's units may have a material, adverse effect on the Trust.

The Sponsor is subject to ongoing disclosure obligations under applicable regulations. To the extent that business, financial or other information relating to the Trust and its Project SPVs, including any forward-looking information, can be derived from filings made by the Sponsor with the Stock Exchanges, investors are reminded that such information has not been and will not be prepared for purposes of the Issue and does not form a part of this Letter of Offer.

38. *The Investment Manager may not be able to implement its capital and risk management strategies.*

There is no assurance that the Investment Manager will be able to implement these strategies successfully or that it will be able to expand our portfolio at any specified rate or to any specified size or to maintain distributions at projected levels. The Investment Manager may not be able to make acquisitions or investments on favorable terms or within a desired time frame, and it may not be able to manage the operations of its underlying assets in a profitable manner. Factors that may affect this risk may include, but are not limited to, changes in the regulatory framework in India, competition for assets, partial award of concessions or licenses favoring local or other competitors of the Trust, changes in the Indian regulatory or legal environment or macro-economic conditions. If the Investment Manager is unable to implement these strategies successfully or expand our portfolio, we will nonetheless be required to pay the Investment Manager an annual management fee, which may be revised with the approval of the Unitholders such that the votes cast in favor of the resolution shall be at least 60% of total votes cast for the resolution, in accordance with the terms of appointment of the Investment Manager.

Even if the Investment Manager is able to successfully grow the operating business of the underlying assets and to acquire toll roads and other eligible infrastructure projects in India, there can be no assurance that the Investment Manager will achieve any returns on such acquisitions or capital investments.

39. *Parties to the Trust are required to maintain the eligibility conditions specified under Regulation 4 of the InvIT Regulations on an ongoing basis. The Trust may not be able to ensure such ongoing compliance by the Sponsor/Project Manager, the Sponsor Group, the Investment Manager and the Trustee, which could result in the cancellation of the registration of the Trust.*

Parties to the Trust are required to maintain the eligibility conditions specified under Regulation 4 of the InvIT Regulations on an ongoing basis. These eligibility conditions include, among other things, that (a) the Sponsor, Investment Manager and Trustee are separate entities, (b) the Sponsor has a net worth of not less than ₹1,000 million and has a sound track record in the development of infrastructure or fund management in the infrastructure sector, (c) the Investment Manager has a net worth of not less than ₹100 million and has not less than five years' experience in fund management or advisory services or development in the infrastructure sector or the combined

experience of the directors/partners/employees of the investment manager in fund management or advisory services or development in the infrastructure sector is not less than 30 years (provided that for computing the combined experience, only the experience of the directors/partners/employees with more than five years of experience in fund management or advisory services or development in the infrastructure sector shall be considered), (d) the Trustee is registered with the SEBI under Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993 and is not an associate of the Sponsor or Investment Manager and (e) each of the Sponsor/Project Manager, members of the Sponsor Group, the Investment Manager and the Trustee are "fit and proper persons" as defined under Schedule II of the Intermediaries Regulations on an ongoing basis. The Trust may not be able to ensure such ongoing compliance by the Sponsor/Project Manager, members of the Sponsor Group, the Investment Manager and the Trustee, which could result in the cancellation of the registration of the Trust.

40. *The Investment Manager is required to comply with certain ongoing reporting and management obligations in relation to the Trust. There can be no assurance that the Investment Manager will be able to comply with such requirements.*

The Investment Manager is required to comply with certain ongoing reporting and management obligations in relation to the Trust in accordance with the InvIT Regulations. These requirements include, among other things, (a) making investment decisions with respect to the underlying assets or projects of the Trust, (b) overseeing the activities of the Project Manager, (c) investing and declaring distributions in accordance with the InvIT Regulations, (d) submitting reports to the Trustee and (e) ensuring the audit of the Trust's accounts. There can be no assurance that the Investment Manager will be able to comply with such requirements in a timely manner or at all, which could subject the Investment Manager, the other parties to the Trust, the Trust or any person involved in the activity of the Trust to applicable penalties under the InvIT Regulations, the Intermediaries Regulations and/or the SEBI Act. Any such failure to comply or the imposition of any penalty could have a material adverse effect on our business, financial condition and results of operations. Under the InvIT Regulations, the SEBI also has the right to inspect documents, accounts and records relating to the activity of the Trust, the SPVs or Parties to the InvIT and may issue directions in the nature of, *inter-alia*, (i) requiring the Trust to surrender its certificate of registration; (ii) requiring the Trust to wind-up; (iii) requiring the Trust to sell its assets; (iv) requiring the Trust or Parties to the Trust to take such action as may be in the interest of investors; or (v) prohibiting the Trust or Parties to the Trust from operating in the capital markets or from accessing the capital markets for a specified period.

Risks Related to India

41. *Changing laws, rules and regulations, including changes in legislation or the rules relating to tax regimes, legal uncertainties and the political situation in India may materially and adversely affect our business, financial condition and results of operations.*

Our business, financial condition and results of operations could be materially and adversely affected by any change in laws or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. There can be no assurance that the Government of India or the state governments will not implement new regulations and policies which will require the Trust or the Project SPVs or the Target SPV to obtain additional approvals and licenses from governmental and other regulatory bodies or impose onerous requirements and conditions on our operations.

Tax laws and regulations are subject to differing interpretations by tax authorities. Differing interpretations of tax and other fiscal laws and regulations may exist within governmental ministries, including tax administrations and appellate authorities, thus creating uncertainty and potential unexpected results. The degree of uncertainty in tax laws and regulations, combined with significant penalties for default and a risk of aggressive action, including by retrospective legislation, by the governmental or tax authorities, may result in tax risks in the jurisdictions in which we operate being significantly higher than expected. These events may result in a material, adverse effect on our business, financial condition, results of operations and prospects. Tax authorities in India may also introduce additional or new regulations applicable to our business which could adversely affect our business and profitability.

The Government of India has implemented two major reforms in Indian tax laws, namely the goods and services tax and provisions relating to General Anti-Avoidance Rules. Given the relatively recent implementation of these laws, the manner of implementation of these tax regimes could create uncertainty.

The right to own property in India is subject to restrictions that may be imposed by the Government of India. In particular, the Government of India under the provisions of the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 ("**Land Acquisition Act**") has the right to compulsorily acquire any land if such acquisition is for a "public purpose," after providing compensation to the

owner. However, the compensation paid pursuant to such acquisition may not be adequate to compensate the owner for the loss of such property. The likelihood of such acquisitions may increase as central and state governments seek to acquire land for the development of infrastructure projects such as roads, railways, airports and townships. While the NHAI or the relevant concessioning authority is responsible for the acquisition of the land underlying the toll-road infrastructure projects, any delays or disputes relating to such acquisition could lead to delays and disruptions in the execution of our projects, which would have a material adverse effect on our business, financial condition and results of operations.

The Competition Act, 2002, as amended (the "**Competition Act**"), regulates practices having an appreciable adverse effect on competition in the relevant market in India. The Competition Act aims to, among other things, prohibit all agreements and transactions which may have an appreciable adverse effect on competition in India. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an appreciable adverse effect on competition in India. In the event that that any of the assets proposed to be acquired by us in the future cross the prescribed thresholds, we cannot assure you that we will receive the necessary approvals from the CCI to consummate such transactions. Any prohibition or substantial penalties levied under the Competition Act could materially and adversely affect our financial condition and results of operations. Any adverse impact on our financial condition or operations due to the Competition Act may have a material adverse impact on our business, financial condition, results of operations and prospects and our ability to make distributions to the Unitholders.

42. ***Significant increases in the price or shortages in the supply of crude oil and products derived therefrom, including petrol and diesel fuel, could materially and adversely affect the volume of traffic at the projects operated by the Project SPVs and the Target SPV and the Indian economy in general, including the infrastructure sector.***

India imports a significant majority of its requirements of crude oil. Crude oil prices are volatile and are subject to a number of factors, including the level of global production and political factors, such as war and other conflicts, particularly in the Middle East, where a substantial proportion of the world's oil reserves are located. The ongoing Russia-Ukraine war and Israel-Hamas war have caused significant volatility in the price of crude oil and impacted fuel prices in India. Further increases in the price of or shortages in the supply of crude oil could materially and adversely affect the volume of traffic at the projects operated by the Project SPVs and the Target SPV and materially and adversely affect the Indian economy in general, including the infrastructure sector, which could have a material, adverse effect on our business, financial condition and results of operations.

43. ***Our business is dependent on economic growth in India and financial stability in Indian markets, and any slowdown in the Indian economy or in Indian financial markets could have a material adverse effect on our business.***

The Trust is registered in India, and all of our assets are located in India. As a result, we are highly dependent on the prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- any increase in interest rates or inflation in India;
- any exchange rate fluctuations;
- any scarcity of credit or other financing in India;
- prevailing income, consumption and saving conditions among consumers and corporations in India;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighboring countries;
- the occurrence of natural or man-made disasters, pandemics or epidemics;
- prevailing regional or global economic conditions;
- the balance of trade movements, including export demand and movements in key imports, including oil and oil products; annual rainfall which affects agricultural production;
- civil unrest, riots, protests, acts of violence, terrorist attacks, regional conflicts or situations or war involving

India or other countries could materially and adversely affect the financial markets, which could impact our business; and

- other significant regulatory or economic developments in or affecting India or its infrastructure sector.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could have a material, adverse effect on our business, financial condition and results of operations and the price of the Units.

For instance, during the COVID-19 pandemic, the NHAI had temporarily suspended toll collection at toll plazas across India from March 26, 2020. Toll collection subsequently resumed on April 20, 2020. In addition, during the months of April 2021 and May 2021, due to the measures implemented in the states where our projects are under construction, by the respective State Governments, our project sites were required to occasionally close down for short periods of time. Further, from the second fortnight of April 2021, various State Governments imposed restrictions on travel, which led to a decline in our toll collections during the period. Traffic and toll revenue on the Current Portfolio has been and on the Expanded Portfolio, may continue to be impacted as a result of such restrictions or economic slowdown caused by COVID-19, which may adversely affect our cash flows, operating results, businesses, assets, financial condition, performance, ability to access the equity and debt markets, cost of capital and liquidity and prospects.

Further, the Indian economy and Indian financial market are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years, as well as the ongoing Russia-Ukraine war, has affected the Indian economy. Recent bank collapses in the United States and globally have contributed to instability in the global banking system. Although economic conditions are different in each country, investors' reactions to developments in one country can have a material, adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including any instability related to relation between the United States and China, as well as India and China, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

44. ***Any downgrading of India's sovereign debt rating by a domestic or international rating agency could materially and adversely affect our ability to obtain financing and, in turn, our business and financial performance.***

India's sovereign debt rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside of our control. Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may materially and adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which any such additional financing is available. This could have a material, adverse effect on our business and financial performance, ability to obtain financing for capital expenditures and the price of the Units.

45. ***Fluctuations in the exchange rate of the Indian Rupee with respect to the U.S. Dollar or other currencies will affect the foreign currency equivalent of the value of the Units and any distributions.***

Fluctuations in the exchange rates between the Indian Rupee and other currencies will affect the foreign currency equivalent of the Indian Rupee price of the Units. Such fluctuations will also affect the amount that holders of the Units will receive in foreign currency upon conversion of any cash distributions or other distributions paid in Indian Rupees by us on the Units, and any proceeds paid in Indian Rupees from any sale of the Units.

Risks Related to Ownership of the Units

46. ***It may not be possible for Unitholders to enforce foreign judgements.***

The Trustee, the Investment Manager and the Sponsor are incorporated in India and the Trust is settled and registered in India. All of our assets are located in India and we may, from time to time, invest in toll roads in India. Where investors wish to enforce foreign judgements in India, where our assets are or will be located, they may face difficulties in enforcing such judgements. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgements. India exercises reciprocal recognition and enforcement of judgements in civil and commercial matters with a limited number of jurisdictions, including Singapore. In order to be enforceable, a judgement obtained in a jurisdiction which India recognizes as a reciprocating territory must meet certain requirements of the Code of Civil Procedure, 1908 ("**Civil Code**"). Further, the Civil Code only

permits enforcement of monetary decrees not being in the nature of any amounts payable in respect of taxes, or other charges of a like nature or in respect of a fine or other penalty and does not provide for the enforcement of arbitration awards even if such awards are enforceable as a decree or judgement. Judgements or decrees from jurisdictions not recognized as a reciprocating territory by India cannot be enforced or executed in India except through a fresh suit upon judgement. Even if we or a Unitholder were to obtain a judgement in such a jurisdiction, we or it would be required to institute a fresh suit upon the judgement and would not be able to enforce such judgement by proceedings in execution. In addition, the party which has obtained such judgement must institute new proceedings within three years of obtaining the judgement. It is unlikely that an Indian court would award damages on the same basis or to the same extent as was awarded in a judgement rendered by a foreign court if the Indian court believed that the amount of damages awarded was excessive or inconsistent with public policy in India. In addition, any person seeking to enforce a foreign judgement in India is required to obtain prior approval of the RBI to repatriate outside India any amount recovered pursuant to the execution of the judgement.

Consequently, it may not be possible to enforce in an Indian court any judgement obtained in a foreign court, or effect service of process outside of India, against Indian companies, their directors and executive officers, and any other parties resident in India. Additionally, there is no assurance that a suit brought in an Indian court in relation to a foreign judgement will be disposed of in a timely manner.

47. *The Trust may be dissolved, and the proceeds from the dissolution thereof may be less than the amount invested by the Unitholders.*

The Trust is an irrevocable trust registered under the Registration Act and it may only be extinguished, dissolved and terminated in accordance with the InvIT Regulations and other applicable law. Under the Indenture of Trust, in the event of dissolution, the net assets of the Trust, remaining after settlement of all liabilities, and the retention of any reserves which the Trustee deems to be necessary to discharge contingent or unforeseen liabilities, shall be paid to the Unitholders. Should the Trust be dissolved, depending on the circumstances and the terms upon which assets of the Trust are disposed of, there is no assurance that a Unitholder will recover all or any part of its investment. There may also be uncertainty around the interpretation and implementation of certain provisions in relation to the insolvency of a trust under the Insolvency and Bankruptcy Code, 2016.

48. *The reporting requirements and other obligations of infrastructure investment trusts are still evolving. Accordingly, the level of ongoing disclosures made to and the protection granted to Unitholders may be more limited than those made to or available to the shareholders of a listed company in India.*

The InvIT Regulations, along with the guidelines and circulars issued by the SEBI from time to time, govern the affairs of infrastructure investment trusts in India. However, as compared to the statutory and regulatory framework governing listed companies in India, the regulatory framework applicable to infrastructure investment trusts is relatively new and thus, still evolving.

Accordingly, the ongoing disclosures made to Unitholders under the InvIT Regulations may differ from those made to the shareholders of a listed company in accordance with the applicable SEBI regulations. Further, the rights of the Unitholders may not be as extensive as the rights of the shareholders of a listed company and accordingly, the protection available to the Unitholders may be more limited than those available to such shareholders.

49. *The Issue Price may not be indicative of market price of the Units after the Issue and the price of the Units may decline after the Issue.*

The Issue Price determined by the Investment Manager, in consultation with the Lead Manager, may not be indicative of the price of the Units upon completion of the Issue. If the price of the Units declines significantly, Eligible Unitholders may be unable to resell their Units at or above their purchase price, if at all. There can be no assurance that the price of the Units will not fluctuate or decline significantly in the future. The price and value of the Units will depend on many factors, including, among others:

- the perceived prospects of our business and investments and the market for toll roads and other infrastructure projects;
- differences between our actual financial and operating results and those expected by investors and analysts;
- the perceived prospects of future toll roads and other infrastructure projects that may be added to our portfolio in accordance with our investment mandate;
- changes in general economic or market conditions;

- the market value of our assets;
- the perceived attractiveness of the Units against those of other business trusts, equity or debt securities;
- the balance of buyers and sellers of the Units;
- the size and liquidity of the Indian business trusts market;
- any changes to the regulatory system, including the tax system, both generally and specifically in relation to India business trusts;
- the ability of the Investment Manager to implement successfully its investment and growth strategies;
- foreign exchange rates;
- variations in our quarterly operating results;
- additions or departures of key management personnel of the Investment Manager and/or the Project SPVs;
- changes in the amounts of our distributions, if any, and changes in the distribution payment policy or failure to execute the existing distribution policy;
- actions by Unitholders;
- changes in market valuations of similar business entities or companies;
- announcements by us or our competitors of significant contracts, acquisitions, disposals, strategic partnerships, joint ventures or capital commitments;
- speculation in the press or investment community;
- fluctuations in stock market prices and volume;
- general economic and stock market conditions; and
- changes or proposed changes in laws or regulations affecting the road industry and infrastructure development in India or enforcement of these laws and regulations, or announcements relating to these matters.

To the extent that we retain operating cash flow for investment purposes, working capital reserves or other purposes, these retained funds, while increasing the value of our underlying assets, may not correspondingly increase the price of the Units. Our performance with regard to future earnings and distributions may materially and adversely affect the market price of the Units. In addition, Unitholders who do not, or are not able to, participate in a new issuance of Units may experience a dilution of their interest in the Trust. The Units are not capital-safe products and there is no guarantee that Unitholders can regain the amount invested, in full or in part. If the Trust is extinguished, it is possible that investors may lose a part or all of their investment in the Units.

50. *Any future issuance of Units by us or sales of Units by the Sponsor or any of other significant Unitholders may dilute your Unitholding.*

Any future issuance of Units by us could dilute investors' holdings of Units. Any such future issuance of Units could impact our ability to raise capital through an offering of our securities. There can be no assurance that we will not issue further Units. Upon completion of the Issue, 597,839,840 Units (constituting approximately 51.02% of the total number of Units on a post-Issue basis) are expected be held by the Sponsor. While the Sponsor has agreed to certain *inter-se* arrangements in relation to the sale of its Unitholding with the Financial Investors and pre-emptive rights in case of any further issue of Units, if the Sponsor (pursuant to any applicable waivers), directly or indirectly, sells or is perceived as intending to sell a substantial number of its Units, the price for the Units could be materially and adversely affected. These sales may also make it more difficult for us to raise capital through the issue of new units at a time and at a price we deem appropriate. We cannot assure you that the Unitholders, including the Sponsor (subject to the terms of the Framework Agreement), and other significant Unitholders, will not dispose of, pledge or otherwise encumber their Units. For details of the *inter-se* arrangements, see "*Background and Structure of the Trust – Certain Agreements in relation to the Trust – Framework Agreement*" and "*Rights of Unitholders*" on pages 107 and 320, respectively.

51. *Our rights and the rights of the Unitholders to recover claims against the Investment Manager or the Trustee are limited.*

Under the Investment Management Agreement, the Investment Manager is not liable for, among other things, any action for any investment decision taken in respect of the Trust, other than for fraud, gross negligence, or wilful misconduct on the part of the Investment Manager.

Pursuant to the Indenture of Trust, the Trustee is not liable for anything done or omitted to be done or suffered by the Trustee in good faith. Further, the Trustee is not liable for any action or omission that results in any depletion in the value of the trust fund and consequent losses of the Unitholder, except in situations where such depletion is a result of the gross negligence, fraud or wilful default on the part of the Trustee, or a violation of the Investment Management Agreement, as determined by a court of competent jurisdiction whose decision is final and non-appealable. Any costs and expenses incurred by the Trustee in connection with any legal proceedings, in relation to the Trust, shall be incurred by the Trustee from the Trust Assets.

The Investment Management Agreement provides that the Investment Manager is entitled to be indemnified out of the Trust Assets against all taxes and other liabilities, claims, costs, losses, damages and expenses (including reasonable attorney's fees and costs) ("**Losses**") incurred in connection with the Trust, unless arising out of fraud, gross negligence or wilful misconduct. As a result, the Trust's rights and the rights of the Unitholders to recover claims against the Investment Manager are limited. Further, recourse to the Trustee may be limited under the Indenture of Trust. The Indenture of Trust provides for the indemnification of the Trustee for all Losses, except Losses incurred due to any fraud, gross negligence or wilful misconduct, or material breach of the provisions of the Investment Management Agreement, or the provisions of the other Trust Documents, as finally determined by a court of competent jurisdiction.

52. *Information and the other rights of Unitholders under Indian law may differ from such rights available to equity shareholders of an Indian company or under the laws of other jurisdictions.*

The Indenture of Trust and various provisions of Indian law govern our corporate affairs. Legal principles relating to these matters and the validity of corporate procedures, fiduciary duties and liabilities, and Unitholders' rights may differ from those that would apply to a company in India or a trust in another jurisdiction. Unitholders' rights and disclosure standards under Indian law may also differ from the laws of other countries or jurisdictions. Also see "*Rights of Unitholders*" on page 320.

SECTION III – INTRODUCTION

SUMMARY FINANCIAL INFORMATION

The following tables set forth the summary financial statements derived from:

A. (i) unaudited consolidated interim financial information of the Trust and the Project SPVs as of and for the six-month period ended September 30, 2024; and (ii) audited consolidated financial statements of the Trust and the Project SPVs as of and for the Financial Years 2024, 2023 and 2022;

B. (i) unaudited interim standalone financial information of the Trust as of and for the six-month period ended September 30, 2024; and (ii) audited standalone financial statements of the Trust as of and for the Financial Years 2024, 2023 and 2022;

C. the consolidated financial statements of the Sponsor, prepared in accordance with Ind AS and the Companies Act, as of and for the Financial Years ended March 31, 2024, March 31, 2023 and, March 31, 2022;

D. the standalone financial statements of the Investment Manager, prepared in accordance with Ind AS and the Companies Act, as of and for the Financial Years ended March 31, 2024 March 31, 2023 and March 31, 2022;

E. the audited finanical statements of the Target SPV, prepared in accordance with Ind AS and the Companies Act, as of and for the six-month period ended September 30, 2024, and for the Financial Years 2024, 2023 and 2022; and

F. The pro forma financial information of the Trust and the Target SPV as of and for the six-month period ended September 30, 2024, and for the Financial Year 2024.

The degree to which the summary financial information included herein below will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices, Ind AS, the Companies Act and the InvIT Regulations. Accordingly, any reliance by persons not familiar with Indian accounting practices, Ind AS, the Companies Act and the InvIT Regulations on the summary financial information presented below should be limited.

With respect to the Trust, the summary financial information on a standalone and consolidated basis for the six-month period ended September 30, 2024 is based on the independent auditors' report on unaudited interim financial information and has been presented together with the audited financial statements for the Financial Years 2024, 2023 and 2022 for presentation purposes only.

The summary financial information derived from the Consolidated Financial Information, as presented herein below, should be read in conjunction with the Consolidated Financial Information, the notes thereto and the sections "*Financial Statements*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on pages 347 and 777, respectively.

A. Summary Consolidated Financial Statements

THE ISSUE

The Issue is a rights issue under the InvIT Regulations. The Issue has been authorized by a resolution of the board of directors of the Investment Manager dated December 9, 2024.

The following table summarizes the details of the Issue:

Issue	Up to 58,400,000 Units aggregating up to ₹17,149.23 million
Rights Entitlements	One Unit for every 19.07 Units held on the Record Date*
Allotment Lot	200,000 Units
Trading Lot	200,000 Units
Record Date	December 13, 2024
Issue Price	₹ 293.65 per Unit**
Terms of Payment	See "*Issue Procedure*" on page 837
Issue Proceeds	See "*Objects of the Issue*" on page 79
Designated Stock Exchange	NSE
Timeline for Listing	The Units issued in the Issue will be listed within six Working Days from the Issue Closing Date, or such other timeline as may be specified under applicable law
Details of outstanding Units	
Units outstanding prior to the Issue	1,113,693,265 Units
Units outstanding after the Issue	1,172,093,265 Units***

**The Rights Entitlement Ratio is one Unit for every 19.0700901541096 Units held by Eligible Unitholders on the Record Date. For presentation purposes only, the Rights Entitlement Ratio has been presented as rounded-off to two decimal places.*

***The Issue Price is ₹293.6511986. For presentation purposes only, the Issue Price has been presented as rounded-off to two decimal places.*

****Assuming full subscription in the Issue.*

Pursuant to a letter dated December 6, 2024 (read with the letter dated December 11, 2024 from the Investment Manager), the SEBI granted certain exemptions to the Trust from compliance with certain provisions of Chapter 9 of the SEBI Master Circular, pursuant to which the Trust is eligible to undertake the Issue as a rights issue on a fast-track basis.

The Trust has received in-principle approval from the NSE for the listing of the Units to be allotted pursuant to the Issue through its letter dated December 13, 2024. The Investment Manager (on behalf of the Trust) will also make an application to the Stock Exchange to obtain trading approval for the Rights Entitlements.

The Units will be allotted and traded only in dematerialized form, in accordance with the InvIT Regulations and the SEBI Master Circular. There shall not be multiple classes of Units of the Trust, unless permitted by applicable law.

No person connected with the Issue, including any person connected with the distribution of the Issue, shall offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any person for making an application for Allotment of the Units.

GENERAL INFORMATION

The Trust has been settled by the Sponsor as an irrevocable trust under the provisions of the Trusts Act in New Delhi, India pursuant to the Indenture of Trust dated August 27, 2019, as amended. The Indenture of Trust is registered under the Registration Act. The Trust is registered with the SEBI as an infrastructure investment trust under the InvIT Regulations. The Units of the Trust are listed on the NSE.

For details of the business of the Trust, see "*Business*" on page 127.

OBJECTS OF THE ISSUE

This Issue comprises a fresh issue of up to 58,400,000 Units aggregating up to ₹17,149.23 million on a rights basis to Eligible Unitholders.

The Trustee and the Investment Manager shall ensure that the subscription amounts are kept in a separate bank account in the name of the Trust until the listing of the Units pursuant to the Issue and are only utilized for adjustment against Allotment of Units or refund of money to Eligible Unitholders.

In accordance with the InvIT Regulations, the Investment Manager (on behalf of the Trust) intends to utilize the Issue Proceeds towards the objects set out below.

Issue Proceeds

The details of the Issue Proceeds are set forth in the following table:

(₹ in million)

Particulars	Amount*
Gross proceeds from the Fresh Issue	17,149.23
Issue Proceeds	17,149.23

**Assuming full subscription in this Issue*

Utilization of Issue Proceeds

The proposed utilisation of the Issue Proceeds is set forth in the table below:

(₹ in million)

S. No.	Particulars	Amount*
1.	Acquisition of MBEL through purchase of equity shares of MBEL pursuant to the MBEL Securities Purchase Agreement	4,287.33
2.	Acquisition of non-convertible debentures issued by MBEL pursuant to the MBEL Securities Purchase Agreement	12,861.90
Issue Proceeds		17,149.23

**Assuming full subscription in this Issue*

The fund requirements mentioned above and the proposed deployment are based on the estimates of the Investment Manager and have not been appraised by any bank, financial institution or any other external agency. The Issue Proceeds will be utilized in accordance with applicable law.

Details of Utilization of Issue Proceeds

The details of utilization of the Issue Proceeds are set forth herein below:

I. *Acquisition of MBEL through purchase of equity shares of MBEL pursuant to the MBEL Securities Purchase Agreement*

The Investment Manager, on behalf of the Trust, proposes to utilize an estimated amount of ₹4,287.33 million ("**MBEL Share Purchase Amount**") from the Issue Proceeds to pay the consideration for acquiring 428,733,000 equity shares of MBEL aggregating to 80.40% of the equity share capital of MBEL from the Sponsor and Anahera, pursuant to the MBEL Securities Purchase Agreement. The Trustee (on behalf of the Trust), the Investment Manager, the Sponsor, Anahera and MBEL have entered into the MBEL Securities Purchase Agreement for the acquisition of 80.40% of the total equity share capital of MBEL by the Trust. Certain other agreements are have also been entered into in connection with the acquisition of MBEL by the Trust. For details, see "*Background and Structure of the Trust – The MBEL Acquisition*" on page 106.

Key terms of the MBEL Securities Purchase Agreement are set out below.

Certain definitions

"**Closing Date**" shall mean the date on which all activities specified in the MBEL Securities Purchase Agreement have been completed.

"**Governmental Authority**" shall include the SEBI, the UPEIDA, the Ministry of Road Transport and Highways

of the Government of India or any state or union territory of India, the Reserve Bank of India, and any national, state, regional or local government or governmental, regulatory, statutory, administrative, fiscal, taxation, judicial, or government-owned body, department, commission, authority, court, arbitrator, tribunal, agency or entity, in India or outside India, in each case, having jurisdiction over any of the Parties, their operations, or the transactions contemplated in the MBEL Securities Purchase Agreement and the project agreements.

"**Financial Investor Securities T1**" shall mean (i) 210,079,170 equity shares aggregating to 39.40% of the equity share capital of MBEL; and (ii) 63,023 non-convertible debentures aggregating to 39.40% of the outstanding non-convertible debentures issued by MBEL, held by Anahera.

"**Indemnified Parties**" or "**Indemnified Party**" shall mean the Trust, the Trustee, Investment Manager, their respective affiliates (as applicable) and all of their respective directors, officers, employees, representatives and advisors.

"**IRB Securities T1**" shall mean (i) 218,653,830 equity shares aggregating to 41% of the equity share capital of MBEL; and (ii) 65,596 non-convertible debentures aggregating to 41% of the outstanding non-convertible debentures issued by MBEL, held by the Sponsor.

"**Material Adverse Change**" shall mean any fact, circumstance, or condition that, individually or in the aggregate, has a material adverse effect on or material adverse change in:

(i) the business, assets (whether tangible or intangible), liabilities, financial condition or regulatory status of MBEL or a Seller; or

(ii) the ability of a Seller to perform its obligations under the MBEL Securities Purchase Agreement, or to complete the transactions contemplated hereunder; or

(iii) the validity, legality or enforceability of the rights or remedies of the Trust or the Investment Manager under the MBEL Securities Purchase Agreement.

"MBEL Sale Securities T1" shall mean the Financial Investor Securities T1 and the IRB Securities T1.

"**Sellers**" shall mean the Sponsor and Anahera.

"UPEIDA" shall mean Uttar Pradesh Expressways Industrial Development Authority.

Sale and purchase of MBEL Sale Securities T1

Subject to the terms and conditions of the MBEL Securities Purchase Agreement, the Sellers have agreed to transfer the MBEL Sale Securities T1 to the Trust and the Trust has agreed to acquire the MBEL Sale Securities T1, together with all rights, title, interest and benefits appertaining thereto, on the Closing Date in the manner set out in MBEL Securities Purchase Agreement, for the agreed consideration.

The Trust shall ensure that such number of the MBEL sale shares, as may be stipulated by the senior lenders, are pledged with the relevant lenders of MBEL within a specified timeline from the Closing Date in accordance with the financing documents of MBEL.

MBEL is also required to complete the necessary form filings with the Registrar of Companies, Maharashtra in relation to the actions contemplated under the MBEL Securities Purchase Agreement post-closing.

Conditions Precedent

- The obligation of the Parties to consummate the transactions contemplated herein is subject to the fulfillment, prior to the Closing Date, of each of the following conditions by IRB, as applicable, to the satisfaction of the Trust, unless waived or deferred in writing by the Trust at its sole discretion, which, *inter alia*, include:
    - no Governmental Authority of competent jurisdiction shall have enacted, issued, promulgated or enforced any Applicable Law that prohibits or makes illegal the consummation of the transactions contemplated under MBEL Securities Purchase Agreement;
    - there shall be no legal proceeding pending against, or, to the knowledge of IRB, threatened, against

the Sponsor or MBEL wherein an unfavorable judgment, decree, injunction or order could reasonably result in any of the transactions contemplated herein being declared unlawful or rescinded, and no such judgment, decree, injunction or order shall be in effect;

- the transfer of the MBEL Sale Securities T1 under the MBEL Securities Purchase Agreement shall be in compliance with the consent provided by UPEIDA, including any further modification thereto by UPEIDA;

- prior to the Closing Date, the Project: (i) has achieved at least 50% construction completion as certified by the independent engineer of the project or at least 50% of the total capital cost set forth in the financial package has been expended; or (ii) otherwise has become eligible to be held by the Trust under the InvIT Regulations;

- the representations and warranties provided by IRB hereunder and/or under the other transaction documents are true, accurate and complete as of the execution date and as of the Closing Date (except those representations and warranties that address matters only as of a specified date, which shall be true, accurate and complete as of that specified date);

- no Material Adverse Change shall be subsisting as on the Closing Date;

- IRB shall furnish to the Trust certified true copies of all resolutions passed by its board of directors and shareholders, as applicable, in relation to the proposed transaction;

- the conditions precedent under the other transaction documents shall be completed in a manner acceptable to the relevant parties thereunder;

- IRB and MBEL shall have duly performed and complied in all respects with all agreements, covenants and conditions required by the transaction documents to be performed or complied with by them prior to or on the Closing Date; and

- the Trust shall have received a certificate (in agreed form), dated the Closing Date and signed by a duly authorized officer of the Sponsor, that each of the conditions set forth above have been satisfied

- The obligation of the Parties to consummate the transactions contemplated herein is subject to the fulfillment, prior to the Closing Date, of each of the following conditions by Anahera, as applicable, to the satisfaction of the Trust, unless waived or deferred in writing by the Trust at its sole discretion, which, *inter alia*, include:

  - no Governmental Authority of competent jurisdiction shall have enacted, issued, promulgated or enforced any Applicable Law that prohibits or makes illegal the consummation of the transactions contemplated under the MBEL Securities Purchase Agreement;

  - there shall be no legal proceeding pending against, or, to the knowledge of Anahera, threatened, against Anahera wherein an unfavorable judgment, decree, injunction or order could reasonably result in any of the transactions contemplated herein being declared unlawful or rescinded, and no such judgment, decree, injunction or order shall be in effect;

  - the representations and warranties provided by Anahera under the MBEL Securities Purchase Agreement are true, accurate and complete as of the execution date and as of the Closing Date (except those representations and warranties that address matters only as of a specified date, which shall be true, accurate and complete as of that specified date).

  - no Material Adverse Change as stipulated under paragraphs (i) (in respect of Anahera) and (ii) shall be subsisting on the Closing Date;

  - Anahera shall furnish to the Trust certified true copies of all resolutions passed by its board of directors and shareholders, as applicable, in relation to the Proposed Transaction;

  - Anahera shall have duly performed and complied in all respects with all agreements, covenants and conditions required by the transaction documents to be performed or complied with by them prior

to or on the Closing Date;

- Anahera shall have provided its consent in writing to undertake transfer of the MBEL Sale Securities T1 by IRB and itself; and

- the Trust shall have received a certificate (in agreed form), dated the Closing Date and signed by a duly authorized officer of Anahera, that each of the conditions set forth above have been satisfied.

Representations and Warranties

IRB has provided representations and warranties in relation to, *inter-alia*, the organization, status and authority of MBEL, no conflict with other obligations, the capital structure and shareholding of MBEL, compliance with applicable law, maintenance of corporate records and filings as per applicable law, obtaining of all material consents required for carrying out business activities by MBEL and no material breach of any of the conditions of such consents, maintenance of books and accounts as per applicable law, representations in relation to financial statements and related party transactions, compliance with anti-bribery and anti-corruption laws, anti-money-laundering laws.

Each of the Sellers have provided representations and warranties in relation to, *inter-alia*, their incorporation, existence, authority to enter into the agreement, eligibility to undertake the transactions under the agreement, no conflicts, beneficial ownership of the securities they are transferring, no outstanding claims, notices from Governmental Authority or pending legal suits, complaints, claims or proceedings before any court in relation to the securities being transferred

Each of the Sellers has agreed that they will not exercise any rights that prevent the Trust from complying with the provisions of the InvIT Regulations and in case of any inconsistences between MBEL Securities Purchase Agreement and the InvIT Regulations, the provisions of the InvIT Regulations shall prevail.

The Trust and MBEL have agreed and acknowledged that the Sponsor and its affiliates can continue to include MBEL and its project as part of their experience and eligibility in any bids for infrastructure projects submitted by the Sponsor or its affiliates in the future even after the Closing Date.

Indemnification

The Sponsor has agreed to indemnify the Indemnified Parties against, any actual and direct losses, costs, damages, expenses and fees (including legal fees) ("**Loss**"), suffered or incurred by the Indemnified Parties based upon, arising out of, with respect to or relating to: (a) any inaccuracy, misrepresentation or any breach of any Sponsor warranties; (b) any non-fulfilment, non-performance or other breach of any covenant or obligation of the Sponsor and/or MBEL contained in the transaction documents; (c) any matter involving fraud, gross negligence or wilful misconduct by the Sponsor and/or MBEL; and/or (d) certain tax-related matters.

Anahera has agreed to indemnify the Indemnified Parties against any actual and direct Loss suffered or incurred by the Indemnified Parties based upon, arising out of, with respect to or relating to: (a) any inaccuracy, misrepresentation or any breach of any Anahera warranties; (b) any matter involving fraud, gross negligence or wilful misconduct by Anahera; and / or (c) any non-fulfilment, non-performance or other breach of any covenant or obligation of Anahera contained in the MBEL Securities Purchase Agreement.

The parties' indemnification obligations are subject to certain limitations as to quantum as specified in the MBEL Securities Purchase Agreement. Further, the Trust will not be entitled to claim any losses with respect to a particular indemnity event unless the losses exceed a particular amount. Payments by the indemnifying parties in respect of any loss will be limited to the amount of any liability or damage that remains after deducting any insurance proceeds received by the indemnified party in respect of any such claim. Subject to the limitations set out in the MBEL Securities Purchase Agreement, the Sellers' liability for all monetary claims for breach of warranties, including claims for damages, will not exceed a specified amount agreed under the MBEL Securities Purchase Agreement.

Governing Law, Dispute Resolution and Termination

The MBEL Securities PurchaseAgreement is governed by the laws of India. Any dispute shall be referred to and finally resolved by arbitration administered by the Singapore International Arbitration Centre in accordance with

the Arbitration Rules of the Singapore International Arbitration Centre ("**SIAC Rules**") for the time being in force. The arbitration panel will consist of three arbitrators, each of which shall be appointed by SIAC in accordance with the SIAC Rules. The seat and venue of the arbitration proceedings will be London, United Kingdom.

The MBEL Securities Purchase Agreement may be terminated prior to the Closing Date: (i) by the mutual written agreement of the parties; (ii) upon termination of the twelfth amendment to the Framework Agreement; or (iii) by the Trust or any of the Sellers if the Closing has not occurred on or prior to the Long Stop Date (six months from the date of the MBEL Securities Purchase Agreement) including on account of non-fulfilment of the conditions precedent set forth in the MBEL Securities Purchase Agreement.

II. ***Acquisition of non-convertible debetures issued by MBEL pursuant to the MBEL Securities Purchase Agreement***

The Investment Manager, on behalf of the Trust, proposes to utilize an estimated amount of ₹12,861.90 million ("**MBEL Debenture Acquisition Amount**") from the Issue Proceeds to pay the consideration for acquiring an aggregate of 128,619 non-convertible debentures issued by MBEL ("**Debentures**"), aggregating to 80.40% of the total non-convertible debentures issued by MBEL and currently held by Sponsor and Anahera, pursuant to the MBEL Securities Purchase Agreement. For details of the MBEL Securities Purchase Agreement, please see *"- Acquisition of MBEL through purchase of equity shares of MBEL pursuant to the MBEL Securities Purchase Agreement"* on page 79. A summary of the key terms of the non-convertible debentures issued by the Target SPV is set forth below:

1. **Tenure and Repayment**: The tenure of each of the Debentures shall commence on the date of allotment of the Debentures and end 36 (thirty-six) years from the date of allotment ("**Tenure**"). The principal amount of the Debentures shall be repaid by MBEL to the Debenture holders at the end of the Tenure; provided that all or a portion of such amount may be repaid by MBEL to the Debenture holders at any time prior to the expiry of the Tenure in such manner as may be agreed among the Parties, in accordance with the transaction documents. All payments made by MBEL to the Debenture holders shall be made in accordance with applicable law, the MBEL concession agreement and the financing agreements entered into by MBEL.

2. **Status**: The Debentures constitute direct, subordinated (to the debt of the senior lenders), unconditional and unsecured obligations of MBEL and shall at all times rank *pari passu* with each other and without any preference or priority amongst themselves. The payment obligations of MBEL under the Debentures shall, save for such exceptions as may be provided by mandatory provisions of applicable law, at all times rank at least equally with all of its other present and future direct, subordinated, unconditional and unsecured obligations.

3. **Interest**:

   (a) Interest at such rate as agreed or may be agreed among the parties to the MBEL Debenture Subscription Agreement, shall be chargeable on the Debentures from the Project Completion Date, as defined under the MBEL concession agreement. No interest shall accrue and/or arise on the Debentures during the Construction Period (as defined under the MBEL concession agreement).

   (b) Interest shall be payable in arrears on a quarterly basis, on or before the expiry of the calendar month immediately succeeding the completion of each quarter or in such manner and mode and at such intervals as agreed among the Parties (each such date, an "**Interest Payment Date**").

   (c) Interest payments shall be made out of balance available in the escrow account for utilization in accordance with the instructions of MBEL, on the relevant Interest Payment Date and / or repayment date, after meeting all payments due and payable to the Senior Lenders as of such date under the financing agreements entered into by MBEL.

4. **Redemption**:

   (a) Unless redeemed earlier, MBEL shall mandatorily redeem the outstanding Debentures in full at the end of the Tenure and shall ensure payment of all amounts due to the Debenture holders, such that all outstanding amounts payable to the Debenture holders are satisfied on the day immediately after the expiry of the Tenure.

(b) Subject to applicable law, the MBEL Concession Agreement and the financing agreements entered into by MBEL, and subject to receipt of the prior written consent of Anahera, MBEL shall have the right to redeem the Debentures prior to the expiry of the Tenure, by providing a prior written notice of not less than 30 (thirty) days, and specifying the amount to be paid and the proposed date of redemption.

5. **Voting Rights**: The Debentures shall not carry any voting rights.

6. **Variation of terms**: No change, amendment or modification to the terms of the Debentures shall be valid and legally binding unless such amendment has been consented to by all the Debenture holders and such change, amendment or modification has been approved by the Board pursuant to a resolution passed in accordance with applicable law.

The descriptions above are indicative, and there may be additional terms and conditions with respect to financial or other covenants.

Also see "*Risk Factors – We are in the process of acquiring the Target SPV (pursuant to definitive acquisition agreements), which if not completed in a timely manner or at all, or any failure to realize the anticipated benefits of the MBEL Acquisition, may adversely affect us*" on page 14.

In addition to the above, the Investment Manager may utilize the Issue Proceeds towards other expenditure (in the ordinary course of business of the Trust) considered expedient. Any such utilization other than as contemplated towards the objects of the Issue described above will be subject to the consent of all the Unitholders. In case of a shortfall in the Issue Proceeds or cost overruns, the Investment Manager may explore a range of options including utilizing the Trust's, the Project SPVs' or the Target SPV's internal accruals or seeking debt financing in accordance with the business plan and annual budget. The objects of this Issue are proposed to be financed solely through the Issue Proceeds.

Schedule of Deployment

The Investment Manager proposes to deploy the Issue Proceeds during the Financial Year 2025, depending on various factors, including the actual timing of completion of this Issue and the receipt of the Issue Proceeds.

Interim use of Issue Proceeds

Pending utilization of the Issue Proceeds for the purposes described above, the Investment Manager may invest the funds only in deposits in one or more scheduled commercial banks included in the Second Schedule of RBI Act. Pending utilization of the Issue Proceeds for the objects of this Issue, the Investment Manager shall not utilize the Issue Proceeds for any investment in the equity markets (excluding any investment in the equity shares of the Project SPVs), real estate or related products.

STATEMENT OF TAX BENEFITS

Statement of possible tax consideration / benefits available to the Trust and its Unitholders under applicable laws in India

To,
IDBI TRUSTEESHIP SERVICES LIMITED
(Trustee of IRB Infrastructure Trust)
Ground Floor, Universal Insurance Building, Sir Phirozshah Mehta Road Fort, Mumbai 400 001, Maharashtra India

MMK Toll Road Private Limited
(As the Investment Manager of the IRB Infrastructure Trust) Off No-11th Floor/1101,
Hiranandani Knowledge Park Technology Street,
Hill Side Avenue Powai, Mumbai 400 076,
Maharashtra India

Dear Sirs/Madam,

Sub: Statement of possible tax considerations / benefits available to the IRB Infrastructure Trust and its Unitholders under the Income-tax Act, 1961.

We refer to the proposed rights issue (the "Issue") of the units of IRB Infrastructure Trust ("the Trust") and enclose the statement showing the current position of tax considerations / benefits available to the Trust and to its Unitholders as per the provisions of the Income-tax Act, 1961 ('the IT Act') presently in force in India (i.e. applicable for the financial year ending 31 March 2025 relevant to the assessment year 2025-26) for inclusion in the letter of offer to be issued in connection with the Issue.

This statement is provided for general information purposes only and each investor is advised to consult its own tax consultant with respect to specific income tax implications arising out of participation in the rights issue.

Unless otherwise specified, sections referred below are sections of the IT Act. The benefits set out below are subject to conditions specified therein read with the Income-tax Rules, 1962 presently in force.

The benefits outlined in the enclosed statement based on the information and particulars provided by the Trust are neither exhaustive nor conclusive.

We do not express any opinion or provide any assurance as to whether:

- the Trust or its Unitholders will continue to obtain these benefits in future;
- the conditions prescribed for availing the benefits have been/would be met with; and
- the revenue authorities/courts will concur with the views expressed herein.

We hereby give our consent to include the enclosed statement regarding tax benefits available to the Trust and to its Unitholders in the letter of offer in connection with the rights issue of the units of the Trust which is intended to be filed with Securities and Exchange Board of India, the National Stock Exchange of India Limited (being the stock exchange where the units of the Trust are listed) and any regulatory authority as may be required under applicable law.

Limitations

No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to any other person in respect of this statement.

This statement of possible direct tax benefits enumerated above is as per the Income-tax Act as amended by the Finance Act 2024. The statement of possible Direct-tax Benefits sets out the possible tax benefits available to the Trust and its Unitholders under the current tax laws presently in force in India. Several of these benefits available are dependent on the Trust or its Unitholders fulfilling the conditions prescribed under the relevant tax laws.

The information provided above sets out the possible tax benefits available to the Unitholders in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of units, under the current tax laws presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice.

ANNEXURE TO STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE / CONSIDERATIONS APPLICABLE TO IRB INFRASTRUCTURE TRUST AND ITS UNITHOLDERS UNDER APPLICABLE LAWS IN INDIA UNDER THE INCOME-TAX ACT, 1961 (hereinafter referred to as 'the Act')

TAX BENEFITS AVAILABLE / CONSIDERATIONS APPLICABLE TO IRB INFRASTRUCTURE TRUST ('TRUST') UNDER THE ACT

IRB Infrastructure Trust is an Infrastructure Investment Trust under the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, made under the Securities and Exchange Board of India Act, 1992.

Section 2(13A) of the Income Tax Act which defines "Business Trust" has been amended by Finance Act 2020 with effect from 1st April 2021 (i.e. from AY 2021-22) to remove the requirement of listing of units of the trust on stock exchange.

The following benefits are available to a Business Trust after fulfilling conditions as per applicable provisions of the Act and the guidelines prescribed by the Securities and Exchange Board of India ('SEBI') (including the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended) ('SEBI Regulations').

Tax benefit in the hands of the Trust in respect of interest and dividend income:

(a) Interest received or receivable by the Trust from the Special Purpose Vehicle (SPV) would be exempt from tax. [10(23FC)(a)]

(b) Dividend received or receivable by the Trust from a Special Purpose Vehicle (SPV) shall be exempt from tax. [10(23FC)(b)]

For the purpose of the above, "special purpose vehicle" would mean an Indian company in which the business trust holds controlling interest and any specific percentage of shareholding or interest, as may be required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014.

Accordingly, sec. 194A(3)(xi) exempts SPV from the provisions of tax deduction at source in respect of interest paid/payable to the business trust.

Also, sec. 194 provides that the tax deduction at source is not applicable in respect of dividend credited or paid to a business trust by a special purpose vehicle.

Section 193 of the Act provides that provisions relating to tax deduction at source on interest on securities, are not applicable to the payment of interest on securities (like debentures) by SPV to a business trust.

Section 115UA(2) read with section 111A, section 112 of the Act – Taxability of business income, capital gains and income from other sources in the hands of the Trust:

In terms of section 115UA(2) of the Act, the total income of the Trust shall be chargeable to tax at the maximum marginal rates in force, except for the income chargeable to tax on transfer of Short-Term Capital assets under section 111A and Long Terms Capital assets under section 112 of the Act and income referred to in Sec. 10(23FC).

If the period of holding of a security (other than a unit) listed on a recognized stock exchange in India or a unit of the Unit Trust of India or a unit of an equity-oriented fund or a zero-coupon bond is more than 12 months, it will be considered a long-term capital asset as per section 2(29AA) of the Act. With respect to other assets including shares of a company not being listed on a recognized stock exchange or immovable property, being land, building, or both or a unit of a mutual fund other than equity oriented mutual fund or unit of a business trust, the determinative period of holding is more than 24 months for it to be regarded as long-term capital asset.

As per the provisions of section 111A of the Act, any income arising from transfer of short- term capital asset being an equity share in a company or a unit of an equity-oriented fund or a unit of an eligible business trust, transacted through a recognized stock exchange and subject to STT, will be taxable at a rate of 20% (plus applicable surcharge and cess, if any) in respect of transfer taking place on or after 23rd July 2024.

As per the provisions of section 112(1)(d) of the Act, gains arising on the transfer of long- term capital assets shall be chargeable to tax in the hands of the Trust at the rate of 12.5% (plus applicable surcharge and cess) in respect of transfers taking place on or after 23rd July 2024. However, where the tax payable in respect of any income

arising from the transfer of a long-term capital asset which takes place before the 23rd July, 2024, being listed securities (other than a unit) or zero coupon bond, exceeds 10% of the amount of capital gains before giving effect to the second proviso to section 48 relating to indexation, such excess shall be ignored.

With a view to grandfather gains notionally earned by investors up to 31st January 2018, for securities acquired till such date, it has been provided that taxable gains will be determined considering the cost which will be higher of:

- Actual cost of acquisition; or
- Lower of sale price and Fair Market Value (as specifically defined under the Act) (Sec. 55(2)(ac))

In accordance with, and subject to the conditions, including the limit of investment of ₹ 50 lakhs, capital gains arising on transfer of a long term capital asset, being land or building or both, shall be exempt from capital gains under section 54EC if the gains are invested within 6 months from the date of transfer in purchase of specified bonds (redeemable after five years and issued on or after 1 April 2018) issued by National Highways Authority of India (NHAI) or Rural Electrification Corporation Ltd (RECL) or any other bond notified by the Central Government, if permitted to be invested by an Investment trust as per the extant governing regulations. In case the whole of the gains are not so invested, the exemption shall be allowed on a pro rata basis.

As per section 70 read with section 74 of the Act, short term capital loss arising during a year is allowed to be set-off against short term capital gains as well as long term capital gains. Balance loss, if any, shall be carried forward and set-off against any capital gains arising during subsequent eight assessment years. Also, as per section 70 of the Act r.w. section 74, long term capital loss arising during a year is allowed to be set-off only against long term capital gains. Balance loss, if any, shall be carried forward and set-off against long term capital gains arising during subsequent eight assessment years.

TAX BENEFITS AVAILABLE /CONSIDERATIONS APPLICABLE TO UNITHOLDERS OF THE TRUST

SPECIAL CONSIDERATIONS / BENEFITS APPLICABLE TO THE UNITHOLDERS OF THE TRUST:

Following tax benefit is specifically available to the unitholders of the Trust subject to the fulfilment of the conditions specified in the Act and SEBI Regulations:

Section 10(23FD) of the Act - Tax exemption in respect of income distributed by the Trust:

As per the provisions of section 115UA(1) of the Act, the income distributed by the Trust shall be deemed to be of the same nature and in the same proportion in the hands of the Unitholder as it had been received by or accrued to the business trust. However, as per sub-section 3A inserted in section 115UA by the Finance Act, 2023, w.e.f. 01.04.2024, the provisions of sub-section (1) shall not apply in respect of any sum referred to in clause (xii) of section 56(2), received by a unitholder from a business trust.

As per the provisions of section 10(23FD), any income referred to in section 115UA(1) of the Act and distributed by the Trust (except for that proportion of interest income referred in section 10(23FC)(a) of the Act or dividend received/receivable from an SPV referred to in section 10(23FC)(b) in a case where the SPV has exercised the option under section 115BAA; which is taxable under section 115UA(3) of the Act) shall not be included in the total income of the unit- holders.

The Finance Act, 2023 has inserted section 56(2)(xii) w.e.f. 01.04.2024 (i. e. AY 2024-25). The section provides that any specified sum received by unitholder from a business trust during the previous year, with respect to units held by it at any time during the previous year will be taxable as “income from other sources”. The section has introduced a computation methodology to ascertain “specified sum”.

The specified sum is the aggregate of sum distributed [which is not in the nature of income u/s 10(23FC) or which is not chargeable to tax at level of business trust u/s 115UA(2)] by business trust in the previous year or during any earlier previous years to such unitholder who holds such unit on the date of distribution or to any other unitholder who held such unit at any time prior to the date of distribution, and reduced by amount at which such unit was issued by the business trust and further reduced by amount charged to tax u/s 56(2)(xii) in any earlier previous year.

The Finance Act 2023 has also introduced Explanation 1 and Explanation 2 in clause (ii) of section 48 w.e.f. AY 2024-25.

Explanation 1 provides that the cost of acquisition of a unit of business trust shall be reduced and shall be deemed to have always been reduced by any sum received by a unit holder from the business trust w.r.t. such unit, if the sum is-

- Not in the nature of income referred to in section 10(23FC)
- Not chargeable to tax u/s 56(2)(xii)
- Not chargeable to tax u/s 115UA(2)

Explanation 2 covers the situation where the transaction of transfer of a unit is not considered as transfer under section 47 and cost of acquisition of such unit is determined under section 49. It provides that sum received with respect to such unit before such transaction as well as after such transaction shall be reduced from the cost of acquisition. Thus, if an assessee has received unit of business trust under a transaction which is not regarded as 'transfer', the cost of acquisition of such unit shall be reduced by the sum received from the business trust by the assessee as well as the previous unit holder provided such sum is not chargeable to tax either in the hands of the assessee, the previous unit holder and the business trust.

There is no provision for withholding tax obligation to the business trust u/s 194LBA in relation to amount taxable u/s 56(2)(xii) unlike section 195, wherein the trust is liable to withhold tax u/s 195 on distributions to non-resident unitholders.

According to sec. 47(xvii), any transfer of a capital asset, being share of a special purpose vehicle to a business trust in exchange of units allotted by that trust to the transferor shall not be regarded as transfer and accordingly not be liable to capital gains tax.

According to sec. 49(2AC) the cost of units acquired in lieu of shares in SPV shall be deemed to be cost of acquisition of shares in SPV.

As per clause (hc) of explanation 1 of sec. 2(42A), for ascertaining the period of holding of such units, the period of holding of shares in SPV shall also be included.

Notional gain arising on transfer of share of special purpose vehicle to business trust in exchange of units allotted by that trust as referred u/s 47(xvii) or notional gain arising upon change in carrying amount of the units and realised gain on transfer of these units are to be excluded in calculation of book profits for the purposes of MAT u/s 115JB. (clause (iie)) to explanation 1 to section 115JB).

GENERAL BENEFITS AVAILABLE / CONSIDERATIONS APPLICABLE TO ALL UNITHOLDERS OF THE TRUST:

For resident Unitholder- Long-term capital gains:

Income arising on transfer of units of the Trust through a recognized stock exchange, on which STT is paid, shall be chargeable to tax in the hands of the Unitholders at a rate of 12.5% without indexation benefit (plus applicable surcharge and cess) under section 112A of the Act if the said units are long-term capital assets transferred on or after 23rd July 2024.

The determinative period of holding for such units to qualify as long-term capital asset is more than 24 months.

Income arising on transfer of units of the Trust that are long term capital assets, which is not through a recognized stock exchange and not subject to STT, shall be chargeable to tax at 12.5%, (plus applicable surcharge and cess) under section 112 of the Act, if the transfer takes place on or after 23rd July 2024.

In case of a Unitholder being an individual or HUF, where the total taxable income as reduced by long-term capital gains is below the basic exemption limit, the long-term capital gains will be reduced to the extent of the shortfall and only the balance long-term capital gains will be subjected to such tax in accordance with the proviso to clause (a) of sub-section (1) of section 112 of the Act.

For resident Unitholder- Short-term capital gains:

Short-term capital gains arising on transfer of the units of the Trust will be chargeable to tax at the rate of 20% (plus applicable surcharge and cess) in respect of transfers taking place on or after 23rd July 2024 as per the provisions of section 111A of the Act provided such transaction is subject to STT and through a recognized stock exchange.

In case of a Unitholder being an individual or HUF, where the total taxable income as reduced by short-term capital gains is below the basic exemption limit, the short- term capital gains will be reduced to the extent of the shortfall and only the balance short- term capital gains will be subjected to such tax in accordance with the proviso to sub-section (1) of section 111A of the Act.

For resident Unitholder- Set-off of losses:

Short Term Capital Loss computed for the given year is allowed to be set-off against Short Term/ Long Term Capital Gains computed for the said year under section 70 of the Act. Balance loss, if any, shall be carried forward and set-off against any capital gains arising during subsequent eight assessment years. Also, as per section 70 of the Act, long term capital loss arising during a year is allowed to be set-off only against long term capital gains. Balance loss, if any, shall be carried forward and set-off against long term capital gains arising during subsequent eight assessment years.

For resident Unitholder- Deduction of Securities Transaction Tax:

Where the gains arising on the transfer of the units of the Trust are included in the business income of an assessee assessable under the head "Profits and Gains from Business or Profession" and on which securities transaction tax has been charged, such securities transaction tax shall be a deductible expense from business income as per the provisions of section 36(1)(xv) of the Act. The characterization of gains/ losses, arising from transfer of units, as capital gains or business income would depend on the nature of holding in the hands of the unitholders and various other factors.

Section 197 of the Act is amended to include reference to section 194LBA meaning thereby that the unit holder can make application to the assessing officer for obtaining certificate for lower or nil deduction of tax.

For non-resident Unitholder- Long-term capital gains:

Income arising on transfer of units of the Trust, shall be chargeable to tax in the hands of the Unitholders at a rate of 12.5% without indexation and forex fluctuation benefit (plus applicable surcharge and cess) in respect of transfers taking place on or after 23rd July 2024 under section 112A of the Act if the said units are long-term capital assets.

These assets turn long term if they are held for more than 24 months.

Income arising on transfer of units of the Trust that are long term capital assets, which is not through a recognized stock exchange and not subject to STT, shall be chargeable to tax at 12.5%, (plus applicable surcharge and cess) in respect of transfers taking place on or after 23rd July 2024 under section 112 of the Act.

For non-resident Unitholder- Short-term capital gains:

Short-term capital gains arising on transfer of the units of the Trust will be chargeable to tax at the rate of 20% (plus applicable surcharge and cess)) in respect of transfers taking place on or after 23rd July 2024 as per the provisions of section 111A of the Act if such transaction is chargeable to STT.

For non-resident Unitholder- Set-off of losses:

Short Term Capital Loss computed for the given year is allowed to be set-off against Short Term/ Long Term Capital Gains computed for the said year under section 70 of the Act. Balance loss, if any, shall be carried forward and set-off against any capital gains arising during subsequent eight assessment years. Also, as per section 70 of the Act, long term capital loss arising during a year is allowed to be set-off only against long term capital gains. Balance loss, if any, shall be carried forward and set-off against long term capital gains arising during subsequent eight assessment years.

For non-resident Unitholder- Deduction of Securities Transaction Tax:

Where the gains arising on the transfer of units of the trust are included in the business income of an assessee assessable under the head "Profits and Gains from Business or Profession" and on which securities transaction tax has been charged, such securities transaction tax shall be a deductible expense from business income as per the provisions of section 36(1)(xv) of the Act.

For non-resident Unitholder- Benefits under Double Taxation Avoidance Agreements:

Under the provisions of section 90(2) of the Act, a non-resident will be governed by the provisions of the Double Tax Avoidance Agreement (DTAA) between India and the country of tax residence of the non-resident and the provisions of the Act apply to the extent they are more beneficial to the assessee.

As per explanation 4 to section 115JB(2), the provisions of section 115JB shall not be applicable to a foreign company if the foreign company is a resident of a country having DTAA with India and such foreign company does not have a permanent establishment within the definition of the term in the relevant DTAA, or the foreign company is a resident of a country which does not have a DTAA with India and such foreign company is not required to seek registration under section 592 of the Companies Act 1956 or section 380 of the Companies Act 2013.

For non-resident Unitholder- Section 194LBA – Tax Deduction on certain income from units of the Trust:

Where any distributed income referred in section 115UA, is in the nature referred to in clause (23FC) of section 10 payable by the Trust to its unit holder being a non-resident unit holder, then the same shall be subjected to the tax deduction at the rate of 5% in case of income of the nature referred to in sub-clause (a) [interest income] and 10% in case of income of the nature referred to in sub-clause (b) [dividend income] of clause (23FC) of section 10 (plus applicable surcharge and cess). However, in view of section 90(2) of the Act, a non-resident will be governed by the provisions of the Agreement for Avoidance of Double Taxation (AADT) between India and the country of tax residence of the non-resident and the provisions of the Act apply to the extent they are more beneficial to the assessee.

Section 197 of the Act is amended to include reference to section 194LBA meaning thereby that the unit holder can make application to the assessing officer for obtaining certificate for lower or nil deduction of tax.

For unitholders who are Foreign Portfolio Investors ('FPIs')/ Foreign Institutional Investors ('FIIs'):

As per section 2(14) of the Act, any securities held by a FII which has invested in such securities in accordance with the regulations made under the Securities and Exchange Board of India Act, 1992 shall be deemed to be treated as Capital asset. As per section 196D, no tax is to be deducted from any income, by way of capital gains arising from the transfer of units, payable to Foreign Institutional Investor. In respect of non- residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the Tax Treaty, if any, between India and the country in which the FPI/FII has Fiscal domicile. As per the provisions of section 90(2) of the Act, the provisions of the Act would prevail over the provisions of the Tax Treaty to the extent they are more beneficial to the FII.

Pursuant to Central Board of Direct Tax press release dated 24 September 2015, the Government has clarified the inapplicability of Minimum Alternate Tax provisions to FIIs/FPIs.

For unit holders who are Sovereign Wealth Funds:

Under section 10(23FE) of the Act, any income of Sovereign Wealth Fund in the nature of dividend, interest, specified sum referred to in section 56(2)(xii) or long-term capital gains arising from an investment made by it in Business Trust in India is exempt from tax provided such investment is made before 31st March, 2024 and is held for at least three years.

However, the said exemption is not available if a sovereign wealth fund has loans or borrowings, directly or indirectly, for the purpose of making the investment in India.

The exemption would be applicable to a sovereign wealth fund which satisfies stipulated conditions mentioned in Explanation 1 to section 10(23FE) and is notified by the Central Government.

For unitholders who are Mutual Funds:

Under section 10(23D) of the Act, any income earned by a Mutual Fund registered under the Securities and Exchange Board of India Act, 1992, or a Mutual Fund set up by a public sector bank or a public financial institution, or a Mutual Fund authorized by the Reserve Bank of India would be exempt from income-tax, subject to such conditions as the Central Government may by notification in the Official Gazette specify in this behalf.

The Trust is not required to withhold tax on interest payment to Mutual Fund set up under section 10(23D) of the Act.

The above statement of possible direct tax benefits sets out the provisions of law in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares and units.

The stated benefits will be available only to the sole/ first named holder in case the units are held by joint holders.

In respect of non-residents, the tax rates and the consequent taxation mentioned above shall be further subject to

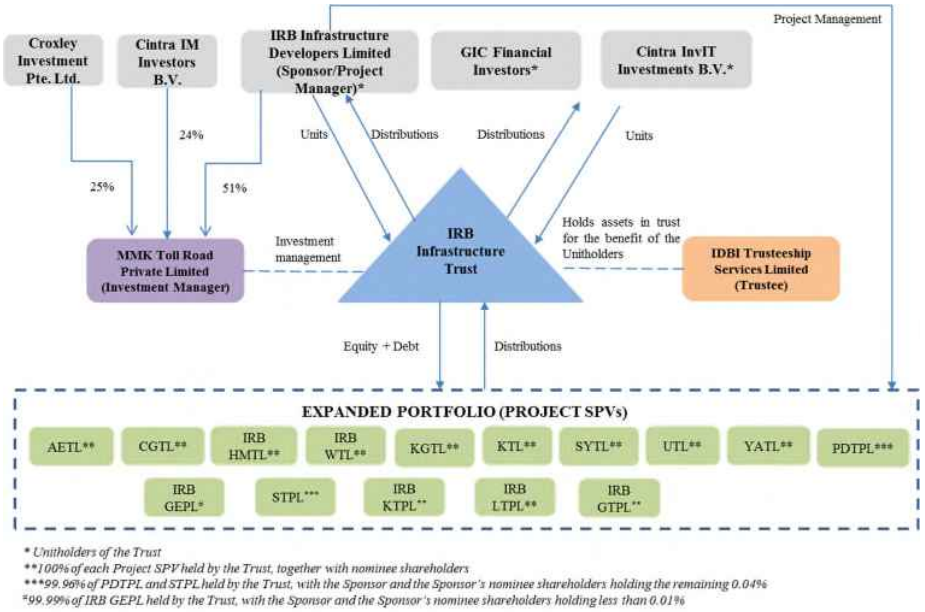
any benefits available under the applicable DTAA, if any, between India and the country in which the non-resident has fiscal domicile.

SECTION IV – ABOUT THE TRUST

BACKGROUND AND STRUCTURE OF THE TRUST

Background of the Trust

The Trust has been settled by the Sponsor as an irrevocable trust under the provisions of the Trusts Act in New Delhi, India pursuant to the Indenture of Trust dated August 27, 2019, as amended. The Indenture of Trust is registered under the Registration Act. The Trust is registered with the SEBI as an infrastructure investment trust under the InvIT Regulations. The Units of the Trust are listed on the NSE.



The object and purpose of the Trust, as described in the Indenture of Trust, is to carry on the activity of an infrastructure investment trust under the InvIT Regulations. Investment by the Trust shall only be in holding companies, SPVs, infrastructure projects, securities in India or other permitted investments in accordance with the InvIT Regulations, the investment strategy and the Trust Documents. The principal investment objective of the Trust is to own, operate and invest in infrastructure projects in India, directly or through holding companies or SPVs and make other investments and undertake such activities in such jurisdictions as may be permissible under the InvIT Regulations, other applicable law and the Trust Documents. For further details in relation to the business and investment strategy of the Trust, see "*Business*" on page 127.

The Trust is required to make distributions to the Unitholders in accordance with the InvIT Regulations and the Distribution Policy. For details in relation to the distribution policy of the Trust, see "*Distributions*" on page 316.

Parties to the Trust and Structure of the Trust

In accordance with the InvIT Regulations, the Parties to the Trust are (i) the Sponsor; (ii) the Investment Manager; (iii) the Trustee; and (iv) the Project Manager. For details, see "*The Sponsor and Project Manager*", "*The Investment Manager*" and "*The Trustee*" on pages 327, 331 and 339 respectively.

The following diagram illustrates the relationship among the Trust, the Project SPVs in the Current Portfolio, the Trustee, the Investment Manager and the Unitholders (which includes the Sponsor) as on the date of this Letter of Offer:

For details in relation to the MBEL Acquisition, see "*Business*", "*Objects of the Issue*" and "*The MBEL Acquisition*" on pages 127, 79 and 106 respectively. For details in relation to the Target SPV, see "- *Details of the Target SPV*" on page 105.

Details of the Project SPVs

1. AETL

Corporate Information

AETL was incorporated on July 21, 2015 as a private limited company under the Companies Act, 1956, having CIN U45209MH2015PTC266741. AETL was converted into a public limited company under the Companies Act, and a fresh certificate of incorporation dated November 13, 2019 was issued, having CIN U45209MH2015PLC266741. Its registered office is situated at Off. No-11th Floor/1101 Hiranandani Knowledge Park, Technology Street, Hill Side Avenue, Powai, Mumbai 400 076, Maharashtra, India.

Main Object

The main object, as contained in the memorandum of association of AETL, is as follows:

"*To carry on the business of infrastructure development in respect of the work of Design, Build, Finance and Operation of Six Laning of Agra to Etawah Bypass section of NH-2 from km 199.660 to km 323.525 in the State of Uttar Pradesh under NHDP Phase V on Design, Build, Finance, Operate and Transfer (DBFOT) Toll basis, including collection and retention of the toll or fee and to carry out the ancillary activities, in relation of the foregoing, as specified in the Concession Agreement to be executed with National Highways Authority of India (NHAI).*"

Capital Structure

The capital structure of AETL is as follows:

Particulars	No. of equity shares of face value of ₹10 each
Authorized capital	436,500,000
Issued, subscribed and paid-up capital	436,500,000

Shareholding Pattern

The shareholding pattern of AETL is as follows:

S. No.	Name of the shareholder	No. of equity shares of face value of ₹10 each	Percentage of the issued, paid-up and subscribed capital (%)
1.	IDBI Trusteeship Services Limited*	436,499,994	100
2.	Mahesh Kavthekar**	1	Negligible
3.	Dhananjay K. Joshi**	1	Negligible
4.	Arati Taskar**	1	Negligible
5.	Shailesh Joshi**	1	Negligible
6.	Nikhil Maniar**	1	Negligible
7.	Amitabh Murarka**	1	Negligible
Total		**436,500,000**	**100**

** On behalf of the Trust*
*** As a nominee of the Trust*

2. CGTL

Corporate Information

CGTL was incorporated on October 18, 2016 as a private limited company under the Companies Act, having CIN U45200MH2016PTC286895. CGTL was converted into a public limited company under the Companies Act, and a fresh certificate of incorporation dated November 13, 2019 was issued, having CIN U45200MH2016PLC286895. Its registered office is situated at Off. No-11th Floor/1101 Hiranandani Knowledge Park, Technology Street, Hill Side Avenue, Powai, Mumbai 400 076, Maharashtra, India.

Main Object

The main object, as contained in the memorandum of association of CGTL, is as follows:

"*To carry on the business of infrastructure development in respect of the work of Design, Build, Finance, and Operation of Six Laning of Kishangarh Udaipur Ahmedabad Section from km 90.000 (near Gulabpura) to km 214.870 (end of Chittorgarh Bypass) of NH-79 in the State of Rajasthan Package-2 under NHDP Phase – V on BOT(Toll) mode, including collection and retention of the toll or fee and to carry out the ancillary activities, in relation of the foregoing, as specified in the Concession Agreement to be executed with National Highways Authority of India (NHAI).*"

Capital Structure

The capital structure of CGTL is as follows:

Particulars	No. of equity shares of face value of ₹10 each
Authorized capital	203,500,000
Issued, subscribed and paid-up capital	203,500,000

Shareholding Pattern

The shareholding pattern of CGTL is as follows:

S. No.	Name of the shareholder	No. of equity shares of face value of ₹10 each	Percentage of the issued, paid-up and subscribed capital (%)
1.	IDBI Trusteeship Services Limited*	203,499,994	100
2.	Mahesh Kavthekar**	1	Negligible
3.	Dhananjay K. Joshi**	1	Negligible
4.	Arati Taskar**	1	Negligible
5.	Shailesh Joshi**	1	Negligible
6.	Nikhil Maniar**	1	Negligible
7.	Vinod Kumar Menon**	1	Negligible
Total		**203,500,000**	**100**

** On behalf of the Trust*
*** As a nominee of the Trust*

3. IRB HMTL

Corporate Information

IRB HMTL was incorporated on April 18, 2018 as a private limited company under the Companies Act, having CIN U45400MH2018PTC308187. IRB HMTL was converted into a public limited company under the Companies Act, and a fresh certificate of incorporation dated November 13, 2019 was issued, having CIN U45400MH2018PLC308187. Its registered office is situated at Off. No-11th Floor/1101 Hiranandani Knowledge Park, Technology Street, Hill Side Avenue, Powai, Mumbai 400 076, Maharashtra, India.

Main Object

The main object, as contained in the memorandum of association of IRB HMTL, is as follows:

"*To carry on the business of infrastructure development in respect of Six Laning of Hapur bypass to Moradabad Section including Hapur bypass from Km 50.000 (Design Chainage 50.000) to Km 148.277 (Design Chainage 149.867) of NH-24 (New NH-9) in the State of Uttar Pradesh under NHDP Phase V (Bharatmala Pariyojna) on DBFOT (Toll) mode, including collection and retention of the toll of fee and to carry out the ancillary activities, in relation of the foregoing, as specified in the Concession Agreement to be executed with National Highways Authority of India (NHAI).*"

Capital Structure

The capital structure of IRB HMTL is as follows:

Particulars	No. of equity shares of face value of ₹10 each
Authorized capital	375,000,000
Issued, subscribed and paid-up capital	371,500,000

Shareholding Pattern

The shareholding pattern of IRB HMTL is as follows:

S. No.	Name of the shareholder	No. of equity shares of face value of ₹10 each	Percentage of the issued, paid-up and subscribed capital (%)
1.	IDBI Trusteeship Services Limited*	371,499,994	100
2.	Mahesh Kavthekar**	1	Negligible
3.	Dhananjay K. Joshi**	1	Negligible

The MBEL Acquisition

The Trust intends to acquire 80.40% of the equity shares of MBEL through the acquisition of 428,733,000 equity shares of MBEL and 80.40% of the outstanding non-convertible debentures through acquisition of 128,619 outstanding non-convertible debentures, from the Sponsor and Anahera, after the listing of the Units issued pursuant to the Issue. The proceeds of the Issue will be utilized to pay the consideration for the acquisition of the MBEL Sale Securities T1 from the Sponsor and Anahera. Upon the completion of the MBEL Acquisition, the Sponsor will continue to hold 53,303,670 equity shares aggregating to 10% of the equity share capital of MBEL and Anahera will continue to hold 51,213,330 equity shares aggregating to 9.60% of the equity share capital of MBEL. Further, the Sponsor will continue to hold 15,992 non-covertible debentures aggregating to10% of the total outstanding non-convertible debentures issued by MBEL and Anahera will continue to hold 15,364 non-convertible debentures aggregating to 9.60% of the total outstanding no-convertible debentures issued by MBEL. The Trustee (on behalf of the Trust), the Investment Manager, the Sponsor, Anahera and MBEL have entered into the MBEL Securities Purchase Agreement for the acquisition of MBEL by the Trust. For a summary of the key terms of the MBEL Securities Purchase Agreement, see “*Objects of the Issue – Details of Utilization of Issue Proceeds*” on page 79.

In connection with the MBEL Acquisition, the Sponsor, the Investment Manager, the Financial Investors, Croxley and Cintra IM Investor have entered into an amendment to the Framework Agreement dated December 16, 2024 to record the terms and conditions in relation to, *inter-alia*, investment into the Trust for funding the acquisition of MBEL and further funding for the completion of the project. For details, see “ – *Certain Agreements in relation to the Trust – Framework Agreement*” on page 107.

Further, the Trustee (on behalf of the Trust), the Investment Manager, MBEL and the Sponsor have entered into the MBEL Project Implementation Agreement to appoint the Sponsor as the Project Manager with respect to MBEL’s project under the InvIT Regulations. For details, see “*The Sponsor and Project Manager – Functions, Duties and Responsibilities of the Project Manager*” on page 328.

The Trustee (on behalf of the Trust), the Investment Manager, the Sponsor, the Project SPVs and MBEL have

entered into an amendment agreement to the Name Licensing Agreement, which will be effective from the date of the closing date under the MBEL Securities Purchase Agreement. For details, see "*Business – Intellectual Property*" on page 160.

Certain Agreements in relation to the Trust

Framework Agreement

The Sponsor, the Investment Manager, the Financial Investors, Croxley and Cintra IM Investor have entered into the Framework Agreement to record the terms and conditions in relation to, *inter-alia*, subsequent investment into the Trust by the Sponsor and further funding for completion of the projects of the Project SPVs. The promoter of the Sponsor has also provided undertakings in relation to his shareholding in the Sponsor and other matters.

Pursuant to the terms of the Framework Agreement and the share purchase agreements, the Current Portfolio was acquired by the Trust. Further, the Sponsor, Cintra IM Investor, Croxley and the Investment Manager entered into the IM SHA in connection with Croxley's and Cintra IM Investor's investment in the Investment Manager.

See "*Corporate Governance*" and "*The Investment Manager*" on pages 162 and 331, respectively, for details of the arrangements under these agreements.

A summary of the key provisions of the Framework Agreement as of the date of this Letter of Offer is set out below.

Covenants

The Sponsor has provided covenants and undertakings to the Financial Investors in relation to certain matters under the Framework Agreement. These include, *inter-alia*:

- *Correspondence and regulatory filings:* other than routine or annual filings made by the Manager Group Member with the SEBI or the RBI, regulatory correspondence and filings between the Trustee or Manager Group Member and the SEBI or RBI as specified in the Framework Agreement require the prior written consent of all of the Financial Investors;

- *Project management works*: the Sponsor will act as the Project Manager in accordance with the terms of the Project Implementation Agreements and provide operation and maintenance services for a period of at least 10 years under the Project Implementation Agreements, which shall be further extended in terms of the Framework Agreement. For further details, see "*Background and Structure of the Trust – Fees and Expenses – Fees and expenses of the Project Manager*" and "*The Sponsor and Project Manager*" on pages 120 and 327, respectively;

- *Sponsor categorization*: Unless otherwise agreed by the parties, the Sponsor will continue to act as a sponsor of the Trust so long as the Sponsor and/or its affiliates hold Units and shall fulfil the obligations of a sponsor under the InvIT Regulations; and

- *Right of first offer in relation to the IRB InvIT Fund:* the Sponsor has agreed to provide the Financial Investors a right of first offer over any units of the IRB InvIT Fund held by the Sponsor and its affiliates and proposed to be transferred by them to any person (other than the entities controlled by the Sponsor or its subsidiaries) at any time after the closing date.

In addition, the Sponsor has also undertaken to comply with provisions in relation to material contracts, business plans, policies and initial tax orders and ensure certain information rights. Upon the Project SPVs achieving completion of the projects as required under the relevant concession agreements, the Sponsor has undertaken to ensure that no more than 51% of the equity shares (on a fully diluted basis) of all the Project SPVs will be encumbered in favor of the lenders and/or a debenture trustee.

Conditions precedent in relation to the MBEL Acquisition

The obligation of the parties to complete MBEL Acquisition is subject to the fulfilment of certain conditions by the Sponsor on or before the Closing Date, to the satisfaction of the GIC Financial Investors, unless waived or deferred in writing by the GIC Financial Investors at their sole discretion, which, *inter-alia*, include:

- The MBEL transaction documents, in agreed form, shall have been duly executed by the parties thereunder;

- No governmental authority of competent jurisdiction shall have enacted, issued, promulgated or enforced any Applicable Law that prohibits or makes illegal the consummation of the transactions contemplated under MBEL transaction documents;
- MBEL and IRB shall have obtained all necessary consents in connection with the execution of the MBEL transaction documents and the completion of the transactions contemplated thereunder;
- The warranties provided by IRB under the MBEL transaction documents are true, accurate and complete as of the execution date and as of the closing date (except those representations and warranties that address matters only as of a specified date, which shall be true and correct as of that specified date).
- No MBEL Material Adverse Change shall be subsisting as on the closing date;
- The conditions precedent under all other MBEL transaction documents shall be completed in a manner acceptable to the relevant parties thereunder;
- MBEL and IRB shall have duly performed and complied in all respects with all agreements, covenants and conditions required by the MBEL transaction documents to be performed or complied with by them prior to or on the closing date;
- The Investment Manager shall have duly and validly convened an extraordinary meeting of Unitholders at shorter notice pursuant to notice dated December 14, 2024 received from Chiswick Investment Pte. Ltd under Regulation 22(5C) of the InvIT Regulations; and
- The Financial Investors shall have received a certificate, dated as of the closing date and signed by a duly authorized officer of IRB, that each of the conditions precedents have been satisfied.

For purposes of the conditions and representations and warranties in relation to MBEL, "**MBEL Material Adverse Change**" shall mean any fact, circumstance, development or condition that, individually or in the aggregate, has a material adverse effect on or material adverse change in: (i) the business, assets (whether tangible or intangible), liabilities, financial condition or regulatory status of MBEL and/ or IRB and/or the Investment Manager; (ii) the ability of MBEL and/ or IRB and/or the Investment Manager to perform their respective obligations under any MBEL transaction document, or to complete any of the transactions contemplated thereunder; or (iii) the validity, legality or enforceability of the rights or remedies of the financial investors or their affiliates under the relevant MBEL transaction document.

The parties have also agreed to certain arrangements in relation to the MBEL sponsor claims and future claims as defined in the Framework Agreement.

Representations and Warranties in relation to MBEL Acquisition

The Sponsor has provided representations and warranties in relation to, *inter-alia*, the organization, status and authority of MBEL, the captial structure of MBEL and no conflict with other obligations of MBEL.

The Financial Investors have provided representations and warranties with respect to the Issue in relation to, *inter alia*, their incorporation, existence, authority to enter into the agreement, eligibility to undertake the transactions under the agreement, and no conflicts with other obligations of the Financial Investors.

Reserved Matters

For details of Reserved Matters, see "*Rights of Unitholders – Approval of Unitholders – Reserved Matters*" on page 323.

Further funding in relation to the Current Portfolio

The Financial Investors have agreed to contribute a portion of the total equity commitment required for completion of the project of each Project SPV (the "**Project SPV Commitment**") in accordance with the business plan and the annual budget as set out in the Framework Agreement. Such contribution is proposed to be through subscription to additional Units on a periodic basis. For certain Project SPVs, in the first instance, the internal accruals of the relevant Project SPVs for the relevant period will be applied towards the Project SPV Commitment in such period, and any shortfall or excess as per the forecasts in the business plan will be adjusted towards such Project SPV's Commitment requirements in the subsequent period. The Sponsor and the Financial Investors will together invest the required funding into the Trust in an agreed proportion in accordance with the Framework Agreement.

Potential Projects

For details in relation to Potential Projects, see "*Related Party Transactions – Details of Related Party Transactions proposed to be undertaken*" on page 308.

Further issue of Units, transfer of Units and rights in relation to Unitholding

For details of arrangements agreed in relation to further issue of Units, transfer of Units and rights in relation to Unitholding, see "*Rights of Unitholders – Arrangements between the Sponsor and the Financial Investors*" on page 321.

Event of Default

For details of events of default and consequences, see "*Rights of Unitholders – Arrangements between the Sponsor and the Financial Investors – Events of Default and Consequences*" on page 321.

Indemnification in relation to the Formation Transactions

In relation to the Formation Transactions, the Sponsor has agreed to indemnify the Indemnified Parties (i.e., (a) the Financial Investors, their respective affiliates, their respective directors, officers, employees; and (b) at the option of the Financial Investors, any Manager Group Member, provided the Sponsor agrees to indemnify the relevant Manager Group Member of the entire loss suffered/ incurred by such Manager Group Member in relation to an indemnity event) against, any losses incurred or sustained by, or imposed upon, the Indemnified Parties based upon, arising out of, with respect to or relating to: (i) breach or inaccuracy of any of the Sponsor's warranties; (ii) any non-fulfilment, non-performance or other breach of any covenant or obligation of the Sponsor, its affiliates and/or any Manager Group Member contained in the transaction documents; (iii) any matter involving fraud, gross negligence or wilful misconduct by the Sponsor or any Manager Group Member; and (iv) certain specific indemnity matters.

Further, the Financial Investors have agreed to certain arrangements in relation to indemnification with respect to the Formation Transactions.

The Sponsor's indemnification obligations are subject to certain limitations as to time and quantum as specified in the Framework Agreement. Further, the indemnified parties will not be entitled to claim any losses with respect to a particular indemnity event unless the losses exceed a particular amount. Payments by the Sponsor in respect of any loss will be limited to the amount of any liability or damage that remains after deducting any insurance proceeds received by the indemnified party in respect of any such claim. Subject to the limitations set out in the Framework Agreement, the Sponsor's liability for all monetary claims for breach of warranties, including claims for damages, will not exceed a specified amount agreed under the Framework Agreement.

Indemnification in relation to the acquisition of PDTPL

In relation to the acquisition of PDTPL by the Trust, the Sponsor has agreed to indemnify the indemnified parties against, any losses incurred or sustained by, or imposed upon, the indemnified parties based upon, arising out of, with respect to or relating to: (i) any claim against PDTPL that has occurred prior to the PDTPL closing date; (ii) breach or inaccuracy of any of the Sponsor's warranties in relation to PDTPL; (iii) any non-fulfilment, non-performance or other breach of any covenant or obligation of the Sponsor, its affiliates and/or any Manager Group Member contained in the PDTPL transaction documents; and (iv) any matter involving fraud, gross negligence or wilful misconduct by the Sponsor, the Investment Manager or PDTPL.

The Sponsor's indemnification obligations are subject to certain limitations as to quantum as specified in the Framework Agreement. Further, the indemnified parties will not be entitled to claim any losses with respect to a particular indemnity event unless the losses exceed a particular amount. Payments by the Sponsor in respect of any loss will be limited to the amount of any liability or damage that remains after deducting any insurance proceeds received by the indemnified party in respect of any such claim. Subject to the limitations set out in the Framework Agreement, the Sponsor's liability for all monetary claims for breach of warranties, in relation to the acquisition of PDTPL, including claims for damages, will not exceed a specified amount agreed under the Framework Agreement.

Indemnification in relation to the acquisition of IRB GEPL

In relation to the acquisition of IRB GEPL by the Trust, the Sponsor has agreed to indemnify the indemnified parties against, any losses incurred or sustained by, or imposed upon, the indemnified parties based upon, arising out of, with respect to or relating to: (i) any claim against IRB GEPL that has occurred prior to the IRB GEPL closing date; (ii) breach or inaccuracy of any of the Sponsor's warranties in relation to IRB GEPL; (iii) any non-fulfilment, non-performance or other breach of any covenant or obligation of the Sponsor, its affiliates and/or any Manager Group Member contained in the IRB GEPL transaction documents; (iv) any matter involving fraud, gross negligence or wilful misconduct by the Sponsor, the Investment Manager or IRB GEPL; and (v) certain other matters subject to and in accordance with the terms of the Framework Agreement.

Except in certain specified cases, the Sponsor's indemnification obligations are subject to certain limitations as to quantum as specified in the Framework Agreement. Further, the Indemnified Parties will not be entitled to claim any losses with respect to a particular indemnity event unless the losses exceed a particular amount. Payments by the Sponsor in respect of any loss will be limited to the amount of any liability or damage that remains after deducting any insurance proceeds received by the Indemnified Party in respect of any such claim. Subject to the limitations and carve-outs set out in the Framework Agreement, the Sponsor's liability for all monetary claims for breach of warranties in relation to the acquisition of IRB GEPL by the Trust, including claims for damages, will not exceed a specified amount agreed under the Framework Agreement.

Indemnification in relation to the acquisition of STPL

In relation to the acquisition of STPL by the Trust, the Sponsor has agreed to indemnify the indemnified parties against, any losses incurred or sustained by, or imposed upon, the indemnified parties based upon, arising out of, with respect to or relating to: (i) any claim against STPL that has occurred prior to the STPL closing date; (ii) breach or inaccuracy of any of the Sponsor's warranties in relation to STPL; (iii) any non-fulfilment, non-performance or other breach of any covenant or obligation of the Sponsor, its affiliates and/or any Manager Group Member contained in the STPL transaction documents; and (iv) any matter involving fraud, gross negligence or wilful misconduct by the Sponsor, the Investment Manager or STPL.

The Sponsor's indemnification obligations are subject to certain limitations as to quantum as specified in the Framework Agreement. Further, the indemnified parties will not be entitled to claim any losses with respect to a particular indemnity event unless the losses exceed a particular amount. Payments by the Sponsor in respect of any loss will be limited to the amount of any liability or damage that remains after deducting any insurance proceeds received by the Indemnified Party in respect of any such claim. Subject to the limitations and carve-outs set out in the Framework Agreement, the Sponsor's liability for all monetary claims for breach of warranties in relation to the acquisition of STPL by the Trust, including claims for damages, will not exceed a specified amount agreed under the Framework Agreement.

Indemnification in relation to the investment in IRB LTPL, IRB GTPL and IRB KTPL

In relation to the investment in IRB LTPL, IRB GTPL and IRB KTPL by the Trust, the Sponsor has agreed to indemnify the Indemnified Parties against, any losses incurred or sustained by, or imposed upon, the Indemnified Parties based upon, arising out of, with respect to or relating to a breach or inaccuracy of any of the Sponsor's warranties in relation to each of IRB LTPL, IRB GTPL or IRB KTPL.

The Sponsor's indemnification obligations are subject to certain limitations as to quantum as specified in the Framework Agreement. Further, the indemnified parties will not be entitled to claim any losses with respect to a particular indemnity event unless the losses exceed a particular amount. Payments by the Sponsor in respect of any loss will be limited to the amount of any liability or damage that remains after deducting any insurance proceeds received by the indemnified party in respect of any such claim. Subject to the limitations and carve-outs set out in the Framework Agreement, the Sponsor's liability for all monetary claims for breach of warranties in relation to the investment in IRB LTPL, IRB GTPL and IRB KTPL by the Trust, including claims for damages, will not exceed a specified amount agreed under the Framework Agreement.

Indemnification in relation to the investment in the Target SPV

In relation to the acquisition of MBEL by the Trust, the Sponsor has agreed to indemnify the indemnified parties against, any losses incurred or sustained by, or imposed upon, the indemnified parties based upon, arising out of, with respect to or relating to: (i) any claim against MBEL that has occurred prior to the MBEL closing date that are attributable to any omission or default by IRB, MBEL and/or any of their affiliates; (ii) breach or inaccuracy of any of the Sponsor's warranties in relation to MBEL; (iii) any non-fulfilment, non-performance or other breach of any covenant or obligation of the Sponsor, its affiliates and/or any Manager Group Member contained in the MBEL transaction documents; and (iv) any matter involving fraud, gross negligence or wilful misconduct by the Sponsor, the Investment Manager or MBEL.

The indemnification obligations are subject to certain limitations as to quantum as specified in the Framework Agreement. Further, the indemnified parties will not be entitled to claim any losses with respect to a particular indemnity event unless the losses exceed a particular amount. Payments in respect of any loss will be limited to the amount of any liability or damage that remains after deducting any insurance proceeds received by the indemnified party in respect of any such claim. Subject to the limitations and carve-outs set out in the Framework Agreement, the Sponsor's liability for all monetary claims for breach of warranties in relation to the acquisition of MBEL by the Trust, including claims for damages, will not exceed a specified amount agreed under the Framework Agreement.

Governing Law, Dispute Resolution and Termination

The Framework Agreement is governed by the laws of India. Any dispute shall be referred to and finally resolved by arbitration administered by the Singapore International Arbitration Centre in accordance with the SIAC Rules for the time being in force. The arbitration panel will consist of three arbitrators, each of which shall be appointed by SIAC in accordance with the SIAC Rules. The seat and venue of the arbitration proceedings will be London, United Kingdom.

The rights (excluding certain specified rights) but not the obligations of the parties under the Framework Agreement, terminate with respect to the relevant parties upon (i) the combined unitholding of the relevant financial investor group unitholders falling below 12.5% or the shareholding of the relevant financial investor group in the Investment Manager falling below 12.5% or (ii) the unitholding of the Sponsor falling below 12.5% or the shareholding of the Sponsor in the Investment Manager falling below 12.5%.

Debt Novation Agreements

In connection with the initial offer of Units by the Trust, the Investment Manager and the Trust (acting through the Trustee) entered into Debt Novation Agreements dated February 19, 2020 for the novation of subordinated debt and unsecured loans from the Sponsor and its Associates in consideration for the issue of Units to the Sponsor and the payment of certain amounts to the Sponsor and its Associates. The Debt Novation Agreements also provide for the treatment of Sponsor Claims and Future Claims and repayment of such debt by the Project SPVs (except PDTPL, IRB GEPL, STPL, IRB LTPL, IRB KTPL and IRB GTPL) to the Trust on an ongoing basis.

Certain definitions in the Debt Novation Agreements are set out below:

"**Debt**" shall mean the Subordinated Debt and the Unsecured Loans;

"**Future Claims**" shall mean, with respect to a Project SPV, the claims (including any administrative, legal or other similar proceedings) made or intended to be made by such Project SPV against any Governmental Authority for events pertaining to the period after the Reference Date, including any claims for events pertaining to the period prior to the Closing Date (defined below) but which would likely adversely impact the toll revenue of the Project SPV during periods subsequent to the Closing Date;

"**Governmental Authority**" shall include the SEBI, the NHAI, the Ministry of Road Transport and Highways of the Government of India or any state or union territory of India, the Reserve Bank of India, and any national, state, regional or local government or governmental, regulatory, statutory, administrative, fiscal, taxation, judicial, or government-owned body, department, commission, authority, court, arbitrator, tribunal, agency or entity, in India or outside India, in each case, having jurisdiction over any of the parties, their operations, or the transactions contemplated in the Debt Novation Agreement and the transaction documents;

"**Lenders**" shall mean the Sponsor and its associates that have provided Subordinated Debt and Unsecured Loans to the Project SPV in connection with its project;

"**Reference Date**" shall mean, with respect to a Project SPV, the later of the (i) the Closing Date; and (ii) the project completion date under the Concession Agreement, provided that if a provisional completion certificate is issued under the terms of the Concession Agreement and additional construction is required to be undertaken after the date of such certificate, this date shall be the date of issue of the final completion certificate;

"**Sponsor Claims**" shall mean, with respect to a Project SPV: (a) any kind of claim made by such Project SPV for events pertaining to the period prior to the Reference Date and the impact of which also solely pertains to the period prior to the Reference Date; and/or (b) all construction related claims (including any administrative, legal or other similar proceedings in relation to utilities shifting, change of scope, construction, delays in construction, idling of resources, interest during construction or other matters) made or intended to be made by such Project SPV against any Governmental Authority for events pertaining to the period prior or after to the Reference Date;

"Subordinated Debt" shall mean, with respect to a Project SPV, the outstanding interest-free subordinated debt provided by the Lenders to such Project SPV; and

"**Unsecured Loans**" shall mean, with respect to a Project SPV, the outstanding interest-free unsecured loans provided by the Lenders to such Project SPV.

Treatment of Sponsor Claims and Future Claims

In consideration for the transfer and release of a portion of Subordinated Debt and Unsecured Loans by the Lenders, and all rights and obligations in relation to such Debt, the Trust and the Investment Manager have agreed

that the Amounts (defined below) will be paid by the Trust to the Lenders to the extent that any such amounts are received by the Project SPV in a settlement or adjudication (including arbitration) of Sponsor Claims.

The payment of Amounts to the Lenders shall constitute full, final and complete discharge of the obligation of the Trust with respect to payment of consideration for such Subordinated Debt and Unsecured Loans.

Any payments received by the Project SPV in a settlement or adjudication (including arbitration) of Sponsor Claims will be transferred by the Project SPV to the Trust immediately upon receipt (the "**Amounts**"). The Trust may also pay up to specified amount, in case of IRB WTL, to the Lenders towards the Amounts, including out of its cash flows, and any such amounts paid will be reduced from the aggregate Amounts. If a bank guarantee is required to be submitted to the relevant Governmental Authority in lieu of such Amounts (or any part thereof), the Lenders will provide the bank guarantee. Upon the receipt of the Amounts by the Trust, the Amounts will forthwith be paid by the Trust to the Lenders. All taxes in relation to such payments will be solely borne by the Lenders.

If the final settlement or adjudication in relation to the relevant Sponsor Claim is unsuccessful, the Trust will promptly inform the Lenders, as applicable, and the Sponsor and the Financial Investors will mutually agree on treatment of any outstanding amounts in relation to such Sponsor Claims based on tax considerations in a manner mutually agreed between the Financial Investors and the Sponsor. Any tax impact on the Trust or the Project SPVs on account of such outstanding debt and/ or write-off such debt (whether pertaining to the period prior to the Closing Date or after) will only be to the account of the Lenders, and no Manager Group Member (as defined in the Debt Novation Agreements) and/or any other Unitholder should suffer/ incur a loss in connection with such debt.

The Project SPV, the Investment Manager and the Trust will render all reasonable assistance necessary to enable the payment of the Amounts to the Lenders, as applicable, including to obtain any required approval and authorization required from the NHAI or other Governmental Authority or any of the senior lenders of the Project SPV.

Any amounts received by the Project SPV or the Trust pursuant to the settlement or adjudication of Future Claims shall be distributed among the Unitholders in the proportion of their respective Unitholding percentages in the Trust in such manner as may be permitted under applicable law. In the event of any restructuring as set out above, any amounts received pursuant to Future Claims for periods prior to such restructuring shall be distributed among the Unitholders in the proportion of their respective Unitholding percentages.

Repayment of the Debt by the Project SPVs

The Project SPVs (except PDTPL, IRB GEPL, STPL, IRB LTPL, IRB KTPL and IRB GTPL) will repay the Subordinated Debt and Unsecured Loans to the Trust as may be mutually agreed between the Parties based on availability of cash flows. Interest at rate of 14% p.a. was chargeable on the above Debt with effect from the earlier of (i) the project completion date under the relevant concession agreement and (ii) the date of listing of the Units on one or more Stock Exchanges, and the parties have mutually agreed that interest was chargeable from the date of listing of the Units on the NSE, except in the case of UTL and CGTL, where payment of interest is subject to receipt of approval from the relevant lenders. The terms of the repayment of the unsecured loans extended to PDTPL are set out in the shareholder loan agreement dated April 5, 2022. See "*— Shareholder Loan Agreements*" below.

The above Debt shall, at all times be subordinate to the debt provided by the senior lenders. Subject to the terms of the financing agreements and the relevant escrow agreement, payments towards such Debt (including interest) will be made out of balance available in the escrow account for utilization in accordance with the instructions of the Project SPV, on the relevant interest payment date or repayment date, after meeting all payments due to the senior lenders as of such date.

Governing Law, Dispute Resolution and Termination

The Debt Novation Agreements will be governed by the laws of India. Any dispute shall be referred to and finally resolved by arbitration administered by the Singapore International Arbitration Centre in accordance with the SIAC Rules for the time being in force. The arbitration panel will consist of three arbitrators, each of which shall be appointed by SIAC in accordance with the SIAC Rules. The seat and venue of the arbitration proceedings will be Delhi, India.

The Debt Novation Agreements will stand terminated and fall away automatically without any further act by the parties (i) upon the repayment or settlement of all amounts (including interests and other charges) in relation to the Debt and (ii) there are no Amounts remaining due to the Lenders.

Shareholder Loan Agreements

The Trust has provided Shareholder Loans in the form of unsecured loans to the Project SPVs (except IRB LTPL, IRB GTPL and IRB KTPL) under the shareholder loan agreements dated February 19, 2020 with each Project SPV (except PDTPL, IRB GEPL, STPL, IRB LTPL, IRB GTPL and IRB KTPL), a shareholder loan agreement dated April 5, 2022 with PDTPL, a shareholder loan agreement dated July 29, 2023 with IRB GEPL, a shareholder loan agreement dated October 12, 2023 with STPL and the shareholder loan agreements dated March 13, 2024 entered into by the Trust (acting through the Trustee) and the Investment Manager with each of IRB LTPL, IRB KTPL and IRB GTPL (collectively, the "**Project SPV Shareholder Loan Agreements**"). Additional debt is proposed to be provided by the Trust to the Project SPVs through disbursements under the Project SPV Shareholder Loan Agreements from time to time towards, *inter-alia*, funding of total project cost and working capital requirements of the Project SPVs.

A summary of the key terms of the Project SPV Shareholder Loan Agreements is set forth below.

Purpose	***AETL, IRB WTL, KTL, SYTL and YATL*** The Project SPV shall utilize the loan amounts solely for (i) the purpose of partial refinancing of certain secured loans provided to the Project SPV by the senior lenders; (ii) funding of total project cost; and (iii) working capital requirements or general corporate purposes of the Project SPV. ***CGTL, IRB HMTL, KGTL and UTL*** The Project SPV shall utilize the loan amounts solely for (i) funding of total project cost; and (ii) working capital requirements or general corporate purposes of the Project SPV. ***PDTPL, IRB GEPL, STPL, IRB KTPL, IRB LTPL and IRB GTPL*** The Project SPV shall utilize the loan amounts solely for funding the total project cost of the Project SPV.
Term	The Project SPV shall repay the loan at the end of the concession period under the relevant concession agreement as mutually agreed between the parties to the Project SPV Shareholder Loan Agreement.
Interest	• The Project SPV (except PDTPL, IRB GEPL, STPL, IRB KTPL, IRB LTPL and IRB GTPL) shall pay accrued interest (subject to withholding of applicable taxes) at the rate of 14% p.a., or or such other rate as may be decided mutually by the parties to the Project SPV Shareholder Loan Agreement from time to time. Interest will accrue from the date of disbursement of the loan. • Interest will be chargeable from the earlier of the (i) project completion date under the relevant concession agreement and (ii) the date of listing of the Units on one or more Stock Exchanges. The parties have agreed that interest was chargeable from the date of listing of the Units on the NSE (except for UTL and CGTL, where charging of interest remains subject to the receipt of consent from the relevant lenders). • Interest will be payable in arrears on a quarterly basis, on or before the expiry of the calendar month immediately succeeding the completion of each quarter, provided that the Project SPV may, at its discretion, elect to pay interest on a monthly basis, and such interest shall be payable on the first day of the subsequent month for which the interest is being paid. ***PDTPL*** • The Project SPV shall pay accrued interest (subject to withholding of applicable taxes) at the rate of 14.5% p.a., or or such other rate as may be decided mutually by the parties to the Project SPV Shareholder Loan Agreement from time to time. Interest will accrue from the date of disbursement of the loan. • Interest will be chargeable from the project completion date under the concession agreement. • Interest will be payable in arrears on a quarterly basis, on or before the expiry of the calendar month immediately succeeding the completion of each quarter, provided that the Project SPV may, at its discretion, elect to pay interest on a monthly basis, and such interest shall be payable on the first day of the subsequent month for which the interest is being paid

	IRB GEPL • The Project SPV shall pay accrued interest (subject to withholding of applicable taxes) at the rate of 15% p.a., or or such other rate as may be decided mutually by the parties to the Project SPV Shareholder Loan Agreement from time to time. • Interest will accrue and be chargeable from the appointed date under the concession agreement. • Interest will be payable when able following the appointed date under the concession agreement in arrears on a quarterly basis, on or before the expiry of the calendar month immediately succeeding the completion of each quarter, provided that the Project SPV may, at its discretion, elect to pay interest on a monthly basis, and such interest shall be payable on the first day of the subsequent month for which the interest is being paid. ***STPL*** • The Project SPV shall pay accrued interest (subject to withholding of applicable taxes) at the rate of 15% p.a., or or such other rate as may be decided mutually by the parties to the Project SPV Shareholder Loan Agreement from time to time. • Interest will accrue and be chargeable from the project completion date under the concession agreement. • Interest will be payable when able following the project completion date under the concession agreement in arrears on a quarterly basis, on or before the expiry of the calendar month immediately succeeding the completion of each quarter, provided that the Project SPV may, at its discretion, elect to pay interest on a monthly basis, and such interest shall be payable on the first day of the subsequent month for which the interest is being paid. ***IRB KTPL, IRB LTPL and IRB GTPL*** • The Project SPV shall pay accrued interest (subject to withholding of applicable taxes) at the rate of 16% p.a., or or such other rate as may be decided mutually by the parties to the Project SPV Shareholder Loan Agreement from time to time. • Interest will accrue and be chargeable from the the appointment date under the concession agreement. • Interest will be payable when able following the appointed date under the concession agreement in arrears on a quarterly basis, on or before the expiry of the calendar month immediately succeeding the completion of each quarter, provided that the Project SPVs may, at its discretion, elect to pay interest on a monthly basis, and such interest shall be payable on the first day of the subsequent month for which the interest is being paid.
Repayment	• The Trust may call on the Project SPV to prepay the loan, in full or part, or permit the Project SPV to make payments of the outstanding loan, in full or part, after the date such payment is due, at any time during the term of the Project SPV Shareholder Loan Agreement until the final settlement date (as defined in the Project SPV Shareholder Loan Agreement). • The Project SPV may prepay the whole or part of the loan together with interest on that amount accrued up to the date of prepayment, by giving a prior written notice of not less than 30 days to the Trust, specifying the amount to be prepaid and the date of proposed prepayment. • The loan (in one or more tranches) provided under the Project Shareholder Loan Agreement shall, at all times be subordinate to the debt provided by the senior lenders. Subject to the terms of the financing agreements and the escrow agreements, payments towards the loan amounts (including interest) shall be made out of balance available in the escrow account for utilization in accordance with the instructions of the Project SPV on the relevant interest payment date or repayment date, after meeting all payments due to the senior lenders as of such date.
Security	Unsecured
Events of Default	The occurrence of any of the events or circumstances set out below shall constitute an "**Event of Default**", if not remedied within 180 days (or such extended period as may be provided by the Trust at its sole discretion) from the date of receiving notice of such default from the Trust. The Project SPV shall promptly give written notice to the Trust of any Event of Default and

	of any other event which, with the giving of notice or lapse of time or otherwise could constitute an Event of Default, and inform the Trust of any action taken or proposed to be taken by the Project SPV in connection therewith. • **Non-Payment:** The Project SPV fails to pay any amount due under the Project SPV Shareholder Loan Agreement or any other finance documents within a period of 180 days from the relevant due date. If debt due to senior lenders is outstanding, the Trust may declare a non-payment Event of Default only if one or more of the senior lenders declares an Event of Default in relation to amounts due to such senior lenders. • **Breach of Covenants and Undertakings:** The Project SPV breaches any provision of the Project SPV Shareholder Loan Agreement or any other finance documents. • **Misrepresentation:** Any representation or statement made by the Project SPV in any finance document or any other document delivered by or on behalf of the Project SPV under or in connection with any transaction document is or proves to have been incorrect or misleading in any material respect when made or results in a material adverse effect on the Project SPV or the relevant project. • **Cessation of Business**: The Project SPV ceasing or threatening or likely to cease, to carry on all or substantially all of its business or operations. • **Insolvency:** The Project SPV is unable to, or presumed or deemed to be unable to, or admits its inability to, pay its debts as they fall due, suspends making payments on any of its debts or, by reason of actual or anticipated financial difficulties, commences negotiations with one or more of its creditors with a view to rescheduling any of its indebtedness. • **Insolvency proceedings:** Any corporate action, legal proceedings or other procedure is taken in relation to: (a) the suspension of payments, a moratorium of any indebtedness, winding-up, dissolution, administration, provisional supervision or reorganization (by way of voluntary arrangement, scheme of arrangement or otherwise) of the Project SPV other than a solvent liquidation or reorganization of the Project SPV; (b) a composition or arrangement with any creditor of the Project SPV, or an assignment for the benefit of creditors generally of the Project SPV, or a class of such creditors; (c) the appointment of a liquidator, receiver, and manager, administrator, administrative receiver, compulsory manager, provisional supervisor or other similar officer in respect of the Project SPV or any of its assets; or (d) or any analogous procedure is taken in any jurisdiction. • **Unlawfulness and Invalidity:** (a) It is or becomes unlawful for the Project SPV to perform its obligations under the Project SPV Shareholder Loan Agreement or any other finance documents; or (b) any finance document is not or ceases to be legal, valid, binding or enforceable. • **Nationalization or Expropriation**: Any governmental authority has taken or has threatened to take any action to expropriate, condemn, nationalize or seize the relevant project or whole or part of the assets of the Project SPV, or the whole or substantially whole or part of the relevant project, resulting in the Project SPV being deprived or threatened to deprive to carry on its business or which will have a material adverse effect on the Project SPV or the relevant project on the operation of the business of the Project SPV. • **Cross Default**: The Project SPV defaults in the payment of any principal, interest, premium or other amount due (whether by scheduled maturity, mandatory prepayment, acceleration or demand) under any loan or credit agreement and/or defaults in the payments due under any existing facility agreement or the occurrence of an event of default under the existing facility agreements of the Project SPV. On and at any time after the occurrence of an Event of Default which has not been waived or cured and which is continuing, the Trust may, upon the delivery of seven business days' notice to the Project SPV of the occurrence of an Event of Default: (i) require all or part of the outstanding amounts to be payable immediately; and (ii) exercise such other rights as may be available to the Trust under the Project SPV Shareholder Loan Agreement, the finance documents or under applicable law. No further disbursement shall be made after the occurrence of an Event of Default.

Dispute Resolution	Any dispute shall be referred to and finally resolved by arbitration administered by the Singapore International Arbitration Centre in accordance with the Arbitration Rules of the Singapore International Arbitration Centre ("**SIAC Rules**") for the time being in force. The arbitration panel will consist of three arbitrators, each of which shall be appointed by SIAC in accordance with the SIAC Rules. The seat and venue of the arbitration proceedings shall be Delhi, India.

S. No.	Name of the Unitholder	Pre-Issue	
		No. of Units	% of Unitholding
1.	IRB Infrastructure Developers Limited	568,239,840	51.02
2.	Cintra InvIT Investments B.V.	267,200,000	23.99
3.	Anahera Investment Pte. Ltd.	74,423,181	6.68
4.	Bricklayers Investment Pte. Ltd.	66,557,561	5.98
5.	Chiswick Investment Pte. Ltd.	66,557,561	5.98
TOTAL		**1,042,978,143**	**93.65**

[*] *Chiswick Investment Pte. Ltd has informed the Investment Manager that simultaneous with this Issue, one or more of the GIC Financial Investors (as applicable) will sell certain Units of the Trust pursuant to an inter-se commercial agreement between such seller and buyer ("**Secondary Sale**"). Also see "Government and Other Approvals – Other Approvals" on page 833*

Given that the Issue is a fast-track rights issue, IRB Infrastructure Developers Limited, the Sponsor, will subscribe to the entire extent of its Rights Entitlements. Accordingly, assuming full subscription in the Issue, subject to the finalization of the Basis of Allotment, the Sponsor is expected to hold 597,839,840 Units aggregating to approximately 51.02% of the total number of Units on a post-Issue basis.

The post-Issue unitholding of the other Unitholders will depend on, inter-alia, the extent of subscription to their respective Rights Entitlements, the finalization of the Basis of Allotment and any Secondary Sale.

Fees and Expenses

1. *Fees and expenses of the Investment Manager*

Pursuant to the terms of the Investment Management Agreement, the fees will be paid to the Investment Manager for the services provided by it ("**Management Fees**"). The Management Fees were initially proposed to be an annual amount of ₹36.00 million per annum. The Management Fees may be revised for every Financial Year with the approval of the Unitholders, such that the votes cast in favor of the resolution shall be at least 60% of total votes cast for the resolution.

Pursuant to a resolution dated July 4, 2023 of the Board of Directors of the Investment Manager and a resolution dated July 27, 2023 of the Unitholders, the Management Fees have been revised to be equivalent to 110% of the cost incurred by the Investment Manager in connection with providing investment management services to the Trust including routine administrative and operational expenses (exclusive of any out of pocket expenses, reimbursements and taxes).

2. *Fees and expenses of the Trustee ("Trusteeship Fee")*

The fee payable to the Trustee for acting as the trustee to the Trust pursuant to an engagement letter dated June 27, 2019 is set out below. Any amendment to trusteeship fees will require the approval of the Unitholders, such that the votes cast in favor of the resolution shall be at least 60% of total votes cast for the resolution.

Particulars	Description
Service charges	Service charges are payable on a quarterly basis, i.e., ₹0.28 million plus applicable taxes payable quarterly in advance on April 1 for April to June, July 1 for July to September, October 1 for October to December and January 1 for January to March each year until full and final repayment of funds to Unitholders, winding up of the Trust and termination of the Indenture of Trust.
Delayed payment charges	In case the payment of service charges is not received within a period of 30 days from the date of the bill, the Trustee reserves the right to charge delayed payment charges at the rate of 12% p.a. on the outstanding amount.
Reset clause	The Trustee has the right to reset the service charges after expiry of two years from the date of execution of the Indenture of Trust as mutually agreed with the Investment Manager.
Out-of-pocket expenses	To be claimed by the Trustee on an actual basis within intimation to the Sponsor/Investment Manager
Invocation and enforcement	Any other work relating to invocation and enforcement of the Trust Assets in case of default would attract separate expenses and fees

In case of late payment of the above fees, penal interest on the outstanding amount would be payable in accordance with the terms of the Indenture of Trust (if applicable).

The above fee structure is subject to certain conditions specified in the engagement letter.

3. *Fees and expenses of the Project Manager*

Pursuant to the Project Implementation Agreements, the Project SPVs which operate road assets that have not been completed will make payments to the Project Manager for the remaining engineering, procurement and construction works in relation to the relevant project ("**EPC Payments**") on a monthly basis, or as otherwise agreed among the parties to the Project Implementation Agreements based on invoices raised by the Project Manager. The agreed EPC Payments are set forth in the relevant Project Implementation Agreements, copies of which will be available for inspection to Eligible Unitholders from the date of this Letter of Offer until the Issue Closing Date. See "*Material Contracts and Material Documents for Inspection*" on page 848.

Pursuant to the Project Implementation Agreements, the Project SPVs will also make payments to the Project Manager for the operation and maintenance works in relation to the relevant project ("**O&M Payments**", and together with the EPC Payments, the "**Project Management Payments**") on a monthly basis, or as otherwise agreed among the parties to the Project Implementation Agreements based on invoices raised by the Project Manager. The agreed O&M Payments applicable for the initial term of the Project Implementation Agreements (i.e., 10 years from the date of the relevant agreement) are set forth in the relevant Project Implementation Agreements, copies of which will be available for inspection by the Eligible Unitholders from the date of this Letter of Offer until the Issue Closing Date. See "*Material Contracts and Material Documents for Inspection*" on page 848.

No additional payments, including those on account of out of pocket expenses, delay in construction timeline, payment of taxes, any statutory liabilities, any actual losses or damages incurred on any account whatsoever, will be made to the Project Manager over and above the Project Management Payments, except for any payments related to change of scope (as defined in the relevant concession agreement) or utility shifting as required by the NHAI, which will be paid by the relevant Project SPV to the Project Manager as and when such payments are received from the NHAI. If a Project SPV has made any payments to NHAI related to change of scope, such amount will be reduced from the EPC Payments. If any payment due to a Project SPV by the NHAI in respect of the EPC works or the O&M works is delayed in terms of the relevant concession agreement, the payment obligations of the Project SPV to the Project Manager will be correspondingly delayed until the Project SPV receives payment from the NHAI.

Pursuant to addenda dated May 6, 2021 (the "**Addenda**") to the Project Implementation Agreements for CGTL, IRB HMTL, KGTL, IRB WTL and UTL, such Project SPVs have agreed to pay the Project Manager additional costs in relation to certain delays by NHAI and the lockdowns implemented due COVID-19 in the manner and subject to the conditions set out in the Addenda. Under the Project Implementation Agreement for PDTPL, PDTPL is entitled to retain a certain percentage of the total EPC Payments for the project which will be released to the Project Manager upon the completion of the project or as may be mutually agreed among the parties. Certain arrangements in relation to a mobilization advance have also been agreed under such Project Implementation Agreement.

Pursuant to the MBEL Project Implementation Agreement, MBEL will make payments to the Project Manager for engineering, procurement and construction works and the operation and maintenance works (the "**Project Management Payments**") in relation to the relevant project on a monthly basis, or as otherwise agreed among the parties to the MBEL Project Implementation Agreement based on invoices raised by the Project Manager. The agreed MBEL Project Management Payments applicable for the initial term of the relevant project implementation agreements (i.e., 10 years from the date of the relevant agreement) are set forth in the MBEL Project Implementation Agreement. No additional payments, including those on account of out of pocket expenses, delay in construction timeline, payment of taxes, any statutory liabilities, any actual losses or damages incurred on any account whatsoever, will be made to the Project Manager over and above the MBEL Project Management Payments, except for (i) any payments related to change of scope (as defined in the relevant concession agreement), utility shifting, cost overruns and any other similar matters related thereto and as required by the concessioning authority, which will be paid by MBEL to the Project Manager as and when such payments are received from the concessioning authority; and (ii) any payment received by MBEL from the concessioning authority as compensation for additional expenses actually incurred by the Project Manager pursuant to a change in law for the execution of the EPC Works and the O&M works. If MBEL makes any payments to the concessioning authority related to change of scope, such amount will be reduced from the MBEL Project Management Payments. If any payment due to MBEL by the concessioning authority in respect of the works for the project is delayed in terms of the relevant concession agreement, the payment obligations of MBEL to the Project Manager will be correspondingly delayed until MBEL receives payment from the concessioning authority.

Additionally, amounts already paid by MBEL toward pre-construction activities and geo-technical investigations to the Project Manager have been adjusted and will continue to be adjusted against the invoices raised by the Project Manager in accordance with the MBEL Project Implementation Agreement copies of which will be available for inspection by the Eligible Unitholders from the date of this Letter of Offer until the Issue Closing Date. See "*Material Contracts and Material Documents for Inspection*" on page 848.

4. *Fees and expenses of the Auditor and Valuer*

The fees and expenses paid or payable by the Investment Manager to the Valuer and the Joint Statutory Auditors is approximately ₹1.42 million and approximately ₹2.83 million, respectively, along with goods and services tax.

Set-up costs

In connection with the establishment and registration of the Trust, the Sponsor has incurred ₹1.1 million in expenses.

INDUSTRY OVERVIEW

The information contained in this section is derived from various government and other industry sources. The Investment Manager, the Trustee, the Sponsor, the Lead Manager or any other person connected with the Issue have not independently verified this information. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Industry publications are also prepared on information as of specific dates and may no longer be current or reflect current trends. Accordingly, investment decisions should not be based on such information. All references to years refer to calendar years except as otherwise stated.

Overview of the Global and Indian Economies

As per the World Bank, global growth is expected to slow to 2.4 per cent in 2024, the third consecutive year of deceleration, reflecting the lagged and ongoing effects of monetary policies to rein in high inflation, restrictive credit conditions, and global trade and investment. Near-term prospects are diverging, with subdued growth in major economies alongside improving conditions in emerging markets and developing economies (EMDEs) with strong fundamentals. Meanwhile, the outlook for EMDEs with pronounced vulnerabilities remains precarious amid elevated debt and financing costs. Downside risks to the outlook predominate.

The recent conflict in the Middle East, in addition to the Russian Federation's invasion of Ukraine, has heightened geopolitical risks. Conflict escalation could lead to surging energy prices, with broader implications for global activity and inflation. Other risks include financial stress related to elevated real interest rates, persistent inflation, weaker-than-expected growth in China, further trade fragmentation, and climate change-related disasters. Against this backdrop, policymakers face enormous challenges and difficult trade-offs.

Despite challenging global conditions, India remains the world's fastest growing major economy. As per World Bank's India Development Update, the country's GDP is projected to grow at a robust 7% in FY 2024-25, underscoring its position as the fastest-growing major economy in the world. This growth momentum has been consistent, with GDP rising from 7.0% in FY 2022-23 to 8.2% in FY 2023-24.

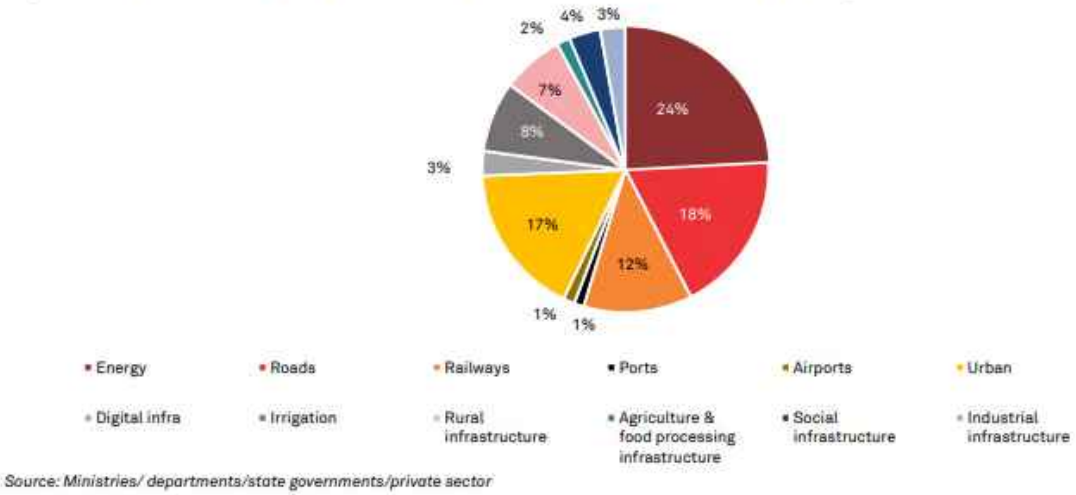
According to data from the Reserve Bank of India, the foreign exchange reserves stood at USD 657 billion as of November 2024. According to the Department for Promotion of Industry and Internal Trade (DPIIT), FDI equity inflow in India during April-September 2024 was over $29 billion, increased by 45 per cent from the previous year.

This positive growth outlook is primarily due to the digital revolution, regulatory environment supportive of entrepreneurship, measured targeted at economic upliftment of the vulnerable sections of the society, developing manufacturing sectors while building the supporting physical infrastructure, and efforts directed at diversifying export basket and moving toward higher value–added products. At the level of sub-national governments, reforms that would unleash the productive potential of India's MSMEs with streamlined regulatory and compliance obligations and sensitive enforcement, will further help in the economic growth.

India's Infrastructure Opportunity

Infrastructure sector is a key driver for the Indian economy and is set to become a biggest driver for the country that aspires to become a $5 trillion economy soon. Growing urbanization, demand for energy and financing needs for sustainable living pose a challenge for the infrastructural setup in the country. Infrastructure, and the lack of it, is envisaged as the primary growth constraint, while good infrastructure is widely recognized as an enabler of growth.

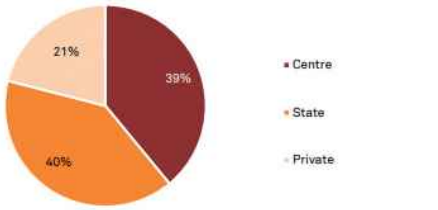
In the coming era of supply chain disruptions, new technologies and reversal of financial deleveraging, infrastructure growth must keep pace with the need created for it. The opportunities in the infrastructure sector have seen an incremental curve over previous years and are growing to establish the sector as a key driver in India's development story at a high rate.



National Infrastructure Pipeline

In December 2019, the Government launched the National Infrastructure Pipeline (the "NIP"), an investment plan for enhancing infrastructure in identified sectors, which is a first-of-its-kind exercise to provide world-class infrastructure across the country and improve the quality of life for all citizens. NIP is expected to enable a forward outlook on infrastructure projects to create jobs, improve ease of living and provide equitable access to infrastructure for all, thereby making growth more inclusive. NIP includes economic and social infrastructure

projects. NIP comprises brownfield and greenfield infrastructure projects of above INR 100 crore across both economic and social infrastructure sectors.



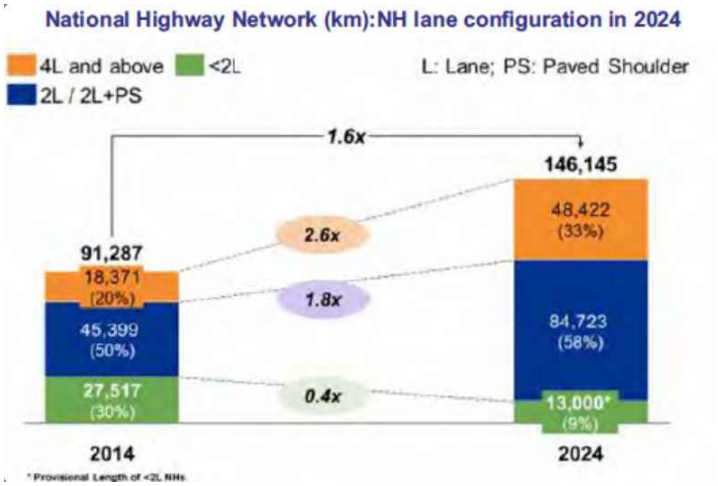
During the Financial Years 2020 to 2025, sectors such as energy (24%), roads (18%), urban (17%) and railways (12%) are expected to amount to approximately 71% of the projected infrastructure investments in India, with a total capital expenditure projected at ₹111 lakh crore. (*Source: National Infrastructure Pipeline – Report of the Task Force, Department of Economic Affairs, Ministry of Finance, Government of India – Volume I (the "Task Force Report – Volume I")*)

Figure 11 Sector-wise break-up of capital expenditure of Rs 111 lakh crore during fiscals 2020-2025

Source: Ministries/ departments/state governments/private sector

The Government of India (39%) and state governments (40%) are expected to have an almost equal share in implementing the NIP in India, followed by the private sector (21%). (*Source: The Task Force Report – Volume I*)

Source: PIRF submitted by ministries/ departments/state governments/private sector



NIP was launched with 6,835 projects and has expanded to capture over 9,288 projects with a total project outlay of Rs 108.88 lakh crore between 2020-2025. Transport (42%), energy (25%), water and sanitation (15%) and social infrastructure (3%) sectors amount to around 85% of the projected infrastructure investments under NIP.

Roads and Highways

India has about 66.71 lakh km of road network, which is the second largest in the world. The Government of India has taken several reforms and initiatives and given a significant push for capital expenditures for key infrastructure sectors, especially highways. The total allocation for the highways sector has increased to Rs. 2.78 lakh crore from Rs. 2.17 lakh crore in the Union Budget for Financial year 2024-25. (Out of the total Rs 2.78 lakh crore, the National Highways Authority of India (NHAI) has been allocated around Rs 1.68 lakh crore as part of MoRTH's capital expenditure plan for 2024-25, a 3.9 % increase from 2023-24 (Source: Government of India, Ministry of Finance, Union Budget 2024-25). This substantial investment underscores the importance placed on enhancing the nation's transportation infrastructure, which is crucial for boosting trade and connectivity.

The FY 2023-24 was the year of consolidation of the gains that accrued from major policy decisions taken in the previous nine years, a time for monitoring of ongoing projects, tackling road blocks and adding to the already

impressive pace of work achieved during the past years. During the year, the MoRTH and its associated organizations have expanded the national highways network in the country, taking various steps to make these highways safe for the commuters and making best efforts to minimize adverse impact on the environment. As a result, over the last nine years, length of National Highways has gone up by 60 % from 91,287 km (FY 2013-14) to 146,145 km in 2024 out of the set target of 200,000 kms by 2024-2025. During the same period, the length of 4 lanes and above NH increased by 2.6 times – 18,371 km (2014) to 48,422 km and the length of less than 2 lane NH decreased from 30% (2014) to 9% (2024). The length of operational High-Speed Corridors of NHs network has increased from 93 km in 2014 to about 2,138 km in 2024.*(Source: MoRTH Annual Report 2023-24)*.

Details of National Highway length constructed per day during last six Financial Years are as follows:

Year	Length in km	Pace (km per day)
2018-19	10,855	29.74
2019-20	10,237	27.97
2020-21	13,327	36.51
2021-22	10,457	28.64
2022-23	10,331	28.30
2023-24	12,349	33.83

(Source: MoRTH Annual Report 2023-24))

The pace of National Highways (NH) construction has increased consistently between 2014-15 and 2023-24 due to the systematic push through corridor-based National Highway development approach. The average pace of National Highway construction has also seen a remarkable increase of 2.8 times to 33.83 km/day in FY 2023-24 from 12.1 km/day in 2014-15. The Government's strong commitment to expand infrastructure is evident from the construction of 12,349 km of National Highway during FY 2023-24 which is the 2nd highest and about 20% more than previous year. The highest achievement was 13,327 km in FY 2020-21. During FY 2023-24, MORTH awarded contracts for 8,581 km of National Highways to improve the connectivity.

Schemes

Bharatmala Pariyojana: This is the umbrella program for the highways sector that aims to optimize the efficiency of road traffic movement across the country by bridging critical infrastructure gaps. Phase I of the Bharatmala Pariyojana approved in October 2017, focuses on development of 34,800 km of National Highways. The Pariyojana emphasized a "corridor based National Highway development" to ensure infrastructure symmetry and consistent road user experience. The key components of the Pariyojana are Economic Corridors development, Inter-corridor and feeder routes development, National Corridors Efficiency Improvement, Border and International Connectivity Roads, Coastal and Port Connectivity Roads and Expressways. The length awarded is 26,425 km and the length constructed is 17,411 km so far. The program is expected to be completed by 2027-28. The Bharatmala Pariyojana phase 1 is expected to be completed by FY 2027-28.

Under the Bharatmala Pariyojana, 60% of projects have been envisaged on Hybrid Annuity Mode (HAM), 10% projects on BOT (Toll) Mode, and 30% projects on EPC mode.

Total aggregate length of 27,391 km with a total capital cost of ₹ 8,75,774 crore have been approved and awarded till date under Bharatmala Pariyojana (including 7,234 km length of residual NHDP with a total capital cost of ₹ 1,86,477 crore). Out of the total approved 27,391 km, an aggregate length of 15,447 km has been approved on EPC mode, an aggregate length of 11,537 km on HAM mode and an aggregate length of 408 km on BOT (Toll) mode [EPC: HAM: BOT: 56%:42%:2%]. *(Source: MoRTH Annual Report 2023-24)*

The Hybrid Annuity Model (HAM) has balanced risk appropriated between private and public partners and boosted PPP activity in the sector. In the recent past, the BOT projects have witnessed renewed interest from private players. Asset recycling, through the TOT model, has also been taken up by the NHAI and other State Government agencies.

Pradhan Mantri (PM) Gati Shakti National Master Plan (NMP): The seven engines that drive PM Gati Shakti are Roads, Railways, Airports, Ports, Mass Transport, Waterways and Logistics Infrastructure. The scope of PM Gati Shakti National Master Plan will encompass the seven engines for economic transformation, seamless multimodal connectivity and logistics efficiency. The projects pertaining to these 7 engines in the National Infrastructure Pipeline will be aligned with PM Gati Shakti framework. PM Gati Shakti National Master Plan is a critical tool for integrating economic & infrastructural planning and development (Source: National Master Plan (pmgatishakti.gov.in)). With multimodal infrastructure development, India's logistics cost will reduce further, improve ease of living and ease of doing business in the country. The main aim of this program is to fasten the approval process which can now be done through the Gati Shakti portal and thus digitized the approval process completely.

National Electronic Toll Collection (FASTag) programme:

The flagship initiative of MoRTH and NHAI has been implemented on pan India basis to remove bottlenecks and ensure seamless movement of traffic and collection of user fee as per the notified rates, using passive Radio Frequency Identification (RFID) technology which is made compulsory with effect from February 15, 2021. The implementation of the FASTag system for toll collection in India has been a resounding success, with a consistent growth trajectory. As on 31st March, 2024, collectively banks have issued over 8.81 crore FASTags. The average daily collection through ETC has increased to ₹ 190.68 crore with penetration of 98.5% in total fee collection. There are 1365 National Highways (NH) and State Highways fee plazas live with ETC infrastructure in all lanes.

NHAI plans to implement the Global Navigation Satellite System (GNSS)-based Electronic Toll Collection (ETC) system within the existing FASTag ecosystem, initially using a hybrid model where both RFID-based ETC and GNSS-based ETC will operate simultaneously. GNSS based Tolling is a barrier free method of Electronic Toll Collection wherein the road users are charged on the distance they have travelled on the tolled Highway stretch. Dedicated GNSS lanes will be available at toll plazas, allowing vehicles using the GNSS-based ETC to pass through freely. As GNSS based ETC becomes more widespread, all lanes will eventually be converted to GNSS lanes

Outlook

India's infrastructure sector is rapidly growing, and the key trends demonstrate positivity and optimism. The market for roads and highways in India is projected to exhibit a CAGR of 36.16% during 2016-2025, on account of growing Government initiatives to improve transportation infrastructure in the country. For the period of 2016-17 to 2021-22, the CAGR stands at 20%.

Development and maintenance of road infrastructure is a key Government priority, the sector has received strong budgetary support over the years. During the past years, the standardized processes for Public Private Partnership & public funded projects and a clear policy framework relating to bidding and tolling have also been developed. The major initiatives undertaken by the Government such as National Infrastructure Pipeline (NIP) and the PM Gati Shakti National Master Plan will raise productivity and accelerate economic growth and sustainable development.

Viksit Bharat @ 2047 is the vision of the Government of India to make India a developed nation by 2047. In line with the objective, the MoRTH is set to embark on an ambitious plan to construct 50,000 km of high-speed (access-controlled) corridors by the year 2047 The highways sector in India has been at the forefront of performance and innovation. The government is committed towards expanding the National Highway network over 2 lakh kilometers by 2047 emphasizing the construction of the World Class Road infrastructure in a time bound & target-oriented way.

India has a well-developed framework for Public-Private-Partnerships (PPP) in the highway sector. The Asian Development Bank ranked India at the first spot in PPP operational maturity and also designated India as a

developed market for PPPs. The Hybrid Annuity Model (HAM) has balanced risk appropriated between private and public partners and boosted PPP activity in the sector. In the recent past, the Build Operate Transfer (BOT) projects have witnessed renewed interest from private players, therefore NHAI has come up with more tenders on BOT mode in the current fiscal year. NHAI has identified 53 highway projects worth Rs 2.1 trillion to be developed through BOT model.

Asset recycling, through the Toll Operate Transfer (TOT) model has also been taken up by the NHAI and other State Government agencies is garnering increased interest among investors. Since its launch in 2018, NHAI has successfully completed 11 rounds of the Road Asset (bundle of roads) monetization through TOT mode and raised Rs. 48,995 crores till date. In line with the National Monetization Plan, NHAI's Total Asset Monetization Program has crossed Rs.1 Lakh Crore which includes Rs. 48,995 Crore through TOT, Rs. 25,900 Crore through InvIT and Rs. 42,000 Crore through Securitization.

Way Side Amenities

To improve the comfort and convenience of the highway users, the Ministry has planned development of state-of-the-art Way Side Amenities (WSA) at approximately every 40 kms along the National Highways. A total of 400 WSA sites are planned for development in FY 2024-25 and further 200+ WSA sites are planned for development in FY 2025-26. A total of 322 WSA sites (along 150 brownfield and 172 greenfield NH) have already been awarded out of which 50 sites are operational.

Multimodal Logistics Parks

A network of 35 Multimodal Logistics Parks is planned to be developed as part of Bharatmala Pariyojana, with a total investment of about Rs 46,000 crore, which once operational, shall be able to handle around 700 million metric tonnes of cargo. Of this, MMLPs at 15 prioritized locations will be developed with a total investment of about Rs 22,000 Crore. These Multi-Modal Logistics Parks shall serve as regional cargo aggregation and distribution hubs for various industrial and agricultural nodes, consumer hubs and EXIM gateways such as seaports with multi-modal connectivity. In certain cases, the MMLPs are also being developed in tandem with the Inland Waterway Terminals under the Sagarmala Pariyojana to reduce the cost of inland cargo movement at a much larger scale as compared to conventional road-based movement.

Port Connectivity Road (PCR) Project

India currently has 87 operational and under implementation ports along its coastline. All major operational ports currently have 4 lane and above last mile road connectivity. MORTH and its implementing agencies have planned the development of 108 Port Connectivity Road (PCR) projects of length ~3,700 km to improve the last mile connectivity of all 87 operational and under implementation ports. 10 projects having about 313 km length have been completed, 24 projects having about 1725 km length are under implementation and DPR is in progress for the remaining 63 projects (1465 km).

Optical Fibre Cables (OFCs)

Working towards development of around 10,000 km of Optic Fibre Cables (OFC) infrastructure across the country by FY2024-25, National Highways Logistics Management Limited (NHLML), a fully owned SPV of NHAI, is implementing the network of Digital Highways by developing integrated utility corridors along the National Highways to develop OFC infrastructure. Around 1,367 km on Delhi – Mumbai Expressway and 512 km on Hyderabad - Bangalore Corridor have been identified for the Digital Highway Development.

Ropeways

Under Parvatmala Pariyojana, ropeway projects of ~60 kms length are planned for award by FY2023-24. Ropeways have emerged as a convenient, safe and preferred mode of transportation to provide both, first as well as last mile connectivity to such hilly & inaccessible areas or to help de-congest urban congestion areas.

Public Transport Terminal Infrastructure

A Public Transport Terminal Infrastructure (PTI) is envisioned as a world-class passenger movement facility, designed to provide a hub for interfacing and interconnecting a variety of intercity, regional and local public transport systems, all within a single facility. PTI is an integrated public transport hub catering to multiple modes of surface transport. Additionally, PTIs also help to address the issue of city congestion arising out of the ever-increasing traffic growth and severe under capacity of transport infrastructure. Policy for PTI is being finalized.

BUSINESS

Some of the information in this section, including information with respect to our plans and strategies, contains forward-looking statements that involve risks and uncertainties. Please see "Forward-Looking Statements" and "Risk Factors" on pages 14 and 16, respectively, for a discussion of certain factors that may affect our business, results of operations or financial condition. Our actual results may differ materially from those expressed in or implied by these forward-looking statements.

Prospective investors should read this section together with the sections "Industry Overview", "Financial Statements", "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Summary of the Concession Agreements" on pages 122, 347, 777and 168, respectively, as well as the other information contained in this Letter of Offer.

This Letter of Offer includes (i) unaudited interim consolidated financial information of the Trust and the Project SPVs as of and for the six-month period ended September 30, 2024; (ii) audited consolidated financial information of the Trust and the Project SPVs as of and for the Financial Years 2024, 2023 and 2022; (iii) unaudited interim standalone financial information of the Trust as of and for the six-month period ended September 30, 2024; and (iv) audited standalone financial information of the Trust as of and for the Financial Years 2024,2023 and 2022.

This Letter of Offer includes summary financial information of MBEL as of and for the six-month period ended September 30, 2024 and the Financial Years 2024, 2023 and 2022. This Letter of Offer also contains Pro Forma Financial Information of the Trust and MBEL as of and for the Financial Year 2024 and the six-month period ended September 30, 2024 prepared in accordance with the requirements of Chapter 9 of the SEBI Master Circular and the InvIT Regulations.

In this section, unless the context otherwise requires, a reference to "we", "us" and "our" refers collectively to the Trust and the Project SPVs. References herein to the "Current Portfolio" are to the pre-MBEL Acquisition portfolio of the Trust and to the "Expanded Portfolio" are to the post-MBEL Acquisition portfolio of the Trust.

Overview

The Trust is a registered infrastructure investment trust under the InvIT Regulations. The Current Portfolio of the Trust comprises 15 toll-road assets in the states of Telangana, West Bengal, Haryana, Uttar Pradesh, Rajasthan, Gujarat, Goa, Maharashtra, Karnataka and Madhya Pradesh in India and consists of 11 Build-Operate-Transfer (BOT) projects and 4 Toll-Operate-Transfer (TOT) projects.

The Trust has acquired the Current Portfolio comprised of the Project SPVs from the Sponsor and in the case of PDTPL, IRB GEPL and STPL, holds the Project SPV together with the Sponsor. IRB LTPL, IRB KTPL and IRB GTPL were incorporated by and are held by the Trust. Each of the Project SPVs is an eligible infrastructure project as defined under the InvIT Regulations. As of September 30, 2024, the Project SPVs owned the following toll road assets comprising approximately 9,789 Lane Kilometers of highway:

- The Agra - Etawah NH-2 Project: A 124.52 km section of NH-2 between Agra and Etawah Bypass in Uttar Pradesh which is held by AETL;
- The Gulabpura - Chittorgarh NH-79 Project: A 124.87 km section of NH-79 between Gulabpura and Chittorgarh Bypass in Rajasthan which is held by CGTL;
- The Hapur - Moradabad NH-9 Project: A 99.867 km section of NH-9 between Hapur and Moradabad in Uttar Pradesh which is held by IRB HMTL;
- The Goa - Kundapur NH-17 Project: A 187.28 km section of NH-17 between Goa/Karnataka border and Kundapur in Karnataka which is held by IRB WTL;
- The Kishangarh - Gulabpura NH-79/79A Project: A 90.00 km section of NH-79/79A between Kishangarh and Gulabpura in Rajasthan which is held by KGTL;
- The Kaithal - Rajasthan Border NH-152/65 Project: A 166.259 km section of NH-152/65 between Kaithal and Rajasthan Border in Haryana which is held by KTL;
- The Solapur - Yedeshi NH-211 Project: A 98.717 km section of NH-211 between Solapur and Yedeshi in Maharashtra which is held by SYTL;
- The Udaipur - Rajasthan Border NH-8 Project: A 113.80 km section of NH-8 between Udaipur and Rajasthan Border in Rajasthan and Gujarat which is held by UTL;

- The Yedeshi - Aurangabad NH-211 Project: A 189.09 km section of NH-211 between Yedeshi and Aurangabad in Maharashtra which is held by YATL;
- The Palsit – Dankuni NH-19 Project: A 63.83 km section of NH-19 between Palsit and Dankuni in West Bengal which is held by PDTPL;
- The Nehru Outer Ring Road Project: A 158.00 km section of the Nehru Outer Ring Road in Telangana which is held by IRB GEPL;
- The Samakhiyali – Santalpur NH-27 Project: A 90.90 km section of NH-27 between Samakhiyali and Santalpur in Gujarat which is held by STPL;
- The Lalitpur – Lakhnadon NH-44 Project: A 316.08 km section of NH-44 between Lalitpur, Sagar and Lakhnadon in Uttar Pradesh and Madhya Pradesh which will be held by IRB LTPL;
- The Kota Bypass and Cable Stay Bridge Project: A section of 27.820 km of NH-76 (new NH-27) in Rajasthan which will be held by IRB KTPL; and
- The Gwalior - Jhansi Project: An 82.455 km section of NH-75 (new NH-44) between Gwalior and Jhansi in the states of Madhya Pradesh and Uttar Pradesh which will be held by IRB GTPL.

The map set out below depicts the location of the Current Portfolio:

The Sponsor of the Trust is IRB Infrastructure Developers Limited, one of the largest infrastructure development and construction companies in India in terms of net worth in the roads and highways sector according to the NHAI's annual prequalification for public private partnerships in national highway projects report for 2016. The Sponsor has been listed on the Stock Exchanges since 2008. As at September 30, 2024, the Sponsor had six road projects of which two were operational and four were under-construction. The Sponsor also acts as the Project Manager. For further details, see "*The Sponsor and Project Manager*" on page 327.

The Investment Manager of the Trust is MMK Toll Road Private Limited. The Investment Manager has experience in operating a road project for a period of 13 years. 51% of the equity share capital in the Investment Manager is held by the Sponsor, approximately 25% of the equity share capital of the Investment Manager is held by Croxley and approximately 24% of the equity share capital of the Investment Manager is held by the Cintra IM Investor. For further details, see "*The Investment Manager*" and "*Corporate Governance*" on pages 331 and 162, respectively.

The Trustee of the Trust is IDBI Trusteeship Services Limited. The Trustee is registered with the SEBI as a debenture trustee under the Debenture Trustees Regulations. For further details, see "*The Trustee*" on page 339.

MBEL or the Target SPV is currently held by the Sponsor (51%) and Anahera (49%). MBEL has entered into a concession agreement with the UPEIDA for the development of access controlled six-lane (expandable to eight-lane) greenfield 'Ganga Expressway' from Bijoli, Meerut to Nagla Barah, Budaun from Km 7.900 to Km 137.600 (total design length 129.700 Km) in the state of Uttar Pradesh. The Target SPV is an eligible infrastructure project under the InvIT Regulations. The Trust proposes to utilize the Issue Proceeds to acquire 80.40% of the equity shares and non-convertible debentures of MBEL pursuant to the MBEL Securities Purchase Agreement. For further details, see "Objects of the Issue" and "*Background and Structure of the Trust*" on pages 79 and 93, respectively.

Competitive Strengths

We believe that our key competitive strengths are as follows:

Portfolio of assets in key growth markets

As on the date of this Letter of Offer, the Trust owns 100% of twelve of the Project SPVs, 99.96% of each of PDTPL and STPL and 99.99% of IRB GEPL. Each of these Project SPVs (except IRB GEPL, IRB LTPL, IRB KTPL and IRB GTPL) is the concessionaire of a BOT toll-road project in India. IRB GEPL, IRB LTPL, IRB KTPL and IRB GTPL are concessionaires of TOT toll-road projects in India.

The Project SPVs' gross toll revenues are set out below:

(₹ in million)

Project SPV	Project	Gross toll revenue in the six-month period ended September 30, 2024	Gross toll revenue in the six-month period ended September 30, 2023	Gross toll revenue in the Financial Year 2024	Gross toll revenue in the Financial Year 2023	Gross toll revenue in the Financial Year 2022

@ Project commenced toll collection on December 28, 2023.
$ Project commenced toll collection on April 1, 2024.

For further information, see "*Financial Statements*" on page 347.

We believe that the Current Portfolio and the Expanded Portfolio assets have growth potential due to expected growth in traffic volumes as a result of regional growth and expected increases in toll fees as a result of inflation adjustments.

Diversified road project portfolio and revenue base

The Current Portfolio and the Expanded Portfolio Assets consist of a mix of infrastructure toll road projects spread across several states in India. We believe that the geographic diversity of the Current Portfolio and the Expanded Portfolio Assets will play a significant role in developing our experience and expertise, including our ability to evaluate, acquire, operate and maintain new projects.

The Current Portfolio and the Expanded Portfolio assets are primarily located along economic corridors and across tourist hubs in India.

The Project SPVs' concession agreements are also temporally diverse in that they commenced and are expected to expire at different times. The concession agreements' residual terms range between 28 years, 10 months and 10 days to 13 years, 1 month and 2 days as at September 30, 2024. IRB LTPL, IRB KTPL and IRB GTPL have received the appointed dates for their respective projects and have commenced toll collection with effect from April 1, 2024. Further, the term of MBEL's concession agreement commenced on October 12, 2022 and is expected to expire of October 11, 2052.

We believe that our geographically and temporally diverse project portfolio provides us with an advantage in capitalizing on new opportunities available in the roads and highways sector. We believe that this diversification strengthens our business by reducing our reliance on any specific region or project and reducing the potential impact on our business of any economic slowdown or force majeure event in any particular region or with respect to any particular project.

Experienced Sponsor/Project Manager and Investment Manager with consistent track record in operating and maintaining projects in the roads and highways sector in India

The Sponsor is one of the largest infrastructure development and construction companies in India in terms of net worth in the roads and highways sector according to the NHAI's annual prequalification for public private partnerships in national highway projects report for 2016. As at September 30, 2024, the Sponsor had six road projects of which two were operational and four were under-construction.

The Sponsor also acts as the Project Manager. The Sponsor's BOT project portfolio includes the Ahmedabad Vadodara section of NH 8 and the Ahmedabad Vadodara Expressway and the Meerut Budaun (Group-I) section of Ganga Expressway. The Sponsor's HAM project portfolio includes the under construction Gandeva to Ena project on the Vadodara-Mumbai eight lane expressway, four-laning of Punjab/Himachal Border to Mo Section of NH-154 and the six-laning of Chittoor Thachur road. The Sponsor's TOT project includes the Yashwantrao Chavan Expressway (Mumbai Pune Expressway) and Mumbai – Pune section of NH-48 (old NH-4). The Sponsor has experience in developing road and highway infrastructure and has received various industry awards and recognitions.

The Sponsor/Project Manager has experience in the execution of construction work for roads, highways, and other relevant structures and had a track record of constructing over 18,000 Lane Kilometres of roads and highways as of September 30, 2024.

The Investment Manager has experience in operating a road project for a period of 13 years. 51% of the equity share capital of the Investment Manager is held by the Sponsor, approximately 25% of the equity share capital of the Investment Manager is held by Croxley and approximately 24% of the equity share capital of the Investment Manager is held by the Cintra IM Investor.

Experienced management team with industry experience

We are managed by qualified personnel of the Investment Manager who have management and operational experience in the roads and highways sector. For further details, see "*The Investment Manager*" on page 331. We believe that the experience and leadership of these teams contribute to our growth and success and position the Current Portfolio and the Expanded Portfolio to be operated and managed in an efficient manner.

Attractive sector with strong underlying fundamentals

As per the World Bank, India is one of the fastest growing economies of the world and is poised to continue on this path, with aspirations to reach high middle-income status by 2047. India is experiencing growing urbanization and rising personal disposable income, resulting in an increase in consumption and discretionary spending. The roads sector registered a pace of construction by NHAI due to the systematic push through corridor-based National Highway development approach. The pace of National Highway increased 2.8 times to 33.8 km/day (2023-24) from 12.1 km/day (2014-15). The road sector has maintained its status as a priority sector for the Government. Investment in the roads and highways sector rose from approximately Rs.2.17 trillion in financial year 2022-2023 to approximately Rs.2.78 trillion in financial year 2024-2025, which represents a growth of approximately 28%

The GoI launched the Bharatmala Pariyojana umbrella program in October 2017 for upgrading highway infrastructure (34,800 km in Phase I) with a focus on ease of land acquisition and timely identification of economically important corridors. The program is expected to be completed by 2027-28.

Furthermore, MoRTH has defined a Vision 2047 for the National Highways sector which serves as the guiding principle for the Master Plan of National Highways and allied infrastructure. Vision 2047 for the National Highways aims to provide access to high-speed corridors within 100–150 km to all citizens. The plan also aims to improve passenger convenience and make roads in India meet international standards. Road business gets further de-risked with increased transparency and penetration of FASTag for toll collection also ensures seamless movement of traffic through fee plazas.

The NHAI has amended the model concession agreement (BOT – Toll) to make it more attractive for private investors to revive the investment in the road sector. NHAI has identified 54 projects worth over Rs 2.2 lakh crore. Also, NHAI is on track to bolster its revenue through a targeted asset monetisation strategy.

Investment Strategy and Risk and Capital Management Strategy

Our principal business strategies which are proposed to be implemented by the Investment Manager are set out below:

Organic growth through proactive management

Our principal investment strategy is to proactively manage the Current Portfolio and the Expanded Portfolio to support growth. In particular, the Investment Manager will seek to maintain or improve the SPVs' net incomes by, among other initiatives, curbing leakages, conducting proper due diligence, formulating and adopting policies and procedures and structuring investments to address tax or regulatory considerations. The Project Manager will assist the Investment Manager by carrying out the construction, operations, management and maintenance of the project in accordance with the relevant concession agreement and the Project Implementation Agreements and by procuring, operating and maintaining the project's toll management systems, including but not limited to, employing staff for toll collection, monitoring toll collection and providing security arrangements at toll plazas.

The Investment Manager will also focus on minimizing project operating expenses. The roads and highways sector is a highly competitive sector that is capital intensive and requires significant expenditure. Our ability to efficiently manage the costs associated with the Current Portfolio and the Expanded Portfolio is critical to maintaining the SPVs' profit margins. The Investment Manager intends to focus on increasing the margins of the SPVs by strengthening internal processes and systems so as to improve utilization of resources and reduce costs. As part of our operations and maintenance systems and processes, the Investment Manager intends to work closely with

the Project Manager to promote best practices, to minimize downtime or defects with respect to the Current Portfolio and the Expanded Portfolio and to monitor performance of toll booth operators and maintenance contractors. The Investment Manager also intends to work with the Project Manager and the SPVs to upgrade technology as needed, to manage any leakages in toll collections and to streamline collection, route and maintenance operations. With this focus on proactive asset management and operating expense minimization, the Investment Manager hopes to increase our profit margins and achieve long-term growth.

Acquisition and divestment of toll road projects

The Investment Manager intends to expand our portfolio by identifying and selectively bidding for and acquiring additional toll road projects in accordance with the Procurement and Divestment Policy. Pursuant to the Framework Agreement, the Sponsor has agreed to certain arrangements in relation to submission of bids for (i) any new concession by the Sponsor and/or its affiliates involving the development or operation of roads and highways; or (ii) over any extensions of the concession period of road projects held by the Sponsor and/or its affiliates (other than the Project SPVs) with the Financial Investors. For details, see "*Related Party Transactions – Details of Related Party Transactions proposed to be undertaken*" on page 308. The Investment Manager may also consider divestment of certain toll road assets, depending on the maturity and profile of the relevant asset and subject to the Procurement and Divestment Policy. For details of the Procurement and Divestment Policy, see "*Corporate Governance – Policies of the Manager Group*" on page 164.

Optimization of capital structure

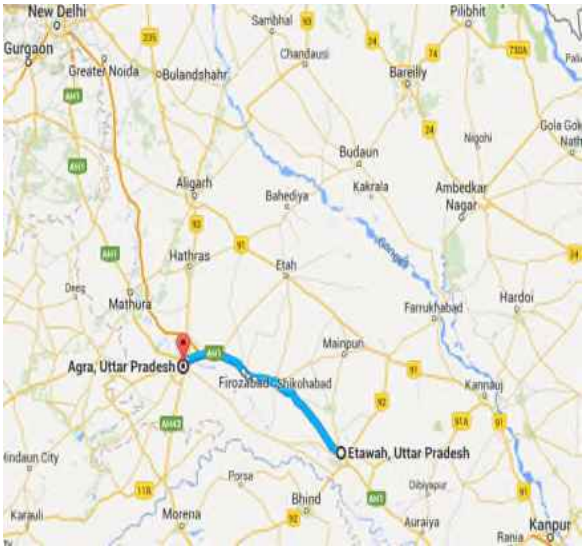
The Investment Manager will seek to employ appropriate financing policies and diversify its sources of financing with the objective of minimizing our overall cost of capital. The Investment Manager will ensure compliance with the provisions of the Indenture of Trust, the InvIT Regulations and other applicable law for borrowing. The Investment Manager may also pursue growth opportunities that require raising additional capital through the issuance of new Units.

Details of the Project SPVs and the Portfolio

The Current Portfolio of the Trust comprises 15 toll-road assets in the states of Telangana, West Bengal, Haryana, Uttar Pradesh, Rajasthan, Gujarat, Goa, Maharashtra, Karnataka and Madhya Pradesh in India and consists of 11 BOT projects and 4 TOT projects. These toll roads are operated and maintained pursuant to concessions awarded by the NHAI and other state concessioning authorities. In relation to the projects for which construction has not been completed, see "*Government and Other Approvals*" on page 830 for information about the status of approvals and "*Risk Factors*" on page 16 for a discussion of risks in relation to delay of completion of the projects.

See "*Summary of the Concession Agreements*" on page 168 for a summary of the key terms of the concession agreements entered into by the Project SPVs with the NHAI and other state concessioning authorities.

Details of the Project SPVs are set out below: periods.



Project SPV	Project	Concession period	Commencement of concession period	End of concession period with no reduction or extension	Residual concession period as of September 30, 2024 with no extension (approx.)
AETL	Agra - Etawah NH-2 Project	24 years	August 1, 2016	July 31, 2040	15 years 9 month 31 days

A summary of the key features of each Current Portfolio asset is discussed below.

1. *Agra – Etawah NH-2 Project*

Map of the Agra – Etawah NH-2 Project

On September 1, 2015, the NHAI and AETL entered into a concession agreement in respect of the Agra - Etawah NH-2 Project. AETL was engaged to augment a 124.52 km section of NH-2 between Agra and Etawah in Uttar Pradesh by six-laning on a DBFOT basis. Being a four-laning to six-laning project, the concession period and the collection of toll commenced on August 1, 2016. As per the relevant concession agreement, the Agra - Etawah NH-2 Project comprises the section of NH-2 from km 199.660 to km 323.525. The completion certificate in relation to the project was issued on November 24, 2020.

Corridor description

The Agra - Etawah NH-2 Project is a 124.52 km six-lane road, forming part of the section between Agra and Etawah in Uttar Pradesh. The Agra - Etawah NH-2 Project passes through the districts of Agra, Firozabad, and Etawah in the state of Uttar Pradesh and towns/ built-up areas of Tundla, Firozabad, Shikohabad, Sirsaganj, and Jaswantnagar.

The Agra - Etawah NH-2 Project connects the national capital Delhi to Kolkata, as well as important cities Mathura, Agra, Kanpur, Allahabad, Varanasi, Dhanbad, Asansol, Durgapur and Bardhman. The highway is part of the Golden Quadrilateral.

The project road is a link between Agra and Kanpur in the state of Uttar Pradesh. In addition, the project influence area includes the districts of Kanpur, Mathura and Aligarh also.

According to Traffic Reports, section of NH-2 from Agra to Etawah is part of the major transportation link in the area connecting industrial cities of Agra- Kanpur and Lucknow. Important cities of Firozabad, Shikohabad, and Jaswant Nagar fall on project alignment. Firozabad has a famous glass work industry. There are two operative toll plazas at project stretch at Tundla at Km 224.950 and sat Gurau at Km 285.200.

Concession period and revenue sharing arrangement

The NHAI granted AETL a concession for a period of 24 years for this project. The concession period commenced on August 1, 2016 and is expected to expire on July 31, 2040. AETL began collecting toll with respect to this project on August 1, 2016.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume by more than 2.5%, the concession period may be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the

target traffic volume by more than 2.5%, the concession period may be extended by 1.5% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its discretion, cause AETL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, the concession period would be for a period of up to five years so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires AETL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

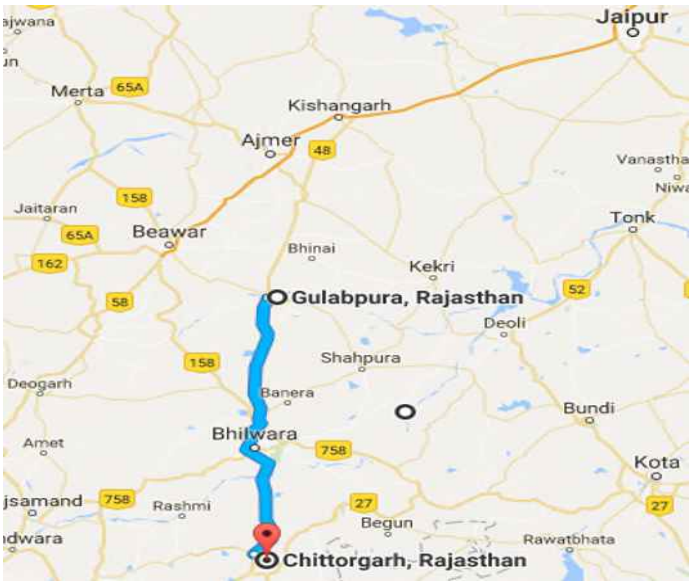
For this project, the target date and target traffic volume in the concession agreement is April 1, 2025 and 52,995 PCUs, respectively.

In consideration of the grant of concession, AETL pays the NHAI a concession fee of ₹1 per annum. Additionally, AETL was required to pay on the appointed date a premium in the form of an additional concession fee equal to ₹810 million as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year of the concession period, the premium is determined by increasing the amount of premium in the respective year by an additional 5% as compared to the immediately preceding year.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	223.44
November 2024	219.99



Land

The NHAI owns the land that underlies the Agra - Etawah NH-2 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

2. *Gulabpura – Chittorgarh NH-79 Project*

Map of the Gulabpura – Chittorgarh NH-79 Project

On December 9, 2016, the NHAI and CGTL entered into a concession agreement in respect of the Gulabpura - Chittorgarh NH-79 Project. CGTL was engaged to augment a 124.87 km section of NH-79 between Gulabpura and Chittorgarh in Rajasthan by six-laning on a DBFOT basis. Being a four-to-six-laning project, the concession

period and the collection of toll commenced on November 4, 2017. As per the relevant concession agreement, the Gulabpura - Chittorgarh NH-79 Project comprises the section of NH-79 from km 90.00 to km 214.870. The completion certificate in relation to the project was issued on August 14, 2021.

Corridor description

The Gulabpura - Chittorgarh NH-79 Project is an 124.87 km six-lane toll road on the section of NH-79 which connects Ajmer to Ghat Bilod. Project section of NH-79 passes through districts of Bhiwara and Chittorgarh and connects to Udaipur via NH-76. Project road alignment passes through the towns/ built-up areas Fakirabad, Bhilwara, Gulabpura, and Chittorgarh.

NH-79 is an important link for traffic connecting Delhi, Jaipur to Udaipur, Chittorgarh and down south. It is one of the major north-south road connectivity for the traffic from northern states of Haryana, Punjab and Delhi to industrial and tourist areas of Rajasthan like Jaipur, Chittorgarh, Udaipur and then to Dahod, Ratlam and other parts of Madhya Pradesh.

Important cities of Firozabad, Shikohabad, and Jaswant Nagar fall on project alignment. Major mining industries of marble, zink, felspar, quarts of Udaipur and textile industry of Bhiwara provide are major contributor of commercial traffic on project corridor. Additionally, Udaipur, Chittorgarh and Bhilwara major tourist centers of India. This adds substantial value for passenger traffic on the project corridor section. There are two operative toll plazas at project stretch at Lambia Kalan at Km 121.020 and Jojro ka Khera at Km 184.020.

Concession period and revenue sharing arrangement

The NHAI granted CGTL a concession for a period of 20 years for this project. The concession period commenced on November 4, 2017 and is expected to expire on November 3, 2037. Being a four-to-six-laning project, CGTL began collecting toll with respect to this project on November 4, 2017. The completion certificate in relation to the project was issued on August 14, 2021.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume by more than 2.5%, the concession period may be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume by more than 2.5%, the concession period may be extended by 1.5% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its discretion, cause CGTL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, the concession period would be for a period of up to five years so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires CGTL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

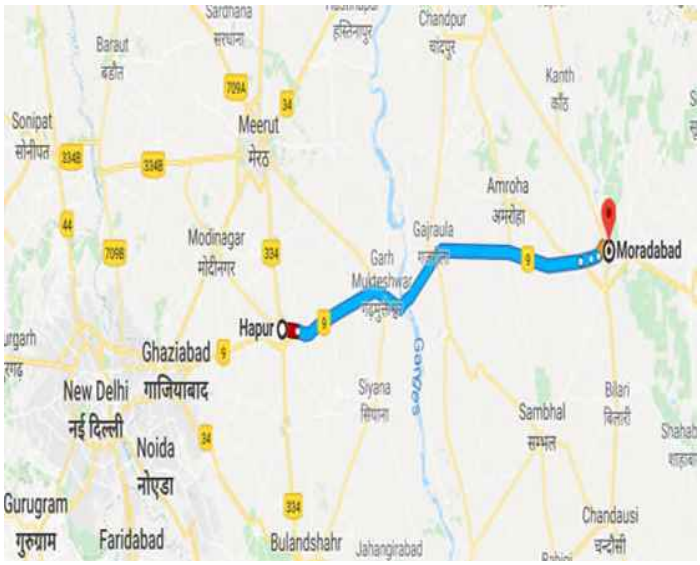
For this project, the target date and target traffic volume in the concession agreement is June 1, 2026 and 76,316 PCUs, respectively.

In consideration of the grant of concession, CGTL pays the NHAI a concession fee of ₹1 per annum. Additionally, after the third anniversary of the COD, CGTL is required to pay a premium in the form of an additional concession fee equal to ₹2,286.00 million as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year until the ninth anniversary of the COD, the premium will be determined by increasing the amount of premium in the respective year by an additional 3% as compared to the immediately preceding year, and for each subsequent year of the concession period, the premium will be determined by increasing the amount of premium in the respective year by an additional 8% as compared to the immediately preceding year.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	327.47
November 2024	300.95



Land

The NHAI owns the land that underlies the Gulabpura - Chittorgarh NH-79 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

3. *Hapur – Moradabad NH-9 Project*

Map of the Hapur - Moradabad NH-9 Project

On May 29, 2018, the NHAI and IRB HMTL entered into a concession agreement in respect of the Hapur – Moradabad NH-9 Project. IRB HMTL was engaged to augment a 99.867 km section of NH-9 between Hapur and Moradabad in Uttar Pradesh by six laning on a DBFOT basis. The concession period and the collection of tolls commenced on May 28, 2019 and May 30, 2019, respectively. As per the relevant concession agreement, the Hapur – Moradabad NH-9 Project comprises the section of NH-9 from km 50.00 to km 148.277. Completion certificates in relation to the project were issued on July 1, 2022 and April 7, 2023.

Corridor description

The Project section starts from Hapur Bypass (Km50.000) and ends in Moradabad (Km148.277). The total design length of project road section is about 100 Kms. The existing road is four lane divided carriageway, which is proposed to be six laned. The road passes through the districts of Hapur, Amrohaand Moradabad, all in Uttar Pradesh. Project road alignment passes through the small towns/built-up areas of Pakwara, Joya and Babugarh. Simbhaoli, one of the largest integrated sugar refinery complexes is right on the project road.

The project road is the section of the former NH-24 which has now been re-designated as NH-9 connecting Fazilka in Punjab to Pithoragarh in Uttarakhand.

According to Traffic Reports, a number of sections along the project road from Hapur to Moradabad have witnessed urban development along the highway. Places like Pilakhua, Babugarh, Brijghat, Gajrola and Joya are fast upcoming urban centers. Close proximity to Delhi and this being main connectivity of region to NCR is main region for this ribbon development along highway. There are two operative toll plazas at project stretch at Garh at Km 90.661 and at Joya at Km 123.875.

Concession period and revenue sharing arrangement

The NHAI granted IRB HMTL a concession for a period of 22 years for this project. The concession period commenced on May 28, 2019 and is expected to expire on May 26, 2041. Being a four-to-six-laning project, IRB HMTL began collecting toll with respect to this project on May 30, 2019.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume by more than 2.5%, the concession period may be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume by more than 2.5%, the concession period may be extended by 1.5% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its discretion, cause IRB HMTL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, the concession period would be for a period of up to five years so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires IRB HMTL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

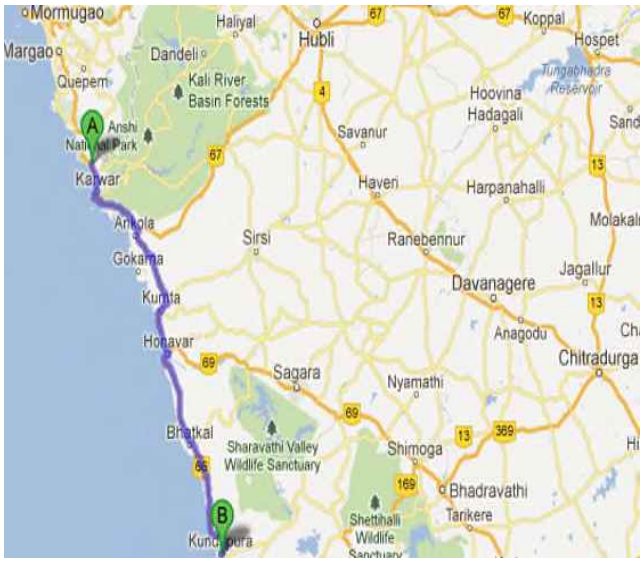
For this project, the target date and target traffic volume in the concession agreement is April 1, 2028 and 67,413 PCUs, respectively.

In consideration of the grant of concession, IRB HMTL pays the NHAI a concession fee of ₹1 per annum. Additionally, after the third anniversary year of the COD, IRB HMTL is required to pay a premium in the form of an additional concession fee equal to ₹315.00 million as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year till the ninth anniversary of the COD, the premium will be determined by increasing the amount of premium in the respective year by an additional 3% as compared to the immediately preceding year and for each subsequent year of the concession period, the premium will be determined by increasing the amount of premium in the respective year by an additional 8% as compared to the immediately preceding year.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	291.39
November 2024	292.04



Land

The NHAI owns the land that underlies the Hapur – Moradabad NH-9 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

4. *Goa – Kundapur NH-17 Project*

Map of the Goa – Kundapur NH-17 Project

On March 25, 2013, the NHAI and IRB WTL entered into a concession agreement in respect of the Goa – Kundapur NH-17 Project. IRB WTL was engaged to augment a 187.28 km section of NH-17 between Goa and Kundapur in Karnataka by four-laning on a DBFOT basis. The concession period commenced on March 3, 2014. As per the relevant concession agreement, the Goa – Kundapur NH-17 Project comprises the section of NH-17 from km 93.700 to km 283.300. Provisional completion certificates in relation to the project were issued on January 31, 2020, February 28, 2022 and March 24, 2023.

Corridor description

The Goa – Kundapur NH-17 Project is situated in the state of Karnataka and this is the main connectivity between Mumbai and- Goa and Kerala. The project road passes through the districts of Karnataka and Goa.

NH-66 is a busy national highway that runs roughly north–south along the western coast of India, parallel to the Western Ghats. As the project highway runs along the west coast for most parts of its alignment, there are only radial roads connecting to the project highway which work as feeder network to project road.

Ankola, Bhatkal, Kumta and Karwar are the main urban centers on project corridor. The project road forms a main connectivity between Mumbai and southern parts on west coast like Goa, Kanoor, Kocchi, Thiruanantpuram and finally Kanyakumai. Thus, transportation requirements in terms of passenger and goods are largely dependent on this spinal road. There are three operative toll plazas at project stretch at km 119.00, km 184.00 and km 243.00 respectively.

Concession period and revenue sharing arrangement

The NHAI granted IRB WTL a concession for a period of 28 years for this project. The concession period commenced on March 3, 2014 and is expected to expire on March 2, 2042. IRB WTL commenced tolling on February 11, 2020.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume by more than 2.5%, the concession period may be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume by more than 2.5%, the concession period may be extended by 1.5% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its discretion, cause IRB WTL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, the concession period would be for a period of up to five years

so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires IRB WTL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

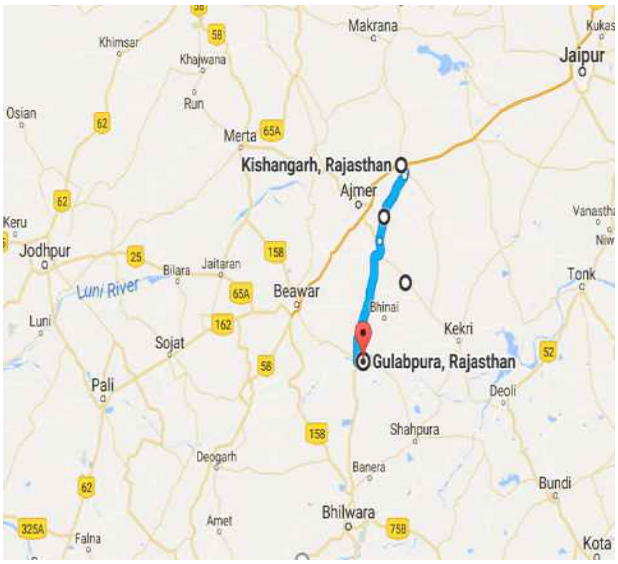
For this project, the target date and target traffic volume in the concession agreement is April 1, 2022 and 21,307 PCUs, respectively.

In consideration of the grant of concession, IRB WTL pays the NHAI a concession fee of ₹1 per annum.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	119.02
November 2024	116.66



Land

The NHAI owns the land that underlies the Goa – Kundapur NH-17 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

5. *Kishangarh – Gulabpura NH-79/79A Project*

Map of the Kishangarh – Gulabpura NH-79/79A Project

On February 22, 2017, the NHAI and KGTL entered into a concession agreement in respect of the Kishangarh – Gulabpura NH-79/79A Project. KGTL was engaged to augment a 90.00 km section of NH-79/79A between Kishangarh and Gulabpura in Rajasthan by six-laning on a DBFOT basis. Being a four-to-six-laning project, the concession period and the collection of toll commenced on February 21, 2018. As per the relevant concession agreement, the Kishangarh – Gulabpura NH-79/79A Project comprises the section of NH-79/79A from km 0.000 to km 90.000. The completion certificate in relation to the project was issued on July 20, 2022.

Corridor description

The Kishangarh – Gulabpura NH-79/79A Project is approx. 90 km stretch on NH-79/79A (new NH-48) takes off at Kishangarh and ends at Gulabpura, both in the state of Rajasthan and connects Ajmer to Ghat Bilod. The project road passes through the districts of Bhiwara and Ajmer. Project road alignment passes through the small towns of Shreenagar, Nasirabad, Jharwasa, Bandanwara and Bijainagar (Vijay Nagar).

It is one of the major north-south road connectivity for the traffic from northern states of Haryana, Punjab and Delhi to Industrial and tourist areas of Rajasthan like Jaipur, Chittorgarh, Udaipur and then to Dahod, Ratlam and other parts of Madhya Pradesh.

According to Traffic Reports, Major mining industries of marble, zink, felspar, quarts of Udaipur and textile industry of Bhiwara provide are major contributor of commercial traffic on project corridor. Additionally, Jaipur, Ajmer, Udaipur, Chittorgarh and Bhilwara major tourist centers of India. This adds substantial value for passenger traffic on the project corridor section. There is one operative toll plaza at project stretch at Bandanwara at km 61.020.

Concession period and revenue sharing arrangement

The NHAI granted KGTL a concession for a period of 20 years for this project. The concession period commenced on February 21, 2018 and is expected to expire on February 20, 2038. KGTL began collecting toll with respect to this project on February 21, 2018.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume by more than 2.5%, the concession period may be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume by more than 2.5%, the concession period may be extended by 1.5% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its discretion, cause KGTL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, the concession period would be for a period of up to five years so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires KGTL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

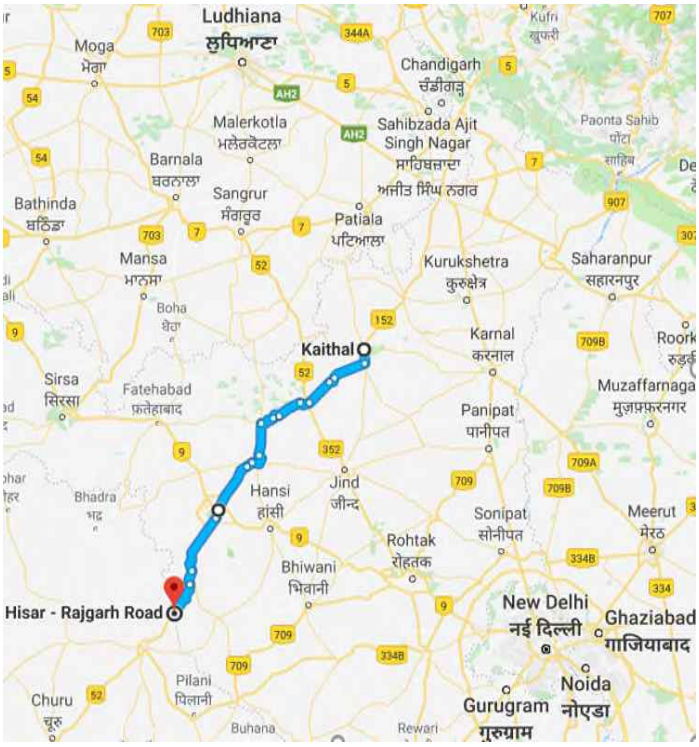
For this project, the target date and target traffic volume in the concession agreement is May 1, 2026 and 76,236 PCUs, respectively.

In consideration of the grant of concession, KGTL pays the NHAI a concession fee of ₹1 per annum. Additionally, after the third anniversary year of the COD, KGTL is required to pay a premium in the form of an additional concession fee equal to ₹1,863.00 million as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year till the ninth anniversary of the COD, the premium will be determined by increasing the amount of premium in the respective year by an additional 3% as compared to the immediately preceding year and for each subsequent year of the concession period, the premium will be determined by increasing the amount of premium in the respective year by an additional 8% as compared to the immediately preceding year.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	209.51
November 2024	193.31



Land

The NHAI owns the land that underlies the Kishangarh – Gulabpura NH-79/79A Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

6. ***Kaithal – Rajasthan Border NH-152/65 Project***

Map of the Kaithal – Rajasthan Border NH-152/65 Project

On June 23, 2014, the NHAI and KTL entered into a concession agreement in respect of the Kaithal – Rajasthan Border NH-152/65 Project. KTL was engaged to augment a 166.259 km section of NH-152/65 between Kaithal and Rajasthan Border in Haryana by four-laning on a DBFOT basis. The concession period commenced on July 15, 2015 and the collection of toll commenced on September 8, 2017. As per the relevant concession agreement, the Kaithal - Rajasthan Border NH-152/65 Project comprises the section of NH-152/65 from km 33.250 to km 241.580. Provisional completion certificates dated September 6, 2017 and July 9, 2018 and a completion certificate dated March 29, 2019 have been issued in relation to the project.

Corridor description

The Kaithal - Rajasthan Border NH-152/65 Project is part of important corridor which connects part of Haryana, Punjab, Himachal Pradesh, Jammu and Kashmir and certain part of Uttarakhand to Rajasthan, Gujarat and costal parts of Maharashtra and then to down to south. Project road section form Kaithal to Rajasthan border passes through three districts of Haryana namely Kaithal, Hisar and Bhiwani. Project road also passes through important towns and development areas of Narwana, Hisar and Siwani in addition to Kaithal.

It is the shortest route between Punjab / J&K, Gujarat, Rajasthan, Maharashtra, Goa, Kerala and becomes good alternate route to NH-1 and NH-8 for Gujarat, Rajasthan, Maharashtra Goa and Kerala bound traffic from Haryana, Punjab, J&K Himachal Pradesh. It also caters to local intrastate traffic between districts of Ambala, Chandigarh, Kaithal, Jind, Hisar, Bhiwani in Haryana and Churu, Sikar, Nagaur and Jodhpur in Rajasthan.

Concession period and revenue sharing arrangement

The NHAI granted KTL a concession for a period of 27 years for this project. The concession period commenced on July 15, 2015 and is expected to expire on July 14, 2042. KTL began collecting toll with respect to this project on September 8, 2017.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume by more than 2.5%, the concession period may be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the

target traffic volume by more than 2.5%, the concession period may be extended by 1.5% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its discretion, cause KTL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, the concession period would be for a period of up to five years so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires KTL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

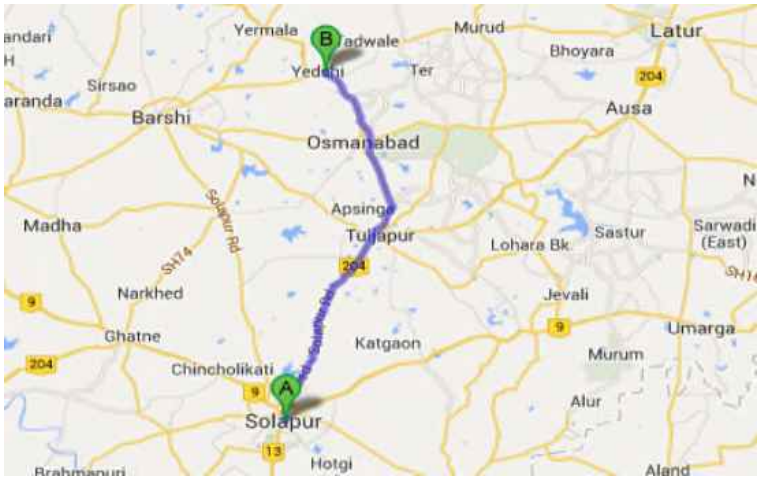
For this project, the target date and target traffic volume set out in the concession agreement is April 1, 2023 and 21,919 PCUs, respectively.

In consideration of the grant of concession, KTL pays the NHAI a concession fee of ₹1 per annum.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	116.03
November 2024	115.74



Land

The NHAI owns the land that underlies the Kaithal – Rajasthan Border NH-152/65 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

7. *Solapur – Yedeshi NH-211 Project*

Map of the Solapur - Yedeshi NH-211 Project

On March 3, 2014, the NHAI and SYTL entered into a concession agreement in respect of the Solapur – Yedeshi NH-211 Project. SYTL was engaged to augment a 98.717 km section of NH-211 between Solapur and Yedeshi in Maharashtra by four-laning on a DBFOT basis. The concession period commenced on January 21, 2015 and the collection of toll commenced on March 7, 2018. As per the relevant concession agreement, the Solapur – Yedeshi NH-211 Project comprises the section of NH-211 from km 0.000 to km 100.000. A provisional completion certificate was issued on March 5, 2018. The completion certificate for the project was issued on October 15, 2019.

Corridor description

The Solapur – Yedeshi NH-211 Project is a 98.717 km stretch that forms part of the NH 211 in the state of Maharashtra which is a part of important north-south connectivity. It connects Karnataka, southern parts of Maharashtra and other southern states to Solapur, Aurangabad, Dhule and then northern parts of India

NH-211 is an important national highway of Maharashtra. It connects northern Karnataka to Marathwada region of Maharashtra.Solapur, the textile and sugar belt of Maharashtra, Jalna, India's first dry port, Aurangabad fall in project corridor. Bidkin, Shendre areas which are coming up with mega green field Industrial smart city of 10000 acre at Bidkin and Shendra in Maharashtra also fall in influence zone of project corridor.

According to the Traffic Reports, the project road forms part of an important transportation corridor which works as gateway to Karnataka and rest of south India for Marathwada region of Maharashtra. It connects Solapur – Dhule and forms an important transportation link for traffic from Vijapur, Hubli and other parts of north Karnataka to Aurangabad, Jalna, Beed and other places in the Marathwada region. Project has two toll plazas at Tamamwadi and Yedeshi.

Concession period and revenue sharing arrangement

The NHAI granted SYTL a concession for a period of 29 years for this project. The concession period commenced on January 21, 2015 and is expected to expire on January 20, 2044. SYTL began collecting toll with respect to this project on March 7, 2018.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume by more than 2.5%, the concession period may be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume by more than 2.5%, the concession period may be extended by 1.5% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its discretion, cause SYTL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, the concession period would be for a period of up to five years so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires SYTL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

For this project, the target date and target traffic volume in the concession agreement is October 1, 2023 and 22,210 PCUs, respectively.

In consideration of the grant of concession, SYTL pays the NHAI a concession fee of ₹1 per annum.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	97.86
November 2024	105.33

Land

The NHAI owns the land that underlies the Solapur - Yedeshi NH-211 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

8. *Udaipur - Rajasthan Border NH-8 Project*

Map of the Udaipur – Rajasthan Border NH-8 Project

On December 9, 2016, the NHAI and UTL entered into a concession agreement in respect of the Udaipur - Rajasthan Border NH-8 Project. UTL was engaged to augment a 113.80 km section of NH-8 between Udaipur and Rajasthan Border in Rajasthan and Gujarat by six-laning on a DBFOT basis. Being a four-to-six-laning project, the concession period and the collection of toll commenced on September 3, 2017. As per the relevant concession agreement, the Udaipur - Rajasthan Border NH-8 Project comprises the section of NH-8 from km 287.400 to km 401.200. The completion certificate in relation to the project was issued on May 31, 2021.

Corridor description

The 113.8 km four-lane toll road (new NH-48) is located in Rajasthan and Gujarat and forms part of the Delhi-Mumbai arm of the Golden Quadrilateral. Project road alignment passes through the rural area in most part of stretch. After Udaipur there is no major urban establishment other than Rishabhdeo, a famous religious place in the region.

Besides being part of major transport link between Mumbai and Delhi, stretching from Udaipur to Shamlaji forms major connectivity between Udaipur, Ahmedabad, Rajkot Jamnagar and Porbandar. After renumbering of all national highways by National Highway Authority of India in 2010, the current NH 48 was formed by merging the old NH 8 (Delhi-Mumbai section) and NH 4 (Mumbai-Chennai). National Highway 48 starts at Delhi and terminates at Chennai and goes through Jaipur, Udaipur, Vadodara, Mumbai, Pune and Bengaluru, traversing through six states of India

According to the Traffic Reports, the area around the project stretch from Udaipur to Gujarat border has green marble mines and other establishments. Major religious centres like Shamlaji and Ekling ji contribute to substantial passenger traffic on the project stretch. There is one operative toll plaza at project stretch at Khandi Obri at km 348.450.

Concession period and revenue sharing arrangement

The NHAI granted UTL a concession for a period of 21 years for this project. The concession period commenced on September 3, 2017 and is expected to expire on September 2, 2038. UTL began collecting toll with respect to this project on September 3, 2017.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession

agreement, in the event the actual average traffic on the target date exceeds the target traffic volume by more than 2.5%, the concession period may be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume by more than 2.5%, the concession period may be extended by 1.5% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its discretion, cause UTL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, the concession period would be for a period of up to five years so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires UTL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

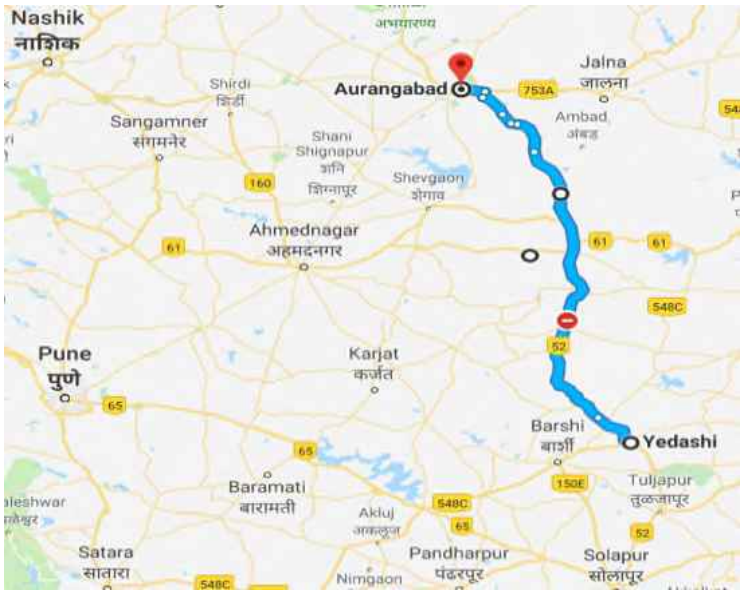
For this project, the target date and target traffic volume in the concession agreement is September 21, 2026 and 61,435 PCUs, respectively.

In consideration of the grant of concession, UTL pays the NHAI a concession fee of ₹1 per annum. Additionally, immediately after the third anniversary year of the COD, a premium in the form of an additional concession fee equal to ₹1,638.00 million is required to be paid by UTL as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year till the ninth anniversary of the COD, the premium will be determined by increasing the amount of premium in the respective year by an additional 3% as compared to the immediately preceding year and for each subsequent year of the concession period, the premium will be determined by increasing the amount of premium in the respective year by an additional 8% as compared to the immediately preceding year.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	263.72
November 2024	257.63



Land

The NHAI owns the land that underlies the Udaipur - Rajasthan Border NH-8 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

9. *Yedeshi – Aurangabad NH-211 Project*

Map of the Yedeshi - Aurangabad NH-211 Project

On May 30, 2014, the NHAI and YATL entered into a concession agreement in respect of the Yedeshi - Aurangabad NH-211 Project. YATL was engaged to augment a 189.09 km section of NH-211 between Yedeshi and Aurangabad in Maharashtra by four-laning on a DBFOT basis. The concession period commenced on July 1, 2015 and the collection of toll commenced on March 17, 2019. As per the relevant concession agreement, the Yedeshi – Aurangabad NH-211 Project comprises the section of NH-211 from km 100.00 to km 290.200. A provisional completion certificate was issued on March 15, 2019. The completion certificate was issued on September 24, 2020.

Corridor description

The Yedeshi – Aurangabad NH-211 Project forms part of the NH-211 (new NH-52), which s one of the important transportation link in Maharashtra which connects Solapur to Dhule and then at Dhule it can join other important highway like NH-3 (Mumbai – Agra Road) and NH-6 (east-west highway).

According to the Traffic Reports, the project road passes through important places like Chausala, Beed, Adul, Chitegaon and then Aurangabad. The project road passes through the districts of Beed and Aurangabad.There are three operative toll plazas at project stretch at Yedeshi at Km 134.000, at Padalshingi at Km 194.000 and at Bhokarwadi at Km 254.000.

Concession period and revenue sharing arrangement

The NHAI granted YATL a concession for a period of 26 years for this project. The concession period commenced on July 1, 2015 and is expected to expire on June 30, 2041. YATL began collecting toll with respect to this project on March 17, 2019.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume by more than 2.5%, the concession period may be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume by more than 2.5%, the concession period may be extended by 1.5% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its discretion, cause YATL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, the concession period would be for a period of up to five years

so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires YATL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

For this project, the target date and target traffic volume in the concession agreement is October 1, 2023 and 24,407 PCUs, respectively.

In consideration of the grant of concession, YATL pays the NHAI a concession fee of ₹1 per annum.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	199.97
November 2024	201.10

Land

The NHAI owns the land that underlies the Yedeshi – Aurangabad NH-211 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

10. Palsit – Dankuni NH-19 Project

Map of the Palsit – Dankuni NH-19 Project

On June 14, 2021, the NHAI and PDTPL entered into a concession agreement in respect of the Palsit – Dankuni NH-19 Project. PDTPL was engaged to augment a section of NH-19 Palsit to Dankuni (upto NH-6 Connector) from KM 588.870 to KM 652.700 (total design length 63.830 km) in West Bengal by six-laning on a BOT (toll) basis. Being a four-laning to six-laning project, the concession period and the collection of toll commenced on April 2, 2022. As per the relevant concession agreement, the Palsit – Dankuni NH-19 Project comprises the section of NH-19 from KM 588.870 to KM 652.700.

Corridor description

The asset is located on National Highway 19 (old NH-2) which is oldest highway in India and connects state of Delhi, Haryana, Uttar Pradesh, Bihar, Jharkhand and West Bengal. It constitutes a major portion of the historical grand truck road. It connects the national capital Delhi to Kolkata, as well as important cities Mathura, Agra, Kanpur, Allahabad, Varanasi, Dhanbad, Asansol, Durgapur and Bardhman. The highway is part of the Golden Quadrilateral

New NH-19 connects industrial cities like Agra, Kanpur, Allahabad, Varanasi, Dhanbad, Durgapur, Bardhman and terminates at Dankuni near Kolkata. Close proximity to Kolkata and Howrah has given impetus to industrial development around project highway at various locations. Project stretch is developed at new alignment between Palsit and Dankuni and is known as Durgapur Expressway. The main project influence area of the project road consists of Dhanbad, Durgapur and Kolkata.

According to the Traffic Reports, section of NH-19 from Palsit to Dankuni is part of a major transportation link in the area connecting industrial cities of Dhanbad, Asansol, Durgapur and Kolkata. The project stretch acts as a gateway link to Kolkata from northern India. Being just on the outskirts of the major metro city Kolkata, a large number of warehouses and logistic hubs are established on project road. This also contributes to sustainable traffic and growth on project highway. There is one operative toll plaza at project stretch which is at Dankuni at km 646.005.

Concession period and revenue sharing arrangement

The NHAI granted PDTPL a concession for a period of 17 years for this project. The concession period commenced on April 2, 2022 and is expected to expire on April 1, 2039. PDTPL began collecting toll with respect to this project on April 2, 2022.

The concession agreement provides that if the actual average traffic falls short of or exceeds the target traffic on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic by more than 5%, the concession period may be reduced by 1.00% for every 1.00% excess in actual average traffic as compared to the target traffic, provided that such reduction in the concession period does not exceed 20% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic by more than 5%, the concession period may be extended by 1.00% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that if the average daily traffic exceeds the design capacity in any accounting year, an indirect political event under the concession agreement will be deemed to have occurred and the NHAI may, at its discretion, terminate the concession agreement. If PDTPL has completed the construction works necessary for augmenting the capacity of the project such that its capacity has increased sufficiently for carrying the then current traffic, prior to the issue of a termination notice by the NHAI, the indirect political event will deemed to have been cured.

For this project, the target dates are expected to be May 1, 2026, May 1, 2031 and May 1, 2036. The target traffic on these dates is expected to be 65,830 PCUs, 84,018 PCUs and 107,270 PCUs, respectively, and the actual average traffic will be derived based on the procedures prescribed by the NHAI in accordance with the concession agreement.

In consideration of the grant of concession, PDTPL pays the NHAI a concession fee of ₹1 per annum. Additionally, immediately after the first anniversary of the project completion date, a premium in the form of an additional concession fee for every year of the remaining concession period is payable by PDTPL. The premium to be paid for the second year after the project completion date is equal to 10.8% of the realisable fee and is required to be paid by PDTPL as due to the NHAI during that year. For subsequent years, the premium will be determined based on the total realisable fee in the respective year at the percentage to be arrived at by increasing the percentage of premium in the respective year by an additional 1% as compared to the immediately preceding year.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	123.16

Period	Toll revenue (₹ in millions)
November 2024	136.57

Land

The NHAI owns the land that underlies the Palsit – Dankuni NH-19 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

11. Hyderabad ORR Project

On May 26, 2023, IRB GEPL and the Sponsor entered into a concession agreement with the HMDA and HGCL in respect of the Hyderabad ORR Project. IRB GEPL was engaged to implement the tolling, operation, maintenance and management of Nehru Outer Ring Road (from Km 0+000 to Km 158+000) in Hyderabad, Telangana on a toll-operate-transfer basis. The concession period for the project commenced on August 12, 2023 and collection of toll commenced on August 12, 2023.

Corridor description

The Nehru Outer Ring Road is approx. 158 km, 8-lanes ring road expressway encircling Hyderabad, Telangana and provides fast connectivity to various radial state and national highways connecting to Mumbai, Nagpur, Karimnagar, Warangal, Suryapet, Vijayawada, Bengaluru. The expressway is fenced and 33 radial roads connect it with the Inner Ring Road. A large part, 124 km (covering urban nodes viz., Hi-Tech city, Nanakramguda Financial District, Rajiv Gandhi International Airport, IKP Knowledge park, Hardware Park, Telangana State Police Academy, Singapore Financial District, and Games village) of the 158-km was opened by December 2012. Rest of the length of Outer Ring Road was opened to traffic in year 2015-16

According to Traffic Reports, Outer Ring Road is one of the most important infrastructural developments which has complimented growth of Hyderabad as major metro of India. On eastern side it has provided express connectivity to major commercial and upscale residential centres and as a result, large number of residential and commercial projects have come up on this north-east part of Outer Ring Road. On north and western side it connects to Shamirpet and Genome Valley.

It provides fast connectivity to all part of Hyderabad Metropolitan Area. This project has also helped in reducing the travel time from Rajiv Gandhi International Airport to cities like Nizamabad and Adilabad.

Concession period and revenue sharing arrangement

The HMDA has granted IRB GEPL a concession for a period of 30 years commencing from the appointed date for the project. The concession period commenced on August 12, 2023 and is expected to expire on August 11, 2053. IRB GEPL began collecting toll with respect to this project on August 12, 2023.

The concession agreement provides that if the average of the actual toll revenue collected by IRB GEPL over certain specified time periods falls short of or exceeds the target revenue for such periods (being ₹1,731.80 million and ₹4,482.5 million, respectively) by more than 20% or 30%, then for every 1% shortfall or increase as compared to the target revenue, the concession period shall be increased by 1.5% or decreased by 0.75% thereof, subject to the limits specified in the concession agreement. The concession agreement also states that in the event that the HMDA requires IRB GEPL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

In consideration of the grant of concession, IRB GEPL is required to pay the HMDA a concession fee of ₹73,800 million.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	670.23
November 2024	659.33

Land

The HMDA owns the land that underlies the Nehru Outer Ring Road Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

12. Samakhiyali – Santalpur NH-27 Project

On May 12, 2023, the NHAI and STPL entered into a concession agreement in respect of the Samakhiyali - Santalpur NH-27 Project. STPL was engaged for upgradation to six lane with paved shoulder of NH-27 from

Samakhiyali to Santalpur section from KM 339+200 to KM 430+100 in the state of Gujarat to be executed on a design, build, finance, operate and transfer basis, for a period of 20 years, from December 28, 2023.

Corridor description

Samakhiyali – Santalpur is approximately 90.90 km long 4-lane National Highway Section on NH-27 in the state of Gujarat. NH-27 which is basically east west connector of country.

The project stretch from is gateway link for both the ports of Mundra and Kandla and also of Saurashtra region. The stretch is having combined traffic of NH-27 which is coming from Palanpur / Radhanpur Abu Road and northern link from north Indian states via NH-68 and small section of SH-127 from Suigaon to Sidhadha on project highway. On north of project stretch lies great Rann of Kutch which is emerging as important tourist destination of area.

Concession period and revenue sharing arrangement

The NHAI granted STPL a concession for a period of 20 years for this project. The concession period commenced on December 28, 2023 and is expected to expire on December 27, 2043. STPL began collecting toll with respect to this project on December 28, 2023.

The concession agreement provides that in the event actual average traffic falls short of the target traffic by more than 5% (five percent), then for every 1% (one percent) shortfall as compared to the target traffic, the cconcession period will be, subject to payment of concession fee and additional concession fee in accordance with the concession agreement, be increased by 1% (one percent) thereof; provided that such increase in concession period shall not in any case exceed 20% (twenty percent) of the concession period. In the event actual average traffic exceeds the target traffic by more than 5% (five percent), then for every 1% (one percent) increase as compared to the target traffic, the concession period shall be reduced by 1% (one percent) thereof; provided that such reduction in concession period shall not in any case exceed 20% (twenty percent) of the concession period. In the event the average daily traffic of PCUs in any accounting year exceeds the designed capacity of the project highway, an indirect political event under the concession agreement will be deemed to have occurred and the NHAI may, at its discretion, terminate the concession agreement. If STPL completes the construction works necessary for augmenting the capacity of the project highway such that its capacity has increased sufficiently for carrying the then current traffic in accordance with the corresponding provisions of the relevant Indian Roads Congress publication, prior to the issue of a termination notice by the NHAI, the indirect political event will deemed to have been cured.

For this project, the target dates are expected to be October 1, 2028, October 1, 2033 and October 1, 2038. The target traffic on these dates is expected to be 58,741 PCUs, 74,971 PCUs and 95,681 PCUs, respectively, and the actual average traffic will be derived based on the procedures prescribed by the NHAI in accordance with the concession agreement.

In consideration of the grant of concession, STPL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum. Additionally, immediately after the first anniversary of the project completion date, a premium in the form of an additional concession fee for every year of the remaining concession period is payable by STPL. The premium to be paid for the second year after the project completion date is equal to 42.84% of the realisable fee and is required to be paid by STPL as due to the NHAI during that year. For subsequent years, the premium will be determined based on the total realisable fee in the respective year at the percentage to be arrived at by increasing the percentage of premium in the respective year by an additional 1% as compared to the immediately preceding year.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	126.80
November 2024	119.81

Land

The NHAI owns the land that underlies the Samakhiyali - Santalpur NH-27 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

13. Lalitpur-Sagar-Lakhnadon NH-44 Project

On November 24, 2023, the NHAI and IRB LTPL entered into a concession agreement in respect of the Lalitpur – Sagar – Lakhnadon NH-44 Project. IRB LTPL was engaged for the tolling, operation, management, maintenance and transfer of four lane Lalitpur-Sagar-Lakhnadon section of NH-44 (from Km 99.005 to Km 415.089) in Uttar Pradesh and Madhya Pradesh to be executed on a toll-operate-transfer basis, for a period of 20 years, from the appointed date under the concession agreement.

Corridor description

Lalitpur – Sagar – Lakhnadon Project is a section of NH-44, which is the longest National Highway in the country, running through North, Central and South India. It starts from Jammu & Kashmir and passes through the states of Punjab, Haryana, Delhi, Uttar Pradesh, Rajasthan, Madhya Pradesh, Maharashtra, Telangana, Andhra Pradesh, Karnataka and Tamil Nadu.

The project stretch under this study starts from km 99.005 of NH-44 at Lalitpur in the state of Uttar Pradesh and ends at km 415.089 of NH-44 at Lakhnadon in the state of Madhya Pradesh. The length of project stretch is 316.084 km and has 4-lane configuration with four number of toll plazas.

Concession period and revenue sharing arrangement

The NHAI granted IRB LTPL a concession for a period of 20 years for this project. The concession period for the project shall commence from the appointed date under the concession agreement.

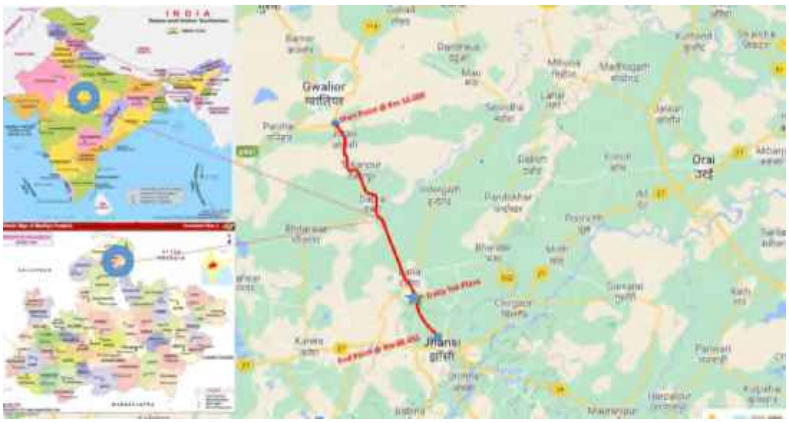
The concession agreement provides that if the average of the actual toll revenue collected by IRB LTPL over certain specified time periods ("**Target Points**") falls short of or exceeds the target revenue for such periods (being ₹700.20 million and ₹1,225.10 million, respectively) by more than 20% or 30%, then for every 1% shortfall or increase as compared to the target revenue, the concession period shall be increased by 1.5% or decreased by 0.75% thereof, subject to the limits specified in the concession agreement. The concession agreement also states that in the event that the NHAI requires IRB LTPL to undertake capacity augmentation, there will be no modification in the Target Points under the concession agreement.

In consideration of the grant of concession, IRB LTPL shall pay to the NHAI in accordance with terms of the concession agreement and prior to the appointed date, a lumpsum upfront concession fee of an amount equivalent to ₹44.28 billion.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	359.61
November 2024	332.49



Land

The NHAI owns the land that underlies the Lalitpur – Sagar – Lakhnadon NH-44 Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

14. Gwalior-Jhansi (NH-44) Project

On January 12, 2024, the NHAI and IRB GTPL entered into a concession agreement in respect of the IRB GTPL Project. GTPL was engaged for the tolling, operation, management, maintenance and transfer of the Gwalior-Jhansi section from km 0.00 (revised km 16.00) to km 103.00 (revised km 98.455) of NH-75 (New NH-44) in the Madhya Pradesh and Uttar Pradesh to be executed on a toll-operate-transfer basis, for a period of 20 years, from the appointed date under the concession agreement.

Corridor description

Gwalior – Jhansi (NH-44) Project is a section of NH-44, which is the longest National Highway in the country, running through North, Central and South India. A major part of the project section from Gwalior to Jhansi Road lies in Gwalior and Datia district of Madhya Pradesh followed by Jhansi district. The major towns along the project corridor are Gwalior, Tekampur, Dabra, Datia and Jhansi.

The project stretch starts from km 16.000 of NH-44 at Gwalior in the state of Madhya Pradesh and ends at km 98.455 of NH-44 at Jhansi in the state of Uttar Pradesh.

Concession period and revenue sharing arrangement

The NHAI granted IRB GTPL a concession for a period of 20 years for this project. The concession period for the project shall commence from the appointed dated under the concession agreement.

The concession agreement provides that if the average of the actual toll revenue collected by IRB GTPL over certain specified time periods ("**Target Points**") falls short of or exceeds the target revenue for such periods (being ₹170.90 million in the month of March 2031 and ₹306.80 million in the month of March 2038, respectively)

by more than 20% or 30%, then for every 1% shortfall or increase as compared to the target revenue, the concession period shall be increased by 1.5% or decreased by 0.75% thereof, subject to the limits specified in the concession agreement. The concession agreement also states that in the event that the NHAI requires IRB GTPL to undertake capacity augmentation, there will be no modification in the Target Points under the concession agreement.

In consideration of the grant of concession, IRB GTPL shall pay to the NHAI in accordance with terms of the concession agreement and prior to the appointed date, a lumpsum upfront concession fee of an amount equivalent to ₹11.61 billion.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	109.43
November 2024	103.58

Land

The NHAI owns the land that underlies the IRB GTPL Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

15. Kota Bypass and Cable Stay Bridge (NH-76) (new NH-27)Project

On January 12, 2024, the NHAI and IRB KTPL entered into a concession agreement in respect of the IRB KTPL Project. IRB KTPL was engaged for the tolling, operation, management, maintenance and transfer of the Kota Bypass and Cable Stay Bridge on NH-76 (new NH-27) in Rajasthan to be executed on a toll-operate-transfer basis, for a period of 20 years, from the appointed date under the concession agreement.

Corridor description

The Kota Bypass section is located on NH-27 and includes a Cable-Stayed Bridge on the Chambal River in the State of Rajasthan. Kota Bypass is part of NH-27 which is major East – West connectivity in India. The most of the traffic on Kota Bypass is either local in nature or is part of East – West connectivity corridor. Gwalior, Chittorgarh, Jhalawar, Bhilwara areas have major influence on project traffic.

Concession period and revenue sharing arrangement

The NHAI granted IRB KTPL a concession for a period of 20 years for this project. The concession period for the project shall commence from the appointed dated under the concession agreement.

The concession agreement provides that if the average of the actual toll revenue collected by IRB KTPL over certain specified time periods ("**Target Points**") falls short of or exceeds the target revenue for such periods (being ₹91.10 million in the month of March 2031 and ₹168.10 million in the month of March 2028, respectively) by more than 20% or 30%, then for every 1% shortfall or increase as compared to the target revenue, the concession period shall be increased by 1.5% or decreased by 0.75% thereof, subject to the limits specified in the concession agreement. The concession agreement also states that in the event that the NHAI requires IRB KTPL to undertake capacity augmentation, there will be no modification in the Target Points under the concession agreement.

In consideration of the grant of concession, IRB KTPL shall pay to the NHAI in accordance with terms of the concession agreement and prior to the appointed date, a lumpsum upfront concession fee of an amount equivalent to ₹5.22 billion.

Monthly toll revenue

The following table sets out the gross monthly toll revenues received from the project for the period indicated:

Period	Toll revenue (₹ in millions)
October 2024	70.51
November 2024	67.74

Land

The NHAI owns the land that underlies the IRB KTPL Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

Details of the Target SPV

MBEL is the concessionaire for the development of access controlled six-lane (expandable to eight-lane) greenfield 'Ganga Expressway' from Bijoli, Meerut to Nagla Barah, Budaun from Km 7.900 to Km 137.600 (total design length 129.700 Km) in the state of Uttar Pradesh on design-build-finance-operate-transfer (toll) basis. See "*Government and Other Approvals*" on page 830 for information about the status of approvals and "*Risk Factors*" on page 16 for a discussion of risks in relation, *inter-alia*, the proposed acquisition of the project.

See "*Summary of Concession Agreements*" on page 168 for a summary of the key terms of the concession agreement entered into by MBEL and UPEDIA.

Certain details in relation to MBEL are set out below:

Target SPV	Project	Proposed ownership of Project by the Trust	Lane km	Commencement of Concession Period	Commencement of Toll Collection	End of Concession Period	Concession Period (years)	Percentage of construction completion as at September 30, 2024 (in %)	Expected Completion
MBEL	Meerut-Budaun Expressway Project	80.40%	778	October 12, 2022	-	October 11, 2052	30	68.16*	Financial Year 2026

**As of the date of this Letter of Offer, MBEL has achieved completion of at least 50% of the construction of the project, as certified by an independent engineer of the project, and is eligible to be held by the Trust.*

A summary of the key features of the road asset is discussed below.

Ganga Expressway Project

On January 6, 2022, MBEL has entered into a concession agreement for the development of access controlled six-lane (expandable to eight-lane) greenfield 'Ganga Expressway' from Bijoli, Meerut to Nagla Barah, Budaun from Km 7.900 to Km 137.600 (total design length 129.700 Km) in the state of Uttar Pradesh on design-build-finance-operate-transfer (toll) basis under public-private partnership (the "**MBEL Concession Agreement**"), for a period of 30 years, from October 12, 2022.

Corridor description

The Government of Uttar Pradesh had entrusted Uttar Pradesh Expressways Industrial Development Authority (UPEIDA) to develop a six lane access controlled expressway extendable to eight lane from Meerut to Prayagraj under Design Build Finance Operate and Transfer (DBFOT) mode. The total length of project corridor is approximately 594 km. The project corridor starts from Meerut and ends at Parayagraj passing through the districts of Meerut, Hapur, Bulandshahr, Amroha, Sambhal, Budaun, Shahjahapur, Hardoi, Unnao, Raebarelli, Pratapgarh and Prayagraj. Old NH-24, NH-19, NH-34, Yammuna-Expressway and Agra Lucknow Expressway and NH-34 are important parallel roads to the project corridor. The project corridor shortens the distance between Merrut to Prayagraj by 74 Km from Old NH-24 and 120 km from NH-19.

Concession period and revenue sharing arrangement

The UPEIDA has granted MBEL a concession for period of 30 years commencing from October 12, 2022. As of the date of this Letter of Offer, MBEL has not commenced toll collection with respect to this project.

The concession agreement provides that, in the event actual average traffic shall have fallen short of the target traffic by more than 5% (five percent), then for every 1% (one percent) shortfall as compared to the target traffic, the concession period shall, subject to payment of concession fee and additional concession fee in accordance with the concession agreement, be increased by 1% (one percent) thereof; provided that such increase in the concession period shall not in any case exceed 20% (twenty percent) of the concession period. Further, in the event actual average traffic shall have exceeded the target traffic by more than 5% (five percent), then for every 1% (one percent) increase as compared to the target traffic, the concession period shall be reduced by 1% (one percent) thereof; provided that such reduction in concession period shall not in any case exceed 20% (twenty percent) of the concession period.

Notwithstanding anything to the contrary contained in the concession agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the project expressway, an indirect political

event under the concession agreement will be deemed to have occurred and the UPEIDA may, at its discretion, terminate the concession agreement. If MBEL has completed the construction works necessary for augmenting the capacity of the project expressway such that its capacity has increased sufficiently for carrying the then current traffic in accordance with the corresponding provisions of the relevant Indian Roads Congress publication, prior to the issue of a termination notice by the UPEIDA, the indirect political event will deemed to have been cured.

For this project, the target dates are expected to be April 1, 2025, April 1, 2030, April 1, 2035, April 1, 2040, April 1, 2045 and April 1, 2050. The target traffic on these dates is expected to be 25,719 PCUs, 40,759 PCUs, 61,199 PCUs, 87,256 PCUs, 118,274 PCUs and 148,644 PCUs, respectively, and the actual average traffic will be derived based on the procedures prescribed by the UPEIDA in accordance with the concession agreement.

In consideration of the grant of concession, MBEL shall pay to the UPEIDA by way of concession fee a sum of ₹1 per annum.

Land

The UPEIDA owns the land that underlies the Ganga Expressway Project.

Monthly toll revenue

As of the date of this Letter of Offer, MBEL has not received the commercial operations date for its project. Accordingly, the toll revenue of MBEL is nil.

Structure of ownership of the project

For information about the proposed structure of ownership of the project by the Trust, see "*Background and Structure of the Trust*" on page 93.

Operation and Maintenance Services

Our key business activity is the development, operation and maintenance of the Current Portfolio and the Expanded Portfolio pursuant to, and in accordance with, the provisions of the concession and other road project related agreements (as applicable). The Project SPVs and the Target SPV are required to operate and maintain their respective assets in accordance with the relevant concession agreement, including by modifying, repairing or otherwise making improvements to the road. In particular, each of the concession agreements requires the Project SPVs and the Target SPV to maintain their respective assets to certain standards during the concession period. The concessioning authorities have used, and will likely continue to use, independent engineers to carry out periodic tests to assess the quality of the roads or bridges and their related maintenance.

The Project Manager manages the critical day-to-day operation and maintenance of the Current Portfolio and the Expanded Portfolio. The Project Manager, through the relevant Project Implementation Agreement, provides project and contract management support, such as liaising with and supervising sub-contractors, managing design and planning and obtaining necessary licenses and approvals for the projects.

A Project SPV or the Target SPV is generally responsible for carrying out operation and maintenance activities at its toll road during its concession period. The scope of a Project SPV's or the Target SPV's operation and maintenance activities is usually defined in the relevant concession agreement. Within the scope of such operation and maintenance obligations, the Project SPV or the Target SPV may be required to undertake routine and periodic maintenance of project roads, maintain and comply with safety standards to ensure smooth and safe traffic movement, deploy adequate human resources for incident management, maintain proper medical and sanitary arrangements for personnel deployed at the site, prevent any unauthorized entry to and exit from the project as may be required. The activities of the Project SPVs or the Target SPV are undertaken by the Project Manager pursuant to the Project Implementation Agreements.

A computerised maintenance management system is used to ensure that all maintenance is systematically and correctly scheduled, carried out and recorded. In addition, it is used to assure planning, control and monitoring of each maintenance activity. Maintenance methodologies and system performance are regularly reviewed and examined for optimisation of resource deployment.

Operations

Toll collection system

Toll is collected for each journey through each of the toll plazas. Signs setting out the toll rates are displayed at the toll booths and tolls can be paid or tendered by the driver of any vehicle in the following manner:

Cash

Tolls paid by means of cash are collected by toll collectors at the manual toll booths.

Electronic toll collection

The Project SPVs make use of technology for the operation of the projects which helps in improving operational efficiency and ensuring transparency in the process of toll collection, including through electronic toll collection system based on radio-frequency identification technology, which was implemented in the projects. Further, the Project SPVs use weight based tolling systems with the help of devices that are designed to capture and record axle weights and gross vehicle weights as vehicles drive over a measurement device fitted in each lane.

Monitoring

Toll collection

Payments at the toll plazas, both electronic as well as cash payments are processed through a semi-automated or a fully-automated toll collection system, depending on complexity of the project. Both these systems collect and store traffic and payment data, thereby reducing the need for manual operation. A semi-automated system consists of revenue collection software desktop, barrier gate, smart cards and monitoring cameras and a fully automated system includes equipment such as vehicle counting classifier, vehicle audit system, communication channels and traffic control equipment in addition to all the components of a semi-automated system.

For the purpose of identifying categories of vehicles and to charge an appropriate toll rate, the automatic vehicle identification based in-road/infrared sensors are also used. The Project SPVs or the Target SPV also use/will use weigh-in-motion technology for projects where weight based toll collection is mandated. The weight based tolling systems are integrated with the fully automatic toll collection system for enhanced revenue controls.

There are cameras installed particularly for capturing and recording any toll evasion incidents by vehicles. There is also a back-up power supply system to ensure that there is no interruption to power supply at the toll plazas in order to maintain a stable power supply for the sub-systems and equipment. Servers used in the toll collection systems at the toll plazas are capable of real time uploading of transaction data from toll lane equipment and performing an automatic daily backup to prevent any toll data loss and to enable quick system recovery, which allows the Project SPVs to collect variable amounts of tolls depending on the class of motor vehicles and serves as a traffic information system.

Only certain authorized persons have access to the toll collection systems and the activities are recorded for security purposes. The Project Manager is responsible for operating the toll collection system at the toll plazas of the Project SPVs (and will be responsible for the Target SPV) and taking regular preventive and corrective measures to maintain such systems at the highest levels of security and reliability.

We have set up a centralized control room ("**Control Room**") at our office in Mumbai that consolidates cameras at the toll plazas to enable video based monitoring of the toll operations throughout the day.

Traffic control

There is an emergency telephone system to provide a reliable communication channel for the drivers in cases of emergency where they need to communicate with staff at the Control Room. Emergency telephone systems and emergency helpline numbers are provided at all projects where such systems and numbers are required by the relevant concession agreement. There are also patrol vehicles that patrol an assigned section of the relevant project for regulating traffic and undertaking surveillance activities.

Safety Measures

Under the terms of the concession agreements, concessionaires are required to ensure certain safety requirements, which include measures such as road signs, pavement marking, traffic control devices, roadside furniture, highway design elements, enforcement and emergency response. The concessionaires are bound by, *inter-alia*, applicable law and applicable permits, the Manual for Safety in Road Design as issued by MoRTH, relevant standards and guidelines of the Indian Roads Congress and good industry practice. The concessionaires also carry out safety audits of the projects from time to time, by appointing a safety consultant, which is comprised of, among others, one road safety expert and one traffic planner. These safety requirements apply to all phases of construction, operation and maintenance with emphasis on identification of factors associated with accidents and implementation of appropriate remedial measures.

Management

We are managed by qualified personnel of the Investment Manager, all of whom have management and operational experience in the roads and highways sector. The board of directors of the Investment Manager has also constituted committees required under the InvIT Regulations.

The Investment Manager, in consultation with the Trustee, has appointed the directors on the board of each Project SPV in accordance with the InvIT Regulations. Each Project SPV's board of directors has also formed committees as may be required under the Companies Act, 2013 and rules made thereunder. Upon the completion of the MBEL Acquisition, the Investment Manager, in consultation with the Trustee, will designate the existing directors as nominee directors of the Trust on the board of MBEL.

For further details about the Investment Manager, see "*The Investment Manager*" on page 331.

Various financing agreements that the Project SPVs have entered into with certain banks and financial institutions contain certain restrictive covenants, including, but not limited to, requirements that they obtain consent from the lenders prior to changing the composition of any board of directors of any Project SPV. For more details, see "*Risk Factors – The Project SPVs are subject to restrictive covenants under their financing agreements that could limit our flexibility in managing our business or to use cash or other assets*" on page 34.

Seasonality

Traffic volume tends to decrease during the monsoon season and conversely tends to increase during holiday seasons. While the northern parts of India experience monsoon rains during the period from June or July until September or October every year, the southern parts of India, especially Tamil Nadu and some parts of coastal Andhra Pradesh, experience monsoon rains even during the months of October to December. The monsoon season may also restrict the ability to carry on activities related to operation and maintenance of toll roads. For further details on risk associated with seasonality, see "*Risk Factors – Our business will be subject to seasonal fluctuations that may affect our cash flows*" on page 29. Conversely, traffic volume tends to increase during holiday seasons.

Health, Safety and Environment

The Investment Manager and Project Manager believe that the Trust and the Project SPVs are in compliance, in all material respects, with applicable health, safety and environmental regulations and other requirements in their operations. The Project Manager believes that accidents and occupational health hazards can be significantly reduced through a systematic analysis and control of risks and by providing appropriate training to management, employees and sub-contractors. Project managers appointed by the Project SPVs, as applicable, for a project are principally responsible for ensuring that safety standards are met at the relevant project sites.

Intellectual Property

We do not own the "IRB" trademark and "IRB" logo, which are registered in the name of, and owned by, the Sponsor. However, pursuant to a separate name licensing agreement, as amended, the Sponsor has granted to the Trust, each of the Project SPVs and the Investment Manager, the non-transferable and non-assignable right to use the "IRB" trademark as part of their respective corporate names, if applicable, as well as the "IRB" logo in connection with their respective businesses, on a non-exclusive basis. The license may be terminated under certain circumstances, including (i) if the Sponsor or any of its subsidiaries ceases to be the sponsor of the Trust for any

reason whatsoever; or (ii) if the Sponsor or any of its subsidiaries ceases to hold at least 51% of the equity share capital of the Investment Manager, or an entity which is not a subsidiary of the Sponsor is appointed as the investment manager of the Trust. Upon the termination of the license, the Trust or the relevant Project SPV, as the case may be, will be required to cease the use of the IRB trademark and change its name to remove IRB from its name within three months from the date of termination, which may have a material adverse effect on the operations of the Project SPVs and require management's time and attention. Pursuant to an amendment agreement, which will be effective from the date of closing under the MBEL Securities Purchase Agreement, Target SPV, MBEL, has been made parties to the Name Licensing Agreement.

See also "*Risk Factors – We do not own the 'IRB' trademark and logo. Our license to use the 'IRB' trademark and logo may be terminated under certain circumstances and our ability to use the trademark and logo may be impaired*" on page 33.

Property

The Investment Manager's registered office is located in Mumbai from which all its administrative and reporting activities are conducted. The principal place of business of the Trust is located in Mumbai. The Investment Manager and the Trust also have an office located in New Delhi. The Project SPVs typically lease various premises across India to facilitate their work at their project sites. These leases usually expire upon completion of the relevant project.

Insurance

The Project SPVs' and the Target SPV's operations are subject to hazards inherent in providing operation and maintenance services, such as risk of equipment failure, work accidents, fire, earthquake, flood and other force majeure events. This includes hazards that may cause injury and loss of life, damage and destruction of property, equipment and environmental damage. The principal types of insurance coverage for the Expanded Portfolio include standard fire and special perils insurance, contractor all-risk insurance and money insurance. The Investment Manager also maintains management liability insurance. The Investment Manager and the Trustee confirm that the amount of insurance that we presently maintain represents an adequate and appropriate level of coverage required to insure the Project SPVs' business and operations and all the infrastructure assets held by the Project SPVs, and is in accordance with the concession agreements and industry standards in India and will perform regular assessment on the adequacy of its insurance coverage on a yearly basis. The Investment Manager and the Trustee confirm that the amount of insurance that MBEL presently maintains represents an adequate and appropriate level of coverage required to insure MBEL's business and operations and all the infrastructure assets held by MBEL, and is in accordance with the concession agreements and industry standards in India and will perform regular assessment on the adequacy of its insurance coverage on a yearly basis.

Legal Proceedings

The Project SPVs, the Target SPV, the Sponsor, the Investment Manager, the Project Manager and the Trustee are or may be involved in legal proceedings or claims from time to time. Certain proceedings or claims are currently pending at different levels of adjudication before various courts, tribunals and regulatory authorities. For a description of the material legal proceedings that are outstanding, see "*Material Litigation and Regulatory Action*" on page 806.

CORPORATE GOVERNANCE

Set out below is a summary of the corporate governance framework which is applicable in relation to the Trust, the Investment Manager and the Project SPVs and upon completion of the MBEL Acquisition, will also be applicable to MBEL.

Composition of the Board of Directors of the Investment Manager

As at the date of this Letter of Offer, the Sponsor holds 51% of the equity share capital of the Investment Manager, Croxley holds approximately 25% of the equity share capital of the Investment Manager and the Cintra IM Investor holds approximately 24% of the equity share capital of the Investment Manager. For details of the current board of directors of the Investment Manager (the "**Board**"), see "*The Investment Manager*" on page 331.

The Sponsor, Croxley and the Investment Manager have entered into a shareholders agreement dated August 6, 2019, as amended (the "**IM SHA").** Pursuant to an amendment agreement dated March 14, 2024, Cintra IM Investor has become a party to the IM SHA. For details of the rights in relation to shareholding and certain other rights of Croxley and Cintra IM Investor in the Investment Manager, see "*The Investment Manager"* on page 331.

The Board shall consist of eight directors in accordance with the terms of the IM SHA. The current composition of the Board is as follows:

(a) the Sponsor is entitled to nominate two (2) directors on the Board (the "**Sponsor Directors**");

(b) Croxley is entitled to nominate one (1) director on the Board (the "**Croxley Director**");

(c) Cintra IM Investor is entitled to nominate one (1) director on the Board ("**Cintra Director**") (The Croxley Director and Cintra Director are individually referred to as the "**Investor Director**" and collectively, the ("**Investor Directors**"));

(d) Cintra IM Investor is entitled to recommend for appointment one (1) Independent Director;

(e) Croxley is entitled to recommend for appointment one (1) Independent Director; and

(f) the Sponsor is entitled to recommend for appointment two (2) Independent Directors, one of whom shall always be a woman Independent Director if there is no other woman Director serving on the Board.

Under the IM SHA, an alternate director may be appointed to act as an alternate to the Sponsor Directors or Investor Directors during such director's absence for a period of at least three months from India, in accordance with the Companies Act.

The Investment Manager will reimburse the Board for all actual travel and accommodation expenses incurred by them or their alternate directors in connection with the performance of their duties as directors of the Investment Manager in accordance with the IM SHA. The directors will be entitled to sitting fees or any other remuneration for attending meetings as mutually agreed in writing by the parties.

In addition to the right to nominate directors on the Board, the Sponsor, Cintra IM Investor and Croxley are entitled to appoint one observer on the Board and/or the committees of the Board.

Chairperson

The chairperson of the Board will be a Sponsor Director unless an Event of Default has occurred.

Quorum

Subject to the provisions of the InvIT Regulations and other applicable law, the quorum for every meeting of the Board shall be one-third of its total strength or three directors, whichever is higher, including at least one independent director (including any meetings held by video-conferencing or by other audio-visual means).

If quorum is not present within 30 (thirty) minutes of the scheduled time for any meeting of the Board or ceases to exist at any time during such meeting, the meeting of the Board will be automatically adjourned and be reconvened on the same day in the following week, time and place and if such day is not a Business Day, then the

immediately following Business Day. At any such adjourned meeting, the presence of at three directors shall be required to constitute the quorum; provided that no reserved matters will be taken up for discussion or voted upon at any board meeting (including any adjourned board meeting) unless the Croxley Director, the Cintra Director and at least one IRB Director are present in such meeting, or if prior written consent in respect of such reserved matters has been obtained in accordance with the IM SHA. No matters which were not part of the agenda for the original board meeting will be discussed at such adjourned meeting. Subject to the terms of the IM SHA, each of the Investor Directors and the Sponsor Directors may at any time waive their respective right to form part of the quorum for a particular board meeting, in writing, and at any such board meeting, no new matters other than those forming part of the agenda for such board meeting will be discussed or taken up.

Frequency of meetings

The Board will meet at least four times a year and once every 120 days, or at such other frequency of intervals as may be prescribed under the InvIT Regulations and other applicable law, at any location mutually agreed between the Sponsor Directors and the Investor Directors.

Committees

The Investment Manager has constituted (i) an audit committee; (ii) a capex monitoring committee; (iii) a health and safety monitoring committee; (iv) nomination and remuneration committee; (v) stakeholders relationship committee; (vi) risk management committee; and (vii) a prevention of sexual harassment committee, in accordance with the terms of the InvIT Regulations and other applicable law (as applicable).

Each of Croxley and Cintra IM Investor have the right to nominate an Investor Director as a member of any committee or sub-committee of the board, subject to applicable law. The Sponsor has the right to nominate a Sponsor Director as a member of any committee or sub-committee of the Board, subject to applicable law. In addition to the committees of the Board set out above, the Board may constitute committees for various functions from time to time.

Reserved Matters

In accordance with the terms of the IM SHA, the Sponsor, Cintra IM Investor and Croxley have agreed that no resolution will be passed or decision or action be taken by the Investment Manager in relation to any Manager Group Member, in any manner, including by the Board, the shareholders or otherwise in respect of any of the Reserved Matters, unless the written consent of equity shareholders holding a certain agreed percentage of the equity shareholding is obtained in the manner specified in the IM SHA, depending on whether the relevant matter is an Ordinary Reserved Matter (as specified in the IM SHA) or a Special Reserved Matter (as specified in the IM SHA). Subject to applicable law, each of the Sponsor Directors and/or each of the Investor Directors will have the right to require that any Reserved Matter be decided at a shareholder meeting instead of at a Board meeting and/or with the prior written consent of equity shareholders holding a certain agreed percentage of the equity shareholding of the Investment Manager in accordance with the terms of the IM SHA.

Under the IM SHA, any obligation on any Manager Group Member is deemed to be a simultaneous and corresponding obligation on the Sponsor to exercise its voting rights in relation to the Investment Manager to perform such obligation.

For details of the Reserved Matters, see "*Rights of Unitholders – Approval of Unitholders*" on page 322.

Directors of the SPVs

The Investment Manager, in consultation with the Trustee, has appointed the directors on the board of each Project SPV in accordance with the InvIT Regulations. Further, pursuant to the terms of the IM SHA, each of the Sponsor, Cintra IM Investor and Croxley have the right to require a director or observer on the board of directors of any SPV as a representative of the Investment Manager.

Upon completion of the MBEL Acquisition, the Investment Manager will designate nominee directors on the board of directors of the Target SPV in accordance with the InvIT Regulations.

Fall-Away

All rights of the Sponsor, Cintra IM Investor and Croxley under the IM SHA other than the economic and voting rights attached to their equity shares held by them under applicable law and other rights available to the Sponsor, Cintra IM Investor and Croxley under applicable law, shall terminate with respect to such party upon such party's (together with its affiliates') shareholding in the Investment Manager (calculated on a fully diluted basis) falling below 12.5% of the share capital of the Investment Manager or upon such party's unitholding in the Trust falling below 12.5% of the total issued and outstanding unitholding of the Trust.

Policies of the Manager Group

Pursuant to the terms of the IMA SHA, the Investment Manager (on behalf of itself and the Trust), each of the Project SPVs are required to adopt certain policies for corporate governance, key terms of which are set out below. Each Manager Group Member is required to ensure that these policies remain in full force and effect and consider amendments in accordance with the terms of the Framework Agreement. Mr. Kaustubh Shevade has been designated by the Investment Manager as the Compliance Officer with respect to the Trust.

Code of Conduct

The Code of Conduct serves as a basis for maintaining the standards of honest and ethical business conduct including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships, ensuring confidentiality of corporate information and data of the Manager Group, the Sponsor/Project Manager, and the Trustee (together the "**Trust Entities**") and compliance with the applicable laws and the InvIT Regulations. The key terms of the Code of Conduct include *inter-alia*:

(i) Duties must be carried out in an honest, fair, diligent and ethical manner within the scope of the authority conferred and in accordance with applicable laws, rules, regulations, agreements, guidelines, standards, and internal policies and procedures.

(ii) Assets, properties, and human resources of the Manager Group Members are to be used only for the official business of the Trust Entities, and the security of all confidential information must be ensured.

(iii) The Trust Entities must not, and ensure that their employees do not engage in any business activity that conflicts with the interest of a Manager Group Member.

(iv) The Trust and the parties to the Trust must conduct all affairs in the interest of the unitholders of the InvIT, and they shall make adequate, accurate, explicit and timely disclosure of relevant material information to all unit holders, exchanges and the Securities and Exchange Board of India in accordance with the InvIT Regulations.

(v) The Trust, the parties to the Trust and any third party appointed by the Investment Manager shall not use any unethical means to sell, market or induce any person to buy units of the Trust and where a third party appointed by the Investment Manager fails to comply with this condition, the Investment Manager shall be held liable for the same. The Trust and the parties to the Trust shall render at all times high standards of service, exercise due diligence, ensure proper care and exercise independent professional judgment.

Disclosure of Information Policy

This policy sets out the process and procedure for determining materiality of information in relation to periodic disclosures required under applicable law, including the InvIT Regulations. The key terms of the Disclosure of Information Policy include *inter-alia*:

(i) The following information in relation to the Manager Group shall be provided to the Unitholders:

a. quarterly management accounts within 20 days from the end of each calendar month;

b. unaudited quarterly financial statements (including profit and loss accounts and a balance sheet) and management accounts for each financial quarter within 45 days from the end of such financial quarter;

c. audited annual financial statements (including profit and loss accounts and a balance sheet) for every Financial Year within 60 days of the end of such Financial Year;

d. notices, agenda and minutes of meetings of board of directors, committees of the board and shareholders of the Manager Group Member as may be requested by the unitholders;

e. copies of all agreements, business projections, reports, certificates and any material information regularly provided to any other security holder or lender (in their capacity as security holders or lenders), including any management or audit or investigative reports provided to any security holder or lender, simultaneously with such security holder or lender;

f. proposed Annual Budget for the upcoming Financial Year by March 15 of the preceding Financial Year;

g. toll collection MIS data and lenders' independent engineers' reports for each SPV on monthly basis;

h. prior intimation, to the extent practicable, regarding initiation of any criminal litigation to which the Manager Group Member is a party; and

i. prior intimation regarding initiation of any civil or administrative litigation, arbitration or other legal proceedings to which the Manager Group Member is a party and which relate to a claim amount exceeding INR 25 million.

(ii) Disclosure of information to regulators:

a. The Manager Group Member shall submit the information required to be submitted to the SEBI, the NHAI, MoRTH, the RBI, the Stock Exchanges or any other governmental, regulatory, statutory, administrative, or judicial body under applicable law, including or such further information or clarification required by any of them; and

b. The Manager Group Member shall inform the SEBI, in writing, if any information or particulars previously submitted to SEBI are found to be false or misleading in any material particular or if there is any material change in the information already submitted, in accordance with InvIT Regulations.

Distribution Policy

For details of the Distribution Policy, see "*Distributions*" on page 316.

Investment and Procurement Policy

This policy sets out the guidelines for investment in, and/or procurement of the assets by the Trust. The key principles of investment in eligible project under the Procurement and Divestment Policy include, *inter-alia*:

(i) The Investment Manager is empowered to make all investment decisions with respect to the underlying assets or projects of the Trust, including, without limitation, investigation, selection, development, negotiation, structuring, restructuring, commitment to or monitoring and any further investment or divestment of the underlying assets or projects of the Trust.

(ii) Any decision for investment in, or procurement of assets by the Trust must be made in accordance with this policy and the terms of the Framework Agreement and the IM SHA.

(iii) The eligible projects meetings the minimum extended internal rate of retun threshold, traffic assumptions and other applicable conditions stipulated in this policy are to be implemented by the Trust in the manner specified therein. The concessioning authority for such eligible projects shall be NHAI and projects awarded by other concessioning authorities may be implemented by the Trust subject to mutual agreement of IRB and the Financial Investors.

(iv) If IRB, the Financial Investors are not colletively implementing an eligible project through the Trust, then

either IRB and the GIC Financial Investors or IRB and Cintra InvIT Investor shall be entitiled to proceed with the implmentation of such project, without participation of the other group of Financial Investors, subject to and in the manner set out in the Framework Agreement and this policy.

Leverage Policy

For details of the Leverage Policy, see "*Leverage*" on page 294.

Nomination and Remuneration Policy

This policy sets out the guidelines regarding the nomination, remuneration and removal of directors, key managerial personnel and employees of the Manager Group. The key terms of the Nomination and Remuneration Policy include, *inter-alia*:

(i) The board of directors of the Manager Group Members shall, as applicable, have the required number of independent directors in terms of the applicable law, including the Companies Act.

(ii) The board of directors of each of the Manager Group Members, is, as applicable, expected to possess the required expertise, skill and experience to effectively manage and direct the Manager Group Members to attain its organizational and business goals. They are expected to be persons with vision, leadership qualities, and proven competence and integrity.

(iii) Each member of the board of directors of the Manager Group Members, as applicable, shall ensure that their personal interest does not run in conflict with the any of the Manager Group Member's interests.

(iv) The annual performance and remuneration review of the employees of the Manager Group Members shall be done once every year. The review of remuneration will be undertaken on the basis of the following criteria:
   a. Performance of the employee;
   b. Performance of the team to which such employee belongs;
   c. Overall performance of the Manager Group Member; and
   d. Prevailing business environment and requirement of manpower for future projects.

Additionally, the following terms will be applicable to the Investment Manager:

a. The board of directors shall constitute a capex monitoring committee, a health and safety monitoring committee, an audit committee and all such other committees of the board of directors as are required to be constituted by the Investment Manager under applicable law.

b. The board of directors shall appoint and designate such key managerial personnel as are required under applicable law, including a Chief Executive Officer, a Chief Financial Officer and a Company Secretary of the Investment Manager. These key managerial persons shall be jointly nominated by the Sponsor and Croxley, and appointed by the board of directors.

Record Retention Policy

The policy sets out the guidelines for the identification of documents and records which are required to be preserved, storage, maintenance and preservation of documents and records of the Manager Group and protection and preservation of all the necessary documents and records as per the statutory requirements. The key terms of the Record Retention Policy include, *inter-alia*:

(i) The policy applies to all the documents required to be maintained in terms of the InvIT Regulations, the applicable secretarial standards, and any other applicable law which shall be preserved under the custody of the compliance officer of the respective Manager Group Members. It also applies to all financial records required to be maintained in terms of the InvIT Regulations, the prescribed accounting standards, the Income Tax Act, 1961, and any other applicable law which shall be maintained under the custody of the chief financial officer of the respective Manager Group Member.

(ii) All documents which are required to be preserved by virtue of applicable laws shall be preserved either permanently or for such periods as may be mandated by applicable laws from time to time.

(iii) Documents which are required to be preserved for a period of not less than eight years after the completion of the relevant transaction shall be determined by the relevant heads of departments of the Manager Group Member from time to time.

(iv) Documents shall be preserved in a chronological manner for each financial year.

(v) The Manager Group Members shall maintain back-up of all documents maintained in electronic form. Documents which are confidential in nature shall, wherever possible, be kept under lock and key and shall be shared on a 'need to know' basis only, with persons directly involved in the transaction involving such documents and records.

(vi) Certain documents may be required to be kept open by the Manager Group Member for inspection in the manner specified under such applicable law. Regulatory authorities, including the SEBI, have the right of access to all registers and records.

(vii) Documents which are statutorily required to be hosted on the website of any Manager Group Member shall be hosted within the prescribed timeline from the occurrence of the event.

(viii) Where documents are no longer required to be preserved, or on the expiration of the specified period of time for which they were required to be preserved, they may be discarded or disposed off in accordance with the procedure specified under the applicable law, and where no procedure has been specified, they may be discarded or disposed off in accordance with the standard operating procedures applicable to the respective departments.

In addition, the Investment Manager (on behalf of itself and the Trust) and each of the Project SPVs have also adopted, and upon completion of the MBEL Acquisition, the Target SPV will adopt, policies on corporate social responsibility, environment, health and safety, maternity benefits, equal opportunities, prohibited practices and anti-bribery and anti-corruption practices, prevention of sexual harassment and anti-harassment, personal data protection, whistle-blowing / vigil mechanism, corporate disclosures, internal procedure and insider trading, conflict of interest policy, appointment of directors, cyber matters, environmental, social and corporate governance commitments, grievance redressal, human rights, internal control, compensation in case of accident, risk management, secretarial compliance and succession policy.

SUMMARY OF THE CONCESSION AGREEMENTS

Set out below are summaries of the concession agreements entered into by the Project SPVs and the Target SPV in relation to their respective business. The descriptions and summaries of the agreements below are not and nor do they purport to be complete descriptions or summaries of all terms of such agreements. Certain terms used in this section have the meanings assigned to such terms in the respective concession agreements. Copies of these concession agreements will be made available for inspection at the office of the Trust in New Delhi. See "Material Contracts and Documents for Inspection" on page 848.

1. Concession Agreement between AETL and the NHAI dated September 1, 2015

AETL has entered into a concession agreement for six-laning of km 199.660 to km 323.525, Agra to Etawah Bypass section of NH-2 in Uttar Pradesh on build, operate and transfer ("**BOT**") basis (the "**AETL Concession Agreement**"), for a period of 24 years, from August 1, 2016 ("**AETL Appointed Date**") or until such date on which the AETL Concession Agreement is terminated by a termination notice ("**AETL Termination Date**", and the period between the AETL Appointed Date and the AETL Termination Date, the "**AETL Concession Period**").

Certain Definitions

"**AETL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principal**") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the AETL Debt Due is convertible into equity at the option of the senior lenders and/or AETL, it shall, for the purposes of the AETL Concession Agreement, be deemed to be AETL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**AETL Debt Service**" shall mean the sum of all payments on account of Principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**AETL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of AETL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the AETL Project Highway (as defined below), but does not include additional facilities;

"**AETL Project Highway**" shall mean the site comprising the existing road comprising section of six-laning of Agra-Etawah Bypass section of NH-2 from km 199.660 to km 323.525 in the State of Uttar Pradesh under NHDP Phase-V on BOT(Toll) mode and all AETL Project Assets, and its subsequent development and augmentation in accordance with the AETL Concession Agreement;

"**AETL Project**" shall mean the construction, operation, and maintenance of the AETL Project Highway in accordance with the provisions of the AETL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

"**Premium**" shall mean an amount paid to the NHAI by AETL in the form of an additional concession fee, as set forth in the bid for each year of the AETL Concession Period.

Grant of Concession

Subject to, and in accordance with the provisions set out in the AETL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to AETL, and AETL has accepted the concession, including the exclusive right, license, and authority during the subsistence of the AETL Concession Agreement, to construct, operate and maintain the AETL Project for a period of 24 years from the AETL Appointed Date.

Subject to, and in accordance with the provisions of the AETL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, AETL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the AETL Concession Agreement;

b) finance and construct the AETL Project Highway;

c) manage, operate, and maintain the AETL Project Highway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the AETL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of AETL's obligations under and in accordance with the AETL Concession Agreement;

f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of AETL under the AETL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the AETL Concession Agreement, or the concession granted, or on the whole or any part of the AETL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the AETL Concession Agreement or the agreement for the substitution of AETL entered into by AETL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, AETL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the AETL Concession Agreement and the applicable rules and regulations, provided that for ease of payment, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, AETL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the AETL Concession Agreement, AETL shall not collect any fees in relation to exempted vehicles.

AETL shall not collect any fee from a local user for non-commercial use of the AETL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the AETL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, AETL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, AETL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the AETL Project Highway and does not cross a toll plaza.

Concession Fee

In consideration of the grant of concession, AETL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum.

Additionally, AETL was required to pay to the NHAI on the AETL Appointed Date, a Premium in the form of an additional concession fee equal to ₹810 million as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year of the AETL Concession Period, the Premium shall be determined by increasing the amount of Premium in the respective year by an additional 5% as compared to the immediately preceding year. The Premium is deemed to be a part of the concession fee.

The concession fee payable under the provisions of the AETL Concession Agreement shall be due and payable in monthly instalments within seven days of the close of each month.

Escrow Account

AETL was required to, prior to the AETL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the AETL Concession Agreement read with the escrow agreement entered into amongst AETL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

AETL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;

b) all fee and any other revenues from or in respect of the AETL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and

c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

AETL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by AETL for and in respect of the AETL Project Highway;

b) all payments relating to construction of the AETL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) Operation and Management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the AETL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee due and payable to the NHAI;
f) monthly proportionate provision of AETL Debt Service due in an accounting year;

g) premium due and payable to the NHAI;

h) all payments and damages certified by the NHAI as due and payable to it by AETL, including repayment of revenue shortfall loan;

i) monthly proportionate provision of AETL Debt Service payments due in an accounting year in respect of subordinated debt;

j) any reserve requirements set forth in the financing agreements; and

k) balance, if any, in accordance with the instructions of AETL.

AETL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the AETL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by AETL for and in respect of the AETL Project Highway;

b) 90% of the AETL Debt Due excluding the subordinated debt;

c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by AETL, including the Premium and the repayment of the revenue shortfall loan;

e) retention and payments relating to the liability for defects and deficiencies set forth in the AETL Concession Agreement;

f) outstanding AETL Debt Service including balance of AETL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the AETL Concession Agreement; and

j) balance, if any, in accordance with the instructions of AETL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the AETL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the AETL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the AETL Concession Agreement and the costs thereof shall be expended by AETL and reimbursed by the NHAI.

If AETL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 15 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the AETL Concession Agreement, or inform AETL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of AETL being in material default or breach of the AETL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the AETL Concession Agreement.

In the event of the NHAI being in material default of the AETL Concession Agreement at any time after the AETL Appointed Date, it shall pay to AETL by way of compensation, all direct costs suffered or incurred by AETL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary

particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the AETL Concession Agreement.

In the event that a material default or breach of the AETL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the AETL Concession Period as provided in the AETL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the AETL Concession Agreement, the NHAI shall pay to AETL, for each day of the breach, compensation as provided in the AETL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the AETL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the AETL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic, then for every 1% (one percent) shortfall as compared to the target traffic, the AETL Concession Period shall, subject to payment of concession fee in accordance with the AETL Concession Agreement, be increased by 1.5% (one point five percent) thereof; provided that such increase in AETL Concession Period shall not in any case exceed 20% (twenty percent) of the AETL Concession Period.

Subject to the provisions of the AETL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic, then for every 1% (one percent) excess as compared to the target traffic, the AETL Concession Period shall be reduced by 0.75% (zero point seven five percent) thereof; provided that such reduction in AETL Concession Period shall not in any case exceed 10% (ten percent) thereof.

Provided further that in lieu of a reduction in AETL Concession Period under the AETL Concession Agreement, AETL may elect to pay, in addition to the concession fee that would be due and payable if the AETL Concession Period were not reduced hereunder, a further premium equal to 25% (twenty five percent) of the realizable fee, and upon notice given to this effect by AETL no later than two years prior to the AETL Termination Date contemplated by the AETL Concession Agreement, NHAI shall waive the reduction in AETL Concession Period hereunder forthwith.

Notwithstanding anything to the contrary contained in AETL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the AETL Project Highway, the NHAI at its option may cause preparation of detailed project report which will assess the cost that may have to be incurred for augmenting the capacity of the AETL Project Highway so that its capacity is sufficiently increased for carrying the then current traffic in accordance with the corresponding provisions of the Indian Roads Congress publication no. IRC -64, 1990 or any substitute thereof. The AETL Concession Period, may be extended so that it yields for AETL a post-tax return on equity of 16% per annum. This assessment will be made at an assumed debt to equity ratio of 70:30. The extension of the AETL Concession Period shall be however limited to five years. The NHAI may thereafter, at their sole option, issue a notice to AETL, to undertake within six months of such notice, the augmentation so determined by the NHAI. The refusal, non-acceptance, or failure by AETL to undertake such augmentation on the due date so intimated by the NHAI, will be considered an indirect political event and the NHAI may at its discretion terminate this AETL Concession Agreement by issuing a termination notice and making a termination payment in accordance with the provisions of the AETL Concession Agreement without the NHAI being liable to issue any further notice under it.

Termination of the AETL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the AETL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and AETL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, AETL shall be deemed to be in default of the AETL Concession Agreement ("**AETL Default**"), unless the default has occurred solely as a result of any breach of the AETL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the AETL Concession Agreement and AETL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the AETL Concession Agreement, AETL fails to cure, within a cure period of 90 days, the AETL Default for which whole or part of the performance security was appropriated;

c) AETL does not achieve the latest outstanding project milestone due in accordance with the AETL Concession Agreement and continues to be in default for 90 days;

d) AETL abandons or manifests intention to abandon the construction or operation of the AETL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the AETL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the AETL Concession Agreement;

g) AETL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) AETL has failed to make any payment to the NHAI within the period specified in the AETL Concession Agreement;

i) an escrow default has occurred and AETL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and AETL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by AETL has caused a material adverse effect;

l) AETL creates an encumbrance in breach of the AETL Concession Agreement;

m) AETL repudiates the AETL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the AETL Concession Agreement;

n) a change in ownership has occurred in breach of the AETL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of AETL under any of the project agreements, or of (ii) all or part of the assets or undertaking of AETL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of AETL has caused a material adverse effect;

q) AETL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for AETL or for the whole or material part of its assets that has a material bearing on the AETL Project;

r) AETL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of AETL is passed, or any petition for winding up of AETL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or AETL is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of AETL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of AETL under the AETL Concession Agreement and the project agreements; provided that:

    i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the AETL Concession Agreement and the project agreements;

ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the AETL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of AETL as at the AETL Appointed Date; and

iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of AETL which is, as of the date hereof, found to be materially false, incorrect or misleading or AETL is at any time hereafter found to be in breach thereof;

u) AETL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) AETL has failed to fulfil any obligation, for which failure termination has been specified in the AETL Concession Agreement; or

w) AETL commits a default in complying with any other provision of the AETL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the AETL Concession Agreement, upon the occurrence of an AETL Default, the NHAI shall be entitled to terminate the AETL Concession Agreement by issuing a termination notice to AETL. Before issuing the termination notice, the NHAI shall, by notice, inform AETL of its intention to issue a termination notice and grant 15 days to AETL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the AETL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 15 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute AETL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of AETL. On a written request from the lenders' representative and AETL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by AETL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the AETL Concession Agreement, the NHAI shall be deemed to be in default of the AETL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the AETL Concession Agreement by AETL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the AETL Concession Agreement and such default has a material adverse effect on AETL;

b) the NHAI has failed to make any payment to AETL within the period specified in the AETL Concession Agreement;

c) the NHAI repudiates the AETL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the AETL Concession Agreement; or

d) the State of Uttar Pradesh commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on AETL and the breach continues for a period of 90 days from the date of notice given in this behalf by AETL to the NHAI.

Without prejudice to any other rights or remedies which AETL may have under the AETL Concession Agreement, upon the occurrence of an NHAI Default, AETL shall be entitled to terminate the AETL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, AETL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 15 days to the NHAI to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of an AETL Default during the operation period, the NHAI shall pay to AETL, by way of termination payment, an amount equal to 90% of the AETL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of AETL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to AETL, by way of termination payment, an amount equal to:

a) AETL Debt Due; and
b) 150% of the adjusted equity.

Termination payment shall become due and payable to AETL within 15 days of a demand being made by AETL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the AETL Concession Agreement shall constitute a full and final settlement of all claims of AETL on account of termination of the AETL Concession Agreement for any reason whatsoever and AETL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

AETL shall be responsible for all defects and deficiencies in the AETL Project Highway for a period of 120 days after termination. AETL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the AETL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the AETL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

1.1. Supplementary Agreement between AETL and the NHAI dated April 7, 2018

AETL has entered into a supplementary agreement (the "**Supplementary Agreement**") to amend the concession agreement dated September 1, 2015 (the "**Concession Agreement**") to provide for the installation of a new electronic toll collection system (the "**Hybrid ETC System**") for electronic payment of user fee using RFID tags or any other such device.

Change of Scope

The NHAI shall provide a change in the scope of work order at prices discovered by the NHAI to AETL to provide for, as per the defined technical specifications, installation, testing, commissioning, operations and maintenance of the Hybrid ETC System in all lanes of the toll plaza. AETL shall ensure that the requisite civil work is completed prior to the installation, integration, testing and commissioning of the Hybrid ETC System. It shall also ensure the smooth flow of traffic during installation, integration, testing and commissioning of the Hybrid ETC System. AETL will have no claim against the NHAI on account of any lane closure, if any, on account of any third party claims.

Scope of Work

AETL shall install, integrate, test, commission, operate and maintain the Hybrid ETC System in all the lanes of the toll plazas. The Hybrid ETC System shall be installed, commissioned, operated and maintained for a period of five years or the end of the Concession Agreement, whichever is earlier, beyond which it will be replaced or

renewed, as the case may be, by AETL or the NHAI, at the cost of the NHAI. The cycle shall be maintained till the end of the concession period in accordance with the Concession Agreement.

The provisions of the Concession Agreement relating to change of scope shall not apply to the Supplementary Agreement.

Any permission required by AETL under the applicable laws for the installation of the Hybrid ETC System shall be procured and maintained by AETL. The NHAI shall provide reasonable assistance in this regard.

Timeline

AETL shall complete all responsibilities, obligations and works as described in the Supplementary Agreement within a period of 120 days from the date of issuance of the change of scope work order by the NHAI and the release of advance payment.

Damages for Delay

In case of delay in installation, testing, or commissioning of the Hybrid ETC System at the toll plazas as per the time schedule prescribed on account of reasons attributable to AETL, damages at 0.1% of the cost of installation, testing, or commissioning of the Hybrid ETC System for each day of the delay, subject to a maximum of 10% of the cost of installation, testing, or commissioning of the Hybrid ETC System shall be levied on AETL. Damages for delay will not be applicable in case of a delay in implementation due to delayed payment release by the NHAI.

AETL shall not be entitled to any additional benefit either in monetary terms or on any other account including, but not limited to any extension of time, save on account of and NHAI Default or force majeure.

Compensation

In case of any damage to the Hybrid ETC System due to any act or omission of AETL, the NHAI shall not be liable for any compensation to AETL, and AETL shall bear the cost of repair, replacement or renewal of the damaged Hybrid ETC System equipment or hardware itself.

In case of any damage to the Hybrid ETC System due to the occurrence of any force majeure event, the compensation to AETL shall be derived as per the provisions of the Concession Agreement.

End of the Concession Period

AETL shall hand over all the Hybrid ETC equipment or hardware in an operational condition to the NHAI or a third party as directed by the NHAI at the end of the concession period, beyond which no O&M payment shall be made to AETL. If any Hybrid ETC System equipment or hardware is found to be non-operational, then AETL shall be liable to replace or pay for the replacement of the Hybrid ETC System equipment or hardware required to make the Hybrid ETC System operational on all lanes of the toll plazas to the NHAI promptly.
Upon termination, AETL shall assign warranties received from the original equipment manufacturer and for the components or equipment, and provide the respective warranty assignment agreements and necessary documents. AETL shall ensure that all the warranties are duly assigned in favor of the NHAI and AETL shall bear the cost and expenses towards the assignment.

1.2. Supplementary Agreement between AETL and the NHAI dated May 1, 2017

AETL has entered into a supplementary agreement with the NHAI to amend the concession agreement dated September 1, 2015 (the "**Concession Agreement**") to provide for dispute resolution through the Society for Affordable Redressal of Disputes ("**SAROD**").

Any dispute arising out of the Concession Agreement which is not resolved amicably shall be finally settled by arbitration. The dispute shall be referred to SAROD for resolution by arbitration in accordance with the rules of SAROD and the Arbitration and Conciliation Act, 1996. AETL and the NHAI shall choose the arbitrators from a panel of arbitrators empanelled by SAROD. The arbitral tribunal shall consist of a sole arbitrator in case the total claim of the dispute is ₹30 million or less, and in case the claim is more than ₹30 million, the tribunal shall consist of an odd number of arbitrators to be nominated by the parties.

The arbitral proceedings shall be held at Delhi (India) and the language of the arbitral proceedings, and that of all the correspondence between the parties shall be English. The dispute shall be governed by the substantive law of India.

2. Concession Agreement between CGTL and the NHAI dated December 9, 2016

CGTL has entered into a concession agreement for six-laning of Kishangarh Udaipur Ahmedabad section from km 90.000 (near Gulabpura) to km 214.870 (end of Chittorgarh bypass), of NH-79 in Rajasthan on build, operate and transfer ("**BOT**") basis (the "**CGTL Concession Agreement**"), for a period of 20 years, from November 4, 2017 ("**CGTL Appointed Date**") or until such date on which the CGTL Concession Agreement is terminated by a termination notice ("**CGTL Termination Date**", and the period between the CGTL Appointed Date and the CGTL Termination Date, the "**CGTL Concession Period**").

Certain Definitions

"**CGTL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principal**") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the CGTL Debt Due is convertible into equity at the option of the senior lenders and/or CGTL, it shall, for the purposes of the CGTL Concession Agreement, be deemed to be CGTL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**CGTL Debt Service**" shall mean the sum of all payments on account of Principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**CGTL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of CGTL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the CGTL Project Highway (as defined below), but does not include additional facilities;

"**CGTL Project Highway**" shall mean the site comprising the existing road comprising NH-79 from km 90.000 to km 214.870 and all CGTL Project Assets, and its subsequent development and augmentation in accordance with the CGTL Concession Agreement;

"**CGTL Project**" shall mean the construction, operation, and maintenance of the CGTL Project Highway in accordance with the provisions of the CGTL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

"**Premium**" shall mean an amount paid to the NHAI by CGTL in the form of an additional concession fee, as set forth in the bid for each year of the CGTL Concession Period.

Grant of Concession

Subject to, and in accordance with the provisions set out in the CGTL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to CGTL, and CGTL has accepted the concession, including the exclusive right, license, and authority during the subsistence of the CGTL Concession Agreement, to construct, operate and maintain the CGTL Project for a period of 20 years from the CGTL Appointed Date.

Subject to, and in accordance with the provisions of the CGTL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, CGTL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the CGTL Concession Agreement;

b) finance and construct the CGTL Project Highway;

c) manage, operate, and maintain the CGTL Project Highway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the CGTL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of CGTL's obligations under and in accordance with the CGTL Concession Agreement;

f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of CGTL under the CGTL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the CGTL Concession Agreement, or the concession granted, or on the whole or any part of the CGTL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the CGTL Concession Agreement or the agreement for the substitution of CGTL entered into by CGTL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, CGTL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the CGTL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, CGTL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the CGTL Concession Agreement, CGTL shall not collect any fees in relation to exempted vehicles.

CGTL shall not collect any fee from a local user for non-commercial use of the CGTL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the CGTL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, CGTL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, CGTL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the CGTL Project Highway and does not cross a toll plaza.

Concession Fee

In consideration of the grant of concession, CGTL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum.

Additionally, CGTL was required to pay to the NHAI, immediately after the third anniversary year of the COD, a Premium in the form of an additional concession fee equal to ₹2,286,000,000 as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year till the ninth anniversary of the COD, the Premium shall be determined by increasing the amount of Premium in the respective year by an additional 3% as compared to the immediately preceding year, and for each subsequent year of the CGTL Concession Period, the Premium shall be determined by increasing the amount of Premium in the respective year

by an additional 8% as compared to the immediately preceding year. The Premium is deemed to be a part of the concession fee.

The concession fee payable under the provisions of the CGTL Concession Agreement shall be due and payable in monthly instalments within seven days of the close of each month.

Escrow Account

CGTL was required to, prior to the CGTL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the CGTL Concession Agreement read with the escrow agreement entered into amongst CGTL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

CGTL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;

b) all fee and any other revenues from or in respect of the CGTL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and

c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

CGTL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by CGTL for and in respect of the CGTL Project Highway;

b) all payments relating to construction of the CGTL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) Operation and Management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the CGTL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee due and payable to the NHAI;

f) monthly proportionate provision of CGTL Debt Service due in an accounting year;

g) premium due and payable to the NHAI;

h) all payments and damages certified by the NHAI as due and payable to it by CGTL, including repayment of revenue shortfall loan. CGTL has agreed to give irrevocable instructions to the Escrow Bank to make payments from the Escrow Account in accordance with the instructions of the NHAI under the CGTL Concession Agreement and debit the payment to O&M expenses;

i) monthly proportionate provision of CGTL Debt Service payments due in an accounting year in respect of subordinated debt;

j) any reserve requirements set forth in the financing agreements; and

k) balance, if any, in accordance with the instructions of CGTL.

CGTL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the CGTL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by CGTL for and in respect of the CGTL Project Highway;

b) 90% of the CGTL Debt Due excluding the subordinated debt;

c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by CGTL, including the repayment of the revenue shortfall loan. CGTL has agreed to give irrevocable instruction to the Escrow Bank to make payment from the Escrow Account in accordance with the instructions of the NHAI under the CGTL Concession Agreement and debit the payment to O&M expenses.

e) retention and payments relating to the liability for defects and deficiencies set forth in the CGTL Concession Agreement;

f) outstanding CGTL Debt Service including balance of CGTL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the CGTL Concession Agreement; and

j) balance, if any, in accordance with the instructions of CGTL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the CGTL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the CGTL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the CGTL Concession Agreement and the costs thereof shall be expended by CGTL and reimbursed by the NHAI.

If CGTL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the CGTL Concession Agreement, or inform CGTL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of CGTL being in material default or breach of the CGTL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the CGTL Concession Agreement.

In the event of the NHAI being in material default of the CGTL Concession Agreement at any time after the CGTL Appointed Date, it shall pay to CGTL by way of compensation, all direct costs suffered or incurred by

CGTL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the CGTL Concession Agreement.

In the event that a material default or breach of the CGTL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the CGTL Concession Period as provided in the CGTL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the CGTL Concession Agreement, the NHAI shall pay to CGTL, for each day of the breach, compensation as provided in the CGTL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the CGTL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the CGTL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic, then for every 1% (one percent) shortfall as compared to the target traffic, the CGTL Concession Period shall, subject to payment of concession fee in accordance with the CGTL Concession Agreement, be increased by 1.5% (one point five percent) thereof; provided that such increase in CGTL Concession Period shall not in any case exceed 20% (twenty percent) of the CGTL Concession Period.

Subject to the provisions of the CGTL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic, then for every 1% (one percent) excess as compared to the target traffic, the CGTL Concession Period shall be reduced by 0.75% (zero point seven five percent) thereof; provided that such reduction in CGTL Concession Period shall not in any case exceed 10% (ten percent) thereof.

Provided further that in lieu of a reduction in CGTL Concession Period under the CGTL Concession Agreement, CGTL may elect to pay, in addition to the concession fee that would be due and payable if the CGTL Concession Period were not reduced hereunder, a further premium equal to 25% (twenty five percent) of the realizable fee, and upon notice given to this effect by CGTL no later than two years prior to the CGTL Termination Date contemplated by the CGTL Concession Agreement, NHAI shall waive the reduction in CGTL Concession Period hereunder forthwith.

Notwithstanding anything to the contrary contained in CGTL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the CGTL Project Highway, the NHAI at its option may cause preparation of detailed project report which will assess the cost that may have to be incurred for augmenting the capacity of the CGTL Project Highway so that its capacity is sufficiently increased for carrying the then current traffic in accordance with the corresponding provisions of the Indian Roads Congress publication no. IRC -64, 1990 or any substitute thereof. The CGTL Concession Period, may be extended so that it yields for CGTL a post-tax return on equity of 16% per annum. This assessment will be made at an assumed debt to equity ratio of 70:30. The extension of the CGTL Concession Period shall be however limited to five years. The NHAI may thereafter, at their sole option, issue a notice to CGTL, to undertake within six months of such notice, the augmentation so determined by the NHAI. The refusal, non-acceptance, or failure by CGTL to undertake such augmentation on the due date so intimated by the NHAI, will be considered an indirect political event and the NHAI may at its discretion terminate this CGTL Concession Agreement by issuing a termination notice and making a termination payment in accordance with the provisions of the CGTL Concession Agreement without the NHAI being liable to issue any further notice under it.

Termination of the CGTL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the CGTL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and CGTL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, CGTL shall be deemed to be in default of the CGTL Concession Agreement ("**CGTL Default**"), unless the default has occurred solely as a result of any breach of the CGTL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the CGTL Concession Agreement and CGTL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the CGTL Concession Agreement, CGTL fails to cure, within a cure period of 90 days, the CGTL Default for which whole or part of the performance security was appropriated;

c) CGTL does not achieve the latest outstanding project milestone due in accordance with the CGTL Concession Agreement and continues to be in default for 90 days;

d) CGTL abandons or manifests intention to abandon the construction or operation of the CGTL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the CGTL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the CGTL Concession Agreement;

g) CGTL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) CGTL has failed to make any payment to the NHAI within the period specified in the CGTL Concession Agreement;

i) an escrow default has occurred and CGTL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and CGTL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by CGTL has caused a material adverse effect;

l) CGTL creates an encumbrance in breach of the CGTL Concession Agreement;

m) CGTL repudiates the CGTL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the CGTL Concession Agreement;

n) a change in ownership has occurred in breach of the CGTL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of CGTL under any of the project agreements, or of (ii) all or part of the assets or undertaking of CGTL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of CGTL has caused a material adverse effect;

q) CGTL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for CGTL or for the whole or material part of its assets that has a material bearing on the CGTL Project;

r) CGTL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of CGTL is passed, or any petition for winding up of CGTL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or CGTL is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of CGTL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of CGTL under the CGTL Concession Agreement and the project agreements; provided that:

i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the CGTL Concession Agreement and the project agreements;

ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the CGTL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of CGTL as at the CGTL Appointed Date; and

iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of CGTL which is, as of the date hereof, found to be materially false, incorrect or misleading or CGTL is at any time hereafter found to be in breach thereof;

u) CGTL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) CGTL has failed to fulfil any obligation, for which failure termination has been specified in the CGTL Concession Agreement; or

w) CGTL commits a default in complying with any other provision of the CGTL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the CGTL Concession Agreement, upon the occurrence of a CGTL Default, the NHAI shall be entitled to terminate the CGTL Concession Agreement by issuing a termination notice to CGTL. Before issuing the termination notice, the NHAI shall, by notice, inform CGTL of its intention to issue a termination notice and grant 15 days to CGTL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the CGTL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 30 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute CGTL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of CGTL. On a written request from the lenders' representative and CGTL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by CGTL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the CGTL Concession Agreement, the NHAI shall be deemed to be in default of the CGTL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the CGTL Concession Agreement by CGTL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the CGTL Concession Agreement and such default has a material adverse effect on CGTL;

b) the NHAI has failed to make any payment to CGTL within the period specified in the CGTL Concession Agreement;

c) the NHAI repudiates the CGTL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the CGTL Concession Agreement; or

d) the State of Rajasthan commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on CGTL and the breach continues for a period of 90 days from the date of notice given in this behalf by CGTL to the NHAI.

Without prejudice to any other rights or remedies which CGTL may have under the CGTL Concession Agreement, upon the occurrence of an NHAI Default, CGTL shall be entitled to terminate the CGTL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, CGTL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 30 days to the NHAI to make a representation, and may, after the expiry of the 30 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of a CGTL Default during the operation period, the NHAI shall pay to CGTL, by way of termination payment, an amount equal to 90% of the CGTL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of CGTL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to CGTL, by way of termination payment, an amount equal to:

a) CGTL Debt Due; and
b) 150% of the adjusted equity.

The termination payment shall not be less than an amount equal to the product of six and the average monthly fee actually realized 12 months prior to the transfer date.

Termination payment shall become due and payable to CGTL within 30 days of a demand being made by CGTL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the CGTL Concession Agreement shall constitute a full and final settlement of all claims of CGTL on account of termination of the CGTL Concession Agreement for any reason whatsoever and CGTL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

CGTL shall be responsible for all defects and deficiencies in the CGTL Project Highway for a period of 120 days after termination. CGTL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the CGTL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the CGTL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

3. Concession Agreement between IRB HMTL and the NHAI dated May 29, 2018

IRB HMTL has entered into a concession agreement for six-laning of Hapur Bypass to Moradabad section including Hapur Bypass from km 50.000 (design chainage 50.000) to km 148.277 (design chainage 149.867) of NH-24 (new NH-9) in Uttar Pradesh on design, build, finance, operate and transfer ("**DBFOT**") basis (the "**IRB HMTL Concession Agreement**"), for a period of 22 years, from May 28, 2019 ("**IRB HMTL Appointed Date**") or until such date on which the IRB HMTL Concession Agreement is terminated by a termination notice ("**IRB HMTL Termination Date**", and the period between the IRB HMTL Appointed Date and the IRB HMTL Termination Date, the "**IRB HMTL Concession Period**").

Certain Definitions

"**IRB HMTL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principa**l") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the IRB HMTL Debt Due is convertible into equity at the option of the senior lenders and/or IRB HMTL, it shall, for the purposes of the IRB HMTL Concession Agreement, be deemed to be IRB HMTL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**IRB HMTL Debt Service**" shall mean the sum of all payments on account of Principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**IRB HMTL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of IRB HMTL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the IRB HMTL Project Highway (as defined below), but does not include additional facilities;

"**IRB HMTL Project Highway**" shall mean the site comprising the existing road comprising Hapur Bypass to Moradabad section including Hapur Bypass from km 50.000 (design chainage km 50.000) to km 148.277 (design chainage km 149.867) of NH-24 (new NH-9) and all IRB HMTL Project Assets, and its subsequent development and augmentation in accordance with the IRB HMTL Concession Agreement;

"**IRB HMTL Project**" shall mean the construction, operation, and maintenance of the IRB HMTL Project Highway in accordance with the provisions of the IRB HMTL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

"**Premium**" shall mean an amount paid to the NHAI by IRB HMTL in the form of an additional concession fee, as set forth in the bid for each year of the IRB HMTL Concession Period.

Grant of Concession

Subject to, and in accordance with the provisions set out in the IRB HMTL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to IRB HMTL, and IRB HMTL has accepted the concession, including the exclusive right, license, and authority during the subsistence of the IRB HMTL Concession Agreement, to construct, operate and maintain the IRB HMTL Project for a period of 22 years from the IRB HMTL Appointed Date.

Subject to, and in accordance with the provisions of the IRB HMTL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, IRB HMTL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the IRB HMTL Concession Agreement;

b) finance and construct the IRB HMTL Project Highway;

c) manage, operate, and maintain the IRB HMTL Project Highway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the IRB HMTL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of IRB HMTL's obligations under and in accordance with the IRB HMTL Concession Agreement;

f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of IRB HMTL under the IRB HMTL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the IRB HMTL Concession Agreement, or the concession granted, or on the whole or any part of the IRB HMTL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the IRB HMTL Concession Agreement or the agreement for the substitution of IRB HMTL entered into by IRB HMTL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, IRB HMTL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the IRB HMTL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, IRB HMTL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the IRB HMTL Concession Agreement, IRB HMTL shall not collect any fees in relation to exempted vehicles.

IRB HMTL shall not collect any fee from a local user for non-commercial use of the IRB HMTL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the IRB HMTL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, IRB HMTL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, IRB HMTL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the IRB HMTL Project Highway and does not cross a toll plaza.

Concession Fee

In consideration of the grant of concession, IRB HMTL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum.

Additionally, IRB HMTL was required to pay to the NHAI, immediately after the third anniversary year of the COD, a Premium in the form of an additional concession fee equal to ₹315 million as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year till the ninth anniversary of the COD, the Premium shall be determined by increasing the amount of Premium in the respective year by an additional 3% as compared to the immediately preceding year and for each subsequent year of the IRB HMTL Concession Period, the Premium shall be determined by increasing the amount of Premium in the respective year by an additional 8% as compared to the immediately preceding year. The Premium is deemed to be a part of the concession fee.

The concession fee payable under the provisions of the IRB HMTL Concession Agreement shall be due and payable in monthly instalments within seven days of the close of each month.

Escrow Account

IRB HMTL was required to, prior to the IRB HMTL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the IRB HMTL Concession Agreement read with the escrow agreement entered into amongst IRB HMTL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

IRB HMTL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;
b) all fee and any other revenues from or in respect of the IRB HMTL Project Highway, including the proceeds

of any deposits, capital receipts or insurance claims; and

c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

IRB HMTL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by IRB HMTL for and in respect of the IRB HMTL Project Highway;

b) all payments relating to construction of the IRB HMTL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) Operation and Management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the IRB HMTL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee due and payable to the NHAI;

f) monthly proportionate provision of IRB HMTL Debt Service due in an accounting year;

g) premium due and payable to the NHAI;

h) all payments and damages certified by the NHAI as due and payable to it by IRB HMTL, including repayment of revenue shortfall loan. IRB HMTL has agreed to give irrevocable instructions to the Escrow Bank to make payments from the Escrow Account in accordance with the instructions of the NHAI under the IRB HMTL Concession Agreement and debit the payment to O&M expenses;

i) monthly proportionate provision of IRB HMTL Debt Service payments due in an accounting year in respect of subordinated debt;

j) any reserve requirements set forth in the financing agreements; and

k) balance, if any, in accordance with the instructions of IRB HMTL.

IRB HMTL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the IRB HMTL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by IRB HMTL for and in respect of the IRB HMTL Project Highway;

b) 90% of the IRB HMTL Debt Due excluding the subordinated debt;
c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by IRB HMTL, including the repayment of the revenue shortfall loan. IRB HMTL has agreed to give irrevocable instruction to the Escrow

Bank to make payment from the Escrow Account in accordance with the instructions of the NHAI under the IRB HMTL Concession Agreement and debit the payment to O&M expenses.

e) retention and payments relating to the liability for defects and deficiencies set forth in the IRB HMTL Concession Agreement;

f) outstanding IRB HMTL Debt Service including balance of IRB HMTL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the IRB HMTL Concession Agreement; and

j) balance, if any, in accordance with the instructions of IRB HMTL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the IRB HMTL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the IRB HMTL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the IRB HMTL Concession Agreement and the costs thereof shall be expended by IRB HMTL and reimbursed by the NHAI.

If IRB HMTL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the IRB HMTL Concession Agreement, or inform IRB HMTL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of IRB HMTL being in material default or breach of the IRB HMTL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the IRB HMTL Concession Agreement.

In the event of the NHAI being in material default of the IRB HMTL Concession Agreement at any time after the IRB HMTL Appointed Date, it shall pay to IRB HMTL by way of compensation, all direct costs suffered or incurred by IRB HMTL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the IRB HMTL Concession Agreement.

In the event that a material default or breach of the IRB HMTL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the IRB HMTL Concession Period as provided in the IRB HMTL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the IRB HMTL Concession Agreement, the NHAI shall pay to IRB HMTL, for each day of the breach, compensation as provided in the IRB HMTL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the IRB HMTL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the IRB HMTL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic, then for every 1% (one percent) shortfall as compared to the target traffic, the IRB HMTL Concession Period shall, subject to payment of concession fee in accordance with the IRB HMTL Concession Agreement, be increased by 1.5% (one point five percent) thereof; provided that such increase in IRB HMTL Concession Period shall not in any case exceed 20% (twenty percent) of the IRB HMTL Concession Period.

Subject to the provisions of the IRB HMTL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic, then for every 1% (one percent) excess as compared to the target traffic, the IRB HMTL Concession Period shall be reduced by 0.75% (zero point seven five percent) thereof; provided that such reduction in IRB HMTL Concession Period shall not in any case exceed 10% (ten percent) thereof.

Provided further that in lieu of a reduction in IRB HMTL Concession Period under the IRB HMTL Concession Agreement, IRB HMTL may elect to pay, in addition to the concession fee that would be due and payable if the IRB HMTL Concession Period were not reduced hereunder, a further premium equal to 25% (twenty five percent) of the realizable fee, and upon notice given to this effect by IRB HMTL no later than two years prior to the IRB HMTL Termination Date contemplated by the IRB HMTL Concession Agreement, NHAI shall waive the reduction in IRB HMTL Concession Period hereunder forthwith.

Notwithstanding anything to the contrary contained in IRB HMTL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the IRB HMTL Project Highway, the NHAI at its option may cause preparation of detailed project report which will assess the cost that may have to be incurred for augmenting the capacity of the IRB HMTL Project Highway so that its capacity is sufficiently increased for carrying the then current traffic in accordance with the corresponding provisions of the Indian Roads Congress publication no. IRC -64, 1990 or any substitute thereof. The IRB HMTL Concession Period, may be extended so that it yields for IRB HMTL a post-tax return on equity of 16% per annum. This assessment will be made at an assumed debt to equity ratio of 70:30. The extension of the IRB HMTL Concession Period shall be however limited to five years. The NHAI may thereafter, at their sole option, issue a notice to IRB HMTL, to undertake within six months of such notice, the augmentation so determined by the NHAI. The refusal, non-acceptance, or failure by IRB HMTL to undertake such augmentation on the due date so intimated by the NHAI, will be considered an indirect political event and the NHAI may at its discretion terminate this IRB HMTL Concession Agreement by issuing a termination notice and making a termination payment in accordance with the provisions of the IRB HMTL Concession Agreement without the NHAI being liable to issue any further notice under it.

Termination of the IRB HMTL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the IRB HMTL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and IRB HMTL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, IRB HMTL shall be deemed to be in default of the IRB HMTL Concession Agreement ("**IRB HMTL Default**"), unless the default has occurred solely as a result of any breach of the IRB HMTL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the IRB HMTL Concession Agreement and IRB HMTL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the IRB HMTL Concession Agreement, IRB HMTL fails to cure, within a cure period of 90 days, the IRB HMTL Default for which whole or part of the performance security was appropriated;

c) IRB HMTL does not achieve the latest outstanding project milestone due in accordance with the IRB HMTL Concession Agreement and continues to be in default for 90 days;

d) IRB HMTL abandons or manifests intention to abandon the construction or operation of the IRB HMTL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the IRB HMTL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the IRB HMTL Concession Agreement;

g) IRB HMTL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) IRB HMTL has failed to make any payment to the NHAI within the period specified in the IRB HMTL Concession Agreement;

i) an escrow default has occurred and IRB HMTL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and IRB HMTL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by IRB HMTL has caused a material adverse effect;

l) IRB HMTL creates an encumbrance in breach of the IRB HMTL Concession Agreement;

m) IRB HMTL repudiates the IRB HMTL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the IRB HMTL Concession Agreement;

n) a change in ownership has occurred in breach of the IRB HMTL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of IRB HMTL under any of the project agreements, or of (ii) all or part of the assets or undertaking of IRB HMTL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of IRB HMTL has caused a material adverse effect;

q) IRB HMTL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for IRB HMTL or for the whole or material part of its assets that has a material bearing on the IRB HMTL Project;

r) IRB HMTL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of IRB HMTL is passed, or any petition for winding up of IRB HMTL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or IRB HMTL is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of IRB HMTL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of IRB HMTL under the IRB HMTL Concession Agreement and the project agreements; provided that:

   i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the IRB HMTL Concession Agreement and the project agreements;

   ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the IRB HMTL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of IRB HMTL as at the IRB HMTL Appointed Date; and

   iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of IRB HMTL which is, as of the date hereof, found to be materially false, incorrect or misleading or IRB HMTL is at any time hereafter found to be in breach thereof;

u) IRB HMTL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) IRB HMTL has failed to fulfil any obligation, for which failure termination has been specified in the IRB HMTL Concession Agreement; or

w) IRB HMTL commits a default in complying with any other provision of the IRB HMTL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the IRB HMTL Concession Agreement, upon the occurrence of an IRB HMTL Default, the NHAI shall be entitled to terminate the IRB HMTL Concession Agreement by issuing a termination notice to IRB HMTL. Before issuing the termination notice, the NHAI shall, by notice, inform IRB HMTL of its intention to issue a termination notice and grant 15 days to IRB HMTL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the IRB HMTL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 30 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute IRB HMTL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of IRB HMTL. On a written request from the lenders' representative and IRB HMTL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by IRB HMTL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the IRB HMTL Concession Agreement, the NHAI shall be deemed to be in default of the IRB HMTL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the IRB HMTL Concession Agreement by IRB HMTL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the IRB HMTL Concession Agreement and such default has a material adverse effect on IRB HMTL;

b) the NHAI has failed to make any payment to IRB HMTL within the period specified in the IRB HMTL Concession Agreement;

c) the NHAI repudiates the IRB HMTL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the IRB HMTL Concession Agreement; or

d) the State of Uttar Pradesh commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on IRB HMTL and the breach continues for a period of 90 days from the date of notice given in this behalf by IRB HMTL to the NHAI.

Without prejudice to any other rights or remedies which IRB HMTL may have under the IRB HMTL Concession Agreement, upon the occurrence of an NHAI Default, IRB HMTL shall be entitled to terminate the IRB HMTL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, IRB HMTL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 30 days to the NHAI to make a representation, and may, after the expiry of the 30 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of an IRB HMTL Default during the operation period, the NHAI shall pay to IRB HMTL, by way of termination payment, an amount equal to 90% of the IRB HMTL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of IRB HMTL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to IRB HMTL, by way of termination payment, an amount equal to:

a) IRB HMTL Debt Due; and
b) 150% of the adjusted equity.

The termination payment shall not be less than an amount equal to the product of six and the average monthly fee actually realized 12 months prior to the transfer date.

Termination payment shall become due and payable to IRB HMTL within 30 days of a demand being made by IRB HMTL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the IRB HMTL Concession Agreement shall constitute a full and final settlement of all claims of IRB HMTL on account of termination of the IRB HMTL Concession Agreement for any reason whatsoever and IRB HMTL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

IRB HMTL shall be responsible for all defects and deficiencies in the IRB HMTL Project Highway for a period of 120 days after termination. IRB HMTL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the IRB HMTL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the IRB HMTL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

4. Concession Agreement between IRB WTL and the NHAI dated March 25, 2013, as amended

IRB WTL has entered into a concession agreement for four-laning of Goa/Karnataka Border to Kundapur section from km 93.700 to km 283.300 of NH-17 in Karnataka on design, build, finance, operate and transfer ("**DBFOT**") basis (the "**IRB WTL Concession Agreement**"), for a period of 28 years, from March 3, 2014 ("**IRB WTL Appointed Date**") or until such date on which the IRB WTL Concession Agreement is terminated by a termination notice ("**IRB WTL Termination Date**", and the period between the IRB WTL Appointed Date and the IRB WTL Termination Date, the "**IRB WTL Concession Period**").

Certain Definitions

"**IRB WTL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principa**l") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the IRB WTL Debt Due is convertible into equity at the option of the senior lenders and/or IRB WTL, it shall, for the purposes of the IRB WTL Concession Agreement, be deemed to be IRB WTL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**IRB WTL Debt Service**" shall mean the sum of all payments on account of Principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**IRB WTL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of IRB WTL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the IRB WTL Project Highway (as defined below), but does not include additional facilities;

"**IRB WTL Project Highway**" shall mean the site comprising the existing road comprising NH-17 from km 93.700 to km 283.300 and all IRB WTL Project Assets, and its subsequent development and augmentation in accordance with the IRB WTL Concession Agreement;

"**IRB WTL Project**" shall mean the construction, operation, and maintenance of the IRB WTL Project Highway in accordance with the provisions of the IRB WTL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

"**Grant**" shall mean the cash support provided to IRB WTL by the NHAI which is equal to the sum set forth in the bid.

Grant of Concession

Subject to, and in accordance with the provisions set out in the IRB WTL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to IRB WTL, and IRB WTL has accepted the concession, including the exclusive right, license, and authority to construct, operate and maintain the IRB WTL Project for a period of 28 years from the IRB WTL Appointed Date.

Subject to, and in accordance with the provisions of the IRB WTL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, IRB WTL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the IRB WTL Concession Agreement;

b) finance and construct the IRB WTL Project Highway;

c) manage, operate, and maintain the IRB WTL Project Highway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and users liable for payment of fee for using the IRB WTL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of IRB WTL's obligations under and in accordance with the IRB WTL Concession Agreement;

f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of IRB WTL under the IRB WTL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the IRB WTL Concession Agreement, or the concession granted, or on the whole or any part of the IRB WTL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the IRB WTL Concession Agreement

or the agreement for the substitution of IRB WTL entered into by IRB WTL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, IRB WTL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the IRB WTL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. In accordance with the IRB WTL Concession Agreement, IRB WTL shall not collect any fees in relation to exempted vehicles.

IRB WTL shall not collect any fee from a local user for non-commercial use of the IRB WTL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the IRB WTL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, IRB WTL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, IRB WTL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the IRB WTL Project Highway and does not cross a toll plaza.

Grant

The NHAI has agreed to pay to IRB WTL cash support by way of an outright grant equal to ₹5,362.2 million as set out in the bid. The grant shall be disbursed to IRB WTL by way of equity support. It shall be credited to the Escrow Account (as defined below) and shall be applied by IRB WTL for meeting the total project cost. The equity support shall not exceed the sum specified, but shall in no case be greater than twice the equity, and shall be further restricted to a sum not exceeding 40% of the total project cost.

The equity support shall be due and payable to IRB WTL after it has expended the equity, and shall be disbursed proportionately along with the loan funds thereafter remaining to be disbursed by the senior lenders under the financing agreements. The NHAI shall disburse each tranche of the equity support as and when due, but no later than 15 days of receiving a request from IRB WTL along with necessary particulars. In the event of the occurrence of an IRB WTL Default (as defined below), disbursement of equity support shall be suspended till the IRB WTL Default has been cured.

Concession Fee

In consideration of the grant of concession, IRB WTL shall pay to the NHAI by way of concession fee a sum of ₹1.00 per annum.

The concession fee payable under the provisions of the IRB WTL Concession Agreement shall be due and payable in monthly instalments within seven days of the close of each month.

Escrow Account

IRB WTL was required to, prior to the IRB WTL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the IRB WTL Concession Agreement read with the escrow agreement entered into amongst IRB WTL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

IRB WTL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;

b) all fee and any other revenues from or in respect of the IRB WTL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and

c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

IRB WTL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by IRB WTL for and in respect of the IRB WTL Project Highway;

b) all payments relating to construction of the IRB WTL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) Operation and Management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the IRB WTL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee due and payable to the NHAI;

f) monthly proportionate provision of IRB WTL Debt Service due in an accounting year;

g) all payments and damages certified by the NHAI as due and payable to it by IRB WTL, including repayment of revenue shortfall loan.

h) monthly proportionate provision of IRB WTL Debt Service payments due in an accounting year in respect of subordinated debt;

i) any reserve requirements set forth in the financing agreements; and

j) balance, if any, in accordance with the instructions of IRB WTL.

IRB WTL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the IRB WTL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by IRB WTL for and in respect of the IRB WTL Project Highway;

b) 90% of the IRB WTL Debt Due excluding the subordinated debt;

c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by IRB WTL, including the repayment of the revenue shortfall loan. retention and payments relating to the liability for defects and deficiencies set forth in the IRB WTL Concession Agreement;

e) outstanding IRB WTL Debt Service including balance of IRB WTL Debt Due;

f) outstanding subordinated debt;

g) incurred or accrued O&M expenses;

h) any other payments required to be made under the IRB WTL Concession Agreement; and

i) balance, if any, in accordance with the instructions of IRB WTL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the IRB WTL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the IRB WTL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the IRB WTL Concession Agreement and the costs thereof shall be expended by IRB WTL and reimbursed by the NHAI.

If IRB WTL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 15 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the IRB WTL Concession Agreement, or inform IRB WTL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of IRB WTL being in material default or breach of the IRB WTL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the IRB WTL Concession Agreement.

In the event of the NHAI being in material default of the IRB WTL Concession Agreement at any time after the IRB WTL Appointed Date, it shall pay to IRB WTL by way of compensation, all direct costs suffered or incurred by IRB WTL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the IRB WTL Concession Agreement.

In the event that a material default or breach of the IRB WTL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the IRB WTL Concession Period as provided in the IRB WTL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the IRB WTL Concession Agreement, the NHAI shall pay to IRB WTL, for each day of the breach, compensation as provided in the IRB WTL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the IRB WTL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the IRB WTL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic, then for every 1% (one percent) shortfall as compared to the target traffic, the IRB WTL Concession Period shall, subject to payment of concession fee in accordance with the IRB WTL Concession Agreement, be increased by 1.5% (one point five percent) thereof; provided that such increase in IRB WTL Concession Period shall not in any case exceed 20% (twenty percent) of the IRB WTL Concession Period.

Subject to the provisions of the IRB WTL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic, then for every 1% (one percent) excess as compared to the target traffic, the IRB WTL Concession Period shall be reduced by 0.75% (zero point seven five percent) thereof; provided that such reduction in IRB WTL Concession Period shall not in any case exceed 10% (ten percent) thereof.

Provided further that in lieu of a reduction in IRB WTL Concession Period under the IRB WTL Concession Agreement, IRB WTL may elect to pay, in addition to the concession fee that would be due and payable if the IRB WTL Concession Period were not reduced hereunder, a further premium equal to 25% (twenty five percent) of the realizable fee, and upon notice given to this effect by IRB WTL no later than two years prior to the IRB WTL Termination Date contemplated by the IRB WTL Concession Agreement, NHAI shall waive the reduction in IRB WTL Concession Period hereunder forthwith.

Notwithstanding anything to the contrary contained in IRB WTL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the IRB WTL Project Highway, the NHAI at its option may cause preparation of detailed project report which will assess the cost that may have to be incurred for augmenting the capacity of the IRB WTL Project Highway so that its capacity is sufficiently increased for carrying the then current traffic in accordance with the corresponding provisions of the Indian Roads Congress publication no. IRC -64, 1990 or any substitute thereof. The IRB WTL Concession Period, may be extended so that it yields for IRB WTL a post-tax return on equity of 16% per annum. This assessment will be made at an assumed debt to equity ratio of 70:30. The extension of the IRB WTL Concession Period shall be however limited to five years. The NHAI may thereafter, at their sole option, issue a notice to IRB WTL, to undertake within six months of such notice, the augmentation so determined by the NHAI. The refusal, non-acceptance, or failure by IRB WTL to undertake such augmentation on the due date so intimated by the NHAI, will be considered an indirect political event and the NHAI may at its discretion terminate this IRB WTL Concession Agreement by issuing a termination notice and making a termination payment in accordance with the provisions of the IRB WTL Concession Agreement without the NHAI being liable to issue any further notice under it.

Termination of the IRB WTL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the IRB WTL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and IRB WTL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, IRB WTL shall be deemed to be in default of the IRB WTL Concession Agreement ("**IRB WTL Default**"), unless the default has occurred solely as a result of any breach of the IRB WTL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the IRB WTL Concession Agreement and IRB WTL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the IRB WTL Concession Agreement, IRB WTL fails to cure, within a cure period of 90 days, the IRB WTL Default for which whole or part of the performance security was appropriated;

c) IRB WTL does not achieve the latest outstanding project milestone due in accordance with the IRB WTL Concession Agreement and continues to be in default for 120 days;

d) IRB WTL abandons or manifests intention to abandon the construction or operation of the IRB WTL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the IRB WTL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the IRB WTL Concession Agreement;

g) IRB WTL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) IRB WTL has failed to make any payment to the NHAI within the period specified in the IRB WTL Concession Agreement;

i) an escrow default has occurred and IRB WTL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and IRB WTL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by IRB WTL has caused a material adverse effect;

l) IRB WTL creates an encumbrance in breach of the IRB WTL Concession Agreement;

m) IRB WTL repudiates the IRB WTL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the IRB WTL Concession Agreement;

n) a change in ownership has occurred in breach of the IRB WTL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of IRB WTL under any of the project agreements, or of (ii) all or part of the assets or undertaking of IRB WTL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of IRB WTL has caused a material adverse effect;

q) IRB WTL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for IRB WTL or for the whole or material part of its assets that has a material bearing on the IRB WTL Project;

r) IRB WTL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of IRB WTL is passed, or any petition for winding up of IRB WTL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or IRB WTL is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of IRB WTL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of IRB WTL under the IRB WTL Concession Agreement and the project agreements; provided that:

    i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the IRB WTL Concession Agreement and the project agreements;

    ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the IRB WTL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of IRB WTL as at the IRB WTL Appointed Date; and

    iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of IRB WTL which is, as of the date hereof, found to be materially false, incorrect or misleading or IRB WTL is at any time hereafter found to be in breach thereof;

u) IRB WTL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) IRB WTL has failed to fulfil any obligation, for which failure termination has been specified in the IRB WTL Concession Agreement; or

w) IRB WTL commits a default in complying with any other provision of the IRB WTL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the IRB WTL Concession Agreement, upon the occurrence of an IRB WTL Default, the NHAI shall be entitled to terminate the IRB WTL Concession Agreement by issuing a termination notice to IRB WTL. Before issuing the termination notice, the NHAI shall, by notice, inform IRB WTL of its intention to issue a termination notice and grant 15 days to IRB

WTL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the IRB WTL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 15 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute IRB WTL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of IRB WTL. On a written request from the lenders' representative and IRB WTL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by IRB WTL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the IRB WTL Concession Agreement, the NHAI shall be deemed to be in default of the IRB WTL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the IRB WTL Concession Agreement by IRB WTL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the IRB WTL Concession Agreement and such default has a material adverse effect on IRB WTL;

b) the NHAI has failed to make any payment to IRB WTL within the period specified in the IRB WTL Concession Agreement;

c) the NHAI repudiates the IRB WTL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the IRB WTL Concession Agreement; or

d) the State of Karnataka commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on IRB WTL and the breach continues for a period of 90 days from the date of notice given in this behalf by IRB WTL to the NHAI.

Without prejudice to any other rights or remedies which IRB WTL may have under the IRB WTL Concession Agreement, upon the occurrence of an NHAI Default, IRB WTL shall be entitled to terminate the IRB WTL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, IRB WTL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 15 days to the NHAI to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of an IRB WTL Default during the operation period, the NHAI shall pay to IRB WTL, by way of termination payment, an amount equal to 90% of the IRB WTL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of IRB WTL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to IRB WTL, by way of termination payment, an amount equal to:

a) IRB WTL Debt Due; and
b) 150% of the adjusted equity.

Termination payment shall become due and payable to IRB WTL within 15 days of a demand being made by IRB WTL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the IRB WTL Concession Agreement shall constitute a full and

final settlement of all claims of IRB WTL on account of termination of the IRB WTL Concession Agreement for any reason whatsoever and IRB WTL, or any shareholder thereof, shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

IRB WTL shall be responsible for all defects and deficiencies in the IRB WTL Project Highway for a period of 120 days after termination. IRB WTL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the IRB WTL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the IRB WTL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

5. Concession Agreement between KGTL and the NHAI dated February 22, 2017, as amended

KGTL has entered into a concession agreement for six-laning of Kishangarh to Gulabpura section of NH-79A and NH-79 in Rajasthan with a length of 90.000 km on design, build, finance, operate and transfer ("D**BFOT**") basis (the "**KGTL Concession Agreement**"), for a period of 20 years, from February 21, 2018 ("**KGTL Appointed Date**") or until such date on which the KGTL Concession Agreement is terminated by a termination notice ("**KGTL Termination Date**", and the period between the KGTL Appointed Date and the KGTL Termination Date, the "**KGTL Concession Period**").

Certain Definitions

"**KGTL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principa**l") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the KGTL Debt Due is convertible into equity at the option of the senior lenders and/or KGTL, it shall, for the purposes of the KGTL Concession Agreement, be deemed to be KGTL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**KGTL Debt Service**" shall mean the sum of all payments on account of Principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**KGTL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of KGTL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the KGTL Project Highway (as defined below), but does not include additional facilities;

"**KGTL Project Highway**" shall mean the site comprising the existing road comprising NH-79A and 79 from km 0.000 to km 90.000 and all KGTL Project Assets, and its subsequent development and augmentation in accordance with the KGTL Concession Agreement;

"**KGTL Project**" shall mean the construction, operation, and maintenance of the KGTL Project Highway in accordance with the provisions of the KGTL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project;

"**Premium**" shall mean an amount paid to the NHAI by KGTL in the form of an additional concession fee, as set forth in the bid for each year of the KGTL Concession Period.

Grant of Concession

Subject to, and in accordance with the provisions set out in the KGTL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to KGTL, and KGTL has accepted the concession, including the exclusive right, license, and authority during the subsistence of the KGTL Concession Agreement, to construct, operate and maintain the KGTL Project for a period of 20 years from the KGTL Appointed Date.

Subject to, and in accordance with the provisions of the KGTL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, KGTL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the KGTL Concession Agreement;

b) finance and construct the KGTL Project Highway;

c) manage, operate, and maintain the KGTL Project Highway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the KGTL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of KGTL's obligations under and in accordance with the KGTL Concession Agreement;
f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of KGTL under the KGTL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the KGTL Concession Agreement, or the concession granted, or on the whole or any part of the KGTL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the KGTL Concession Agreement or the agreement for the substitution of KGTL entered into by KGTL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, KGTL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the KGTL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, KGTL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the KGTL Concession Agreement, KGTL shall not collect any fees in relation to exempted vehicles.

KGTL shall not collect any fee from a local user for non-commercial use of the KGTL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the KGTL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, KGTL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, KGTL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the KGTL Project Highway and does not cross a toll plaza.

Concession Fee

In consideration of the grant of concession, KGTL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum.

Additionally, KGTL was required to pay to the NHAI, immediately after the third anniversary year of the COD, a Premium in the form of an additional concession fee equal to ₹1,863 million as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year till the ninth anniversary of the COD, the Premium shall be determined by increasing the amount of Premium in the respective year by an additional 3% as compared to the immediately preceding year and for each subsequent year of the KGTL Concession Period, the Premium shall be determined by increasing the amount of Premium in the respective year by an additional 8% as compared to the immediately preceding year. The Premium is deemed to be a part of the concession fee.

The concession fee payable under the provisions of the KGTL Concession Agreement shall be due and payable in monthly instalments within seven days of the close of each month.

Escrow Account

KGTL was required to, prior to the KGTL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the KGTL Concession Agreement read with the escrow agreement entered into amongst KGTL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

KGTL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;
b) all fee and any other revenues from or in respect of the KGTL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and
c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

KGTL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by KGTL for and in respect of the KGTL Project Highway;

b) all payments relating to construction of the KGTL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) Operation and Management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the KGTL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee due and payable to the NHAI;

f) monthly proportionate provision of KGTL Debt Service due in an accounting year;

g) premium due and payable to the NHAI;

h) all payments and damages certified by the NHAI as due and payable to it by KGTL, including repayment of revenue shortfall loan. KGTL has agreed to give irrevocable instructions to the Escrow Bank to make payments from the Escrow Account in accordance with the instructions of the NHAI under the KGTL Concession Agreement and debit the payment to O&M expenses;

i) monthly proportionate provision of KGTL Debt Service payments due in an accounting year in respect of subordinated debt;

j) any reserve requirements set forth in the financing agreements; and

k) balance, if any, in accordance with the instructions of KGTL.

KGTL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the KGTL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by KGTL for and in respect of the KGTL Project Highway;

b) 90% of the KGTL Debt Due excluding the subordinated debt;
c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by KGTL, including the repayment of the revenue shortfall loan. KGTL has agreed to give irrevocable instruction to the Escrow Bank to make payment from the Escrow Account in accordance with the instructions of the NHAI under the KGTL Concession Agreement and debit the payment to O&M expenses.

e) retention and payments relating to the liability for defects and deficiencies set forth in the KGTL Concession Agreement;

f) outstanding KGTL Debt Service including balance of KGTL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the KGTL Concession Agreement; and

j) balance, if any, in accordance with the instructions of KGTL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the KGTL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the KGTL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the KGTL Concession Agreement and the costs thereof shall be expended by KGTL and reimbursed by the NHAI.

If KGTL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the KGTL Concession Agreement, or inform KGTL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of KGTL being in material default or breach of the KGTL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the KGTL Concession Agreement.

In the event of the NHAI being in material default of the KGTL Concession Agreement at any time after the KGTL Appointed Date, it shall pay to KGTL by way of compensation, all direct costs suffered or incurred by KGTL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the KGTL Concession Agreement.

In the event that a material default or breach of the KGTL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the KGTL Concession Period as provided in the KGTL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the KGTL Concession Agreement, the NHAI shall pay to KGTL, for each day of the breach, compensation as provided in the KGTL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the KGTL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the KGTL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic, then for every 1% (one percent) shortfall as compared to the target traffic, the KGTL Concession Period shall, subject to payment of concession fee in accordance with the KGTL Concession Agreement, be increased by 1.5% (one point five percent) thereof; provided that such increase in KGTL Concession Period shall not in any case exceed 20% (twenty percent) of the KGTL Concession Period.

Subject to the provisions of the KGTL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic, then for every 1% (one percent) excess as compared to the target traffic, the KGTL Concession Period shall be reduced by 0.75% (zero point seven five percent) thereof; provided that such reduction in KGTL Concession Period shall not in any case exceed 10% (ten percent) thereof.

Provided further that in lieu of a reduction in KGTL Concession Period under the KGTL Concession Agreement, KGTL may elect to pay, in addition to the concession fee that would be due and payable if the KGTL Concession Period were not reduced hereunder, a further premium equal to 25% (twenty five percent) of the realizable fee, and upon notice given to this effect by KGTL no later than two years prior to the KGTL Termination Date contemplated by the KGTL Concession Agreement, NHAI shall waive the reduction in KGTL Concession Period hereunder forthwith.

Notwithstanding anything to the contrary contained in KGTL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the KGTL Project Highway, the NHAI at its option may cause preparation of detailed project report which will assess the cost that may have to be incurred for augmenting the capacity of the KGTL Project Highway so that its capacity is sufficiently increased for carrying the then current traffic in accordance with the corresponding provisions of the Indian Roads Congress publication no. IRC -64, 1990 or any substitute thereof. The KGTL Concession Period, may be extended so that it yields for KGTL a post-tax return on equity of 16% per annum. This assessment will be made at an assumed debt to equity ratio of 70:30. The extension of the KGTL Concession Period shall be however limited to five years. The NHAI may thereafter, at their sole option, issue a notice to KGTL, to undertake within six months of such notice, the augmentation so determined by the NHAI. The refusal, non-acceptance, or failure by KGTL to undertake such augmentation on the due date so intimated by the NHAI, will be considered an indirect political event and the NHAI may at its discretion terminate this KGTL Concession Agreement by issuing a termination notice and making a termination payment in accordance with the provisions of the KGTL Concession Agreement without the NHAI being liable to issue any further notice under it.

Termination of the KGTL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the KGTL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and KGTL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, KGTL shall be deemed to be in default of the KGTL Concession Agreement ("**KGTL Default**"), unless the default has occurred solely as a result of any breach of the KGTL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the KGTL Concession Agreement and KGTL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the KGTL Concession Agreement, KGTL fails to cure, within a cure period of 90 days, the KGTL Default for which whole or part of the performance security was appropriated;

c) KGTL does not achieve the latest outstanding project milestone due in accordance with the KGTL Concession Agreement and continues to be in default for 90 days;

d) KGTL abandons or manifests intention to abandon the construction or operation of the KGTL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the KGTL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the KGTL Concession Agreement;

g) KGTL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) KGTL has failed to make any payment to the NHAI within the period specified in the KGTL Concession Agreement;

i) an escrow default has occurred and KGTL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and KGTL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by KGTL has caused a material adverse effect;

l) KGTL creates an encumbrance in breach of the KGTL Concession Agreement;

m) KGTL repudiates the KGTL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the KGTL Concession Agreement;

n) a change in ownership has occurred in breach of the KGTL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of KGTL under any of the project agreements, or of (ii) all or part of the assets or undertaking of KGTL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of KGTL has caused a material adverse effect;

q) KGTL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for KGTL or for the whole or material part of its assets that has a material bearing on the KGTL Project;

r) KGTL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of KGTL is passed, or any petition for winding up of KGTL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or KGTL is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of KGTL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of KGTL under the KGTL Concession Agreement and the project agreements; provided that:

   i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the KGTL Concession Agreement and the project agreements;

   ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the KGTL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of KGTL as at the KGTL Appointed Date; and

   iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of KGTL which is, as of the date hereof, found to be materially false, incorrect or misleading or KGTL is at any time hereafter found to be in breach thereof;

u) KGTL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) KGTL has failed to fulfil any obligation, for which failure termination has been specified in the KGTL Concession Agreement; or

w) KGTL commits a default in complying with any other provision of the KGTL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the KGTL Concession Agreement, upon the occurrence of a KGTL Default, the NHAI shall be entitled to terminate the KGTL Concession Agreement by issuing a termination notice to KGTL. Before issuing the termination notice, the NHAI shall, by notice, inform KGTL of its intention to issue a termination notice and grant 15 days to KGTL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the KGTL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 30 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute KGTL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of KGTL. On a written request from the lenders' representative and KGTL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by KGTL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the KGTL Concession Agreement, the NHAI shall be deemed to be in default of the KGTL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the KGTL Concession Agreement by KGTL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the KGTL Concession Agreement and such default has a material adverse effect on KGTL;

b) the NHAI has failed to make any payment to KGTL within the period specified in the KGTL Concession Agreement;

c) the NHAI repudiates the KGTL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the KGTL Concession Agreement; or

d) the State of Rajasthan commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on KGTL and the breach continues for a period of 90 days from the date of notice given in this behalf by KGTL to the NHAI.

Without prejudice to any other rights or remedies which KGTL may have under the KGTL Concession Agreement, upon the occurrence of an NHAI Default, KGTL shall be entitled to terminate the KGTL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, KGTL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 30 days to the NHAI to make a representation, and may, after the expiry of the 30 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of a KGTL Default during the operation period, the NHAI shall pay to KGTL, by way of termination payment, an amount equal to 90% of the KGTL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of KGTL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to KGTL, by way of termination payment, an amount equal to:

a) KGTL Debt Due; and
b) 150% of the adjusted equity.

The termination payment shall not be less than an amount equal to the product of six and the average monthly fee actually realized 12 months prior to the transfer date.

Termination payment shall become due and payable to KGTL within 30 days of a demand being made by KGTL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the KGTL Concession Agreement shall constitute a full and final settlement of all claims of KGTL on account of termination of the KGTL Concession Agreement for any reason whatsoever and KGTL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

KGTL shall be responsible for all defects and deficiencies in the KGTL Project Highway for a period of 120 days after termination. KGTL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the KGTL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the KGTL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

6. Concession Agreement between KTL and the NHAI dated June 23, 2014

KTL has entered into a concession agreement for four-laning of Kaithal – Rajasthan border section of NH-152/65 in Haryana from km 33+250 (design km -0.500) to km 241+580 (design km 165.759) on design, build, finance, operate and transfer ("**DBFOT**") basis (the "**KTL Concession Agreement**"), for a period of 27 years, from July 15, 2015 ("**KTL Appointed Date**") or until such date on which the KTL Concession Agreement is terminated by a termination notice ("**KTL Termination Date**", and the period between the KTL Appointed Date and the KTL Termination Date, the "**KTL Concession Period**").

Certain Definitions

"**KTL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principa**l") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the KTL Debt Due is convertible into equity at the option of the senior lenders and/or KTL, it shall, for the purposes of the KTL Concession Agreement, be deemed to be KTL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**KTL Debt Service**" shall mean the sum of all payments on account of Principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**KTL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of KTL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the KTL Project Highway (as defined below), but does not include additional facilities;

"**KTL Project Highway**" shall mean the site comprising the existing road comprising NH-152/65 from km 33.250 to km 241.580 and all KTL Project Assets, and its subsequent development and augmentation in accordance with the KTL Concession Agreement;

"**KTL Project**" shall mean the construction, operation, and maintenance of the KTL Project Highway in accordance with the provisions of the KTL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

"**Grant**" shall mean the cash support provided to KTL by the NHAI which is equal to the sum set forth in the bid.

Grant of Concession

Subject to, and in accordance with the provisions set out in the KTL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to KTL, and KTL has accepted the concession, including the exclusive right, license, and authority to construct, operate and maintain the KTL Project for a period of 27 years from the KTL Appointed Date.

Subject to, and in accordance with the provisions of the KTL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, KTL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the KTL Concession Agreement;

b) finance and construct the KTL Project Highway;

c) manage, operate, and maintain the KTL Project Highway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and users liable for payment of fee for using the KTL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of KTL's obligations under and in accordance with the KTL Concession Agreement;

f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of KTL under the KTL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the KTL Concession Agreement, or the concession granted, or on the whole or any part of the KTL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the KTL Concession Agreement or the agreement for the substitution of KTL entered into by KTL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, KTL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the KTL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, KTL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the KTL Concession Agreement, KTL shall not collect any fees in relation to exempted vehicles.

KTL shall not collect any fee from a local user for non-commercial use of the KTL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the KTL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, KTL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, KTL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the KTL Project Highway and does not cross a toll plaza.

Grant

The NHAI has agreed to pay to KTL cash support by way of an outright grant equal to ₹2340 million as set out in the bid. The grant shall be disbursed to KTL by way of equity support. It shall be credited to the Escrow Account (as defined below) and shall be applied by KTL for meeting the total project cost. The equity support shall not exceed the sum specified, but shall in no case be greater than twice the equity, and shall be further restricted to a sum not exceeding 40% of the total project cost.

The equity support shall be due and payable to KTL after it has expended the equity, and shall be disbursed proportionately along with the loan funds thereafter remaining to be disbursed by the senior lenders under the financing agreements. The NHAI shall disburse each tranche of the equity support as and when due, but no later than 15 days of receiving a request from KTL along with necessary particulars. In the event of the occurrence of a KTL Default (as defined below), disbursement of equity support shall be suspended till the KTL Default has been cured.

Concession Fee

In consideration of the grant of concession, KTL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum.

Escrow Account

KTL was required to, prior to the KTL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the KTL Concession Agreement read with the

escrow agreement entered into amongst KTL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

KTL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;

b) all fee and any other revenues from or in respect of the KTL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and

c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

KTL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by KTL for and in respect of the KTL Project Highway;

b) all payments relating to construction of the KTL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) Operation and Management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the KTL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee due and payable to the NHAI;

f) monthly proportionate provision of KTL Debt Service due in an accounting year;

g) all payments and damages certified by the NHAI as due and payable to it by KTL, including repayment of revenue shortfall loan.

h) monthly proportionate provision of KTL Debt Service payments due in an accounting year in respect of subordinated debt;

i) any reserve requirements set forth in the financing agreements; and

j) balance, if any, in accordance with the instructions of KTL.

KTL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the KTL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by KTL for and in respect of the KTL Project Highway;

b) 90% of the KTL Debt Due excluding the subordinated debt;

c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by KTL, including the repayment of the revenue shortfall loan.

e) retention and payments relating to the liability for defects and deficiencies set forth in the KTL Concession Agreement;

f) outstanding KTL Debt Service including balance of KTL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the KTL Concession Agreement; and

j) balance, if any, in accordance with the instructions of KTL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the KTL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the KTL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the KTL Concession Agreement and the costs thereof shall be expended by KTL and reimbursed by the NHAI.

If KTL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 15 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the KTL Concession Agreement, or inform KTL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of KTL being in material default or breach of the KTL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the KTL Concession Agreement.

In the event of the NHAI being in material default of the KTL Concession Agreement at any time after the KTL Appointed Date, it shall pay to KTL by way of compensation, all direct costs suffered or incurred by KTL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the KTL Concession Agreement.

In the event that a material default or breach of the KTL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the KTL Concession Period as provided in the KTL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the KTL Concession Agreement, the NHAI shall pay to KTL, for each day of the breach, compensation as provided in the KTL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the KTL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the KTL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic, then for every 1% (one percent) shortfall as compared to the target traffic, the KTL Concession Period shall, subject to payment of concession fee in accordance with the KTL Concession Agreement, be increased by 1.5% (one point five percent) thereof; provided that such increase in KTL Concession Period shall not in any case exceed 20% (twenty percent) of the KTL Concession Period.

Subject to the provisions of the KTL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic, then for every 1% (one percent) excess as compared to the target traffic, the KTL Concession Period shall be reduced by 0.75% (zero point seven five percent) thereof; provided that such reduction in KTL Concession Period shall not in any case exceed 10% (ten percent) thereof.

Provided further that in lieu of a reduction in KTL Concession Period under the KTL Concession Agreement, KTL may elect to pay, in addition to the concession fee that would be due and payable if the KTL Concession Period were not reduced hereunder, a further premium equal to 25% (twenty five percent) of the realizable fee, and upon notice given to this effect by KTL no later than two years prior to the KTL Termination Date contemplated by the KTL Concession Agreement, NHAI shall waive the reduction in KTL Concession Period hereunder forthwith.

Notwithstanding anything to the contrary contained in KTL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the KTL Project Highway, the NHAI at its option may cause preparation of detailed project report which will assess the cost that may have to be incurred for augmenting the capacity of the KTL Project Highway so that its capacity is sufficiently increased for carrying the then current traffic in accordance with the corresponding provisions of the Indian Roads Congress publication no. IRC -64, 1990 or any substitute thereof. The KTL Concession Period, may be extended so that it yields for KTL a post-tax return on equity of 16% per annum. This assessment will be made at an assumed debt to equity ratio of 70:30. The extension of the KTL Concession Period shall be however limited to five years. The NHAI may thereafter, at their sole option, issue a notice to KTL, to undertake within six months of such notice, the augmentation so determined by the NHAI. The refusal, non-acceptance, or failure by KTL to undertake such augmentation on the due date so intimated by the NHAI, will be considered an indirect political event and the NHAI may at its discretion terminate this KTL Concession Agreement by issuing a termination notice and making a termination payment in accordance with the provisions of the KTL Concession Agreement without the NHAI being liable to issue any further notice under it.

Termination of the KTL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the KTL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and KTL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, KTL shall be deemed to be in default of the KTL Concession Agreement ("**KTL Default**"), unless the default has occurred solely as a result of any breach of the KTL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the KTL Concession Agreement and KTL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the KTL Concession Agreement, KTL fails to cure, within a cure period of 90 days, the KTL Default for which whole or part of the performance security was appropriated;

c) KTL does not achieve the latest outstanding project milestone due in accordance with the KTL Concession Agreement and continues to be in default for 120 days;

d) KTL abandons or manifests intention to abandon the construction or operation of the KTL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the KTL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the KTL Concession Agreement;

g) KTL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) KTL has failed to make any payment to the NHAI within the period specified in the KTL Concession Agreement;

i) an escrow default has occurred and KTL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and KTL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by KTL has caused a material adverse effect;

l) KTL creates an encumbrance in breach of the KTL Concession Agreement;

m) KTL repudiates the KTL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the KTL Concession Agreement;

n) a change in ownership has occurred in breach of the KTL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of KTL under any of the project agreements, or of (ii) all or part of the assets or undertaking of KTL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of KTL has caused a material adverse effect;

q) KTL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for KTL or for the whole or material part of its assets that has a material bearing on the KTL Project;

r) KTL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of KTL is passed, or any petition for winding up of KTL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or KTL is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of KTL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of KTL under the KTL Concession Agreement and the project agreements; provided that:

   i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the KTL Concession Agreement and the project agreements;

   ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the KTL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of KTL as at the KTL Appointed Date; and

   iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of KTL which is, as of the date hereof, found to be materially false, incorrect or misleading or KTL is at any time hereafter found to be in breach thereof;

u) KTL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) KTL has failed to fulfil any obligation, for which failure termination has been specified in the KTL Concession Agreement; or

w) KTL commits a default in complying with any other provision of the KTL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the KTL Concession Agreement, upon the occurrence of a KTL Default, the NHAI shall be entitled to terminate the KTL Concession Agreement by issuing a termination notice to KTL. Before issuing the termination notice, the NHAI shall, by notice, inform KTL of its intention to issue a termination notice and grant 15 days to KTL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the KTL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 15 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute KTL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of KTL. On a written request from the lenders' representative and KTL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by KTL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the KTL Concession Agreement, the NHAI shall be deemed to be in default of the KTL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the KTL Concession Agreement by KTL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the KTL Concession Agreement and such default has a material adverse effect on KTL;

b) the NHAI has failed to make any payment to KTL within the period specified in the KTL Concession Agreement;

c) the NHAI repudiates the KTL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the KTL Concession Agreement; or

d) the State of Haryana commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on KTL and the breach continues for a period of 90 days from the date of notice given in this behalf by KTL to the NHAI.

Without prejudice to any other rights or remedies which KTL may have under the KTL Concession Agreement, upon the occurrence of an NHAI Default, KTL shall be entitled to terminate the KTL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, KTL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 15 days to the NHAI to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of a KTL Default during the operation period, the NHAI shall pay to KTL, by way of termination payment, an amount equal to 90% of the KTL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of KTL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to KTL, by way of termination payment, an amount equal to:

a) KTL Debt Due; and
b) 150% of the adjusted equity.

Termination payment shall become due and payable to KTL within 15 days of a demand being made by KTL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the KTL Concession Agreement shall constitute a full and final settlement of all claims of KTL on account of termination of the KTL Concession Agreement for any reason whatsoever and KTL, or any shareholder thereof, shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

KTL shall be responsible for all defects and deficiencies in the KTL Project Highway for a period of 120 days after termination. KTL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the KTL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the KTL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

6.1. Supplementary Agreement between KTL and the NHAI dated April 5, 2018

KTL has entered into a supplementary agreement (the "**Supplementary Agreement**") to amend the concession agreement dated June 23, 2014 (the "**Concession Agreement**") to provide for the installation of a new electronic toll collection system (the "**Hybrid ETC System**") for electronic payment of user fee using RFID tags or any other such device.

Change of Scope

The NHAI shall provide a change in the scope of work order at prices discovered by the NHAI to KTL to provide for, as per the defined technical specifications, installation, testing, commissioning, operations and maintenance of the Hybrid ETC System in all lanes of the toll plaza. KTL shall ensure that the requisite civil work is completed prior to the installation, integration, testing and commissioning of the Hybrid ETC System. It shall also ensure the smooth flow of traffic during installation, integration, testing and commissioning of the Hybrid ETC System. KTL will have no claim against the NHAI on account of any lane closure, if any, on account of any third party claims.

Scope of Work

KTL shall install, integrate, test, commission, operate and maintain the Hybrid ETC System in all the lanes of the toll plazas. The Hybrid ETC System shall be installed, commissioned, operated and maintained for a period of five years or the end of the Concession Agreement, whichever is earlier, beyond which it will be replaced or renewed, as the case may be, by KTL or the NHAI, at the cost of the NHAI. The cycle shall be maintained till the end of the concession period in accordance with the Concession Agreement.

The provisions of the Concession Agreement relating to change of scope shall not apply to the Supplementary Agreement.

Any permission required by KTL under the applicable laws for the installation of the Hybrid ETC System shall be procured and maintained by KTL. The NHAI shall provide reasonable assistance in this regard.

Timeline

KTL shall complete all responsibilities, obligations and works as described in the Supplementary Agreement within a period of 120 days from the date of signing the Supplementary Agreement.

Damages for Delay

In case of delay in installation, testing, or commissioning of the Hybrid ETC System at the toll plazas as per the time schedule prescribed on account of reasons attributable to KTL, damages at 0.1% of the cost of installation, testing, or commissioning of the Hybrid ETC System for each day of the delay, subject to a maximum of 10% of

the cost of installation, testing, or commissioning of the Hybrid ETC System shall be levied on KTL. Damages for delay will not be applicable in case of a delay in implementation due to delayed payment release by the NHAI.

KTL shall not be entitled to any additional benefit either in monetary terms or on any other account including, but not limited to any extension of time, save on account of and NHAI Default or force majeure.

Compensation

In case of any damage to the Hybrid ETC System due to any act or omission of KTL, the NHAI shall not be liable for any compensation to KTL, and KTL shall bear the cost of repair, replacement or renewal of the damaged Hybrid ETC System equipment or hardware itself.

In case of any damage to the Hybrid ETC System due to the occurrence of any force majeure event, the compensation to KTL shall be derived as per the provisions of the Concession Agreement.

End of the Concession Period

KTL shall hand over all the Hybrid ETC equipment or hardware in an operational condition to the NHAI or a third party as directed by the NHAI at the end of the concession period, beyond which no O&M payment shall be made to KTL. If any Hybrid ETC System equipment or hardware is found to be non-operational, then KTL shall be liable to replace or pay for the replacement of the Hybrid ETC System equipment or hardware required to make the Hybrid ETC System operational on all lanes of the toll plazas to the NHAI promptly.

Upon termination, KTL shall assign warranties received from the original equipment manufacturer and for the components or equipment, and provide the respective warranty assignment agreements and necessary documents. KTL shall ensure that all the warranties are duly assigned in favor of the NHAI and KTL shall bear the cost and expenses towards the assignment.

7. Concession Agreement between SYTL and the NHAI dated March 3, 2014

SYTL has entered into a concession agreement for four-laning of Solapur to Yedeshi section of NH-211 in Maharashtra from km 0.000 to km 100.000 (design length – 98.717 km) on build, operate and transfer ("**BOT**") basis (the "**SYTL Concession Agreement**"), for a period of 29 years, from January 21, 2015 ("**SYTL Appointed Date**") or until such date on which the SYTL Concession Agreement is terminated by a termination notice ("**SYTL Termination Date**", and the period between the SYTL Appointed Date and the SYTL Termination Date, the "**SYTL Concession Period**").

Certain Definitions

"**SYTL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principa**l") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the SYTL Debt Due is convertible into equity at the option of the senior lenders and/or SYTL, it shall, for the purposes of the SYTL Concession Agreement, be deemed to be SYTL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**SYTL Debt Service**" shall mean the sum of all payments on account of Principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**SYTL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of SYTL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the SYTL Project Highway (as defined below), but does not include additional facilities;

"**SYTL Project Highway**" shall mean the site comprising the existing road comprising NH-211 from km 0.000 to km 100.000 and all SYTL Project Assets, and its subsequent development and augmentation in accordance with the SYTL Concession Agreement;

"**SYTL Project**" shall mean the construction, operation, and maintenance of the SYTL Project Highway in accordance with the provisions of the SYTL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

"**Grant**" shall mean the cash support provided to SYTL by the NHAI which is equal to the sum set forth in the bid.

Grant of Concession

Subject to, and in accordance with the provisions set out in the SYTL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to SYTL, and SYTL has accepted the concession, including the exclusive right, license, and authority to construct, operate and maintain the SYTL Project for a period of 29 years from the SYTL Appointed Date.

Subject to, and in accordance with the provisions of the SYTL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, SYTL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the SYTL Concession Agreement;

b) finance and construct the SYTL Project Highway;

c) manage, operate, and maintain the SYTL Project Highway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and users liable for payment of fee for using the SYTL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of SYTL's obligations under and in accordance with the SYTL Concession Agreement;

f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of SYTL under the SYTL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the SYTL Concession Agreement, or the concession granted, or on the whole or any part of the SYTL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the SYTL Concession Agreement or the agreement for the substitution of SYTL entered into by SYTL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, SYTL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the SYTL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated

from time to time. Further, SYTL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the SYTL Concession Agreement, SYTL shall not collect any fees in relation to exempted vehicles.

SYTL shall not collect any fee from a local user for non-commercial use of the SYTL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the SYTL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, SYTL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, SYTL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the SYTL Project Highway and does not cross a toll plaza.

Grant

The NHAI has agreed to pay to SYTL cash support by way of an outright grant equal to ₹1,890 million as set out in the bid. The grant shall be disbursed to SYTL by way of equity support. It shall be credited to the Escrow Account (as defined below) and shall be applied by SYTL for meeting the total project cost. The equity support shall not exceed the sum specified, but shall in no case be greater than twice the equity, and shall be further restricted to a sum not exceeding 40% of the total project cost.

The equity support shall be due and payable to SYTL after it has expended the equity, and shall be disbursed proportionately along with the loan funds thereafter remaining to be disbursed by the senior lenders under the financing agreements. The NHAI shall disburse each tranche of the equity support as and when due, but no later than 15 days of receiving a request from SYTL along with necessary particulars. In the event of the occurrence of an SYTL Default (as defined below), disbursement of equity support shall be suspended till the SYTL Default has been cured.

Concession Fee

In consideration of the grant of concession, SYTL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum.

Escrow Account

SYTL was required to, prior to the SYTL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the SYTL Concession Agreement read with the escrow agreement entered into amongst SYTL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

SYTL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;

b) all fee and any other revenues from or in respect of the SYTL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and

c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

SYTL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by SYTL for and in respect of the SYTL Project Highway;

b) all payments relating to construction of the SYTL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) Operation and Management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the SYTL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee due and payable to the NHAI;

f) monthly proportionate provision of SYTL Debt Service due in an accounting year;

g) all payments and damages certified by the NHAI as due and payable to it by SYTL, including repayment of revenue shortfall loan.

h) monthly proportionate provision of SYTL Debt Service payments due in an accounting year in respect of subordinated debt;

i) any reserve requirements set forth in the financing agreements; and

j) balance, if any, in accordance with the instructions of SYTL.

SYTL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the SYTL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by SYTL for and in respect of the SYTL Project Highway;

b) 90% of the SYTL Debt Due excluding the subordinated debt;

c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by SYTL, including the repayment of the revenue shortfall loan.

e) retention and payments relating to the liability for defects and deficiencies set forth in the SYTL Concession Agreement;

f) outstanding SYTL Debt Service including balance of SYTL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the SYTL Concession Agreement; and

j) balance, if any, in accordance with the instructions of SYTL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the SYTL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the SYTL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the SYTL Concession Agreement and the costs thereof shall be expended by SYTL and reimbursed by the NHAI.

If SYTL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 15 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the SYTL Concession Agreement, or inform SYTL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of SYTL being in material default or breach of the SYTL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the SYTL Concession Agreement.

In the event of the NHAI being in material default of the SYTL Concession Agreement at any time after the SYTL Appointed Date, it shall pay to SYTL by way of compensation, all direct costs suffered or incurred by SYTL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the SYTL Concession Agreement.

In the event that a material default or breach of the SYTL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the SYTL Concession Period as provided in the SYTL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the SYTL Concession Agreement, the NHAI shall pay to SYTL, for each day of the breach, compensation as provided in the SYTL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the SYTL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the SYTL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic, then for every 1% (one percent) shortfall as compared to the target traffic, the SYTL Concession Period shall, subject to payment of concession fee in accordance with the SYTL Concession Agreement, be increased by 1.5% (one point five percent) thereof; provided that such increase in SYTL Concession Period shall not in any case exceed 20% (twenty percent) of the SYTL Concession Period.

Subject to the provisions of the SYTL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic, then for every 1% (one percent) excess as compared to the target traffic, the SYTL Concession Period shall be reduced by 0.75% (zero point seven five percent) thereof; provided that such reduction in SYTL Concession Period shall not in any case exceed 10% (ten percent) thereof.

Provided further that in lieu of a reduction in SYTL Concession Period under the SYTL Concession Agreement, SYTL may elect to pay, in addition to the concession fee that would be due and payable if the SYTL Concession Period were not reduced hereunder, a further premium equal to 25% (twenty five percent) of the realizable fee, and upon notice given to this effect by SYTL no later than two years prior to the SYTL Termination Date contemplated by the SYTL Concession Agreement, NHAI shall waive the reduction in SYTL Concession Period hereunder forthwith.

Notwithstanding anything to the contrary contained in SYTL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the SYTL Project Highway, the NHAI at its option may cause preparation of detailed project report which will assess the cost that may have to be incurred for augmenting the capacity of the SYTL Project Highway so that its capacity is sufficiently increased for carrying the then current traffic in accordance with the corresponding provisions of the Indian Roads Congress publication no. IRC -64, 1990 or any substitute thereof. The SYTL Concession Period, may be extended so that it yields for SYTL a post-tax return on equity of 16% per annum. This assessment will be made at an assumed debt to equity ratio of 70:30. The extension of the SYTL Concession Period shall be however limited to five years. The NHAI may thereafter, at their sole option, issue a notice to SYTL, to undertake within six months of such notice, the augmentation so determined by the NHAI. The refusal, non-acceptance, or failure by SYTL to undertake such augmentation on the due date so intimated by the NHAI, will be considered an indirect political event and the NHAI may at its discretion terminate this SYTL Concession Agreement by issuing a termination notice and making a termination payment in accordance with the provisions of the SYTL Concession Agreement without the NHAI being liable to issue any further notice under it.

Termination of the SYTL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the SYTL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and SYTL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, SYTL shall be deemed to be in default of the SYTL Concession Agreement ("**SYTL Default**"), unless the default has occurred solely as a result of any breach of the SYTL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the SYTL Concession Agreement and SYTL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the SYTL Concession Agreement, SYTL fails to cure, within a cure period of 90 days, the SYTL Default for which whole or part of the performance security was appropriated;

c) SYTL does not achieve the latest outstanding project milestone due in accordance with the SYTL Concession Agreement and continues to be in default for 120 days;

d) SYTL abandons or manifests intention to abandon the construction or operation of the SYTL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the SYTL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the SYTL Concession Agreement;

g) SYTL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) SYTL has failed to make any payment to the NHAI within the period specified in the SYTL Concession Agreement;

i) an escrow default has occurred and SYTL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and SYTL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by SYTL has caused a material adverse effect;

l) SYTL creates an encumbrance in breach of the SYTL Concession Agreement;

m) SYTL repudiates the SYTL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the SYTL Concession Agreement;

n) a change in ownership has occurred in breach of the SYTL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of SYTL under any of the project agreements, or of (ii) all or part of the assets or undertaking of SYTL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of SYTL has caused a material adverse effect;

q) SYTL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for SYTL or for the whole or material part of its assets that has a material bearing on the SYTL Project;

r) SYTL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of SYTL is passed, or any petition for winding up of SYTL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or SYTL is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of SYTL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of SYTL under the SYTL Concession Agreement and the project agreements; provided that:

   i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the SYTL Concession Agreement and the project agreements;

   ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the SYTL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of SYTL as at the SYTL Appointed Date; and

   iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of SYTL which is, as of the date hereof, found to be materially false, incorrect or misleading or SYTL is at any time hereafter found to be in breach thereof;

u) SYTL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) SYTL has failed to fulfil any obligation, for which failure termination has been specified in the SYTL Concession Agreement; or

w) SYTL commits a default in complying with any other provision of the SYTL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the SYTL Concession Agreement, upon the occurrence of an SYTL Default, the NHAI shall be entitled to terminate the SYTL Concession Agreement by issuing a termination notice to SYTL. Before issuing the termination notice, the NHAI shall, by notice, inform SYTL of its intention to issue a termination notice and grant 15 days to SYTL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the SYTL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 15 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute SYTL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of SYTL. On a written

request from the lenders' representative and SYTL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by SYTL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the SYTL Concession Agreement, the NHAI shall be deemed to be in default of the SYTL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the SYTL Concession Agreement by SYTL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the SYTL Concession Agreement and such default has a material adverse effect on SYTL;

b) the NHAI has failed to make any payment to SYTL within the period specified in the SYTL Concession Agreement;

c) the NHAI repudiates the SYTL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the SYTL Concession Agreement; or

d) the State of Maharashtra commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on SYTL and the breach continues for a period of 90 days from the date of notice given in this behalf by SYTL to the NHAI.

Without prejudice to any other rights or remedies which SYTL may have under the SYTL Concession Agreement, upon the occurrence of an NHAI Default, SYTL shall be entitled to terminate the SYTL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, SYTL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 15 days to the NHAI to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of an SYTL Default during the operation period, the NHAI shall pay to SYTL, by way of termination payment, an amount equal to 90% of the SYTL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of SYTL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to SYTL, by way of termination payment, an amount equal to:

a) SYTL Debt Due; and
b) 150% of the adjusted equity.

Termination payment shall become due and payable to SYTL within 15 days of a demand being made by SYTL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the SYTL Concession Agreement shall constitute a full and final settlement of all claims of SYTL on account of termination of the SYTL Concession Agreement for any reason whatsoever and SYTL, or any shareholder thereof, shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

SYTL shall be responsible for all defects and deficiencies in the SYTL Project Highway for a period of 120 days after termination. SYTL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the SYTL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the SYTL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

7.1. Supplementary Agreement between SYTL and the NHAI dated April 12, 2018

SYTL has entered into a supplementary agreement (the "**Supplementary Agreement**") to amend the concession agreement dated March 3, 2014 (the "**Concession Agreement**") to provide for the installation of a new electronic toll collection system (the "**Hybrid ETC System**") for electronic payment of user fee using RFID tags or any other such device.

Change of Scope

The NHAI shall provide a change in the scope of work order at prices discovered by the NHAI to SYTL to provide for, as per the defined technical specifications, installation, testing, commissioning, operations and maintenance of the Hybrid ETC System in all lanes of the toll plaza. SYTL shall ensure that the requisite civil work is completed prior to the installation, integration, testing and commissioning of the Hybrid ETC System. It shall also ensure the smooth flow of traffic during installation, integration, testing and commissioning of the Hybrid ETC System. SYTL will have no claim against the NHAI on account of any lane closure, if any, on account of any third party claims.

Scope of Work

SYTL shall install, integrate, test, commission, operate and maintain the Hybrid ETC System in all the lanes of the toll plazas. The Hybrid ETC System shall be installed, commissioned, operated and maintained for a period of five years or the end of the Concession Agreement, whichever is earlier, beyond which it will be replaced or renewed, as the case may be, by SYTL or the NHAI, at the cost of the NHAI. The cycle shall be maintained till the end of the concession period in accordance with the Concession Agreement.

The provisions of the Concession Agreement relating to change of scope shall not apply to the Supplementary Agreement.

Any permission required by SYTL under the applicable laws for the installation of the Hybrid ETC System shall be procured and maintained by SYTL. The NHAI shall provide reasonable assistance in this regard.

Timeline

SYTL shall complete all responsibilities, obligations and works as described in the Supplementary Agreement within a period of 120 days from the date of signing the Supplementary Agreement.

Damages for Delay

In case of delay in installation, testing, or commissioning of the Hybrid ETC System at the toll plazas as per the time schedule prescribed on account of reasons attributable to SYTL, damages at 0.1% of the cost of installation, testing, or commissioning of the Hybrid ETC System for each day of the delay, subject to a maximum of 10% of the cost of installation, testing, or commissioning of the Hybrid ETC System shall be levied on SYTL. Damages for delay will not be applicable in case of a delay in implementation due to delayed payment release by the NHAI.

SYTL shall not be entitled to any additional benefit either in monetary terms or on any other account including, but not limited to any extension of time, save on account of and NHAI Default or force majeure.

Compensation

In case of any damage to the Hybrid ETC System due to any act or omission of SYTL, the NHAI shall not be liable for any compensation to SYTL, and SYTL shall bear the cost of repair, replacement or renewal of the damaged Hybrid ETC System equipment or hardware itself.

In case of any damage to the Hybrid ETC System due to the occurrence of any force majeure event, the compensation to SYTL shall be derived as per the provisions of the Concession Agreement.

End of the Concession Period

SYTL shall hand over all the Hybrid ETC equipment or hardware in an operational condition to the NHAI or a third party as directed by the NHAI at the end of the concession period, beyond which no O&M payment shall be made to SYTL. If any Hybrid ETC System equipment or hardware is found to be non-operational, then SYTL shall be liable to replace or pay for the replacement of the Hybrid ETC System equipment or hardware required to make the Hybrid ETC System operational on all lanes of the toll plazas to the NHAI promptly.

Upon termination, SYTL shall assign warranties received from the original equipment manufacturer and for the components or equipment, and provide the respective warranty assignment agreements and necessary documents. SYTL shall ensure that all the warranties are duly assigned in favor of the NHAI and SYTL shall bear the cost and expenses towards the assignment.

8. Concession Agreement between UTL and the NHAI dated December 9, 2016, as amended

UTL has entered into a concession agreement for six-laning of NH-8 in Rajasthan and Gujarat from km 287.400 to km 401.200 (approx. length 113.800 km) on design, build, finance, operate and transfer ("**DBFOT**") basis (the "**UTL Concession Agreement**"), for a period of 21 years, from September 3, 2017 ("**UTL Appointed Date**") or until such date on which the UTL Concession Agreement is terminated by a termination notice ("**UTL Termination Date**", and the period between the UTL Appointed Date and the UTL Termination Date, the "**UTL Concession Period**").

Certain Definitions

"**UTL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principal**") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the UTL Debt Due is convertible into equity at the option of the senior lenders and/or UTL, it shall, for the purposes of the UTL Concession Agreement, be deemed to be UTL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**UTL Debt Service**" shall mean the sum of all payments on account of Principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**UTL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of UTL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the UTL Project Highway (as defined below), but does not include additional facilities;

"**UTL Project Highway**" shall mean the site comprising the existing road comprising NH-8 from km 287.400 to km 401.200 and all UTL Project Assets, and its subsequent development and augmentation in accordance with the UTL Concession Agreement;

"**UTL Project**" shall mean the construction, operation, and maintenance of the UTL Project Highway in accordance with the provisions of the UTL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project;

"**Premium**" shall mean an amount paid to the NHAI by UTL in the form of an additional concession fee, as set forth in the bid for each year of the UTL Concession Period.

Grant of Concession

Subject to, and in accordance with the provisions set out in the UTL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to UTL, and UTL has accepted the concession, including the exclusive right, license, and authority during the subsistence of the UTL Concession Agreement, to construct, operate and maintain the UTL Project for a period of 21 years from the UTL Appointed Date.

Subject to, and in accordance with the provisions of the UTL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, UTL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the UTL Concession Agreement;

b) finance and construct the UTL Project Highway;

c) manage, operate, and maintain the UTL Project Highway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the UTL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of UTL's obligations under and in accordance with the UTL Concession Agreement;

f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of UTL under the UTL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the UTL Concession Agreement, or the concession granted, or on the whole or any part of the UTL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the UTL Concession Agreement or the agreement for the substitution of UTL entered into by UTL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, UTL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the UTL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, UTL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the UTL Concession Agreement, UTL shall not collect any fees in relation to exempted vehicles.

UTL shall not collect any fee from a local user for non-commercial use of the UTL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the UTL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, UTL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, UTL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the UTL Project Highway and does not cross a toll plaza.

Concession Fee

In consideration of the grant of concession, UTL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum.

Additionally, UTL was required to pay to the NHAI, immediately after the third anniversary year of the COD, a Premium in the form of an additional concession fee equal to ₹1,638,000,000 as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year till the ninth anniversary of the COD, the Premium shall be determined by increasing the amount of Premium in the respective year by an additional 3% as compared to the immediately preceding year and for each subsequent year of the UTL Concession Period, the Premium shall be determined by increasing the amount of Premium in the respective year by an additional 8% as compared to the immediately preceding year. The Premium is deemed to be a part of the concession fee.

The concession fee payable under the provisions of the UTL Concession Agreement shall be due and payable in monthly instalments within seven days of the close of each month.

Escrow Account

UTL was required to, prior to the UTL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the UTL Concession Agreement read with the escrow agreement entered into amongst UTL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

UTL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;

b) all fee and any other revenues from or in respect of the UTL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and

c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

UTL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by UTL for and in respect of the UTL Project Highway;

b) all payments relating to construction of the UTL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) Operation and Management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the UTL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee due and payable to the NHAI;

f) monthly proportionate provision of UTL Debt Service due in an accounting year;

g) premium due and payable to the NHAI;

h) all payments and damages certified by the NHAI as due and payable to it by UTL, including repayment of revenue shortfall loan. UTL has agreed to give irrevocable instructions to the Escrow Bank to make payments from the Escrow Account in accordance with the instructions of the NHAI under the UTL Concession Agreement and debit the payment to O&M expenses;

i) monthly proportionate provision of UTL Debt Service payments due in an accounting year in respect of subordinated debt;

j) any reserve requirements set forth in the financing agreements; and

k) balance, if any, in accordance with the instructions of UTL.

UTL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the UTL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by UTL for and in respect of the UTL Project Highway;

b) 90% of the UTL Debt Due excluding the subordinated debt;

c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by UTL, including the repayment of the revenue shortfall loan. UTL has agreed to give irrevocable instruction to the Escrow Bank to make payment from the Escrow Account in accordance with the instructions of the NHAI under the UTL Concession Agreement and debit the payment to O&M expenses.

e) retention and payments relating to the liability for defects and deficiencies set forth in the UTL Concession Agreement;

f) outstanding UTL Debt Service including balance of UTL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the UTL Concession Agreement; and

j) balance, if any, in accordance with the instructions of UTL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the UTL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the UTL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the UTL Concession Agreement and the costs thereof shall be expended by UTL and reimbursed by the NHAI.

If UTL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the UTL Concession Agreement, or inform UTL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of UTL being in material default or breach of the UTL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the UTL Concession Agreement.

In the event of the NHAI being in material default of the UTL Concession Agreement at any time after the UTL Appointed Date, it shall pay to UTL by way of compensation, all direct costs suffered or incurred by UTL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the UTL Concession Agreement.

In the event that a material default or breach of the UTL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the UTL Concession Period as provided in the UTL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the UTL Concession Agreement, the NHAI shall pay to UTL, for each day of the breach, compensation as provided in the UTL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the UTL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the UTL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic, then for every 1% (one percent) shortfall as compared to the target traffic, the UTL Concession Period shall, subject to payment of concession fee in accordance with the UTL Concession Agreement, be increased by 1.5% (one point five percent) thereof; provided that such increase in UTL Concession Period shall not in any case exceed 20% (twenty percent) of the UTL Concession Period.

Subject to the provisions of the UTL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic, then for every 1% (one percent) excess as compared to the target traffic, the UTL Concession Period shall be reduced by 0.75% (zero point seven five percent) thereof; provided that such reduction in UTL Concession Period shall not in any case exceed 10% (ten percent) thereof.

Provided further that in lieu of a reduction in UTL Concession Period under the UTL Concession Agreement, UTL may elect to pay, in addition to the concession fee that would be due and payable if the UTL Concession Period were not reduced hereunder, a further premium equal to 25% (twenty five percent) of the realizable fee, and upon notice given to this effect by UTL no later than two years prior to the UTL Termination Date contemplated by the UTL Concession Agreement, NHAI shall waive the reduction in UTL Concession Period hereunder forthwith.

Notwithstanding anything to the contrary contained in UTL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the UTL Project Highway, the NHAI at its option may cause preparation of detailed project report which will assess the cost that may have to be incurred for augmenting the capacity of the UTL Project Highway so that its capacity is sufficiently increased for carrying the then current traffic in accordance with the corresponding provisions of the Indian Roads Congress publication no. IRC -64, 1990 or any substitute thereof. The UTL Concession Period, may be extended so that it yields for UTL a post-tax return on equity of 16% per annum. This assessment will be made at an assumed debt to equity ratio of 70:30. The extension of the UTL Concession Period shall be however limited to five years. The NHAI may thereafter, at their sole option, issue a notice to UTL, to undertake within six months of such notice, the augmentation so determined by the NHAI. The refusal, non-acceptance, or failure by UTL to undertake such augmentation on the due date so intimated by the NHAI, will be considered an indirect political event and the NHAI may at its discretion terminate this UTL Concession Agreement by issuing a termination notice and making a termination payment in accordance with the provisions of the UTL Concession Agreement without the NHAI being liable to issue any further notice under it.

Termination of the UTL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the UTL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and UTL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, UTL shall be deemed to be in default of the UTL Concession Agreement ("**UTL Default**"), unless the default has occurred solely as a result of any breach of the UTL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the UTL Concession Agreement and UTL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the UTL Concession Agreement, UTL fails to cure, within a cure period of 90 days, the UTL Default for which whole or part of the performance security was appropriated;

c) UTL does not achieve the latest outstanding project milestone due in accordance with the UTL Concession Agreement and continues to be in default for 90 days;

d) UTL abandons or manifests intention to abandon the construction or operation of the UTL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the UTL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the UTL Concession Agreement;

g) UTL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) UTL has failed to make any payment to the NHAI within the period specified in the UTL Concession Agreement;

i) an escrow default has occurred and UTL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and UTL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by UTL has caused a material adverse effect;

l) UTL creates an encumbrance in breach of the UTL Concession Agreement;

m) UTL repudiates the UTL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the UTL Concession Agreement;

n) a change in ownership has occurred in breach of the UTL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of UTL under any of the project agreements, or of (ii) all or part of the assets or undertaking of UTL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of UTL has caused a material adverse effect;

q) UTL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for UTL or for the whole or material part of its assets that has a material bearing on the UTL Project;

r) UTL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of UTL is passed, or any petition for winding up of UTL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or UTL is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of UTL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of UTL under the UTL Concession Agreement and the project agreements; provided that:

   i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the UTL Concession Agreement and the project agreements;

   ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the UTL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of UTL as at the UTL Appointed Date; and

   iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of UTL which is, as of the date hereof, found to be materially false, incorrect or misleading or UTL is at any time hereafter found to be in breach thereof;

u) UTL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) UTL has failed to fulfil any obligation, for which failure termination has been specified in the UTL Concession Agreement; or

w) UTL commits a default in complying with any other provision of the UTL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the UTL Concession Agreement, upon the occurrence of a UTL Default, the NHAI shall be entitled to terminate the UTL Concession Agreement by issuing a termination notice to UTL. Before issuing the termination notice, the NHAI shall, by notice, inform UTL of its intention to issue a termination notice and grant 15 days to UTL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the UTL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 30 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute UTL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of UTL. On a written request from the lenders' representative and UTL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by UTL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the UTL Concession Agreement, the NHAI shall be deemed to be in default of the UTL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the UTL Concession Agreement by UTL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the UTL Concession Agreement and such default has a material adverse effect on UTL;

b) the NHAI has failed to make any payment to UTL within the period specified in the UTL Concession Agreement;

c) the NHAI repudiates the UTL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the UTL Concession Agreement; or

d) the State of Rajasthan or Gujarat commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on UTL and the breach continues for a period of 90 days from the date of notice given in this behalf by UTL to the NHAI.

Without prejudice to any other rights or remedies which UTL may have under the UTL Concession Agreement, upon the occurrence of an NHAI Default, UTL shall be entitled to terminate the UTL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, UTL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 30 days to the NHAI to make a representation, and may, after the expiry of the 30 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of a UTL Default during the operation period, the NHAI shall pay to UTL, by way of termination payment, an amount equal to 90% of the UTL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of UTL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to UTL, by way of termination payment, an amount equal to:

a) UTL Debt Due; and
b) 150% of the adjusted equity.

The termination payment shall not be less than an amount equal to the product of six and the average monthly fee actually realized 12 months prior to the transfer date.

Termination payment shall become due and payable to UTL within 30 days of a demand being made by UTL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the UTL Concession Agreement shall constitute a full and final settlement of all claims of UTL on account of termination of the UTL Concession Agreement for any reason whatsoever and UTL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

UTL shall be responsible for all defects and deficiencies in the UTL Project Highway for a period of 120 days after termination. UTL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the UTL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the UTL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

9. Concession Agreement between YATL and the NHAI dated May 30, 2014

YATL has entered into a concession agreement for four-laning of Yedeshi-Aurangabad section of NH-211 in Maharashtra from km 100.000 to km 290.200 on design, build, finance, operate and transfer ("**DBFOT**") basis (the "**YATL Concession Agreement**"), for a period of 26 years, from July 1, 2015 ("**YATL Appointed Date**") or until such date on which the YATL Concession Agreement is terminated by a termination notice ("**YATL Termination Date**", and the period between the YATL Appointed Date and the YATL Termination Date, the "**YATL Concession Period**").

Certain Definitions

"**YATL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principa**l") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the YATL Debt Due is convertible into equity at the option of the senior lenders and/or YATL, it shall, for the purposes of the YATL Concession Agreement, be deemed to be YATL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**YATL Debt Service**" shall mean the sum of all payments on account of Principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**YATL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of YATL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the YATL Project Highway (as defined below), but does not include additional facilities;

"**YATL Project Highway**" shall mean the site comprising the existing road comprising NH-211 from km 100.000 to km 290.200 and all YATL Project Assets, and its subsequent development and augmentation in accordance with the YATL Concession Agreement;

"**YATL Project**" shall mean the construction, operation, and maintenance of the YATL Project Highway in accordance with the provisions of the YATL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

"**Grant**" shall mean the cash support provided to YATL by the NHAI which is equal to the sum set forth in the bid.

Grant of Concession

Subject to, and in accordance with the provisions set out in the YATL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to YATL, and YATL has accepted the concession, including the exclusive right, license, and authority to construct, operate and maintain the YATL Project for a period of 26 years from the YATL Appointed Date.

Subject to, and in accordance with the provisions of the YATL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, YATL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the YATL Concession Agreement;

b) finance and construct the YATL Project Highway;

c) manage, operate, and maintain the YATL Project Highway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and users liable for payment of fee for using the YATL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of YATL's obligations under and in accordance with the YATL Concession Agreement;
f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of YATL under the YATL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the YATL Concession Agreement, or the concession granted, or on the whole or any part of the YATL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the YATL Concession Agreement or the agreement for the substitution of YATL entered into by YATL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, YATL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the YATL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, YATL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the YATL Concession Agreement, YATL shall not collect any fees in relation to exempted vehicles.

YATL shall not collect any fee from a local user for non-commercial use of the YATL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the YATL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, YATL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, YATL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the YATL Project Highway and does not cross a toll plaza.

Grant

The NHAI has agreed to pay to YATL cash support by way of an outright grant equal to ₹5,580 million as set out in the bid. The grant shall be disbursed to YATL by way of equity support. It shall be credited to the Escrow Account (as defined below) and shall be applied by YATL for meeting the total project cost. The equity support shall not exceed the sum specified, but shall in no case be greater than twice the equity, and shall be further restricted to a sum not exceeding 40% of the total project cost.

The equity support shall be due and payable to YATL after it has expended the equity, and shall be disbursed proportionately along with the loan funds thereafter remaining to be disbursed by the senior lenders under the financing agreements. The NHAI shall disburse each tranche of the equity support as and when due, but no later than 15 days of receiving a request from YATL along with necessary particulars. In the event of the occurrence of a YATL Default (as defined below), disbursement of equity support shall be suspended till the YATL Default has been cured.

Concession Fee

In consideration of the grant of concession, YATL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum.

Escrow Account

YATL was required to, prior to the YATL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the YATL Concession Agreement read with the

escrow agreement entered into amongst YATL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

YATL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;

b) all fee and any other revenues from or in respect of the YATL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and

c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

YATL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by YATL for and in respect of the YATL Project Highway;

b) all payments relating to construction of the YATL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) Operation and Management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the YATL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee due and payable to the NHAI;

f) monthly proportionate provision of YATL Debt Service due in an accounting year;

g) all payments and damages certified by the NHAI as due and payable to it by YATL, including repayment of revenue shortfall loan.

h) monthly proportionate provision of YATL Debt Service payments due in an accounting year in respect of subordinated debt;

i) any reserve requirements set forth in the financing agreements; and

j) balance, if any, in accordance with the instructions of YATL.

YATL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the YATL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by YATL for and in respect of the YATL Project Highway;

b) 90% of the YATL Debt Due excluding the subordinated debt;

c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by YATL, including the repayment of the revenue shortfall loan.

e) retention and payments relating to the liability for defects and deficiencies set forth in the YATL Concession Agreement;

f) outstanding YATL Debt Service including balance of YATL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the YATL Concession Agreement; and

j) balance, if any, in accordance with the instructions of YATL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the YATL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the YATL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the YATL Concession Agreement and the costs thereof shall be expended by YATL and reimbursed by the NHAI.

If YATL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 15 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the YATL Concession Agreement, or inform YATL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of YATL being in material default or breach of the YATL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the YATL Concession Agreement.

In the event of the NHAI being in material default of the YATL Concession Agreement at any time after the YATL Appointed Date, it shall pay to YATL by way of compensation, all direct costs suffered or incurred by YATL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the YATL Concession Agreement.

In the event that a material default or breach of the YATL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the YATL Concession Period as provided in the YATL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the YATL Concession Agreement, the NHAI shall pay to YATL, for each day of the breach, compensation as provided in the YATL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the YATL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the YATL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic, then for every 1% (one percent) shortfall as compared to the target traffic, the YATL Concession Period shall, subject to payment of concession fee in accordance with the YATL Concession Agreement, be increased by 1.5% (one point five percent) thereof; provided that such increase in YATL Concession Period shall not in any case exceed 20% (twenty percent) of the YATL Concession Period.

Subject to the provisions of the YATL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic, then for every 1% (one percent) excess as compared to the target traffic, the YATL Concession Period shall be reduced by 0.75% (zero point seven five percent) thereof; provided that such reduction in YATL Concession Period shall not in any case exceed 10% (ten percent) thereof.

Provided further that in lieu of a reduction in YATL Concession Period under the YATL Concession Agreement, YATL may elect to pay, in addition to the concession fee that would be due and payable if the YATL Concession Period were not reduced hereunder, a further premium equal to 25% (twenty five percent) of the realizable fee, and upon notice given to this effect by YATL no later than two years prior to the YATL Termination Date contemplated by the YATL Concession Agreement, NHAI shall waive the reduction in YATL Concession Period hereunder forthwith.

Notwithstanding anything to the contrary contained in YATL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the YATL Project Highway, the NHAI at its option may cause preparation of detailed project report which will assess the cost that may have to be incurred for augmenting the capacity of the YATL Project Highway so that its capacity is sufficiently increased for carrying the then current traffic in accordance with the corresponding provisions of the Indian Roads Congress publication no. IRC -64, 1990 or any substitute thereof. The YATL Concession Period, may be extended so that it yields for YATL a post-tax return on equity of 16% per annum. This assessment will be made at an assumed debt to equity ratio of 70:30. The extension of the YATL Concession Period shall be however limited to five years. The NHAI may thereafter, at their sole option, issue a notice to YATL, to undertake within six months of such notice, the augmentation so determined by the NHAI. The refusal, non-acceptance, or failure by YATL to undertake such augmentation on the due date so intimated by the NHAI, will be considered an indirect political event and the NHAI may at its discretion terminate this YATL Concession Agreement by issuing a termination notice and making a termination payment in accordance with the provisions of the YATL Concession Agreement without the NHAI being liable to issue any further notice under it.

Termination of the YATL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the YATL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and YATL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, YATL shall be deemed to be in default of the YATL Concession Agreement ("**YATL Default**"), unless the default has occurred solely as a result of any breach of the YATL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the YATL Concession Agreement and YATL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the YATL Concession Agreement, YATL fails to cure, within a cure period of 90 days, the YATL Default for which whole or part of the performance security was appropriated;

c) YATL does not achieve the latest outstanding project milestone due in accordance with the YATL Concession Agreement and continues to be in default for 120 days;

d) YATL abandons or manifests intention to abandon the construction or operation of the YATL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the YATL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the YATL Concession Agreement;

g) YATL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) YATL has failed to make any payment to the NHAI within the period specified in the YATL Concession Agreement;

i) an escrow default has occurred and YATL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and YATL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by YATL has caused a material adverse effect;

l) YATL creates an encumbrance in breach of the YATL Concession Agreement;

m) YATL repudiates the YATL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the YATL Concession Agreement;

n) a change in ownership has occurred in breach of the YATL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of YATL under any of the project agreements, or of (ii) all or part of the assets or undertaking of YATL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of YATL has caused a material adverse effect;

q) YATL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for YATL or for the whole or material part of its assets that has a material bearing on the YATL Project;

r) YATL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of YATL is passed, or any petition for winding up of YATL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or YATL is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of YATL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of YATL under the YATL Concession Agreement and the project agreements; provided that:

   i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the YATL Concession Agreement and the project agreements;

   ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the YATL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of YATL as at the YATL Appointed Date; and

   iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of YATL which is, as of the date hereof, found to be materially false, incorrect or misleading or YATL is at any time hereafter found to be in breach thereof;

u) YATL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) YATL has failed to fulfil any obligation, for which failure termination has been specified in the YATL Concession Agreement; or

w) YATL commits a default in complying with any other provision of the YATL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the YATL Concession Agreement, upon the occurrence of a YATL Default, the NHAI shall be entitled to terminate the YATL Concession Agreement by issuing a termination notice to YATL. Before issuing the termination notice, the NHAI shall, by notice, inform YATL of its intention to issue a termination notice and grant 15 days to YATL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the YATL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 15 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute YATL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of YATL. On a written request from the lenders' representative and YATL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by YATL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the YATL Concession Agreement, the NHAI shall be deemed to be in default of the YATL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the YATL Concession Agreement by YATL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the YATL Concession Agreement and such default has a material adverse effect on YATL;

b) the NHAI has failed to make any payment to YATL within the period specified in the YATL Concession Agreement;

c) the NHAI repudiates the YATL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the YATL Concession Agreement; or

d) the State of Maharashtra commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on YATL and the breach continues for a period of 90 days from the date of notice given in this behalf by YATL to the NHAI.

Without prejudice to any other rights or remedies which YATL may have under the YATL Concession Agreement, upon the occurrence of an NHAI Default, YATL shall be entitled to terminate the YATL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, YATL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 15 days to the NHAI to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of a YATL Default during the operation period, the NHAI shall pay to YATL, by way of termination payment, an amount equal to 90% of the YATL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of YATL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to YATL, by way of termination payment, an amount equal to:

a) YATL Debt Due; and
b) 150% of the adjusted equity.

Termination payment shall become due and payable to YATL within 15 days of a demand being made by YATL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the YATL Concession Agreement shall constitute a full and final settlement of all claims of YATL on account of termination of the YATL Concession Agreement for any reason whatsoever and YATL, or any shareholder thereof, shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

YATL shall be responsible for all defects and deficiencies in the YATL Project Highway for a period of 120 days after termination. YATL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the YATL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the YATL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

10. Concession Agreement between PDTPL and the NHAI dated June 14, 2021

PDTPL has entered into a concession agreement for the six-laning of National Corridor NH-19 from Palsit to Dankuni (upto NH-6 Connector) from KM 588.870 to KM 652.700 (total design length 63.830 km) in the State of West Bengal under Bharatmala Pariyojana to be executed on BOT (Toll) basis (the "**PDTPL Concession Agreement**"), for a period of 17 years, from April 2, 2022 ("**PDTPL Appointed Date**") or until such date on which the PDTPL Concession Agreement is terminated by a termination notice ("**PDTPL Termination Date**", and the period between the PDTPL Appointed Date and the PDTPL Termination Date, the "**PDTPL Concession Period**").

Certain Definitions

"**PDTPL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principa**l") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the PDTPL Debt Due is convertible into equity at the option of the senior lenders and/or PDTPL, it shall, for the purposes of the PDTPL Concession Agreement, be deemed to be PDTPL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**PDTPL Debt Service**" shall mean the sum of all payments on account of principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**PDTPL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems,

communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of PDTPL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the PDTPL Project Highway (as defined below), but does not include additional facilities;

"**PDTPL Project Highway**" shall mean the site comprising the existing road comprising NH-19 from km 588.870 to km 652.700 and all PDTPL Project Assets, and its subsequent development and augmentation in accordance with the PDTPL Concession Agreement;

"**PDTPL Project**" shall mean the construction, operation, and maintenance of the PDTPL Project Highway in accordance with the provisions of the PDTPL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

"**Premium**" shall mean an amount payable to the NHAI by PDTPL in the form of an additional concession fee, as set forth in the bid for each year of the PDTPL Concession Period.

Grant of Concession

Subject to, and in accordance with the provisions set out in the PDTPL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to PDTPL, and PDTPL has accepted the concession, including the exclusive right, license, and authority during the subsistence of the PDTPL Concession Agreement, to construct, operate and maintain the PDTPL Project for a period of 17 years from the PDTPL Appointed Date.

Subject to, and in accordance with the provisions of the PDTPL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, PDTPL to:

h) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the PDTPL Concession Agreement;

i) finance and construct the PDTPL Project Highway;

j) manage, operate, and maintain the PDTPL Project Highway and regulate the use thereof by third parties;

k) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the PDTPL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

l) perform and fulfil all of PDTPL's obligations under and in accordance with the PDTPL Concession Agreement;

m) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of PDTPL under the PDTPL Concession Agreement; and

n) neither assign, transfer or sublet, or create any lien or encumbrance on the PDTPL Concession Agreement, or the concession granted, or on the whole or any part of the PDTPL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the PDTPL Concession Agreement or the agreement for the substitution of PDTPL entered into by PDTPL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, PDTPL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the PDTPL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, PDTPL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the PDTPL Concession Agreement, PDTPL shall not collect any fees in relation to exempted vehicles.

PDTPL shall not collect any fee from a local user for non-commercial use of the PDTPL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the PDTPL Project Highway as specified in the

pass and for crossing the toll plaza specified therein. For carrying out these provisions, PDTPL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, PDTPL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the PDTPL Project Highway and does not cross a toll plaza.

Concession Fee

In consideration of the grant of concession, PDTPL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum.

Additionally, immediately after the first anniversary of the project completion date, a premium in the form of an additional concession fee for every year of the remaining concession period is payable by PDTPL. The premium to be paid for the second year after the project completion date is equal to 10.8% of the realisable fee and is required to be paid by PDTPL as due to the NHAI during that year. For subsequent years, the premium will be determined based on the total realisable fee in the respective year at the percentage to be arrived at by increasing the percentage of premium in the respective year by an additional 1% as compared to the immediately preceding year.

The concession fee payable under the provisions of the PDTPL Concession Agreement shall be due and payable in monthly instalments within seven days of the close of each month.

Escrow Account

PDTPL was required to, prior to the PDTPL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the PDTPL Concession Agreement read with the escrow agreement entered into among PDTPL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

PDTPL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;
b) all fee and any other revenues from or in respect of the PDTPL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and
c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

PDTPL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by PDTPL for and in respect of the PDTPL Project Highway;

b) all payments relating to construction of the PDTPL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) operation and management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the PDTPL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee and premium due and payable to the NHAI;

f) monthly proportionate provision of PDTPL Debt Service due in an accounting year;

g) premium due and payable to the NHAI;

h) all payments and damages certified by the NHAI as due and payable to it by PDTPL, including repayment of revenue shortfall loan. PDTPL has agreed to give irrevocable instructions to the Escrow Bank to make payments from the Escrow Account in accordance with the instructions of the NHAI under the PDTPL Concession Agreement and debit the payment to O&M expenses;

i) monthly proportionate provision of PDTPL Debt Service payments due in an accounting year in respect of subordinated debt;

j) any reserve requirements set forth in the financing agreements; and

k) balance, if any, in accordance with the instructions of PDTPL.

PDTPL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the PDTPL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by PDTPL for and in respect of the PDTPL Project Highway;

b) 90% of the PDTPL Debt Due excluding the subordinated debt;

c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by PDTPL, including the repayment of the revenue shortfall loan. PDTPL has agreed to give irrevocable instruction to the Escrow Bank to make payment from the Escrow Account in accordance with the instructions of the NHAI under the PDTPL Concession Agreement and debit the payment to O&M expenses.

e) retention and payments relating to the liability for defects and deficiencies set forth in the PDTPL Concession Agreement;

f) outstanding PDTPL Debt Service including balance of PDTPL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the PDTPL Concession Agreement; and

j) balance, if any, in accordance with the instructions of PDTPL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the PDTPL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the PDTPL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the PDTPL Concession Agreement and the costs thereof shall be expended by PDTPL and reimbursed by the NHAI in accordance with the PDTPL Concession Agreement.

If PDTPL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the PDTPL Concession Agreement, or inform PDTPL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of PDTPL being in material default or breach of the PDTPL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the PDTPL Concession Agreement.

In the event of the NHAI being in material default or breach of the PDTPL Concession Agreement at any time after the PDTPL Appointed Date, it shall pay to PDTPL by way of compensation, all direct costs suffered or incurred by PDTPL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the PDTPL Concession Agreement.

In the event that a material default or breach of the PDTPL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the PDTPL Concession Period as provided in the PDTPL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the PDTPL Concession Agreement, the NHAI shall pay to PDTPL, for each day of the breach, compensation as provided in the PDTPL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the PDTPL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the PDTPL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic by more than 5% (five percent), then for every 1% (one percent) shortfall as compared to the target traffic, the PDTPL Concession Period shall, subject to payment of concession fee and additional concession fee in accordance with the PDTPL Concession Agreement, be increased by 1% (one percent) thereof; provided that such increase in PDTPL Concession Period shall not in any case exceed 20% (twenty percent) of the PDTPL Concession Period.

Subject to the provisions of the PDTPL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic by more than 5% (five percent), then for every 1% (one percent) increase as compared to the target traffic, the PDTPL Concession Period shall be reduced by 1% (one percent) thereof; provided that such reduction in PDTPL Concession Period shall not in any case exceed 20% (twenty percent) of the PDTPL Concession Period.

Notwithstanding anything to the contrary contained in the PDTPL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the PDTPL Project Highway, an indirect political event under the PDTPL Concession Agreement will be deemed to have occurred and the NHAI may, at its discretion, terminate the PDTPL Concession Agreement. If PDTPL has completed the construction works necessary for augmenting the capacity of the PDTPL Project Highway such that its capacity has increased sufficiently for carrying the then current traffic in accordance with the corresponding provisions of the relevant Indian Roads Congress publication, prior to the issue of a termination notice by the NHAI, the indirect political event will deemed to have been cured.

Termination of the PDTPL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the PDTPL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and PDTPL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, PDTPL shall be deemed to be in default of the PDTPL Concession Agreement ("**PDTPL Default**"), unless the default has occurred solely as a result of any breach of the PDTPL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the PDTPL Concession Agreement and PDTPL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the PDTPL Concession Agreement, PDTPL fails to cure, within a cure period of 90 days, the PDTPL Default for which whole or part of the performance security was appropriated;

c) PDTPL does not achieve the latest outstanding project milestone due in accordance with the PDTPL Concession Agreement and continues to be in default for 90 days;

d) PDTPL abandons or manifests intention to abandon the construction or operation of the PDTPL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the PDTPL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the PDTPL Concession Agreement;

g) PDTPL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) PDTPL has failed to make any payment to the NHAI within the period specified in the PDTPL Concession Agreement;

i) an escrow default has occurred and PDTPL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and PDTPL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by PDTPL has caused a material adverse effect;

l) PDTPL creates an encumbrance in breach of the PDTPL Concession Agreement;

m) PDTPL repudiates the PDTPL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the PDTPL Concession Agreement;

n) a change in ownership has occurred in breach of the PDTPL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of PDTPL under any of the project agreements, or of (ii) all or part of the assets or undertaking of PDTPL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of PDTPL has caused a material adverse effect;

q) PDTPL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for PDTPL or for the whole or material part of its assets that has a material bearing on the PDTPL Project;

r) PDTPL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of PDTPL is passed, or any petition for winding up of PDTPL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or PDTPL is ordered to be wound up by a court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction,

the entire property, assets and undertaking of PDTPL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of PDTPL under the PDTPL Concession Agreement and the project agreements; provided that:

i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the PDTPL Concession Agreement and the project agreements;

ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the PDTPL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of PDTPL as at the PDTPL Appointed Date; and

iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of PDTPL which is, as of the date hereof, found to be materially false, incorrect or misleading or PDTPL is at any time hereafter found to be in breach thereof;

u) PDTPL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) PDTPL has failed to fulfil any obligation, for which failure termination has been specified in the PDTPL Concession Agreement; or

w) PDTPL commits a default in complying with any other provision of the PDTPL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the PDTPL Concession Agreement, upon the occurrence of a PDTPL Default, the NHAI shall be entitled to terminate the PDTPL Concession Agreement by issuing a termination notice to PDTPL. Before issuing the termination notice, the NHAI shall, by notice, inform PDTPL of its intention to issue a termination notice and grant 15 days to PDTPL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the PDTPL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 30 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute PDTPL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of PDTPL. On a written request from the lenders' representative and PDTPL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by PDTPL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the PDTPL Concession Agreement, the NHAI shall be deemed to be in default of the PDTPL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the PDTPL Concession Agreement by PDTPL, or due to force majeure. The default referred to herein shall include:

e) the NHAI commits a material default in complying with any of the provisions of the PDTPL Concession Agreement and such default has a material adverse effect on PDTPL;

f) the NHAI has failed to make any payment to PDTPL within the period specified in the PDTPL Concession Agreement;

g) the NHAI repudiates the PDTPL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the PDTPL Concession Agreement; or

h) the State of West Bengal commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on PDTPL and the breach continues for a period of 90 days from the date of notice given in this behalf by PDTPL to the NHAI.

Without prejudice to any other rights or remedies which PDTPL may have under the PDTPL Concession Agreement, upon the occurrence of an NHAI Default, PDTPL shall be entitled to terminate the PDTPL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, PDTPL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 30 days to the NHAI to make a representation, and may, after the expiry of the 30 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of a PDTPL Default during the operation period, the NHAI shall pay to PDTPL, by way of termination payment, an amount equal to 90% of the PDTPL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of PDTPL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to PDTPL, by way of termination payment, an amount equal to:

a) PDTPL Debt Due; and
b) 150% of the adjusted equity.

The termination payment shall not be less than an amount equal to the product of six and the average monthly fee actually realized 12 months prior to the transfer date.

Termination payment shall become due and payable to PDTPL within 30 days of a demand being made by PDTPL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the PDTPL Concession Agreement shall constitute a full and final settlement of all claims of PDTPL on account of termination of the PDTPL Concession Agreement for any reason whatsoever and PDTPL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

PDTPL shall be responsible for all defects and deficiencies in the PDTPL Project Highway for a period of 120 days after termination. PDTPL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the PDTPL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the PDTPL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

11. Concession Agreement among IRB GEPL, IRB, HMDA and HGCL dated May 26, 2023

IRB GEPL has entered into a concession agreement for development, operation, maintenance, and management of Nehru Outer Ring Road from km 0+000 to km 158+000, in Hyderabad, Telangana on toll operate transfer ("**TOT**") basis (the "**IRB GEPL Concession Agreement**"), for a period of 30 years, from August 12, 2023, the appointed date under the IRB GEPL Concession Agreement ("**IRB GEPL Appointed Date**") or until such date on which the IRB GEPL Concession Agreement is terminated by a termination notice ("**IRB GEPL Termination Date**", and the period between the IRB GEPL Appointed Date and the IRB GEPL Termination Date, the "**IRB GEPL Concession Period**").

Certain Definitions

"**IRB GEPL Debt**" shall mean the financial assistance provided by lenders in terms of the financial agreement, relevant financial package, towards meeting the debt component of the concession fee amount that is paid by IRB GEPL to HMDA in terms hereof.

"**IRB GEPL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) all rights of IRB GEPL under the project agreements; (d) security deposits (e) insurance proceeds; and (f) applicable permits and authorizations relating to or in respect of the IRB GEPL Project Road (as defined below) but does not include additional facilities;

"**IRB GEPL Project Road**" shall mean the site comprising the existing road comprising the following:

Stretch	State	Start (KM)	End (KM)	Length (KM)
Nehru Outer Ring Road	Telangana	0.000	158.010	158.010

and all IRB GEPL Project Assets, and its operation and maintenance subject to and in accordance with IRB GEPL Concession Agreement;

"**IRB GEPL Project**" shall mean the operation, and maintenance of the IRB GEPL Project Road in accordance with the provisions of the IRB GEPL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

"**Substitution Agreement**" shall mean the agreement to be entered into between HMDA, IRB GEPL and the lenders in the form set in IRB GEPL Concession Agreement.

Grant of Concession

Subject to, and in accordance with the provisions set out in the IRB GEPL Concession Agreement, the applicable laws and the applicable permits, the HMDA has granted to IRB GEPL, and IRB GEPL has accepted the concession, including the exclusive right, license, and authority during the subsistence of the IRB GEPL Concession Agreement, to collect and demand appropriate fee, operate, manage and maintain the IRB GEPL Project for a period of 30 years from the IRB GEPL Appointed Date.

Subject to, and in accordance with the provisions of the IRB GEPL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, IRB GEPL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the IRB GEPL Concession Agreement;

b) manage, operate, and maintain IRB GEPL Project Road and regulate the use thereof by third parties in accordance with the terms of the IRB GEPL Concession Agreement;

c) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the IRB GEPL Project Road or any part thereof and refuse entry of any vehicle if the fee due is not paid;

d) perform and fulfil all of IRB GEPL's obligations under and in accordance with the IRB GEPL Concession Agreement;

e) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of IRB GEPL under the IRB GEPL Concession Agreement; and

f) neither assign, transfer or sublet, or create any lien or encumbrance on IRB GEPL Concession Agreement, or the concession granted, or on the whole or any part of IRB GEPL Project Road, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the IRB GEPL Concession Agreement

Fees

On and from the IRB GEPL Appointed Date till the transfer date (as defined under the IRB GEPL Concession Agreement), IRB GEPL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the IRB GEPL Concession Agreement and the applicable rules and regulations, provided that IRB GEPL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the IRB GEPL Concession Agreement, IRB GEPL shall not collect any fees in relation to exempted vehicles.

IRB GEPL acknowledges and agrees that upon payment of fee, any user shall be entitled to use IRB GEPL Project Road and IRB GEPL shall not place, or cause to be placed, any restriction on such use, except to the extent specified in any applicable law, applicable permit or provisions of the IRB GEPL Concession Agreement.

Concession Fee

In consideration of the grant of concession, IRB GEPL has paid to the HMDA in accordance with terms of the IRB GEPL Concession Agreement and prior to the IRB GEPL Appointed Date, the lumpsum upfront concession fee of an amount equivalent to ₹73.80 billion.

Escrow Account

IRB GEPL is required to, prior to the IRB GEPL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the IRB GEPL Concession Agreement read with the escrow agreement entered into amongst IRB GEPL, the HMDA, the Escrow Bank and the lenders through the lenders' representative (the "**Escrow Agreement**").

IRB GEPL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;

b) all fee and any other revenues from or in respect of the IRB GEPL Project Road, including the proceeds of any deposits, capital receipts or insurance claims; and

c) all payments by the HMDA including, if any, in relation to the change of scope in the IRB GEPL Project Road.

Withdrawals during Concession Period

IRB GEPL is required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, inter alia, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by IRB GEPL for and in respect of the IRB GEPL Project Road;

b) all payments relating to construction of the IRB GEPL Project Road, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) Operation and Management ("**O&M**") expenses;

d) O&M expenses and other costs and expenses incurred by the HMDA in accordance with the provisions of the IRB GEPL Concession Agreement, and certified by the HMDA as due and payable to it;

e) monthly proportionate provision of debt service payment due in an accounting year;

f) all payments and damages certified by the HMDA as due and payable to it by IRB GEPL,

g) balance, if any, in accordance with the instructions of IRB GEPL.

IRB GEPL shall not, in any manner, modify the order of payment specified except with prior written approval from the HMDA and the lenders.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the IRB GEPL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by IRB GEPL for and in respect of the IRB GEPL Project Road;

b) payment due to lenders;

c) all payments and damages certified by the HMDA as due and payable to it by IRB GEPL;

d) retention and payments relating to the liability for defects and deficiencies set forth in the IRB GEPL Concession Agreement;

e) incurred or accrued O&M expenses;

f) any other payments required to be made under the IRB GEPL Concession Agreement; and

g) balance, if any, in accordance with the instructions of IRB GEPL.

No appropriations shall be made until a vesting certificate has been issued by the HMDA.

Change of Scope

The HMDA and/or HGCL may, notwithstanding anything to the contrary contained in the IRB GEPL Concession Agreement, but subject to provisions on 'restriction on certain works' in the IRB GEPL Concession Agreement, require IRB GEPL to alterations/modifications in the scope of IRB GEPL Project. Any such change of scope shall be made in accordance with the provisions of the IRB GEPL Concession Agreement and the costs thereof shall be expended by IRB GEPL and reimbursed by the HMDA.

If IRB GEPL determines at any time that a change in scope is necessary, it shall, by notice in writing, require the HMDA to consider such change of scope. The HMDA and/or HGCL shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the IRB GEPL Concession Agreement, or inform IRB GEPL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of IRB GEPL being in material default or breach of the IRB GEPL Concession Agreement, it shall pay to the HMDA by way of compensation, all direct costs suffered or incurred by the HMDA as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the IRB GEPL Concession Agreement or for any consequential losses incurred by HMDA.

In the event of the HMDA being in material default of the IRB GEPL Concession Agreement at any time after the IRB GEPL Appointed Date, it shall pay to IRB GEPL by way of compensation, all direct costs suffered or incurred by IRB GEPL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the IRB GEPL Concession Agreement. Compensation payable may include O&M Expenses and all other costs directly attributable to such material breach or default but shall not include loss of fee revenues or debt repayment or other consequential losses. In the event that a material default or breach of the IRB GEPL Concession Agreement leads to suspension of, or reduction in collection of fee, as the case may be, the HMDA shall, in addition to the payment of compensation, extend the IRB GEPL Concession Period as provided in the IRB GEPL Concession Agreement

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Termination of the IRB GEPL Concession Agreement

Termination by the HMDA

Save as otherwise provided in the IRB GEPL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and IRB GEPL fails to cure the default within the specified cure period, or where no cure period is specified, then within a cure period of 60 days, IRB GEPL shall be deemed to be in default of the IRB GEPL Concession Agreement ("**IRB GEPL Default**"), unless the default has occurred solely as a result of any breach of the IRB GEPL Concession Agreement by the HMDA and/or HGCL or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the IRB GEPL Concession Agreement and IRB GEPL fails to replenish or provide fresh performance security within a cure period of 15 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the IRB GEPL Concession Agreement, IRB GEPL fails to cure, within a cure period of 60 days, the IRB GEPL Default for which whole or part of the performance security was appropriated;

c) IRB GEPL abandons or manifests intention to abandon the operation and maintenance of IRB GEPL Project Road/additional facilities without the prior written consent of HMDA

d) IRB GEPL fails/omits to facilitate HMDA and / or HGCL during construction/development of the additional facilities in terms IRB GEPL Concession Agreement;

e) IRB GEPL fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with IRB GEPL Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

f) IRB GEPL is in breach of the maintenance requirements or the safety requirements as the case may be;

g) IRB GEPL fails to do additional operations & maintenance in terms of IRB GEPL Concession Agreement;

h) IRB GEPL has failed to make any payment to the HMDA and/or HGCL within the period specified in the IRB GEPL Concession Agreement;

i) upon occurrence of a financial default, the lenders' representative has, by notice, required the HMDA to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and IRB GEPL fails to cure the default within the cure period specified hereinabove;

j) a breach of the project agreements by IRB GEPL has caused a material adverse effect;

k) IRB GEPL creates an encumbrance in breach of the IRB GEPL Concession Agreement;

l) IRB GEPL repudiates the IRB GEPL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the IRB GEPL Concession Agreement;

m) a change in ownership has occurred in breach of the IRB GEPL Concession Agreement;

n) there is a transfer, pursuant to law either of (i) the rights and/or obligations of IRB GEPL under any of the project agreements, or of (ii) all or part of the assets or undertaking of IRB GEPL, and such transfer causes a material adverse effect;

o) an execution levied on any of the assets of IRB GEPL has caused a material adverse effect;

p) IRB GEPL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for IRB GEPL or for the whole or material part of its assets that has a material bearing on the IRB GEPL Project;

q) IRB GEPL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the HMDA, a material adverse effect;

r) a resolution for winding up of IRB GEPL is passed, or any petition for winding up of IRB GEPL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or IRB GEPL is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of IRB GEPL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of IRB GEPL under the IRB GEPL Concession Agreement and the project agreements; provided that:

   i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the IRB GEPL Concession Agreement and the project agreements;

   ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the IRB GEPL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of IRB GEPL as at the IRB GEPL Appointed Date; and

   iii) each of the project agreements remains in full force and effect;

s) any representation or warranty of IRB GEPL which is, as of the date of execution of the IRB GEPL Concession Agreement, found to be materially false, incorrect or misleading

t) IRB GEPL submits to the HMDA and/or HGCL any statement, notice or other document, in written or electronic form, which has a material effect on the HMDA's and/or HGCL's rights, obligations or interests and which is false in material particulars;

u) IRB GEPL has failed to fulfil any obligation, for which failure termination has been specified in the IRB GEPL Concession Agreement; or

v) IRB GEPL commits a default in complying with any other provision of the IRB GEPL Concession Agreement if such default causes a material adverse effect on the HMDA and/or HGCL.

w) an escrow default has occurred and IRB GEPL fails to cure the default within a cure period of 15 days;

Without prejudice to any other rights or remedies which the HMDA may have under the IRB GEPL Concession Agreement, upon the occurrence of an IRB GEPL Default, the HMDA shall be entitled to issue a notice of its intention to terminate the IRB GEPL Concession Agreement with a copy thereof to the lenders.

Immediately upon the issue by Authority of the notice of intention to terminate, the lenders shall have the right to nominate an entity to replace IRB GEPL and perform IRB GEPL's obligations hereunder (the "**Substitute Entity**"). IRB GEPL shall procure that lenders shall notify HMDA about whether they are exercising their right of substitution within 60 days of receipt of notice of intention to terminate, or the lenders' notice of Default (as defined in the Substitution Agreement). Any such Substitute Entity shall have the legal, financial and technical capability reasonably necessary to perform the obligations of IRB GEPL in accordance with the terms of IRB GEPL Concession Agreement. Any such Substitute Entity shall be nominated in accordance with the procedure as set out in the Substitution Agreement.

Termination by IRB GEPL

In the event that any of the defaults specified below shall have occurred, and the HMDA fails to cure the default within a cure period of 90 days or such longer period as provided in the IRB GEPL Concession Agreement, the HMDA shall be deemed to be in default of the IRB GEPL Concession Agreement ("**HMDA Default**"), unless the default has occurred as a result of a breach of the IRB GEPL Concession Agreement by IRB GEPL, or due to force majeure. The default referred to herein shall include:

a) the HMDA commits a material default in complying with any of the provisions of the IRB GEPL Concession Agreement and such default has a material adverse effect on IRB GEPL;

b) the HMDA repudiates the IRB GEPL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the IRB GEPL Concession Agreement; or

c) the State commits a material default in complying with the provisions of the state's letter of comfort, if such default has a material adverse effect on IRB GEPL and the breach continues for a period of 90 days from the date of notice given in this behalf by IRB GEPL to the HMDA.

Without prejudice to any other rights or remedies which IRB GEPL may have under the IRB GEPL Concession Agreement, upon the occurrence of an HMDA Default, IRB GEPL shall be entitled to terminate the IRB GEPL Concession Agreement by issuing a termination notice to the HMDA. Before issuing the termination notice, IRB GEPL shall, by notice, inform the HMDA of its intention to issue a termination notice and grant 15 days to the HMDA to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of an IRB GEPL Default during the IRB GEPL Concession Period, the performance security shall be forfeited and IRB GEPL would continue to be liable towards any antecedent liability, all obligations accrued before the effective date of the termination and also for the obligations including divestment requirements that must be fulfilled in terms hereof after termination. In addition to this, HMDA shall pay to IRB GEPL 70% of the unexpired cash flow.

Upon termination on account of an HMDA Default, the HMDA shall pay to IRB GEPL, by way of termination payment, an amount equal to 105% of the unexpired cash flow.

IRB GEPL shall be entitled to receive termination payment only upon furnishing to HMDA no objection certificate issued by lenders/lenders' representative recording/effecting release; vacation/discharge of the charge on IRB GEPL Project receivables (if any) created by IRB GEPL for securing repayment of IRB GEPL Debt.

Without prejudice to the respective rights or remedy of the HMDA and IRB GEPL, the termination payment shall become due and payable to IRB GEPL within 15 days of a demand being made by IRB GEPL to the HMDA with the necessary particulars, and in the event of any delay, the HMDA shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the IRB GEPL Concession Agreement shall constitute a full and final settlement of all claims of IRB GEPL on account of termination of the IRB GEPL Concession Agreement for any reason whatsoever and IRB GEPL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

IRB GEPL shall be responsible for all defects and deficiencies in the IRB GEPL Project Road for a period of 60 days after termination. IRB GEPL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the IRB GEPL Project Road as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the HMDA and/or HGCLin this behalf. A sum equal to the performance security shall be retained in the Escrow Account for a period of 90 days after termination for meeting the liabilities, if any, arising out of, or in connection with the provisions governing 'defects liability after termination' in the IRB GEPL Concession Agreement.

12. Concession Agreement between STPL and the NHAI dated May 12, 2023

STPL has entered into a concession agreement in respect of the upgradation to six lane with paved shoulder of NH-27 from Samakhiyali to Santalpur section from KM 339+200 to KM 430+100 in the state of Gujarat to be executed on a design, build, finance, operate and transfer basis (the "**STPL Concession Agreement**"), for a period of 20 years, from December 28, 2023 ("**STPL Appointed Date**") or until such date on which the STPL Concession Agreement is terminated by a termination notice ("**STPL Termination Date**", and the period between the STPL Appointed Date and the STPL Termination Date, the "**STPL Concession Period**").

Certain Definitions

"**STPL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principa**l") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an NHAI Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the STPL Debt Due is convertible into equity at the option of the senior lenders and/or STPL, it shall, for the purposes of the STPL Concession Agreement, be deemed to be STPL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**STPL Debt Service**" shall mean the sum of all payments on account of principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**STPL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of STPL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the STPL Project Highway (as defined below), but does not include additional facilities;

"**STPL Project Highway**" shall mean the site comprising the existing road comprising NH-27 from 339+200 to 430+100 and all STPL Project Assets, and its subsequent development and augmentation in accordance with the STPL Concession Agreement;

"**STPL Project**" shall mean the construction, operation, and maintenance of the STPL Project Highway in accordance with the provisions of the STPL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

"**Premium**" shall mean an amount payable to the NHAI by STPL in the form of an additional concession fee, as set forth in the bid for each year of the STPL Concession Period.

Grant of Concession

Subject to, and in accordance with the provisions set out in the STPL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to STPL, and STPL has accepted the concession, including the exclusive right, license, and authority during the subsistence of the STPL Concession Agreement, to construct, operate and maintain the STPL Project for a period of 20 years from the STPL Appointed Date.

Subject to, and in accordance with the provisions of the STPL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, STPL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the STPL Concession Agreement;

b) finance and construct the STPL Project Highway;

c) manage, operate, and maintain the STPL Project Highway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the STPL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of STPL's obligations under and in accordance with the STPL Concession Agreement;

f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of STPL under the STPL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the STPL Concession Agreement, or the concession granted, or on the whole or any part of the STPL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the STPL Concession Agreement or the agreement for the substitution of STPL entered into by STPL, the NHAI, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, STPL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the STPL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, STPL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the STPL Concession Agreement, STPL shall not collect any fees in relation to exempted vehicles.

STPL shall not collect any fee from a local user for non-commercial use of the STPL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the STPL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, STPL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, STPL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the STPL Project Highway and does not cross a toll plaza.

Concession Fee

In consideration of the grant of concession, STPL shall pay to the NHAI by way of concession fee a sum of ₹1 per annum.

Additionally, immediately after the first anniversary of the project completion date, a premium in the form of an additional concession fee for every year of the remaining concession period is payable by STPL. The premium to be paid for the second year after the project completion date is equal to 42.84% of the realisable fee and is required to be paid by STPL as due to the NHAI during that year. For subsequent years, the premium will be determined based on the total realisable fee in the respective year at the percentage to be arrived at by increasing the percentage of premium in the respective year by an additional 1% as compared to the immediately preceding year.

The concession fee payable under the provisions of the STPL Concession Agreement shall be due and payable in monthly instalments within seven days of the close of each month.

Escrow Account

STPL was required to, prior to the STPL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the STPL Concession Agreement read with the escrow agreement entered into among STPL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

STPL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;
b) all fee and any other revenues from or in respect of the STPL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and
c) all payments by the NHAI, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

STPL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by STPL for and in respect of the STPL Project Highway;

b) all payments relating to construction of the STPL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) operation and management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the STPL Concession Agreement, and certified by the NHAI as due and payable to it;

e) concession fee and premium due and payable to the NHAI;

f) monthly proportionate provision of STPL Debt Service due in an accounting year;

g) premium due and payable to the NHAI;

h) all payments and damages certified by the NHAI as due and payable to it by STPL, including repayment of revenue shortfall loan. STPL has agreed to give irrevocable instructions to the Escrow Bank to make payments from the Escrow Account in accordance with the instructions of the NHAI under the STPL Concession Agreement and debit the payment to O&M expenses;

i) monthly proportionate provision of STPL Debt Service payments due in an accounting year in respect of subordinated debt;

j) any reserve requirements set forth in the financing agreements; and

k) balance, if any, in accordance with the instructions of STPL.

STPL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the STPL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by STPL for and in respect of the STPL Project Highway;

b) 90% of the STPL Debt Due excluding the subordinated debt;

c) outstanding concession fee;

d) all payments and damages certified by the NHAI as due and payable to it by STPL, including the repayment of the revenue shortfall loan. STPL has agreed to give irrevocable instruction to the Escrow Bank to make payment from the Escrow Account in accordance with the instructions of the NHAI under the STPL Concession Agreement and debit the payment to O&M expenses.

e) retention and payments relating to the liability for defects and deficiencies set forth in the STPL Concession Agreement;

f) outstanding STPL Debt Service including balance of STPL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the STPL Concession Agreement; and

j) balance, if any, in accordance with the instructions of STPL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the STPL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the STPL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the STPL Concession Agreement and the costs thereof shall be expended by STPL and reimbursed by the NHAI in accordance with the STPL Concession Agreement.

If STPL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the STPL Concession Agreement, or inform STPL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of STPL being in material default or breach of the STPL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the STPL Concession Agreement.

In the event of the NHAI being in material default or breach of the STPL Concession Agreement at any time after the STPL Appointed Date, it shall pay to STPL by way of compensation, all direct costs suffered or incurred by STPL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the STPL Concession Agreement.

In the event that a material default or breach of the STPL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the STPL Concession Period as provided in the STPL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the STPL Concession Agreement, the NHAI shall pay to STPL, for each day of the breach, compensation as provided in the STPL Concession Agreement, until the breach is cured. The payment of compensation by the NHAI shall be deemed to cure the breach of the STPL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the STPL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic by more than 5% (five percent), then for every 1% (one percent) shortfall as compared to the target traffic, the STPL Concession Period shall, subject to payment of concession fee and additional concession fee in accordance with the STPL Concession Agreement, be increased by 1% (one percent) thereof; provided that such increase in STPL Concession Period shall not in any case exceed 20% (twenty percent) of the STPL Concession Period.

Subject to the provisions of the STPL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic by more than 5% (five percent), then for every 1% (one percent) increase as compared to the target traffic, the STPL Concession Period shall be reduced by 1% (one percent) thereof; provided that such reduction in STPL Concession Period shall not in any case exceed 20% (twenty percent) of the STPL Concession Period.

Notwithstanding anything to the contrary contained in the STPL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the STPL Project Highway, an indirect political event under the STPL Concession Agreement will be deemed to have occurred and the NHAI may, at its discretion, terminate the STPL Concession Agreement. If STPL has completed the construction works necessary for augmenting the capacity of the STPL Project Highway such that its capacity has increased sufficiently for carrying the then current traffic in accordance with the corresponding provisions of the relevant Indian Roads Congress publication, prior to the issue of a termination notice by the NHAI, the indirect political event will deemed to have been cured.

Termination of the STPL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the STPL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and STPL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, STPL shall be deemed to be in default of the STPL Concession Agreement ("**STPL Default**"), unless the default has occurred solely as a result of any breach of the STPL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the STPL Concession Agreement and STPL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the STPL Concession Agreement, STPL fails to cure, within a cure period of 90 days, the STPL Default for which whole or part of the performance security was appropriated;

c) STPL does not achieve the latest outstanding project milestone due in accordance with the STPL Concession Agreement and continues to be in default for 90 days;

d) STPL abandons or manifests intention to abandon the construction or operation of the STPL Project Highway without the prior written consent of the NHAI;

e) project completion date does not occur within the period specified in the STPL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the STPL Concession Agreement;

g) STPL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) STPL has failed to make any payment to the NHAI within the period specified in the STPL Concession Agreement;

i) an escrow default has occurred and STPL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and STPL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by STPL has caused a material adverse effect;

l) STPL creates an encumbrance in breach of the STPL Concession Agreement;

m) STPL repudiates the STPL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the STPL Concession Agreement;

n) a change in ownership has occurred in breach of the STPL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of STPL under any of the project agreements, or of (ii) all or part of the assets or undertaking of STPL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of STPL has caused a material adverse effect;

q) STPL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for STPL or for the whole or material part of its assets that has a material bearing on the STPL Project;

r) STPL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

s) a resolution for winding up of STPL is passed, or any petition for winding up of STPL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or STPL is ordered to be wound up by a court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of STPL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of STPL under the STPL Concession Agreement and the project agreements; provided that:

   iv) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the STPL Concession Agreement and the project agreements;

   v) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the STPL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of STPL as at the STPL Appointed Date; and

   vi) each of the project agreements remains in full force and effect;

t) any representation or warranty of STPL which is, as of the date hereof, found to be materially false, incorrect or misleading or STPL is at any time hereafter found to be in breach thereof;

u) STPL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

v) STPL has failed to fulfil any obligation, for which failure termination has been specified in the STPL Concession Agreement; or

w) STPL commits a default in complying with any other provision of the STPL Concession Agreement if such default causes a material adverse effect on the NHAI.

Without prejudice to any other rights or remedies which the NHAI may have under the STPL Concession Agreement, upon the occurrence of a STPL Default, the NHAI shall be entitled to terminate the STPL Concession Agreement by issuing a termination notice to STPL. Before issuing the termination notice, the NHAI shall, by notice, inform STPL of its intention to issue a termination notice and grant 15 days to STPL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the STPL Concession Agreement.

If there are senior lenders, the NHAI shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 30 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute STPL in accordance with the Substitution Agreement. If the NHAI receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the NHAI shall withdraw its notice and restore the rights of STPL. On a written request from the lenders' representative and STPL, the NHAI shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by STPL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the STPL Concession Agreement, the NHAI shall be deemed to be in default of the STPL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the STPL Concession Agreement by STPL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the STPL Concession Agreement and such default has a material adverse effect on STPL;

b) the NHAI has failed to make any payment to STPL within the period specified in the STPL Concession Agreement;

c) the NHAI repudiates the STPL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the STPL Concession Agreement; or

d) the State commits a material default in complying with the provisions of the State Support Agreement if such default has a material adverse effect on STPL and the breach continues for a period of 90 days from the date of notice given in this behalf by STPL to the NHAI.

Without prejudice to any other rights or remedies which STPL may have under the STPL Concession Agreement, upon the occurrence of an NHAI Default, STPL shall be entitled to terminate the STPL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, STPL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 30 days to the NHAI to make a representation, and may, after the expiry of the 30 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of a STPL Default during the operation period, the NHAI shall pay to STPL, by way of termination payment, an amount equal to 90% of the STPL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of STPL Debt Due.

Upon termination on account of an NHAI Default, the NHAI shall pay to STPL, by way of termination payment, an amount equal to:

a) STPL Debt Due; and
b) 150% of the adjusted equity.

The termination payment shall not be less than an amount equal to the product of six and the average monthly fee actually realized 12 months prior to the transfer date.

Termination payment shall become due and payable to STPL within 30 days of a demand being made by STPL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not

exceed 90 days. The termination payment under the STPL Concession Agreement shall constitute a full and final settlement of all claims of STPL on account of termination of the STPL Concession Agreement for any reason whatsoever and STPL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

STPL shall be responsible for all defects and deficiencies in the STPL Project Highway for a period of 120 days after termination. STPL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the STPL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the STPL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

13. Concession Agreement between IRB LTPL and the NHAI dated November 24, 2023

IRB LTPL has entered into a concession agreement in respect of the tolling, operation, management, maintenance and transfer of four lane Lalitpur-Sagar-Lakhnadon section of NH-26 (from Km 99.005 to Km 415.089) in Uttar Pradesh and Madhya Pradesh to be executed on a toll-operate-transfer basis (the "**IRB LTPL Concession Agreement**"), for a period of 20 years from the appointed date under the IRB LTPL Concession Agreement ("**IRB LTPL Appointed Date**") or until such date on which the IRB LTPL Concession Agreement is terminated by a termination notice ("**IRB LTPL Termination Date**", and the period between the IRB LTPL Appointed Date and the IRB LTPL Termination Date, the "**IRB LTPL Concession Period**").

Certain Definitions

"**IRB LTPL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) all rights of IRB LTPL under the project agreements; (d) financial assets, such as receivables, security deposits etc.; (e) insurance proceeds; and (f) applicable permits and authorizations relating to or in respect of the IRB LTPL Project Highway (as defined below), but does not include additional facilities;

"**IRB LTPL Project Highway**" shall mean the site comprising the following:

Stretch	State	Start (KM)	End (KM)	Length (KM)
Lalitpur-Sagar-Lakhnadon	Uttar Pradesh and Madhya Pradesh	99+005	415+089	316+084

and all IRB LTPL Project Assets, and its operation and maintenance in accordance with the IRB LTPL Concession Agreement;

"**IRB LTPL Project**" shall mean the operation and maintenance of the IRB LTPL Project Highway in accordance with the provisions of the IRB LTPL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

Grant of Concession

Subject to, and in accordance with the provisions set out in the IRB LTPL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to IRB LTPL, and IRB LTPL has accepted the concession, including the exclusive right, license, and authority during the subsistence of the IRB LTPL Concession Agreement, to operate and maintain the IRB LTPL Project for a period of 20 years from the IRB LTPL Appointed Date.

Subject to, and in accordance with the provisions of the IRB LTPL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, IRB LTPL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the IRB LTPL Concession Agreement;

b) manage, operate, and maintain the IRB LTPL Project Highway and regulate the use thereof by third parties;

c) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the IRB LTPL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

d) perform and fulfil all of IRB LTPL's obligations under and in accordance with the IRB LTPL Concession Agreement;

e) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of IRB LTPL under the IRB LTPL Concession Agreement; and

f) neither assign, transfer or sublet, or create any lien or encumbrance on the IRB LTPL Concession Agreement, or the concession granted, or on the whole or any part of the IRB LTPL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the IRB LTPL Concession Agreement.

Fees

On and from the appointed date till the transfer date, IRB LTPL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the IRB LTPL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, IRB LTPL may determine and collect fee at such lower rates as it may, by public notice to the users or vehicles.

IRB LTPL shall not collect any fee from a local user for non-commercial use of the IRB LTPL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the IRB LTPL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, IRB LTPL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, IRB LTPL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the IRB LTPL Project Highway and does not cross a toll plaza.

Concession Fee

In consideration of the grant of concession, IRB LTPL shall pay to the NHAI in accordance with terms of the IRB LTPL Concession Agreement and prior to the IRB LTPL Appointed Date, a lumpsum upfront concession fee of an amount equivalent to ₹44.28 billion.

Escrow Account

IRB LTPL was required to, prior to the IRB LTPL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the IRB LTPL Concession Agreement read with the escrow agreement entered into among IRB LTPL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

IRB LTPL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;
b) all fee and any other revenues from or in respect of the IRB LTPL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and
c) all payments by the NHAI, including, if any, in relation to the change of scope.

Withdrawals during Concession Period

IRB LTPL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by IRB LTPL for and in respect of the IRB LTPL Project Highway;

b) all payments relating to construction of the IRB LTPL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) operation and management ("**O&M**") expenses;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the IRB LTPL Concession Agreement, and certified by the NHAI as due and payable to it;

e) monthly proportionate provision of IRB LTPL Debt Service due in an accounting year;

f) all payments and damages certified by the NHAI as due and payable to it by IRB LTPL; and

g) balance, if any, in accordance with the instructions of IRB LTPL.

IRB LTPL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI and the lenders.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the IRB LTPL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by IRB LTPL for and in respect of the IRB LTPL Project Highway;

b) payment due to lenders;

c) all payments and damages certified by the NHAI as due and payable to it by IRB LTPL;

d) retention and payments relating to the liability for defects and deficiencies set forth in the IRB LTPL Concession Agreement;

e) incurred or accrued O&M expenses;

f) any other payments required to be made under the IRB LTPL Concession Agreement; and

g) balance, if any, in accordance with the instructions of IRB LTPL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the IRB LTPL Concession Agreement, require IRB LTPL to make alterations or modifications in the scope of the project. Any such change of scope shall be made in accordance with the provisions of the IRB LTPL Concession Agreement and the costs thereof shall be expended by IRB LTPL and reimbursed by the NHAI in accordance with the IRB LTPL Concession Agreement.

If IRB LTPL determines at any time that a change in scope is necessary, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions

of the IRB LTPL Concession Agreement, or inform IRB LTPL in writing of its reasons for not accepting such change of scope request.

Compensation for Breach of Agreement

In the event of IRB LTPL being in material default or breach of the IRB LTPL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the IRB LTPL Concession Agreement. Compensation payable may include operation and maintenance expenses and all other costs directly attributable to such material breach or default but does not include loss of fee revenues or debt repayment or other consequential losses

In the event of the NHAI being in material default or breach of the IRB LTPL Concession Agreement at any time after the IRB LTPL Appointed Date, it shall pay to IRB LTPL by way of compensation, all direct costs suffered or incurred by IRB LTPL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the IRB LTPL Concession Agreement.

In the event that a material default or breach of the IRB LTPL Concession Agreement leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the IRB LTPL Concession Period as provided in the IRB LTPL Concession Agreement. The payment of compensation by the NHAI shall be deemed to cure the breach of the IRB LTPL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Termination of the IRB LTPL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the IRB LTPL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and IRB LTPL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, IRB LTPL shall be deemed to be in default of the IRB LTPL Concession Agreement ("**IRB LTPL Default**"), unless the default has occurred solely as a result of any breach of the IRB LTPL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the IRB LTPL Concession Agreement and IRB LTPL fails to replenish or provide fresh performance security within a cure period of 15 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the IRB LTPL Concession Agreement, IRB LTPL fails to cure, within a cure period of 60 days, the IRB LTPL Default for which whole or part of the performance security was appropriated;

c) IRB LTPL abandons or manifests intention to abandon the operation and maintenance of the IRB LTPL Project Highway without the prior written consent of the NHAI;

d) IRB LTPL fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with the IRB LTPL Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

e) IRB LTPL is in breach of the maintenance requirements or the safety requirements as the case may be;

f) IRB LTPL has failed to make any payment to the NHAI within the period specified in the IRB LTPL Concession Agreement;

g) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and IRB LTPL fails to cure the default within the cure period specified hereinabove;

h) a breach of the project agreements by IRB LTPL has caused a material adverse effect;

i) IRB LTPL creates an encumbrance in breach of the IRB LTPL Concession Agreement;

j) IRB LTPL repudiates the IRB LTPL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the IRB LTPL Concession Agreement;

k) a change in ownership has occurred in breach of the IRB LTPL Concession Agreement;

l) there is a transfer, pursuant to law either of (i) the rights and/or obligations of IRB LTPL under any of the project agreements, or of (ii) all or part of the assets or undertaking of IRB LTPL, and such transfer causes a material adverse effect;

m) an execution levied on any of the assets of IRB LTPL has caused a material adverse effect;

n) IRB LTPL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for IRB LTPL or for the whole or material part of its assets that has a material bearing on the IRB LTPL Project;

o) IRB LTPL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

p) a resolution for winding up of IRB LTPL is passed, or any petition for winding up of IRB LTPL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or IRB LTPL is ordered to be wound up by a court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of IRB LTPL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of IRB LTPL under the IRB LTPL Concession Agreement and the project agreements; provided that:

    i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the IRB LTPL Concession Agreement and the project agreements;

    ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the IRB LTPL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of IRB LTPL as at the IRB LTPL Appointed Date; and

    iii) each of the project agreements remains in full force and effect;

q) any representation or warranty of IRB LTPL which is, as of the date hereof, found to be materially false, incorrect or misleading or IRB LTPL is at any time hereafter found to be in breach thereof;

r) IRB LTPL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

s) IRB LTPL has failed to fulfil any obligation, for which failure termination has been specified in the IRB LTPL Concession Agreement; or

t) IRB LTPL commits a default in complying with any other provision of the IRB LTPL Concession Agreement if such default causes a material adverse effect on the NHAI.; or

u) an escrow default has occurred and IRB LTPL fails to cure the default within a cure period of 15 days.

Without prejudice to any other rights or remedies which the NHAI may have under the IRB LTPL Concession Agreement, upon the occurrence of a IRB LTPL Default, the NHAI shall be entitled to issue a notice of its intention to terminate the IRB LTPL Concession Agreement, with a copy therof to the lenders. Immediately upon

the issue by the NHAI of the notice of intention to terminate, the lenders shall have the right to nominate an entity to replace IRB LTPL and perform IRB LTPL's obligations under the IRB LTPL Concession Agreement. IRB LTPL shall procure that lenders shall notify the NHAI about whether they are exercising their right of substitution within 60 days of receipt of notice of intention to terminate, or the lender's notice of default. Any such substitute entity shall have the legal, financial and technical capability reasonably necessary to perform the obligations of IRB LTPL in accordance with the procedure as set out in the Substitution Agreement.

Termination by IRB LTPL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the IRB LTPL Concession Agreement, the NHAI shall be deemed to be in default of the IRB LTPL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the IRB LTPL Concession Agreement by IRB LTPL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the IRB LTPL Concession Agreement and such default has a material adverse effect on IRB LTPL;

b) the NHAI repudiates the IRB LTPL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the IRB LTPL Concession Agreement; or

c) the State commits a material default in complying with the provisions of the State Support Agreemenr if such default has a material adverse effect on IRB LTPL and the breach continues for a period of 90 days from the date of notice given in this behalf by IRB LTPL to the NHAI.

Without prejudice to any other rights or remedies which IRB LTPL may have under the IRB LTPL Concession Agreement, upon the occurrence of an NHAI Default, IRB LTPL shall be entitled to terminate the IRB LTPL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, IRB LTPL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 15 days to the NHAI to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of IRB LTPL Default during the operation period, the performance security shall be forfeited and IRB LTPL would continue to be liable towards any antecedent liability, all obligations accrued before the effective date of the termination and also the obligations including divestment requirements that must be fulfilled in terms hereof after termination. In the event of the NHAI terminating the IRB LTPL Concession Agreement on account of IRB LTPL Default and in addition to the NHAI forfeiting the performance security, the NHAI shall pay IRB LTPL 70% of the unexpired cash flow.

Upon termination on account of an NHAI Default, the NHAI shall pay to IRB LTPL, by way of termination payment, an amount equal to 105% of the unexpired cash flow.

Termination payment shall become due and payable to IRB LTPL within 15 days of a demand being made by IRB LTPL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the IRB LTPL Concession Agreement shall constitute a full and final settlement of all claims of IRB LTPL on account of termination of the IRB LTPL Concession Agreement for any reason whatsoever and IRB LTPL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

IRB LTPL shall be responsible for all defects and deficiencies in the IRB LTPL Project Highway for a period of 60 days after termination. IRB LTPL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the IRB LTPL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the IRB LTPL Concession Agreement shall be retained in the Escrow Account

for a period of 90 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

14. Concession Agreement between IRB GTPL and the NHAI dated January 12, 2024

IRB GTPL has entered into a concession agreement in respect of the tolling, operation, management, maintenance and transfer of Gwalior Jhansi section from km 0.00 (revised km 16.00) to km 103.00 (revised km 98.455) in the State of Madhya Pradesh and Uttar Pradesh to be executed on a toll-operate-transfer basis (the "**IRB GTPL Concession Agreement**"), for a period of 20 years from the appointed date under the IRB GTPL Concession Agreement ("**IRB GTPL Appointed Date**") or until such date on which the IRB GTPL Concession Agreement is terminated by a termination notice ("**IRB GTPL Termination Date**", and the period between the IRB GTPL Appointed Date and the IRB GTPL Termination Date, the "**IRB GTPL Concession Period**").

Certain Definitions

"**IRB GTPL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) all rights of IRB GTPL under the project agreements; (d) financial assets, such as receivables, security deposits etc.; (e) insurance proceeds; and (f) applicable permits and authorizations relating to or in respect of the IRB GTPL Project Highway (as defined below), but does not include additional facilities;

"**IRB GTPL Project Highway**" shall mean the site comprising the following:

Stretch	State	Start (KM)	End (KM)	Length (KM)
Gwalior Jhansi section	Madhya Pradesh and Uttar Pradesh	0.000 (revised 16.000)	103.000 (revised 98.455)	82.455

and all IRB GTPL Project Assets, and its operation and maintenance in accordance with the IRB GTPL Concession Agreement;

"**IRB GTPL Project**" shall mean the operation and maintenance of the IRB GTPL Project Highway in accordance with the provisions of the IRB GTPL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

Grant of Concession

Subject to, and in accordance with the provisions set out in the IRB GTPL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to IRB GTPL, and IRB GTPL have accepted the concession, including the exclusive right, license, and authority during the subsistence of the IRB GTPL Concession Agreement, to operate and maintain the IRB GTPL Project for a period of 20 years from the IRB GTPL Appointed Date.

Subject to, and in accordance with the provisions of the IRB GTPL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, IRB GTPL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the IRB GTPL Concession Agreement;

b) manage, operate, and maintain the IRB GTPL Project Highway and regulate the use thereof by third parties;

c) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the IRB GTPL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

d) perform and fulfil all of IRB GTPL's obligations under and in accordance with the IRB GTPL Concession Agreement;

e) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of IRB GTPL under the IRB GTPL Concession Agreement; and

f) neither assign, transfer or sublet, or create any lien or encumbrance on the IRB GTPL Concession Agreement, or the concession granted, or on the whole or any part of the IRB GTPL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the IRB GTPL Concession Agreement.

Fees

On and from the appointed date till the transfer date, IRB GTPL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the IRB GTPL Concession Agreement and the applicable rules and regulations. In accordance with the IRB GTPL Concession Agreement, IRB GTPL shall not collect any fees in relation to exempted vehicles.

IRB GTPL shall not collect any fee from a local user for non-commercial use of the IRB GTPL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the IRB GTPL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, IRB GTPL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, IRB GTPL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the IRB GTPL Project Highway and does not cross a toll plaza.

Concession Fee

In consideration of the grant of concession, IRB GTPL shall pay to the NHAI in accordance with terms of the IRB GTPL Concession Agreement and prior to the IRB GTPL Appointed Date, a lumpsum upfront concession fee of an amount equivalent to ₹11.61 billion.

Escrow Account

IRB GTPL were required to, prior to the IRB GTPL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the IRB GTPL Concession Agreement read with the escrow agreement entered into among IRB GTPL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

IRB GTPL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;
b) all fee and any other revenues from or in respect of the IRB GTPL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and
c) all payments by the NHAI including, if any, in relation to the change in scope in the IRB GTPL Project.

Withdrawals during Concession Period

IRB GTPL were required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by IRB GTPL for and in respect of the IRB GTPL Project Highway;

b) all payments relating to construction of the IRB GTPL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) operation and management ("**O&M**") expenses;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the IRB GTPL Concession Agreement, and certified by the NHAI as due and payable to it;

e) monthly proportionate provision of IRB GTPL Debt Service due in an accounting year;

f) all payments and damages certified by the NHAI as due and payable to it by IRB GTPL; and

g) balance, if any, in accordance with the instructions of IRB GTPL.

IRB GTPL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI and the lenders.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the IRB GTPL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by IRB GTPL for and in respect of the IRB GTPL Project Highway;

b) payment due to lenders;

c) all payments and damages certified by the NHAI as due and payable to it by IRB GTPL;

d) retention and payments relating to the liability for defects and deficiencies set forth in the IRB GTPL Concession Agreement;

e) incurred or accrued O&M expenses;

f) any other payments required to be made under the IRB GTPL Concession Agreement; and

g) balance, if any, in accordance with the instructions of IRB GTPL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the IRB GTPL Concession Agreement, require IRB GTPL to make alterations or modifications in the scope of the project. Any such change of scope shall be made in accordance with the provisions of the IRB GTPL Concession Agreement and the costs thereof shall be expended by IRB GTPL and reimbursed by the NHAI in accordance with the IRB GTPL Concession Agreement.

If IRB GTPL determine at any time that a change in scope is necessary, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the IRB GTPL Concession Agreement, or inform IRB GTPL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of IRB GTPL being in material default or breach of the IRB GTPL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the IRB GTPL Concession Agreement.

In the event of the NHAI being in material default or breach of the IRB GTPL Concession Agreement at any time after the IRB GTPL Appointed Date, it shall pay to IRB GTPL by way of compensation, all direct costs suffered or incurred by IRB GTPL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or

default in respect of which damages have been expressly specified in the IRB GTPL Concession Agreement. Compensation payable may include operation and maintenance expenses and all other costs directly attributable to such material breach or default but does not include loss of fee revenues or debt repayment or other consequential losses.

In the event that a material default or breach of the IRB GTPL Concession Agreement leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the IRB GTPL Concession Period as provided in the IRB GTPL Concession Agreement. The payment of compensation by the NHAI shall be deemed to cure the breach of the IRB GTPL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Termination of the IRB GTPL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the IRB GTPL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and IRB GTPL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, IRB GTPL shall be deemed to be in default of the IRB GTPL Concession Agreement ("**IRB GTPL Default**"), unless the default has occurred solely as a result of any breach of the IRB GTPL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the IRB GTPL Concession Agreement and IRB GTPL fail to replenish or provide fresh performance security within a cure period of 15 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the IRB GTPL Concession Agreement, IRB GTPL fail to cure, within a cure period of 60 days, the IRB GTPL Default for which whole or part of the performance security was appropriated;

c) IRB GTPL abandon or manifest intention to abandon the operation and maintenance of the IRB GTPL Project Highway without the prior written consent of the NHAI;

d) IRB GTPL fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with the IRB LTPL Concession Agreement, at least three months prior to expiry of subsiting bank guarantee;

e) IRB GTPL is in breach of the maintenance requirements or the safety requirements as the case may be;

f) IRB GTPL has failed to make any payment to the NHAI within the period specified in the IRB GTPL Concession Agreement;

g) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and IRB GTPL fails to cure the default within the cure period specified hereinabove;

h) a breach of the project agreements by IRB GTPL has caused a material adverse effect;

i) IRB GTPL create an encumbrance in breach of the IRB GTPL Concession Agreement;

j) IRB GTPL repudiate the IRB GTPL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the IRB GTPL Concession Agreement;

k) a change in ownership has occurred in breach of the IRB GTPL Concession Agreement;

l) there is a transfer, pursuant to law either of (i) the rights and/or obligations of IRB GTPL under any of the project agreements, or of (ii) all or part of the assets or undertaking of IRB GTPL, and such transfer causes a material adverse effect;

m) an execution levied on any of the assets of IRB GTPL has caused a material adverse effect;

n) IRB GTPL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for IRB GTPL or for the whole or material part of its assets that has a material bearing on the IRB GTPL Project;

o) IRB GTPL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

p) a resolution for winding up of IRB GTPL is passed, or any petition for winding up of IRB GTPL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, IRB GTPL is ordered to be wound up by a court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of IRB GTPL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of IRB GTPL under the IRB GTPL Concession Agreement and the project agreements; provided that:

   i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the IRB GTPL Concession Agreement and the project agreements;

   ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the IRB GTPL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of IRB GTPL as at the IRB GTPL Appointed Date; and

   iii) each of the project agreements remains in full force and effect;

q) any representation or warranty of IRB GTPL which is, as of the date hereof, found to be materially false, incorrect or misleading or IRB GTPL is at any time hereafter found to be in breach thereof;

r) IRB GTPL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

s) IRB GTPL has failed to fulfil any obligation, for which failure termination has been specified in the IRB GTPL Concession Agreement;

t) IRB GTPL commit a default in complying with any other provision of the IRB GTPL Concession Agreement if such default causes a material adverse effect on the NHAI; or

u) an escrow default has occurred and IRB GTPL fail to cure the default within a cure period of 15 days.

Without prejudice to any other rights or remedies which the NHAI may have under the IRB GTPL Concession Agreement, upon the occurrence of a IRB GTPL Default, the NHAI shall be entitled to terminate the IRB GTPL Concession Agreement by issuing a termination notice to IRB GTPL, with a copy therof to the lenders. Immediately upon the issue by the NHAI of the notice of intention to terminate, the lenders shall have the right to nominate an entity to replace IRB GTPL and perform IRB GTPL's obligations under the IRB GTPL Concession Agreement. IRB GTPL shall procure that lenders shall notify the NHAI about whether they are exercising their right of substitution within 60 days of receipt of notice of intention to terminate, or the lender's notice of default. Any such substitute entity shall have the legal, financial and technical capability reasonably necessary to perform the obligations of IRB GTPL in accordance with the procedure as set out in the Substitution Agreement.

Termination by IRB GTPL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the IRB GTPL Concession Agreement, the NHAI shall be deemed to be in default of the IRB GTPL Concession Agreement ("**NHAI Default**"), unless the

default has occurred as a result of a breach of the IRB GTPL Concession Agreement by IRB GTPL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the IRB GTPL Concession Agreement and such default has a material adverse effect on IRB GTPL;

b) the NHAI repudiates the IRB GTPL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the IRB GTPL Concession Agreement; or

c) the State commits a material default in complying with the prvisions of the State Support Agreement if such default has a material adverse effect on IRB GTPL and the breach continues for a period of 90 days from the date of notice given in this behalf by IRB GTPL to the NHAI.

Without prejudice to any other rights or remedies which IRB GTPL may have under the IRB GTPL Concession Agreement, upon the occurrence of an NHAI Default, IRB GTPL shall be entitled to terminate the IRB GTPL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, IRB GTPL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 15 days to the NHAI to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of a IRB GTPL Default during the operation period, the performance security shall be forfeited and IRB GTPL would continue to be liable towards any antecedent liability, all obligations accrued before the effective date of the termination and also the obligations including divestment requirements that must be fulfilled in terms hereof after termination. In the event of the NHAI terminating the IRB GTPL Concession Agreement on account of IRB GTPL Default and in addition to the NHAI forfeiting the performance security, the NHAI shall pay to IRB GTPL 70% of the unexpired cash flow.

Upon termination on account of an NHAI Default, the NHAI shall pay to IRB GTPL, by way of termination payment, an amount equal to 105% of the unexpired cash flow.

Termination payment shall become due and payable to IRB GTPL within 15 days of a demand being made by IRB GTPL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the IRB GTPL Concession Agreement shall constitute a full and final settlement of all claims of IRB GTPL on account of termination of the IRB GTPL Concession Agreement for any reason whatsoever and IRB GTPL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

IRB GTPL shall be responsible for all defects and deficiencies in the IRB GTPL Project Highway for a period of 60 days after termination. IRB GTPL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the IRB GTPL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the IRB GTPL Concession Agreement shall be retained in the Escrow Account for a period of 90 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

15. Concession Agreement between IRB KTPL and the NHAI, each dated January 12, 2024

IRB KTPL has entered into a concession agreement in respect of the tolling, operation, management, maintenance and transfer of Kota Bypass from 1055.217 km to 1059.350 km in state of Rajasthan to be executed on a toll-operate-transfer basis (the "**IRB KTPL Concession Agreement**"), for a period of 20 years from the appointed date under the IRB KTPL Concession Agreement ("**IRB KTPL Appointed Date**") or until such date on which the IRB KTPL Concession Agreement is terminated by a termination notice ("**IRB KTPL Termination Date**", and the period between the IRB KTPL Appointed Date and the IRB KTPL Termination Date, the "**IRB KTPL Concession Period**").

Certain Definitions

"**IRB KTPL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) all rights of IRB KTPL under the project agreements; (d) financial assets, such as receivables, security deposits etc.; (e) insurance proceeds; and (f) applicable permits and authorizations relating to or in respect of the IRB KTPL Project Highway (as defined below), but does not include additional facilities;

"**IRB KTPL Project Highway**" shall mean the site comprising the following:

Stretch	State	Start (KM)	End (KM)	Length (KM)
Kota Bypass	Rajasthan	1055.217	1059.350	27.820

and all IRB KTPL Project Assets, and its operation and maintenance in accordance with the IRB KTPL Concession Agreement;

"**IRB KTPL Project**" shall mean the operation and maintenance of the IRB KTPL Project Highway in accordance with the provisions of the IRB KTPL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project; and

Grant of Concession

Subject to, and in accordance with the provisions set out in the IRB KTPL Concession Agreement, the applicable laws and the applicable permits, the NHAI has granted to IRB KTPL, and IRB KTPL have accepted the concession, including the exclusive right, license, and authority during the subsistence of the IRB KTPL Concession Agreement, to operate and maintain the IRB KTPL Project for a period of 20 years from the IRB KTPL Appointed Date.

Subject to, and in accordance with the provisions of the IRB KTPL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, IRB KTPL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the IRB KTPL Concession Agreement;

b) manage, operate, and maintain the IRB KTPL Project Highway and regulate the use thereof by third parties;

c) demand, collect, and appropriate fee from vehicles and persons liable for payment of fee for using the IRB KTPL Project Highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

d) perform and fulfil all of IRB KTPL's obligations under and in accordance with the IRB KTPL Concession Agreement;

e) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of IRB KTPL under the IRB KTPL Concession Agreement; and

f) neither assign, transfer or sublet, or create any lien or encumbrance on the IRB KTPL Concession Agreement, or the concession granted, or on the whole or any part of the IRB KTPL Project Highway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the IRB KTPL Concession Agreement.

Fees

On and from the appointed date till the transfer date, IRB KTPL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the IRB KTPL Concession Agreement and the applicable rules and regulations. In accordance with the IRB KTPL Concession Agreement, IRB KTPL shall not collect any fees in relation to exempted vehicles.

IRB KTPL shall not collect any fee from a local user for non-commercial use of the IRB KTPL Project Highway, and shall issue a pass in respect thereof for commuting on a section of the IRB KTPL Project Highway as specified in the pass and for crossing the toll plaza specified therein. For carrying out these provisions, IRB KTPL shall formulate, publish and implement an appropriate scheme, and make such modifications to the scheme as may reasonably be suggested by the NHAI or by local users from time to time. For defraying its expenses on issuing of passes and handling of local users, IRB KTPL shall be entitled to charge a monthly fee of ₹150, with reference to the base year 2007-08, to be revised annually in accordance with the fee rules to reflect the variation in WPI, and then rounded off to the nearest five rupees; provided that no passes will be required or fee collected from a vehicle that uses part of the IRB KTPL Project Highway and does not cross a toll plaza.

Concession Fee

In consideration of the grant of concession, IRB KTPL shall pay to the NHAI in accordance with terms of the IRB KTPL Concession Agreement and prior to the IRB KTPL Appointed Date, a lumpsum upfront concession fee of an amount equivalent to ₹5.22 billion.

Escrow Account

IRB KTPL were required to, prior to the IRB KTPL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the IRB KTPL Concession Agreement read with the escrow agreement entered into among IRB KTPL, the NHAI, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

IRB KTPL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;
b) all fee and any other revenues from or in respect of the IRB KTPL Project Highway, including the proceeds of any deposits, capital receipts or insurance claims; and
c) all payments by the NHAI including, if any, in relation to the change in scope in the IRB KTPL Project.

Withdrawals during Concession Period

IRB KTPL were required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by IRB KTPL for and in respect of the IRB KTPL Project Highway;

b) all payments relating to construction of the IRB KTPL Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) operation and management ("**O&M**") expenses;

d) O&M expenses and other costs and expenses incurred by the NHAI in accordance with the provisions of the IRB KTPL Concession Agreement, and certified by the NHAI as due and payable to it;

e) monthly proportionate provision of IRB KTPL Debt Service due in an accounting year;

f) all payments and damages certified by the NHAI as due and payable to it by IRB KTPL; and

g) balance, if any, in accordance with the instructions of IRB KTPL.

IRB KTPL shall not, in any manner, modify the order of payment specified except with prior written approval from the NHAI and the lenders.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the IRB KTPL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by IRB KTPL for and in respect of the IRB KTPL Project Highway;

b) payment due to lenders;

c) all payments and damages certified by the NHAI as due and payable to it by IRB KTPL;

d) retention and payments relating to the liability for defects and deficiencies set forth in the IRB KTPL Concession Agreement;

e) incurred or accrued O&M expenses;

f) any other payments required to be made under the IRB KTPL Concession Agreement; and

g) balance, if any, in accordance with the instructions of IRB KTPL.

No appropriations shall be made until a vesting certificate has been issued by the NHAI.

Change of Scope

The NHAI may, notwithstanding anything to the contrary contained in the IRB KTPL Concession Agreement, require IRB KTPL to make alterations or modifications in the scope of the project. Any such change of scope shall be made in accordance with the provisions of the IRB KTPL Concession Agreement and the costs thereof shall be expended by IRB KTPL and reimbursed by the NHAI in accordance with the IRB KTPL Concession Agreement.

If IRB KTPL determine at any time that a change in scope is necessary, it shall, by notice in writing, require the NHAI to consider such change of scope. The NHAI shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the IRB KTPL Concession Agreement, or inform IRB KTPL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of IRB KTPL being in material default or breach of the IRB KTPL Concession Agreement, it shall pay to the NHAI by way of compensation, all direct costs suffered or incurred by the NHAI as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the IRB KTPL Concession Agreement.

In the event of the NHAI being in material default or breach of the IRB KTPL Concession Agreement at any time after the IRB KTPL Appointed Date, it shall pay to IRB KTPL by way of compensation, all direct costs suffered or incurred by IRB KTPL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the IRB KTPL Concession Agreement. Compensation payable may include operation and maintenance expenses and all other costs directly attributable to such material breach or default but does not include loss of fee revenues or debt repayment or other consequential losses.

In the event that a material default or breach of the IRB KTPL Concession Agreement leads to suspension of, or reduction in collection of fee, as the case may be, the NHAI shall, in addition to the payment of compensation, extend the IRB KTPL Concession Period as provided in the IRB KTPL Concession Agreement. The payment of compensation by the NHAI shall be deemed to cure the breach of the IRB KTPL Concession Agreement so long as the NHAI continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Termination of the IRB KTPL Concession Agreement

Termination by the NHAI

Save as otherwise provided in the IRB KTPL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and IRB KTPL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, IRB KTPL shall be deemed to be in default of the IRB KTPL Concession Agreement ("**IRB KTPL Default**"), unless the default has occurred solely as a result of any breach of the IRB KTPL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the IRB KTPL Concession Agreement and IRB KTPL fail to replenish or provide fresh performance security within a cure period of 15 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the IRB KTPL Concession Agreement, IRB KTPL fail to cure, within a cure period of 60 days, the IRB KTPL Default for which whole or part of the performance security was appropriated;

c) IRB KTPL abandon or manifest intention to abandon the operation and maintenance of the IRB KTPL Project Highway without the prior written consent of the NHAI;

d) IRB KTPL fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with the IRB LTPL Concession Agreement, at least three months prior to expiry of subsiting bank guarantee;

e) IRB KTPL is in breach of the maintenance requirements or the safety requirements as the case may be;

f) IRB KTPL has failed to make any payment to the NHAI within the period specified in the IRB KTPL Concession Agreement;

g) upon occurrence of a financial default, the lenders' representative has, by notice, required the NHAI to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and IRB KTPL fails to cure the default within the cure period specified hereinabove;

h) a breach of the project agreements by IRB KTPL has caused a material adverse effect;

i) IRB KTPL create an encumbrance in breach of the IRB KTPL Concession Agreement;

j) IRB KTPL repudiate the IRB KTPL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the IRB KTPL Concession Agreement;

k) a change in ownership has occurred in breach of the IRB KTPL Concession Agreement;

l) there is a transfer, pursuant to law either of (i) the rights and/or obligations of IRB KTPL under any of the project agreements, or of (ii) all or part of the assets or undertaking of IRB KTPL, and such transfer causes a material adverse effect;

m) an execution levied on any of the assets of IRB KTPL has caused a material adverse effect;

n) IRB KTPL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for IRB KTPL or for the whole or material part of its assets that has a material bearing on the IRB KTPL Project;

o) IRB KTPL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the NHAI, a material adverse effect;

p) a resolution for winding up of IRB KTPL is passed, or any petition for winding up of IRB KTPL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or IRB KTPL is ordered to be wound up by a court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of IRB KTPL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of IRB KTPL under the IRB KTPL Concession Agreement and the project agreements; provided that:

   i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the IRB KTPL Concession Agreement and the project agreements;

   ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the IRB KTPL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of IRB KTPL as at the IRB KTPL Appointed Date; and

   iii) each of the project agreements remains in full force and effect;

q) any representation or warranty of IRB KTPL which is, as of the date hereof, found to be materially false, incorrect or misleading or IRB KTPL is at any time hereafter found to be in breach thereof;

r) IRB KTPL submits to the NHAI any statement, notice or other document, in written or electronic form, which has a material effect on the NHAI's rights, obligations or interests and which is false in material particulars;

s) IRB KTPL has failed to fulfil any obligation, for which failure termination has been specified in the IRB KTPL Concession Agreement;

t) IRB KTPL commit a default in complying with any other provision of the IRB KTPL Concession Agreement if such default causes a material adverse effect on the NHAI; or

u) an escrow default has occurred and IRB KTPL fail to cure the default within a cure period of 15 days.

Without prejudice to any other rights or remedies which the NHAI may have under the IRB KTPL Concession Agreement, upon the occurrence of a IRB KTPL Default, the NHAI shall be entitled to terminate the IRB KTPL Concession Agreement by issuing a termination notice to IRB KTPL, with a copy therof to the lenders. Immediately upon the issue by the NHAI of the notice of intention to terminate, the lenders shall have the right to nominate an entity to replace IRB KTPL and perform IRB KTPL's obligations under the IRB KTPL Concession Agreement. IRB KTPL shall procure that lenders shall notify the NHAI about whether they are exercising their right of substitution within 60 days of receipt of notice of intention to terminate, or the lender's notice of default. Any such substitute entity shall have the legal, financial and technical capability reasonably necessary to perform the obligations of IRB KTPL in accordance with the procedure as set out in the Substitution Agreement.

Termination by IRB KTPL

In the event that any of the defaults specified below shall have occurred, and the NHAI fails to cure the default within a cure period of 90 days or such longer period as provided in the IRB KTPL Concession Agreement, the NHAI shall be deemed to be in default of the IRB KTPL Concession Agreement ("**NHAI Default**"), unless the default has occurred as a result of a breach of the IRB KTPL Concession Agreement by IRB KTPL, or due to force majeure. The default referred to herein shall include:

a) the NHAI commits a material default in complying with any of the provisions of the IRB KTPL Concession Agreement and such default has a material adverse effect on IRB KTPL;

b) the NHAI repudiates the IRB KTPL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the IRB KTPL Concession Agreement; or

c) the State commits a material default in complying with the prvisions of the State Support Agreement if such default has a material adverse effect on IRB KTPL and the breach continues for a period of 90 days from the date of notice given in this behalf by IRB KTPL to the NHAI.

Without prejudice to any other rights or remedies which IRB KTPL may have under the IRB KTPL Concession Agreement, upon the occurrence of an NHAI Default, IRB KTPL shall be entitled to terminate the IRB KTPL Concession Agreement by issuing a termination notice to the NHAI. Before issuing the termination notice, IRB KTPL shall, by notice, inform the NHAI of its intention to issue a termination notice and grant 15 days to the NHAI to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of a IRB KTPL Default during the operation period, the performance security shall be forfeited and IRB KTPL would continue to be liable towards any antecedent liability, all obligations accrued before the effective date of the termination and also the obligations including divestment requirements that must be fulfilled in terms hereof after termination. In the event of the NHAI terminating the IRB KTPL Concession Agreement on account of IRB KTPL Default and in addition to the NHAI forfeiting the performance security, the NHAI shall pay to IRB KTPL 70% of the unexpired cash flow.

Upon termination on account of an NHAI Default, the NHAI shall pay to IRB KTPL, by way of termination payment, an amount equal to 105% of the unexpired cash flow.

Termination payment shall become due and payable to IRB KTPL within 15 days of a demand being made by IRB KTPL to the NHAI with the necessary particulars, and in the event of any delay, the NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the IRB KTPL Concession Agreement shall constitute a full and final settlement of all claims of IRB KTPL on account of termination of the IRB KTPL Concession Agreement for any reason whatsoever and IRB KTPL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

IRB KTPL shall be responsible for all defects and deficiencies in the IRB KTPL Project Highway for a period of 60 days after termination. IRB KTPL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the IRB KTPL Project Highway as observed by the independent engineer. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the NHAI in this behalf. A sum as specified in the IRB KTPL Concession Agreement shall be retained in the Escrow Account for a period of 90 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision.

Concession Agreement in relation to the Target SPV

Concession Agreement between MBEL and the UPEIDA dated January 6, 2022

MBEL has entered into a concession agreement for the development of access controlled six-lane (expandable to eight-lane) greenfield 'Ganga Expressway' from Bijoli, Meerut to Nagla Barah, Budaun from Km 7.900 to Km 137.600 (total design length 129.700 Km) in the state of Uttar Pradesh on design-build-finance-operate-transfer (toll) basis under public-private partnership (the "**MBEL Concession Agreement**"), for a period of 30 years, from October 12, 2022 ("**MBEL Appointed Date**") or until such date on which the MBEL Concession Agreement is terminated by a termination notice ("**MBEL Termination Date**", and the period between the MBEL Appointed Date and the MBEL Termination Date, the "**MBEL Concession Period**").

Certain Definitions

"**MBEL Debt Due**" shall mean the aggregate of the following sums expressed in Indian Rupees outstanding on the transfer date:

a) the principal amount of the debt provided by the senior lenders under the financing agreements for financing the total project cost (the "**Principa**l") but excluding any part of the Principal that had fallen due for repayment two years prior to the transfer date;

b) all accrued interest, financing fees and charges payable under the financing agreements on, or in respect of, the debt referred to in the sub-clause above until the transfer date but excluding (i) any interest, fees or charges

that had fallen due one year prior to the transfer date, (ii) any penal interest or charges payable under the financing agreements to any senior lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an UPEIDA Default (as defined below); and

c) any subordinated debt which is included in the financing package and disbursed by lenders for financing the total project cost;

If all, or any part of the MBEL Debt Due is convertible into equity at the option of the senior lenders and/or MBEL, it shall, for the purposes of the MBEL Concession Agreement, be deemed to be MBEL Debt Due even after the conversion and the Principal thereof shall be dealt with as if such conversion had not been undertaken;

"**MBEL Debt Service**" shall mean the sum of all payments on account of principal, interest, financing fees and charges due and payable in an accounting year to the senior lenders under the financing agreements;

"**MBEL Project Assets**" shall mean all physical and other assets relating to and forming part of the site including (a) rights over the site in the form of licence, right of way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre-stones, toll plazas, electrical systems, communication systems, rest areas, relief centres, maintenance depots and administrative offices; (c) project facilities situated on the site; (d) all rights of MBEL under the project agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) applicable permits and authorizations relating to or in respect of the MBEL Project Expressway (as defined below), but does not include additional facilities;

"**MBEL Project Expressway**" shall mean the site of the MBEL Project and all MBEL Project Assets, and its subsequent development and augmentation in accordance with the MBEL Concession Agreement; and

"**MBEL Project**" shall mean the construction, operation, and maintenance of the MBEL Project Expressway in accordance with the provisions of the MBEL Concession Agreement, and includes all works, services, and equipment relating to and in respect of the scope of the project.

Grant of Concession

Subject to, and in accordance with the provisions set out in the MBEL Concession Agreement, the applicable laws and the applicable permits, the UPEIDA has granted to MBEL, and MBEL has accepted the concession, including the exclusive right, license, and authority during the subsistence of the MBEL Concession Agreement, to construct, operate and maintain the MBEL Project for a period of 30 years from the MBEL Appointed Date.

Subject to, and in accordance with the provisions of the MBEL Concession Agreement, the concession granted shall oblige or entitle, as the case may be, MBEL to:

a) right of way, access and license to the site for the purpose of, and to the extent conferred by the provisions of the MBEL Concession Agreement;

b) finance and construct the MBEL Project Expressway;

c) manage, operate, and maintain the MBEL Project Expressway and regulate the use thereof by third parties;

d) demand, collect, and appropriate fee from vehicles and users liable for payment of fee for using the MBEL Project Expressway or any part thereof and refuse entry of any vehicle if the fee due is not paid;

e) perform and fulfil all of MBEL's obligations under and in accordance with the MBEL Concession Agreement;

f) bear and pay all costs, expenses, and charges in connection with or incidental to the performance of the obligations of MBEL under the MBEL Concession Agreement; and

g) neither assign, transfer or sublet, or create any lien or encumbrance on the MBEL Concession Agreement, or the concession granted, or on the whole or any part of the MBEL Project Expressway, nor transfer, lease, or part possession thereof, save and except as expressly permitted by the MBEL Concession Agreement or the

agreement for the substitution of MBEL entered into by MBEL, the UPEIDA, and the lenders' representative on behalf of the senior lenders (the "**Substitution Agreement**").

Fees

On and from the commercial operation date ("**COD**") till the transfer date, MBEL shall have the sole and exclusive right to demand, collect, and appropriate fee from the users subject to, and in accordance with the MBEL Concession Agreement and the applicable rules and regulations, provided that for ease of payment and collection, such fee shall be rounded off to the nearest five rupees in accordance with the applicable fee rules, as updated from time to time. Further, MBEL may determine and collect fee at such lower rates as it may, by public notice to the users, specify in respect of all or any category of users or vehicles. In accordance with the MBEL Concession Agreement, MBEL shall not collect any fees in relation to exempted vehicles.

Concession Fee

In consideration of the grant of concession, MBEL shall pay to the UPEIDA by way of concession fee a sum of ₹1 per annum.

Escrow Account

MBEL was required to, prior to the MBEL Appointed Date, open and establish an escrow account (the "**Escrow Account**") with a bank (the "**Escrow Bank**") in accordance with the MBEL Concession Agreement read with the escrow agreement entered into among MBEL, the UPEIDA, the Escrow Bank and the senior lenders through the lenders' representative (the "**Escrow Agreement**").

MBEL shall deposit, or cause to be deposited the following inflows and receipts into the Escrow Account:

a) all funds constituting the financial package;
b) all fee and any other revenues from or in respect of the MBEL Project Expressway, including the proceeds of any deposits, capital receipts or insurance claims; and
c) all payments by the UPEIDA, after deducting any outstanding concession fee.

The senior lenders may make direct disbursements to the EPC contractor in accordance with the express provisions contained in this behalf in the financing agreements.

Withdrawals during Concession Period

MBEL was required to, at the time of opening the Escrow Account, give irrevocable instructions, by way of the Escrow Agreement, to the Escrow Bank instructing, *inter-alia*, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month, then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in a month when due:

a) all taxes due and payable by MBEL for and in respect of the MBEL Project Expressway;

b) all payments relating to construction of the MBEL Project Expressway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

c) operation and management ("**O&M**") expenses, subject to the ceiling, if any, set forth in the financing agreements;

d) O&M expenses and other costs and expenses incurred by the UPEIDA in accordance with the provisions of the MBEL Concession Agreement, and certified by the UPEIDA as due and payable to it;

e) concession fee and premium due and payable to the UPEIDA;

f) monthly proportionate provision of MBEL Debt Service due in an accounting year;

g) all payments and damages certified by the UPEIDA as due and payable to it by MBEL, including repayment of revenue shortfall loan. MBEL has agreed to give irrevocable instructions to the Escrow Bank to make

payments from the Escrow Account in accordance with the instructions of the UPEIDA under the MBEL Concession Agreement and debit the payment to O&M expenses;

h) monthly proportionate provision of MBEL Debt Service payments due in an accounting year in respect of subordinated debt;

i) any reserve requirements set forth in the financing agreements; and

j) balance, if any, in accordance with the instructions of MBEL.

MBEL shall not, in any manner, modify the order of payment specified except with prior written approval from the UPEIDA.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the MBEL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination, be appropriated in the following order:

a) all taxes due and payable by MBEL for and in respect of the MBEL Project Expressway;

b) 90% of the MBEL Debt Due excluding the subordinated debt;

c) outstanding concession fee;

d) all payments and damages certified by the UPEIDA as due and payable to it by MBEL, including the repayment of the revenue shortfall loan. MBEL has agreed to give irrevocable instruction to the Escrow Bank to make payment from the Escrow Account in accordance with the instructions of the UPEIDA under the MBEL Concession Agreement and debit the payment to O&M expenses.

e) retention and payments relating to the liability for defects and deficiencies set forth in the MBEL Concession Agreement;

f) outstanding MBEL Debt Service including balance of MBEL Debt Due;

g) outstanding subordinated debt;

h) incurred or accrued O&M expenses;

i) any other payments required to be made under the MBEL Concession Agreement; and

j) balance, if any, in accordance with the instructions of MBEL.

No appropriations shall be made until a vesting certificate has been issued by the UPEIDA.

Change of Scope

The UPEIDA may, notwithstanding anything to the contrary contained in the MBEL Concession Agreement, require the provision of additional works and services which are not included in the scope of the project as contemplated by the MBEL Concession Agreement. Any such change of scope shall be made in accordance with the provisions of the MBEL Concession Agreement and the costs thereof shall be expended by MBEL and reimbursed by the UPEIDA in accordance with the MBEL Concession Agreement.

If MBEL determines at any time that a change in scope is necessary for providing safer and improved services to the users, it shall, by notice in writing, require the UPEIDA to consider such change of scope. The UPEIDA shall, within 60 days of receipt of such notice, either accept the change of scope with modifications, if any, and initiate proceedings thereof in accordance with the provisions of the MBEL Concession Agreement, or inform MBEL in writing of its reasons for not accepting such change of scope.

Compensation for Breach of Agreement

In the event of MBEL being in material default or breach of the MBEL Concession Agreement, it shall pay to the UPEIDA by way of compensation, all direct costs suffered or incurred by the UPEIDA as a consequence of the material default or breach, within 30 days of the receipt of the demand supported by the necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages are expressly specified and payable under the MBEL Concession Agreement.

In the event of the UPEIDA being in material default or breach of the MBEL Concession Agreement at any time after the MBEL Appointed Date, it shall pay to MBEL by way of compensation, all direct costs suffered or incurred by MBEL as a consequence of the material default or breach within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any material breach or default in respect of which damages have been expressly specified in the MBEL Concession Agreement.

In the event that a material default or breach of the MBEL Concession Agreement causes a delay in achieving COD or leads to suspension of, or reduction in collection of fee, as the case may be, the UPEIDA shall, in addition to the payment of compensation, extend the MBEL Concession Period as provided in the MBEL Concession Agreement. In the event that an additional toll way or a competing road, as the case may be, is opened to traffic in breach of the MBEL Concession Agreement, the UPEIDA shall pay to MBEL, for each day of the breach, compensation as provided in the MBEL Concession Agreement, until the breach is cured. The payment of compensation by the UPEIDA shall be deemed to cure the breach of the MBEL Concession Agreement so long as the UPEIDA continues to pay the compensation.

The compensation payable shall be in addition to, and not in substitution for, or derogation of, termination payment, if any.

Effects of Variation in Traffic Growth

Subject to the provisions of the MBEL Concession Agreement, in the event actual average traffic shall have fallen short of the target traffic by more than 5% (five percent), then for every 1% (one percent) shortfall as compared to the target traffic, the remaining MBEL Concession Period shall, subject to payment of concession fee and additional concession fee in accordance with the MBEL Concession Agreement, be increased by 1% (one percent) thereof; provided that such increase in MBEL Concession Period shall not in any case exceed 20% (twenty percent) of the MBEL Concession Period.

Subject to the provisions of the MBEL Concession Agreement, in the event actual average traffic shall have exceeded the target traffic by more than 5% (five percent), then for every 1% (one percent) increase as compared to the target traffic, the MBEL Concession Period shall be reduced by 1% (one percent) thereof; provided that such reduction in MBEL Concession Period shall not in any case exceed 20% (twenty percent) of the MBEL Concession Period.

Notwithstanding anything to the contrary contained in the MBEL Concession Agreement, if the average daily traffic of PCUs in any accounting year shall exceed the designed capacity of the MBEL Project Expressway, an indirect political event under the MBEL Concession Agreement will be deemed to have occurred and the UPEIDA may, at its discretion, terminate the MBEL Concession Agreement. If MBEL has completed the construction works necessary for augmenting the capacity of the MBEL Project Expressway such that its capacity has increased sufficiently for carrying the then current traffic in accordance with the corresponding provisions of the relevant Indian Roads Congress publication, prior to the issue of a termination notice by the UPEIDA, the indirect political event will deemed to have been cured.

Termination of the MBEL Concession Agreement

Termination by the UPEIDA

Save as otherwise provided in the MBEL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and MBEL fails to cure the default within the cure period, or where no cure period is specified, then within a cure period of 60 days, MBEL shall be deemed to be in default of the MBEL Concession Agreement ("**MBEL Default**"), unless the default has occurred solely as a result of any breach of the MBEL Concession Agreement by the UPEIDA or due to force majeure. The defaults referred to herein shall include:

a) the performance security has been encashed and appropriated in accordance with the MBEL Concession Agreement and MBEL fails to replenish or provide fresh performance security within a cure period of 30 days;

b) subsequent to the replenishment or furnishing of fresh performance security in accordance with the MBEL Concession Agreement, MBEL fails to cure, within a cure period of 90 days, the MBEL Default for which whole or part of the performance security was appropriated;

c) MBEL does not achieve the latest outstanding project milestone due in accordance with the MBEL Concession Agreement and continues to be in default for 120 days;

d) MBEL abandons or manifests intention to abandon the construction or operation of the MBEL Project Expressway without the prior written consent of the UPEIDA;

e) project completion date does not occur within the period specified in the MBEL Concession Agreement;

f) the punch list items have not been completed within the period set forth in the MBEL Concession Agreement;

g) MBEL is in breach of the maintenance requirements or the safety requirements as the case may be;

h) MBEL has failed to make any payment to the UPEIDA within the period specified in the MBEL Concession Agreement;

i) an escrow default has occurred and MBEL fails to cure the default within a cure period of 15 days;

j) upon occurrence of a financial default, the lenders' representative has, by notice, required the UPEIDA to undertake suspension or termination, as the case may be, in accordance with the Substitution Agreement and MBEL fails to cure the default within the cure period specified hereinabove;

k) a breach of the project agreements by MBEL has caused a material adverse effect;

l) MBEL creates an encumbrance in breach of the MBEL Concession Agreement;

m) MBEL repudiates the MBEL Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the MBEL Concession Agreement;

n) a change in ownership has occurred in breach of the MBEL Concession Agreement;

o) there is a transfer, pursuant to law either of (i) the rights and/or obligations of MBEL under any of the project agreements, or of (ii) all or part of the assets or undertaking of MBEL, and such transfer causes a material adverse effect;

p) an execution levied on any of the assets of MBEL has caused a material adverse effect;

q) MBEL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for MBEL or for the whole or material part of its assets that has a material bearing on the MBEL Project;

r) MBEL has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of the UPEIDA, a material adverse effect;

s) a resolution for winding up of MBEL is passed, or any petition for winding up of MBEL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof, or MBEL is ordered to be wound up by a court except for the purpose of amalgamation or reconstruction, provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of MBEL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of MBEL under the MBEL Concession Agreement and the project agreements; provided that:

    i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the MBEL Concession Agreement and the project agreements;

ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the MBEL Concession Agreement and the project agreements and has a creditworthiness at least as good as that of MBEL as at the MBEL Appointed Date; and

iii) each of the project agreements remains in full force and effect;

t) any representation or warranty of MBEL which is, as of the date hereof, found to be materially false, incorrect or misleading or MBEL is at any time hereafter found to be in breach thereof;

u) MBEL submits to the UPEIDA any statement, notice or other document, in written or electronic form, which has a material effect on the UPEIDA's rights, obligations or interests and which is false in material particulars;

v) MBEL has failed to fulfil any obligation, for which failure termination has been specified in the MBEL Concession Agreement; or

w) MBEL commits a default in complying with any other provision of the MBEL Concession Agreement if such default causes a material adverse effect on the UPEIDA.

Without prejudice to any other rights or remedies which the UPEIDA may have under the MBEL Concession Agreement, upon the occurrence of a MBEL Default, the UPEIDA shall be entitled to terminate the MBEL Concession Agreement by issuing a termination notice to MBEL. Before issuing the termination notice, the UPEIDA shall, by notice, inform MBEL of its intention to issue a termination notice and grant 15 days to MBEL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the MBEL Concession Agreement.

If there are senior lenders, the UPEIDA shall send a copy of its notice of intention to issue a termination notice to inform the lenders' representative and grant 30 days to the lenders' representative for making a representation on behalf of the senior lenders stating the intention to substitute MBEL in accordance with the Substitution Agreement. If the UPEIDA receives a representation on behalf of the senior lenders, it shall, in its discretion, either withhold termination for a period not exceeding 180 days from the date of the representation, or exercise its right of suspension, as the case may be, to enable the lenders' representative to exercise the senior lenders' right of substitution in accordance with the Substitution Agreement. The lenders' representative may, instead of exercising the senior lenders' right of substitution, procure that the default specified in the notice is cured within the aforesaid 180 days, and upon the curing, the UPEIDA shall withdraw its notice and restore the rights of MBEL. On a written request from the lenders' representative and MBEL, the UPEIDA shall extend the period of 180 days by a further period not exceeding 90 days as it may deem appropriate.

Termination by MBEL

In the event that any of the defaults specified below shall have occurred, and the UPEIDA fails to cure the default within a cure period of 90 days or such longer period as provided in the MBEL Concession Agreement, the UPEIDA shall be deemed to be in default of the MBEL Concession Agreement ("**UPEIDA Default**"), unless the default has occurred as a result of a breach of the MBEL Concession Agreement by MBEL, or due to force majeure. The default referred to herein shall include:

a) the UPEIDA commits a material default in complying with any of the provisions of the MBEL Concession Agreement and such default has a material adverse effect on MBEL;

b) the UPEIDA has failed to make any payment to MBEL within the period specified in the MBEL Concession Agreement; or

c) the UPEIDA repudiates the MBEL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the MBEL Concession Agreement.

Without prejudice to any other rights or remedies which MBEL may have under the MBEL Concession Agreement, upon the occurrence of an UPEIDA Default, MBEL shall be entitled to terminate the MBEL Concession Agreement by issuing a termination notice to the UPEIDA. Before issuing the termination notice, MBEL shall, by notice, inform the UPEIDA of its intention to issue a termination notice and grant 30 days to the

UPEIDA to make a representation, and may, after the expiry of the 30 days, whether or not it is in receipt of such representation, issue the termination notice.

Termination Payment

Upon termination on account of a MBEL Default during the operation period, the UPEIDA shall pay to MBEL, by way of termination payment, an amount equal to 90% of the MBEL Debt Due less insurance cover. If any insurance claims forming part of the insurance cover are not admitted and paid, then 80% of such unpaid claims shall be included in the computation of MBEL Debt Due.

Upon termination on account of an UPEIDA Default, the UPEIDA shall pay to MBEL, by way of termination payment, an amount equal to:

a) MBEL Debt Due; and
b) 150% of the adjusted equity.

The termination payment shall not be less than an amount equal to the product of six and the average monthly fee actually realized 12 months prior to the transfer date.

Termination payment shall become due and payable to MBEL within 30 days of a demand being made by MBEL to the UPEIDA with the necessary particulars, and in the event of any delay, the UPEIDA shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. The delay shall not exceed 90 days. The termination payment under the MBEL Concession Agreement shall constitute a full and final settlement of all claims of MBEL on account of termination of the MBEL Concession Agreement for any reason whatsoever and MBEL shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

Defects Liability after Termination

MBEL shall be responsible for all defects and deficiencies in the MBEL Project Expressway for a period of 120 days after termination. MBEL shall have the obligation to repair or rectify, at its own cost, all defects and deficiencies in the MBEL Project Expressway as observed by the independent engineer during the aforesaid period. The repair or rectification of the defect or deficiency shall be done within a period of 15 days from the date of notice issued by the UPEIDA in this behalf. A sum as specified in the MBEL Concession Agreement shall be retained in the Escrow Account for a period of 120 days after termination for meeting the liabilities, if any, arising out of, or in connection with this provision

REGULATIONS AND POLICIES

The following description is a summary of certain key regulations and policies which are applicable to the operations of the Trust, the Project SPVs and the Target SPV. The information detailed in this section has been obtained from publications available in the public domain. The regulations set out below may not be exhaustive, and are only intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. The information in this section is based on the current provisions of applicable law that are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions in India.

Laws Relating to the Business and Operations of the Trust, the Project SPVs and the Target SPV

The primary central legislations governing the road sector are the National Highways Act, 1956 (the "**NH Act**") and the National Highways Authority of India Act, 1988 (the "**NHAI Act**").

The NH Act

In accordance with the NH Act, the GoI is vested with the power to declare a highway as a national highway and also to acquire land for this purpose. The GoI may, by notification, declare its intention to acquire any land when it is satisfied that, for a public purpose, such land is required for the building, maintenance, management or operation of a national highway, or part thereof. The NH Act prescribes the procedure for such land acquisition. Such procedure includes, *inter-alia,* a declaration of an intention to acquire, entering and inspecting such land, hearing of objections, a declaration of the acquisition and the power to take possession. The NH Act also provides for payment of compensation to owners and any other person whose right of enjoyment in the land has been affected.

The GoI is responsible for the development and maintenance of national highways. However, it may direct that such functions may also be exercised by the government of a state in which the highway is located or by any officer or authority subordinate to the GoI or to the state government. Further, the GoI has the power to enter into an agreement with any person for the development and maintenance of a part or whole of the highway. Such person would have the right to collect and retain fees at such rates as may be notified by the GoI and will also have the powers to regulate and control the traffic, for proper management of the highway, in accordance with the provisions of the Motor Vehicles Act, 1988, as amended. The GoI also has the power to make rules for carrying out the purposes of the NH Act.

National Highways Fee (Determination of Rates and Collection) Rules, 2008

The National Highways Fee (Determination of Rates and Collection) Rules, 2008 (the "**NH Fee Rules**"), regulates the collection of fees for the use of national highways. In accordance with the NH Fee Rules, the GoI may, by a notification, levy a fee for use of any section of a national highway, permanent bridge, bypass or tunnel forming part of a national highway, as the case may be. However, the GoI may, by notification, exempt any section of a national highway, permanent bridge, bypass or tunnel constructed through a public funded project from levy of such fee.

The NH Fee Rules supersede the National Highways (Temporary Bridges) Rules, 1964, the National Highways (Collection of Fees by any Person for the Use of Section of National Highways/ Permanent Bridge/ Temporary Bridge on National Highways) Rules, 1997, the National Highways (Fees for the use of National Highways Section and Permanent Bridges – Public Funded Project) Rules, 1997 and the National Highways (Rate of Fees) Rules, 1997 other than in respect of things done or omitted to be done under such rules prior to supersession. The NH Fee Rules do not apply to agreements and contracts executed or bids invited prior to the publication of such rules, i.e., prior to December 5, 2008.

The collection of fees in case of a public funded project shall commence within 45 days from the date of completion of the project. The NH Fee Rules further provide a base rate of fees applicable for the use of a section of the national highway for different categories of vehicles and the fees collected by the executing authority shall be remitted to the GoI. However, the GoI may, by notification, allow any or all of the executing authorities to appropriate the whole, or part of such fees for purposes as may be specified.

FASTag lanes on fee plazas is a policy initiative of the GoI in which there is an exclusive lane in the fee plaza for movement of vehicles fitted with FASTag. The FASTag is a device which is fitted on the front windscreen of

vehicles to indicate online toll payment. The amended NH Fee Rules impose a penalty equivalent to two times the fee applicable if a vehicle not fitted with FASTag enters the exclusive FASTag lane. However, in case a user is unable to pay, due to malfunctioning electronic toll collection infrastructure, the user will be permitted to pass the fee plaza without payment.

The NH Fee rules were also amended to provide that the driver or owner of a mechanical vehicle which is loaded in excess of permissible load specified for its category, (i) shall not be permitted to use the national highway or cross the fee plaza until the excess load has been removed, and (ii) shall be liable to pay a fee to the toll collection agency equal to ten times of the fee applicable to such category of mechanical vehicle. However, in case no weighbridge has been installed at the toll plaza, no fee for overloading shall be levied.

The National Highways Rules, 1957

The National Highway Rules, 1957 (the "**NH Rules**") provide that in situations where the estimate cost of the execution of any original work on a national highway exceeds ₹1,000,000, a detailed estimated of the cost is to be forwarded to the GoI. An application for allotment of funds for meeting expenditure on an original work on a national highway must also be made to the GoI. The executing agency of the highway is required to furnish monthly progress reports and a completion report on the conclusion of the work. The NH Rules also give the consulting engineer of the GoI the right to inspect the work while it is in progress or after completion.

The NHAI Act

NHAI

The National Highways Authority of India (the "**NHAI**") was constituted pursuant to the NHAI Act and became operational in 1995. The NHAI Act details the functions the NHAI, which primarily are the development, maintenance and management of national highways and any other highways vested in, or entrusted to it, by the GoI, and matters connected therewith or incidental thereto. In accordance with the NHAI Act, the GoI carries out development and maintenance of the national highway system through NHAI. Subject to the provisions of the NHAI Act, the NHAI has the power to enter into and perform any contract necessary for the discharge of its functions. The NHAI has the power to acquire any land to discharge its functions, and such acquired land will be deemed to be land needed for a public purpose. The NHAI Act prescribes a limit in relation to the value of the contracts that may be entered into by NHAI. However, the NHAI may enter into contracts exceeding the specified value, on obtaining prior approval of the GoI. The NHAI Act provides that the contracts for acquisition, sale, or lease of immovable property on behalf of the NHAI cannot exceed a term of 30 years unless previously approved by the GoI.

As per the NHAI Works Manual, 2006, NHAI's mandate is the time and cost bound implementation of the National Highways Development Project (the "**NHDP**"). The sources of finance available to the NHAI include fund assistance from external funding agencies like the World Bank and the Asian Development Bank. NHDP Phase – I also strives to provide road connectivity to major ports. NHAI's role encompasses involving the private sector in provision, maintenance and operation of the national highways.

Financing of the NHDP

The GoI, under the Central Road Fund Act, 2000 created a fund which is required to be utilized for the development and maintenance of national highways (the "**Central Road Fund**"). Section 18 of the NHAI Act also provides for the creation of a separate NHAI Fund. Any capital grant or aid received, loan taken, borrowing made, or any other sum received by the NHAI is credited to the NHAI Fund. Certain sources for financing of the NHDP are through dedicated accruals under the Central Road Fund by levy of cess on fuel as well as involving the private sector and encouraging public private partnerships. The NHDP is also financed through long-term external loans from the World Bank, the Asian Development Bank and the Japan Bank for International Cooperation as well as through tolling of roads for different projects undertaken by the NHAI.

Private Participation in NHDP

In an effort to attract private sector participation in the NHDP, the NHAI has formulated model concession agreements where a private entity being the concessionaire is awarded a concession to build, operate and collect toll on a road for a specified period of time, which is usually up to 30 years.

The bidding for the projects takes place in two stages as per the process provided below:

1. in the pre-qualification stage, the NHAI selects certain bidders on the basis of technical and financial expertise, prior experience in implementing similar projects and previous track record; and

2. in the second stage, the NHAI invites commercial bids from the pre-qualified bidders on the basis of which the right to develop the project is awarded.

In accordance with the model concession agreement for projects above ₹1,000 million, the concessionaire meets the upfront cost and expenditure on annual maintenance and recovers the entire cost along with the interest from toll collections during the concession period. As per the 'Guidelines for Investment in Road Sector' issued by the Ministry of Shipping, Road Transport and Highways ("**MoRTH**") in 2009, in order to increase the viability of projects, a capital grant of up to 40% of the project cost is provided by the NHAI or the GoI. The quantum of grant is determined on a case to case basis and typically constitutes the bid parameter in Build, Operate, Transfer ("**BOT**") projects which are generally not viable based on toll revenue alone. For certain projects with high traffic volumes, concessionaire also offers a negative grant (i.e., premium) to the NHAI. The concessionaire at the end of the concession period transfers the road back to the Government (free of charge and clear of all encumbrances). The concessionaire's investment in the road is recovered directly through user fees collected by way of tolls. As per the model concession agreement for annuity based projects, the concessionaire is required to meet the entire upfront cost (no grant is paid by the NHAI or the GoI) and the expenditure on annual maintenance for annuity based projects. The concessionaire recovers the entire investment through pre-determined annuity payments to be made by the NHAI or the GoI. Furthermore, MoRTH approved certain amendments to the model concession agreement, *inter-alia*, in relation to deferment of premium payments.

Exit Policy

The CCEA in May 2015 approved a comprehensive exit policy framework with the objective to mobilize funds in the market. This policy framework now permits divestment of 100% equity by concessionaires/developers after two years of completion of construction to facilitate unlocking of funds for new projects. The equity divested is required to be invested by promoters in their new projects. This comprehensive exit policy framework is expected to harmonize certain conditions across all concessions signed prior to 2009 with the policy framework for post 2009 contracts which permit divestment of equity up to 100%, two years after completion of construction.

In November 2020, the MoRTH in modified the change in ownership clause in the Hybrid Annuity Mode ("**HAM**") projects and permitted the bidders/consortium members to dilute their equity after a period of six months from the commercial operations date ("**COD**"). Prior to the relaxation, the concessionaire/bidders/consortium members had to retain their equity for a period of two years from COD. Further, MoRTH in May 2022 approved changes in the model concession agreements of Build-Operate-Transfer projects and permitted the change of ownership from the existing two years to one year after COD/issuance of completion certificate and completion of punch list items.

Rationalized Compensation

The CCEA in November 2015 approved a policy for rationalized compensation to concessionaires for languishing national highway projects in BOT mode for delays that are not attributable to the concessionaires. Under the policy, the NHAI is authorized to allow an extension of the concession period for BOT (Toll) projects while keeping the original operation period unchanged. The NHAI has also been authorised to pay compensatory annuities to the concessionaire corresponding to the actual period of delay that is not attributable to the concessionaire upon successful completion of the project. In these cases, the construction period will be enhanced but the tenure of the concession will remain unchanged.

One Time Fund Infusion

The CCEA in October 2015 gave its approval to the NHAI for a one-time infusion of funds with the purpose of reviving and physically completing stalled projects in the advanced stages of completion. As per the policy, the amount of funds required in each case shall be approved by NHAI on a case to case basis.

Bidder Information

MoRTH has developed the Bidder Information Management System ("**BIMS**") to streamline the process of pre-qualification of bidders for EPC mode of contracts for all national highway works, with enhanced transparency and objectivity. BIMS works as a data base of bidder information that covers basic details, civil works experience, cash accruals and networth, and annual turnover so that bidders' pre-qualification can be assessed based on evaluation parameters like threshold capacity and bid capacity from already stored data and the technical evaluation can be carried out in a faster manner.

Land Acquisition

While land is acquired for national highway projects under the NH Act, the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (the "**Land Acquisition Act**") must also be complied with. MoRTH has issued comprehensive guidelines on land acquisition for national highways taking into account the applicability of the Land Acquisition Act.

Arbitral Awards

CCEA on August 31, 2016 approved various measures to revive the construction sector. An office memorandum dated September 5, 2016 was issued by the National Institute for Transforming India with certain proposals. On November 20, 2019, the CCEA approved certain proposals in relation to the arbitrations by or against government entities, for the effective implementation of the CCEA's decision on August 31, 2016 on its initiatives to revive the construction sector. Initially, the CCEA had approved the proposal that government agencies will be required to pay 75% of the arbitral award to the concessionaire against a bank guarantee, in cases where the award already announced is challenged. However, pursuant to a press release dated November 20, 2019, the CCEA approved, *inter-alia*, that where a government entity has challenged an arbitral award, resultant of which the amount of the arbitral award has not been paid, 75% of such award will be paid by the government entity to the contractor or the concessionaire against a bank guarantee only for the said 75% and not for its interest component. In relation to interest payable to the government entity, if a subsequent court order required the refund of 75% of the amount, the payment of such amounts will be required to be made as per the court orders. On October 29, 2021, the Department of Expenditure inserted a new Rule 227A in the General Finance Rules, 2017 ("**GFR**") to incorporate the above decision of the CCEA. The above rule further requires payment to be made into a designated escrow account with the stipulation that the proceeds will be used: (i) for the payment of lenders' dues; (ii) for completion of the project, and (iii) for completion of other projects. The balance remaining in the escrow account may be used by the contractor/concessionaire with prior approval of the lead banker and the ministry/department. Retention money and other amounts withheld may also be released against the bank guarantee subject to eligibility conditions and applicable contractual provisions.

Indian Tolls Act, 1851

In accordance with the Indian Tolls Act, 1851 (the "**Tolls Act**"), state governments have been vested with the power to levy tolls at such rates as they deem fit, to be levied upon any road or bridge, made or repaired at the expense of the GoI or any state government. The tolls levied under the Tolls Act, are deemed to be 'public revenue' and the collection of tolls can be placed under the management of any person the state governments' may deem fit. Such persons are instructed with the same responsibilities as if they were employed in the collection of land revenue. Further, all police officers are bound to assist the toll collectors when required in the implementation of the Tolls Act. The Tolls Act further gives power for recovery of toll and exempts certain category of people from payment of toll.

Provisions under the Constitution of India and other legislations in relation to collection of toll

Entry 59, List II of Schedule VII read with Article 246 of the Constitution of India vests state governments with the power to levy tolls. Further, in accordance with the Tolls Act, state governments have been vested with the power to levy tolls at such rates as they deem fit.

Control of National Highways (Land and Traffic) Act, 2002

The Control of National Highways (Land and Traffic) Act, 2002 (the "**Control of NH Act**") provides for control of land within national highways, right of way and traffic moving on national highways and also for removal of unauthorised occupation thereon.

In accordance with the provisions of the Control of NH Act, the GoI has established the Highway Administration which is governed by Highway Administration Rules, 2004. Its functions include maintenance of land records and issuance of permits. Under the Control of NH Act, all land that forms part of a highway which vests in the GoI, or that which does not already vest in the GoI but has been acquired for the purpose of highways shall be deemed to be the property of the GoI. The Control of NH Act prohibits any person from occupying any highway land or discharging any material through drain on such land without the permission of the Highway Administration or any officer authorised by such administration. The Control of NH Act permits the grant of lease and license for use of highway land for temporary use.

Other Laws and Regulations

In addition to the aforementioned legislations which are applicable to the Trust, the Project SPVs and the Target SPV, certain other material legislations that are applicable to the operations of the Trust, the Project SPVs and the Target SPV are set out below.

In addition to such legislations, we are also required to comply with the provisions of various tax-related legislations, intellectual-property related legislations and other applicable law for our day-to-day operations.

Indian Trusts Act, 1882

The Indian Trusts Act, 1882 ("**Trusts Act**") governs all private trusts in India.

The Trusts Act sets out the purpose for which private trusts can be established, the manner in which they may be created, executed and extinguished. The person creating a trust under the Trusts Act is the author of such trust, the person to whom the author grants the power and authority to regulate the trust is the trustee and the persons for whose benefit such trust has been created are the beneficiaries of such trust. The Trust Act sets out the rights, duties, liabilities and powers of the trustees and the beneficiaries *vis-a-vis* the trust. The Trust has been settled in accordance with the provisions of the Trusts Act.

InvIT Regulations

The InvIT Regulations set out the framework for infrastructure investment trusts and the registration and regulation thereof. An infrastructure investment trust is required to obtain a certificate of registration from the SEBI. The InvIT Regulations prescribe, *inter-alia*, the eligibility criteria and the rights and responsibilities of the parties to an infrastructure investment trust, namely its sponsor, investment manager, trustee and project manager; and the rights and responsibilities of the valuer and auditor of an infrastructure investment trust. Parties to an infrastructure investment trust are required to maintain the eligibility conditions specified under the InvIT Regulations of the InvIT Regulations on an ongoing basis. Infrastructure investment trusts and parties to infrastructure investment trusts are also required to comply with the code of conduct prescribed under the InvIT Regulations.

Environment Regulation

Infrastructure projects must also ensure compliance with environmental legislation such as the Water (Prevention and Control of Pollution) Act, 1974 ("**Water Pollution Act**"), the Air (Prevention and Control of Pollution) Act, 1981 ("**Air Pollution Act**") and the Environment Protection Act, 1986 ("**Environment Act**"). The Water Pollution Act aims to prevent and control water pollution. This legislation provides for the constitution of a Central Pollution Control Board and State Pollution Control Boards. The functions of the Central Pollution Control Board include, *inter-alia*, coordination of activities of the State Pollution Control Boards, collecting data relating to water pollution and the measures devised for the prevention and control of water pollution and prescription of standards for streams or wells. The State Pollution Control Boards are responsible for, *inter-alia*, the planning for programmes for prevention and control of pollution of streams and wells, collecting and disseminating information relating to water pollution and its prevention and control, inspection of sewage or trade effluents, works and plants for their treatment and to review the specifications and data relating to plants set up for treatment and purification of water, laying down or annulling the effluent standards for trade effluents and for the quality of the receiving waters, and laying down standards for treatment of trade effluents to be discharged. This legislation prohibits any person from establishing any industry, operation or process or any treatment and disposal system, which is likely to discharge trade effluent into a stream, well or sewer, or bring into use any new or altered outlet

for discharge of sewage, or begin to make any new discharge of sewage without taking prior consent of the State Pollution Control Board.

The Central and State Pollution Control Boards constituted under the Water Pollution Act are also to perform functions as per the Air Pollution Act for the prevention and control of air pollution. The Air Pollution Act aims for the prevention, control and abatement of air pollution. It is mandated under this Act that no person can, without the previous consent of the State Pollution Control Board, establish or operate any industrial plant in an air pollution control area as notified by the State Government. The Environment Act has been enacted for the protection and improvement of the environment. The Environment Act empowers the GoI to take measures to protect and improve the environment such as by laying down standards for emission or discharge of pollutants, providing for restrictions regarding areas where industries may operate and so on. The GoI may make rules for regulating environmental pollution.

With respect to forest conservation, the Forest (Conservation) Act, 1980 ("**Forest Conservation Act**") applies to forest land in the country. The Lok Sabha has recently passed the Forest (Conservation) Amendment Bill, 2023, which seeks to the amend the provisions of the Forest Conservation Act, including, *inter-alia*, changing the name of the legislation to Van (Sanrakshan Evam Samvardhan) Adhiniyam, 1980 and exemptions to strategic projects related to national security and public utility projects from the provisions of the Forest Conversation Act.

The Ministry of Environment and Forests (the "**MoEF**") mandates that Environment Impact Assessment ("**EIA**") must be conducted for specified projects. In the process, the MoEF receives proposals for the setting up of projects and assesses their impact on the environment before granting clearances to the projects. The EIA Notification S.O. 1533, issued on September 14, 2006 (the "**EIA Notification**") and amended from time to time, under the provisions of the Environment Act, prescribes that new construction of specified projects require prior environmental clearance from the MoEF. The environmental clearance must be obtained from the MoEF according to the procedure specified in the EIA Notification. No construction work or preparation of land by the project management except for securing the land, relating to the setting up of a specified project can be undertaken until such clearance is obtained. Under the EIA Notification, the environmental clearance process for new projects consists of four stages – screening, scoping, public consultation and appraisal. After completion of public consultation, the applicant is required to make appropriate changes in the draft 'EIA Report' and the 'Environment Management Plan.' The final EIA Report has to be submitted to the concerned regulatory authority for appraisal. The regulatory authority is required to give its decision within 105 days of the receipt of the final EIA Report. The EIA Guidance Manual for Highways, 2010 explains the four stages of the environmental clearance process and the contents of the EIA Report required to be submitted by highway projects.

Public Liability Insurance Act, 1991

The Public Liability Insurance Act, 1991 (the "**Public Liability Act**"), imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of 'hazardous substances' covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the Environment Relief Fund, a sum equal to the premium paid on the insurance policies. This amount is payable to the insurer.

Green Highways (Plantation, Transplantation, Beautification and Maintenance) Policy, 2015

In September 2015, MoRTH has launched Green Highways (Plantation, Transplantation, Beautification and Maintenance) Policy, 2015 which will require road developers to earmark one per cent of a project's total cost for planting of trees and shrubs across the national highways. Under this policy, the maintenance of such plantations will be outsourced through a bidding process to plantation agencies. MoRTH/NHAI will appoint the authorized agency for empanelment of such plantation agencies.

Foreign Investment Regulations

Foreign investment in Indian securities is governed by the provisions of the FEMA, read with the applicable FEMA Rules, the FEMA (Mode of payment and Reporting of Non-Debt Instruments) Regulations, 2019 and the consolidated FDI Policy issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government. Foreign investment is permitted (except in the prohibited sectors) either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought

to be made. Under the FEMA Rules and the current consolidated FDI Policy, effective from October 15, 2020, an infrastructure investment trust registered and regulated by the SEBI under the InvIT Regulations, being an 'investment vehicle', is permitted to receive foreign investment from a person resident outside India subject to the terms and conditions specified in the FEMA Rules.

All investments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the purview of the above restriction, such subsequent change in the beneficial ownership will also require approval of the Government of India. A multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India.

Downstream investment by an infrastructure investment trust shall be regarded as indirect foreign investment if either the sponsor or the investment manager of such an infrastructure investment trust is not Indian 'owned and controlled' as defined in FEMA Rules.

Downstream investment by an 'investment vehicle' is required to conform to the sectoral caps and conditions/restrictions, if any, as applicable to the company in which the downstream investment is made as per the FDI Policy. Foreign investment of up to 100% through the automatic route is permitted in the infrastructure sector in India. An infrastructure investment trust that receives foreign investment shall be required to make such report and in such format to the RBI or to the SEBI as may be prescribed by them from time to time.

The payment for the units of an infrastructure investment trust acquired by a person resident or registered/ incorporated outside India shall be made in accordance with the Foreign Exchange Management (Deposit) Regulations, 2016 and other applicable law.

Further, any person who is a non-resident and holds units of an infrastructure investment trust in accordance with the FEMA Rules may pledge such units (i) in favor of a bank in India to secure the credit facilities being extended to the Indian company for bona fide purposes; (ii) in favor of an overseas bank to secure the credit facilities being extended to the person, or a person resident outside India who is the promoter of the Indian company or the overseas group company of the Indian company; (iii) in favor of a Non-Banking Financial Company registered with the RBI to secure credit facilities being extended to the Indian company for bona fide purposes; and (iv) subject to the authorized dealer bank satisfying itself of the compliance of the conditions stipulated by the RBI in this regard.

Laws Relating to Employment

Certain other laws and regulations that may be applicable to the Trust, the Project SPVs and the Target SPV include the following:

- Contract Labour (Regulation and Abolition) Act, 1970;
- Payment of Wages Act, 1936;
- Payment of Bonus Act, 1965;
- Employees' State Insurance Act, 1948;
- Employees' Provident Funds and Miscellaneous Provisions Act, 1952;
- Equal Remuneration Act, 1976;
- Payment of Gratuity Act, 1972;
- Shops and Commercial Establishments Acts, where applicable;
- Minimum Wages Act 1948;
- Industrial Disputes Act, 1947;
- Employees Compensation Act, 1923;
- The Code of Wages, 2019;
- The Occupational Safety, Health and Working Conditions Code, 2020;
- The Industrial Relations Code, 2020; and
- The Code on Social Security, 2020

The Code on Wages, 2019 will come into force on such date as may be notified in the official gazette of India by the central government. Once effective, it will subsume the Equal Remuneration Act, 1976, the Minimum Wages

Act, 1948, the Payment of Bonus Act, 1965 and the Payment of Wages Act, 1936. However, certain provisions relating to the central advisory board have been brought into force by the Ministry of Labor and Employment. Further, the Occupational Safety, Health and Working Conditions Code, 2020, the Industrial Relations Code, 2020 and the Code on Social Security, 2020 will subsume various legislations including the Contract Labour (Regulation and Abolition) Act, 1970, the Industrial Disputes Act, 1947, the Employees Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961 and the Payment of Gratuity Act, 1972, upon being brought into force.

LEVERAGE

The following tables present (a) the capital structure of the Trust (including any borrowings or deferred payments) on a consolidated basis and a standalone basis as at September 30, 2024; (b) the capital structure of each of the Project SPVs (including any borrowings or deferred payments) on a standalone basis as at September 30, 2024; and (c) the capital structure of the Target SPV (including any borrowing or deferred payments) on a standalone basis as at September 30, 2024.

The information presented below should be read in conjunction with the sections "*Objects of the Issue*", "*Financial Statements*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on pages 79, 347 and 777, respectively.

Leverage Policy

This policy sets out the framework for selection and repayment of borrowings by the Manager Group. The policy should be read together with a letter dated February 28, 2023 issued by the SEBI, pursuant to which the SEBI has exempted us from the requirement to have a mandatory 'AAA' credit rating and a track record of six distributions to raise debt above 49% of the value of the Trust Assets and up to 70% of the value of the Trust Assets, subject to obtaining a credit rating, disclosure of such credit rating and obtaining unitholder approval.

The key terms of the Leverage Policy include, *inter-alia*:

(i) The Manager Group Members may avail additional borrowings or debt from time to time in accordance with the Annual Budget and Business Plan of the respective Manager Group Members, the Transaction Documents, and the InvIT Regulations. Any additional borrowing or creation of security that is not in accordance with the Annual Budget and Business Plan will require the prior approval of the shareholders of the Investment Manager.

(ii) In accordance with Regulation 20 of the InvIT Regulations, if the aggregate consolidated borrowings and deferred payments of the Trust, holdco, and the SPVs, net of cash and cash equivalents exceeds 25% of the value of the Trust Assets, then for any further borrowing:

a. Up to 49% of the value of the Trust Assets, the Trust shall:

- obtain credit rating from a credit rating agency registered with the SEBI; and
- seek approval of the Unitholders in the manner as specified in Regulation 22 of the InvIT Regulations.

b. Above 49% of the value of the Trust Assets and up to 70% of the value of the Trust Assets, the Trust shall:

- obtain a credit rating from a credit rating agency registered with the SEBI and disclose it to the stock exchange(s);
- utilize the funds only for acquisition or development of infrastructure projects;
- obtain the one-time approval of Unitholders;
- have a track record of atleast six distributions, in terms of sub-regulation (6) of regulation 18, on a continuous basis, post listing, in the years preceding the financial year in which the enhanced borrowings are proposed to be made

(iii) If either of the conditions specified above are breached on account of market movements of the price of the underlying assets or securities, the Investment Manager shall inform the Trustee at the earliest and ensure that the condition is satisfied within six months of the breach, in accordance with the InvIT Regulations.

(iv) The limits in relation to the aggregate consolidated borrowings and deferred payments of the Trust, any Holdcos and the SPVs, net of cash and cash equivalents, shall be as approved by at least 60% of the Unitholders from time to time, unless otherwise provided under the InvIT Regulations.

(v) In no event will the aggregate borrowings exceed 70% of the value of the Trust Assets, or such other limit as provided under the InvIT Regulations.

(vi) The Trust shall be permitted to borrow monies through any permitted means, by any instrument, in Indian or foreign currency, as permitted by applicable law.

(vii) The Investment Manager shall be permitted to borrow monies on behalf of the Trust, subject to the approval of its board of directors or such other committee of the board of directors of the Investment Manager as may be constituted in this regard.

(viii) Any borrowing and/or creation of security for any borrowing by the Manager Group Members incorporated under the Companies Act, 1956 or the Companies Act, 2013, will be in accordance with the conditions prescribed therein.

(ix) The Investment Manager may secure the payment of any sum of money for and on behalf of the Manager Group Member in such manner and upon such terms and conditions in all respects as set out in the Annual Budget or the Business Plan, including by mortgage or pledge or charge upon all or any Trust Assets (present or future).

RELATED PARTY TRANSACTIONS

Under Regulation 2(1)(zv) of the InvIT Regulations, a 'related party' will be as defined under the Companies Act, 2013 or under the applicable accounting standards (i.e., Ind AS 24 on "Related Party Disclosures") and will also include (i) the Parties to the Trust and (ii) the promoters, directors and partners of the Parties to the Trust. Further, any transaction between the Trust and one or more infrastructure investment trusts having a common investment manager or sponsor, or a transaction where the Investment Manager or the Sponsor is an Associate of the investment manager or sponsor of the other infrastructure investment trust, will be deemed to be related party transactions for such parties. Also see "*Financial Statements*" on page 347.

A. Procedure for dealing with Related Party Transactions

General Requirements

In accordance with relevant provisions of the InvIT Regulations, all related party transactions will be on an arms' length basis, in compliance with applicable accounting standards and any other guidelines issued by the SEBI from time to time. Such related party transactions shall be in the best interest of the Unitholders, must be consistent with the strategy and investment objectives of the Trust and must be disclosed to the Stock Exchange in accordance with the requirements of the InvIT Regulations.

Approval of the Unitholders

In the case of related party transactions proposed to be entered into, if such related party transaction is a Reserved Matter, approval from all eligible Unitholders (as defined under the Framework Agreement) at a validly convened Unitholding meeting will be obtained, provided that if the InvIT Regulations specify a different threshold for the approval by Unitholders of such matter, the threshold specified in the InvIT Regulations will prevail. Further, if such related party transaction is a Reserved Matter and does not require the approval of the Unitholders to be obtained at a Unitholders meeting under the InvIT Regulations, then, a meeting of the Unitholders shall not be required if the prior approval in writing of the Eligible Unitholders has been obtained by IRB in respect of such Reserved Matter. For details of the Reserved Matters, see "*Corporate Governance*" and "*Rights of Unitholders*" on pages 162 and 320, respectively.

Voting by any person who is a related party with respect to any transaction as well as the voting by the Associates of such person will not be considered on the specific issue.

Role of the Investment Manager

The Investment Manager is responsible for formulating and maintaining all such internal processes and relevant controls with respect to related party transactions, so as to ensure compliance with the InvIT Regulations and applicable accounting standards. Further, the Investment Manager will convene meetings of the Unitholders in accordance with Regulation 22 of the InvIT Regulations and maintain records pertaining to such meetings in the manner prescribed. The Investment Manager will also ensure compliance with any additional guidelines, circulars or regulations with respect to related party transactions issued by the SEBI or the stock exchanges in the future.

The Investment Manager or its Associates will not obtain any commission, rebate or any other remuneration, by whatever name called, arising out of transactions pertaining to the Trust, other than as specified in the relevant documents for any offering of Units or any other document as may be specified by the SEBI for the issue of Units.

Disclosure and Reporting

The Investment Manager will submit quarterly reports on the activities of the Trust, including the status of compliance with the requirements specified under the InvIT Regulations in relation to related party transactions to the Trustee within 30 days of the end of each quarter.

Further, in accordance with the InvIT Regulations, the Investment Manager will submit an annual report and a half-yearly report to the Trustee, the Unitholders and the stock exchanges, electronically or through physical copies within the timelines specified under the InvIT Regulations, which will contain, *inter-alia*, details of all related party transactions, including acquisitions or disposal of any projects, directly or through SPVs during the year, the value of which exceeded 5% of the value of the Trust Assets.

B. Details of Related Party Transactions undertaken prior to the filing of this Letter of Offer

The Trust (acting through the Trustee) has entered into, *inter-alia*, the following related party transactions prior to the filing of this Letter of Offer:

S. No.	Name of the Related Party	Nature of Relationship with the Trust	Nature of Transaction
1.	IRB Infrastructure Developers Limited	Sponsor	The Trust was settled with an initial settlement amount of ₹1,000.00 by the Sponsor.
2.	MMK Toll Road Private Limited	Investment Manager	The Trustee (acting on behalf of the Trust) has entered into the Investment Management Agreement dated August 27, 2019, as amended on September 16, 2019 and May 31, 2023, with the Investment Manager for managing and administering the Trust, in accordance with the InvIT Regulations. The Investment Manager will be paid Management Fees in accordance with the terms of the Investment Management Agreement. For details, see "*Background and Structure of the Trust – Fees and Expenses – Fees and expenses of the Investment Manager*" and "*The Investment Manager*" on pages 120 and 331, respectively.
3.	IRB Infrastructure Developers Limited	Project Manager	The Trustee (on behalf of the Trust) has entered into the Project Implementation Agreements with the Project Manager, with respect to each of the Project SPVs, which set out the obligations of the Project Manager with respect to the execution of each of the projects, in accordance with the InvIT Regulations. The Project Manager will be paid EPC Payments and O&M Payments, as applicable, by the respective Project SPVs in accordance with the terms of the Project Implementation Agreements. For details, see "*Background and Structure of the Trust – Fees and Expenses – Fees and expenses of the Project Manager*" and "*The Sponsor and Project Manager*" on pages 120 and 327, respectively.
4.	IRB Infrastructure Developers Limited	Sponsor	Pursuant to the Name Licensing Agreement dated February 13, 2020, as amended, the Sponsor has granted to the Trust, each of the Project SPVs and the Investment Manager, the non-transferable and non-assignable right to use the "IRB" trademark as part of their respective corporate names, if applicable, as well as the "IRB" logo in connection with their respective businesses, on a non-exclusive basis. No licensing fee is payable to the Sponsor under the Name Licensing Agreement.
5.	IRB Infrastructure Developers Limited and its Associates	Sponsor and its Associates	The Project SPVs (except PDTPL, IRB GEPL, STPL, IRB LTPL, IRB KTPL and IRB GTPL) were transferred to the Trust on February 25, 2020 by the Sponsor pursuant to the Formation Transactions undertaken as part of the initial offer through private placement of Units. The Subordinated Debt and Unsecured Loans were also novated in favor of the Trust. The Trust acquired PDTPL through subscription to 99.96% of the equity share capital of PDTPL on April 2, 2022. The Trust acquired IRB GEPL through subscription to 99.99% of the equity share capital of IRB GEPL on August 2, 2023. The Trust acquired STPL on December 28, 2023 and subscribed to 99.96% of the equity share capital of STPL on January 3, 2024.

For details of the related party transactions entered into by the Project SPVs during the six-month period ended September 30, 2024 and the Financial Years 2024, 2023 and 2022, see "*Financial Statements*" on page 347.

C. Details of Related Party Transactions proposed to be undertaken

Pursuant to the Framework Agreement, the Sponsor has agreed that prior to the submission of a Bid (as defined under the Framework Agreement) for any Potential Project (as defined under the Framework Agreement), being eligible in accordance with the Investment and Procurement Policy, it will consult the Financial Investors in good faith and make best efforts to bid for the Potential Project on behalf of the Trust on such terms as agreed between Sponsor and the Financial Investors. If the Sponsor and any one or more Agreeable Investors (as defined in the Framework Agreement) agree to bid for Potential Project in a manner not in accordance with the Investment and Procurement Policy or none of the Financial Investors agreed to the terms of the Bid within a reasonable period or do not agree to bid for the Potential Projects on behalf of the Trust, in each case, the Sponsor or the Sponsor and the relevant Agreeable Investor, as the case may be, will be free to submit a Bid (independent and outside the Trust), as it deems fit for the Potential Project subject to the conditions set out in the Framework Agreement.

The proceeds of the Issue are proposed to be utilized for the payment of the purchase of 80.40% of the equity share capital of MBEL and 80.40% of the outstanding non-convertible debentures of MBEL from the Sponsor and Anahera under the MBEL Securities Purchase Agreement. The Project Manager is also proposed to be appointed as the project manager with respect to MBEL pursuant to the MBEL Project Imeplementation Agreement. These are related party transactions under the InvIT Regulations. Unitholder approval for such related party transactions has been obtained pursuant to a resolution dated February 6, 2024. The MBEL Acquisition also involves certain other agreements with related parties, including amendments to the Framework Agreement and the Name Licensing Agreement. For further details, see "*Objects of the Issue*" and "*Background and Structure of the Trust – The MBEL Acquisition*" on pages 79 and 106, respectively.

In order to conduct its business, the Trust may enter into transactions with related parties in the future, which will be carried out in compliance with the above policy for dealing with related party transactions, applicable accounting standards and the provisions of the InvIT Regulations.

D. Potential Conflicts of Interest

We may be subject to potential conflicts of interest arising out of our relationship with our Sponsor and its respective Associates, and we will enter into transactions with related parties in the future. Details in relation to our policies for dealing with related party transactions are provided above. Also see "*Risk Factors – Risks Related to the Trust's Relationships with the Sponsor and the Investment Manager*" on page 36.

While the Sponsor operates various road infrastructure projects and accordingly, has interests in road infrastructure assets apart from those of the Project SPVs and the Target SPV, none of these other road infrastructure assets compete or are likely to compete, directly or indirectly, with the activities of the Trust. The Sponsor confirms that it shall perform its duty in relation to the Trust independent of its related business.

VALUATION

In relation to the valuation of the Current Portfolio of the Trust, the valuation report dated October 28, 2024 setting out the valuation of the Current Portfolio as of September 30, 2024 ("**Current Portfolio Valuation Report**"), is available on the website of the Trust at https://www.irbinfratrust.co.in/home/index.php/valuation-reports/. This is the last available valuation report for the Current Portfolio under the InvIT Regulations.

The Valuer has also undertaken valuations of the Target SPV as at September 30, 2024 and has issued a valuation report dated December 14, 2024 ("**Target Valuation Report**") which is included as "*Annexure B: Target Valuation Report*" on page B.

Summary of the Valuation and Valuation Methodology of the Current Portfolio of the Trust

Valuation methodology

Basis of Value

The Valuer has performed valuation on the basis of "Fair Value" as at Valuation Date. The generally accepted definition of "Fair Value" is the value as applied between a hypothetical willing vendor and a hypothetical willing prudent buyer in an open market and with access to all relevant information.

Premise of Value

Valuer has adopted "Going Concern Value" as the premise of value in the given circumstances. The generally accepted definition of Going Concern Value is the value of a business enterprise that is expected to continue to operate in the future.

The Valuer has performed valuation as per internationally accepted valuation methodologies and in cognizance of international valuation standards and ICAI Valuation Standards 2018 issued by the Institute of Chartered Accountants of India. The Valuer has carried out valuation of MBEL as at 30 September 2024.

A brief description of generally accepted valuation methodologies considered by the Valuer are set out below:

Income Approach

Discounted Cash Flows ("DCF")

- Under a DCF approach, forecast cash flows are discounted back to the present date, generating a net present value for the cash flow stream of the business. A terminal value at the end of the explicit forecast period is then determined and that value is also discounted back to the valuation date to give an overall value for the business.

- A discounted cash flow methodology typically requires the forecast period to be of such a length to enable the business to achieve a stabilized level of earnings, or to be reflective of an entire operation cycle for more cyclical industries.

- The rate at which the future cash flows are discounted ("the discount rate") should reflect not only the time value of money, but also the risk associated with the business' future operations. The discount rate most generally employed is weighted average cost of capital ("WACC"), reflecting an optimal as opposed to actual financing structure.

- In calculating the terminal value, regard must be had to the business' potential for further growth beyond the explicit forecast period. The "constant growth model", which applies an expected constant level of growth to the cash flow forecast in the last year of the forecast period and assumes such growth is achieved in perpetuity, is a common method. These results would be cross-checked, however, for reasonability to implied exit multiples.

- Due to the finite life of the concession period of Portfolio of the Trust we have not computed a terminal value for the valuation of Portfolio of the Trust.

- The rate at which future cash flows are discounted should reflect not only the time value of the cash flows but also the risk associated with the business' future operations. This means that in order for a DCF to produce a sensible valuation figure, the importance of the quality of the underlying cash flow forecasts is fundamental.

- The DCF approach has been applied in the valuation of Portfolio of the Trust.

- Under DCF Approach we have discounted Free Cash Flow to Firm to arrive at Enterprise Value of Portfolio of the Trust as required by Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014

Market Approach

Comparable Companies ("CoCo")

- Under comparable companies' method, the value of shares / business of a company is determined based on market multiples of publicly traded comparable companies. Although no two companies are entirely alike, the companies selected as comparable companies should be engaged in the same or a similar line of business as the subject company.

- The appropriate multiple is generally based on the performance of listed companies with similar business models and size.

- The CoCo methodology has not been applied in the valuation of Portfolio of the Trust.

- The list of companies in the road segment have mix of assets which are at different stages of operation / development / revenue mix/ leasing period. Therefore, comparable companies' method is not considered.

Comparable Transactions ("CoTrans")

- Under comparable transactions method, the value of shares / business of a company is determined based on market multiples of publicly disclosed transactions in the similar space as that of the subject company. Due to different purposes of investments, transaction rationale and synergy benefits, different control premiums and minority discounts are embedded in the transaction values.

- Multiples are generally based on data from recent transactions in a comparable sector, but with appropriate adjustment after consideration has been given to the specific characteristics of the business being valued.

- The list of transactions in the road segment have mix of assets which are at different stages of operation / development / revenue mix/ leasing period. Therefore, Therefore, comparable transactions method has not been considered for the valuation of Portfolio of the Trust.

Market Price Method

- Under this approach, the value of the business is arrived at considering the market price of the company based on the daily moving averages of the last six-month volume traded weighted average of closing price on the stock exchange where the company's shares are most frequently traded.

- The market price methodology has not been considered in the valuation of the Portfolio of the Trust as individual SPVs of the Trust are not publicly listed or traded on any stock exchange.

Cost Approach

Net Asset Value ("NAV") Method

- Under the net asset value approach, total value is based on the sum of net asset value as recorded on the balance sheet.

- A net asset methodology is most applicable for businesses where the value lies in the underlying assets and not the ongoing operations of the business.

- The net assets methodology has not been considered for the valuation of Portfolio of the Trust as theSPVs in the Portfolio of the Trust are operational and the financials are made on a going concern basis.

Replacement Cost Method

- The replacement cost of a business is the cost of acquiring similar assets employed in the business and/or reaching a similar level of development. A purchaser, faced with a build versus buy scenario, may be prepared to pay significantly over and above this cost to obtain advantages including time saved in developing a similar business, and risk of failure.

- The replacement cost method quantifies the cost and risk to reach the present stage of development.

- This approach is often used for start-up/non-mature technology or biotech businesses.

- Hence, the replacement cost method has not been considered.

Market Value of Assets or Realizable Value

- Under the market value methodology, total value is based on the sum of market value of asset value less market value of liabilities plus, the value of intangible assets not recorded on the balance sheet.

- This methodology is most applicable for businesses where the value lies in the underlying assets and not the ongoing operations of the business.

- Hence, the market value method has not been considered.

Valuation Summary

Valuation Conclusion 30 September 2024	INR Crore
IRB Golconda Expressway Private Limited	15,803
IRB Westcoast Tollway Limited	3,255
Solapur Yedeshi Tollway Limited	2,884
Yedeshi Aurangabad Tollway Limited	5,289
Kaithal Tollway Limited	2,354
AE Tollway Limited	3,441
Udaipur Tollway Limited	2,650
CG Tollway Limited	2,750
Kishangarh Gulabpura Tollway Limited	1,623
IRB Hapur Moradabad Tollway Limited	4,400
Palsit Dankuni Tollway Private Limited	2,003
Samakhiyali Tollway Private Limited	715
Lalitpur Tollway Private Limited	5,874
IRB Kota Tollway Private Limited	926
IRB Gwalior Tollway Private Limited	1,537
Enterprise Value of the SPVs	**55,505**
Cash and cash Equivalents	54
Surplus	241
Debt	(22,360)
PV of standalone expenses pertaining to IRBI Trust	(235)
Capital Creditors	(384)
Equity Value of IRBI Trust	**32,822**

Notes:

1. *Cash and cash equivalents comprise balance and deposits with banks as at 30 September 2024.*

2. *Surplus assets primarily comprise investment in mutual funds of INR 213 Cr and advance tax net of provisions of INR 19 Cr as at 30 September 2024.*
3. *Debt primarily represents loan from banks and financial institutions of INR 19,847 Cr and non-convertible debentures of INR 2,800 Cr as at 30 September 2024. The debt has been reduced by INR 288 Cr, which represents the present value of the release of DSRA, cash reserves and cash margin of INR 319 Cr as at 30 September 2024, maintained by the Management in the standalone books of the Trust. The release schedule of the DSRA, cash reserves and cash margin along with applicable interest earned on the balance has been provided by the Management.*
4. *Present value of standalone expenses of the IRBI Trust represent the present value of the investment manager fee in the books of the IRBI Trust. The expenses have been forecasted to increase by 10% each year till 11 August 2053 (FY2054).*
5. *Capital creditors of INR 384 Cr have been considered debt like in nature and adjusted from the Enterprise Value to arrive at the Equity Value of IRBI Trust. Management represented that they do not consider these liabilities as part of the working capital and thus they have not been considered as part of the forecast working capital.*
6. *We noted that other financial liabilities of INR 4,114 Cr and sub-debt of INR 1,692 Cr is outstanding in the consolidated financials of IRBI Trust is payable to IRBIDL as at 30 September 2024. These liabilities have not been considered as debt like in nature for the purpose of valuation analysis. We have been given to understand that SPV's have ongoing claims and litigations with NHAI for respective projects. IRBI Trust and its SPV's have entered into a debt novation agreement with IRBIDL pursuant to which any amount received by SPVs or Trust towards these NHAI claims will be paid to IRBIDL. Management has also confirmed that these claims and liabilities have no financial impact on the SPVs or the IRBI Trust and the claim amounts from NHAI are significantly higher than the liabilities recognized by the IRBI Trust. Based on the above, we have not considered any impact of these liabilities in our valuation analysis.*

B. Summary of the Valuation and Valuation Methodology of Meerut Budaun Expressway Limited

Valuation methodology

Basis of Value

The Valuer has performed valuation on the basis of "Fair Value" as at Valuation Date. The generally accepted definition of "Fair Value" is the value as applied between a hypothetical willing vendor and a hypothetical willing prudent buyer in an open market and with access to all relevant information.

Premise of Value

Valuer has adopted "Going Concern Value" as the premise of value in the given circumstances. The generally accepted definition of Going Concern Value is the value of a business enterprise that is expected to continue to operate in the future.

The Valuer has performed valuation as per internationally accepted valuation methodologies and in cognizance of international valuation standards and ICAI Valuation Standards 2018 issued by the Institute of Chartered Accountants of India. The Valuer has carried out valuation of MBEL as at 30 September 2024.

A brief description of generally accepted valuation methodologies considered by the Valuer are set out below:

Income Approach

Discounted Cash Flows ("DCF")

- Under a DCF approach, forecast cash flows are discounted back to the present date, generating a net present value for the cash flow stream of the business. A terminal value at the end of the explicit forecast period is then determined and that value is also discounted back to the valuation date to give an overall value for the business.

- A discounted cash flow methodology typically requires the forecast period to be of such a length to enable the business to achieve a stabilized level of earnings, or to be reflective of an entire operation cycle for more cyclical industries.

- The rate at which the future cash flows are discounted ("the discount rate") should reflect not only the time value of money, but also the risk associated with the business' future operations. The discount rate most generally employed is weighted average cost of capital ("WACC"), reflecting an optimal as opposed to actual financing structure.

- In calculating the terminal value, regard must be had to the business' potential for further growth beyond the explicit forecast period. The "constant growth model", which applies an expected constant level of growth to the cash flow forecast in the last year of the forecast period and assumes such growth is achieved in perpetuity, is a common method. These results would be cross-checked, however, for reasonability to implied exit multiples.

- Due to the finite life of the concession period of MBEL we have not computed a terminal value for the valuation of MBEL.

- The rate at which future cash flows are discounted should reflect not only the time value of the cash flows but also the risk associated with the business' future operations. This means that in order for a DCF to produce a sensible valuation figure, the importance of the quality of the underlying cash flow forecasts is fundamental.

- The DCF approach has been applied in the valuation of MBEL.

- Under DCF Approach we have discounted Free Cash Flow to Firm to arrive at Enterprise Value of MBEL as required by Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014

Market Approach

Comparable Companies ("CoCo")

- Under comparable companies' method, the value of shares / business of a company is determined based on market multiples of publicly traded comparable companies. Although no two companies are entirely alike, the companies selected as comparable companies should be engaged in the same or a similar line of business as the subject company.

- The appropriate multiple is generally based on the performance of listed companies with similar business models and size.

- The CoCo methodology has not been applied in the valuation of MBEL.

- The list of companies in the road segment have mix of assets which are at different stages of operation / development / revenue mix/ leasing period. Therefore, comparable companies' method is not considered.

Comparable Transactions ("CoTrans")

- Under comparable transactions method, the value of shares / business of a company is determined based on market multiples of publicly disclosed transactions in the similar space as that of the subject company. Due to different purposes of investments, transaction rationale and synergy benefits, different control premiums and minority discounts are embedded in the transaction values.

- Multiples are generally based on data from recent transactions in a comparable sector, but with appropriate adjustment after consideration has been given to the specific characteristics of the business being valued.

- The list of transactions in the road segment have mix of assets which are at different stages of operation / development / revenue mix/ leasing period. Therefore, Therefore, comparable transactions method has not been considered for the valuation of MBEL.

Market Price Method

- Under this approach, the value of the business is arrived at considering the market price of the company based on the daily moving averages of the last six-month volume traded weighted average of closing price on the stock exchange where the company's shares are most frequently traded.

- The market price methodology has not been considered in the valuation of MBEL as MBEL is not publicly listed or traded on any stock exchange.

Cost Approach

Net Asset Value ("NAV") Method

- Under the net asset value approach, total value is based on the sum of net asset value as recorded on the balance sheet.

- A net asset methodology is most applicable for businesses where the value lies in the underlying assets and not the ongoing operations of the business.

- The net assets methodology has not been considered for the valuation of MBEL as they are operational and the financials are made on a going concern basis.

Replacement Cost Method

- The replacement cost of a business is the cost of acquiring similar assets employed in the business and/or reaching a similar level of development. A purchaser, faced with a build versus buy scenario, may be prepared to pay significantly over and above this cost to obtain advantages including time saved in developing a similar business, and risk of failure.

- The replacement cost method quantifies the cost and risk to reach the present stage of development.

- This approach is often used for start-up/non-mature technology or biotech businesses.

- Hence, the replacement cost method has not been considered.

Market Value of Assets or Realizable Value

- Under the market value methodology, total value is based on the sum of market value of asset value less market value of liabilities plus, the value of intangible assets not recorded on the balance sheet.

- This methodology is most applicable for businesses where the value lies in the underlying assets and not the ongoing operations of the business.

- Hence, the market value method has not been considered.

Valuation Summary – Meerut Budaun Expressway Limited

Valuation Conclusion 30 September 2024	INR Crore
INR Crore	
Present value of cash flows	3,956
Present value of release of working capital	(0)
Enterprise Valuation	**3,955**
Less: Term loan from Bank & Financial Institutions	(1,696)
Less: Capital Creditors	(245)
Less: Unsecured loan from related party	(60)
Add: Surplus Asset	163
Add: Cash and Cash Equivalent	10
Equity Value (100% Stake) including NCD's	**2,127**
Equity Value (80.4% Stake) including NCD's	**1,710**

Notes:

1. *Cash and cash equivalents comprise balance and deposits with banks as at 30 September 2024.*
2. *Surplus assets primarily comprise grant receivable of INR 131.36 cr and receivable from concessionaire towards change in law on account of GST INR 31.96 cr as at 30 September 2024.*
3. *Debt primarily represents loan from banks and financial institutions of INR 1696 Cr as at 30 September 2024.*
4. *Unsecured loan from related party represent repayable loan taken from related parties to cover project cost against grant receivables.*

5. *Capital creditors of INR 245 Cr have been considered debt like in nature and adjusted from the Enterprise Value to arrive at the Equity Value of MBEL. Management represented that they do not consider these liabilities as part of the working capital and thus they have not been considered as part of the forecast working capital.*
6. *Our valuation conclusion assumes that outstanding non convertible debentures ("NCDs") of INR 1,599.75 cr issued to shareholders in proportion of their shareholding as part of their towards equity contribution are treated as quasi equity and not adjusted as debt like item in arriving from enterprise value to equity value. This assumption is based on assertion from Management of the Trust that the acquisition consideration will be inclusive of consideration towards debentures.*

A. Frequency of Valuation

In accordance with the InvIT Regulations, a full valuation of the Trust Assets (including physical inspection of each of the Trust's infrastructure projects) shall be conducted by the Valuer not less than once every financial year, and that such a full valuation shall be conducted at the end of each financial year, within two months from the end of such financial year. An updated valuation report taking into account any material developments during the previous half-year is also required to be issued by the Valuer as part of the half-yearly report to be submitted by the Investment Manager to the Trustee, the Unitholders and the Stock Exchange.

However, in case of any material development that may have an impact on the valuation of the Trust Assets, the Investment Manager will require the Valuer to undertake a full valuation of the infrastructure project under consideration, within not more than two months from the date of such event, and disclose the same to the Trustee within 15 days of such valuation. Any valuation reports received by the Investment Manager are required to be disclosed to the Stock Exchange within 15 days of receipt.

As a listed InvIT, in case the consolidated borrowings and deferred payments of the Trust are above 49% of the value of the Trust Assets, the valuation of the assets of the Trust is required to be conducted by the Valuer for the quarters ending June, September and December, for incorporating any key changes in the previous quarter and such quarterly reports are required to be prepared within one month of the end of such quarter.

B. Declaration of NAV

The Investment Manager will ensure that computation and declaration of NAV of the Trust is based on the valuation done by the Valuer, not later than 15 days from the date of valuation.

DISTRIBUTIONS

Distribution

Distributions shall be made by the Trust to the Unitholders, from time to time, in accordance with the Indenture of Trust and the InvIT Regulations. The Trustee shall make and shall ensure that the Investment Manager declares distributions in accordance with the InvIT Regulations. However, Unitholders should note that there is no assurance or guarantee that distributions will be made in any amount or at all.

The InvIT Regulations provide that not less than 90% of net distributable cash flows of each Project SPV, and any other SPV that may be acquired by the Trust, are required to be distributed to the Trust in proportion of its holding in each of the Project SPVs, and any other SPV that may be acquired by the Trust, subject to applicable provisions of the Companies Act. Further, not less than 90% of net distributable cash flows of the Trust shall be distributed to the Unitholders. Such distributions are required be declared and made not less than once every financial year and shall be made within five working days from the record date for such declaration. The record date for the payment of distribution shall be two working days from the date of the declaration of distribution, excluding the date of declaration and the record date

In the event distributions are not made within 5 working days from the record date for such declaration, the Investment Manager shall pay interest at the rate of 15% per annum until the distribution is made to the Unitholders. Such interest is not and will not be recoverable by the Investment Manager from the Trust in the form of fees or any other charges payable by the Trust to the Investment Manager. Any amount remaining unclaimed or unpaid out of the distributions declared by the Trust shall be dealt with and transferred to the "Investor Protection and Education Fund" constituted by the SEBI, in the manner specified by the SEBI pursuant to its circular bearing reference number SEBI/HO/DDHS/DDHS-RAC-1/P/CIR/2023/178 dated November 8, 2023.

Distributions shall be made *pro rata* to the total subscription amount of a Unitholder and in accordance with the provisions of the Indenture of Trust, the InvIT Regulations, the Distribution Policy, the preliminary placement memorandum and the placement memorandum.

The Trust's distribution policy is to distribute as per the Trust's net distributable cash flows (the "**Net Distributable Cash Flows**"). The Trust's distribution policy is to distribute at least 90% of the Net Distributable Cash Flows of the Trust. Unless otherwise decided by the Unitholders, the Trust shall declare 100% of the Net Distributable Cash Flows as distributions to the Unitholders.

See "*Risk Factors*" on page 16 for a description of factors that may adversely affect the ability of the Trust to make distributions to Unitholders.

The requirements in relation to distributions will become applicable with respect to the Target SPV upon completion of the MBEL Acquisition, in proportion to the Trust's shareholding in MBEL.

Distribution Policy of the Trust

In accordance with the InvIT Regulations, and the applicable guidelines, as may be issued by SEBI from time to time:

a) Each Project SPV, and any other SPV that may be acquired by the Trust, shall distribute its respective Net Distributable Cash Flows to the Trust, subject to the applicable provisions under Companies Act or any other applicable law, not less than once every three months; and

b) The Trust shall distribute at least 90% of the Net Distributable Cash Flows to the Unitholders not less than once every three months. Unless otheriwse decided by the Unitholders, the Trust shall declare 100% of the Net Distributable Cash Flows as distributions to the Unitholders.

The indicative framework for calculation of net distributable cash flows, as provided herein below, is subject to change, including pursuant to any amendments to the InvIT Regulations or by way of any circulars or guidelines issued by SEBI in this regard:

Computation of Net Distributable Cash Flow at HoldCo/ SPV level:

Particulars
Cash flow from operating activities as per Cash Flow Statement of HoldCo/ SPV
(+) Cash Flows received from SPV's which represent distributions of NDCF computed as per relevant framework ***(refer note 1 and 9 below) (relevant in case of HoldCos)***
(+) Treasury income / income from investing activities (interest income received from FD, tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. Further clarified that these amounts will be considered on a cash receipt basis)
(+) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations
(+) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs or Investment Entity not distributed pursuant to an earlier plan to reinvest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently
(-) Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss Account and any shareholder debt / loan from Trust
(-) Debt repayment (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt, in any form or equity raise as well as repayment of any shareholder debt / loan from Trust)
(-) any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with banks / financial institution from whom the Trust or any of its SPVs/ HoldCos have availed debt, or (ii). terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ HoldCos, or (iii). terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ HoldCos, (iv). agreement pursuant to which the SPV/ HoldCo operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations; or – (**refer note 2 below**)
(-) any capital expenditure on existing assets owned / leased by the SPV or HoldCo, to the extent not funded by debt / equity or from reserves created in the earlier years (**refer note 10 below**)
NDCF for HoldCo/SPVs

Computation of Net Distributable Cash Flow at Trust level:

Particulars
Cashflows from operating activities of the Trust
(+) Cash flows received from SPV's / Investment entities which represent distributions of NDCF computed as per relevant framework ***(refer note 1 and 9 below)***
(+) Treasury income / income from investing activities of the Trust (interest income received from FD, any investment entities as defined in Regulation 18(5), tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. Further clarified that these amounts will be considered on a cash receipt basis)
(+) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs/HoldCos or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations
(+) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs/ HoldCos or Investment Entity not distributed pursuant to an earlier plan to re-invest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently
(-) Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss account of the Trust
(-) Debt repayment at Trust level (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt in any form or funds raised through issuance of units)

(-) any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with financial institution, or (ii). terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ HoldCos, or (iii). terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ HoldCos, or (iv). agreement pursuant to which the Trust operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations; or – (**refer note 2 below**)
(-) any capital expenditure on existing assets owned / leased by the InvIT, to the extent not funded by debt / equity or from contractual reserves created in the earlier years (**refer note 10 below**)
NDCF at Trust Level

Notes:

1. *Net Distributable Cash Flows (**"NDCF")** computed at SPV level for a particular period to be added under this line item, even if the actual cashflows from the SPV to the Trust has taken place post that particular period, but before finalization and adoption of accounts of the Trust.*

2. *The specified agreements could be for either PPP or non-PPP projects. The Trust retains the option to distribute any surplus amounts, unless such surplus is required to create reserves for any subsequent period.*

3. *The option to retain 10% distribution under Regulation 18(6) of the InvIT Regulations needs to be computed by taking together the retention done at the SPV level and Trust level.*

4. *Further, Trust along with the SPVs needs to ensure that minimum 90% distribution of NDCF be met for a given financial year on a cumulative periodic basis as specified for mandatory distributions in the InvIT regulations (subject to provisions of Note 1 above).*

5. *Surplus cash available in SPVs due to:*
   i. *10% of NDCF withheld in line with the InvIT Regulations in any earlier year or half year or;*
   ii. *Such surplus being available in a new SPV on acquisition of such SPV by the Trust;*
   iii. *Any other reason, excluding if such surplus cash is available due to any debt raise could be considered for distribution by the SPV to the Trust, or by the Trust to its Unitholders in part or in full, but needs to be disclosed separately in the NDCF computation and distribution.*

6. *Similarly, any restricted cash (disclosed as such) should not be considered for NDCF computation by the SPV or Trust (e.g. unspent corporate social responsibility balance for any year deposited in a separate account as per the Companies Act, 2013 which will be utilized in subsequent years, DSRA reserve, major maintenance reserve, etc.)*

7. *Further, it is expressly provided that neither the Trust nor SPVs can distribute any cashflows by obtaining external debt, except to the extent clarified in Note 2 above (this will exclude any working capital/OD facilities obtained by the Trust/SPVs as part of treasury management/working capital purposes as long as they are squared off within the quarter).*

8. *Further, the proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs or Investment Entity adjusted for transaction costs or repayment of debt taken for such assets or other items as mentioned above which is intended to be reinvested or planned to be reinvested as per Regulation 18(7) of the InvIT Regulations, could be temporarily parked in Overdraft accounts or used to repay any additional / unrelated debt. Further if such proceeds are not intended to be reinvested as per the timeline provided in the InvIT Regulations and such net proceeds are to be distributed back to Unitholders, then redrawing such temporarily parked funds to distribute such net proceeds will not be considered as a contravention of Note 7 above.*

9. *Cash flows received from the SPV's/Investment entities which represent distributions of NDCF computed as per relevant framework at the Trust level for further distribution to Unitholders shall exclude any such cash flows used by the Trust for onward lending to any other SPVs / Investment entities to meet operational / interest expenses or debt servicing of such other SPVs / Investment entities.*

10. *Capital expenditure include amounts incurred and paid towards asset enhancement and are capitalized to asset value in the financial statements including lease payments. It is further clarified that existing assets as referred to in this line item includes any new structure/building/other infrastructure constructed on an existing infrastructure asset which is already a part of the Trust.*

Distribution on Disposition

Subject to the InvIT Regulations, if (i) any asset is sold by the Trust or (ii) if the equity shares or interest in the Trust Assets are sold by the Trust then (a) if the Trust proposes to re-invest the sale proceeds into another infrastructure asset, it shall not be required to distribute any sale proceeds to the Trust or the Unitholders; but (b) if the Trust proposes not to invest the sales proceeds into any other infrastructure Assets, then such sales proceeds shall be regarded as Net Distributable Cash Flows and the Trust shall be required to distribute such proceeds in accordance with the Distribution Policy.

Distribution on Dissolution

In the event of dissolution or winding up of the Trust, all of the Trust Assets or the proceeds therefrom shall be distributed or used as follows and in the following order of priority:

a) First, towards the payment of the debts and liabilities of the Trust, including, any amounts due to the Investment Manager, or the Project Manager and the expenses of liquidation;

b) Second, towards the setting up of any reserves which the Trustee, in consultation with the Investment Manager, or the authority in-charge of the dissolution of the Trust may deem reasonably necessary for any contingent or unforeseen liabilities or obligations of the Trust; and

c) Third, towards the Unitholders in accordance with the terms of the Distribution Policy, the Indenture of Trust, and applicable law.

In-specie Distribution

Subject to the provisions of applicable law and the Trust Documents, the Trustee, in consultation with the Investment Manager, may anytime during the life of the Trust make *in-specie* distributions of the Trust Assets.

History of Distributions

The Trust was listed on the NSE on April 3, 2023. Details of the distributions declared by the Trust since listing are set out below.

Particulars	For the Financial Year 2024			For the Financial Year 2025	
	First Distribution	Second Distribution	Third Distribution	First Distribution	Second Distribution
Interest payment	₹449.55 million/₹0.44 per Unit	-	₹267.29 million/₹0.24 per Unit	₹278.42 million/₹0.25 per Unit	₹44.55 million/₹0.04 per Unit
Return of capital	₹1,103.43 million/₹1.08 per Unit	₹2,881.18 million/₹2.82 per Unit	-	₹445.48 million/₹0.40 per Unit	₹590.26 million/₹0.53 per Unit

RIGHTS OF UNITHOLDERS

The rights and interests of the Unitholders are included in this Letter of Offer and the InvIT Regulations. Under the Indenture of Trust and the Investment Management Agreement, these rights and interests are safeguarded by the Trustee and the Investment Manager respectively. Any rights and interests of Unitholders as specified in this Letter of Offer would be deemed to be amended to the extent of any amendment to the InvIT Regulations.

Please note that nothing contained in this Letter of Offer (including any declarations provided by the directors of the Investment Manager) will relieve any party of its rights or obligations under the Framework Agreement and the IM SHA.

Beneficial Interest

Each Unit represents an undivided beneficial interest in the Trust. A Unitholder has no equitable or proprietary interest in the Trust Assets and is not entitled to transfer of the Trust Assets (or any part thereof) or any interest in the Trust Assets (or any part thereof). A Unitholder's right is limited to the right to require due administration of the Trust in accordance with the provisions of the Indenture of Trust and the Investment Management Agreement.

Ranking

No Unitholder of the Trust shall enjoy superior voting or any other rights over another Unitholder. Further, the Units shall not have multiple classes, except any subordinate Units that may be issued only to the Sponsor and its Associates, where such subordinate units carry only inferior voting or any other rights compared to other Units in the future, in accordance with Regulation 4(2)(h) of the InvIT Regulations.

Distribution

The Trustee shall ensure that the Investment Manager makes timely declaration of distributions to the Unitholders in accordance with the InvIT Regulations. If the distributions are not made within 15 days of declaration, then the Investment Manager shall be liable to pay interest to the Unitholders at the rate of 15% per annum till the distribution is made. The Investment Manager shall maintain records of the distributions declared and made to the Unitholders. For details, see "*Distributions*" on page 303.

Rights of Unitholders

Subject to the provisions of the InvIT Regulations, the Indenture of Trust, and applicable rules, regulations and guidelines, the rights of the Unitholders include:

a) right to receive income or distributions with respect to the Units held in accordance with the InvIT Regulations and in the manner set forth in the preliminary placement memorandum and the placement memorandum;

b) right to attend the annual general meeting and other meetings of the Unitholders of the Trust;

c) right to vote upon any matters/resolutions proposed in relation to the Trust;

d) right to receive periodic information having a bearing on the operation or performance of the Trust in accordance with the InvIT Regulations;

e) right to apply to the Trustee to take up certain issues at meetings for Unitholders approval; and

f) the right to appoint a nominee director on the Board, subject to the conditions specified under the InvIT Regulations.

Pre-emptive rights: In addition, the Investment Manager (on behalf of the Trust) will ensure that Unitholders will have the right to subscribe to their respective proportionate share of the proposed issue of Units at the same price to maintain their respective proportionate ownership in the Trust if the Trust proposes to issue any new units after the completion of the initial offer of Units to any person (except as contemplated in any business plan). The

Investment Manager and the Trustee will also ensure that Unitholders exercise their rights in relation to Reserved Matters and Events of Default.

For details of Reserved Matters, see "*Corporate Governance*" and "*– Approval of Unitholders*" on pages 162 and 322, respectively. For details of Events of Default, see "*– Arrangements between the Sponsor and the Financial Investors*" below.

The Trustee shall hold the Trust Assets in the name of the Trust for the benefit of the Unitholders in accordance with the Indenture of Trust and the InvIT Regulations and shall oversee the activities of the Investment Manager in the interest of the Unitholders. All related party transactions shall be on an arms' length basis in accordance with the relevant accounting standards, and in the best interests of the Unitholders. Further, the Trustee shall maintain records relating to the notices and agenda sent to the Unitholders for meetings held and the disclosures made to the Unitholders.

The rights given by the Sponsor to the Financial Investors will be made available to any new Unitholder that acquires Units of the Trust. Pursuant to a letter dated February 28, 2023, the SEBI has permitted *inter-se* rights among the existing Unitholders of the Trust to continue post-Listing, provided that such rights are extended to all Unitholders other than the Sponsor and its Associates post-Listing.

Arrangements between the Sponsor and the Financial Investors

In addition to the rights set out above, pursuant to the Framework Agreement, the Sponsor and the Financial Investors have agreed to certain *inter-se* arrangements in relation to their Unitholding in the Trust. Pursuant to the completion of the Cintra Transaction, certain arrangements include Cintra InvIT Investor as a Financial Investor. Key terms of such arrangements are set out below:

Put option: The Financial Investors had the right to require the Sponsor to purchase the Units held by them in the Trust upon the occurrence of certain events within the period of 12 months from the date of allotment in the initial offer of Units.

Right of first offer: Each of the Unitholders have a right of first offer over Units proposed to be transferred by any Unitholder, on such terms and conditions as set out in the Framework Agreement.

Tag along right: If the Sponsor proposes to transfer the Units held by it to a third party buyer (which is not a subsidiary of the Sponsor), the Financial Investors have a right to require such buyer to purchase from the Financial Investors, (i) the entire Unitholding of the Financial Investors, if the Sponsor proposes to transfer in excess of 20% of the total outstanding Units or (ii) up to such percentage of Units held by the Financial Investors that are *pro rata* to the percentage of Units proposed to be transferred by the Sponsor if the Sponsor proposes to transfer 20% or less of the total outstanding Units.

Reserved Matters: See *" – Approval of Unitholders*" below.

Encumbrances on the Sponsor's Units: The Sponsor is restricted from creating any encumbrances on its Units until the expiry of five years from the date of allotment of Units in the initial offer of Units. However, the Sponsor can pledge up to a certain percentage of its Units in favor of permitted lenders, the Financial Investors or their affiliates subject to certain conditions as agreed between the Sponsor and the Financial Investors.

Transfer of Units by the Sponsor: The Sponsor will only sell its Units to a person that is willing to be bound by the existing arrangements between Sponsor and the Financial Investors.

Event of Default and Consequences

The Financial Investors have the right to call an event of default ("**Event of Default**") under the Framework Agreement under certain circumstances.

If an Event of Default is declared by the Financial Investors:

- *Credit of distributions into an escrow account controlled by the Investment Manager*: The Sponsor and the Investors will cause any distributions that are to be made to them to be credited into the escrow account. The

Trustee and the Investment Manager will ensure compliance with obligations in relation to distributions under Regulation 18(6) of the InvIT Regulations.

- *Operations of the Trust*: Other than operating in the ordinary course of business, no action shall be taken by any Manager Group Member in relation to the operations and business of the Trust without the unanimous consent of the Unitholders. However, if the InvIT Regulations specify a different threshold for the approval by Unitholders of such matter, the threshold specified in the InvIT Regulations will be followed instead of the unanimous consent requirement. If the Financial Investors vote against a resolution on any such matter for which a different threshold is specified under the InvIT Regulations, the Sponsor has agreed that it will also vote against the resolution on such matter.

The Sponsor may elect to dispute the event of default notice within a specified time period. If the Sponsor does not dispute such notice or the dispute is decided in favour of the Financial Investors:

- *Default call option and default put option*: The Financial Investors will have the right to require (i) the Sponsor to sell its Unitholding to them or (ii) the Sponsor to purchase the Investors' Unitholding in accordance with the conditions specified in the Framework Agreement.

- *Right to cause the Sponsor to take actions*: The Financial Investors will have the right to require the Sponsor to require the Trustee to call for a meeting of the Unitholders for change of the investment manager and the project manager. The Sponsor will vote in favor of the appointment of any entity proposed by the Financial Investors as the new investment manager of the Trust as per the InvIT Regulations. The Sponsor and its affiliates will forfeit all their rights under the transaction documents. This will not impact any responsibilities of the Sponsor under the InvIT Regulations.

- *Resolution of dispute relating to an Event of Default*: Upon the resolution of the dispute relating to the event of default, the distributions in the escrow account will immediately be released to the relevant party, i.e., Sponsor and Financial Investors. The party (against whom the dispute has been resolved unfavorably) shall be required to pay interest to the other party on the distributions credited to the escrow account for the delayed period.

Meetings of Unitholders

Subject to the provisions of the IM SHA, the Investment Manager shall convene meetings of the Unitholders in accordance with Regulation 22 of the InvIT Regulations, including at the written request of the Unitholders as specified therein, and maintain records pertaining to the meetings in accordance with Regulation 26 of the InvIT Regulations.

A Unitholder may be present at and may vote at any Unitholders' meeting in person, electronically, by proxy or attorney or by a duly authorized representative, and any such proxy, attorney or representative shall be counted for the purposes of constituting a quorum, to the extent permissible under applicable law. Voting on all matters to be considered at a Unitholders meeting shall be by poll, in proportion of the Units held by each Unitholder. Each Unit shall carry one vote. The Unitholders shall be entitled to participate, be counted towards quorum and vote in Unitholders' meetings by e-voting, postal ballot or any other means, subject to applicable law.

Approval of Unitholders

The Investment Manager and the Trustee are required to ensure that no resolution is passed in respect of any of the Reserved Matters without the approval of Unitholders such that the votes cast by Unitholders so entitled and voting in favor of the resolution are not less than one-and-a-half times the votes cast against such resolution at a validly convened Unitholders meeting (i.e., Unitholders holding at least 60% of the Unitholding of the Trust), provided that if the InvIT Regulations specify a different threshold for approval by Unitholders of any Reserved Matter, the threshold specified in the InvIT Regulations will prevail. If the Financial Investors vote against a resolution on a Reserved Matter for which the particular threshold is specified under the InvIT Regulations, the Sponsor has agreed that it will also vote against the resolution on such matter. If a Reserved Matter does not require the approval of the Unitholders to be obtained at a Unitholders meeting under the InvIT Regulations, then, a meeting of the Unitholders shall not be required if the written consent of equity shareholders holding a certain agreed percentage of the equity shareholding has been obtained, depending on whether the relevant matter is an Ordinary Reserved Matter (as specified in the IM SHA) or a Special Reserved Matter (as specified in the IM SHA).

After the allotment of Units pursuant to the initial offer of Units, where any act under any Trust Document requires a 'consultation with the Trustee' or involves the exercise of powers by the Trustee which have not or cannot be delegated to the Investment Manager, then the performance of such act shall be deemed to include the obligation to obtain the approval of the Unitholders such that the votes cast in favor of the resolution shall be at least 60% of total votes cast for the resolution.

The limits in relation to the aggregate consolidated borrowings and deferred payments of the Trust and its Project SPVs, net of cash and cash equivalents (which includes investments in overnight mutual funds, characterized by their investments in overnight securities, having maturity of one day), shall be up to 70% of the Trust Assets. Also see "*Leverage*" on page 294 for details of the leverage policy of the Trust.

Reserved Matters

Certain Reserved Matters relating to the operations of the Trust, the Investment Manager, the Project SPVs and any other Manager Group Members which would require the approval of the board of directors, shareholders and Unitholders of the relevant entities, as applicable, have been identified and agreed under the Framework Agreement and the IM SHA. Such Reserved Matters include, *inter-alia*, matters in relation to:

- changes to the capital structure of any Manager Group Member;
- amendments to the charter documents of any Manager Group Member;
- listing of any Manager Group Member;
- approval of annual budgets and business plans;
- acquisition or divestment of road assets by the Trust;
- replacement or removal of certain managerial personnel;
- distributions in deviation from the Distribution Policy;
- indebtedness and encumbrances of assets of any Manager Group Member;
- amendment or termination of material contracts;
- major transactions;
- accounting and tax matters; and
- litigation and delegation of authority.

The reserved matters listed above have been classified into Ordinary Reserved Matters and Special Reserved Matters, as specified in the IM SHA, copy of which will be available for will be available for inspection to Eligible Unitholders from the date of this Letter of Offer until the Issue Closing Date. See "*Material Contracts and Material Documents for Inspection*" on page 848.

Also see "*Corporate Governance – Reserved Matters*" on page 163.

Matters for Approval under the InvIT Regulations

Under the InvIT Regulations, with respect to any matter requiring approval of the Unitholders:

a) a resolution shall be considered as passed when the votes cast by Unitholders, so entitled and voting, in favor of the resolution exceed a certain percentage (as specified in InvIT Regulations) of total votes cast;

b) the voting may also be done by postal ballot or electronic mode;

c) the voting threshold specified under these regulations shall be calculated on the basis of unit holders present and voting;

   The unitholders voting through the electronic voting facility and postal ballot shall be counted for the determination of unitholders present and voting;

d) a notice of not less than 21 days (or such other time period specified under the InvIT Regulations) shall be provided to the Unitholders. Provided that a meeting of Unitholders may be called after giving shorter notice than if consent, in writing or by electronic mode is obtianed (as specified in InvIT Regulations); and

e) voting by any person who is a related party in such transaction as well as the voting by any Associates of such person(s), shall not be considered on the specific issue; and

f) for all unitholder meetings, the investment manager shall provide an option to the unitholders to attend the meeting through video conferencing or other audio visual means and the option of remote electronic voting in the manner as may be specified by the SEBI.

The Investment Manager shall be responsible for all the activities relating to conducting of a meeting of the Unitholders, subject to the Trustee's oversight. However, in accordance with Regulation 22(2) of the InvIT Regulations, the Trustee shall convene and handle all activities relating to the conduct of the meetings in respect of issues relating to the Investment Manager, such as change, removal or change in control of the Investment Manager. Further, in respect of issues pertaining to the Trustee, including any change in the Trustee, the Trustee shall not be involved in any manner in the conduct of the meetings of the Unitholders.

Under the InvIT Regulations, approval from the Unitholders shall be required where the votes cast in favor of the resolution shall be more than 50% of the total votes cast for the resolution, with respect to the resolutions of the Unitholders on, *inter-alia*, the following matters:

a) any approval from the unitholders required in terms of Regulation 18 (Investment Conditions and Dividend Policy), Regulation 19 (Related Party Transactions), and Regulation 21 (Valuation of Assets) of the InvIT Regulations, to the extent applicable;

b) any transaction, other than borrowing, the value of which is equal to or greater than the threshold prescribed under the InvIT Regulations (currently 25% of the Trust Assets);

c) any borrowing in terms of the limit specified under the InvIT Regulations;

d) any issue of Units after the initial offer by the Trust, in whatever form, other than any issue of Units which is considered by the SEBI under Regulation 22(5) of the InvIT Regulations;

e) increasing period for compliance with investment conditions to one year in accordance with Regulation 18(5)(c) of the InvIT Regulations;

f) any issue, which in the ordinary course of business, in the opinion of the Sponsor, the Trustee or the Investment Manager, is material and requires approval of the Unitholders;

g) any issue for which the SEBI or the stock exchanges require the approval of the Unitholders under Regulation 22(4) of the InvIT Regulations; and

h) any issue taken up at an annual meeting of the Unitholders under Regulation 22(3) of the InvIT Regulations, which requires approval of the Unitholders other than as specified in Regulation 22(6) of the InvIT Regulations.

Under the InvIT Regulations, approval from the Unitholders shall be required where the votes cast in favor of the resolution shall be 60% of total votes cast for the resolution, with respect to the resolutions of the Unitholders on, *inter-alia*, the following matters:

a) any change in the Investment Manager, including removal or change in control of the Investment Manager;

b) any material change in the investment strategy of the Trust or its management fees;

c) the Trustee and the Investment Manager proposing to seek delisting of the Units of the Trust under Regulation 17(1)(e) of the InvIT Regulations;

d) any issue, not in the ordinary course of business, which in the opinion of the Sponsor, the Investment Manager or the Trustee, requires approval of the Unitholders;

e) any issue for which SEBI or the stock exchanges require the approval of the Unitholders under Regulation 22(5) of the InvIT Regulations;

f) any issue taken up at the request of the Unitholders, including:

i) removal of the Investment Manager, and the appointment of another investment manager to the Trust;

ii) removal of the Auditor, and appointment of another auditor with respect to the Trust;

iii) removal of the Valuer, and appointment of another valuer with respect to the Trust;

iv) delisting of the Trust, if the Unitholders have sufficient reason to believe that such delisting would act in their interest;

v) any issue which the Unitholders have sufficient reason to believe is detrimental to their interest; or

vi) a change in the Trustee if the Unitholders have sufficient reason to believe that the acts of the Trustee are detrimental to their interests.

In relation to any issue taken up at the request of the Unitholders as described above, the Trustee will require the Investment Manager to place the issue for voting in the manner specified in the InvIT Regulations on receipt of such applications.

Redressal of Grievances

The Investment Manager shall ensure adequate and timely redressal of all Unitholders' grievances pertaining to the activities of the Trust, and the Trustee shall periodically review the status of Unitholders' complaints and their redressal undertaken by the Investment Manager. The Investment Manager shall maintain records of the Unitholders' grievances and the actions taken thereon, including copies of correspondences made with the Unitholders. The Trust has obtained authentication on the SEBI Complaints Redress System (SCORES).

All claims, differences or disputes between investors and the Investment Manager arising out of or in relation to the activities of the Investment Manager in the securities market shall be submitted to a resolution mechanism that includes mediation and/or conciliation and/or arbitration, in accordance with the procedure specified by the SEBI pursuant to the Master Circular for Online Resolution of Disputes in the Indian Securities Market dated July 31, 2023 issued by the SEBI, as amended, to the extent applicable.

No loss or damage or expenses incurred by the Investment Manager or officers of the Investment Manager, including those in relation to resolution of claims or disputes of investors, shall be met out of the Trust property.

Limitation of the Liability of the Unitholders

The liability of each Unitholder towards the payment of any amount (that may arise in relation to the Trust including any taxes, duties, fines, levies, liabilities, costs or expenses) shall be limited only to the extent of the Capital Contribution of such Unitholder and after such capital contribution shall have been paid in full by the Unitholder, the Unitholder shall not be obligated to make any further payments.

Periodic Information and Disclosures

The Investment Manager shall submit an annual report to all Unitholders and the stock exchanges, electronically or by physical copies. In addition, the Investment Manager shall submit a half-yearly report, and if the Trust's consolidated borrowings and deferred payments in terms of Regulation 20 of the InvIT Regulations is above 49%, a quarterly report and valuation report to the stock exchanges.

The Investment Manager shall disclose to the stock exchanges any information having bearing on the operation or performance of the Trust as well as price sensitive information which includes, but is not restricted to the following:

a) acquisition or disposal of any projects, directly or through a holdco or SPV, the value of which exceeds 5% of the value of the Trust Assets;

b) additional borrowing, at level of holdco or SPV or the Trust, exceeding 15% of value of the Trust assets;

c) additional issue of Units by the Trust;

d) details of any credit rating obtained by the Trust and any change in such rating;

e) any issue which requires the approval of the Unitholders;

f) any legal proceedings which may have significant bearing on the functioning of the Trust;

g) notices and results of meetings of the Unitholders;

h) any instance of non-compliance with the InvIT Regulations, including any breach of limits specified under the InvIT Regulations; and

i) any material issue that, in the opinion of the Investment Manager or Trustee, needs to be disclosed to the Unitholders.

The Investment Manager (on behalf of the Trust) shall submit such information to the Unitholders and the Designated Stock Exchange on a periodic basis as may be required under the InvIT Regulations and applicable law, including an annual secretarial compliance report and the quarterly report on corporate governance compliance. Further, the Investment Manager (on behalf of the Trust) shall disclose to the Unitholders, the Designated Stock Exchange and SEBI, all such information, in the manner as may be specified by SEBI. For details of the responsibilities of the Investment Manager in relation to making periodic disclosures with respect to the valuation of the Trust Assets and the computation and declaration of NAV of the Trust, see "*Valuation*" on page 309.

SECTION V – PARTIES TO THE TRUST

THE SPONSOR AND PROJECT MANAGER

The Sponsor of the Trust is IRB Infrastructure Developers Limited. The Sponsor has settled the Trust pursuant to the Indenture of Trust dated August 27, 2019, as amended, and has appointed the Trustee in accordance with the provisions of the InvIT Regulations.

The Sponsor has also been appointed as the Project Manager pursuant to the Project Implementation Agreements.

The details of the Sponsor, Sponsor Group and Project Manager are as follows:

A. Details of the Sponsor and Project Manager

a) **Name:** IRB Infrastructure Developers Limited;

b) **Registered Office:** Off No-11th Floor/1101, Technology Street, Hill Side Avenue, Powai, Mumbai 400 076, Maharashtra, India;

c) **Correspondence Address:** Off No-11th Floor/1101, Technology Street, Hill Side Avenue, Powai, Mumbai 400 076, Maharashtra, India;

d) **Telephone Number:** +91 22 6640 4220;

e) **Website:** www.irb.co.in

f) **E-mail:** info@irb.co.in

B. Details of the Contact Person of the Sponsor

a) **Name:** Mr. Mehul Patel;

b) **Telephone Number:** +91 22 6640 4220; and

c) **E-mail:** mehul.patel@irb.co.in

C. Background and Past Experience of the Sponsor and Project Manager

The Sponsor is one of the largest infrastructure development and construction companies in India in terms of net worth in the roads and highways sector according to the NHAI's annual prequalification for public private partnerships in national highway projects report for 2016. As at September 30, 2024, the Sponsor had six road projects of which two were operational and four were under-construction.

The Sponsor also acts as the Project Manager for all the projects of the Trust. The Sponsor's BOT project portfolio includes the Ahmedabad Vadodara section of NH 8 and the Ahmedabad Vadodara Expressway and the Meerut Budaun (Group-I) section of Ganga Expressway. The Sponsor's HAM project portfolio includes the under construction Gandeva to Ena project on the Vadodara-Mumbai eight lane expressway, four-laning of Punjab/Himachal Border to Mo Section of NH-154 and the six-laning of Chittoor Thachur road. The Sponsor's TOT project includes the Yashwantrao Chavan Expressway (Mumbai Pune Expressway) and Mumbai – Pune section of NH-48 (old NH-4). The Sponsor has experience in developing road and highway infrastructure and has received various industry awards and recognitions.

The Sponsor/Project Manager has experience in the execution of construction work for roads, highways, and other relevant structures and had a track record of constructing over 18,000 Lane Kilometres of roads and highways as of September 30, 2024.

The Sponsor is listed on the Stock Exchanges with a market capitalization of ₹354.79 billion as at December 10, 2024. As at September 30, 2024, the Sponsor has a consolidated net worth of ₹139.36 billion. The Sponsor recorded a consolidated turnover of ₹82.02 billion in the Financial Year 2024 with a profit after

tax of ₹6.06 billion.

D. Sponsor Group

The Sponsor/Project Manager, IRB Holding Private Limited, Virendra D. Mhaiskar, Deepali V. Mhaiskar and Virendra D. Mhaiskar (HUF) form the Sponsor Group.

E. Other Confirmations

In accordance with the eligibility criteria specified under the InvIT Regulations, the Sponsor had a net worth of ₹94.84 billion as on March 31, 2024, on a standalone basis. As at September 30, 2024, the Sponsor has a consolidated networth of ₹139.36 billion. The Sponsor has an experience of more than 20 years as a developer in the infrastructure sector.

Further, none of the members of the Sponsor Group or their respective promoters or directors:

a) is debarred from accessing the securities market by the SEBI; or

b) is a promoter, director or person in control of any other company or a sponsor, investment manager or trustee of any other infrastructure investment trust which is debarred from accessing the capital market under any order or directions made by the SEBI.

None of the promoters or directors of any of the members of the Sponsor Group is a fugitive economic offender declared under Section 12 of the Fugitive Economic Offenders Act, 2018.

F. Details of the Holding or the Proposed Holding by Sponsor and the Sponsor Group in the Trust

The Sponsor currently holds 51.02% of the units of the Trust. The Sponsor has undertaken to subscribe to its entire Rights Entitlement in the Issue and proposes to subscribe to additional Units in the Issue such that its maximum post-Issue unitholding is 51.02%.

G. Summary of the Consolidated Financial Statements of the Sponsor

For a summary of the financial statements of the Sponsor, as derived from the consolidated financial statements of the Sponsor, prepared in accordance with Ind AS and the Companies Act, as of and for the Financial Years 2024, 2023 and 2022, see "*Summary Financial Statements*" on page 44.

H. Functions, Duties and Responsibilities of the Project Manager

The Project Manager has agreed to provide professional services to carry out engineering, procurement, construction, operations and maintenance of the Project SPVs, including making arrangements for the appropriate maintenance, either directly or through sub-contractors, in accordance with the terms and conditions of the relevant project agreements, the InvIT Regulations, other applicable law and good industry practice (the "**Works**"). CGTL, IRB HMTL, KGTL, IRB WTL and UTL have also executed addenda dated May 6, 2021 to their respective Project Implementation Agreements, in connection with the payment of certain additional costs to the Project Manager. IRB GEPL has entered into a project implementation agreement dated August 2, 2023 with the Project Manager for the provision of initial upgradation works and operation and maintenance works for the project operated by IRB GEPL. STPL has entered into a project implementation agreement dated October 12, 2023 with the Project Manager for the provision of the Works for its project. Each of IRB LTPL, IRB KTPL and IRB GTPL has entered into a project implementation agreement dated March 13, 2024 with the Project Manager for the provision of initial upgradation works and operation and maintenance works for their respective projects.

Under the terms of the Project Implementation Agreements, the Project Manager is required to, *inter-alia*, provide the following Works:

a. engineering, procurement and construction works in relation to the project as required under the project agreements;

b. operations and maintenance for the project as stipulated under the project agreements, including tolling, which shall include procuring, operating and maintaining the toll management system at its toll plazas, including employing staff for toll collection, security arrangements at toll plazas and printing of toll tickets;

c. any and all activities required to be performed by the Project SPVs pursuant to the project agreements or pursuant to any communication from NHAI or any other governmental authority, including in relation to shifting of utilities, associated roads, felling of trees and related works with respect to the project site or any work to be undertaken pursuant to a change of scope order based on a determination of change of scope by the NHAI under the relevant concession agreement; and

d. other administrative services such as software usage support services, information technology support services, support services for legal matters, support services for accounting and tax matters, support services for general administration and investor relations, and support services and payroll and related services.

The Project Manager may engage duly qualified third-party service providers including but not limited to architects, surveyors and technical consultants for provision of the Works. If more than 50% of the Works are sub-contracted to any person other than Modern Road Makers Private Limited or any other affiliate of the Project Manager, then such sub-contract will be subject to prior approval of the Investment Manager (as confirmed by Unitholders of the Trust).

The Project Manager will inform the Investment Manager about any transactions between the Project Manager and its Associates which may involve a conflict of interest and where the Project Manager has advised that there may be a conflict of interest, and will obtain confirmation from the practicing chartered accountant or the valuer, as applicable, that such transaction is on an arms' length basis.

The Project Manager will ensure that it provides a compliance certificate to the Investment Manager and the Trustee on a quarterly basis or such other intervals as required in accordance with the InvIT Regulations with a copy to the Financial Investors.

The Project Manager has confirmed that it will provide the Works to the Project SPVs on a most preferred basis and if the Project Manager offers same or similar works to any person on better terms than offered to a Project SPV, then the Project SPV will be automatically entitled to the such better terms, and the Project Manager will ensure that the such better terms are forthwith made applicable to the Project SPV.

The Project Manager has also agreed to indemnify the Investment Manager, the Project SPVs and their respective officers, directors, shareholders, partners, members and employees subject to the terms, conditions and limitations specified in the Project Implementation Agreements.

The Project Implementation Agreements are valid for an initial period of 10 years. The Project Implementation Agreements may be terminated by the Investment Manager, *inter-alia,* with prior written notice of a specified period, provided that such right shall not be exercisable by the Investment Manager until the later of (i) the completion of the first major maintenance cycle in relation to the first Project SPV that undergoes a major maintenance cycle; or (ii) the commencement of the fifth year of the initial term. The above right of termination shall be exercisable by the Investment Manager collectively in relation to all the Project Implementation Agreements and not selectively in relation to one or more (but less than all) Project Implementation Agreements, provided that selective termination in respect of a Project SPV shall be permitted if (a) the Project Implementation is terminated pursuant to the other provisions of the agreement; or (b) if the Project SPV is undergoing a major maintenance or the construction period or any EPC Work, in which case, unless otherwise required by the Investment Manager for such Project SPV, the other Project Implementation Agreements shall stand terminated. The Investment Manager shall obtain approvals from the Unitholders and any governmental authority as may be applicable, in relation to such termination.

The Investment Manager also has the right to terminate the Project Implementation Agreements by issuing a notice of termination in case of certain events, including breach of the agreement by the Project Manager and the breach is not remedied within 60 days, occurrence of an Event of Default under the Framework Agreement, change in control of the Project Manager, occurrence of an insolvency event in relation to the Project Manager or a force majeure event continues for a period of 180 days or more within a continuous period of 365 days.

The MBEL Project Implementation Agreement will be effective from the date of closing under the MBEL Securities Purchase Agreement. The Project Manager will provide Works to the Target SPV under the MBEL Project Implementation Agreement similar to the Project SPVs under their respective Project Implementation Agreements. Also see "*Background and Structure of the Trust – Fees and Expenses – Fees and expenses of the Project Manager*" on page 120.

Also see "*Background and Structure of the Trust – Fees and Expenses – Fees and expenses of the Project Manager*" on page 120.

H. Functions, Duties and Responsibilities of the Investment Manager

Below is the brief description of the functions, duties and responsibilities of the Investment Manager provided in the Investment Management Agreement in accordance with the InvIT Regulations, which *inter-alia*, include:

a) Coordinating with the Trustee, as may be necessary, with respect to the operations of the Trust.

b) Ensuring that the valuation of the Trust Assets is done by the Valuer in accordance with the InvIT Regulations.

c) Arranging for adequate insurance coverage for the Trust Assets in accordance with the InvIT Regulations.

d) Maintaining proper books of accounts, documents and records with respect to the Trust, in the manner set out in the Indenture of Trust and in accordance with Applicable Law.

e) Ensuring that the audit of the accounts of the Trust by the Auditor is undertaken in accordance with the InvIT Regulations.

f) Making Distributions to Unitholders in accordance with Regulations 9(8) and 18 of the InvIT Regulations, the Trust Documents and the Investment Strategy. Subject to the Trust Documents, Applicable Law and the Investment Strategy, at least such percentage of the net distributable cash flows of the SPVs and Holdcos (as applicable) shall be distributed to the InvIT, as prescribed in the InvIT Regulations. The Distributions shall be made not less than once every year or at such other intervals as may be specified in the relevant Trust Documents or applicable under the InvIT Regulations;

g) To convene meetings of the Unitholders in accordance with Regulation 22 of the InvIT Regulations, including at the written request of the Unitholders as specified therein, and maintain records pertaining to the meetings in accordance with Regulation 26 of the InvIT Regulations.

h) To intimate the Trustee prior to any change in control of the Investment Manager to enable the Trustee to seek prior approval from the Unitholders (and the SEBI or any other governmental authority, if applicable) and ensuring that no such change is given effect to, until the approval of the Unitholders (and the SEBI or any other governmental authority, as applicable) has been obtained, or the Investemnt Management Agreement is terminated and a new investment manager has been appointed in accordance with the terms in the Investment Management Agreement, or in compliance with any other requirement under the InvIT Regulations, other applicable law and the Trust Documents.

i) To place before the board of directors, a report on the activity and performance of the Trust in accordance with the InvIT Regulations. To designate an appropriately qualified employee to act as the compliance officer for monitoring of compliance with the InvIT Regulations and any circulars or guidelines issued thereunder and intimating the SEBI in case of non-compliance.

j) Maintaining records pertaining to the activity of the Trust in terms of Regulation 26 of the InvIT Regulations.

k) To manage the Trust in accordance with applicable law (including the InvIT Regulations) and the Trust Documents and the investment strategy, to make all investment decisions with respect to the Trust Assets and ensure that the investments made by the Trust are in accordance with the investment conditions specified in the applicable provisions of the InvIT Regulations and in accordance with the investment strategy as specified in the Investment Management Agreement.

l) To appoint, in consultation with the Trustee, the Valuer, Auditor (for a period of not more than five consecutive years or such other period as may be prescribed under the InvIT Regulations), registrar and transfer agent, merchant bankers, custodians, credit rating agencies, and any other intermediaries or service providers.

m) To ensure all activities of the intermediaries, agents, or service providers appointed by the Investment Manager are in accordance with the InvIT Regulations and guidelines and circulars issued thereunder, as applicable.

n) Overseeing the activities of the Project Manager, ensuring that the Project Manager conplies with the InvIT Regulations, and reviewing the transactions carried out between the Project Manager and its Associates and where the Project Manager has advised that there may be a conflict of interest, to obtain confirmation from a practicing chartered accountant or valuer, as applicable, that such transaction is on an arms' length basis.

o) To ensure adequate and timely redressal of Unitholders' grievances pertaining to the activities of the Trust in accordance with the InvIT Regulations. The Investment Manager is required to submit quarterly reports on Unitholders' grievances to the Trustee, as applicable.

p) To provide to the SEBI, the stock exchanges and other governmental authorities, as applicable, information as may be requested or required under applicable law by the SEBI, the stock exchanges or other governmental authorities, as applicable, in relation to the activities of the Trust

q) To ensure that disclosures and reporting to the Unitholders, SEBI, the Trustee, and the stock exchanges are in accordance with the applicable provisions of the InvIT Regulations (including disclosure to the Trustee and the Unitholders of any information having a bearing on the operation or performance of the Trust) in accordance with the timelines specified in the InvIT Regulations.

r) To intimate the Trustee and the Unitholders on the occurrence of any event that may have a material impact on the Investment Manager and its ability to perform its obligations under the Trust Documents, including any change in control of the Investment Manager.

s) To be responsible for all activities pertaining to the issue of Units including filing of any placement memorandum, final placement memorandum, draft offer document, offer document or final offer document with the SEBI and dealing with all matters relating to the allotment of Units to Unitholders.

t) To ensure that disclosures in the placement memorandum or offer document are material, true, correct and adequate and in accordance with the InvIT Regulations. The Trust may list its Units on one or more stock exchanges subject to compliance with the conditions specified under the InvIT Regulations and directions issued by the SEBI or the stock exchanges, as applicable.

u) Fulfiling its obligations under the applicable provisions of the InvIT Regulations and the Trust Documents.

v) The Investment Manager is required to submit to the Trustee:

   i. quarterly reports on the activities of the Trust including receipts for all funds received by it and for all payments made, status of compliance with the InvIT Regulations, specifically Regulations 18, 19 and 20 of the InvIT Regulations, performance report, status of development of under-construction projects, within time period specified under the InvIT Regulations, whichever is earlier;

ii. valuation reports as required under the InvIT Regulations within the time period specified under the InvIT Regulations;

iii. decision to acquire or sell or develop or bid for any Trust Asset or project or expand existing completed Trust Assets or projects along with rationale for the same;

iv. details of any action which requires approval from the Unitholders as may be required under the InvIT Regulations; and

v. details of any other material fact including change in its directors, change in its shareholding, any legal proceedings that may have a significant bearing on the activity of the Trust, within the time period specified under the InvIT Regulations.

w) To submit within the time period prescribed under the InvIT Regulations, annual reports and half yearly reports to all the Unitholders electronically or provide physical copies and, if applicable, to the stock exchanges.

x) To keep segregated at all times the assets and liabilities of the Trust from the assets and liabilities of the Investment Manager and the assets and liabilities of any other trusts managed by the Investment Manager. The assets held under the Trust shall be held for the exclusive benefit of the Unitholders and such assets shall not be subject to the claims of any creditor or any person claiming under any other fund or trust administered or managed by the Investment Manager.

y) To be responsible for monitoring, administering and giving effect to all claims and adjustments arising out of the share purchase agreements executed in respect of the acquisition of Trust Assets and any payments required to be made by or to the Trust.

z) Other duties include:

i. ensuring that computation of the net asset value of the Trust is based on the valuation done by the Valuer in accordance with the InvIT Regulations;

ii. maintaining regular interaction with the Trustee on performance of the Trust and providing the Trustee with any information in relation to the operations of the Trust as may be required;

iii. conducting its affairs and the affairs of the Trust in such a manner that Unitholders will not have personal liability with respect to liabilities or obligations of the Trust;

iv. collecting all dividends, fees, property and other payments due and receivable by the Trust in the manner set out in the Indenture and in terms of the InvIT Regulations;

v. ensuring that no commission or rebate or any other remuneration, arising out of transaction pertaining to the Trust is collected by the Investment Manager or its Associates, other than as specified in the offer document or any other document as may be specified by SEBI for the purpose of the issue of the units of the Trust;

vi. ensuring that the Trust Assets have proper and legal marketable titles and that all the material contracts entered into or on behalf of the Trust or the Trust Assets or the SPVs, or the Holdcos are legal, valid, binding and enforceable by and on behalf of the Trust or the Trust Assets or the SPVs or the Holdcos, as applicable;

vii. keeping the Unitholders informed and updated on investment activities of the Trust in accordance with the Trust Documents;

viii. ensuring that any possible conflict of interest involving its role as an Investment Manager is reported to the Trustee and the Unitholders;

ix. ensuring that disclosures and reporting to the Unitholders, SEBI and the Trustee are in accordance with applicable law and InvIT Regulations;

x. to immediately notify the Trustee and the Unitholders of any act which is detrimental to the interest of the Unitholders;

xi. informing the Trustee and Unitholders in writing about any change in the representations and warranties provided by the Investment Manager under the Investment Management Agreement or any of the Trust Documents;

xii. providing assistance to the Trustee as may be required in fulfilling its obligations towards the Trustee and the Unitholders, under applicable law, by any governmental authority or under the Trust Documents;

xiii. providing to the SEBI, the Trustee and if applicable, the stock exchanges, such information as may be sought by the SEBI, the Trustee or the stock exchanges in relation to the activities of the Trust, and providing, in parallel, to the Unitholders a copy of all reports and submissions made hereunder;

xiv. taking any other actions incidental to any of the foregoing or necessary or convenient in order to fully effect or evidence any action or transaction contemplated under the Investment Management Agreement; and

xv. to perform any other duties specified in the InvIT Regulations and the Trust Documents.

I. Rights in relation to shareholding in the Investment Manager

Pursuant to the terms of the IM SHA, the Sponsor, Croxley and Cintra IM Investor have agreed to the following arrangements in relation to their shareholding in the Investment Manager:

- ***Put option***: Croxley and Cintra IM Investor had the right to require the Sponsor to purchase the equity shares held by it in the Investment Manager upon the occurrence of certain events within the period of 12 months from the date of allotment in the initial offer of Units.

- ***Right of first refusal***: Croxley and Cintra IM Investor has a right of first refusal over equity shares of the Investment Manager proposed to be transferred by the Sponsor to any person other than the subsidiaries of the Sponsor.

- ***Tag along right***: Subject to lock-in below, if the Sponsor proposes to transfer equity shares of the Investment Manager held by it to a third party buyer (which is not a subsidiary of the Sponsor), Croxley and Cintra IM Investor has a right to require such buyer to purchase from the Investors, (i) the entire shareholding of Croxley if the Sponsor proposes to transfer in excess of 20% of the total outstanding equity shares or (ii) up to such percentage of equity shares held by Croxley and Cintra IM Investor that is *pro rata* to the percentage of equity shares proposed to be transferred by the Sponsor if the Sponsor proposes to transfer 20% or less of the total outstanding equity shares.

- ***Lock-in***: The Sponsor is not permitted to transfer the equity shares held by in the Investment Manager to any person, including to its affiliates without the prior written permission of Croxley and Cintra IM Investor.

- ***Deed of Adherence***: The Sponsor has agreed that any transfer of its shareholding to any person will be valid only if such person executes a deed of adherence and agrees to be bound by the terms and conditions of the IM SHA.

- ***Pre-emptive rights***: If the Investment Manager proposes to issue any new equity shares to any person including an existing shareholder, including by way of a preferential allotment, subject to certain exceptions specified in the IM SHA, then until the date of completion of any initial public offering of the Investment Manager, the Investment Manager will provide a right to the existing shareholders to subscribe to their respective proportionate share (in the proportion of their shareholding in the Investment Manager) of such proposed issuance at the same price as is offered to the proposed recipient, so as to maintain their respective proportionate ownership in the Investment Manager.

- ***Events of Default and consequences***: See "*Rights of Unitholders – Arrangements between the Sponsor and the Financial Investors*" on page 321.

3.	Ms. Jayashree Ranade	Director	09320683
4.	Ms. Baljinder Kaur Mandal	Director	06652016
5.	Mr. Jayakumar S. Pillai	Director and Chairman	10041362
6.	Mr. Arun Kumar Agarwal	Independent Director	00063359
7.	Mr. Hare Krushna Dandapani Panda	Independent Director	00479786

The Trustee confirms that it has, and undertakes to ensure that it will at all times maintain, adequate infrastructure, personnel and resources to perform its functions, duties and responsibilities with respect to the Trust, in accordance with the InvIT Regulations, the Indenture of Trust and applicable law.

F. Functions, Duties and Responsibilities of the Trustee

a) Interests of the Unitholders

The Trustee shall carry on and conduct its business in a proper and efficient manner in the best interest of the Unitholders in accordance with the Trust Documents. The Trustee shall duly perform all its duties, responsibilities and powers as set out in the InvIT Regulations in the interest of the Unitholders and in accordance with the provisions of the Trust Documents.

b) Appointment of the Investment Manager, the Project Manager and enter into the Investment Management Agreement and the Project Implementation Agreements

The Trustee, on behalf of the Trust, shall within a reasonable time from the date of execution of the Indenture of Trust, appoint an Investment Manager and a Project Manager (in consultation with the Investment Manager) and enter into an Investment Management Agreement and the Project Implementation Agreements. The Trustee shall have the power to execute the Project Implementation Agreement or any other agreement or arrangement, from time to time, with the Project Manager, any holding company or the SPV in this regard. The Trustee shall obtain a compliance certificate from the Investment Manager and the Project Manager on a quarterly basis, or such other time and in the form as may be prescribed under the InvIT Regulations.

c) Supervision of the Investment Manager

i. The Trustee shall ensure that the Investment Manager complies with reporting and disclosure requirements in accordance with the InvIT Regulations and in case of any delay or discrepancy, the Trustee shall require the Investment Manager to rectify such delay or discrepancy on an urgent basis.

ii. The Trustee shall oversee the activities of the Investment Manager in the interest of the Unitholders, ensure that the Investment Manager complies with the applicable provisions of the InvIT Regulations, including in relation to reporting and disclosure requirements and shall obtain a compliance certificate from the Investment Manager on a quarterly basis.

iii. The Trustee shall review transactions between the Investment Manager and its Associates and where the Investment Manager has advised that there may be a conflict of interest, obtain a confirmation that such transaction is on an arm's length basis from a practicing chartered account, a valuer or as may be otherwise prescribed under the InvIT Regulations, as applicable.

iv. The Trustee shall ensure that the Investment Manager reviews the valuation reports issued by the valuer and submitted to the Trustee by the Investment Manager in accordance with the InvIT Regulations.

v. The Trustee shall require the Investment Manager to set up such systems and procedures and submit such reports to the Trustee, as may be necessary for effective monitoring of the functioning of the Trust.

vi. The Trustee shall ensure that the Investment Manager convenes meetings of the Unitholders in accordance with the InvIT Regulations and oversees voting by the Unitholders and declaration of results (except where the Trustee is required to carry out such functions under the InvIT Regulations). The Trustee shall ensure that the Investment Manager convenes meetings of Unitholders within the period prescribed under the InvIT Regulations and the period between such meetings shall not exceed the period prescribed under the InvIT Regulations.

d) Providing information to the SEBI

The Trustee shall ensure that the Investment Manager shall provide to the SEBI and other governmental authorities, as applicable, information as may be requested or required under applicable law by the SEBI or other governmental authorities, as applicable, in relation to the activities of the Trust. The Trustee shall comply with the information and intimation requirements under the InvIT Regulations. The Trustee shall ensure that the activity of the Trust is operated in accordance with the provisions of the Indenture of Trust, the InvIT Regulations, other applicable law and the Trust Documents.

e) Documents and information to be provided to Unitholders

The Trustee shall, and shall ensure that the Investment Manager shall, provide documents and information to the Unitholders with respect to the activities carried on by the Trust, as may be required by the SEBI or other governmental authority, as applicable, under applicable law.

f) Change in Control

The Trustee shall obtain approvals, if required under the Trust Documents, the InvIT Regulations, other applicable law and any concession agreement, for any proposed change in control of the Trustee, the Investment Manager or the Project Manager, as applicable.

g) Change in Investment Manager or Project Manager

In the event of any proposed change or termination in the investment manager or project manager, the Trustee shall ensure that all conditions in connection with the removal of such investment manager or project manager and appointment of a new investment manager or project manager prescribed under the InvIT Regulations, the Trust Documents and other applicable law are complied with. The previous investment manager or project manager shall continue to act as such at the

discretion of the Trustee until such time as the new investment manager or project manager is appointed. The Trustee shall ensure that the new investment manager or project manager shall stand substituted as a party in all the documents (to the extent applicable) to which the earlier investment manager or project manager was a party. The Trustee shall also ensure that the earlier investment manager or project manager continues to be liable for all its acts of omissions and commissions for the period during which it served as investment manager or project manager, notwithstanding its change or termination.

h) Subscription amounts

The Trustee shall and shall ensure that the Investment Manager ensures that subscription amounts in case of any offering by the Trust (including the Issue) are collected and utilized in accordance with the InvIT Regulations, the relevant Trust Documents and conditions specified by the SEBI, as applicable.

i) Distribution

The Trustee shall make Distributions and ensure that the Investment Manager makes timely declarations of Distributions to the Unitholders in accordance with the InvIT Regulations.

j) Maintenance of books of accounts and other records

The Trustee shall cause the books of accounts and other records of the Trust to be maintained in accordance with the Indenture of Trust, the Trust Documents and applicable law.

k) Payment of statutory charges, operation of bank accounts etc.

i. The Trustee shall ensure that the Investment Manager shall make payments of all taxes, duties and any other statutory charges or levies that may be payable by the Trust or on behalf of the Unitholders from the Trust Assets, subject to the provisions of the Trust Documents and applicable law.

ii. The Trustee shall be responsible for opening and operating bank accounts and demat accounts on behalf of the Trust.

l) Attainment of objects of the Trust

The Trustee shall ensure that all acts, deeds and things are done for the fulfilment of the investment objectives of the Trust in accordance with the InvIT Regulations, the Trust Documents and to secure the best interests of the Unitholders.

m) Reports to be filed by the Trust

The Trustee shall file such reports as may be required by the SEBI or any other governmental authority or as required under applicable law in relation to the activities carried on by the Trust.

n) Unitholder Complaints

The Trustee shall periodically review the status of Unitholders' complaints and their redressal by the Investment Manager. The Investment Manager shall provide quarterly reports on Unitholders' grievances to the Trustee, as applicable.

o) Segregation of assets and liabilities

The assets and liabilities of the Trust shall at all times be segregated from the assets and liabilities of the Trustee and the assets and liabilities of other trusts managed by the Trustee. The Trust Assets shall be held for the exclusive benefit of the Unitholders and such assets shall not be subject to the claims of any creditor or any Person claiming under any other fund or trust administered or managed by the Trustee or the Investment Manager.

p) Valuer

i. The Trustee shall ensure that the valuer is not an Associate of the Sponsor, the Investment Manager or the Trustee.

ii. The Trustee shall ensure that the Investment Manager ensures that a detailed valuation is undertaken of the Trust Assets by the valuer at such intervals and in the manner specified under the InvIT Regulations and the Trust Documents.

iii. The Trustee shall ensure that the remuneration of the valuer is not linked to or based on the value of the asset being valued.

q) Investment by Trustee

The Trustee shall invest in Units only if permitted under Applicable Law and such investments shall be in accordance with applicable law.

r) Compliance with the InvIT Regulations

The Trustee shall fulfil its obligations under applicable provisions of the InvIT Regulations.

s) Delegation to the Investment Manager

The Trustee shall delegate all such powers to the Investment Manager as may be required by the Investment Manager to carry out its obligations under the Investment Management Agreement and Applicable Law and as may be required for the benefit of the Unitholders. Also see "*Rights of Unitholders – Approval of Unitholders*"on page 322.

t) Related Party Transactions

The Trustee shall review the transactions carried out between the Investment Manager and its Associates and obtain a certificate from a practising chartered accountant or a valuer, as applicable with respect to any related party transactions involving the Investment Manager and its Associates, where the Investment Manager has advised that there may be a conflict of interest, stating that such transactions have been done at an arms-length basis.

u) Monitoring

The Trustee shall require the Investment Manager to set up such systems and procedures and submit such reports to the Trustee, as may be necessary for the effective monitoring or the functioning of the Trust. The Trustee shall oversee activities of the Investment Manager in the interest of the Unitholders, shall ensure that the Investment Manager is in compliance with the provisions of the InvIT Regulations at all times and shall obtain a compliance certificate from the Investment Manager on a quarterly basis. Further, the Trustee shall ensure that the Investment Manager complies with reporting and disclosure requirements in accordance with the InvIT Regulations and in case of any delay or discrepancy, the Trustee will ensure that the Investment Manager rectifies such delay or discrepancy on an urgent basis.

v) Unitholders Meeting

The Trustee shall ensure that the Investment Manager convenes meetings of the Unitholders in accordance with the InvIT Regulations and shall also oversee the voting by the Unitholders and the declaration of results (excpet where the Trustee is required to carry out such functions under the InvIt Regulations). The Trustee shall ensure that the Investment Manager convenes meetings of Unitholders within the period prescribed under the InvIT Regulations and the period between such meetings shall not exceed the period prescribed under the InvIT Regulations.

w) Others

The Trustee shall ensure that the activity of the Trust is operated in accordance with the Indenture of Trust, InvIT Regulations, other applicable law and the Trust Documents. In the event, any discrepancy is noticed by the Trustee, then the Trustee shall promptly inform the SEBI in writing. The Trustee shall provide to the SEBI such information as may be sought by the SEBI pertaining to the activity of the Trust.

The Trustee shall have the power to take up with SEBI or with the stock exchanges, as applicable, any matter which has been approved in any meeting of Unitholders post the initial offer by the Trust, if the matter requires such action.

x) Compliance Certificate

The Trustee shall obtain a compliance certificate in the form and manner prescribed under applicable law on a quarterly basis, from each of the Investment Manager and the Project Manager.

SECTION VI – OTHER PARTIES

AUDITORS

The Investment Manager, in consultation with the Trustee, and pursuant to the approval of the Unitholders, has appointed Gokhale & Sathe, Chartered Accountants and M S K A & Associates, Chartered Accountants as the Trust's Auditors until the conclusion of the ninth annual meeting of Unitholders of the Trust. The Auditors have audited the Consolidated Financial Information for the financial year 2024, 2023 and 2022 and their reports thereon have been included in this Letter of Offer.

Policy for Appointment of Auditor

The Investment Manager shall appoint an auditor of the Trust to hold office from the date of conclusion of the annual meeting in which the auditor is appointed until the date of conclusion of the sixth annual meeting of the unitholders thereafter in accordance with the procedure for selection of auditors as may be specified by the SEBI. The Investment Manager is not permitted to appoint or re-appoint an individual as the auditor for more than one term of five consecutive years, and an audit firm as the auditor for more than two terms of five consecutive years, subject to a cooling-off period of five years. With respect to the appointment of the auditor of the Trust and the fees of such an auditor, an approval from the Unitholders shall be required at the annual meeting in accordance with Regulation 22 of the InvIT Regulations.

The Investment Manager shall ensure that the auditor carries out an audit of the accounts of the Trust at such intervals as may be required under the InvIT Regulations.

In accordance with the InvIT Regulations, the auditor of the Trust shall:

a) conduct an audit of the accounts of the Trust and draft the audit report based on the accounts examined, after taking into account the relevant accounting and auditing standards, as may be specified by SEBI in this regard;

b) to the best of its information and knowledge, ensure that the accounts and financial statements give a true and fair view of the state of the affairs of the Trust, including profit or loss and cash flow for the period and such other matters as may be specified;

c) have a right of access at all times to the books of accounts and vouchers pertaining to activities of the Trust;

d) have a right to require such information and explanation pertaining to activities of the Trust, as it may consider necessary for the performance of its duties as auditor from the employees of Trust or the Sponsor, the Investment Manager, the Project Manager or the Trustee or the SPVs or any other person in possession of such information; and

e) undertake a limited review of the audit of all the entities or companies whose accounts are to be consolidated with the accounts of the Trust as per the applicable Indian Accounting Standards (Ind AS) and any addendum thereto as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, in such manner as may be specified by the SEBI.

Auditing Standards

The Auditor shall conduct an audit of the accounts of the Trust and issue the audit report based on the accounts examined, after taking into account the relevant accounting and auditing standards, as may be specified by SEBI and/or the ICAI, from time to time, in this regard. Further, the Auditor shall undertake a limited review of the audit of all the entities or companies whose accounts are to be consolidated with the accounts of the Trust, in accordance with the relevant accounting standards, in such manner as may be specified by the SEBI.

VALUER

The Investment Manager, in consultation with the Trustee, appointed KPMG Valuation Services LLP as the Valuer of the Trust for the Financial Year 2025. For details in relation to the availability of the latest valuation report for the Current Portfolio, see "*Valuation*" on page 309. KPMG Valuation Services LLP has also undertaken a full valuation of the Target SPV and the Target Valuation Report dated December 14, 2024 has been included in this Letter of Offer.

The Valuer is not an Associate of the Sponsor, the Investment Manager or the Trustee, and has not less than five years of experience in the valuation of infrastructure assets.

INDEPENDENT AUDITORS REPORT ON THE COMPILATION OF CONSOLIDATED PROFORMA FINANCIAL INFORMATION INCLUDED IN LETTER OF OFFER IN CONNECTION WITH THE PROPOSED RIGHT ISSUE OF UNITS OF IRB INFRASTRUCTURE TRUST

To,
The Board of Directors
MMK Toll Road Private Limited (as the Investment Manager of the Trust)
Office No. 11th Floor/1101
Hiranandani Knowledge Park
Technology Street, Hill Side Avenue,
Powai, Mumbai – 400076.

Report on the Compilation of Consolidated Proforma Financial Information Included in the Letter of Offer (LOF)

1. We have completed our assurance engagement to report on the compilation of Consolidated Proforma Financial Information of Project SPV Group of IRB Infrastructure Trust ("the Trust") and Meerut Budaun Expressway Limited by the management of MMK Toll Road Private Limited (as the Investment Manager of the Trust) ("The Management"). The Consolidated Proforma Financial Information consists of the Proforma Balance Sheet as at March 31, 2024 and as at September 30, 2024, the Proforma Statement of Profit and Loss for the year ended March 31, 2024 and for the six months period ended September 30, 2024 and related notes to the Consolidated Proforma Financial Information. The applicable criteria on the basis of which the Management has compiled the Consolidated Proforma financial information are in accordance with basis of preparation described in Note 2 to the Consolidated Proforma Financial Information.

2. The Consolidated Proforma Financial Information has been compiled by the Management to illustrate the impact of the proposed acquisition set out in Note 2 on the Trust's financial position as at March 31, 2024 and as at September 30, 2024 as if the aforesaid acquisition had taken place as at March 31, 2024 and September 30, 2024 respectively and the Trust's financial performance for the year ended March 31, 2024 and six months period ended September 30, 2024 as if the aforesaid acquisition of the business had taken place at April 1, 2023.

3. As part of this process, information about the Trust's financial position and financial performance has been extracted by the Management from:

    a) the Trust's Audited Consolidated Financial Statements as at and for the year ended March 31, 2024, on which we have expressed an unmodified opinion vide our report dated May 03, 2024; and
    b) Trust's Unaudited Interim Consolidated Financial Information as at and for the six months period ended September 30, 2024, on which we have expressed an unmodified conclusion vide our review report dated December 09, 2024 respectively.

Managements' Responsibility for the Consolidated Proforma Financial Information

4. The Management is responsible for compiling the Consolidated Proforma Financial Information on the basis set out in Note 2 to the Consolidated Proforma Financial Information. This responsibility includes the responsibility for designing, implementing and maintaining internal control relevant for compiling the Consolidated Proforma Financial Information on the basis set out in Note 2 to the Consolidated Proforma Financial Information that is free from material misstatement, whether due to fraud or error. The Management is also responsible for identifying and ensuring that the Trust complies with the laws and regulations applicable to its activities, including compliance with the provisions of the laws and regulations for the compilation of Consolidated Proforma Financial Information.

Auditors' Responsibilities

5. Our responsibility is to express an opinion, as required by paragraph 7 to Annexure 5 of Chapter 9 of Master circular SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024, as amended, about whether the Consolidated Proforma Financial Information has been compiled, in all material respects, by the management on the basis set out in Note 2 to the Consolidated Proforma Financial Information ("Applicable Criteria").

6. We conducted our engagement in accordance with Standard on Assurance Engagements (SAE) 3420, Assurance Engagements to Report on the Compilation of Proforma Financial Information Included in a Prospectus, issued by the Institute of Chartered Accountants of India. This Standard requires that the auditors comply with ethical requirements and plan and perform procedures to obtain reasonable assurance about whether the management has compiled, in all material respects, the Consolidated Proforma Financial Information on the basis set out in Applicable Criteria.

7. The Consolidated Proforma Financial Information as at and for the year ended March 31, 2024 and as at and for the six months period ended September 30, 2024 includes the Trust and the following entities :

Sr No	Name of Entity	Relationship with Trust
1	AE Tollway Limited	Subsidiary

8. For purposes of this engagement, we are not responsible for updating or reissuing any reports or opinions on any historical financial information used in compiling the Consolidated Proforma Financial Information, nor have we, in the course of this engagement, performed an audit or review of the financial information used in compiling the Consolidated Proforma Financial Information.

9. For our assurance engagement, we have placed reliance on the following:

    a) the jointly Audited Consolidated Financial Statement of the Trust as at and for the year ended March 31, 2024;
    b) the jointly Reviewed Unaudited Interim Consolidated Financial Information of the Trust as at and for the six months period ended September 30, 2024;
    c) the Audited Financial Statements of Meerut Budaun Expressway Limited for the year ended March 31, 2024, audited by Gokhale & Sathe, one of the joint auditor of Trust; and
    d) the Audited Interim Special Purpose Financial Statements of Meerut Budaun Expressway Limited for the six months period ended September 30, 2024, audited by Gokhale & Sathe, one of the joint auditor of Trust.

    The purpose of Consolidated Proforma Financial Information included in the Letter of Offer is solely to illustrate the impact of a significant event or transaction on unadjusted financial information of the Trust as if the event had occurred or the transaction had been undertaken at an earlier date selected for purposes of the illustration. Accordingly, we do not provide any assurance that the actual outcome of the event or transaction as at March 31, 2024 and as at September 30, 2024 or for the period then ended would have been as presented.

10. A reasonable assurance engagement to report on whether the Consolidated Proforma Financial Information has been compiled, in all material respects, on the basis of the applicable criteria involves performing procedures to assess whether the applicable criteria used by the management in the compilation of the Consolidated Proforma Financial Information provide a reasonable basis for presenting the significant effects directly attributable to the event or transaction, and to obtain sufficient appropriate evidence about whether:

    a) The related pro forma adjustments give appropriate effect to those criteria; and
    b) The Consolidated Proforma Financial Information reflects the proper application of those adjustments to the unadjusted financial information.

    The procedures selected depend on the auditor's judgment, having regard to the auditor's understanding of the nature of the Trust, the event or transaction in respect of which the Consolidated Proforma Financial Information has been compiled, and other relevant engagement circumstances.

The engagement also involves evaluating the overall presentation of the Consolidated Proforma Financial Information.

11. Our work has not been carried out in accordance with auditing and other standards and practices generally accepted in other jurisdictions and accordingly should not be relied upon as if it had been carried out in accordance with those standards and practices

12. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

13. In our opinion, the Consolidated Proforma Financial Information has been compiled, in all material respects, on the basis set out in the Note 2 to the Consolidated Proforma Financial Information.

Emphasis of Matter

14. We draw reference to the matter of emphasis given by the joint auditors in the audited Consolidated Financial Statements for the year ended March 31,2024 which is reproduced as below:

    We draw attention to Note 13 of the accompanying consolidated financial statements, which describes the presentation of 'Unit Capital' as 'Equity' to comply with InvIT Regulations.

    Our opinion is not modified in respect of this matter.

15. We draw reference to the matter of emphasis given by the joint auditors in the Unaudited Interim Consolidated Financial Statements for the six months period ended September 30,2024 which is reproduced as below:

    We draw attention to Note 13 of the accompanying Unaudited Interim Consolidated Financial Information, which describes the presentation of 'Unit Capital' as 'Equity' to comply with the InvIT Regulations.

    Our conclusion is not modified in respect of this matter.

16. We draw attention to Note 3(c)(i) & 3(c)(ii) of Note 3 of Proforma Adjustments, since the right issue has not been consummated, the initial effect on cash and cash equivalent and unit holders' equity of the Trust has not been assumed in the Proforma Adjustment. Consequently, as the transaction relating to acquisition of equity/ NCDs ("investment") in MBEL has not consummated, which is dependent upon the right issue of unit holders of trust to complete, the management has also not assumed the adjustments out of the said transaction.

    Our opinion is not modified in respect of this matter.

Other Matter

17. As indicated in the review report for six months period ended September 30, 2024 referred to in paragraph 3 above

    We did not review the Unaudited Interim Financial Information of five subsidiaries included in the Unaudited Interim Consolidated Financial information, whose unaudited interim financial information reflects total assets of Rs 113,206.73 millions (before consolidation adjustment) as at September 30, 2024, total revenues of Rs. 9,473.55 million (before consolidation adjustment), for the period April 01, 2024 to September 30, 2024, and net cash inflows of Rs 21.22 million for the period from April 01, 2024 to September 30, 2024, as considered in the Unaudited Interim Consolidated Financial Information. This interim financial information have been reviewed by other auditors whose reports have been furnished to us by the Management and our conclusion on the Unaudited Interim Consolidated Financial Information, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on the report of the other auditors.

    Our conclusion is not modified in respect of the above matter with respect to our reliance on the work done by and report of the other auditor.

18. As indicated in the audit report for year ended March 31, 2024 referred to in paragraph 3 above

    We did not audit the financial statements of six subsidiaries, whose financial statements reflect total assets of Rs. 1,22,334.50 million (before consolidation adjustments) as at March 31, 2024, total revenues of Rs. 20,960.13 million (before consolidation adjustments) and net cash outflows amounting to Rs. 157.30 million for the year ended on that date, as considered in the Consolidated Proforma financial statements. These financial statements have been audited by other auditor whose reports have been furnished to us by the Management and our opinion on the Proforma consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on the reports of the other auditor.

    Our opinion is not modified in respect of the above matter with respect to our reliance on the work done by and report of the other auditor.

19. The Financial Statements of Meerut Budaun Expressway Limited for the year ended March 31, 2024, and for the six-month period ended September 30, 2024, used by the management for compilation of Consolidated Proforma Financial Information was audited by Gokhale & Sathe, Chartered Accountants, one of the joint auditors of the Trust.

    M S K A & Associates' opinion is not modified in respect of the above matters with respect to our reliance on the work done by and report of the other auditors.

IRB Infrastructure Trust
Notes to the proforma consolidated financial information as at and for the year ended March 31, 2024 and as at and for the six months period ended September 30, 2024

1. **Background**

The IRB Infrastructure Trust (the "Trust") is a trust settled pursuant to the indenture of trust dated August 27, 2019 which is registered under the Registration Act, 1908 and under the Securities Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time. The Trust is settled by the Sponsor, IRB Infrastructure Developers Limited ("IRB" or the "Sponsor"), an infrastructure development company in India. The Trustee to the Trust is IDBI Trusteeship Services Limited (the "Trustee"). Investment manager for the Trust is MMK Toll Road Private Limited (the "Investment Manager"). The Trust has received registration certificate from SEBI on November 25, 2019.

The Trust has been formed to invest in infrastructure assets primarily being in the road sector in India. The Trust's road projects are eligible infrastructure projects under the InvIT Regulations and held through special purpose vehicles ("Project SPVs" together as "Project SPV Group").

As resolved and approved by the respective Boards of MBEL vide resolution dated December 9, 2024 and the Investment Manager vide resolution dated December 14, 2024 the Trust proposes to acquire 80.40% of paid up equity share capital and 80.40% of Non-Convertible Debenture of Meerut Budaun Expressway Limited (MBEL) ("proposed acquisition"). In this regard, the Investment Manager of the Trust proposes to raise fund by way of a rights issue of Units to the eligible unitholders of the Trust as on the record date. Pursuant to this proposed acquisition, the Trust will consolidate MBEL in its consolidated financial statements.

Trust portfolio subsequent to completion of proposed offering and acquisition will comprise of sixteen road projects as listed below:-

1. IRB Westcoast Tollway Limited (IRBWTL)
2. Solapur Yedeshi Tollway Limited (SYTL)
3. Yedeshi Aurangabad Tollway Limited (YATL)
4. Kaithal Tollway Limited (KTL)
5. AE Tollway Limited (AETL)
6. Udaipur Tollway Limited (UTL)
7. CG Tollway Limited (CGTL)
8. Kishangarh Gulabpura Tollway Limited (KGTL)
9. IRB Hapur Moradabad Tollway Limited (IRBHMTL)
10. Palsit Dankuni Tollway Private Limited (PDTPL)
11. IRB Golconda Expressway Private Limited (IGEPL)
12. Samakhiyali Tollway Private Limited (STPL)
13. IRB Lalitpur Tollway Private Limited (ILTPL)
14. IRB Kota Tollway Private Limited (IKTPL)
15. IRB Gwalior Tollway Private Limited (IGTPL)
16. Meerut Budaun Expressway Limited (MBEL)

MBEL was incorporated on January 5, 2022. The Company has been awarded the work of development of Access Controlled Six Lane (Expandable to Eight Lane) Greenfield 'Ganga Expressway' [Group-I, from Km. 7+900 (Village: Bijoli, Distt: Meerut) to Km. 137+600, (Village: Nagla Barah, Distt: Budaun), Design length 129.700 Km] in the State of Uttar Pradesh on DBFOT (Toll) basis under PPP ('the Project').

2. Basis of preparation

The proforma consolidated financial information has been prepared by the Management of the Investment Manager specifically for the purpose of the proposed rights issue and for inclusion in the Letter of Offer (hereinafter referred as "LOF") to be filed by IRB Infrastructure Trust in accordance with the requirements of paragraph 7 to Annexure 5 of Chapter 9 of Master circular SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024 as amended. The Proforma Consolidated Financial Information were adopted by the Board of Directors of the Investment Manager on behalf of the Trust on December 14, 2024.

Management of the Investment Manager has adjusted the historical consolidated financial information in proforma consolidated financial information to give effect to proforma events, in the adjustment column if any, that are directly attributable to proposed acquisition and factually supportable.

The proforma consolidated financial information has been prepared by the Trust to illustrate the impact of proposed acquisition and factually supportable undertaken as if the acquisition had taken place:

1. as at March 31, 2024 and September 30, 2024 respectively for the purpose of proforma Consolidated Balance Sheet
2. as at April 1, 2023 for the purpose of Proforma Consolidated Statement of Profit and Loss for the year ended March 31, 2024 and six month period ended September 30, 2024.

The proforma consolidated financial information has been prepared taking into consideration:

a) The consolidated financial statements of the Project SPV Group as at and for the year ended March 31, 2024 and as at and for the six months period ended September 30, 2024.
b) The financial statement of MBEL as at and for the year ended March 31, 2024 and as at and for the six months period ended September 30, 2024
c) Adjustments to recognise the impact of allocation of purchase consideration paid/payable by the Trust.

The financial statements at (a) and (b) above have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

Because of their nature, the proforma financial information addresses a hypothetical situation and does not represent the Group's actual consolidated financial condition or results of operations. Accordingly, the proforma financial information does not necessarily indicate the results of operations that would have resulted had the acquisition been completed at the beginning of the year/period presented and the financial position had the acquisition been completed as at year end/period end and is also not intended to be indicative of expected results or operations in the future periods or the future financial position of the Group.

The adjustments set forth in the proforma financial information are based upon available information and assumptions that the Management believes to be reasonable. If the assumptions underlying the preparation of such information do not occur, the actual results could be materially different from those indicated in the information. Such proforma financial information has not been prepared in accordance with auditing or other standards and practices generally accepted in any other jurisdictions and accordingly should not be relied upon as if it had been carried out in accordance with those standards and practices. Accordingly, the degree of reliance placed by anyone in other jurisdictions on such proforma information should be limited. In addition, the rules and regulations related to the preparation

of proforma financial information in other jurisdictions may also vary significantly from the basis of preparation as set out in paragraphs above to prepare these proforma financial information.

3. Proforma Adjustments:

The following adjustments have been made to present the proforma consolidated financial information:

a) **Accounting Policy adjustments and GAAP adjustments:**
There are no accounting policy adjustments or GAAP adjustments between the Project SPV Group and the MBEL.

b) **Intra group elimination adjustments:**
There are no intragroup transactions between the Project SPV Group and MBEL.

c) **Acquisition related adjustments:**
The proforma consolidated financial information includes various assumptions to give effect to all of the following events. Accordingly, the proforma adjustments are preliminary and have been made solely for illustrative purpose. Following are the assumptions –

i. Pursuant to execution of Securities Purchase Agreement ("SPA") prior to filling of LOF and proposed right issue of Trust, the Trust will utilize the proceeds of the rights issue for the payment of cash consideration to the sellers for the acquisition of 80.40% of the equity share capital and 80.40% of the outstanding non-convertible debentures of MBEL by the Trust. It is assumed that the proposed acquisition of 80.40% of paid-up equity share capital and 80.40% of the outstanding non-convertible debentures of MBEL took place with effect from April 1, 2023.

Proforma acquisition related adjustments – Key notes
Proforma adjustment to Balance Sheet

3c. (i) Cash and cash equivalents

For the purpose of the Proforma Consolidated Balance Sheet as at September 30, 2024, cash & cash equivalents available out of proposed right issue of Trust aggregating to INR 17,149.23 millions is not assumed since the same will be paid as consideration by the Trust to the sellers for the acquisition of 80.40% of the equity share capital and 80.40% of the outstanding non-convertible debentures of MBEL by the Trust pursuant to execution of Securities Purchase agreement prior to filling of LOF..

3c. (ii) Equity attributable to unit holders

As explained in Note 1 above and as approved and resolved by the respective Boards of MBEL vide resolution dated December 9, 2024 and Investment Manager vide resolution dated December 14, 2024, upon successful completion of right issue, the Trust shall utilize an amount of Rs. 17,149.23 million for the payment of consideration to the sellers for the acquisition of 80.40% of paid up equity share capital and 80.40% of Non-Convertible Debenture of Meerut Budaun Expressway Limited (MBEL). The said funds shall be utilized to acquire to 428,733,000 equity shares and 128,619 units of Non-Convertible Debentures of MBEL. Pursuant to the completion of this acquisition , the Trust will consolidate MBEL in its consolidated financial statements.

Since the transaction relating to infusion of equity/ NCDs ("investment") in MBEL has not consummated, which is dependent upon the right issue of unit holders of trust to complete, the

management has not assumed the adjustments towards investment in MBEL(80.40%), equity share capital of MBEL and resultant Non-Controlling Interest (19.60%) out of the said transaction.

Other than as mentioned above, no additional material adjustments have been made to the proforma consolidated balance sheet or the proforma consolidated statement of profit and loss to reflect any results or other transactions of the Trust entered into subsequent to March 31, 2024 and September 30, 2024 respectively.

Independent Auditors' Review Report on Unaudited Interim Consolidated Financial Information for the six months period ended September 30, 2024 of IRB Infrastructure Trust.

To
The Board of Directors,
MMK Toll Road Private Limited
The Investment Manager of the IRB Infrastructure Trust ("the Investment Manager")

1. We have jointly reviewed the accompanying Unaudited Interim Consolidated Financial Information of IRB Infrastructure Trust ("the Trust") and its subsidiaries (the Trust and its subsidiaries together referred to as "the Group") which comprises Unaudited Interim Consolidated Balance Sheet as on September 30, 2024, Unaudited Interim Consolidated Statement of Profit and Loss, including other comprehensive income, Unaudited Interim Consolidated Statement of Cash Flow, Unaudited Interim Consolidated Statement of Changes in Unitholders Equity, Unaudited Interim Consolidated statement of Net Assets at Fair Value, Unaudited Interim Consolidated Statement of Total Return at Fair Value and Net Distributable cashflows ('NDCF') of the Trust and each of its subsidiaries as an additional disclosure in accordance with the Securities and Exchange Board of India ("SEBI") Master Circular SEBI/ HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024, as amended for the six months period then ended and notes to the consolidated financial information including material accounting policies and other explanatory notes (together hereinafter referred to as the "Unaudited Interim Consolidated Financial Information"). These Unaudited Interim Consolidated Financial Information for the period from April 01, 2024 to September 30, 2024 have been prepared solely for inclusion in the Letter of Offer ("LOF") in connection with the proposed right issue of units of the Trust.

2. The Unaudited Interim Consolidated Financial Information, which is the responsibility of the Investment Manager and approved by the Investment Manager's Board of Directors, has been prepared in accordance with the requirements of SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time read with the Paragraph 3.21 of Chapter 3 and Paragraph 4.6 of Chapter 4 of the Securities and Exchange Board of India ("SEBI") Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024, as amended ("SEBI Circular"), together known as ("InvIT Regulations"), and principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ('Ind AS 34') prescribed under rule 2(1)(a) of Companies (Indian Accounting Standards) Rules 2015, as amended and other recognised accounting principles generally accepted in India, to the extent not inconsistent with the InvIT Regulations.

3. We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. A review consists of making inquiries, primarily of Investment Manager's personnel responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

5. Based on our review conducted and procedures performed as stated in paragraph 3 above and based on the consideration of review reports of other auditors as stated in paragraph 7 and 8 below, nothing has come to our attention that causes us to believe that the accompanying Unaudited Interim Consolidated Financial Information, prepared in accordance with the principles laid down in the aforesaid Indian Accounting Standards and other recognised accounting principles generally accepted in India, to the extent not inconsistent with InvIT Regulations, has not disclosed the information required to be disclosed in terms of the Regulations 23 of the SEBI (Infrastructure Investments Trust) Regulation, 2014, as amended, read with SEBI Circular, including the manner in which it is to be disclosed, or that it contains any material misstatement.

6. We draw attention to Note 13 of the accompanying Unaudited Interim Consolidated Financial Information, which describes the presentation of 'Unit Capital' as 'Equity' to comply with the InvIT Regulations. Our conclusion is not modified in respect of this matter.

7. We did not review the Unaudited Interim Financial Information of five subsidiaries included in the Unaudited Interim Consolidated Financial information, whose unaudited interim financial information reflects total assets of Rs 113,206.73 millions (before consolidation adjustment) as at September 30, 2024, total revenues of Rs. 9,473.55 million (before consolidation adjustment), for the period April 01, 2024 to September 30, 2024, and net cash inflows of Rs 21.22 million for the period from April 01, 2024 to September 30, 2024, as considered in the Unaudited Interim Consolidated Financial Information. This interim financial information have been reviewed by other auditors whose reports have been furnished to us by the Management and our conclusion on the Unaudited Interim Consolidated Financial Information, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based solely on the report of the other auditors and the procedures performed by us as stated in paragraph 3 above.

1 **Corporate Information**

The IRB Infrastructure Trust (the "Trust") is a trust settled pursuant to the indenture of trust dated August 27, 2019 which is registered under the Registration Act, 1908 and under the Securities Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time. The Trust is settled by the Sponsor, IRB Infrastructure Developers Limited ("IRB" or the "Sponsor"), an infrastructure development company in India. The Trustee to the Trust is IDBI Trusteeship Services Limited (the "Trustee"). Investment manager for the Trust is MMK Toll Road Private Limited (the "Investment Manager"). The Trust has received registraion certificate from SEBI on November 25, 2019.

The Trust has been formed to invest in infrastructure assets primarily being in the road sector in India. The Trust's road projects are eligible infrastructure projects under the InvIT Regulations and held through special purpose vehicles ("Project SPVs" together as "Project SPV Group"). The Trust's portfolio comprises of fifteen road projects as listed below:-

Project SPV Name**	Residual Concession life*	Shareholding	Nature of Investment	Status	Principal Activities	Country of incorporation
IRB Westcoast Tollway Limited (IRBWTL)	17 years 5 Months 1 days	100%	Subsidiary	Tolling and Construction	Construction and operation of road including toll collection.	India
Solapur Yedeshi Tollway Limited (SYTL)	19 years 3 Months 21 days	100%	Subsidiary	Operating		India
Yedeshi Aurangabad Tollway Limited (YATL)	16 years 8 Months 29 days	100%	Subsidiary	Operating		India
Kaithal Tollway Limited (KTL)	17 years 9 Months 13 days	100%	Subsidiary	Operating		India
AE Tollway Limited (AETL)	15 years 9 Months 31 days	100%	Subsidiary	Operating		India
Udaipur Tollway Limited (UTL)	13 years 11 Months 2 days	100%	Subsidiary	Operating		India
CG Tollway Limited (CGTL)	13 years 1 Months 2 days	100%	Subsidiary	Operating		India
Kishangarh Gulabpura Tollway Limited (KGTL)	13 years 4 Months 22 days	100%	Subsidiary	Operating		India
IRB Hapur Moradabad Tollway Limited (IRBHMTL)	16 years 7 Months 25 days	100%	Subsidiary	Operating		India
Palsit Dankuni Tollway Private Limited (PDTPL) w.e.f 02.04.2022	14 years 6 Months 1 days	100%	Subsidiary	Tolling and Construction		India
IRB Golconda Expressway Private Limited(IGEPL) w.e.f 11.08.2023	28 years 10 Months 10 days	100%	Subsidiary	Operating		India
Samakhiyali Tollway Private Limited(STPL) w.e.f 28.12.2023	19 years 2 Months 28 days	100%	Subsidiary	Tolling and Construction		India
IRB Lalitpur Tollway Private Limited(ILTPL) w.e.f 10.11.2023	19 years 6 Months 1 days	100%	Subsidiary	Operating		India
IRB Kota Tollway Private Limited(IKTPL) w.e.f 01.01.2024	19 years 6 Months 1 days	100%	Subsidiary	Operating		India
IRB Gwalior Tollway Private Limited(IGTPL) w.e.f 01.01.2024	19 years 6 Months 1 days	100%	Subsidiary	Operating		India

* Represents residual concession life as at September 30, 2024 as per original concession period (without considering extension of concession period, if any).

** Of the above Project SPVs, IRBWTL, SYTL, YATL, AETL, CGTL, UTL and IRBHMTL have been converted to public companies on November 13, 2019 and KTLand KGTL on November 14, 2019 .

The registered office of the Investment Manager is Off No-11th Floor/1101 Hiranandani Knowledge Park, Technology Street, Hill Side Avenue, Powai Mumbai 400076.
The Trust has been listed on NSE w.e.f. 03.04.2023.

2 **Basis of preparation of Consolidated Financial Information**

A. Basis of preparation of Consolidated Financial Information

The Unaudited Interim Consolidated Financial Information which comprises Unaudited Interim Consolidated Balance Sheet as on September 30, 2024, Unaudited Interim Consolidated Statement of Profit and Loss, including other comprehensive income, Unaudited Interim Consolidated Statement of Net Asset at Fair Value, Unaudited Interim Consolidated Statement of total returns at Fair Value, Unaudited Interim Consolidated Statement of Cash Flow, Unaudited Interim Consolidated Statement of Changes in Unitholders Equity and Net Distributable Cash Flows ('NDCF') of the Trust and each of it's subsidiaries for the six months period then ended and a summary of material accounting policies and other explanatory information (together hereinafter referred to as the "Unaudited Interim Consolidated Financial Information"). These unaudited interim consolidated financial information for the period from April 01, 2024 to September 30, 2024 have been prepared solely for inclusion in the Letter of Offer ("LOF") in connection with the proposed right issue of units of the Trust.

The Unaudited Interim Consolidated Financial Information has been prepared in accordance with the requirements of SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time read with the Paragraph 3.21 of Chapter 3 and Paragraph 4.6 of Chapter 4 of the SEBI Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024 ("SEBI Circular"), together known as ("lnvIT Regulations"); recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting (Ind AS 34) prescribed under rule 2(1)(a) of Companies (Indian Accounting Standards) Rules 2015, as amended and other recognised accounting principles generally accepted in India, to the extent not inconsistent with the InvIT Regulations, (refer note 13 below on presentation of "Unit Capital" as "Equity" instead of compound instruments under Ind AS 32 - Financial Instruments : Presentation).

These Unaudited Interim Consolidated Financial Information for the period from April 01, 2024 to September 30, 2024 have been prepared solely for inclusion in the Letter of Offer in connection with the proposed right issue of units of the Trust, and should not be relied upon for any other purpose.

These Unaudited Interim Consolidated Financial Information are not the statutory accounts for the purpose of any statutory compliances or for regulatory requirements in any jurisdiction. The Consolidated Financial Information of the Trust for the period from April 01, 2024 to September 30, 2024 were approved by the Board of Directors of the Investment Manager and authorised for inclusion in the Letter of Offer of the Trust on December 09, 2024.

The Consolidated Financial Statements are presented in Rs. in millions, except when otherwise indicated.Wherever the amount represented '0' (zero) construes value less than Rupees five thousand.

3 Summary of material accounting policies

3.01 Current versus non-current classification

The Project SPV Group has identified twelve months as its operating cycle. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

The Project SPV Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Project SPV Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

3.02 Use of estimates and judgements

The preparation of the Project SPV Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

Estimates and assumptions

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and future periods are affected.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Project SPV Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Fair value measurement of financial instruments (refer note 32)
Provision for major maintenance (refer note 20)
Impairment of non financial assets (refer note 3.17)

3.03 Business Combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at fair value on acquisition date and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit.

Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods. Where goodwill has been allocated to a cashgenerating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

3.04 Asset acquisition

The acquisition of an asset or a group of assets that does not constitute a business. In such cases the acquirer shall identify and recognise the individual identifiable asset acquired including those assets that meet the definition of, and recognition criteria for, intangible asset in IND AS 38, Intangible Assets and Liabilities assumed. The cost of the group is allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction or event does not give rise to goodwill.

3.05 Fair value measurement

The Project SPV Group measures financial instruments, (refer note 32) at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Project SPV Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Project SPV Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 -Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Project SPV Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Project SPV Group's Management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Project SPV Group's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

On an annual basis, the Management presents the valuation results to the Investment Manager and the Project SPV Group's independent auditors. This includes a discussion of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Project SPV Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

Disclosures for valuation methods, significant estimates and assumptions (note 3.02)

Financial instruments (including those carried at amortised cost) (note 5,6,7,16,17,18,32)

Quantative disclosure of fair value measurement hierarchy (note 33)

3.06 **Revenue recognition**

The Project SPV Group has applied the following accounting policy for revenue recognition:

Revenue from contracts with customers:

The Project SPV Group recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:

Step 1. Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2. Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3. Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4. Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5. Recognise revenue when (or as) the entity satisfies a performance obligation.

The Project SPV Group satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

1. The customer simultaneously receives and consumes the benefits provided by the Project SPV Group's performance as the Project SPV Group performs; or
2. The Project SPV Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
3. The Project SPV Group's performance does not create an asset with an alternative use to the Project SPV Group and the entity has an enforceable right to payment for performance completed to date.

Contract revenue

Contract revenue associated with the utility shifting incidental to construction of road are recognized as revenue by reference to the stage of completion of the projects at the balance sheet date. The stage of completion of project is determined by the proportion that contract cost incurred for work performed up to the balance sheet date bears to the estimated total contract costs.

Project SPVs operations involve levying of GST on the construction work. Goods and Service tax is not received by the project SPVs on its own account, rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

Income from the concession arrangements earned under the intangible asset model consists of the (i) fair value of contract revenue, which is deemed to be fair value of consideration transferred to acquire the asset; and (ii) payments actually received from the users. The intangible asset is amortised over its expected useful life in a way that reflects the pattern in which the asset's economic benefits are consumed by the Project SPV Group, starting from the date when the right to operate starts to be used. Based on these principles, the intangible asset is amortised in line with the actual usage of the specific public utility facility, with a maximum of the duration of the concession.

Claim Revenue

Claims are recognised as revenue as per relevant terms of concession agreement with the authority when it is probable that such claims will be accepted by the customer that can be measured reliably.

Income from toll contracts

The income from Toll Contracts on BOT basis are recognised on actual collection of toll revenue (net of Premium and revenue share payable to NHAI) as per Concession Agreement. Revenue from electronic toll collection is recognised on accrual basis.

Interest income

For all financial assets measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Project SPV Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

Dividends

Revenue is recognised when the Project SPV Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

Trade receivables

A receivable represents the Project SPV Group's right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due.

3.07 **Taxes**

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the country where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity .

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognised in the consolidated statement of profit and loss. Deferred tax is recognised in consolidated statement of profit and loss on the consolidated adjustments.

Minimum Alternate Tax (MAT)

Minimum Alternate Tax (MAT) paid as per Indian Income Tax Act, 1961 is in the nature of unused tax credit which can be carried forward and utilised when the Project SPV Group will pay normal income tax during the specified period. Being DTA tax credit is recognised to the extent that it is probable that the unused tax credit can be utilised in the specified future period. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Goods and service tax paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of goods and service tax paid, except:

When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

When receivables and payables are stated with the amount of tax included. The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet.

3.08 **Property, plant and equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment losses if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.Any trade discount or rebates are deducted in arriving at the purchase price.

Depreciation is calculated on written down value method (WDV) using the useful lives as prescribed under the Schedule II to the Companies Act, 2013 or re-assessed by the Project SPV Group based on technical evaluation. The Project SPV Group has estimated the following useful lives for its tangible fixed assets:

Asset class	Useful life
Building	30 years*
Office equipment	5 years
Computers (including server)	3 to 6 years
Furniture & fixtures	10 years

* The useful life of building has been calculated by management as per their technical estimate.

3.09 **Intangible assets**

The Project SPV Group exercised first time adoption under Ind AS 101 and has elected to continue with the carrying value of its “Toll Collection Rights” (Intangible Assets) including corresponding obligation, as recognised in the financial statements as at the date of transition April 1, 2016 measured as per the Previous GAAP and uses that as its deemed cost as at date of transition.

Toll collection rights are stated at cost, less accumulated amortisation , impairment losses and grant from government. Cost includes:

a) For acquired Toll Collection Rights - Upfront payments towards acquisition and incidental expenses related thereto.

b) Toll Collection Rights awarded by the grantor against construction service rendered by the Project SPV Group on BOT / DBFOT basis - Direct and indirect expenses on construction of roads, bridges, culverts, infrastructure and other assets at the toll plazas.

c) Toll Collection Rights in lieu of premium - Undiscounted premium obligation over the concession period.

Amortisation

Toll Collection Rights are amortised over the period of concession, using revenue based amortisation as prescribed in Ind As-36. Under this method, the carrying value of the rights is amortised in the proportion of actual toll revenue for the period to projected revenue for the balance toll period, to reflect the pattern in which the assets economic benefits will be consumed. At each balance sheet date, the projected revenue for the balance toll period is reviewed by the management. If there is any change in the projected revenue from previous estimates, the amortisation of toll collection rights is changed prospectively to reflect any changes in the estimates.

Intangible assets under development

Expenditure related to and incurred during implementation of project are included under “Intangible Assets under Development”. The same will be transferred to the respective intangible assets on completion of project.

3.10 **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences between the foreign currency borrowing and the functional currency borrowing to the extent regarded as an adjustment to the borrowing costs.

3.11 **Provisions**

Provisions are recognised when the Project SPV Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Project SPV Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3.12 **Resurfacing expenses**

As per the Concession Agreements, the Project SPV Group is obligated to carry out resurfacing of the roads under concession. Provision required for resurfacing expenses are measured at the present value of the expenditure required to settle the present obligation at the end of reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects risks specific to the liability. The increase in the provision due to the passage of time is recognised as finance cost. Provision for the planned expenditure is made for the period upto end of the period for which periodic maintenance is required, out of the total entitiled period.The same is stated in the consolidated statement of profit and loss in accordance with Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets."

3.13 **Contingent liability and Contingent assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Project SPV Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Project SPV Group does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent assets is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements.

Contingent liabilities and contingent assets are reviewed at each balance sheet date.

3.14 **Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through statement of profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

On initial recognistion, a financial asset is classified as measured of
- amortised cost
- FVOCI - Debt instruments
- FVOCI - equity instruments
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the year, the Project SPV Group changes its business model for managing financial assets.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:
- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Project SPV Group recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of profit and loss.Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as at FVTOCI, is classified as at FVTPL.

In addition, the Project SPV Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Project SPV Group has designated certain debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Project SPV Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Project SPV Group makes such election on an instrument-byinstrument basis. The classification is made on initial recognition and is irrevocable.

If the Project SPV Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Project SPV Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Project SPV Group of similar financial assets) is primarily derecognised (i.e. removed from the Project SPV Group's consolidated balance sheet) when:

- The rights to receive cash flows from the asset has expired, or
-The Project SPV Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Project SPV Group has transferred substantially all the risks and rewards of the asset, or (b) the Project SPV Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Project SPV Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Project SPV Group continues to recognise the transferred asset to the extent of the Project SPV Group's continuing involvement. In that case, the Project SPV Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Project SPV Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Project SPV Group could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Project SPV Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

-Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
-Financial assets that are debt instruments and are measured as at FVTOCI
-Lease receivables under Ind AS 17
-Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18 (referred to as contractual revenue receivables' in these financial statements)

-Loan commitments which are not measured as at FVTPL
-Financial guarantee contracts which are not measured as at FVTPL

The Project SPV Group follows 'simplified approach' for recognition of impairment loss allowance on:
-Trade receivables; and
-Other receivables

The application of simplified approach does not require the Project SPV Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Project SPV Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Project SPV Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

-All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument. -

-Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms
-Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Project SPV Group does not reduce impairment allowance from the gross carrying amount.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through Statement of profit and loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.
The Project SPV Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through Statement of profit and loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through statement of profit and loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Project SPV Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the consolidated statement of profit and loss.

Loans and borrowings

This is the category most relevant to the Project SPV Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings. For more information refer note 16.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.15 **Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprises of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Project SPV Group's cash management.

3.16 **Cash dividend to equity holders of the Project SPV Group**

The Project SPV Group recognises a liability to make cash or non-cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Project SPV Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

3.17 **Impairment of non-financial assets**

The Project SPV Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Project SPV Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset. unless the asset does not generate cash inflows that are largely independent of those from other assets or Project SPV Group's of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Project SPV Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Project SPV Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Project SPV Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Project SPV Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss.

Goodwill is tested for impairment annually as at 31st March and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or Project SPV Group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible assets with indefinite useful lives are tested for impairment annually as at 31st March at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

3.18 **Earnings per unit**

Basic earnings per unit are calculated by dividing the net profit or loss for the period attributable to unitholders by the weighted average number of units outstanding during the period. For the purpose of calculating diluted earnings per unit, the net profit or loss for the period attributable to unitholders and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

3.19 **Recent pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the period ended September 30, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Group.

Distribution during the year/period	(445.48)	(3,984.60)
At the end of the year/period	**1,34,645.74**	**1,35,091.22**

Terms / rights attached to units
The Trust has only one class of units. Each unit represents an undivided beneficial interest in the Trust. Each holder of unit is entitled to one vote per unit.
The Unitholder has no equiutable or proprietary interest in the projects of the Trust and is not entitled to any share in the transfer of the projects (or any part thereof) or any interest in the projects (or any part thereof) of the Trust. A unitholder's right is limited to the right to require due administration of the Trust in accordance with the provisions of the Trust Deed and the Investment Management Agreement.

* Under the provisions of the InvIT Regulations, Trust is required to distribute to Unitholders not less than 90% of the net distributable cash flows of the Trust for each financial year. Accordingly, a portion of the Unit Capital contains a contractual obligation of the Trust to pay to its Unitholders cash distributions. Hence, the Unit Capital is a compound financial instrument which contains equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with Chapter 3 and Chapter 4 of the SEBI circular, the Unit capital have been presented as "Equity" in order to comply with the requirements of Section H of Chapter 3 to the SEBI circular, dealing with the minimum presentation and disclosure requirements for key financial statements. Consistent with Unit Capital being classified as equity, the distributions to Unitholders is also presented in Statement of Changes in Unitholders' Equity when the distributions are approved by the Board of Directors of the Investment Manager.

Units are classified as equity. Incremental costs attributable to the issue of units are directly recorded in equity, net of tax.

Reconciliation of units outstanding at the beginning and at the end of the reporting period.

a) UTL, CGTL and KGTL have filed Writ petition with Hon'ble Rajasthan High Court with prayer to commence payment of Premium to National Highways Authority of India (NHAI) six months post actual completion of the project construction work. The Hon'ble High Court prima facie agreed with the contention of these companies and had provided interim relief from payment of premium. Vide judgement order dated 25th August, 2021, the Hon'ble High Court found merit in the contention of the companies and has directed the parties to resolve the dispute under Arbitration. The said matter is currently pending under Arbitration. (Refer Note 38 (b))

	Carrying amount		Fair Value	
	As at September 30, 2024 (Unaudited)	As at March 31, 2024 (Audited)	As at September 30, 2024 (Unaudited)	As at March 31, 2024 (Audited)
Financial assets				
Financial assets measured at amortised cost				
Other Financial assets	2,487.78	6,754.40	2,487.78	6,754.40
Trade receivable	123.23	68.15	123.23	68.15
Cash and cash equivalents	543.41	1,605.67	543.41	1,605.67
Other Bank balances	9,995.20	6,672.40	9,995.20	6,672.40
Financial assets measured at fair value through statement of Profit & Loss				
Investments (Quoted)	2,139.50	1,512.65	2,134.16	1,523.07
Financial liabilities				
Financial liabilities measured at amortised cost				
Trade payables	6,783.25	5,614.12	6,783.25	5,614.12
Borrowings (net of transaction cost)	2,22,374.16	2,15,315.27	2,22,374.16	2,15,315.27
Other financial liabilities	1,854.04	1,887.67	1,854.04	1,887.67
Financial liabilities measured at fair value through statement of Profit & Loss				
Other financial liabilities	42,013.09	40,760.96	42,013.09	40,760.96

The management assessed that the fair value of other financials assets, trade receivables, cash and cash equivalents, other bank balance, trade payables, borrowings and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The discount for lack of marketability represents the amounts that the Group has determined that market participants would take into account when pricing the investments.

Note 33 : Fair values hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) price in active market for identical assets or liabilities

Level 2: Valuation technique for which the lowest level input that has a significant effect on the fair value measurement are observed, either directly or indirectly.

Level 3: Valuation technique for which the lowest level input has a significant effect on the fair value measurement is not based on observable market data.

Quantitative disclosures fair value measurement hierarchy for financial instruments as at September 30, 2024:

(Rs. in million)

	As at September 30, 2024 (Unaudited)	Fair value measurement at end of the reporting period using		
		Level 1	Level 2	Level 3
Assets				
Investments (Quoted)	2,134.16	2,134.16	-	-
Liabilities				
Other financial liabilities	42,013.09	-	-	42,013.09

Quantitative disclosures fair value measurement hierarchy for financial instruments as at March 31, 2024:

(Rs. in million)

	As at March 31, 2024 (Audited)	Fair value measurement at end of the reporting period using		
		Level 1	Level 2	Level 3
Assets				
Investments (Quoted)	1,523.07	1,523.07	-	-
Liabilities				
Other financial liabilities	40,760.96	-	-	40,760.96

There has been no transfer between Level 1, Level 2 & Level 3 during the period.

Sensitivity: Higher probability by 5% and lower discount rate by 0.5% will decrease the fair value by Rs. 4,491.25 million (31st March 2024 - Rs. 4,397.66 million). Lower probability by 5% and higher discount rate by 0.5% will increase fair value by Rs. 4,274.96 million (31st March 2024 - Rs. 4,171.25 million).

Fair value movement for Payable to IRB Infrastructure Developers Limited is as under:

(Rs. in million)

	As at September 30, 2024 (Unaudited)	As at March 31, 2024 (Audited)
Opening balance as at 1st April 2024 (Previous period: 1st April 2023)	40,760.97	35,778.03
Add: Recognised during the period/ year	1,227.70	4,935.38
Less: Payment of deferred consideration	-	-
Add: Adjustment on account of interest unwinding	24.42	47.56
Closing balance of payable as on September 30, 2024 (Previous period: March 31, 2024)	**42,013.09**	**40,760.97**

Note 34 : Financial risk management objectives and policies

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Board of Directors have overall responsibility for the establishment and oversight of the Group's risk management framework.

In performing its operating, investing and financing activities, the Group is exposed to the Credit risk, Liquidity risk and Currency risk.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, FVTOCI investments and derivative financial instruments.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate borrowings.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after excluding the credit exposure on fixed rate borrowing. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

(Rs. in million)

	As at September 30, 2024 (Unaudited)	As at March 31, 2024 (Audited)
If the interest rate is 50 basis point higher (lower), the impact on profit or loss would be		
- Decreased by	992.35	956.04
- Increased by	(992.35)	(956.04)

Credit risk on financial assets

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Financial instruments

Credit risk from balances with banks, trade receivables, loans and advances and financial institutions is managed by the Group's management in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the top management on an annual basis, and may be updated throughout the year subject to approval of the Company's board of directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Trade receivables and Loans and Advances

Customer credit risk and Loans and advances is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. An impairment analysis is performed at each reporting date on an individual basis for major trade receivables and loan and advances. The Group has not identifed any impairment loss as at September 30, 2024.

The following table provides information about the ageing of gross carrying amount of trade recievables as at :

(Rs. in million)

Gross Carrying Amount	As at September 30, 2024 (Unaudited)	As at March 31, 2024 (Audited)
Undisputed Trade recievables -considered good		
Less than 6 months	-	-
6 months - 1 year	68.04	12.96
1-2 Years	33.02	33.02
2-3 Years	-	0.51
More than 3 years	22.17	21.66
Total	**123.23**	**68.15**

Other financial assets

Credit risk from balances with banks and financial institutions is managed by the Group in accordance with the Group's policy. Investments of surplus funds are made only in highly marketable debt instruments with appropriate maturities to optimise the cash return on instruments while ensuring sufficient liquidity to meet its liabilities.

Liquidity Risk

Liquidity risk is the risk that the group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including debt from banks at an optimised cost.

The table below summarises the maturity profile of the Trust's financial liabilities based on contractual undiscounted payments:

(Rs. in million)

As at September 30, 2024 (Unaudited)	Carrying amount	Total	On Demand	Less than 1 year	1 to 5 years	> 5 years
Borrowings (Gross of unamortised transaction cost)	2,26,487.16	2,26,487.16	-	1,940.23	44,557.83	1,79,989.10
Other financial liabilities	43867.13	43,867.13	-	1,850.20	42,016.93	-
Trade payables	6783.25	6,783.25	-	6,783.25	-	-
Total	**2,77,137.54**	**2,77,137.54**	**-**	**10,573.68**	**86,574.76**	**1,79,989.10**

(Rs. in million)

As at March 31, 2024 (Audited)	Carrying amount	Total	On Demand	Less than 1 year	1 to 5 years	> 5 years
Borrowings (Gross of unamortised transaction cost)	2,19,268.95	2,19,268.95	0.02	1,178.91	37,618.23	1,80,471.79
Other financial liabilities	42,648.63	42,648.63	-	1,883.60	40,765.03	-
Trade payables	5,614.12	5,614.12	-	5,614.12	-	-
Total	**2,67,531.70**	**2,67,531.70**	**0.02**	**8,676.63**	**78,383.26**	**1,80,471.79**

Note 35 : Transfer of Projects

On October 12, 2023, the Trust has executed arrangement with the Sponsor for implementation of Samakhiyali Tollway Private Limited ('SPV') by the Trust and accordingly, the project is being executed by the SPV and the Trust.

On July 29, 2023, the Trust has executed arrangement with the Sponsor for implementation of IRB Golconda Expressway Private Limited ('SPV') by the Trust and accordingly, the project is being executed by the SPV and the Trust.

Note 36 : Capital Management

Capital includes equity attributable to the unitholders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise unitholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Project SPV Group may adjust the dividend payment to unitholders, return capital to unitholders or issue new units. No changes were made in the objectives, policies or processes during the period ended September 30, 2024.

The Group monitors capital using a gearing ratio, which is net debt divided by total equity. Net debt is calculated as loans and borrowings less cash and cash equivalents.

(Rs. in million)

	As at September 30, 2024 (Unaudited)	As at March 31, 2024 (Audited)
Borrowings (Refer Note 16)	2,22,374.16	2,15,315.27
Less: cash and cash equivalents (Note 10)	(543.41)	(1,605.67)
Net debt	**2,21,830.75**	**2,13,709.60**
Equity (Note 13, 14 and 15)	1,30,507.77	1,34,367.83
Total equity	**1,30,507.77**	**1,34,367.83**
Capital and net debt	**3,52,338.52**	**3,48,077.43**
Gearing ratio (%)	169.98%	159.05%

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the lenders to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing borrowings in the current period.

Note 37 : Distribution made

(Rs. in million)

	As at September 30, 2024 (Unaudited)	As at March 31, 2024 (Audited)
Distributed during the period as :		
Interest	545.71	449.55
Return of Capital	445.48	3,984.60
	991.19	**4,434.15**

Note: The Board of Directors of the Investment Manager have declared 3rd Distribution of Rs.0.24 per unit towards interest in their meeting held on May 03, 2024. The Board of Directors of the Investment Manager have declared 4th Distribution of Rs.0.65 per unit which comprises of Rs.0.40 per unit as return of capital and Rs.0.25 per unit as interest in their meeting held on August 05, 2024.

Note 38 : Revenue share / premium payment to NHAI

(a) During the period ended September 30, 2024, the Group has paid/accrued Rs.3,897.62 millions (September 30, 2023, Rs.3,773.03 millions) as Revenue Share (Additional Concession Fee) to National Highways Authority of India ("NHAI") out of its toll collection in accordance with the Concession Agreements entered with NHAI. Income from Operations in the financials for the above periods is net off the above Revenue Share to NHAI.

(b) During the year ended March 31, 2017, AE Tollway Limited (AETL) has entered into a Concession agreement (CA) with NHAI for a period of 24 years. As per the terms of the CA, AETL has agreed to pay a premium in the form of "Additional Concession Fee" equal to Rs. 810.00 millions for the first year and each subsequent year such premium shall be determined by increasing the amount of premium in the respective year by an additional 5% as compared to the immediately preceding year. Management based on the legal opinion obtained and their evaluations of the terms of the CA, believes that such premium payable is restricted to the toll collection during the year and is in the form of revenue sharing arrangement. Accordingly, the premium payable for the year is accounted for as revenue share. The said treatment has been followed in case of KGTL, UTL, CGTL and IRBHM where premium payment has commenced. Further, in case of IRB Hapur Moradabad Tollway Limited, at the time of refinancing, NHAI granted approval for refinancing subject to payment of premium not paid of earlier years. The SPV has paid the premium (INR 214 Million) to NHAI under protest and the same would be reconciled based on the outcome of Rajasthan projects which are of similar nature.

Note 39 : Details of Project management fees and Investment management fees

i) Project Management Fees

In accordance with the Project Implementation Agreements, the fees and remuneration payable by the Project SPVs to the Project Manager has been worked out and agreed upon for the duration of current financial year, between the Project Manager, Investment Manager and the respective Project SPV, on an arm's length basis, after taking into account the extent of work to be done in respect of maintenance and other services to be provided by the Project Manager to such Project SPV.

ii) Investment Management Fees

Pursuant to a resolution dated July 4, 2023 of the Board of Directors of the Investment Manager and a resolution dated July 27, 2023 of the Unitholders, the Management Fees have been revised to be equivalent to 110% of the cost incurred by the Investment Manager in connection with providing investment management services to the Trust including routine administrative and operational expenses (exclusive of any out of pocket expenses, reimbursements and taxes).

Note 40 : Income Tax

Reconciliation of tax expenses and the accounting of profit multiplied by Indian Domestic tax rate for six months ended September 30, 2024 and September 30, 2023 are:

(Rs. in million)

	Six month ended September 30, 2024 (Unaudited)	Six month ended September 30, 2023 (Unaudited)
Profit Before tax	(3,072.27)	(2,923.71)
Tax rate	42.74%	42.74%
Expected income tax at India's statutory rate	(1,313.09)	(1,249.59)
Effect of unused tax losses and tax offsets not recognised as deferred tax assets	1,033.55	934.65
Difference in tax rate as per new regime as compared to normal tax rates	66.00	94.27
Additional Prior Period Taxes booked in current year for current tax of prior years	-	-
Adjustments recognised in the current year in relation to the Deferred tax of prior years	-	-
Others	10.04	18.21
Income tax expense reported in statement of Profit and loss	**(203.50)**	**(202.46)**
Effective Tax Rate	**6.62%**	**6.92%**

Deferred tax reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years in accordance with Ind AS 12. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. The carry forward of unabsorbed depreciation & business loss and specific Ind AS related adjustments resulted into net deferred tax assets. The deferred tax asset is not recognized by the Group since there is no probable certainty that the same will be utilized in future against the taxable profit.

No deferred tax assets have been recognised on losses incurred in SPV's(except for PDTPL) due to uncertainty of future taxable business income.

Note 41 : Earnings Per Unit (EPU)

EPU amounts are calculated by dividing the profit for the period attributable to unit holders by the weighted average number of units outstanding during the period.

The following reflects the income and share data used in the EPU computations:

(Rs. in million)

	Six month ended September 30, 2024 (Unaudited)	Six month ended September 30, 2023 (Unaudited)
Profit attributable to unit holders for earnings (Rs in million)	(2,868.77)	(2,721.24)
Weighted average number of Units for EPU	1,11,36,93,265	91,97,56,653
Earnings per unit		
Basic (in Rs.)	(2.58)	(2.96)
Diluted (in Rs.)	(2.58)	(2.96)

IRB Infrastructure Trust
Notes to Unaudited Interim Consolidated Financial Information as at September 30, 2024

Note 42 : Segment reporting

The Group is engaged in setting up, operating, and managing of toll road assets in India. Based on the guiding principle given in Ind AS 108 "Operating Segments" all the activities of the Group fall within a single operating segment. Further, the entire operations of the Trust are only in India and hence, disclosure of secondary/ geographical segment information does not arise. Accordingly, giving disclosures under Ind AS 108 does not arise.

Note 43 : Subsequent Events

1. The Board of Directors of the Investment Manager declared Distribution of Rs.0.57 per unit which comprises of Rs.0.53 per unit as return of capital and Rs.0.04 per unit as interest in their meeting held on October 28, 2024.
2. The Board of Directors of Investment Manager to IRB Infrastructure Trust on November 14, 2024, has approved a preliminary and non-binding offer relates to the transfer of the five assets namely IRB Westcoast Tollway Limited, Kaithal Tollway Limited, AE Tollway Limited, Kishangarh Gulabpura Tollway Limited and IRB Hapur Moradabad Tollway Limited held by the Trust to be issued to the IRB InvIT Fund ("Public InvIT"), a publicly offered and listed Infrastructure Investment Trust.

Note 44 : Previous year comparatives

Previous year’s figures has been reclassified / regrouped wherever necessary to confirm to current year classification. The impact of the same is not material to the user of the Consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Unit Holders of IRB Infrastructure Trust

Report on the Audit of the Consolidated Financial Statements

Opinion

We have jointly audited the accompanying consolidated financial statements of IRB Infrastructure Trust (hereinafter referred to as the "Trust") and its subsidiaries (Trust and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2024, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Unit Holder's Equity, the Consolidated Statement of Cash Flows for the year then ended, Consolidated Statement of Net Assets at Fair value as at March 31, 2024, Consolidated Statement of Total Returns at Fair Value and Net Distributable cashflows of the Trust and each of its subsidiaries for the year then ended as an additional disclosure in accordance with the Securities and Exchange Board of India ("SEBI") Master Circular SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated July 06, 2023, as amended, ("the SEBI Circular") for the year ended March 31, 2024 and notes to the Consolidated Financial Statements, including material accounting policy information and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on consideration of reports of other auditors on separate financial statements of subsidiaries, , the aforesaid consolidated financial statements give the information required by SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time read with SEBI Circular, together known as (the "InvIT Regulations") and give a true and fair view in conformity with the Indian Accounting Standards prescribed under rule 2(1)(a) of Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, to the extent not inconsistent with the InvIT Regulations, of their consolidated state of affairs of the Group as at March 31, 2024, of consolidated net loss (including other comprehensive loss), consolidated changes in unit holder's equity, its consolidated cash flows for the year then ended, its consolidated net asset assets at fair value as at March 31, 2024, its consolidated total returns at fair value and net distributable cashflows of the Trust and each of its subsidiaries for the year ended as on date and other financial information of the Trust for the year ended March 31, 2024.

Basis for Opinion

We conducted our joint audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India ("ICAI"). Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained and on consideration of audit reports of other auditors referred to in paragraph (a) of the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to Note 13 of the accompanying consolidated financial statements, which describes the presentation of 'Unit Capital' as 'Equity' to comply with InvIT Regulations. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

Sr. No	Key Audit Matter	How the Key Audit Matter was addressed in our audit
1	The Trust has payable of Rs. 40,760.96 million as on March 31, 2024 to IRB Infrastructure Developers Limited ("Sponsor") on account of transfer of 9 project companies by the Sponsor. (Refer note 17 of the consolidated financial statements). Pursuant to settlement of IRB Infrastructure Trust ('Trust') by Sponsor, as a Private InvIT, the Trust has entered into Debt Novation Agreements (DNA). As per the terms of DNA, in consideration of assets taken over in 9 project companies, Trust has issued units and agreed to transfer to the Sponsor, the claim amounts when and to the extent the same are eventually received by project companies, on account of Sponsor claims. Such Sponsor claims are lodged after obtaining Commercial Operation Date by respective project companies. The amount realisable against claims has been estimated by the valuers based on the weighted average of probabilities of realisation of such claims. Based on the fair value of liability as estimated by the valuers, a resultant impact in the value of liability has been recognised under the head 'Loss of fair value measurement of other payables'. There is significant judgement involved on assessing fair value of these payables which is based on key assumptions such as timing of collection, the discount rate, and the probability of success in respect of the claims.	Our audit procedures included: 1. Evaluated the design and implementation and testing operating effectiveness of key controls placed around the assessment process of the amount payable to Sponsor. 2. Obtained Trust's assessment of the fair valuation of the deferred consideration payable. These projections are based on underlying infrastructure project cash flows which are sensitive to some of the claims to be settled with NHAI/HDMA. 3. Assessed the work performed by management as well as management's external valuation expert, including the valuation methodology and the key assumptions used. Further, also assessed the competence, capabilities and objectivity of the expert used by the management in the process of evaluating impairment models. 4. Involved our internal valuation specialist, where appropriate, to evaluate the reasonability of the methodology, approach and discount rate used in the valuation carried out for determining the fair value of deferred consideration payable.

2	**Impairment Testing for Intangible Assets - Toll Collection Rights (refer Note 4 to the consolidated financial statements)** As at March 31, 2024, the carrying amount of intangible assets and intangible assets under development is Rs. 3,17,031.31 million and Rs. 64,816.48 million respectively. The Trust's project subsidiaries have toll collection rights as intangible assets and intangible under developement pursuant to the concession agreements. The carrying value of these rights acquired under Build-Operate-Transfer (BOT) & Toll-Operate-Transfer (TOT) basis is being compared to the recoverable value (which is value in use in the instant case) thereof to ascertain for impairment. The process involves estimating the value in use of the asset which is determined by forecasting and discounting future cash flows. The same is sensitive to changes in discount rate, traffic growth rates, toll growth rates, concession period etc. The determination of the recoverable amount of the toll collection right involves significant judgment due to inherent uncertainty in the assumptions evaluated for recoverable amount of these rights. Accordingly, the evaluation of impairment of toll collection rights has been determined as a key audit matter	Our audit procedures included: 1. Evaluated the design and implementation and verified, on a test check basis the operating effectiveness of key controls around the estimation of future cash flows forecasts, the process by which they were produced, and the discount rates used. 2. Understanding Trust's assessment on impairment for intangible assets - toll collection rights and intangible under development. Assessed the model by testing the mathematical accuracy of the discounted cash flow model, evaluation of the assumption and methodologies on a test check basis that were used to arrive at the underlying recoverable value. 3. Engaged internal valuation specialists to evaluate the adequacy of specific inputs such as the discount rate, traffic growth rate, toll charges etc. 4. Focused on key assumptions such as discount rate, traffic growth rates, toll rates, concession period etc. which were most sensitive to the recoverable value of the intangible asset 5. Evaluated the objectivity, independence and competence of specialists involved.
3	**Disclosures relating to Statement of Net Assets at Fair Value and Statement of Total returns at Fair value as per InvIT Regulations.** The Trust is required to disclose Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value pursuant to SEBI Circulars issued under the InvIT Regulations which requires valuation of assets. Such fair valuation has been carried out by the independent valuer appointed by the Investment Manager of the Trust. For the above purpose, fair value is determined by the management using	Our audit procedures included: 1. Obtained an understanding of regulatory requirements by reading the requirements of SEBI Regulations along with the relevant SEBI circulars, pursuant to which the Statements are prepared by the Investment Manager. 2. Obtained an understanding of the Trust's policies and procedures adopted by the Investment Manager for computation and disclosure of the Statements.

	discounted cash flow ('DCF') valuation method which involves significant management judgement in respect of various estimates used as inputs such as determination of future cash flows, discount rates, revenue growth rates, inflation rates, tax rates, amongst others. The determination of fair value involves judgement due to inherent high estimation uncertainty in the underlying assumptions. Considering the judgement involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of fair values, this is considered as a key audit matter for the current year audit.	3. Assessed the work performed by management as well as management's external valuation expert, including the valuation methodology and the key assumptions used. Also assessed the competence, capabilities and objectivity of the expert used by the management in the process. 4. Involved our internal valuation specialist, where appropriate, to evaluate the reasonability of the methodology, approach and assumptions used in the valuation carried out for determining the fair value. 5. Tested arithmetic accuracy of cash flows projections and sensitivity analysis. 6. Evaluated the appropriateness and adequacy of disclosures for compliance with the relevant requirements of SEBI regulations.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Board of Directors of the Investment Manager (the "Board") are responsible for the other information. The other information comprises the Annual Report but does not include the consolidated financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of the Investment Manager and Those Charged with Governance for the Consolidated Financial Statements

The Board are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated changes in unit holder's equity, consolidated cash flows of the Group, consolidated net assets at fair value as at March 31, 2024, consolidated total returns at fair value and net distributable cashflows of the Trust and it's subsidiaries for the year ended as on date and other financial information in accordance with the

requirement of InvIT Regulations; the Indian Accounting Standards prescribed under Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 , as amended, and other accounting principles generally accepted in India, to the extent not inconsistent with the InvIT Regulations. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Investment Manager, as aforesaid.

In preparing the consolidated financial statements, the Board of the Trust and the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of the Trust and the respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing ("SAs") will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the Consolidated Financial Statements.

Other Matters

a. We did not audit the financial statements of six subsidiaries, whose financial statements reflect total assets of Rs. 1,22,334.50 million (before consolidation adjustments) as at March 31, 2024, total revenues of Rs. 20,960.13 million (before consolidation adjustments) and net cash outflows amounting to Rs. 157.30 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditor whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries , is based solely on the reports of the other auditor.

b. The consolidated financial statements of the Trust for the year ended March 31, 2023, were audited by Gokhale & Sathe, Chartered Accountants, one of the joint auditors of the Trust whose report dated May 12, 2023 expressed an unmodified opinion on those statements.

Our opinion on the consolidated financial statements is not modified in respect of the above matters.

Report on Other Legal and Regulatory Requirements

Based on our audit and as required by InvIT Regulations, we report that:

a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

b. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Unit Holders' Equity, the Consolidated Statement of Cash Flow, Consolidated net assets at fair value as at March 31, 2024, Consolidated total returns at fair value and net distributable cashflows of the Trust and each of its subsidiaries for the year ended dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

c. In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards ('Ind AS') as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India, to the extent not inconsistent with the InvIT Regulations.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF IRB INFRASTRUCTURE TRUST

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Trust has in place an adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board.

- Conclude on the appropriateness of the Board's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group's to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Trust and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our joint audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended March 31, 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We also performed procedures in accordance with Regulation 13(2)(e) of the InvIT Regulations, as amended to the extent applicable.

10	Less: Capital expenditure towards the project	-
11	Total Adjustments (B)	**4.16**
12	**Net Distributable Cash Flows (C) = (A+B)**	**3.29**

Note: The Company has been incorporated on January 01, 2024.

(xvi) IRB Gwalior Tollway Private Limited (IGTPL)

(Rs. in Million)

Sr. No.	Description	January 01, 2024 to March 31, 2024
1	Profit after tax as per profit and loss account (A)	0.60
2	Add: Depreciation and amortisation as per Statement of profit and loss	-
3	Add/Less: Decrease/(Increase) in Working capital	10.70
4	Add/less: Any other item of non-cash expense / non cash income (net of actual cash flows for these items), if deemed necessary by the Investment Manager	(2.62)
5	Add: Interest paid/payable to the Trust	-
6	Add :- Provision for Resurfacing Expenses (Net)	-
7	Less: Repayment of external debt (principal)	-
8	Less: Tax paid	-
9	Less: Creation of MMRA	-
10	Less: Capital expenditure towards the project	-
11	Total Adjustments (B)	**8.08**
12	**Net Distributable Cash Flows (C) = (A+B)**	**8.68**

Note: The Company has been incorporated on January 01, 2024.

1 **Corporate Information**

The IRB Infrastructure Trust (the "Trust") is a trust settled pursuant to the indenture of trust dated August 27, 2019 which is registered under the Registration Act, 1908 and under the Securities Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time. The Trust is settled by the Sponsor, IRB Infrastructure Developers Limited ("IRB" or the "Sponsor"), an infrastructure development company in India. The Trustee to the Trust is IDBI Trusteeship Services Limited (the "Trustee"). Investment manager for the Trust is MMK Toll Road Private Limited (the "Investment Manager"). The Trust has received registraion certificate from SEBI on November 25, 2019.

The Trust has been formed to invest in infrastructure assets primarily being in the road sector in India. The Trust's road projects are eligible infrastructure projects under the InvIT Regulations and held through special purpose vehicles ("Project SPVs" together as "Project SPV Group"). The Trust's portfolio comprises of fifteen road projects as listed below:-

Project SPV Name**	Residual Concession life*	Shareholding	Nature of Investment	Status	Principal Activities	Country of incorporation
IRB Westcoast Tollway Limited (IRBWTL)	17 years 11 Months 1 days	100%	Subsidiary	Tolling and Construction	Construction and operation of road including toll collection.	India
Solapur Yedeshi Tollway Limited (SYTL)	19 years 9 Months 21 days	100%	Subsidiary	Operating		India
Yedeshi Aurangabad Tollway Limited (YATL)	17 years 3 Months	100%	Subsidiary	Operating		India
Kaithal Tollway Limited (KTL)	18 years 3 Months 14 days	100%	Subsidiary	Operating		India
AE Tollway Limited (AETL)	16 years 4 Months 1 days	100%	Subsidiary	Operating		India
Udaipur Tollway Limited (UTL)	14 years 5 Months 3 days	100%	Subsidiary	Operating		India
CG Tollway Limited (CGTL)	13 years 7 Months 4 days	100%	Subsidiary	Operating		India
Kishangarh Gulabpura Tollway Limited (KGTL)	13 years 10 Months 21 days	100%	Subsidiary	Operating		India
IRB Hapur Moradabad Tollway Limited (IRBHMTL)	17 years 1 Months 24 days	100%	Subsidiary	Operating		India
Palsit Dankuni Tollway Private Limited (PDTPL) w.e.f 02.04.2022	15 years	100%	Subsidiary	Tolling and Construction		India
IRB Golconda Expressway Private Limited(IGEPL) w.e.f 11.08.2023	29 years 4 Months 12 days	100%	Subsidiary	Operating		India
Samakhiyali Tollway Private Limited(STPL) w.e.f 28.12.2023	19 years 8 Months 27 days	100%	Subsidiary	Tolling and Construction		India
IRB Lalitpur Tollway Private Limited(ILTPL) w.e.f 10.11.2023	20 years	100%	Subsidiary	Appointed date received on April 1, 2024		India
IRB Kota Tollway Private Limited(IKTPL) w.e.f 01.01.2024	20 years	100%	Subsidiary	Appointed date received on April 1, 2024		India
IRB Gwalior Tollway Private Limited(IGTPL) w.e.f 01.01.2024	20 years	100%	Subsidiary	Appointed date received on April 1, 2024		India

* Represents residual concession life as at March 31, 2024 as per original concession period (without considering extension of concession period, if any).

** Of the above Project SPVs, IRBWTL, SYTL, YATL, AETL, CGTL, UTL and IRBHMTL have been converted to public companies on November 13, 2019 and KTLand KGTL on November 14, 2019 .

The registered office of the Investment Manager is Off No-11th Floor/1101 Hiranandani Knowledge Park, Technology Street, Hill Side Avenue, Powai Mumbai 400076.
The Trust has been listed on NSE w.e.f. 03.04.2023.

2 **Basis of preparation of Consolidated Financial Statements**

A. Basis of preparation of Consolidated Financial Statements

The Consolidated Financial Statements comprise the Financial Statements of the Project SPV Group.
Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.
The Financial Statements of all Project SPVs used for the purpose of consolidation are drawn up to the same reporting date i.e. year ended on March 31.
Consolidation procedure:
(a) Consolidate like items of assets, liabilities, equity, income, expenses and cash flows of Project SPVs.
(b) Eliminate in full intra Project SPVs assets and liabilities, income, expenses and cash flows relating to transactions between Project SPVs of the Project SPV Group (profits or losses resulting from intra Project SPV Group transactions that are recognised in assets, such as inventory and property, plant and equipment, are eliminated in full). Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Project SPV Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

B. Statement of compliance

The Consolidated Financial Statements of Project SPV Group comprises of Consolidated Balance Sheet as at March 31, 2024 and March 31, 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income) of the Project SPV group, the Consolidated Statement of Cash Flow, the Consolidated Statement of Changes in Unitholders equity for the year ended March 31, 2024 and March 31, 2023, the consolidated statement of Net Assets at Fair Value as at March 31, 2024 and March 31, 2023 and the Consolidated Statement of Total Returns at Fair Value for the year ended March 31, 2024 and March 31, 2023, a summary of material accounting policies, notes and other explanatory Information.

The Consolidated Financial Statements which comprises the Consolidated Balance Sheet as at March 31, 2024, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Unit Holder's Equity, the Consolidated Statement of Cash Flows for the year then ended, Statement of Net Assets at Fair value as at March 31, 2024, Statement of Total Returns at Fair Value and Net Distributable cashflows for the year then ended as an additional disclosure in accordance with the Securities and Exchange Board of India ("SEBI") Master Circular SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated July 06, 2023, as amended, ("the SEBI Circular") for the year ended March 31, 2024 and notes to the Consolidated Financial Statements, including material accounting policy information and other explanatory information has been prepared in accordance with the requirements of SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time read with SEBI Circular, together known as ("InvIT Regulations"); the Indian Accounting Standards prescribed under Rule 2(1) (a) of Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India to the extent not inconsistent with the InvIT Regulations (refer note 13 below on presentation of "Unit Capital" as "Equity" instead of compound instruments under Ind AS 32 - Financial Instruments: Presentation).

The Consolidated Financial Statements are presented in Rs. in millions, except when otherwise indicated.Wherever the amount represented '0' (zero) construes value less than Rupees five thousand.

C. The accounting policies adopted, and methods of computation followed are consistent with those of the previous financial year, except for items disclosed below:

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standard) Amendment Rules 2023 dated 31 March 2023 to amend the following Ind AS which are effective from 1 April 2023

Ind AS 1, Presentation of Financial Statements
An entity shall disclose material accounting policy information. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

Ind AS 8, Accounting policies, Change in Accounting Estimates and Errors
Definition of 'Change in Accounting Estimates' in account has been replaced by revised definition of 'Accounting Estimate'. As per revised definition, accounting estimates are monetary amounts in the financial statements that are subject to measurement uncertainty. An entity develops an accounting estimate to achieve the objective set out by the accounting policy. Developing accounting estimates involves the use of judgements or assumptions based on the latest available, reliable information.
An entity may need to change an accounting estimate if changes occur in the circumstances on which the accounting estimate was based or as a result of new information, new developments or more experience. By its nature, a change in an accounting estimate does not relate to prior periods and is not the correction of an error.

3 **Summary of material accounting policies**

3.01 **Current versus non-current classification**
The Project SPV Group has identified twelve months as its operating cycle. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.
The Project SPV Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:
- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Project SPV Group classifies all other liabilities as non-current.
Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

3.02 **Use of estimates and judgements**
The preparation of the Project SPV Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

Estimates and assumptions
Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and future periods are affected.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Project SPV Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Fair value measurement of financial instruments (refer note 31)
Provision for major maintenance (refer note 19)
Impairment of non financial assets (refer note 3.17)

3.03 **Business Combinations**
Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at fair value on acquisition date and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit.

Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods. Where goodwill has been allocated to a cashgenerating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

3.04 **Asset acquisition**
The acquisition of an asset or a group of assets that does not constitute a business. In such cases the acquirer shall identify and recognise the individual identifiable asset acquired including those assets that meet the definition of, and recognition criteria for, intangible asset in IND AS 38, Intangible Assets and Liabilities assumed. The cost of the group is allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction or event does not give rise to goodwill.

3.05 **Fair value measurement**

The Project SPV Group measures financial instruments, (refer note 31) at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Project SPV Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Project SPV Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 -Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Project SPV Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Project SPV Group's Management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Project SPV Group's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

On an annual basis, the Management presents the valuation results to the Investment Manager and the Project SPV Group's independent auditors. This includes a discussion of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Project SPV Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

Disclosures for valuation methods, significant estimates and assumptions (note 3.02)

Financial instruments (including those carried at amortised cost) (note 5,6,7,8,17,31)

Quantative disclosure of fair value measurement hierarchy (note 32)

3.06 **Revenue recognition**

The Project SPV Group has applied the following accounting policy for revenue recognition:

Revenue from contracts with customers:

The Project SPV Group recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:

Step 1. Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2. Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3. Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4. Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5. Recognise revenue when (or as) the entity satisfies a performance obligation.

The Project SPV Group satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

1. The customer simultaneously receives and consumes the benefits provided by the Project SPV Group's performance as the Project SPV Group performs; or
2. The Project SPV Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
3. The Project SPV Group's performance does not create an asset with an alternative use to the Project SPV Group and the entity has an enforceable right to payment for performance completed to date.

Contract revenue

Contract revenue associated with the utility shifting incidental to construction of road are recognized as revenue by reference to the stage of completion of the projects at the balance sheet date. The stage of completion of project is determined by the proportion that contract cost incurred for work performed up to the balance sheet date bears to the estimated total contract costs.

Project SPVs operations involve levying of GST on the construction work. Goods and Service tax is not received by the project SPVs on its own account, rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

Income from the concession arrangements earned under the intangible asset model consists of the (i) fair value of contract revenue, which is deemed to be fair value of consideration transferred to acquire the asset; and (ii) payments actually received from the users. The intangible asset is amortised over its expected useful life in a way that reflects the pattern in which the asset's economic benefits are consumed by the Project SPV Group, starting from the date when the right to operate starts to be used. Based on these principles, the intangible asset is amortised in line with the actual usage of the specific public utility facility, with a maximum of the duration of the concession.

Claim Revenue

Claims are recognised as revenue as per relevant terms of concession agreement with the authority when it is probable that such claims will be accepted by the customer that can be measured reliably.

Income from toll contracts

The income from Toll Contracts on BOT basis are recognised on actual collection of toll revenue (net of Premium and revenue share payable to NHAI) as per Concession Agreement. Revenue from electronic toll collection is recognised on accrual basis.

Interest income

For all financial assets measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Project SPV Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

Dividends

Revenue is recognised when the Project SPV Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

Trade receivables

A receivable represents the Project SPV Group's right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due.

3.07 **Taxes**

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the country where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity .

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognised in the consolidated statement of profit and loss. Deferred tax is recognised in consolidated statement of profit and loss on the consolidated adjustments.

Minimum Alternate Tax (MAT)

Minimum Alternate Tax (MAT) paid as per Indian Income Tax Act, 1961 is in the nature of unused tax credit which can be carried forward and utilised when the Project SPV Group will pay normal income tax during the specified period. Being DTA tax credit is recognised to the extent that it is probable that the unused tax credit can be utilised in the specified future period. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Goods and service tax paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of goods and service tax paid, except:
When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

When receivables and payables are stated with the amount of tax included. The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet.

3.08 **Property, plant and equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment losses if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.Any trade discount or rebates are deducted in arriving at the purchase price.

Depreciation is calculated on written down value method (WDV) using the useful lives as prescribed under the Schedule II to the Companies Act, 2013 or re-assessed by the Project SPV Group based on technical evaluation. The Project SPV Group has estimated the following useful lives for its tangible fixed assets:

Asset class	Useful life
Building	30 years*
Office equipment	5 years
Computers (including server)	3 to 6 years
Furniture & fixtures	10 years

* The useful life of building has been calculated by management as per their technical estimate.

3.09 **Intangible assets**

The Project SPV Group exercised first time adoption under Ind AS 101 and has elected to continue with the carrying value of its "Toll Collection Rights" (Intangible Assets) including corresponding obligation, as recognised in the financial statements as at the date of transition April 1, 2016 measured as per the Previous GAAP and uses that as its deemed cost as at date of transition.

Toll collection rights are stated at cost, less accumulated amortisation , impairment losses and grant from government. Cost includes:
a) For acquired Toll Collection Rights - Upfront payments towards acquisition and incidental expenses related thereto.
b) Toll Collection Rights awarded by the grantor against construction service rendered by the Project SPV Group on BOT / DBFOT basis - Direct and indirect expenses on construction of roads, bridges, culverts, infrastructure and other assets at the toll plazas.

c) Toll Collection Rights in lieu of premium - Undiscounted premium obligation over the concession period.

Amortisation

Toll Collection Rights are amortised over the period of concession, using revenue based amortisation as prescribed in Ind As-36. Under this method, the carrying value of the rights is amortised in the proportion of actual toll revenue for the period to projected revenue for the balance toll period, to reflect the pattern in which the assets economic benefits will be consumed. At each balance sheet date, the projected revenue for the balance toll period is reviewed by the management. If there is any change in the projected revenue from previous estimates, the amortisation of toll collection rights is changed prospectively to reflect any changes in the estimates.

Intangible assets under development

Expenditure related to and incurred during implementation of project are included under "Intangible Assets under Development". The same will be transferred to the respective intangible assets on completion of project.

3.10 **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences between the foreign currency borrowing and the functional currency borrowing to the extent regarded as an adjustment to the borrowing costs.

3.11 **Provisions**

Provisions are recognised when the Project SPV Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Project SPV Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3.12 **Resurfacing expenses**

As per the Concession Agreements, the Project SPV Group is obligated to carry out resurfacing of the roads under concession. Provision required for resurfacing expenses are measured at the present value of the expenditure required to settle the present obligation at the end of reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects risks specific to the liability. The increase in the provision due to the passage of time is recognised as finance cost. Provision for the planned expenditure is made for the period upto end of the period for which periodic maintenance is required, out of the total entitiled period.The same is stated in the consolidated statement of profit and loss in accordance with Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets."

3.13 **Contingent liability and Contingent assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Project SPV Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Project SPV Group does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent assets is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements.

Contingent liabilities and contingent assets are reviewed at each balance sheet date.

3.14 **Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through statement of profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

On initial recognistion, a financial asset is classified as measured of
- amortised cost
- FVOCI - Debt instruments
- FVOCI - equity instruments
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the year, the Project SPV Group changes its business model for managing financial assets.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:
- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Project SPV Group recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of profit and loss.Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as at FVTOCI, is classified as at FVTPL.

In addition, the Project SPV Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Project SPV Group has designated certain debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Project SPV Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Project SPV Group makes such election on an instrument-byinstrument basis. The classification is made on initial recognition and is irrevocable.

If the Project SPV Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Project SPV Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Derecognition
A financial asset (or, where applicable, a part of a financial asset or part of a Project SPV Group of similar financial assets) is primarily derecognised (i.e. removed from the Project SPV Group's consolidated balance sheet) when:

- The rights to receive cash flows from the asset has expired, or
-The Project SPV Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Project SPV Group has transferred substantially all the risks and rewards of the asset, or (b) the Project SPV Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Project SPV Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Project SPV Group continues to recognise the transferred asset to the extent of the Project SPV Group's continuing involvement. In that case, the Project SPV Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Project SPV Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Project SPV Group could be required to repay.

Impairment of financial assets
In accordance with Ind AS 109, the Project SPV Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

-Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
-Financial assets that are debt instruments and are measured as at FVTOCI
-Lease receivables under Ind AS 17
-Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18 (referred to as contractual revenue receivables' in these financial statements)

-Loan commitments which are not measured as at FVTPL
-Financial guarantee contracts which are not measured as at FVTPL
The Project SPV Group follows 'simplified approach' for recognition of impairment loss allowance on:
-Trade receivables; and
-Other receivables
The application of simplified approach does not require the Project SPV Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Project SPV Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Project SPV Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

-All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument. -

-Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms
-Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Project SPV Group does not reduce impairment allowance from the gross carrying amount.

Financial liabilities
Initial recognition and measurement
Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through Statement of profit and loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.
The Project SPV Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent measurement
The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through Statement of profit and loss
Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through statement of profit and loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Project SPV Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the consolidated statement of profit and loss.

Loans and borrowings
This is the category most relevant to the Project SPV Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings. For more information refer note 16.

Derecognition
A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

Offsetting of financial instruments
Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.15 **Cash and cash equivalents**
Cash and cash equivalent in the balance sheet comprises of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Project SPV Group's cash management.

3.16 **Cash dividend to equity holders of the Project SPV Group**
The Project SPV Group recognises a liability to make cash or non-cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Project SPV Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

3.17 **Impairment of non-financial assets**

The Project SPV Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Project SPV Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset. unless the asset does not generate cash inflows that are largely independent of those from other assets or Project SPV Group's of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Project SPV Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Project SPV Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Project SPV Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Project SPV Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss.

Goodwill is tested for impairment annually as at 31st March and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or Project SPV Group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible assets with indefinite useful lives are tested for impairment annually as at 31st March at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

3.18 **Earnings per unit**

Basic earnings per unit are calculated by dividing the net profit or loss for the period attributable to unitholders by the weighted average number of units outstanding during the period. For the purpose of calculating diluted earnings per unit, the net profit or loss for the period attributable to unitholders and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

3.19 **Recent pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Group.

Terms / rights attached to units

The Trust has only one class of units. Each unit represents an undivided beneficial interest in the Trust. Each holder of unit is entitled to one vote per unit.

The Unitholder has no equiutable or proprietary interest in the projects of the Trust and is not entitled to any share in the transfer of the projects (or any part thereof) or any interest in the projects (or any part thereof) of the Trust. A unitholder's right is limited to the right to require due administration of the Trust in accordance with the provisions of the Trust Deed and the Investment Management Agreement.

* Under the provisions of the InvIT Regulations, Trust is required to distribute to Unitholders not less than 90% of the net distributable cash flows of the Trust for each financial year. Accordingly, a portion of the Unit Capital contains a contractual obligation of the Trust to pay to its Unitholders cash distributions. Hence, the Unit Capital is a compound financial instrument which contains equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with Chapter 3 and Chapter 4 of the SEBI circular, the Unit capital have been presented as "Equity" in order to comply with the requirements of Section H of Chapter 3 to the SEBI circular, dealing with the minimum presentation and disclosure requirements for key financial statements. Consistent with Unit Capital being classified as equity, the distributions to Unitholders is also presented in Statement of Changes in Unitholders' Equity when the distributions are approved by the Board of Directors of the Investment Manager.

Units are classified as equity. Incremental costs attributable to the issue of units are directly recorded in equity, net of tax.

Reconciliation of the units outstanding at the beginning and at the end of the year:

	March 31, 2024		March 31, 2023	
Units issued, subscribed and fully paid	No. of units	Amount (Rs. in million)	No. of units	Amount (Rs. in million)
Balance at the beginning of the year	87,92,93,265	87,929.33	85,50,43,265	85,504.33
lssued during the year (refer a, b & c below)	23,44,00,000	51,146.49	2,42,50,000	2,425.00
Distributions (refer note 37)	-	(3,984.60)	-	-
Balance at the end of the year	**1,11,36,93,265**	**1,35,091.22**	**87,92,93,265**	**87,929.33**

a) The Trust offered rights issue of up to 9,20,00,000 units of the Trust (the 'units'), for cash at a price of Rs. 244.86 per unit (the 'issue price'), aggregating to Rs. 22,527.00 million to the eligible unitholders (as defined in the Letter of Offer) on a rights basis to Sponsor and GIC affiliates in the ratio of 51:49 held by them on the record date, being on March 12, 2024 (the 'Issue') in accordance with the InvIT Regulations. 	As at March 31, 2024	As at March 31, 2023
Contigent liabilities	-	-
Total	-	-

a) UTL, CGTL and KGTL have filed Writ petition with Hon'ble Rajasthan High Court with prayer to commence payment of Premium to National Highways Authority of India (NHAI) six months post actual completion of the project construction work. The Hon'ble High Court prima facie agreed with the contention of these companies and had provided interim relief from payment of premium. Vide judgement order dated 25th August, 2021, the Hon'ble High Court found merit in the contention of the companies and has directed the parties to resolve the dispute under Arbitration. The said matter is currently pending under Arbitration. (Refer Note 38 (b))

Note 29 : Trade payable

Disclosure relating to suppliers registred under MSMED Act based on the information available with the respective companies in the Group:

(Rs. in million)

Particulars	As at March 31, 2024	As at March 31, 2023
(a) Amount remaining unpaid to any supplier as at the year end:		
Principal amount	2.41	1.61
Interest due thereon	-	-
Total	**2.41**	**1.61**

Particulars	As at March 31, 2024	As at March 31, 2023
Less than 1 year	64,522.14	2,339.97
1-2 Years	212.64	54.59
2-3 Years	54.59	27.11
More than 3 years	27.11	
Total	**64,816.48**	**2,421.67**

Note 31 : Fair values (Rs. in million)

	Carrying amount		Fair Value	
	As at March 31, 2024	As at March 31, 2023	As at March 31, 2024	As at March 31, 2023
Financial assets				
Financial assets measured at amortised cost				
Other Financial assets	6,754.40	1,448.89	6,754.40	1,448.89
Trade receivable	68.15	84.67	68.15	84.67
Cash and cash equivalents	1,605.67	731.31	1,605.67	731.31
Other Bank balances	6,672.40	4,866.69	6,672.40	4,866.69
Financial assets measured at fair value through statement of Profit & Loss				
Investments (Quoted)	1,512.65	1,283.09	1,523.07	1,283.09
Financial liabilities				
Financial liabilities measured at amortised cost				
Trade payables	5,614.12	19,471.20	5,614.12	19,471.20
Borrowings (net of transaction cost)	2,15,315.27	1,05,079.60	2,15,315.27	1,05,079.60
Other financial liabilities	1,887.67	2,552.14	1,887.67	2,552.14
Financial liabilities measured at fair value through statement of Profit & Loss				
Other financial liabilities	40,760.96	35,778.03	40,760.96	35,778.03

The management assessed that the fair value of other financials assets, trade receivables, cash and cash equivalents, other bank balance, trade payables, borrowings and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The discount for lack of marketability represents the amounts that the Group has determined that market participants would take into account when pricing the investments.

Note 32 : Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) price in active market for identical assets or liabilities

Level 2: Valuation technique for which the lowest level input that has a significant effect on the fair value measurement are observed, either directly or indirectly.

Level 3: Valuation technique for which the lowest level input has a significant effect on the fair value measurement is not based on observable market data.

Quantitative disclosures fair value measurement hierarchy for financial instruments as at March 31, 2024:

(Rs in million)

	As on March 31, 2024	Fair value measurement at end of the reporting period using Level 1	Level 2	Level 3
Assets				
Investments (Quoted)	1,523.07	1,523.07	-	-
Liabilities				
Other financial liabilities	40,760.96	-	-	40,760.96

Quantitative disclosures fair value measurement hierarchy for financial instruments as at March 31, 2023:

(Rs in million)

	As on March 31, 2023	Fair value measurement at end of the reporting period using Level 1	Level 2	Level 3
Assets				
Investments (Quoted)	1,283.09	1,283.09	-	-
Liabilities				
Other financial liabilities	35,778.03	-	-	35,778.03

There has been no transfer between Level 1, Level 2 & Level 3 during the period.

Sensitivity: Higher probability by 5% and lower discount rate by 0.5% will decrease the fair value by Rs. 4,397.66 million (31st march 2023 - Rs. 4,166.87 million). Lower probability by 5% and higher discount rate by 0.5% will increase fair value by Rs.4,171.25 million (31st March 2023 - Rs. 3,946.06 million).

Fair value movement for Payable to IRB Infrastructure Developers Limited is as under:

(Rs in million)

	As at March 31, 2024	As at March 31, 2023
Opening balance as at 1st April 2023 (Previous period: 1st April 2022)	35,778.03	35,168.79
Add: Recognised during the period/ year	4,935.38	560.53
Less: Payment of deferred consideration	-	-
Add: Adjustment on account of interest unwinding	47.56	48.71
Closing balance of payable as on March 31, 2024 (Previous period: March 31, 2023)	**40,760.97**	**35,778.03**

Note 33 : Financial risk management objectives and policies

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.
The Board of Directors have overall responsibility for the establishment and oversight of the Group's risk management framework.
In performing its operating, investing and financing activities, the Group is exposed to the Credit risk, Liquidity risk and Currency risk.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, FVTOCI investments and derivative financial instruments.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate borrowings.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after excluding the credit

exposure on fixed rate borrowing. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

(Rs in million)

Particulars	As at March 31, 2024	As at March 31, 2023
If the interest rate is 50 basis point higher		
- Decreased by	956.04	339.69
- Increased by	-956.04	-339.69

Credit risk on financial assets

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Financial instruments

Credit risk from balances with banks, trade receivables, loans and advances and financial institutions is managed by the Group's management in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the top management on an annual basis, and may be updated throughout the year subject to approval of the Company's board of directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Trade receivables and Loans and Advances

Customer credit risk and Loans and advances is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. An impairment analysis is performed at each reporting date on an individual basis for major trade receivables and loan and advances. The Group has not identifed any impairment loss as at March 31, 2024.

The following table provides information about the ageing of gross carrying amount of trade recievables as at :

(Rs in million)

Gross Carrying Amount	**As at March 31, 2024**	**As at March 31, 2023**
Undisputed Trade recievables -considered		
Less than 6 months	-	33.02
6 months - 1 year	12.96	0.10
1-2 Years	33.02	29.37
2-3 Years	0.51	0.51
More than 3 years	21.66	21.66
Total	**68.15**	**84.67**

Other financial assets

Credit risk from balances with banks and financial institutions is managed by the Group in accordance with the Group's policy. Investments of surplus funds are made only in highly marketable debt instruments with appropriate maturities to optimise the cash return on instruments while ensuring sufficient liquidity to meet its liabilities.

Liquidity Risk

Liquidity risk is the risk that the group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including debt from banks at an optimised cost.

The table below summarises the maturity profile of the Trust's financial liabilities based on contractual undiscounted payments:

(Rs. in million)

As at March 31, 2024	**Carrying amount**	**Total**	**On Demand**	**Less than 1 year**	**1 to 5 years**	**> 5 years**
Borrowings (Gross of unamortised transaction cost)	2,19,268.95	2,19,268.95	0.02	1,178.91	37,618.23	1,80,471.79
Other financial liabilities	42,648.63	42,648.63	-	1,883.60	40,765.03	-
Trade payables	5,614.12	5,614.12	-	5,614.12	-	-
Total	**2,67,531.70**	**2,67,531.70**	**0.02**	**8,676.63**	**78,383.26**	**1,80,471.79**

(Rs. in million)

As at March 31, 2023	**Carrying amount**	**Total**	**On Demand**	**Less than 1 year**	**1 to 5 years**	**> 5 years**
Borrowings (Gross of unamortised transaction cost)	1,06,725.97	1,06,725.97	5,350.72	784.93	17,853.83	82,736.49

Trade payables	19,471.20	19,471.20	-	15,305.48	4,165.72	-
Total	**1,64,527.34**	**1,64,527.34**	**5,350.72**	**18,639.78**	**57,800.35**	**82,736.49**

Note 34 : Transfer of Projects

On April 7, 2022, the Trust has executed arrangement with the Sponsor for implementation of Palsit Dankuni Tollway Private Limited ('SPV') by the Trust and accordingly, the project is being executed by the SPV and the Trust.

On October 12, 2023, the Trust has executed arrangement with the Sponsor for implementation of Samakhiyali Tollway Private Limited ('SPV') by the Trust and accordingly, the project is being executed by the SPV and the Trust.

On July 29, 2023, the Trust has executed arrangement with the Sponsor for implementation of IRB Golconda Expressway Private Limited ('SPV') by the Trust and accordingly, the project is being executed by the SPV and the Trust.

Note 35 : Corporate Social Responsibility

(Rs. in million)

For the year ended March 31, 2024			
(a) Gross amount required to be spent by the Group during the period			15.97
(b) Amount spent during the period on:			
Particulars	**In Cash**	**Yet to be paid in**	**Total**
(i) Construction/acquisition of any asset	-	-	-
(ii) On purposes other than (i) above	16.10	-	16.10

For the year ended March 31, 2023			
(a) Gross amount required to be spent by the Group during the period			-
(b) Amount spent during the period on:			
Particulars	**In Cash**	**Yet to be paid in**	**Total**
(i) Construction/acquisition of any asset	-	-	-
(ii) On purposes other than (i) above	-	-	-

Note 36 : Capital Management

Capital includes equity attributable to the unitholders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise unitholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Project SPV Group may adjust the dividend payment to unitholders, return capital to unitholders or issue new units. No changes were made in the objectives, policies or processes during the year ended March 31, 2024.

The Group monitors capital using a gearing ratio, which is net debt divided by total equity. Net debt is calculated as loans and borrowings less cash and cash equivalents.

	As at March 31, 2024	**As at March 31, 2023**
Borrowings (Refer Note 16)	2,15,315.27	1,05,079.60
Less: cash and cash equivalents (Note 10)	(1,605.67)	(731.31)
Net debt	**2,13,709.60**	**1,04,348.29**
Equity (Note 13, 14 and 15)	1,34,367.83	77,533.53
Total equity	**1,34,367.83**	**77,533.53**
Capital and net debt	**3,48,077.43**	**1,81,881.82**
Gearing ratio (%)	159.05%	134.58%

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the lenders to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing borrowings in the current period.

Note 37 : Distribution made

(Rs in million)

	As at March 31, 2024	**As at March 31, 2023**
Distributed during the period as :		
Interest	449.55	-
Return of Capital	3,984.60	-
	4,434.15	-

Note: The Board of Directors of the Investment Manager have declared 1st Distribution of Rs.1.52 per unit which comprises of Rs.0.44 per unit as interest and Rs. 1.08 per unit as return of capital in their meeting held on October 25, 2023. Also, the Investment Manager have declared 2nd Distribution of Rs.2.82 per unit towards return of capital in their meeting held on January 25, 2024.

Note 38 : Revenue share / premium payment to NHAI

(a) During the period ended March 31, 2024, the Group has paid/accrued Rs. 7,546.06 millions (March 31, 2023, Rs. 5,671.70 millions) as Revenue Share (Additional Concession Fee) to National Highways Authority of India ("NHAI") out of its toll collection in accordance with the Concession Agreements entered with NHAI. Income from Operations in the financials for the above periods is net off the above Revenue Share to NHAI.

(b) During the year ended March 31, 2017, AE Tollway Limited (AETL) has entered into a Concession agreement (CA) with NHAI for a period of 24 years. As per the terms of the CA, AETL has agreed to pay a premium in the form of "Additional Concession Fee" equal to Rs. 810.00 millions for the first year and each subsequent year such premium shall be determined by increasing the amount of premium in the respective year by an additional 5% as compared to the immediately preceding year. Management based on the legal opinion obtained and their evaluations of the terms of the CA, believes that such premium payable is restricted to the toll collection during the year and is in the form of revenue sharing arrangement. Accordingly, the premium payable for the year is accounted for as revenue share. The said treatment has been followed in case of KGTL, UTL, CGTL and IRBHM where premium payment has commenced. Further, in case of IRB Hapur Moradabad Tollway Limited, at the time of refinancing, NHAI granted approval for refinancing subject to payment of premium not paid of earlier years. The SPV has paid the premium (INR 214 Million) to NHAI under protest and the same would be reconciled based on the outcome of Rajasthan projects which are of similar nature.

Note 39 : Details of Project management fees and Investment management fees

i) Project Management Fees

In accordance with the Project Implementation Agreements, the fees and remuneration payable by the Project SPVs to the Project Manager has been worked out and agreed upon for the duration of current financial year, between the Project Manager, Investment Manager and the respective Project SPV, on an arm's length basis, after taking into account the extent of work to be done in respect of maintenance and other services to be provided by the Project Manager to such Project SPV.

ii) Investment Management Fees

Pursuant to a resolution dated July 4, 2023 of the Board of Directors of the Investment Manager and a resolution dated July 27, 2023 of the Unitholders, the Management Fees have been revised to be equivalent to 110% of the cost incurred by the Investment Manager in connection with providing investment management services to the Trust including routine administrative and operational expenses (exclusive of any out of pocket expenses, reimbursements and taxes).

Note 40 : Income Tax

Reconciliation of tax expenses and the accounting of profit multiplied by Indian Domestic tax rate for the year ended March 31, 2024 and March 31, 2023 are:

(Rs in million)

	Year ended March 31, 2024	Year ended March 31, 2023
Profit Before tax	(7,837.98)	(2,304.47)
Tax rate	42.74%	42.74%
Expected income tax at India's statutory rate	(3,349.95)	(984.93)
Effect of unused tax losses and tax offsets not recognised as deferred tax assets	1,647.45	1,549.80
Difference in tax rate as per new regime as compared to normal tax rates	502.76	(259.63)
Additional Prior Period Taxes booked in current year for current tax of prior years	6.64	(9.25)
Adjustments recognised in the current year in relation to the Deferred tax of prior years	-	(339.00)
Others	5.27	10.13
Income tax expense reported in statement of Profit and loss	**(1187.83)**	**(32.88)**
Effective Tax Rate	**15.15%**	**1.43%**

Deferred tax reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years in accordance with Ind AS 12. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. The carry forward of unabsorbed depreciation & business loss and specific Ind AS related adjustments resulted into net deferred tax assets. The deferred tax asset is not recognized by the Group since there is no probable certainty that the same will be utilized in future against the taxable profit. The Group has an unabsorbed tax depreciation amounting to ` 1,62,545.71 lakhs as at March 31, 2023 (March 31, 2022: ` Nil) that are available for offsetting against future taxable profits for indefinite years.

No deferred tax assets have been recognised on losses incurred in SPV's(except for PDTPL) due to uncertainty of future taxable business income.

Note 41: Earnings Per Unit (EPU)

EPU amounts are calculated by dividing the profit for the year attributable to unit holders by the weighted average number of units outstanding during the year.

The following reflects the income and share data used in the EPU computations:

	Year ended March 31, 2024	Year ended March 31, 2023
Profit attributable to unit holders for earnings (Rs in million)	(6,650.15)	(2,271.59)
Weighted average number of Units for EPU	97,34,89,986	87,79,64,498
Earnings per unit		
Basic (in Rs.)	(6.83)	(2.59)
Diluted (in Rs.)	(6.83)	(2.59)

Note 42 : Segment reporting

The Group is engaged in setting up, operating, and managing of toll road assets in India. Based on the guiding principle given in Ind AS 108 "Operating Segments" all the activities of the Group fall within a single operating segment. Further, the entire operations of the Trust are only in India and hence, disclosure of secondary/ geographical segment information does not arise. Accordingly, giving disclosures under Ind AS 108 does not arise.

Note 43 : Subsequent Events

The Board of Directors of the Investment Manager have declared 3rd Distribution of Rs.0.24 per unit towards interest distribution in their meeting held on May 03, 2024.

Note 44 : Previous year comparatives

Previous year's figures has been reclassified / regrouped wherever necessary to confirm to current year classification. The impact of the same is not material to the user of the Consolidated financial statements.

Note 45 : Disclosure pursuant to Appendix - A to Ind AS 115 - " Service Concession Arrangements" ('SCA')

(A) Disclosures with regard to Toll Collection Rights (Intangible Assets)

INDEPENDENT AUDITOR'S REPORT

To the Unit Holders of IRB Infrastructure Trust

REPORT ON THE AUDIT OF THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

OPINION

We have audited the accompanying Consolidated Ind AS Financial Statements of IRB Infrastructure Trust ("the InvIT" or "the Trust") and its subsidiaries (the Trust and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows, the Consolidated Statement of Changes in Unit Holder's Equity for the year then ended and the Consolidated Statement of Net Assets at Fair value as at March 31, 2023, the Consolidated Statement of Total Returns at Fair Value and the consolidated statement of Net Distributable Cash Flows ('NDCFs') of the trust and each of the subsidiaries for the year then ended, and notes to the Consolidated Financial Statements including a Summary of Significant Accounting Policies and Other Explanatory Information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time including any guidelines and circulars issued thereunder (together referred to as the "SEBI lnvlT Regulations") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 ("Ind AS"), as amended and other accounting principles generally accepted in India, of the consolidated State of Affairs of the Group as at March 31, 2023, its Consolidated Loss and Total Comprehensive Loss, consolidated movement of the unit holders' funds and its consolidated cash flows for the year ended March 31, 2023, its consolidated Net Assets at fair value as at March 31, 2023, its consolidated total Returns at fair value and the Net Distributable Cash Flows ('NDCFs') of the trust and each of the subsidiaries for the year ended March 31, 2023.

BASIS FOR OPINION

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing ("SAs") issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated IND AS financial statements section of

our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the SEBI InvIT Regulations and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

PARTICULARS	HOW THEY WERE ADDRESSED IN OUR AUDIT
1. <u>Loss on fair value measurement of other payable / deferred consideration payable to IRB Group.</u> Pursuant to settlement of IRB Infrastructure Trust by IRB Infrastructure Developers Limited (Sponsor), as a Private INVIT, the Trust has entered into Debt Novation Agreements (DNA). As per the terms of DNA, in consideration of assets taken over in 9 SPVs, Trust has issued units and agreed to transfer to the Sponsor, the claim amounts when and to the extent the same are eventually received by Project SPVs, on account of Sponsor Claims. Such Sponsor Claims shall be lodged after obtaining COD by respective SPVs. The amount realizable against claims has been estimated by the valuers appointed by the Management based on the weighted average of probabilities of realization of such claims. Based on the fair value of liability as estimated by the valuers, a resultant impact in the value of liability has been recognized under the head 'Loss on fair value measurement of other payable'.	• We reviewed the Placement Memorandum filed with SEBI and the consequential legal documentation entered into by the Trust, including inter alia the Debt Novation Agreements and their reflection in the underlying SPVs. • We have reviewed the methodology adopted by the valuer in deriving the value including the assumptions made. • We assessed the estimates of Fair Value provided in the Valuation Report and realizability of claims as indicated therein. • We also reviewed the reasonableness of the variables applied in the said computation. • Based on the above, the fair value of liability to the Sponsor, as estimated by the valuer, taking into consideration the weighted average of probabilities of realization has been validated.
2. <u>Impairment Testing</u> The Group has toll collection rights as intangible assets pursuant to the concession agreement. The carrying value of these rights acquired under BOT basis is being compared to the recoverable value (which is value in use in the instant case) thereof to ascertain if there is any impairment.	• We evaluated management's assessment on impairment for intangible assets under development and intangible assets – toll collection rights by testing the assumptions and methodologies used by the Management.

tel.: (22) 43 48 42 42 | fax: (22) 43 48 42 41 | office@gokhalesathe.in

PARTICULARS	HOW THEY WERE ADDRESSED IN OUR AUDIT
The process involves estimating the value in use of the asset which is determined by forecasting and discounting future cash flows. The same is sensitive to changes in discount rate, traffic growth rates, toll growth rates etc. The determination of the recoverable amount of the toll collection right involves significant judgment due to inherent uncertainty in the assumptions supporting the recoverable amount of these rights. Accordingly, the evaluation of impairment of toll collection rights has been determined as a Key Audit Matter.	• Referred to valuation reports and Traffic Growth Study Reports and determined reasonableness of future toll revenue. • Evaluated the potential changes in major components as compared to previous year vis-à-vis actual performance in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable. • Assessed the appropriateness of the weighted average cost of capital used in determining recoverable amount. • Performed sensitivity analysis of key assumptions used in valuation. • Tested the arithmetical accuracy of the model.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Board of Directors of the Investment Manager is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Report of Investment Manager including annexures to Investment Manager's Report and other information as required to be given by SEBI InvIT Regulations but, does not include the Consolidated Financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE BOARD OF DIRECTORS OF INVESTMENT MANAGER FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Board of Directors of Investment Manager ('the Management') is responsible for the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position as at 31 March 2023, consolidated financial performance including other comprehensive income, consolidated movement of the unit holder's funds and consolidated cash flows for the year ended March 31, 2023, the consolidated net assets at fair value as at 31 March 2023, its consolidated total returns at fair value and the net distributable cash flow of the trust and each of its subsidiaries in

tel.: (22) 43 48 42 42 | fax: (22) 43 48 42 41 | office@gokhalesathe.in

accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified and/or any addendum thereto as defined in Rule 2(1)(a) of Companies (Indian Accounting Standards) Rules, 2015, as amended read with the Securities and Exchange Board of India (Infrastructure Investment Trusts)Regulation 2014 as amended from time to time including any guidelines and circulars issued thereunder (together referred to as the "InvIT Regulations").

The Board of Directors of Investment Manager and the respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the relevant laws for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls for ensuring the accuracy and completeness of accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud and error, which have been used for the purpose of preparation of the consolidated financial statements by the management of the trust, as aforesaid.

In preparing the Consolidated Financial Statements, the Board of Directors of Investment Manager and respective Board of Directors of the subsidiary companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of Investment Manager and respective Board of Directors of the subsidiary companies included in the Group either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors of the Investment Manager and the respective Board of Directors of the subsidiary companies included in the Group are also responsible for overseeing the financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate,

tel.: (22) 43 48 42 42 | fax: (22) 43 48 42 41 | office@gokhalesathe.in

they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also,

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Investment Manager.
- Conclude on the appropriateness of use of the going concern basis of accounting by the Board of Directors of Investment Manager and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors, to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For companies included in the consolidated financial statement, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a

tel.: (22) 43 48 42 42 | fax: (22) 43 48 42 41 | office@gokhalesathe.in

reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance of the trust included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the Key Audit Matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

We did not audit the Financial Statements and other financial information of 5 subsidiaries, whose Financial Statements reflect Total Assets of INR 1,13,238.70 Million, Net Assets of INR 35,029.67 Million as at 31 March 2023, Total Revenues of IINR 19,132.81 Million, Losses after taxes of INR 1,657.28 Million and Net Cash Inflow amounting to INR 201.07 Million for the year ended on 31 March 2023, as considered in the Consolidated Financial Statements before giving effect to elimination of intra-group transactions. These Financial Statements and other financial information have been audited by other auditor whose reports have been furnished to us by the Management and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of InvIT regulations, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditor.

Our opinion above, on the Consolidated Financial Statements, and our report on other legal and regulatory requirements below, is not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditor.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Based on our audit and as required by SEBI InvIT Regulations, we report that**:**

tel.: (22) 43 48 42 42 | fax: (22) 43 48 42 41 | office@gokhalesathe.in

a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.

b. The consolidated Balance Sheet, and the consolidated Statement of Profit and Loss including other comprehensive income dealt with by this report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements; and

c. In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards (Ind AS) and / or any addendum thereto as defined in Rule 2(1)(a) of Companies (Indian Accounting Standards) Rules, 2015, as amended.

11	**Net Distributable Cash Flows (C) = (A+B)**	**22.48**

The said funds are earmarked towards balance Capex.

IRB Infrastructure Trust
Notes to Consolidated Financial Statements for the year ended March 31, 2023

1 **Corporate Information**

The IRB Infrastructure Trust (the "Trust") is a trust settled pursuant to the indenture of trust dated August 27, 2019 which is registered under the Registration Act, 1908 and under the Securities Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time. The Trust is settled by the Sponsor, IRB Infrastructure Developers Limited ("IRB" or the "Sponsor"), an infrastructure development company in India. The Trustee to the Fund is IDBI Trusteeship Services Limited (the "Trustee"). Investment manager for the Trust is MMK Toll Road Private Limited (the "Investment Manager"). The Trust has received registraion certificate from SEBI on November 25, 2019.

The Trust has been formed to invest in infrastructure assets primarily being in the road sector in India. The Trust's road projects are eligible infrastructure projects under the InvIT Regulations and held through special purpose vehicles ("Project SPVs" together as "Project SPV Group"). The Trust's portfolio comprises of ten road projects as listed below:-

Project SPV Name**	Residual Concession life*	Proposed shareholding	Nature of Investment	Status	Principal Activities	Country of incorporation
IRB Westcoast Tollway Limited (IRBWTL)	18 years 11 Months 2 days	100%	Subsidiary	Tolling and Construction	Construction and operation of road including toll collection.	India
Solapur Yedeshi Tollway Limited (SYTL)	20 years 9 Months 21 days	100%	Subsidiary	Operating		India
Yedeshi Aurangabad Tollway Limited (YATL)	18 years 3 Months 1 days	100%	Subsidiary	Operating		India
Kaithal Tollway Limited (KTL)	19 years 3 Months 15 days	100%	Subsidiary	Operating		India
AE Tollway Limited (AETL)	17 years 4 Months 2 days	100%	Subsidiary	Operating		India
Udaipur Tollway Limited (UTL)	15 years 5 Months 4 days	100%	Subsidiary	Operating		India
CG Tollway Limited (CGTL)	14 years 7 Months 5 days	100%	Subsidiary	Operating		India
Kishangarh Gulabpura Tollway Limited (KGTL)	14 years 10 Months 22 days	100%	Subsidiary	Operating		India
IRB Hapur Moradabad Tollway Limited (IRBHMTL)	18 years 1 Months 25 days	100%	Subsidiary	Operating		India
Palsit Dankuni Tollway Private Limited (PDTPL) w.e.f 02.04.2022	16 years 0 Months 1 days	100%	Subsidiary	Tolling and Construction		India

* Represents residual concession life as at March 31, 2023 as per original concession period (without considering extension of concession period, if any).

** Of the above Project SPVs, IRBWTL, SYTL, YATL, AETL, CGTL, UTL and IRBHMTL have been converted to public companies on November 13, 2019 and KTLand KGTL on November 14, 2019 .

The registered office of the Investment Manager is Off No-11th Floor/1101 Hiranandani Knowledge Park, Technology Street, Hill Side Avenue, Powai Mumbai 400076.
The financial statements were authorised for issue in accordance with resolution passed by the board of directors of the Investment manager on May 12, 2023.
The Trust has been listed on NSE w.e.f. 03.04.2023.

2 **Basis of preparation**

A. Statement of compliance

The Consolidated Financial Statements of Project SPV Group comprises of Consolidated Balance Sheet as at March 31, 2023 and March 31, 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income) of the Project SPV group, the Consolidated Statement of Cash Flow Statement, the Consolidated Statement of Changes in Equity of the movement of the unit holders for the year ended March 31, 2023 and March 31, 2022, the consolidated statement of Net Assets at Fair Value as at March 31, 2023 and March 31, 2022 and the Consolidated Statement of Total Returns at Fair Value for the year ended March 31, 2023 and March 31, 2022, a summary of significant accounting policies, notes and other explanatory Information.

The Consolidated Financial Statements of the Project SPV Group have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Act, read with SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and the circulars issued thereunder ("InvIT Regulations") and other accounting principles generally accepted in India.The Consolidated Financial Statements have been prepared on a accrued and historical cost basis, except for certain assets and liabilities which have been measured at fair value.

The Consolidated Financial Statements are presented in Rs. in millions, except when otherwise indicated.Wherever the amount represented '0' (zero) construes value less than Rupees five thousand.

B Basis of preparation of Consolidated Financial Statements

The Consolidated Financial Statements comprise the Financial Statements of the Project SPV Group.

Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

The Financial Statements of all Project SPVs used for the purpose of consolidation are drawn up to the same reporting date i.e. year ended on March 31.
Consolidation procedure:

(a) Consolidate like items of assets, liabilities, equity, income, expenses and cash flows of Project SPVs.

(b) Eliminate in full intra Project SPVs assets and liabilities, income, expenses and cash flows relating to transactions between Project SPVs of the Project SPV Group (profits or losses resulting from intra Project SPV Group transactions that are recognised in assets, such as inventory and property, plant and equipment, are eliminated in full). Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Project SPV Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

3 **Summary of significant accounting policies**

3.01 **Current versus non-current classification**

The Project SPV Group has identified twelve months as its operating cycle. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

The Project SPV Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Project SPV Group classifies all other liabilities as non-current.
Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

3.02 **Use of estimates and judgements**

The preparation of the Project SPV Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

Estimates and assumptions

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and future periods are affected.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Project SPV Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Fair value measurement of financial instruments (refer note 31)

Provision for major maintenance (refer note 20)
Impairment of non financial assets (refer note 3.19)

3.03 **Business Combinations**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at fair value on acquisition date and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit.

Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods. Where goodwill has been allocated to a cashgenerating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

3.04 **Asset acquisition**

The acquisition of an asset or a group of assets that does not constitute a business. In such cases the acquirer shall identify and recognise the individual identifiable asset acquired including those assets that meet the definition of, and recognition criteria for, intangible asset in IND AS 38, Intangible Assets and Liabilities assumed. The cost of the group is allocated to the individual identifiable assets and liabilities on the basis of their relative fail values at the date of purchase. Such a transaction or event does not give rise to goodwill.

3.05 **Fair value measurement**

The Project SPV Group measures financial instruments, (refer note 31) at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Project SPV Group.
The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Project SPV Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
Level 3 -Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Project SPV Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Project SPV Group's Management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Project SPV Group's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

On an annual basis, the Management presents the valuation results to the Investment Manager and the Project SPV Group's independent auditors. This includes a discussion of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Project SPV Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.
Disclosures for valuation methods, significant estimates and assumptions (note 3.02)
Financial instruments (including those carried at amortised cost) (note 5,6,7,11,17,18,19,31)
Quantative disclosure of fair value measurement hierarchy (note 32)

3.06 **Revenue recognition**

The Project SPV Group has applied the following accounting policy for revenue recognition:

Revenue from contracts with customers:
The Project SPV Group recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:
Step 1. Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2. Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3. Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4. Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5. Recognise revenue when (or as) the entity satisfies a performance obligation.

The Project SPV Group satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:
1. The customer simultaneously receives and consumes the benefits provided by the Project SPV Group's performance as the Project SPV Group performs; or
2. The Project SPV Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
3. The Project SPV Group's performance does not create an asset with an alternative use to the Project SPV Group and the entity has an enforceable right to payment for performance completed to date.

Contract revenue
Contract revenue associated with the utility shifting incidental to construction of road are recognized as revenue by reference to the stage of completion of the projects at the balance sheet date. The stage of completion of project is determined by the proportion that contract cost incurred for work performed up to the balance sheet date bears to the estimated total contract costs. Project SPVs operations involve levying of GST on the construction work. Goods and Service tax is not received by the project SPVs on its own account, rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

Income from the concession arrangements earned under the intangible asset model consists of the (i) fair value of contract revenue, which is deemed to be fair value of consideration transferred to acquire the asset; and (ii) payments actually received from the users. The intangible asset is amortised over its expected useful life in a way that reflects the pattern in which the asset’s economic benefits are consumed by the Project SPV Group, starting from the date when the right to operate starts to be used. Based on these principles, the intangible asset is amortised in line with the actual usage of the specific public utility facility, with a maximum of the duration of the concession.

Income from toll contracts
The income from Toll Contracts on BOT basis are recognised on actual collection of toll revenue (net of Premium and revenue share payable to NHAI) as per Concession Agreement. Revenue from electronic toll collection is recognised on accrual basis.

Interest income
For all financial assets measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Project SPV Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

Dividends
Revenue is recognised when the Project SPV Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

Trade receivables
A receivable represents the Project SPV Group’s right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due.

3.07 **Government Grants**
Grants and subsidies from the government are recognised if the following conditions are satisfied.

There is reasonable assurance that the Project SPV Group will comply with the conditions attached to it.
Such benefits are earned and reasonable certainty exists of the collection.
Government grants are recognised in accordance with the terms of the respective grant on accrual basis considering the status of compliance of prescribed conditions and ascertainment that the grant will be received.
Grant received are considered as a part of the total outlay of the construction project and accordingly, the same is reduced from the gross value of assets.

3.08 **Taxes**

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the country where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction. affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity .

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognised in the consolidated statement of profit and loss. Deferred tax is recognised in consolidated statement of profit and loss on the consolidated adjustments.

Minimum Alternate Tax (MAT)

Minimum Alternate Tax (MAT) paid as per Indian Income Tax Act, 1961 is in the nature of unused tax credit which can be carried forward and utilised when the Project SPV Group will pay normal income tax during the specified period. Being DTA tax credit is recognised to the extent that it is probable that the unused tax credit can be utilised in the specified future period. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Goods and service tax paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of goods and service tax paid, except:
When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

When receivables and payables are stated with the amount of tax included. The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet.

3.09 **Property, plant and equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment losses if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.Any trade discount or rebates are deducted in arriving at the purchase price.

Depreciation is calculated on written down value method (WDV) using the useful lives as prescribed under the Schedule II to the Companies Act, 2013 or re-assessed by the Project SPV Group based on technical evaluation. The Project SPV Group has estimated the following useful lives for its tangible fixed assets:

Asset class	Useful life
Building	30 years*
Office equipment	5 years
Computers	3 years
Furniture & fixtures	10 years

* The useful life of building has been calculated by management as per their technical estimate.

3.10 **Intangible assets**

The Project SPV Group exercised first time adoption under Ind AS 101 and has elected to continue with the carrying value of its “Toll Collection Rights” (Intangible Assets) including corresponding obligation, as recognised in the financial statements as at the date of transition April 1, 2016 measured as per the Previous GAAP and uses that as its deemed cost as at date of transition.

Toll collection rights are stated at cost, less accumulated amortisation , impairment losses and grant from government. Cost includes:
a) For acquired Toll Collection Rights - Upfront payments towards acquisition and incidental expenses related thereto.
b) Toll Collection Rights awarded by the grantor against construction service rendered by the Project SPV Group on BOT / DBFOT basis - Direct and indirect expenses on construction of roads, bridges, culverts, infrastructure and other assets at the toll plazas.

c) Toll Collection Rights in lieu of premium - Undiscounted premium obligation over the concession period.

Amortisation

Toll Collection Rights are amortised over the period of concession, using revenue based amortisation as prescribed in Ind As-36. Under this method, the carrying value of the rights is amortised in the proportion of actual toll revenue for the year to projected revenue for the balance toll period, to reflect the pattern in which the assets economic benefits will be consumed. At each balance sheet date, the projected revenue for the balance toll period is reviewed by the management. If there is any change in the projected revenue from previous estimates, the amortisation of toll collection rights is changed prospectively to reflect any changes in the estimates.

Intangible assets under development

Expenditure related to and incurred during implementation of project are included under "Intangible Assets under Development". The same will be transferred to the respective intangible assets on completion of project.

3.11 **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences between the foreign currency borrowing and the functional currency borrowing to the extent regarded as an adjustment to the borrowing costs.

3.12 **Leases**

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Project SPV Group as a lessee

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Project SPV Group will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Project SPV Group is classified as a finance lease.

Operating lease payments are recognised as an expense in the consolidated statement of profit and loss on a straight-line basis over the lease term.

Ind AS 116 - Leases

Ind AS 116, Leases, it sets out principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases, except short-term leases and leases for low-value items, under a single on-balance sheet lease accounting model. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. Lessor accounting largely unchanged from the existing standard – i.e. lessors continue to classify leases as finance or operating leases.

Based on the preliminary assessment, the Company does not expect any significant impacts on transition to Ind AS 116. This assessment is based on currently available information and may be subject to changes arising from further reasonable and supportable information when the standard will be adopted.

Project SPV Group as a lessor

Leases in which the Project SPV Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Project SPV Group to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Project SPV Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

3.13 **Provisions**

Provisions are recognised when the Project SPV Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Project SPV Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3.14 **Resurfacing expenses**

As per the Concession Agreements, the Project SPV Group is obligated to carry out resurfacing of the roads under concession. Provision required for resurfacing expenses are measured at the present value of the expenditure required to settle the present obligation at the end of reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects risks specific to the liability. The increase in the provision due to the passage of time is recognised as finance cost. Provision for the planned expenditure is made for the period upto end of the period for which periodic maintenance is required, out of the total entitiled period.The same is stated in the consolidated statement of profit and loss in accordance with Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets."

3.15 **Contingent liability and Contingent assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Project SPV Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Project SPV Group does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent assets is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements.

Contingent liabilities and contingent assets are reviewed at each balance sheet date.

3.16 **Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through statement of profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

On initial recognistion, a financial asset is classified as measured of
- amortised cost
- FVOCI - Debt instruments
- FVOCI - equity instruments
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the year, the Project SPV Group changes its business model for managing financial assets.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:
- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Project SPV Group recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of profit and loss.Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as at FVTOCI, is classified as at FVTPL.

In addition, the Project SPV Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Project SPV Group has designated certain debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Project SPV Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Project SPV Group makes such election on an instrument-byinstrument basis. The classification is made on initial recognition and is irrevocable.

If the Project SPV Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Project SPV Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Project SPV Group of similar financial assets) is primarily derecognised (i.e. removed from the Project SPV Group's consolidated balance sheet) when:

- The rights to receive cash flows from the asset has expired, or
-The Project SPV Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Project SPV Group has transferred substantially all the risks and rewards of the asset, or (b) the Project SPV Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Project SPV Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Project SPV Group continues to recognise the transferred asset to the extent of the Project SPV Group's continuing involvement. In that case, the Project SPV Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Project SPV Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Project SPV Group could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Project SPV Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

-Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
-Financial assets that are debt instruments and are measured as at FVTOCI
-Lease receivables under Ind AS 17
-Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18 (referred to as contractual revenue receivables' in these financial statements)

-Loan commitments which are not measured as at FVTPL
-Financial guarantee contracts which are not measured as at FVTPL

The Project SPV Group follows 'simplified approach' for recognition of impairment loss allowance on:
-Trade receivables; and
-Other receivables

The application of simplified approach does not require the Project SPV Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Project SPV Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Project SPV Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

-All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument. -

-Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms
-Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Project SPV Group does not reduce impairment allowance from the gross carrying amount.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through Statement of profit and loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.
The Project SPV Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through Statement of profit and loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through statement of profit and loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Project SPV Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the consolidated statement of profit and loss.

Loans and borrowings

This is the category most relevant to the Project SPV Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings. For more information refer note 16.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.17 **Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprises of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Project SPV Group's cash management.

3.18 **Cash dividend to equity holders of the Project SPV Group**

The Project SPV Group recognises a liability to make cash or non-cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Project SPV Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

3.19 **Impairment of non-financial assets**

The Project SPV Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Project SPV Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset. unless the asset does not generate cash inflows that are largely independent of those from other assets or Project SPV Group's of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Project SPV Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Project SPV Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Project SPV Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Project SPV Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss.

Goodwill is tested for impairment annually as at 31 March and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or Project SPV Group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible assets with indefinite useful lives are tested for impairment annually as at 31 March at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

3.20 **Segment information**

Based on "Management Approach" as defined in Ind AS 108 - Operating Segments, the Management ("the Board of Directors") evaluates the Project SPV Group's performance and allocates the resources based on an analysis of various performance indicators by business segments. Inter segment sales and transfers are reflected at market prices.

Unallocable items includes general corporate income and expense items which are not allocated to any business segment.

Segment policies:

Based on "Management Approach" as defined in Ind AS 108 -Operating Segments, the Management evaluates the Project SPV Group's performance and allocates the resources based on an analysis of various performance indicators by business segments. Inter segment sales and transfers are reflected at market prices.

Unallocable items includes general corporate income and expense items which are not allocated to any business segment.

The Project SPV Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Project SPV Group as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

3.21 **Earnings per unit**

Basic earnings per unit are calculated by dividing the net profit or loss for the period attributable to unitholders by the weighted average number of units outstanding during the period. For the purpose of calculating diluted earnings per unit, the net profit or loss for the period attributable to unitholders and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

3.22 **Foreign currencies**

The Trust's financial statements are presented in INR, which is also the Trust's functional currency. The Trust does not have any foreign operation and has assessed the functional currency to be INR.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Trust at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.
Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.
Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

3.23 **Recent pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

Ind AS 1: Disclosure of Material Accounting policy information and similar consequential amendment to Ind AS 34.
Ind AS 1: Disclosure of the judgements, apart from those involving estimations, that management has made in the process of applying the entity's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.
Ind AS 8: Definition of Accounting Estimate as "Accounting estimates are monetary amounts in financial statements that are subject to measurement uncertainty". Further amendments to paragraphs delineating Changes to Accounting Estimates.
Ind AS 12: Amendments to taxable temporary difference, initial recognition of asset or liability and Deductible taxable differences.
Ind AS 12: Deferred tax related to assets and liabilities arising from Single Transaction.
Ind AS 107: Information about measurement basis (or bases) for financial instruments to be disclosed as material accounting policy.
Ind AS 109: Amendment to paragraph on reassessment of embedded derivative.
Ind AS 115: Amendments to Appendix 1 which gives there in the major differences, if any, between Indian Accounting Standard (Ind AS) 115 and the corresponding International Financial Reporting Standard (IFRS) 15, Revenue from Contracts with Customers, IFRIC 12, Service Concession Arrangements and SIC 29 Service Concession Arrangements: Disclosures, issued by the International Accounting Standards Board

Based on the preliminary assessment, the company does not expect these amendment to have any significant impact on its consolidated financial statements.

Debt service reserve account/ major maintenance reserve account and trust, retention and other escrow accounts

Bank deposits are marked lien / pledged against the non current secured loan as per term loan agreement with the lender, further the lenders have first charge on trust, retention and other escrow accounts.

* First charge on above to the extent of amount payable as per the waterfall mechanism as defined in the Concession Agreement / Common Loan Agreement.

** The deposits to the extent of Rs. 3,459.60 millions (March 31, 2022 : Rs. 2,365.43 millions) maintained by the Project SPV Group with bank includes time deposits, which are held against Debt Service Reserve (DSR), are considered as current portion under the head "Other bank balances" since the same are encashable by the lenders in the event of default by the Project SPV Group, if any.

Current deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the group and earn interest at the respective current deposit rates. Other time deposits earn interest at the rate of 4.70% to 7.95% p.a.

Refer note 16 for details of security against term loans.

(i) Project loans for SPVs

March 31, 2023: Rs.1,01,369.83 millions; March 31, 2022: Rs. 94,124.22 millions; pertains to term loans taken by SPV's (Special Purpose Vehicles) for Project financing.

Rate of interest

Rate of interest on the Indian Rupee loan from banks and financial institutions varies from 7.75% to 10.75% p.a. (March 31, 2022: 8.25% to 10.40% p.a.) and are secured by pledge of shares of its subsidiaries and subservient charge on the current assets of the company to the extent of 125% of the outstanding loan.

Nature of security

i) Secured by first charge on the movable/immovable asset by way of mortgage/hypothecation; first charge on all intangible assets, present and future; assignment of all receivables; book debts and all rights and interest in project, both present and future, excluding the Project Assets of respective companies;

ii) Secured by first charge on the Escrow Account, Debt Service Reserve Account and any other reserves and other bank accounts of the respective Companies.

iii) An irrevocable and unconditional corporate guarantee from IRB Infrastructure Developers Limited to meet shortfall (if any) between debt due and termination payments received from Concessioning Authority in case of termination of Concession Agreement for any reason in case of Project SPV's.

Repayment terms

The Indian rupee loans are repayable in structured monthly installments commencing after commercial operation date such that the total tenor does not exceed 17 years and repayable as per the repayment schedule specified in common loan agreement with the Lenders.

UTL, CGTL and KGTL have filed Writ petition with Hon'ble Rajasthan High Court with prayer to commence payment of Premium to National Highways Authority of India (NHAI) six months post actual completion of the project construction work. The Hon'ble High Court prima facie agreed with the contention of these companies and had provided interim relief from payment of premium. Vide judgement order dated 25th August, 2021, the Hon'ble High Court found merit in the contention of the companies and has directed the parties to resolve the dispute under Arbitration. The said matter is currently pending under Arbitration.
During the year premium payment to NHAI has been commenced in IRBHM and KGTL.

Note 29 : Trade payable

Under the Micro, Small and Medium Enterprises Development Act, 2006 ('MSMED') which came into force from 2 October 2006, certain disclosures are required to be made relating to Micro, Small and Medium enterprises. On the basis or the informntion and records available with the management, there are no overdue amount to the Micro and Small enterprises as defined in the Micro, Small Medium Enterprises Development Act, 2006 as set out in the following disclosures:

The disclosure in respect of the amount payable to enterprises which have provided goods and services to the Group and which qualify under the definition of micro and small enterprises, as defined under Micro, Small and Medium Enterprises Development Act, 2006 has been made in the consolidated financial statement as at March 31, 2023 based on the information received and available with the Group.

Particulars	March 31, 2023	March 31, 2022
Principal amount remaining unpaid to any supplier as at the period end	1.61	3.69
Interest due thereon	-	-
Amount of interest paid by the Company in terms of section 16 of the MSMED, along with the amount of the payment made to the supplier beyond the appointed day during the accounting period.	-	-
Amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the period) but without adding the interest specified under the MSMED, 2006	-	-
Amount of interest accrued and remaining unpaid at the end of the accounting period	-	-
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under the MSMED Act, 2006	-	-

a) MSME ageing schedule as at

Particulars	March 31, 2023	March 31, 2022
MSME Undisputed Dues	-	-
Less than 1 year	1.61	3.69
1-2 Years	-	-
2-3 Years	-	-
More than 3 years	-	-
Total dues to micro and small enterprises as per MSMED Act, 2006	**1.61**	**3.69**

There are no disputed dues to micro and small enterprises as per MSMED Act, 2006. The amounts payable to MSME are not due for payments.

b) Ageing of creditors other than micro enterprises and small enterprises as at

Particulars	March 31, 2023	March 31, 2022
Undisputed Dues		
Less than 1 year	7,438.37	13,369.16
1-2 Years	9,433.59	3,808.21
2-3 Years	2,559.45	12.82
More than 3 years	38.18	23.32
Total dues to creditors other than micro enterprises and small enterprises as at	**19,469.59**	**17,213.50**

There are no disputed dues to creditors other than micro enterprises and small enterprises.

c) out of the above unbilled amount	2,660.17	3,191.66

Note 30 : Intangble Asset under development ageing schedule

1-2 Years	54.59	59.90
2-3 Years	27.11	175.24
More than 3 years		-
Total	**2,421.67**	**1,290.89**

b) Intangible asset under development

Particulars	March 31, 2023	March 31, 2022
To be completed in		
Less than 1 year	2,421.67	1,290.89
1-2 Years	-	-
2-3 Years	-	-
More than 3 years	-	-
Total	**2,421.67**	**1,290.89**

Note 31 : Fair values

The carrying values of financials instruments of the Group are reasonable and approximations of fair values.

	Carrying amount		Fair Value	
	March 31, 2023	**March 31, 2022**	**March 31, 2023**	**March 31, 2022**
Financial assets				
Financial assets measured at amortised cost				
Loans	-	-	-	-
Other Financial assets	1,448.89	1,606.92	1,448.89	1,606.92
Financial assets measured at fair value through statement of Profit & Loss				
Investments (Quoted)	1,283.09	659.54	1,283.09	659.54
Financial assets measured at amortised cost				
Investments (Unquoted)	-	-	-	-
Trade receivable	84.67	51.55	84.67	51.55
Cash and cash equivalents	731.31	287.23	731.31	287.23
Other Bank balances	4,866.69	2,469.97	4,866.69	2,469.97
Financial liabilities				
Financial liabilities measured at amortised cost				
Trade payables	19,471.20	17,217.19	19,471.20	17,217.19
Borrowings	1,05,079.60	97,279.00	1,05,079.60	97,279.00
Other financial liabilities	38,330.17	38,191.92	38,330.17	38,191.92

The management assessed that the fair value of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The discount for lack of marketability represents the amounts that the Group has determined that market participants would take into account when pricing the investments.

Note 32 : Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) price in active market for identical assets or liabilities

Level 2: Valuation technique for which the lowest level input that has a significant effect on the fair value measurement are observed, either directly or indirectly

Level 3: Valuation technique for which the lowest level input has a significant effect on the fair value measurement is not based on observable market data.

Quantitative disclosures fair value measurement hierarchy for financial instruments as at March 31, 2023:

Other financial liabilities	**38,191.92**	-	-	38,191.92

There has been no transfer between Level 1, Level 2 & Level 3 during the year.

Note 33 : Financial risk management objectives and policies

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Board of Directors have overall responsibility for the establishment and oversight of the Group's risk management framework.

In performing its operating, investing and financing activities, the Group is exposed to the Credit risk, Liquidity risk and Currency risk.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, FVTOCI investments and derivative financial instruments.

Credit risk on financial assets
Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Financial instruments
Credit risk from balances with banks, trade receivables, loans and advances and financial institutions is managed by the Group's management in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the top management on an annual basis, and may be updated throughout the year subject to approval of the Company's board of directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Trade receivables and Loans and Advances
Customer credit risk and Loans and advances is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. An impairment analysis is performed at each reporting date on an individual basis for major trade receivables and loan and advances. The Group has not identifed any impairment loss as at March 31, 2023.

The following table provides information about the ageing of gross carrying amount of trade recievables as at :

(Rs in millions)

Gross Carrying Amount	**March 31, 2023**	**March 31, 2022**
Undisputed Trade recievables -		-
Less than 6 months	33.02	-
6 months - 1 year	0.10	29.37
1-2 Years	29.37	0.51
2-3 Years	0.51	21.66
More than 3 years	21.66	
Total	**84.67**	**51.55**

Other financial assets
Credit risk from balances with banks and financial institutions is managed by the Group in accordance with the Group's policy. Investments of surplus funds are made only in highly marketable debt instruments with appropriate maturities to optimise the cash return on instruments while ensuring sufficient liquidity to meet its liabilities.

Interest rate risk
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The

Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate borrowings.

Interest rate sensitivity
The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after excluding the credit exposure on fixed rate borrowing. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

(Rs in millions)

	Borrowings	Fixed Deposits	Borrowings	Fixed Deposits
Balance of Fixed Deposit and Borrowings	March 31, 2023		March 31, 2022	
- INR Millions	1,01,369.82	4,866.69	94,124.22	2,469.97
Increase in basis points - INR	50 bps	50 bps	50 bps	50 bps
Effect on profit before tax - INR Millions	(506.85)	24.33	(470.62)	12.35
Decrease in basis points - INR	50 bps	50 bps	50 bps	50 bps
Effect on profit before tax - INR Millions	506.85	(24.33)	470.62	(12.35)

Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including debt from banks at an optimised cost.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

As at March 31, 2023	Carrying amt	Total	On Demand	Less than 1 year	1 to 5 years	> 5 years
Long term Borrowings (Gross of unamortised transaction cost)	1,06,725.97	1,06,725.97	5,350.72	784.93	17,853.83	82,736.49

Note 35 : Capital management

Capital includes equity attributable to the unitholders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise unitholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Project SPV Group may adjust the dividend payment to unitholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the year ended March 31, 2023.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Net debt is calculated as loans and borrowings less cash and cash equivalents.

	March 31, 2023	March 31, 2022
Borrowings	1,05,079.60	97,279.00
Less: cash and cash equivalents (Note 10)	(731.31)	(287.23)
Net debt	1,04,348.29	96,991.77
Equity (Note 14 and 15)	77,533.53	77,396.04
Total equity	77,533.53	77,396.04
Capital and net debt	1,81,881.82	1,74,387.81
Gearing ratio (%)	57.37%	55.62%

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing borrowings in the current period.

Note 36: Details of Project management fees and Investment management fees

Details of fees paid to project manager and investment manager as required pursuant to SEBI Circular No, CIRIMD/DFIl27i2016, dated November 29,2016 are as under:

i) Project Management Fees

In accordance with the Project Implementation Agreements, the fees and remuneration payable by the Project SPVs to the Project Manager has been worked out and agreed upon for the duration of current financial year, between the Project Manager, Investment Manager and the respective Project SPV, on an arm's length basis, after taking into account the extent of work to be done in respect of maintenance and other services to be provided by the Project Manager to such Project SPV.

ii) Investment Management Fees

Pursuant to the terms of the Investment Management Agreement, the fees will be paid to the Investment Manager for the services provided by it (“Management Fees”). The Management Fees have been revised for the Financial Year with the approval of the Unitholders, where the votes cast by Unitholders so entitled and voting in favor of a resolution are not less than one-and-a-half times the votes cast against such resolution. Pursuant to a resolution of the Unitholders, the Management Fees for the Financial Year 2023 has been revised to Rs.47.70 millions

Note 37: Revenue share / premium payment to NHAI

(a) During the year ended March 31, 2023, the Group has paid/accrued Rs. 5,671.70 millions (March 31, 2022, Rs. 1,779.36 millions) as Revenue Share to National Highways Authority of India ("NHAI") out of its toll collection in accordance with the Concession Agreements entered with NHAI. Income from Operations in the financials for the above periods is net off the above Revenue Share to NHAI.

(b) During the year ended March 31, 2017, AE Tollway Limited (AETL) has entered into a Concession agreement (CA) with NHAI for a period of 24 years. As per the terms of the CA, AETL has agreed to pay a premium in the form of "Additional Concession Fee" equal to Rs. 810.00 millions for the first year and each subsequent year such premium shall be determined by increasing the amount of premium in the respective year by an additional 5% as compared to the immediately preceding year. Management based on the legal opinion obtained and their evaluations of the terms of the CA, believes that such premium payable is restricted to the toll collection during the year and is in the form of revenue sharing arrangement. Accordingly, the premium payable for the year is accounted for as revenue share. The said treatment has been followed in case of KGTL and IRBHM where premium payment has commenced during the current year.

Note 38: Grant from Government Authorities

As per Article 25 of the respective Concession Agreement with the National Highways Authority of India ('NHAI' or 'the Grantor'), the Concessionaires are entitled to receive Grant for meeting the part of the project cost subject to the conditions laid down in the concession agreement. The details are as under:

(Rs in millions)

Name of the Company	Eligible for Grant	Grant received in FY 2016-17	Grant received in FY 2017-18	Grant received in FY 2018-19	Grant yet to be received
SYTL	1,890.00	1,391.70	403.80	**94.50**	-
KTL	2,340.00	1,533.79	806.21	**-**	-
YATL	5,580.00	-	4,230.24	**1,349.76**	-
IRBWTL	5,362.20	4,512.30	-	**849.90**	-
Total	**15,172.20**	**7,437.79**	**5,440.25**	**2,294.16**	**-**

Note 39 : Events after reporting period

The Trust has been listed on NSE from April 3, 2023.

Note 40: Information on segment reporting pursuant to Ind AS 108 - Operating Segments

The Project SPV Group has identified business segment in accordance with Indian Accounting Standard 108 "Operating Segment" notified under section 133 of the Companies Act 2013, read together with relevant rules issued thereunder. The Group has identified Built, Operate and Transfer ('BOT') as its single reportable segment. Moreover the Group's activities are restricted within India and hence no separate geographical segment disclosure is considered necessary.

INDEPENDENT AUDITOR'S REPORT
To the Unit Holders of IRB Infrastructure Trust
REPORT ON THE AUDIT OF THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

OPINION

We have audited the accompanying Consolidated Ind AS Financial Statements of IRB Infrastructure Trust ("the InvIT" or "the Trust") and its subsidiaries (the Trust and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31 March 2022, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flows, the Consolidated Statement of Changes in Unit Holder's Equity and the Consolidated Statement of Total Returns at Fair Value for the year ended 31 March 2022, the Consolidated Statement of Net Assets at Fair value as at 31 March 2022 and notes to the Consolidated Financial Statements including a Summary of Significant Accounting Policies and Other Explanatory Information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time including any guidelines and circulars issued thereunder (together referred to as the "SEBI lnvlT Regulations") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 ("Ind AS"), as amended and other accounting principles generally accepted in India, of the consolidated State of Affairs of the Group as at 31 March 2022, its consolidated Loss including other comprehensive income, its consolidated Cash Flows, consolidated changes in Unit Holders' Equity, the consolidated total Returns at fair value for the year ended 31 March 2022 and the consolidated Net Assets at fair value as at 31 March 2022.

BASIS FOR OPINION

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing ("SAs") issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the SEBI InvIT Regulations and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

PARTICULARS	HOW THEY WERE ADDRESSED IN OUR AUDIT
1. Loss on fair value measurement of other payable / deferred consideration payable to IRB Group. Pursuant to settlement of IRB Infrastructure Trust by IRB Infrastructure Developers Limited (Sponsor), as a Private INVIT, the Trust has entered into Debt Novation Agreements (DNA). As per the terms of DNA, in consideration of assets taken over in 9 SPVs, Trust has issued units and agreed to transfer to the Sponsor, the claim amounts when and to the extent the same are eventually received by Project SPVs, on account of Sponsor Claims. Such Sponsor Claims shall be lodged after obtaining COD by respective SPVs. The amount realizable against claims has been estimated by the valuers appointed by the Management based on the weighted average of probabilities of realization of such claims. Based on the fair value of liability as estimated by the valuers, a resultant impact in the value of liability has been recognized under the head 'Loss on fair value measurement of other payable'.	• We reviewed the Placement Memorandum filed with SEBI and the consequential legal documentation entered into by the Trust, including inter alia the Debt Novation Agreements and their reflection in the underlying SPVs. • We have reviewed the methodology adopted by the valuer in deriving the value including the assumptions made. • We assessed the estimates of Fair Value provided in the Valuation Report and realizability of claims as indicated therein. • We also reviewed the reasonableness of the variables applied in the said computation. • Based on the above, the fair value of liability to the Sponsor, as estimated by the valuer, taking into consideration the weighted average of probabilities of realization has been validated.
2. Impairment Testing The Group has toll collection rights as intangible assets pursuant to the concession agreement. The carrying value of these rights acquired under BOT basis is being compared to the recoverable value (which is value in use in the instant case) thereof to ascertain if there is any impairment. The process involves estimating the value in use of the asset which is determined by forecasting and discounting future cash flows. The same is sensitive to changes in discount rate, traffic growth rates, toll growth rates etc. The determination of the recoverable amount of the toll collection right involves significant judgment due to inherent uncertainty in the assumptions supporting the recoverable amount of these rights.	• We evaluated management's assessment on impairment for intangible assets under development and intangible assets – toll collection rights by testing the assumptions and methodologies used by the Management. • Referred to valuation reports and Traffic Growth Study Reports and determined reasonableness of future toll revenue. • Evaluated the potential changes in major components as compared to previous year vis-à-vis actual performance in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable. • Assessed the appropriateness of the weighted average cost of capital used in determining

PARTICULARS	HOW THEY WERE ADDRESSED IN OUR AUDIT
Accordingly, the evaluation of impairment of toll collection rights has been determined as a Key Audit Matter.	recoverable amount. • Performed sensitivity analysis of key assumptions used in valuation. • Tested the arithmetical accuracy of the model.
3. Cost Overrun We have been informed that, since April 2020, Due to pandemic situation, construction of certain projects have been affected and delayed, which has resulted into additional costs to projects in relation to machinery idling, labor expenses, material prices, restoration of damaged works etc. Considering above, SPVs have been charged with such additional costs. We were further informed that SPVs will raise claim with NHAI in this regard which shall, repay the costs immediately upon receipt of claims. Based on nature of transactions, the same are considered to be Key Audit Matter.	• We perused the legal opinion obtained in an earlier matter in case of one of the project SPVs, IRB WC, over similar issue to understand the tenability of the claims to be filed with the Authority. • We reviewed addendum to the Project Implementation Agreement. • We also referred to the invoices raised on the SPVs. • Tested the arithmetical accuracy of fair valuation of trade payables towards Cost Overrun.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Board of Directors of the Investment Manager is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Report of Investment Manager including annexures to Investment Manager's Report and other information as required to be given by SEBI InvIT Regulations but, does not include the Consolidated Financial Statements and our report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE BOARD OF DIRECTORS OF INVESTMENT MANAGER FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Board of Directors of Investment Manager is responsible for the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position as at 31 March 2022, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in unit holder's equity and the consolidated total returns at fair value for the year ended 31

March 2022, the consolidated net assets at fair value as at 31 March 2022 in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Rule 2(1)(a) of Companies (Indian Accounting Standards) Rules, 2015, as amended and relevant rules issued thereunder read with read with the SEBI InvIT Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the SEBI InvIT Regulations for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls for ensuring the accuracy and completeness of accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud and error.

In preparing the Consolidated Financial Statements, the Board of Directors of Investment Manager and respective Board of Directors of the subsidiary companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of Investment Manager and respective Board of Directors of the subsidiary companies included in the Group either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors of the Investment Manager and the respective Board of Directors of the subsidiary companies included in the Group are also responsible for overseeing the financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also,

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

tel.: (22) 43 48 42 42 | fax: (22) 43 48 42 41 | office@gokhalesathe.in

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Investment Manager.

- Conclude on the appropriateness of use of the going concern basis of accounting by the Board of Directors of Investment Manager and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entities included in the Consolidated Financial Statements.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the Key Audit Matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

tel.: (22) 43 48 42 42 | fax: (22) 43 48 42 41 | office@gokhalesathe.in

We did not audit the Financial Statements of 4 subsidiaries, whose Financial Statements reflect Total Assets of Rs. 1,01,778.62 million and Net Assets of Rs. 34261.74 million as at 31 March 2022, Total Revenues of Rs. 4,936.64 million, Losses after taxes of Rs. 3944.85 million and Net Cash Outflows amounting to Rs. 25.66 million for the year ended on 31 March 2022, as considered in the Consolidated Financial Statements. These Financial Statements have been audited by other auditor whose reports have been furnished to us by the Investment Manager and our opinion on the Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on the reports of the other auditor.

Our opinion above, on the Consolidated Financial Statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditor.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Based on our audit and as required by SEBI InvIT Regulations, we report that**:**

a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.

b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept by the Trust so far as it appears from our examination of those books and the reports of the other auditors.

c. The consolidated Balance Sheet, the consolidated Statement of Profit and Loss, the consolidated Statement of Cash Flows, the consolidated Statement of Changes in Unit Holders' Equity, the consolidated Statement of Net Assets at fair value and the consolidated Statement of Total Returns at fair value are in agreement with the books of account.

d. In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Rule 2(1)(a) of Companies (Indian Accounting Standards) Rules, 2015, as amended.

IRB Infrastructure Trust
Notes to Consolidated Financial Statements for the year ended March 31, 2022

1 **Corporate Information**

The IRB Infrastructure Trust (the "Fund" / "Trust") is a trust settled pursuant to the indenture of trust dated August 27, 2019 which is registered under the Registration Act, 1908 and under the Securities Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time. The Fund is settled by the Sponsor, IRB Infrastructure Developers Limited ("IRB" or the "Sponsor"), an infrastructure development company in India. The Trustee to the Fund is IDBI Trusteeship Services Limited (the "Trustee"). Investment manager for the Fund is MMK Toll Road Private Limited (the "Investment Manager"). The Trust has received registraion certificate from SEBI on November 25, 2019.

The Fund has been formed to invest in infrastructure assets primarily being in the road sector in India. The Fund's road projects are eligible infrastructure projects under the InvIT Regulations and held through special purpose vehicles ("Project SPVs" together as "Project SPV Group"). The Fund's portfolio comprises of nine road projects as listed below:-

Project SPV Name**	Residual Concession life*	Proposed shareholding	Nature of Investment	Status	Principal Activities	Country of incorporation
IRB Westcoast Tollway Limited (IRBWTL)	19 years 11 Months 2 days	100%	Subsidiary	Tolling and Construction	Construction and operation of road including toll collection.	India
Solapur Yedeshi Tollway Limited (SYTL)	21 years 9 Months 21 days	100%	Subsidiary	Operating		India
Yedeshi Aurangabad Tollway Limited (YATL)	19 years 3 Months 1 days	100%	Subsidiary	Operating		India
Kaithal Tollway Limited (KTL)	20 years 3 Months 14 days	100%	Subsidiary	Operating		India
AE Tollway Limited (AETL)	18 years 4 Months 2 days	100%	Subsidiary	Operating		India
Udaipur Tollway Limited (UTL)	16 years 5 Months 3 days	100%	Subsidiary	Operating		India
CG Tollway Limited (CGTL)	15 years 7 Months 5 days	100%	Subsidiary	Operating		India
Kishangarh Gulabpura Tollway Limited (KGTL)	15 years 10 Months 22 days	100%	Subsidiary	Tolling and Construction		India
IRB Hapur Moradabad Tollway Limited (IRBHMTL)	19 years 1 Months 25 days	100%	Subsidiary			India

* Represents residual concession life as at March 31, 2022 as per original concession period (without considering extension of concession period, if any).

** Of the above Project SPVs, IRBWTL, SYTL, YATL, AETL, CGTL, UTL and IRBHMTL have been converted to public companies on November 13, 2019 and KTLand KGTL on November 14, 2019 .

2 **Basis of preparation**

A. Statement of compliance

The Consolidated Financial Statements of Project SPV Group comprises of Consolidated Balance Sheet as at March 31 2022 and 31 March 2021 , the Consolidated Statement of Profit and Loss (including Other Comprehensive Income) of the Project SPV group, the Consolidated Statement of Cash Flow Statement, the Consolidated Statement of Changes in Equity of the movement of the unit holders for the year ended March 31 2022 and March 31, 2021 , the consolidated statement of net assets at fair value as at March 31 2022 and March 31, 2021 and the consolidated statement of total returns at fair value for the year ended March 31, 2022 and March 31, 2021, a summary of significant accounting policies, notes and other explanatory Information.

The Consolidated Financial Statements of the Project SPV Group have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Act, read with other relevant provisions of the Act.The ConsolidatedFinancial Statements have been prepared on a historical cost basis, except for certain assets and liabilities which have been measured at fair value.

The Consolidated Financial Statements are presented in Rs. in millions, except when otherwise indicated.Wherever the amount represented '0' (zero) construes value less than Rupees five thousand.

B Basis of preparation of Consolidated Financial Statements

The Consolidated Financial Statements comprise the financial statements of the Project SPV Group.

Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

The financial statements of all Project SPVs used for the purpose of consolidation are drawn up to the same reporting date i.e. year ended on March 31.

Consolidation procedure:

(a) Consolidate like items of assets, liabilities, equity, income, expenses and cash flows of Project SPVs.

(b) Eliminate in full intra Project SPVs assets and liabilities, income, expenses and cash flows relating to transactions between Project SPVs of the Project SPV Group (profits or losses resulting from intra Project SPV Group transactions that are recognised in assets, such as inventory and property, plant and equipment, are eliminated in full). Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Project SPV Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

3 **Summary of significant accounting policies**

3.01 **Current versus non-current classification**

The Project SPV Group has identified twelve months as its operating cycle. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

The Project SPV Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Project SPV Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

3.02 **Use of estimates and judgements**

The preparation of the Project SPV Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

Estimates and assumptions

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and future periods are affected.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Project SPV Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Fair value measurement of financial instruments (refer note 31)

Provision for major maintenance (refer note 20)
Impairment of non financial assets (refer note 3.17)

3.03 **Fair value measurement**

The Project SPV Group measures financial instruments, (refer note 31) at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Project SPV Group.
The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Project SPV Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
Level 3 -Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Project SPV Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Project SPV Group's Management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Project SPV Group's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

On an annual basis, the Management presents the valuation results to the Investment Manager and the Project SPV Group's independent auditors. This includes a discussion of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Project SPV Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

Disclosures for valuation methods, significant estimates and assumptions (note 3.02)

Financial instruments (including those carried at amortised cost) (note 5,6,7,8,11,17,18,19,31)

Quantative disclosure of fair value measurement hierarchy (note 32)

3.04 **Revenue recognition**

The Project SPV Group has applied the following accounting policy for revenue recognition:

Revenue from contracts with customers:

The Project SPV Group recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:
Step 1. Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2. Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3. Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4. Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5. Recognise revenue when (or as) the entity satisfies a performance obligation.

The Project SPV Group satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:
1. The customer simultaneously receives and consumes the benefits provided by the Project SPV Group's performance as the Project SPV Group performs; or
2. The Project SPV Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
3. The Project SPV Group's performance does not create an asset with an alternative use to the Project SPV Group and the entity has an enforceable right to payment for performance completed to date.

Contract revenue

Contract revenue associated with the utility shifting incidental to construction of road are recognized as revenue by reference to the stage of completion of the projects at the balance sheet date. The stage of completion of project is determined by the proportion that contract cost incurred for work performed up to the balance sheet date bears to the estimated total contract costs. Project SPVs operations involve levying of GST on the construction work. Goods and Service tax is not received by the project SPVs on its own account, rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

Income from the concession arrangements earned under the intangible asset model consists of the (i) fair value of contract revenue, which is deemed to be fair value of consideration transferred to acquire the asset; and (ii) payments actually received from the users. The intangible asset is amortised over its expected useful life in a way that reflects the pattern in which the asset's economic benefits are consumed by the Project SPV Group, starting from the date when the right to operate starts to be used. Based on these principles, the intangible asset is amortised in line with the actual usage of the specific public utility facility, with a maximum of the duration of the concession.

Income from toll contracts

The income from Toll Contracts on BOT basis are recognised on actual collection of toll revenue (net of Premium and revenue share payable to NHAI) as per Concession Agreement. Revenue from electronic toll collection is recognised on accrual basis.

Interest income

For all financial assets measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Project SPV Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss.

Dividends

Revenue is recognised when the Project SPV Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

Trade receivables

A receivable represents the Project SPV Group's right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due.

3.05 **Government Grants**

Grants and subsidies from the government are recognised if the following conditions are satisfied.

There is reasonable assurance that the Project SPV Group will comply with the conditions attached to it.
Such benefits are earned and reasonable certainty exists of the collection.
Government grants are recognised in accordance with the terms of the respective grant on accrual basis considering the status of compliance of prescribed conditions and ascertainment that the grant will be received.

Grant received are considered as a part of the total outlay of the construction project and accordingly, the same is reduced from the gross value of assets.

3.06 **Taxes**

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the country where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction. affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity .

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognised in the consolidated statement of profit and loss. Deferred tax is recognised in consolidated statement of profit and loss on the consolidated adjustments.

Minimum Alternate Tax (MAT)

Minimum Alternate Tax (MAT) paid as per Indian Income Tax Act, 1961 is in the nature of unused tax credit which can be carried forward and utilised when the Project SPV Group will pay normal income tax during the specified period. Being DTA tax credit is recognised to the extent that it is probable that the unused tax credit can be utilised in the specified future period. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

3.07 **Property, plant and equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment losses if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.Any trade discount or rebates are deducted in arriving at the purchase price.

Depreciation is calculated on written down value method (WDV) using the useful lives as prescribed under the Schedule II to the Companies Act, 2013 or re-assessed by the Project SPV Group based on technical evaluation. The Project SPV Group has estimated the following useful lives for its tangible fixed assets:

Asset class	Useful life
Building	30 years*
Office equipment	5 years
Computers	3 years
Furniture & fixtures	10 years

* The useful life of building has been calculated by management as per their technical estimate.

3.08 **Intangible assets**

The Project SPV Group exercised first time adoption under Ind AS 101 and has elected to continue with the carrying value of its "Toll Collection Rights" (Intangible Assets) including corresponding obligation, as recognised in the financial statements as at the date of transition April 1, 2016 measured as per the Previous GAAP and uses that as its deemed cost as at date of transition.

Toll collection rights are stated at cost, less accumulated amortisation , impairment losses and grant from government. Cost includes:
a) For acquired Toll Collection Rights - Upfront payments towards acquisition and incidental expenses related thereto.
b) Toll Collection Rights awarded by the grantor against construction service rendered by the Project SPV Group on BOT / DBFOT basis - Direct and indirect expenses on construction of roads, bridges, culverts, infrastructure and other assets at the toll plazas.

c) Toll Collection Rights in lieu of premium - Undiscounted premium obligation over the concession period.

Amortisation

Toll Collection Rights are amortised over the period of concession, using revenue based amortisation as prescribed in Ind As-36. Under this method, the carrying value of the rights is amortised in the proportion of actual toll revenue for the year to projected revenue for the balance toll period, to reflect the pattern in which the assets economic benefits will be consumed. At each balance sheet date, the projected revenue for the balance toll period is reviewed by the management. If there is any change in the projected revenue from previous estimates, the amortisation of toll collection rights is changed prospectively to reflect any changes in the estimates.

Intangible assets under development

Expenditure related to and incurred during implementation of project are included under "Intangible Assets under Development". The same will be transferred to the respective intangible assets on completion of project.

3.09 **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences between the foreign currency borrowing and the functional currency borrowing to the extent regarded as an adjustment to the borrowing costs.

3.10 **Leases**

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Project SPV Group as a lessee

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Project SPV Group will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Project SPV Group is classified as a finance lease.

Operating lease payments are recognised as an expense in the consolidated statement of profit and loss on a straight-line basis over the lease term.

Ind AS 116 - Leases

Ind AS 116, Leases, it sets out principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases, except short-term leases and leases for low-value items, under a single on-balance sheet lease accounting model. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. Lessor accounting largely unchanged from the existing standard – i.e. lessors continue to classify leases as finance or operating leases.

Based on the preliminary assessment, the Company does not expect any significant impacts on transition to Ind AS 116. This assessment is based on currently available information and may be subject to changes arising from further reasonable and supportable information when the standard will be adopted.

Project SPV Group as a lessor

Leases in which the Project SPV Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Project SPV Group to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Project SPV Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

3.11 **Provisions**

Provisions are recognised when the Project SPV Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Project SPV Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3.12 **Resurfacing expenses**

As per the Concession Agreements, the Project SPV Group is obligated to carry out resurfacing of the roads under concession. Provision for the planned expenditure is made for the period upto end of the period for which periodic maintenance is required, out of the total entitiled period.The same is stated in the consolidated statement of profit and loss in accordance with Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets."

3.13 **Contingent liability and Contingent assets**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Project SPV Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Project SPV Group does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent assets is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements.

Contingent liabilities and contingent assets are reviewed at each balance sheet date.

3.14 **Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through statement of profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

On initial recognistion, a financial asset is classified as measured of
- amortised cost
- FVOCI - Debt instruments
- FVOCI - equity instruments
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the year, the Project SPV Group changes its business model for managing financial assets.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:
- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Project SPV Group recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of profit and loss.Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as at FVTOCI, is classified as at FVTPL.

In addition, the Project SPV Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Project SPV Group has designated certain debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Project SPV Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Project SPV Group makes such election on an instrument-byinstrument basis. The classification is made on initial recognition and is irrevocable.

If the Project SPV Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Project SPV Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Project SPV Group of similar financial assets) is primarily derecognised (i.e. removed from the Project SPV Group's consolidated balance sheet) when:

- The rights to receive cash flows from the asset has expired, or
- The Project SPV Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Project SPV Group has transferred substantially all the risks and rewards of the asset, or (b) the Project SPV Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Project SPV Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Project SPV Group continues to recognise the transferred asset to the extent of the Project SPV Group's continuing involvement. In that case, the Project SPV Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Project SPV Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Project SPV Group could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Project SPV Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

-Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
-Financial assets that are debt instruments and are measured as at FVTOCI
-Lease receivables under Ind AS 17
-Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18 (referred to as contractual revenue receivables' in these financial statements)

-Loan commitments which are not measured as at FVTPL
-Financial guarantee contracts which are not measured as at FVTPL
The Project SPV Group follows 'simplified approach' for recognition of impairment loss allowance on:
-Trade receivables; and
-Other receivables
The application of simplified approach does not require the Project SPV Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Project SPV Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Project SPV Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

-All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument. -

-Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms
-Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Project SPV Group does not reduce impairment allowance from the gross carrying amount.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through Statement of profit and loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.
The Project SPV Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through Statement of profit and loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through statement of profit and loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Project SPV Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the consolidated statement of profit and loss.

Loans and borrowings

This is the category most relevant to the Project SPV Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings. For more information refer note 16.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.15 **Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprises of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Project SPV Group's cash management.

3.16 **Cash dividend to equity holders of the Project SPV Group**

The Project SPV Group recognises a liability to make cash or non-cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Project SPV Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

3.17 **Impairment of non-financial assets**

The Project SPV Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Project SPV Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset. unless the asset does not generate cash inflows that are largely independent of those from other assets or Project SPV Group's of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Project SPV Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Project SPV Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Project SPV Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Project SPV Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss.

Goodwill is tested for impairment annually as at 31 March and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or Project SPV Group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible assets with indefinite useful lives are tested for impairment annually as at 31 March at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

3.18 **Segment information**

Based on "Management Approach" as defined in Ind AS 108 - Operating Segments, the Management ("the Board of Directors") evaluates the Project SPV Group's performance and allocates the resources based on an analysis of various performance indicators by business segments. Inter segment sales and transfers are reflected at market prices.

Unallocable items includes general corporate income and expense items which are not allocated to any business segment.

Segment policies:

Based on "Management Approach" as defined in Ind AS 108 -Operating Segments, the Management evaluates the Project SPV Group's performance and allocates the resources based on an analysis of various performance indicators by business segments. Inter segment sales and transfers are reflected at market prices.

Unallocable items includes general corporate income and expense items which are not allocated to any business segment.

The Project SPV Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Project SPV Group as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

3.19 **Earnings per unit**

Basic earnings per unit are calculated by dividing the net profit or loss for the period attributable to unitholders by the weighted average number of units outstanding during the period. For the purpose of calculating diluted earnings per unit, the net profit or loss for the period attributable to unitholders and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

(i) Project loans for SPVs

March 31, 2022: Rs. 94,124.22 millions; March 31, 2021: Rs. 90,833.34 millions; pertains to term loans taken by SPV's (Special Purpose Vehicles) for Project financing.

Rate of interest

Rate of interest on the Indian Rupee loan from banks and financial institutions varies from 8.25% to 10.40% p.a. (March 31, 2021: 9.85% to 11.90%) and are secured by pledge of shares of its subsidiaries and subservient charge on the current assets of the company to the extent of 125% of the outstanding loan.

Nature of security

i) Secured by first charge on the movable/immovable asset by way of mortgage/hypothecation; first charge on all intangible assets, present and future; assignment of all receivables; book debts and all rights and interest in project, both present and future, excluding the Project Assets of respective companies;

ii) Secured by first charge on the Escrow Account, Debt Service Reserve Account and any other reserves and other bank accounts of the respective Companies.

iii) An irrevocable and unconditional corporate guarantee from IRB Infrastructure Developers Limited to meet shortfall (if any) between debt due and termination payments received from Concessioning Authority in case of termination of Concession Agreement for any reason in case of Project SPV's.

Repayment terms

The Indian rupee loans are repayable in structured monthly installments commencing after commercial operation date such that the total tenor does not exceed 17 years and repayable as per the repayment schedule specified in common loan agreement with the Lenders.

UTL, CGTL and KGTL have filed Writ petition with Hon'ble Rajasthan High Court with prayer to commence payment of Premium to National Highways Authority of India (NHAI) six months post actual completion of the project construction work. The Hon'ble High Court prima facie agreed with the contention of these companies and had provided interim relief from payment of premium. Vide judgement order dated 25th August, 2021, the Hon'ble High Court found merit in the contention of the companies and has directed the parties to resolve the dispute under Arbitration. The said matter is currently pending under Arbitration.

Note 29 : Trade payable

Under the Micro, Small and Medium Enterprises Development Act, 2006 ('MSMED') which came into force from 2 October 2006, certain disclosures are required to be made relating to Micro, Small and Medium enterprises. On the basis or the informntion and records available with the management, there are no overdue amount to the Micro and Small enterprises as defined in the Micro, Small Medium Enterprises Development Act, 2006 as set out in the following disclosures:

The disclosure in respect of the amount payable to enterprises which have provided goods and services to the Group and which qualify under the definition of micro and small enterprises, as defined under Micro, Small and Medium Enterprises Development Act, 2006 has been made in the consolidated financial statement as at March 31, 2022 based on the information received and available with the Group.

Particulars	**March 31, 2022**	**March 31, 2021**
Principal amount remaining unpaid to any supplier as at the period end	3.69	13.18
Interest due thereon	-	-
Amount of interest paid by the Company in terms of section 16 of the MSMED, along with the amount of the payment made to the supplier beyond the appointed day during the accounting period.	-	-
Amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the period) but without adding the interest specified under the MSMED, 2006	-	-
Amount of interest accrued and remaining unpaid at the end of the accounting period	-	-
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under the MSMED Act, 2006	-	-

MSME ageing schedule as at

Particulars	**March 31, 2022**	**March 31, 2021**
MSME Undisputed Dues	-	-
Less than 1 year	3.69	13.18

1-2 Years	59.90	1,376.22
2-3 Years	175.24	1,699.63
More than 3 years	-	318.55
Total	**1,290.89**	**4,684.26**

b) Intangible asset under development

Particulars	**March 31, 2022**	**March 31, 2021**
To be completed in		
Less than 1 year	1,290.89	4,684.26
1-2 Years	-	-
2-3 Years	-	-
More than 3 years	-	-
Total	**1,290.89**	**4,684.26**

Note 31 : Fair values

The carrying values of financials instruments of the Group are reasonable and approximations of fair values.

	Carrying amount		**Fair Value**	
	March 31, 2022	**March 31, 2021**	**March 31, 2022**	**March 31, 2021**
Financial assets				
Financial assets measured at amortised cost				
Loans	-	-	-	-
Other Financial assets	1,606.92	639.27	1,606.92	639.27
Financial assets measured at fair value through statement of Profit & Loss				
Investments (Quoted)	659.54	572.50	659.54	572.50
Financial assets measured at amortised cost				
Investments (Unquoted)	-	-	-	-
Trade receivable	51.55	100.24	51.55	100.24
Cash and cash equivalents	287.23	413.49	287.23	413.49
Other Bank balances	2,469.97	1,744.35	2,469.97	1,744.35
Financial liabilities				
Financial liabilities measured at amortised cost				
Trade payables	17,217.19	5,023.65	17,217.19	5,023.65
Borrowings	97,279.00	93,946.18	97,279.00	93,946.18
Other financial liabilities	38,191.92	44,919.67	38,191.92	44,919.67

The management assessed that the fair value of cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The discount for lack of marketability represents the amounts that the Group has determined that market participants would take into account when pricing the investments.

Note 32 : Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) price in active market for identical assets or liabilities

Level 2: Valuation technique for which the lowest level input that has a significant effect on the fair value measurement are observed, either directly or indirectly

Level 3: Valuation technique for which the lowest level input has a significant effect on the fair value measurement is not based on observable market data.

Note 33 : Financial risk management objectives and policies

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Board of Directors have overall responsibility for the establishment and oversight of the Group's risk management framework.

In performing its operating, investing and financing activities, the Group is exposed to the Credit risk, Liquidity risk and Currency risk.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, FVTOCI investments and derivative financial instruments.

Credit risk on financial assets

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Financial instruments

Credit risk from balances with banks, trade receivables, loans and advances and financial institutions is managed by the Group's management in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the top management on an annual basis, and may be updated throughout the year subject to approval of the Company's board of directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Trade receivables and Loans and Advances
Customer credit risk and Loans and advances is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. An impairment analysis is performed at each reporting date on an individual basis for major trade receivables and loan and advances. The Group has not identifed any impairment loss as at March 31, 2022

The following table provides information about the ageing of gross carrying amount of trade recievables as at :

(Rs in millions)

Gross Carrying Amount	**March 31, 2022**	**March 31, 2021**
Undisputed Trade recievables -	-	-
Less than 6 months	-	78.58
6 months - 1 year	29.37	-
1-2 Years	0.51	21.66
2-3 Years	21.66	
Total	**51.55**	**100.24**

Other financial assets
Credit risk from balances with banks and financial institutions is managed by the Group in accordance with the Group's policy. Investments of surplus funds are made only in highly marketable debt instruments with appropriate maturities to optimise the cash return on instruments while ensuring sufficient liquidity to meet its liabilities.

Interest rate risk
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate borrowings.

Interest rate sensitivity
The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after excluding the credit exposure on fixed rate borrowing. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Borrowings	**Fixed Deposits**	**Borrowings**	**Fixed Deposits**
Balance of Fixed Deposit and Borrowings	**March 31, 2022**		**March 31, 2021**	
- INR Millions	94,124.22	2,469.97	90,833.34	1,744.35
Increase in basis points - INR	50 bps	50 bps	50 bps	50 bps
Effect on profit before tax - INR Millions	(470.62)	12.35	(454.17)	8.72
Decrease in basis points - INR	50 bps	50 bps	50 bps	50 bps
Effect on profit before tax - INR Millions	470.62	(12.35)	454.17	(8.72)

Liquidity risk
Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including debt from banks at an optimised cost.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

As at March 31, 2022	**Carrying amt**	**Total**	**On Demand**	**Less than 1 year**	**1 to 5 years**	**> 5 years**
Long term Borrowings (Gross of unamortised transaction cost)#	98,243.70	98,243.70	4,085.74	633.43	14,152.24	79,372.29

Total	**1,43,889.52**	**1,43,889.51**	**219.09**	**27,066.17**	**38,387.32**	**78,216.92**

Note 34 : Capital management

Capital includes equity attributable to the equity holders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Project SPV Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the year ended March 31, 2022.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Net debt is calculated as loans and borrowings less cash and cash equivalents.

	March 31, 2022	March 31, 2021
Borrowings	97,279.00	93,946.18
Less: cash and cash equivalents (Note 10)	(287.23)	(413.49)
Net debt	96,991.77	93,532.69
Equity (Note 14 and 15)	77,396.04	78,018.95
Total equity	77,396.04	78,018.95
Capital and net debt	1,74,387.81	1,71,551.64
Gearing ratio (%)	55.62%	54.52%

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing borrowings in the current period.

Note 35

(a) During the year ended March 31, 2022, the Group has paid/accrued Rs. 1,779.36 millions (March 31, 2021, Rs. 875.53 millions) as Revenue Share to National Highways Authority of India ("NHAI") out of its toll collection in accordance with the Concession Agreements entered with NHAI. Income from Operations in the financials for the above periods is net off the above Revenue Share to NHAI.

(b) During the year ended March 31, 2017, AE Tollway Limited (AETL) has entered into a Concession agreement (CA) with NHAI for a period of 24 years. As per the terms of the CA, AETL has agreed to pay a premium in the form of "Additional Concession Fee" equal to Rs. 810.00 millions for the first year and each subsequent year such premium shall be determined by increasing the amount of premium in the respective year by an additional 5% as compared to the immediately preceding year. Management based on the legal opinion obtained and their evaluations of the terms of the CA, believes that such premium payable is restricted to the toll collection during the year and is in the form of revenue sharing arrangement. Accordingly, the premium payable for the year is accounted for as revenue share. The said treatment has been followed in case of CGTL and UTL where premium payment has commenced during the current year.

Note 36: Grant from Government Authorities

As per Article 25 of the respective Concession Agreement with the National Highways Authority of India ('NHAI' or 'the Grantor'), the Concessionaires are entitled to receive Grant for meeting the part of the project cost subject to the conditions laid down in the concession agreement. The details are as under:

(Rs in millions)

Name of the Company	Eligible for Grant	Grant received in FY 2016-17	Grant received in FY 2017-18	Grant received in FY 2018-19	Grant yet to be received
SYTL	1,890.00	1,391.70	403.80	**94.50**	-
KTL	2,340.00	1,533.79	806.21	-	-
YATL	5,580.00	-	4,230.24	**1,349.76**	-
IRBWTL	5,362.20	4,512.30	-	**849.90**	-
Total	**15,172.20**	**7,437.79**	**5,440.25**	**2,294.16**	-

Note 37 : Events after reporting period

No subsequent event has been observed which may require an adjustment to the balance sheet.

Note 38: Information on segment reporting pursuant to Ind AS 108 - Operating Segments

The Project SPV Group has identified business segment in accordance with Indian Accounting Standard 108 "Operating Segment" notified under section 133 of the Companies Act 2013, read together with relevant rules issued thereunder. The Group has identified Built, Operate and Transfer ('BOT') as its single reportable segment. Moreover the Group's activities are restricted within India and hence no separate geographical segment disclosure is considered necessary.

Note:

The above BOT/ DBFOT projects shall have following rights/ obligations in accordance with the Concession Agreement entered into with the Respective Government Authorities:-

a. Rights to use the Specified assets
b. Obligations to provide or rights to expect provision of services
c. Obligations to deliver or rights to receive at the end of the Concession.

Note 41: Earnings Per Unit (EPU)

EPU amounts are calculated by dividing the profit for the period attributable to unit holders by the weighted average number of Units outstanding during the year.

The following reflects the income and share data used in the EPU computations:

(Rs in millions)

	March 31, 2022	March 31, 2021
Profit attributable to unit holders for earnings	(4,435.98)	(3,252.48)
Weighted average number of Units for EPU	84,29,14,666	78,47,08,356
Face value per unit (in Rs)	100	100
Earning per unit (in Rs.)	(5.26)	(4.14)

Note 42 : COVID-19

The outbreak of Coronavirus (COVID-19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. As per the directions of the Ministry of Road Transport & Highways (MoRTH)/ National Highway Authority of India (NHAI), in order to follow MHA guidelines about commercial and private establishment in the wake of COVID-19 epidemic in the country, operations at the toll plaza of the Group were closed down w.e.f. 26th March, 2020. The toll operations were resumed from 20th April, 2020 by ensuring compliance with preventive measures in terms of guidelines/ instructions issue by Govt. of India to contain spread of Covid -19. Due to this, traffic for the toll road has been impacted. Management believes this is temporary and expects traffic will be normalised looking at the recent toll collection. In accordance with the Concession Agreement and NHAI policy no. 8.3.33/2020 and 8.4.20/2020 dated 26th May, 2020, the Group is eligible for extension of concession period with NHAI towards loss of revenue due to COVID-19 pandemic and NHAI is also extending COVID-19 loan to the Concessionaire for shortfall in cashflow.

The management has assessed and determined that considering the nature of its operations and overall revenue model, COVID-19 does not have material impact on the Group's financial position as at March 31, 2022 and its financial performance for the year then ended.

Note 43 : Other Statutory information

i) The Group have not traded or invested in Crypto currency or Virtual Currency during the financial year.

ii) The Group does not hold benami property and no proceedings under Benami transaction (Prohibition) Act 1988 have been initiated against the Group.

iii) The Group do not have any transactions with companies struck off.

iv) The Group have not any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961.

v) The Group have not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Group shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or

(b) provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

vi) The Group have not advance or loaned or invested (either from borrowed fund or share premium or any other source or kind of fund) by the company to or in any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Group shall:

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Group (Ultimate Beneficiaries) or

(b) provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

vii) The Group did not have any long-term contracts including derivative contract for which there were any material foreseeable losses.

viii) The Group has not declared a wilful defaulter by any bank/ financial institution or any other lender during the year.

Note 44 : Subsequent events

IRB Infrastructure Trust ("the Trust") has successfully completed fund raising by way of Rights Issue of Units amounting to Rs. 242.50 Crores from existing unitholders. The IRB Infrastructure Developers Limited (IRBIDL) being the Sponsor and 51% unitholder of the Private InvIT, invested Rs. 123.68 Crores and GIC Affiliates holding 49% units have invested Rs. 118.82 Crores. Post the rights issue, IRBIDL will continue to hold 51% units and GIC affiliates will continue to hold 49% units in the Trust.

Further, IRBIDL being the Sponsor of the Trust, has executed necessary Agreement/ documents for implementation of Palsit Dankuni Tollway Private Limited (PDTPL) by the Trust and accordingly, the Project will be executed by the IRBIDL and the Trust.

Note 45 : Previous year comparatives

Consequent to the issuance of " Guidance Note on Division II – Ind AS Schedule III to the Companies Act, 2013" certain items of financial statements have been regouped/ reclassified.

Independent Auditors' Review Report on Unaudited Interim Standalone Financial Information for the six months period ended September 30, 2024 of IRB Infrastructure Trust

To
The Board of Directors,
MMK Toll Road Private Limited
The Investment Manager of the IRB Infrastructure Trust ("the Investment Manager")

1. We have jointly reviewed the accompanying Unaudited Interim Standalone Financial Information of IRB Infrastructure Trust ("the Trust") which comprises Unaudited Interim Standalone Balance Sheet as on September 30, 2024, Unaudited Interim Standalone Statement of Profit and Loss, including other comprehensive income, Unaudited Interim Standalone Statement of Cash Flow, Unaudited Interim Standalone Statement of Changes in Unitholders Equity, Unaudited Interim Standalone statement of Net Assets at Fair Value, Unaudited Interim Standalone statement of total return at fair value and Net Distributable cashflows ('NDCF') of the Trust as an additional disclosure in accordance with the Securities and Exchange Board of India ("SEBI") Master Circular SEBI/ HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024, as amended for the six months period then ended and notes to the standalone financial information including material accounting policies and other explanatory notes (together hereinafter referred to as the "Unaudited Interim Standalone Financial Information"). These unaudited interim standalone financial information for the period from April 01, 2024 to September 30, 2024 have been prepared solely for inclusion in the Letter of Offer ("LOF") in connection with the proposed right issue of units of the Trust.

2. The Unaudited Interim Standalone Financial Information, which is the responsibility of the Investment Manager and approved by the Investment Manager's Board of Directors, has been prepared in accordance with the requirements of SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time read with the Paragraph 3.21 of Chapter 3 and Paragraph 4.6 of Chapter 4 of the Securities and Exchange Board of India ("SEBI") Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024, as amended ("SEBI Circular"), together known as ("InvIT Regulations"), and principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ('Ind AS 34') prescribed under rule 2(1)(a) of Companies (Indian Accounting Standards) Rules 2015, as amended and other recognised accounting principles generally accepted in India, to the extent not inconsistent with the InvIT Regulations.

3. We conducted our review of the Unaudited Interim Standalone Financial Information in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. A review consists of making inquiries, primarily of Investment Manager's personnel responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

4. Based on our review conducted as stated in paragraph 3 above, nothing has come to our attention that causes us to believe that the accompanying Unaudited Interim Standalone Financial Information, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standards and other recognised accounting principles generally accepted in India, to the extent not inconsistent with InvIT Regulations, has not disclosed the information required to be disclosed in terms of the Regulations 23 of the SEBI (Infrastructure Investments Trust) Regulation, 2014, as amended, read with SEBI Circular including the manner in which it is to be disclosed, or that it contains any material misstatement.

5. We draw attention to Note 11 of the accompanying Unaudited Interim Standalone Financial Information, which describes the presentation of 'Unit Capital' as 'Equity' to comply with the InvIT Regulations.

   Our conclusion is not modified in respect of this matter.

6. The Unaudited Interim Standalone Financial Information of the Trust for the period April 01, 2023 to September 30, 2023 included in the Unaudited Interim Standalone Financial Information, were reviewed by Gokhale & Sathe, one of the Joint Auditor of the Trust, whose report dated December 09, 2024 expressed an unmodified conclusion of those Unaudited Interim Standalone Financial Information. Our conclusion is not modified in respect of the above matter.

7. The report is addressed to the Board of Directors of the Investment Manager and submitted solely for inclusion in the LOF in connection with the proposed right issue of units of the Trust.

   Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

   Our conclusion is not modified in respect of this matter.

Additional disclosures as required by paragraph 6 of chapter 4 to the master circular no. SEBI/HO/DDHS-POD-2/P/CIR/2024/44 dated 15th May 2024 as amended including any guidelines and circulars issued thereunder ("SEBI circulars")

Net Distributable Cash Flow for the six months ended September 30, 2024

(i) IRB Infrastructure Trust

(₹ in million)

Sr No.	Particulars	Six months ended September 30, 2024
1	Cashflows from operating activities as per Cash Flow Statement of the Trust	(102.49)
2	(+) Cash flows received from SPV's / Investment entities which represent distributions of NDCF computed as per relevant framework	4,977.23
3	(+) Treasury income / income from investing activities of the Trust (interest income received from FD, any investment entities as defined in Regulation 18(5), tax refund, any other income in interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. Further clarified that these amounts will be considered on a cash receipt basis)	112.14
4	(+) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs/Holdcos or Investment Entity adjusted for the following: • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations	-
5	(+) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs or Investment Entity not distributed pursuant to an earlier plan to re invest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently	-
6	(-) Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss Account of the Trust	(2,732.65)
7	(-) Debt repayment at Trust level (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt, in any form or funds raised through issuance of units)	(317.44)
8	(-) Any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with financial institution or (ii). terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ HoldCos, or (iii). terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ HoldCos, or (iv). agreement pursuant to which the SPV/ HoldCo operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations;	(445.10)
9	(-) any capital expenditure on existing assets owned / leased by the InvIT, to the extent not funded by debt / equity or from contractual reserves created in the earlier years	-
10	**NDCF at Trust Level**	**1,491.69**

Notes:

1. As per the master circular SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024, details of NDCF distributable is as below:

Particulars	Rs. (in million)
NDCF of Trust(A)	1,491.69
(+) NDCF of SPV's (B)#	4,994.36
(-) Amount distributed by SPV's (C)	4,977.23
Amount of NDCF Distributable D=(A+B-C)	**1,508.82**

NDCF of SPV's excludes NDCF for certain SPVs, where funds are not available for distribution on account of restrictions placed vide the terms of

Trust has ensured that minimum 90% of the above amount will be distributed as NDCF.

2. In accordance with the SEBI circular no SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024, the framework for computation of Net Distributable cash flows ("NDCF") is revised at Trust level for the period from April 01, 2024 to September 30, 2024. Accordingly, NDCF for the period April 01, 2024 to September 30, 2024 has been calculated and presented in accordance with the new framework. NDCF for the periods for on or before March 31, 2024, has been calculated and presented as per the earlier framework and has been disclosed / reproduced in NDCF of IRB Infrastructure Trust for the six months ended September 30, 2023, six months ended March 31, 2024 and year ended March 31, 2024.

Additional Disclosures as required by paragraph 6 of chapter 4 to the master circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023 as amended for the comparable periods

(ii) Net Distributable Cash Flow of IRB Infrastructure Trust for the six months ended September 30, 2023, six months ended March 31, 2024 and year ended March 31, 2024

(₹ in million)

Sr. No.	Particulars	Six months ended September 30, 2023	Six months ended March 31, 2024	Year ended March 31, 2024
1	Cash flows received from Project SPVs in the form of Interest[1]	1,325.00	2,423.20	3,748.20
2	Cash flows received from Project SPVs in the form of Dividend	-	-	-
3	Any other income accruing at the Trust level and not captured above, including but not limited to interest/return on surplus cash invested by the Trust	15.55	183.94	199.49
4	Cash flows received from the project SPVs towards the repayment (Net) of the debt issued to the Project SPVs by the Trust[2]	(752.80)	9,650.56	8,897.76
5	**Total cash inflow at the Trust level (A)**	**587.75**	**12,257.70**	**12,845.45**
	Less:			
6	Any payment of fees, interest and expense incurred at the Trust level, including but not limited to the fees of the Investment Manager	(115.06)	(2,519.48)	(2,634.54)
7	Income tax (if applicable) at the Standalone Trust Level	-	-	-
8	Repayment of external debt	-	(646.69)	(646.69)
9	Promoter contribution in under construction Project SPVs	-	(4,855.00)	(4,855.00)
10	**Total cash outflows / retention at the Trust level (B)**	**(115.06)**	**(8,021.17)**	**(8,136.23)**
11	**Net Distributable Cash Flows (C) = (A+B)**	**472.69**	**4,236.53**	**4,709.22**

Note :

1 Excludes interest due but not received of Rs. 5,009.88 millions, Rs.7,703.64 millions and Rs. 12,713.52 millions for the six months ended September 30, 2023, six months ended March 31, 2024 and year ended March 31, 2024.

2 Netted - off with disbursement of short-term unsecured loan to related parties. (Refer RPT disclosures of Standalone Unaudited Financial Information).

3 The same is earmarked towards capex for ongoing projects.

IRB Infrastructure Trust

Notes to Unaudited Interim Standalone Financial Information as at September 30, 2024

1. Trust Information and Nature of Operations

IRB Infrastructure Trust (the "Trust") is a trust settled pursuant to the indenture of trust dated August 27, 2019 which is registered under Indian Trust Act, 1882 and under the Securities Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time. The Trust is settled by the Sponsor, IRB Infrastructure Developers Limited (“IRB” or the “Sponsor”), an infrastructure development company in India. The Trustee to the Trust is IDBI Trusteeship Services Limited (the “Trustee”). Investment manager for the Trust is MMK Toll Road Private Limited (the "Investment Manager”). The Trust has received registration certificate from SEBI having registration number IN/InviT/19-20/0012.

The Trust has been formed to invest in infrastructure assets primarily being in the road sector in India. The Trust’s road projects are eligible infrastructure projects under the InvIT Regulations and held through special purpose vehicles (“Project SPVs” together as "Project SPV Group"). The Trust’s portfolio comprises of fifteen road projects as listed below:-

The Trust had acquired the projects at Sr no 1 to 11 and 13 from the Sponsor. The SPV at Sr. no 11 has been added to portfolio from 11.08.2023. The SPV at Sr. no 12 has been added to portfolio from 10.11.2023. The SPV at Sr. no 13 has been added to portfolio from 28.12.2023. The SPV at Sr. no 14 & 15 has been added to portfolio from 01.01.2024.

The registered office of the Investment Manager is Off No-11th Floor/1101 Hiranandani Knowledge Park, Technology Street, Hill Side Avenue, Powai Mumbai 400076.

The financial statements were authorised for issue in accordance with resolution passed by the board of directors of the Investment manager on December 09, 2024.

The Trust has been listed on NSE w.e.f. 03.04.2023

2. Basis of preparation

The Unaudited Interim Standalone Financial Information which comprises Unaudited Interim Standalone Balance Sheet as on September 30, 2024, Unaudited Interim Standalone Statement of Profit and Loss, including other comprehensive income, Unaudited Interim Standalone Statement of Net Asset at Fair Value, Unaudited Interim Standalone Statement of total returns at Fair Value, Unaudited Interim Standalone Statement of Cash Flow, Net Distributable Cash Flows (NDCF) of the Trust and Unaudited Interim Standalone Statement of Changes in Unitholders Equity for the six months period then ended and a summary of material accounting policies and other explanatory information (together hereinafter referred to as the "Unaudited Interim Standalone Financial Information"). These unaudited interim standalone financial Information for the period from April 01, 2024 to September 30, 2024 have been prepared solely for inclusion in the Letter of Offer ("LOF") in connection with the proposed right issue of units of the Trust.

The Unaudited Interim Standalone Financial Information has been prepared in accordance with the requirements of SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time read with the Paragraph 3.21 of Chapter 3 and the Paragraph 4.6 of Chapter 4 of the SEBI Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024 ("SEBI Circular"), together known as ("lnvlT Regulations"); recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting (Ind AS 34) prescribed under rule 2(1)(a) of Companies (Indian Accounting Standards) Rules 2015, as amended and other recognised accounting principles generally accepted in India, to the extent not inconsistent with the InvIT Regulations, (refer Note 11 below on presentation of "Unit Capital" as "Equity" instead of compound instruments under Ind AS 32 - Financial Instruments : Presentation).

These Unaudited Interim Standalone Financial Information for the period from April 01, 2024 to September 30, 2024 have been prepared solely for inclusion in the Letter of Offer in connection with the proposed right issue of units of the Trust, and should not be relied upon for any other purpose.

These Unaudited Interim Standalone Financial Information are not the statutory accounts for the purpose of any statutory compliances or for regulatory requirements in any jurisdiction. The Standalone Financial Statements of the Trust for the period from April 01, 2024 to September 30, 2024 were approved by the Board of Directors of the Investment Manager and authorised for inclusion in the Letter of Offer of the Trust on December 09, 2024.

The financial statements have been prepared on an accrual basis except for Statement of Cash flows and under the historical cost convention except for certain financial assets and liabilities (refer accounting policy regarding financial instruments) which have been measured at fair value and on Going Concern Basis.

The financial statements are presented in Indian Rupee ('INR') which is the functional currency of the Trust and all values are rounded to the nearest millions, except when otherwise indicated. Wherever the amount represented '0' (zero) construes value less than Rupees five thousand.

The accounting policies adopted, and methods of computation followed are consistent with those of the previous financial year, except for items disclosed below:

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standard) Amendment Rules 2023 dated 31 March 2023 to amend the following Ind AS which are effective from 1 April 2023

Ind AS 1, Presentation of Financial Statements An entity shall disclose material accounting policy information. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

Ind AS 8, Accounting policies, Change in Accounting Estimates and Errors Definition of 'Change in Accounting Estimates' in account has been replaced by revised definition of 'Accounting Estimate'. As per revised definition, accounting estimates are monetary amounts in the financial statements that are subject to measurement uncertainty. An entity develops an accounting estimate to achieve the objective set out by the accounting policy. Developing accounting estimates involves the use of judgements or assumptions based on the latest available, reliableinformation. An entity may need to change an accounting estimate if changes occur in the circumstances on which the accounting estimate was based or as a result of new information, new developments or more experience. By its nature, a change in an accounting estimate does not relate to prior periods and is not the correction of an error.

3. Summary of material accounting policies

3.1. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

3.2. Current versus non-current classification

The Trust presents assets and liabilities in the balance sheet based on current/ non-current classification.
An asset is treated as current when it is:
- Expected to be realised or intended to be sold or consumed in normal operating cycle

- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Trust has identified twelve months as its operating cycle.

3.3. Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Trust and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the transaction price of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognised:

Interest income
Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rates applicable. For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR).

Dividends
Revenue is recognised when the Trust's right to receive the payment is established, which is generally when shareholders approve the dividend.

3.4. Taxes

Current income tax
Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Trust operates and generates taxable income.

Current income tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or

directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax
Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:
- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity).

Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

3.5. Goods and Services Tax (GST) paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of goods and service tax paid, except:

When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

When receivables and payables are stated with the amount of tax included. The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet unless the tax is available for Input tax credit.

3.6. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of Trusts. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

3.7. Provisions

Provisions are recognised when the Trust has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Trust expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

3.8. Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Trust or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Trust does not recognise a contingent liability but discloses its existence in the financial statements.
A contingent asset is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements.
Contingent liabilities and contingent assets are reviewed at each balance sheet date.

3.9. Financial instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through Statement of Profit and Loss, directly attributable transaction cost to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Trust commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories;

- at amortised cost
- at fair value through profit or loss (FVTPL)
- at fair value through other comprehensive income (FVTOCI)

Financial Assets at amortised cost

A financial asset is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Trust. All the Loans and other receivables under financial assets (except Investments) are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

After initial measurement such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The losses arising from impairment are recognised in the Statement of Profit and Loss.

Financial Assets at Fair Value through Statement of Profit and Loss/Other comprehensive income

All investments in scope of Ind AS 109 are measured at fair value. The Trust has investment in Debt oriented mutual Trust which are held for trading, are classified as at FVTPL. The Trust makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable. The gain/ loss on sale of investments are recognised in the Statement of Profit and Loss. Instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Derecognition

A financial asset is primarily derecognised (i.e. removed from the Trust's balance sheet) when:
The rights to receive cash flows from the asset have expired, or
The Trust has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Trust has transferred substantially all the risks and rewards of the asset, or (b) the Trust has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Trust has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Trust continues to recognise the transferred asset to the extent of the Trust's continuing involvement. In that case, the Trust also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Trust has retained.

3.10. Impairment of assets

Impairment of financial assets

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Trust recognizes 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial assets increases significantly since its initial recognition.

The impairment losses and reversals are recognized in Statement of Profit and Loss.

Impairment of non-financial assets

The Trust assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Trust estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset unless the asset does not generate cash inflows that are largely independent of those from other assets or Trust's assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Trust’s financial liabilities include trade and other payables, loans and borrowings.

Subsequent measurement
The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Trust that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Loans and borrowings

This is the category most relevant to the Trust. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are de-recognised as well as through the EIR amortisation process.
